**SENATE CS FOR HOUSE JOINT RESOLUTION NO. 9(RES)**

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-NINTH LEGISLATURE - FIRST SESSION

BY THE SENATE RESOURCES COMMITTEE

Offered:

Referred:

Sponsor(s): REPRESENTATIVES TALERICO, Colver, Lynn, Millett, Chenault, Saddler, Hughes, Hawker, Olson, Herron, Pruitt, Johnson, Thompson, Wilson, Reinbold, LeDoux, Stutes, Tilton

SENATORS Costello, Stoltze, Coghill, Kelly, Dunleavy, Olson, Stevens, Micciche, Bishop, MacKinnon, Giessel, Egan, Stedman, Huggins, Meyer

**A RESOLUTION**

1 **Urging the United States Congress to pass legislation to open the coastal plain of the**  
2 **Arctic National Wildlife Refuge to oil and gas development; urging the United States**  
3 **Department of the Interior to recognize the private property rights of owners of land in**  
4 **and adjacent to the Arctic National Wildlife Refuge; relating to oil and gas exploration,**  
5 **development, production, and royalties; and relating to renewable and alternative**  
6 **energy technologies.**

7 **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

8 **WHEREAS**, in 16 U.S.C. 3143 (sec. 1003 of the Alaska National Interest Lands  
9 Conservation Act), the United States Congress reserved the right to permit oil and gas  
10 development and production within the coastal plain of the Arctic National Wildlife Refuge;  
11 and

12 **WHEREAS**, in 16 U.S.C. 3142 (sec. 1002 of the Alaska National Interest Lands  
13 Conservation Act), the United States Congress authorized nondrilling exploratory activity  
14 within the coastal plain of the Arctic National Wildlife Refuge (the "1002 study area"); and

1           **WHEREAS** the oil industry, the state, and the United States Department of the  
2 Interior consider the coastal plain to have the highest potential for discovery of very large oil  
3 and gas accumulations on the continent of North America, estimated to be as much as  
4 10,000,000,000 barrels of recoverable oil; and

5           **WHEREAS** the 1002 study area is part of the coastal plain located within the North  
6 Slope Borough, and many of the residents of the North Slope Borough, who are  
7 predominantly Inupiat, are supportive of development in the 1002 study area; and

8           **WHEREAS** oil and gas exploration and development of the coastal plain of the refuge  
9 and adjacent land could result in major discoveries that would reduce our nation's dependency  
10 on oil produced by hostile foreign nations, help balance the nation's trade deficit, and  
11 significantly increase the nation's security; and

12           **WHEREAS** the state's and the nation's future energy independence would be  
13 enhanced with additional natural gas production from the North Slope of Alaska, including  
14 what are expected to be significant gas reserves in the Arctic National Wildlife Refuge, and  
15 the development of those reserves would enhance the economic viability of the proposed  
16 liquefied natural gas project; and

17           **WHEREAS** development of oil at Prudhoe Bay, Kuparuk, Endicott, Lisburne, and  
18 Milne Point has resulted in thousands of jobs throughout the United States, and projected job  
19 creation as a result of coastal plain oil development will have a positive effect in all 50 states;  
20 and

21           **WHEREAS** North Slope production is declining; and

22           **WHEREAS** the Trans Alaska Pipeline System, a national asset that would cost  
23 billions of dollars to replace, would have its useful physical life extended for a substantial  
24 period if the additional reserves of recoverable oil from the coastal plain were produced; and

25           **WHEREAS** the Trans Alaska Pipeline System is currently being extended to leases at  
26 Point Thomson, an area bordering the Arctic National Wildlife Refuge, and oil produced in  
27 the Arctic National Wildlife Refuge would require only the additional construction of a  
28 pipeline to Point Thomson to deliver oil to market; and

29           **WHEREAS**, while new oil field developments on the North Slope of Alaska may  
30 temporarily slow the decline in production, only allowing access to the state's coastal plain  
31 fields would enable the production volume of Alaska oil to increase by up to 700,000 barrels a

1 day; and

2 **WHEREAS** opening the coastal plain of the Arctic National Wildlife Refuge now  
3 allows sufficient time for planning environmental safeguards, development, and national  
4 security review; and

5 **WHEREAS** the 1,500,000-acre coastal plain of the refuge makes up less than eight  
6 percent of the 19,000,000-acre refuge, and development of the oil and gas reserves in the  
7 refuge's coastal plain would affect a limited area as defined by the United States Congress;  
8 and

9 **WHEREAS** 8,900,000 of the 19,000,000 acres of the refuge have already been set  
10 aside as wilderness; and

11 **WHEREAS** the oil industry has shown at Prudhoe Bay, as well as at other locations  
12 along the Arctic coastal plain, that it is capable of conducting oil and gas activity without  
13 adversely affecting the environment or wildlife populations; and

14 **WHEREAS** the state will continue to strive to ensure the ongoing health and  
15 productivity of the Porcupine and Central Arctic caribou herds and the protection of land,  
16 water, and wildlife resources during the exploration and development of the coastal plain of  
17 the Arctic National Wildlife Refuge; and

18 **WHEREAS** the oil and gas industry has developed directional drilling technology that  
19 will allow horizontal drilling in a responsible manner by minimizing the development  
20 footprint within the Arctic National Wildlife Refuge, and that directional drilling technology  
21 may be capable of drilling from outside of the boundaries of the 1002 study area; and

22 **WHEREAS** the oil industry is using innovative technology and environmental  
23 practices in new field developments, and those techniques are directly applicable to operating  
24 on the coastal plain and would enhance environmental protection beyond traditionally high  
25 standards; and

26 **WHEREAS** the state recognizes that the economic prosperity of the state is dependent  
27 on available, reliable, and affordable energy; and

28 **WHEREAS** the state promotes the development of renewable and alternative energy  
29 resources and created the Alaska Energy Authority to assist the state in advancing new energy  
30 projects and technology; and

31 **WHEREAS** the Alaska State Legislature encourages the use of revenue from

1 development in the Arctic National Wildlife Refuge for the development of renewable and  
2 alternative energy resources in the state;

3 **BE IT RESOLVED** that the Alaska State Legislature urges that oil and gas  
4 exploration, development, and production activity be conducted in a manner that protects the  
5 environment and the naturally occurring population levels of the Porcupine caribou herd on  
6 which the Inupiat, Gwich'in, and other local residents depend, that uses directional drilling  
7 and other advances in technology to minimize the development footprint in the 1002 study  
8 area, and that uses the state's work force to the maximum extent possible; and be it

9 **FURTHER RESOLVED** that the Alaska State Legislature urges the United States  
10 Congress to pass legislation opening the 1002 study area for oil and gas development while  
11 continuing to work on measures for increasing the development and use of renewable and  
12 alternative energy technologies; and be it

13 **FURTHER RESOLVED** that the Alaska State Legislature urges the United States  
14 Department of the Interior to recognize and respect the rights of Native landowners in and  
15 adjacent to the Arctic National Wildlife Refuge 1002 study area, including the rights of the  
16 Arctic Slope Regional Corporation and the Kaktovik Inupiat Corporation to develop their land  
17 and resource entitlements received under the Alaska Native Claims Settlement Act and other  
18 agreements; and be it

19 **FURTHER RESOLVED** that the Alaska State Legislature opposes any unilateral  
20 reduction in royalty revenue from exploration and development of the coastal plain of the  
21 Arctic National Wildlife Refuge and any attempt to coerce the state into accepting less than  
22 the 90 percent of the oil, gas, and mineral royalties from the federal land in the state that was  
23 promised to the state at statehood.

24 **COPIES** of this resolution shall be sent to the Honorable Barack Obama, President of  
25 the United States; the Honorable Joseph R. Biden, Jr., Vice-President of the United States and  
26 President of the U.S. Senate; the Honorable Sally Jewell, United States Secretary of the  
27 Interior; the Honorable John Boehner, Speaker of the U.S. House of Representatives; the  
28 Honorable Nancy Pelosi, Minority Leader of the U.S. House of Representatives; the  
29 Honorable Mitch McConnell, Majority Leader of the U.S. Senate; the Honorable Harry Reid,  
30 Minority Leader of the U.S. Senate; the Honorable Lisa Murkowski, Chair of the Energy and  
31 Natural Resources Committee of the U.S. Senate; the Honorable Dan Sullivan, U.S. Senator,

1 and the Honorable Don Young, U.S. Representative, members of the Alaska delegation in  
2 Congress; and all other members of the 114th United States Congress.

## REPRESENTATIVE DAVE TALERICO

### Sponsor Statement for House Joint Resolution 9

*"Urging the United States Congress to pass legislation to open the coastal plain of the Arctic National Wildlife Refuge to oil and gas development; urging the United States Department of the Interior to recognize the private property rights of owners of land in and adjacent to the Arctic National Wildlife Refuge; relating to oil and gas exploration, development, production, and royalties; and relating to renewable and alternative energy technologies."*

When the Alaska National Interest Lands Conservation Act was passed by Congress in 1980, 1.5 Million acres within the Arctic National Wildlife Refuge (ANWR) was set aside for oil and gas development if Congress gives approval. In 1998, the United States Geological Survey studied the section of ANWR that was set aside for development and estimated that the "1002 Area" held over ten billion barrels of oil reserves. Though multiple attempts have been made by Congress to open the 1002 Area for development, it still remains closed.

A primary concern with allowing oil development is that the activity would disrupt the Porcupine caribou herd and possibly cause the caribou population to decline. Though this same argument was brought forward against developing Prudhoe Bay, the caribou herds in the area have increased despite many years of oil development.

As production on the Alaska North Slope continues to decline, additional oil fields must be developed in order to maintain the Trans-Alaska Pipeline System which has been a critical piece of infrastructure for the State and Nation's energy needs.

HJR 9 urges Congress to take action and open the 1002 Area to oil and gas development. The resolution also urges that if development is allowed, it is done in such a way that protects indigenous tribes in the area as well as the Porcupine caribou herd. Though similar resolutions have passed the Alaska Legislature, HJR 9 serves as a continuing reminder to Congress that opening ANWR is not only in Alaska's best interest, but in the Nation's best interest as well.

### HJR 9:

#### Summary of Changes from Version W to Version H

1. A "Whereas" clause on Page 1, Lines 8-11 in Version W is modified to more specifically cite the provisions of the Alaska National Interest Lands Conservation Act.
2. A new "Whereas" clause is inserted in Version H on Page 1, Lines 12-14 to specifically cite the status and purpose of the coastal plain in the Alaska National Interest Lands Conservation Act.
