BOARDS AND COMMISSIONS APPLICATION FORM

INSTRUCTIONS

A separate application is required for each position for which you apply. Complete and specific answers will aid in rapid and accurate processing of your resume. Please type or print legibly in ink. Forward to the above address. Be sure your answers are true. A willfully false answer may result in your disqualification or removal from office if you are appointed.

Board or Commission and seat for which I am applying: Board of Fisheries
(For example, Board of Agriculture, public seat)

Please list any other State Boards or Commissions on which you currently or previously have served:
None

Name: Reed J. Morisky

Mailing Address: [REDACTED]

Residence Address: [REDACTED]

City, State and Zip Code: Fairbanks, Alaska 99712

Home or Message Telephone: [REDACTED] Business Telephone: [REDACTED]

Fax Number: N/A Cell Phone: [REDACTED]

Email address: [REDACTED]

AS 39-05-100 requires that a person appointed to a state board or commission be a registered voter prior to the last general election:

Are you a registered voter: YES NO Voter Registration Number (Optional): _____

Social Security Number (Optional, required if appointed for travel, reimbursement etc.): [REDACTED]

Have you ever been convicted of a misdemeanor within the past five years or a felony within the past ten years?

YES NO if "YES", explain the circumstances on a separate sheet of paper and attach it to this application. A conviction is not necessarily grounds for disqualification. The number of convictions, nature, recentness, and relationship to the board position applied for, will be evaluated and a determination will be made after a review of all relevant facts.

CONFLICTS OF INTEREST: Certain boards and commissions require full disclosure of personal financial data under AS 39.50.010. If required for the board or commission for which you are applying, are you willing to do so?
YES NO

Could you or any member of your family be affected financially by decisions to be made by the board or commission for which you have applied? YES NO

If "YES", explain:
Possibly, to the extent that any Board of Fish actions that would affect a sport fish guide business that my wife and I own, located in interior Alaska.

TRAINING AND EXPERIENCE: (If resume attached, it is not necessary to complete items A-D)

Reference attached Resume

A. List any professional licenses, certifications, or registrations and dates obtained that may be used as qualifying criteria:

USCG Captains License for inland waters, current and valid until 2014. Holder since 1995.

B. List both formal and informal education and training experiences: (Use additional paper if necessary)

Have owned and operated a sport fishing guide service based in interior Alaska, since 1984.
Based out of Fairbanks and Nenana.

C. List any community service, municipal government, and state positions held, and any awards received. Include both compensated and uncompensated positions (such as president of a service organization or a mayor). Include length of time serviced.

Sport Fishing Guide Services Board Task Force- Interior Member. 2006-2009
Service Area Commissioner, Summit Drive Service Area, Fairbanks, Alaska. 2003 to present.
Steese Area Volunteer Fire Department, Board of Directors- President, Fairbanks, Alaska. 2005-2006.
Interior Youth Soccer, Coach. Winters of 1991-2001.

D. Employment work history – paid, unpaid or voluntary: (Use additional paper of necessary).

Reference attached Resume

The Office of the Governor and the State of Alaska have an Affirmative Action Equal Employment Opportunity Program. To assist in the program, you are asked to voluntarily answer the following questions to provide the information necessary for reporting purposes. Under State and Federal law, the information you provide will not be used to illegally discriminate against you.

CERTIFICATION: I swear the information I have entered on this form is true to the best of my knowledge. I understand that if I deliberately conceal or enter false information on the form my application may be rejected, I may be removed from the list of eligible candidates, or I may be removed from the position. I agree that the Office of the Governor may contact present or former employees or other persons who know me to obtain an additional information about my skills and abilities. I understand that the information on this application is public information and may be released through a legal request for such information.

Signature (in ink):

Date: 1-11-13

Please attach a current resume with your application.

Reed J. Morisky – State of Alaska- Board of Fisheries Candidate

BoF Bio

Reed Morisky has been in Alaska since 1981, a sport fishing guide since 1984. and has maintained an interest in Alaska fisheries issues, in particular, issues that affect the interior region.

Reed's initial interest in Alaska fisheries issues was in the late 80's when the Legislature considered licensing sport fishing guides. Since then, he has been a member of the Sport Fishing Guide Services Board Task Force, and has advocated for a responsible sport fishing industry to achieve sustainable fisheries. He has held a US Coast Guard Captains license since 1995.

Volunteer efforts include FNSB Service Area Commissioner; Steese Area Volunteer Fire Department, Board of Directors; and Fairbanks Youth Soccer Association Coach.

Permit holder for interior subsistence fishing in 2010 and 2011.

Memberships include the Fairbanks Convention and Visitors Bureau, Trout Unlimited, Alaska Outdoor Council and the National Rifle Association.

Reed and his wife Laura, who is also a licensed sport fishing guide, have lived in Fairbanks since 1981, raised two children here and enjoy all that Alaska has to offer.

Objective

Appointment to a Seat on the State of Alaska Board of Fisheries

Summary

- 28 years owner and operator of Wilderness Fishing, Inc
- Interior member of Sport Fish Guide Board Task Force
- Familiar with interior Alaska fisheries issues
- Holder of USCG Captains License since 1995

Education

UAF, 1989 to 2005, completed course work in arctic engineering, estimating, computer applications, technical writing and quality assurance for general construction, as well as core curriculum courses.

Benson Technical High School, Portland, Oregon. Bronze Scholarship Award.

Work History

University of Alaska Fairbanks, Division of Design and Construction

June 1992 to Present

Project Manager

Provide engineering and construction management to the University of Alaska Fairbanks, including remote campus sites. Manage and coordinate construction activity to insure the owner and user goals are achieved. Act as the University's agent with construction contractors, architectural and engineering firms, suppliers and user committees. Review and monitor schedules for compliance. Assure quality design and construction of facilities by coordinating multiple groups during both the design and construction phases. Prepare estimates, budgets, schedules, specifications and drawings, for bid and RFP packages. Monitor and inspect contractor's quality and materials for compliance with the contract documents. Research and respond to contractor bid and field questions and issues. Develop scope of work and RFP documents. Conduct weekly project progress meetings. Coordinate all project phases with University Operations and Maintenance divisions.

Osborne Construction Co.

October 1991 to June 1992

Assistant Project Manager

Performed field-engineering duties on the Ft. Wainwright Physical Fitness Facility project. Responsible for preparing and submitting project red-line as-built documents and estimating for closeout change orders.

MAPCO Alaska Petroleum, Inc.

March 1990 to June 1991

Field Construction Engineer

Administer projects from estimating and bid to final inspection and closeout phases. Responsible for overseeing construction projects at the North Pole Refinery site. Responsibilities included tracking budgets and schedules and assuring as-built document integrity. Developed scope of work, bidding and construction documents. Develop V.O.C. monitoring program in compliance with E.P.A. regulations. Serve as a liaison between the onsite contractor and Mapco's engineering department to resolve construction related field and document issues.

Watterson Construction Co.

January 1989 to February 1990

Quality Control Representative

Manage Contractor Quality Control (CQC) for dormitory and office renovation projects at Eielson Air Force Base. Responsible for the development and implementation of quality control program, documenting asbestos abatement, inspection of work performed, supervising and coordinating tests, and maintaining project records. Coordinate Network Analysis scheduling system. Monitor safety program for effectiveness.

A&A Roofing Co., Inc.

December 1987 to November 1988

Quality Control Manager

Manage Contractor Quality Control for hangar renovation project at Eielson Air Force Base. Contracting Agency: U.S. Army Corps of Engineers. Responsibilities same as indicated above, under Watterson Construction Co.

G.S.L. Oilfield Services

October 1987 to December 1987

Operations Support

Assist ARCO personnel by managing gas rehydration and retrofitting projects. Work involved installation of piping systems, welding and oil cooling systems inspection. Offshore experience with Shell Oil at Tern Island in the Beaufort Sea.

Johnson Company

June 1987 to September 1987

Quality Control Manager

Manage Contractor Quality Control for a new HVAC system in the AGE building. Responsibilities same as indicated above, under A&A Roofing Co.

G.S.L. Oilfield Services

September 1986 to May 1987

Operations Support

Assist ARCO personnel by managing installation of piping and dewatering systems.

Design Alaska

September 1982 to August 1986

Construction Administrator

Perform Construction Administration for construction projects ranging to \$25 million. Responsible for tracking project scheduling and budgets. Review and process periodic pay estimates and change orders. Coordinate architects, consultants and contractors during all project phases.

To: Sen. Cathy Giessel

Subject: Reed Morisky

Dear Senator Giessel: I have been advised that Board of fish Appointee Reed Morisky will be before the Senate Resource committee for a confirmation hearing on Monday. I would like the Committee to know that I support his confirmation. I met Mr. Morisky three years ago at a Board of Fish meeting in Fairbanks and had the opportunity to get to know him in professional and personal environments. Since then I have had the pleasure of seeing him in his role as a member of the board and have had additional chances to discuss issues that were germane to our business as members of the Board of Fish. He has proven to be a very quick study of the issues that face the Board. As you are aware, new members of the board have a very steep learning curve because of the science and new language involved. After Mr. Morisky was appointed, he called me and asked for information on how to best prepare for Board meetings. That was a first for me. He understood that he was new at the job and wanted to get as much information to help him as was available. He did not come across as knowing what all the issues were, rather he was interested in learning the process. At the Area 'M' meeting, which was very challenging, he showed that he had read all of the material (a daunting task) and was conversant with the issues. I was quite surprised at his level of understanding. He asked appropriate questions and his comments during deliberations were relevant. I have never written in support of a Board of Fish appointee. But given, what I think to be an outstanding choice by the Governor, I thought that as a member of the Board and its current chairman, I would share my belief that Mr. Morisky will make an outstanding member who will always be prepared and will always follow our constitutional mandate of managing our fisheries resources on the basis of sustained yield. I will not be available to testify at his hearing on Monday and ask that you have my comments read into the record if that is possible. Thank you for all your efforts on behalf of Alaskans. Sincerely, Karl Johnstone. Chairman, Alaska Board of Fisheries

WRITTEN TESTIMONY

NAME:

Andrew Szczesny

REPRESENTING:

SELF

BILL # or SUBJECT:

APP. BOARD OF FISH

COMMITTEE:

DATE: 3-18-2012

I support the appointment of
Mr Reed Makisky I think he will be
A great fit for the board

Thanks Andrew Dyer

Good afternoon MR. Chairman and committee members,

My name is Steve McClure and I am the President of the Kenai River Professional Guide Association (KRPGA). We are a nonprofit C6 organization that represents sport fish interest here on the Kenai Peninsula.

I have not had the opportunity to meet MR. Reed Morisky but I do remember him from a committee that he served on a few years back and what I observed of him then spoke volumes about his ability, in my opinion, to be a great fit for the Board of Fisheries. He was well spoken, well prepared, and he was fair in regards that he took the information from all sides of the issues and made an unbiased decision on the information made available to him. He did not base his decision on who was presenting the information but rather on the information itself which as you know is critical in not only Cook Inlet but in all fisheries related issues in Alaska.

KRPGA strongly supports Reed Morisky to be appointed to the Board of Fisheries. Thank you for your time in regards to this matter.

A handwritten signature in cursive script that reads "Steve McClure". The signature is written in black ink and is positioned at the bottom center of the page.

**SENATE
CONFIRMATION COMMITTEE REPORT**

Date: April 1, 2013

In accordance with AS 39.05.080, the Resources Committee reviewed the following and recommends the appointments be forwarded to a joint session for consideration:

Board of Fisheries

Thomas Kluberton – Talkeetna

Appointed: 7/1/2010

Reappointed: 7/1/2013

Term Expires: 6/30/2016

Claude V. Webster – King Salmon

Appointed: 7/1/2007

Reappointed: 7/1/2010

Reappointed: 7/1/2013

Term Expires: 6/30/2016

This does not reflect an intent by any of the members to vote for or against the confirmation of the individuals during any further sessions.

Resumé Addendum
Claude Vincent Webster (Vince)

King Salmon, AK 99613

Background:

I was raised on a farm in Indiana. My life dream was to go to Alaska. I joined the Air Force to support my family and was rewarded by a transfer to King Salmon, Alaska in 1978. There I was introduced to the commercial fishing in Bristol Bay and the greatest Rainbow Trout fishing in the world. I was transferred to Elmendorf Air Force Base from 1979 to 1982 where I continued to enjoy the great outdoors. I was offered a job in the maritime ship yards, on the west coast from 1982-1988. I purchased my first Bristol Bay Setnet permit in 1984. My wife (Sheryl) and I moved our family (Troy and Derek) back to King Salmon in 1989 for a more intimate education. Our sons went on to graduate from Eastern Connecticut State and Yale University with honors. We continue to reside in King Salmon and enjoy sharing our fishing operation with our sons and grandchildren every summer.

Work Experience:

1984-Present..Set gillnet operator in the Naknek/Kvichak District of Bristol Bay.
2004-Present..Drift gillnet operator in the Naknek/Kvichak District of Bristol Bay.
2008-Present..Engineering Heavy Equipment & Barge Operator at Katmai National Park.
2000-2008..Facilities & Maintenance Director for Lake & Peninsula School District.
1997-2000..Maintenance & Construction for Katmai National Park.
1989-1990..Cannery Construction for BKR & Associates at Cordova, Kodiak, Petersburg and Naknek, Alaska.
1982-1988..Ship Repair Coordinator & Branch Manager for Donco Inc. in California and Washington.
1975-1982..US Air Force.
1978..Managed Air Force boat dock & operated an Air Force charter boat at King Salmon.

Other Fisheries Experience:

Togiak Herring, Cinder River Salmon, Chignik Salmon, Bristol Bay Halibut and numerous sport fisheries throughout the state.

Community Service & State Positions Held:

Presently serve on the Alaska Board of Fisheries.
Served on the Naknek/Kvichak Fish and Game Advisory Committee for over 15 years.
Set on numerous fish committees & task forces.

Education & Training:

Graduated Jennings County High School, Indiana 1974.
Versailles Vocational School, Indiana 1973.
Air Force Aircraft Weapons Release Systems Tech School 1976.
USCG Merchant Mariner Credential, 100 Ton Master

Press Release Wording

Claude Vincent Webster, of King Salmon, is a Commercial Fisherman in Bristol Bay. He served on the Naknek/Kvichak advisory committee for 15 years prior to serving on the Board of Fisheries.

Submitted: 01/22/13 at 5:50 pm from 10.48.236.45

Resumé Addendum

Am Presently on Board of Fisheries approaching end of first term Seeking Re-appointment for another term which would begin in 2013. Thought it best to make my intentions known as I have been encouraged to continue and have been asked whether I was willing. Seemed the best thing to do was submit the form so it is apparent that I am willing to serve another term.

Press Release Wording

{Tom Kluberton}, [REDACTED] of {Talkeetna}, is an owner and operator of Fireweed Station Inn,} he served for the past three years on the Alaska Board of Fisheries prior to which he had served on the Matanuska-Susitna Borough Assembly.

Alaska State Legislature
Senate Resources Committee
Senator Cathy Giessel, Chair
State Capitol
Juneau, AK 99811

**SUBJECT: VINCE WEBSTER AND TOM KLUBERTON FOR CONTINUED
APPOINTMENT TO THE ALASKA BOARD OF FISHERIES**

Dear Senator Giessel and Resources Committee Members,

Petersburg Vessel Owners (PVOA) is a diverse group of 100 commercial fishermen and businesses operating primarily in Southeast Alaska but who participate in a variety of fisheries statewide including cod, salmon, herring, crab, and shrimp. PVOA would like to express our support for Vince Webster and Tom Kluberton, continuing candidates for the Board of Fisheries.

Both Vince and Tom are knowledgeable and responsible Board members with the ability to comprehend large amounts of information in a short period of time. Based on our experiences, both of these gentlemen appear to be thoughtful and forthright participants who do their homework and show concern for the public process. Their service on the Board thus far has been commendable and demonstrates their dedication to the careful management of Alaska's fisheries. The reappointment of Vince and Tom will ensure continuity and benefit members of the public who participate in this process.

We feel that both of these gentlemen are experienced and talented Board members and will continue to be outstanding members of the Board of Fisheries.

If we can provide further information or answer any questions as you make this important decision, please feel free to contact us.

Sincerely,

Brian Lynch
Executive Director

2 Oppose BOF Vince Webster

Subject: Vince Webster

Hello to All,

I am lodge owner and fishing guide on the Kenai River. On Monday, April 8th you will be voting on the appointment of Vince Webster to the Alaska Board of Fisheries. I am asking you to carefully consider your vote if you are in favor of conserving the declining king salmon fishery. In the March BOF meeting Mr. Webster led the charge in lowering the escapement goal of the second run of Kenai kings. How can we possibly harvest our way back to abundance? Is this really good for the long term king fishery?

I would like to see an appointment of an individual who errors on the side of conservation, and not short term economic gain. Please do not appoint Vince Webster back to the Board of Fish.

Sincerely,
Keith Holtan
Kenai, AK

Subject: KRSA opposes confirmation of Vince Webster to Alaska Board of Fisheries

April 4, 2013

Dear Senator Giessel;

Kenai River Sportfishing Association (KRSA) opposes the reappointment of Mr. Vince Webster to the Alaska Board of Fisheries (BOF). When actions by a member of the board undermine public confidence in the board process, it is incumbent upon the Alaska Legislature to act to restore confidence in that board through its oversight responsibility in the confirmation of board members.

Mr. Webster has a pattern of behavior that is problematic and contrary to a healthy public process. He imposes his own personal agenda on specific proposals at the last minute through substitute language that is not open for proper public review, comment and debate.

The most recent example of this behavior was at the BOF Statewide Finfish meeting, where discussion centered on Cook Inlet king salmon issues. Mr. Webster authored the substitute language in RC 88. That proposal considered paired step down measures for all user groups that harvest Kenai kings in order to share the burden of conservation, as outlined in the Policy for the Management of Sustainable Salmon Fisheries (5 AAC 39.222).

In RC 88 Mr. Webster, without consultation with other board members, stakeholders on the Cook Inlet King Salmon task force or members of the public, inserted harvest prohibitions on the personal use fishery (30,000 families in South-central Alaska) with no other step down measures for any of the other user groups. His idea to exclude dip netters from the harvest of kings while no other user group took harvest restrictions runs against board policy.

Mr. Webster co-chaired the Cook Inlet King Salmon task force and the subject never came as an option in more than six months of public testimony. Yet he injected this substitute language into the board process after the start of board deliberations when the public no longer had opportunity to review or comment, and provided other board members with little time for careful consideration of an idea that had yet to be properly vetted. His use of last minute substitute language is problematic at best and runs counter to a healthy public process.

In recent testimony to the Legislature, Mr. Webster stated that he did not think it was proper to consider allocation issues outside of the board's normal three year cycle. However, in this board meeting, out of cycle for Cook Inlet, he was perfectly content to take fish exclusively from one specific user group, the personal use fishery, and allocate them to the other user groups. His unilateral action was a significant reallocation of fish – and he did so without no public input or support. Mr. Webster readily took action that intentionally short-circuited the public process.

Another such example occurred last year for the personal use shrimp fishery in Prince William Sound. Mr. Webster inserted last minute substitute language on a proposal that sought to disperse commercial harvests to spread out effort. Only after board deliberations began, Mr. Webster used substitute language that had large allocative implications that had not been debated during the public process. He unilaterally took away the Department's ability to change gear to increase the harvest ability of the public, and set a fixed allocation for the personal use fishery – none of which had any public vetting prior to board deliberation. His personal agenda once again stuck a highly allocative tone, with no opportunity for public review or comment. That type of action reflects poorly on the integrity of the public process.

A final example is perhaps the most troubling of all: in order to expand and promote his own interests in the Bristol Bay commercial set net fishery, he has pushed for set net permit stacking across the state. Such an agenda runs contrary to the original intent of a House Bill sponsored by Rep. Samuels (HB 250) that provides relief to the Bristol Bay drift fleet, allowing two permit holders to fish from the same vessel with a reduced amount of gear. At no time was there discussion in the Legislature to authorize a different gear group, set netters, to hold two permits with full compliments of gear.

Since joining the board Mr. Webster has actively worked throughout the state to push for set net permit stacking. At a Southeast BOF meeting, a proposal based on the safety of fishermen sought to allow two set net permit holders to fish from the same vessel. Once again Mr. Webster struck at the last moment with substitute language. During board deliberation, he changed the very nature of a proposal and submitted language that authorized set net permit stacking in a Southeast fishery; the issue was never given public notice, was not on the agenda, and was never talked about before or during the meeting prior to board deliberations. Through last minute substitute language, he turned the original intent for user safety on its head and pushed his own agenda for set net permit stacking.

Mr. Webster's habit to use last minute substitute language as a means to intentionally circumvent the public process in order to promote his own agenda is corrosive. This pattern of behavior provides the public with no opportunity for review or comment. It undermines public confidence in the integrity of the Board of Fisheries.

KRSA respects the need to have a diversity of user groups and geographical areas represented on the BOF. We are not seeking to disrupt what many see as a balanced board. However, to restore good governance and respect for the public process, we ask that Mr. Webster not be confirmed to another term on the board. If he is not confirmed, we have the expectation that the Governor would select a qualified person to maintain the existing "balance" on the board.

KRSA respectfully asks that you vote No on the confirmation of Mr. Vince Webster to the Alaska Board of Fisheries. Thank you for your time and consideration on this important matter.

Sincerely,

Ricky Gease, Executive Director

Kenai River Sportfishing Association

RE: Support for Vince Webster, Tom Kluberton, and ADFG Scientific Data

Dear Honorable Representatives,

We would like to express our support for Alaska Board of Fisheries members Tom Kluberton and Vince Webster, and we encourage you to support their confirmation for another term on the board.

As families of the Kenai Peninsula and users of our salmon resource, we are thankful that Mr. Kluberton and Mr. Webster took the time last winter to do what few members of the BOF have – to come to the Kenai Peninsula and spend time meeting with both the scientists and the users, learning about our very diverse and healthy fishery. Thanks to all of the new scientific data produced by the hard working folks at ADFG, the UCI King Salmon Task Force was a truly educational experience for all. We felt that Mr. Kluberton and Mr. Webster were devoted to the public process, and did not allow pressure from special interest groups to outweigh the facts or the best interests of our resource.

We would also like to express our support for the BOF's unanimous decision to codify ADFG's newly established Sustainable Escapement Goal for Kenai River Late Run King Salmon of 15,000-30,000, while leaving the allocative issues regarding our fishery for the regularly scheduled 2014 Cook Inlet meeting.

ADFG data shows that this new goal takes into account both past errors in counting and newer and more dependable technology and methods of enumeration. The new goal also correlates with ADFG data that shows past escapements above 30,000 have contributed to diminished future yields. We agree with the Alaska Department of Fish and Game and the entirety of the members of the Alaska Board of Fisheries that this goal gives the best chance possible for high future yields and adequate fishing opportunity for all users.

The dedication and commitment of these two individuals to the Board of Fish and the public process it supports is exemplary. We encourage you to not only confirm their reappointment, but to thank them for a job well done.

Respectfully,

Todd L. Smith

Subject: BOF confirmations

Dear State of Alaska Legislators,

I am contacting you to show support for confirmation for Vince Webster and Tom Kluberton to the Alaska Board of Fish. I have been involved for four decades with the BOF process. I have seen many BOF members come and go. I believe that both of these gentlemen have done a good job on the BOF. Over the years I have found that sometimes it is hard to communicate with BOF members. With Vince and Tom the dialoge is always there. They might not agree with what I am trying to impart, yet they are always willing to have an exchange of information. This is truely what makes the BOF process work. Both of them were willing this past winter to work on the Task Force concerning Chinook salmon in Cook Inlet. How they handled themselves was very professional. As a result of there efforts, lines of communifications were opened up between user groups and the Department of Fish and Game. All very positive for Cook Inlet, which is a very complex fishery. The State of Alaska needs these two men to be reappointed to the Alaska Board of Fish.

Thank you,

Gary L. Hollier

State of Alaska
Senator Cathy Giessel, Chair
Senate Resources Committee
State Capitol, Room 427
Juneau, AK 99801-1182

Re: April 01, 2013 Testimony Senate Resources

Good afternoon Chairman Giessel, Vice-Chair Dyson, Senate members of the Resource Committee.

My name is Paul A. Shadura II; I am a resident of the Kenai Peninsula, today I am representing the Kenai Peninsula Fishermen's Association. Our organization has been representing commercial fishermen within the waters of Cook Inlet since 1954.

At present, our members represent primarily commercial setnet fisher families, although we also have members who represent the processing industry, drift fisheries, supplies and the general public.

The KPFA Board of Directors voted unanimously on March 29, 2013 to support Governor Parnell's nominees for vacancies on the Alaska Board of Fisheries.

We have worked with Vince Webster, Tom Kluberton and Reed Morisky and find that all three are approachable, respectful and concerned about the sustainability of our State's fisheries resources, this objective happens to be KPFA's mission statement, "*Ensuring the Sustainability of Our Fishery Resources*".

Individually they expend the extra effort; to listen to stakeholders; to understand complex science; to strive for a "balance" of opportunities for traditional harvesters. A feat that requires not only a concern for conservation, but also to maintain an abundant yield of fisheries stocks so that all citizens can appreciate our State's resources.

Thank you,

Paul A. Shadura II, Board Director
For the Board of Directors, KPFA

Representative Paul Seaton, Chairman
House Fisheries Committee
Alaska State Legislature
Juneau, AK 99811

Dear Representative Seaton and Committee Members:

The Alaska Trollers Association supports the re-appointment of Vince Webster and Tom Kluberton to the Alaska Board of Fisheries.

The members of our organization have had the opportunity to work with Vince Webster at two Southeast/Yakutat meetings and several statewide meetings and workshops. His gillnet and sportfishing experience has enabled him to readily understand many aspects of the fisheries in our region. While the complexities of the troll fishery appeared new to him, he has been studious on the issues and accessible to members of the public. These personal attributes, along with his years of experience as a Board member, lend a much needed constancy to the process in these challenging times.

Mr. Kluberton has been an excellent addition to the Board of Fisheries. He is approachable and always seems well-prepared, despite the volumes of information Board members must digest prior to and during each meeting. His remarks are cogent and thoughtful during deliberations, and it is apparent that he has a strong commitment to Alaska's sustainable resource management principals.

ATA believes that both these men are fine candidates for the Board of Fisheries. They are precisely the type of individuals that the state should encourage to serve in this important forum. We urge you to support the re-appointment of Vince Webster and Tom Kluberton.

Best Regards,

Executive Director

DEFENDING 12,000

— BOF Defend Escapement Goal

UNDERSTANDING ADF&G DATA

On Page 16 of the **Escapement Goal Report**, the recommended goal of 15,000 to 30,000 provides a "small safety factor" to reduce risk to the Chinook salmon stock. Without the "safety factor" the NEW SEG would be 12,000-28,000. (3,000 Chinook "safety factor")

Selection of an escapement goal always involves a tradeoff between risk to the stock (lower goals increase risk of overharvest) and risk to the fishery (higher goals increase risk of fishery restrictions). The recommended goal of 15,000 to 30,000 provides a small safety factor to reduce risk to the Chinook salmon stock. That is, the goal range is not centered with respect to maximum yield probabilities (Figure 8), nor with respect to expected sustained yields (Figure 9), being slightly higher than what would be required to symmetrically bracket these measures of yield performance. Along with the uncertainties discussed above, the primary reason for slightly elevating the recommended goal is that we have not yet experienced returns from escapements below 20,000 (Figure 12). The lowest escapement from which the return is complete was 23,830 (90% CI: 17,630-31,170) in 1997, which produced 59,000-88,370 (90% CI) returning adults (Table 4). Returns from the small 2009 escapement (22,320; 17,110-28,990) will commence as age-4 fish in 2013, and from the smaller 2010 escapement (16,320; 12,730-20,590) as age-4 fish in 2014 (Table 4).

This is a Yield Discussion

There is very little trade-off of yield between 22,000 escapement and 12,000.
This is not a biological risk.

Figure 9.—Expected sustained yield (solid black line), and 80% interval (short dashed black lines) as a function of spawning escapement for late-run Kenai River Chinook salmon, assuming average productivity for brood years 1979–2008. Vertical lines bracket recommended escapement goal range. Expected sustained yield under recent, reduced productivity (brood years 2004–2008) is also shown (long dashed red lines).

This is a YIELD discussion

Escapement S	Return R	Sustained Yield SY
2000	10,720	8,480
4000	20,070	15,630
6000	28,070	21,560
8000	34,920	26,400
10000	40,890	30,220
12000	45,820	33,180
14000	49,940	35,320
16000	53,150	36,750
18000	55,790	37,470
20000	57,820	37,630
22000	59,240	37,260
24000	60,280	36,400
26000	60,930	35,190
28000	61,370	33,610
30000	61,210	31,760
32000	61,030	29,690
34000	60,600	27,380
36000	59,980	24,920
38000	59,220	22,290
40000	58,380	19,540
42000	57,490	16,690
44000	56,450	13,710
46000	55,210	10,650
48000	53,970	7,492
50000	52,660	4,236

- **12,000** Escapement will produce a Return of 45,820 X 39% (Exp rate) = 17,869 (Harvest)
45,820(Return) - 17,869 (Harvest) = 27,951 (Escapement)
27,951-12,000 = 15,951 will not be harvested *Why?*
- **22,000** Escapement will produce a Return of 59,240 x 39% (Exp rate) = 23,100 (Harvest)
59,240(Return) - 23,100(Harvest) = 36,140 (Escapement)
36,140-22,000 = 14,140 will not be harvested *Why?*
- 12,000 Escapement produces 33,180 Sustained Yield
22,000 Escapement produces 37,260 Sustained Yield
Difference in Sustained Yield of 4,080 Chinook that will not be harvested due to an exploitation rate of 39%.

Why? There are limitations on **ALL** user groups which keeps the average exploitation rate at 39%. In order to increase exploitation rates to harvest excess fish, there would need to be an increase in bag limits, seasons and fisheries participation.

HARVEST RATES

HARVEST RATES FOR ALL USER GROUPS

Kenai River late-run Chinook salmon total run, harvest by user group, and estimated exploitation rate, 1986-2012.

Year	Total Run	Deep Creek	ESSN Kenai	Drift	Pers Use	Ed. Fishery	Inriver	Total Harvest	Exploitation Rate

HARVEST RATES FOR ESSN FISHERY

ESSN HARVEST RATE FOR LATE RUN KENAI RIVER CHINOOK SALMON

ESSN harvest rate is fairly constant.

You can see here over the years it ranges from 5% to 18% with an average of 13% regardless of total return.

ESSN do not harvest at higher rates on lower runs.

HARVEST RATES FOR IN RIVER SPORT FISHERY

HARVEST RATE FOR INRIVER SPORT FISHERIES LATE RUN KENAI RIVER CHINOOK

In river sport harvest rate is also fairly constant.

You can see over the years it ranges from 13% to 31% with an average of 22%

HARVEST RATES FOR ESSN & INRIVER SPORT FISHERY

TOTAL HARVEST RATE ESSN AND INRIVER SPORT FISHERY LATE RUN KENAI RIVER
CHINOOK SALMON

ESSN and In River Sport fisheries harvest at an average harvest rate of 35% and is constant across all total returns measured.

(39% with ALL user groups fishing)

A total return of 20,000 Chinook with ALL fisheries fishing regularly will produce a spawning escapement of 12,200.

Guided Trips On The Kenai River

Average Trips per Guide does not decrease when chinook restrictions are in place.

Looking Ahead

Will we have a better *crystal ball* in 2013?

In 2012 ADF&G projected 14,000 but what really showed up in 2012 was 29,000. That is 100% error at a critical time in our fisheries. In 2012 with 29,000 total run ALL fisheries could have fished normally with a 39% harvest rate and we would have had a 17,690 spawning escapement.

OFFICE OF THE GOVERNOR
MAILROOM

MAR 27 2012

*Alaskan Perimeter
Expeditions*

*Professional Alaskan Big Game Guide & Outfitter
Henry D. Tiffany, IV*

March 20, 2012

Mr. Jason Hooley
Director of Boards & Commissions
Office of the Governor
P.O. Box 110001
Juneau, Alaska 99811

Re: Alaska Big Game Commercial Services Board Appointment

Dear Mr. Hooley,

At the most recent Big Game Commercial Services Board (BGCSB) meeting here in Fairbanks, which I again attended as I have for many years, current BGCSB board member and former chairman, Mr. Paul Johnson, strongly encouraged me to update and resubmit to you my interest to be considered by the Governor to serve as a board member on the Big Game Commercial Services Board as a Master Guide from the Interior.

As I noted in an email to you in January of 2010 my grandfather, Edward J. Fortier, served on the State of Alaska's first Guide Board in 1973 and I would be honored to serve on the BGCSB to help support and give back, in small measure, to a profession and industry that I still remain passionate and supportive of even after almost 25 years as a professional guide.

Mr. Johnson indicated that it is advisable to research and disclose any potential issues that could surface during a vetting process and, upon his suggestion, I have done a public search of the Alaska Court Records and while there are a number of entries pertaining to my father, Henry D. Tiffany, III and his businesses, there are only four pertaining to me, Henry D. Tiffany, IV as follows:

Rifle & Archery Hunting Safaris • Photo Safaris • Custom Wilderness Adventures

• Ester, Alaska 99725 •

4FA-00T-1124533: April 2nd, 2000: I was issued a speeding ticket

3AN-02-00307PR: March 5th, 2002: Matters pertaining to my grandfather's estate

4FA-08-0125SC: July 29th, 2008: One of my clients filed a small claims case against me demanding a refund of the cost of his hunt because he did not harvest a Dall sheep, though there were opportunities. As there was no wrong doing on my part, I actually chose to have the small claims case brought to trial.

4FA-08-02668CI: October 14th, 2008: After a Judge was appointed and a trial date was set the claimant was almost found in contempt of court for not following through on his obligations and duties as it became apparent to the judge and all concerned that he had no intention of actually following through on his threats or going to trial but simply wanted to be a nuisance. The case was dismissed by the judge.

Another well respected member of our guiding industry also volunteered to me that during the Governor's previous guide seat selection last year you and/or the Governor may have been concerned about a situation that occurred 16 years ago, in 1996, where a now retired Trooper was investigating what he thought may have been some guiding infractions on my part. I can assure you that that was a misguided inquiry and I was never even questioned regarding it much less ever given a citation or violation of any sort. To this day, I do believe that a resident hunter guiding "under the table" in the area did participate in some illegal activity but I can assure you that I was not, nor ever have been, involved in any illegal guiding or hunting activity; my profession and this way of life means far too much to me to ever jeopardize it in such a way. I was awarded two of the highly coveted National Wildlife Refuge Guide Concession areas in 2005, for which applicants are well vetted it appears, and just recently submitted my reapplications for these same areas for another ten year period.

It is due to Mr. Paul Johnson's encouragement that I am again resubmitting my name for possible selection to serve on the BGCSB. While I remain a registered Republican and continue to support our Governor, with my two previous considerations to serve not successful I rather abandoned the idea but it was rekindled after Mr. Johnson's conversation with me last week.

Per your previous suggestion, I ask that you hold onto my application and give it consideration again when the next guide seat becomes available on the BGCSB. I have been an attendant at the Fairbanks Advisory Committee meetings as well as a regular participant at the BGCSB meetings and I believe all of the information in my previous application to you is still pertinent. If there is any additional information I may provide to augment my application, or if I will need to reapply, please let me know at your earliest convenience.

Again, I would like to thank you for the consideration you have shown me thus far and look forward to the possibility of serving our State and our Governor as a BGCSB member in the future.

If you have additional questions, or if I can provide you or your staff with additional information, please feel free to contact me on my cell phone [REDACTED] or my home office at [REDACTED]

Very truly yours,

Henry D. Tiffany IV
Master Guide # 144

Home or Message Telephone: [Redacted] Business Telephone: [Redacted]

Fax Number: [Redacted] Cell Phone: [Redacted]

Email address: [Redacted]

AS 39-05-100 requires that a person appointed to a state board or commission be a registered voter prior to the last general election:

Are you a registered voter: YES NO Voter Registration Number (Optional): [Redacted]

Social Security Number (Optional, required if appointed for travel reimbursement etc.): [Redacted]

Have you ever been convicted of a misdemeanor within the past five years or a felony within the past ten years?

YES NO if "YES", explain the circumstances on a separate sheet of paper and attach it to this application. A conviction is not necessarily grounds for disqualification. The number of convictions, nature, recency, and relationship to the board position applied for, will be evaluated and a determination will be made after a review of all relevant facts.

CONFLICTS OF INTEREST: Certain boards and commissions require full disclosure of personal financial data under AS 39.50.010. If required for the board or commission for which you are applying, are you willing to do so?
 YES NO

Could you or any member of your family be affected financially by decisions to be made by the board or commission for which you have applied? YES NO

If "YES", explain: Yes, it is conceivable that a situation could arise that, as an active and contracting Master Big Game Guide + Outfitter, could financially affect myself and my family.

Should a conflict of interest arise, or even the appearance of one, I would willingly recuse myself on the matter.

TRAINING AND EXPERIENCE: (If resume attached, it is not necessary to complete items A-D) *Please see attached resume*

- A. List any professional licenses, certifications, or registrations and dates obtained that may be used as qualifying criteria:

- B. List both formal and informal education and training experiences: (Use additional paper if necessary).

- C. List any community service, municipal government, and state positions held, and any awards received. Include both compensated and uncompensated positions (such as president of a service organization or a mayor). Include length of time serviced.

- D. Employment work history – paid, unpaid or voluntary: (Use additional paper of necessary).

The Office of the Governor and the State of Alaska have an Affirmative Action Equal Employment Opportunity Program. To assist in the program, you are asked to voluntarily answer the following questions to provide the information necessary for reporting purposes. Under State and Federal law, the information you provide will not be used to illegally discriminate against you.

Director of Boards & Commissions
Office of the Governor
Atwood Building, 550 W 7th Avenue
Anchorage, Alaska 99501

Re: Alaska Big Game Commercial Services Board Appointment

Dear Mr. Bailey,

Thank you for your kind phone message and I sincerely appreciate the consideration you gave my application to serve as a board member on the Big Game Commercial Services Board (BGCSB) as a Master Guide from the Interior.

I understand and support the Governor's decision to re-appoint Mr. Paul Johnson for a second term on the BGCSB. I know Paul and I feel he has been serving the board, and the State, well in his capacity and will continue to do so during his second term.

Per your suggestion, I ask that you hold onto my application and give it consideration again should another guide seat become available on the BGCSB in the future, as you have indicated may occur possibly within a year or two. If there is any additional information I may provide to augment my application, or if I will need to reapply, please let me know at your earliest convenience.

Again, I would like to thank you for the consideration you have shown me thus far and look forward to the possibility of serving our State as a BGCSB member in the future.

If you have additional questions, or if I can provide you or your staff with additional information, please feel free to contact me on my cell phone [REDACTED] or my home office at [REDACTED].

[REDACTED] yours,

Henry D. Tiffany IV
Master Guide # 144

OFFICE OF THE GOVERNOR
MAILROOM
JAN 22 2009

January 13, 2009

Mr. Frank Bailey
Director of Boards & Commissions
Office of the Governor
Atwood Building, 550 W 7th Avenue
Anchorage, Alaska 99501

Re: Alaska Big Game Commercial Services Board Appointment

Dear Mr. Bailey,

Please accept this as my letter of introduction and let it convey my desire to serve Governor Sarah Palin, and the citizens of Alaska, on the Big Game Commercial Services Board in the capacity of a professional guide from the Interior. As a Master Guide, I have successfully provided high quality services to hunters in Alaska since 1989.

Although I have guided in all the major regions of Alaska, and have concentrated experience in areas of Southeast, Southwest and Kodiak Island, my primary area of guiding expertise has been the Interior of Alaska, the Brooks Range and Alaska Peninsula.

As a lifetime resident of Alaska, born in Fairbanks, I am prepared to serve on the Big Game Commercial Services Board and work with the public, agencies of the State of Alaska and federal agencies (when necessary), as well as the guiding industry and consumers to insure that hunting in our state takes place in a orderly, ethical, professional and commercially viable manner.

Enclosed, for your review, is a resume outlining my background and experience as it relates to the guiding industry along with my application form and a list of references that can attest to my guiding services and character.

If you have additional questions, or if I can provide you or your staff with additional information, please feel free to contact me on my cell phone [REDACTED] or my home office at [REDACTED].

Very truly yours,

Henry D. Tiffany IV
Master Guide # 144

Summary of Qualifications

Over 25 years of experience in education including teaching, administration, leadership, planning, and development of adult education, vocational education, and employment training programs. My employment has given me experience in policy development and regulations at the state and national levels. I have had the opportunity to develop extensive service on boards and commissions including the Professional Teaching Practices Commission, The Glacier Highway Electric Association Board, National Association of State Directors of Vocational Education, the Juneau Community Garden Association, The University of Alaska Vocational Education Advisory Board, Alaska Nutrition Education Training Program Advisory Committee, and the Alaska Home Economics Association Board. My professional positions enabled me to be instrumental in the initiation and establishment of multiple agency collaborative efforts including the Departments of Education, Health and Social Service, Labor, Community and Regional Affairs, municipal governments and the private sector. In my leisure time I enjoy hunting, fishing and outdoor recreation.

Employment

2005- Present Self employment: Stone Soup Alaska Designs
1999-2005 University of Alaska Southeast Ketchikan Campus Director, Ketchikan
1997-1998 Owner/ Operator, Polley's Waterbug Service

Conflict of Interest

Certain boards and commissions require full disclosure of personal financial data under AS 39.50.010. If required for the board or commission for which you are applying, are you willing to do so?
Yes

Could you or any member of your family be affected financially by decisions to be made by the board or commission for which you are applying?
Yes

Please explain the potential financial benefit
Our family business is AlpenView Wilderness Lodge, Inc. A licensed transporter.

Employment History

Employment work history including paid, unpaid or voluntary.
I Moved to Kodiak in 1977 after getting my commercial pilot s license. I first worked as a pilot for Viking Air Service and later Island Air Service 1977 1980. This was my first exposure to big game commercial services as much of our flying was in support of bear and deer hunters.
I started commercial fishing in 1980 and continued flying as a fish spotter through 1987.

In 1985 I received my first special use permit from the USF&WS, to guide sport fishing on the Kodiak National Wildlife Refuge, under the business name Kodiak Outfitters . In 1988 I opened Olga Bay Lodge on southwest Kodiak Island and sport fish guiding has been my primary occupation from 1988 through the present. I m currently a major shareholder in, and manager of, AlpenView Wilderness Lodge, Inc.

Education, Training, Experience & Qualifications

List both formal and informal education and training experiences:

Graduated Lincoln High School, Tacoma, Washington/1975
Commercial Flight at Clover Park Voc/Tec Tacoma, Washington/1977

List any professional licenses, certifications, or registrations and dates obtained that may be used as qualifying criteria:

Commercial Pilot/1976
USCG 100 ton Master/1984
Transporter/2010

List any community service, municipal government, and state positions held, and any awards received.

Currently serving my second term as president of the Kodiak Association of Charterboat Operators (KACO).

Board of Game / BGCSB Application Biography

Nathan Turner

I was born and raised on a dairy farm in upstate New York. From an early age I learned the values and benefits of living a life close to the land, and especially the hard work and rewards that result from being dependent on the natural resources for your livelihood. I am grateful for those early years on the farm, and the important lessons that this type of live has to offer.

In 1989, at age 17, my father and I headed for Alaska with two pick-ups loaded with the essentials, the result of his lifelong dream of trapping in the Far North, and also a timely advertisement in Fur - Fish - and Game magazine; Trapline For Sale in Alaska. It took us 6 days to reach Alaska, and 10 additional days were spent on the road system in the Interior,

preparing for our first winter on the Kantishna River. The trapline we purchased had been unused for the previous 12 years, but had been started in 1926m and few but the old timers in the country even knew where it was. We were dropped off by a local bush pilot from Nenana in mid-September, and for the next ten months we learned a lot about Alaska... The winter of 1989 and 1990 was record breaking for the deep cold spells and snowfall – every winter has been an easy one since!

The next year on of my brothers joined us, we began in earnest to build our traplines into something that could support our family for the years to come. We started with the idea to treat trapping as though it were a business, working 6 days a week, with our cut-off period for trapping being 40 below. Three years later we started an additional trapline 85 miles to the west of the Nowitna country and during the next 19 years we cleared over two hundred miles of trapline trails for our dog teams and sno-gos, operated subsistence and test fishwheels (for both Fish and Game and the National Park Service), annually grew large gardens for our winter needs, built log homes and cabins for hire in the bush, and seasonally guided big game hunters. When we first arrive in the country, we were often told that the days of life on the trapline were gone; that this way of life wasn't possible anymore in Alaska. We found that they were wrong. The country hadn't changed and the economics of the life hadn't changed so much as the spirit of the people seemed to have. With first the dream, hard work and room to grow we found that it is still possible to live a rich and rewarding life directly from the resources the country provides. Alaska has been generous to us.

In 1996 I started working as an assistant hunting guide in the Nowitna drainages for the neighboring trapper who had a small guiding operation. We worked together for 6 years guiding hunters in our adjoining trapping areas, before I started contracting clients on my own in 2002. Since then, I have been fortunate to share this guiding opportunity with other neighbors in my part of the interior – all of us currently live and trap close to the areas we hunt in. We have been able to meet our annual subsistence needs while being paid to do so, much like a trapline. The harvested meat is shared among our families, and with less successful neighbors in the region. These packing and guiding jobs are the only local means of employment for most of us, other than trapping.

For the past 14 years I have also worked as an assistant guide for sheep in the Northern Brooks Range, and for Brown Bear out of Cold Bay on the Alaska Peninsula. In spite of having my own guiding business, I continue to work as an assistant guide on these hunts since it allows for me to annually visit these remote parts of the State, which have become a very important to me, and also to simply be 'a guide' and share in the daily adventure with the hunters as the experience unfolds.

Participation in the Public Process:

In recent years, I have felt the need and responsibility to actively take part in the public processes that have to do with my family's way of life. I have actively participates with the Board of Game process during the last 4 years, submitting my proposals for consideration and volunteering to participate in side boards that I feel have the ability to affect my way of life. I have also been actively involved in the restructuring efforts of the guiding industry. In 2007 I was nominated and elected to the Board of Directors of the Alaska Professional Hunters Association, the only professional association for the industry in the state. Our work in recent years has focused on aiding the Big Game Commercial Services Board in bringing oversight and accountability to guiding activities in the state and working with the Dept. of Natural Resources in creating the Guide Concession Area program. The goal of this program is to minimize the overcrowding of service providers throughout the state,

while at the same time establishing a framework by which service providers can be held accountable for resource stewardship and their conduct in the field. Every user group will benefit from these efforts at self-reform.

Purpose for Applying to the Board:

As noted above, I have come to feel a strong sense of responsibility to participate in the public processes that have bearing on my family's ability to make a living from the land. I recognize that there are many others in the State who are in similar situations, and yet I believe that I may have a somewhat unique perspective to bring to the table. I also feel that we need to continue the focus on restoring our wildlife populations in challenged parts of the state through sound management practices, and that these efforts will in time ease the conflicts among our various user groups.

Personal Information

Married: My wife, Cathy, and I have been married since 2004.

Children: Two Sons, Josiah, Micah

Primary Residence: Our place on the Kantishna River is a Patented Federal trade and Manufacturing site, and the center for all of our activities. Although I spend a large portion of the year on the Nowitna River, a lesser amount of time in remote camps in the Brooks Range and on the Peninsula, and 6 to 8 weeks in Fairbanks during the summer months, I consider this to be my primary residence.

Formal Education:

I completed my final two years of high school through the Yukon Koyukuk School District, Northwind correspondence program based out of Nenana. A teacher visited by bush plane several times during the winter to check my work. I was twice selected for "Who's Who Among American High School Students", and also competed in the Academic Decathlon.

Work History:

Through 1989: raised on our family dairy farm

1989 through present:

-actively trapping 5 to 6 months of each season since 1989

-seasonally guiding big game hunters (3 to 4 months each year) since 1996

-I and my family have built 19 structures (mostly log) along several rivers of the Interior, a number of these for hire during the summer months. For several summers I also worked intermittently as a carpenter's helper for a local contractor in Fairbanks. We have built our own fishwheels, dogsleds, showshoes, and boats over the years.

-subsistence fishing for our annual needs.

Licensing Held:

Private Pilot license – land and seaplane

Captain – Inland Freshwater Six pack license

Alaskan Registered Guide – No. 1036

Past Participation with Government Processes:

- I have held a number trapping cabin permits with both the Bureau of Land Management, and the US Fish and Wildlife Service for many years now, all in good standing
- I have several permitted hunting camps on BLM, USFWS, and State of Alaska lands, all in good standing
- For many years we operated test recovery wheels for counting salmon entering Denali

National Park via the Kantishna River drainage, funded by both the State and the National Park Service.

- In the early to mid 90's we supplied the USFWS in Galena with Lynx and Marten carcasses for their wildlife / marten studies, and continue to provide marten carcasses to the State Area Biologists in Galena to maintain the data continuity.
- We volunteered salmon blood samples to an ADF&G biologist in Fairbanks to aid in his studies related to stress levels in tagged salmon we had recovered, part of his Master's thesis.

Nathan Turner
Nenana, Alaska 99760

I was born and raised on a dairy farm in upstate New York. From an early age I learned the values and benefits of living a life close to the land, and especially the hard work and rewards that result from being dependent on the natural resources for your livelihood. I am grateful for those early years on the farm, and the important lessons that this type of life has to offer.

In 1989, at age 17, my father and I headed for Alaska with two pick-ups loaded with the essentials, the result of his lifelong dream of trapping in the Far North, and also a timely advertisement in Fur - Fish - and Game magazine; *Trapline For Sale in Alaska*. It took us 6 days to reach Alaska, and 10 additional days were spent on the road system in the Interior, preparing for our first winter on the Kantishna River. The trapline we purchased had been unused for the previous 12 years, but had been started in 1926, and few but the old timers in the country even knew where it was. We were dropped off by a local bush pilot from Nenana in mid September, and for the next ten months we learned a lot about Alaska... The winter of 1989 and 1990 was record breaking for the deep cold spells and snowfall – every winter has been an easy one since!

The next year one of my brothers joined us, we began in earnest to build our traplines into something that could support our family for the years to come. We started with the idea to treat trapping as though it were a business, working 6 days a week, with our cut-off period for trapping being 40 below. Three years later we started an additional trapline 85 miles to the west in the Nowitna country and during the next 19 years we cleared over two hundred miles of trapline trails for our dog teams and sno-gos, operated subsistence and test fishwheels (for both Fish and Game and the National Park Service), annually grew large gardens for our winter needs, built log homes and cabins for hire in the bush, and seasonally guided big game hunters. When we first arrived in the country, we were often told that the days of life on the trapline were gone; that this way of life wasn't possible anymore in Alaska. We found that they were wrong. The country hadn't changed and the economics of the life hadn't changed so much as the spirit of the people seemed to have. With first the dream, hard work, and room to grow we found that it is still possible to live a rich and rewarding life directly from the resources the country provides. Alaska has been generous to us.

In 1996 I started working as an assistant hunting guide in the Nowitna drainages for the neighboring trapper who had a small guiding operation. We worked together for 6 years, guiding hunters in our adjoining trapping areas, before I started contracting clients on my own in 2002. Since then, I have been fortunate to share this guiding opportunity with other neighbors in my part of the Interior – all of us currently live and trap close to the areas we hunt in. We have been able to meet our annual subsistence needs, while being paid to do so, much like the trapline. The harvested meat is shared among our families, and with less successful neighbors in the region. These packing and guiding jobs are the only local means of employment for most of us, other than trapping.

For the past 14 years I have also worked as an assistant guide for sheep in the Northern Brooks Range, and for Brown Bear out of Cold Bay on the Alaska Peninsula. In spite of having my own guiding business, I continue to work as an assistant guide on these hunts since it allows for me to

annually visit these remote parts of the State, which have become a very important to me, and also to simply be 'a guide' and share in the daily adventure with the hunters as the experience unfolds.

Participation in the Public Process:

In recent years, I have felt the need and responsibility to actively take part in the public processes that have to do with my family's way of life. I have actively participated with the Board of Game process during the last 4 years, submitting proposals for consideration and volunteering to participate in side boards that I feel have the ability to affect my way of life. I have also been actively involved in the restructuring efforts of the guiding industry. In 2007 I was nominated and elected to the Board of Directors of the Alaska Professional Hunters Association, the only professional association for the industry in the State. Our work in recent years has focused on aiding the Big Game Commercial Services Board in bringing oversight and accountability to guiding activities in the State and working with the Dept. of Natural Resources in creating the Guide Concession Area program. The goal of this program is to minimize the overcrowding of service providers throughout the State, while at the same time establishing a framework by which service providers can be held accountable for resource stewardship and their conduct in the field. Every user group will benefit from these efforts at self reform.

Purpose for Applying to the Board:

As noted above, I have come to feel a strong sense of responsibility to participate in the public processes that have bearing on my family's ability to make a living from the land. I recognize that there are many others in the State who are in similar situations, and yet I believe that I may have a somewhat unique perspective to bring to the table. I also feel that we need to continue the focus on restoring our wildlife populations in challenged parts of the State through sound management practices, and that these efforts will in time ease the conflicts among our various user groups.

Personal Information:

Married: My wife, Cathy, and I have been married since 2004.

Primary Residence: Our place on the Kantishna River is a Patented Federal trade and Manufacturing site, and the center for all of our activities. Although I spend a large portion of the year on the Nowitna River, a lesser amount of time in remote camps in the Brooks Range and on the Peninsula, and 6 to 8 weeks in Fairbanks during the summer months, I consider this to be my primary residence.

RE: Confirmation of Board members, Nate Turner, Pete Probasco, BOG

I fully support both Nate Turner & Pete Probasco appointments to the Board of Game. Nate Turner has a great quality of listening to all sides to make decisions. He is highly qualified to representing all users. The continuity to the board is vital to the state for both Nate & Pete. I am a trustee of the Alaska Outdoor Council. Alaskans needs a well rounded board with members like Nate & Pete.

Alaska Chapter SCI
PO Box 770511
Eagle River, AK 99577
(907) 980-9018

April 5, 2013

The Honorable Charlie Huggins
Alaska State Senate President
Alaska State Capitol
Juneau, AK 99801

Dear Senator Huggins:

I am writing to let you know that SCI Alaska Chapter strongly supports Mr. Peter Probasco and Mr. Nate Turner for the Board of Game. Both of these gentlemen have already distinguished themselves as members of the Board and have shown that they are fair and diligent in their work on all matters that come before them.

As a Chapter in the largest hunting group in the world, and as a leading Chapter in Safari Cub International, we would very much appreciate your vote in favor of both Mr. Probasco and Mr. Turner when you take up confirmation.

If you have any questions or would like to discuss our position further, please contact Eddie Grasser at (907) 841-0358.

We thank you for your time and consideration on this important request.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Gary Gearhart', written in black ink.

Subject: SRES 4-5-13 Board of Game Appointments

Dear Members of the Senate Resources Committee:

Founded in 1978, the Alaska Wildlife Alliance is a nonprofit group that works to achieve and maintain healthy ecosystems managed with sound science to preserve Alaska's wildlife for present and future generations.

Per AS 16.05.221: The governor shall appoint each member on the basis of interest in public affairs, good judgment, knowledge, and ability in the field of action of the board, and with a view to providing diversity of interest and points of view in the membership. The appointed members shall be residents of the state and shall be appointed without regard to political affiliation or geographical location of residence.

The Alaska Wildlife Alliance therefore opposes the confirmation of Mr. Pete Probasco and Mr. Nate Turner to the Alaska Board of Game because they provide no diversity of interest or points of view to the Alaska Board of Game.

Additionally, Mr. Turner's resume clearly points out that he has an obvious conflict of interest, therefore he should not serve on the Alaska Board of Game.

Thank you for considering our comments, and thank you for your service to our state.

Sincerely,

Tina M. Brown

President

Alaska Wildlife Alliance

Subject: BoG appointments

Please note that the BoG is supposed to reflect a variety of interests. With the growing tourist industry in our state, wildlife viewing has increasing value for bringing in dollars. We need to think less about killing off our wildlife and more about keeping it around for everyone to enjoy! The BoG must have good representation from those with these values in the forefront. I oppose the two present nominees, and I hope you will too.
