Representative Scott Jiu Wo Kawasaki

Alaska State Legislature

District 1 Fairbanks

MEMORANDUM

Date: April 19, 2017

To: Senator Bert Stedman, Chair
Senate Transportation Committee

From: Representative Scott Kawasaki
District 1 Fairbanks 

RE: Hearing Request for House Bill 204

I respectfully request a hearing for House Bill 204: An Act relating to overtaking and passing certain stationary vehicles. The Bill would provide for a safer working and travel environment along Alaska's road ways. HB 204 would amend AS 28.35.185 to include vehicles in the act of performing maintenance or road service work to the list of vehicles that, when indicated by the proper flashing lights, drivers are required to slow down for and provide with additional space.

I have included the following items with this request:

- Sponsor Statement
- A brief explanation of changes
- Supporting documents
- JUD CS HB204: 30-LS0685\J
- HB 204: 30-LS0685\A

Please let me know if there's anything else I can provide for you. Please contact my Staff William Jodwalis for any further information regarding HB 204. I look forward to presenting HB 204 to the Senate Transportation Committee.

Representative Scott Jiu Wo Kawasaki

Alaska State Legislature

District 1 Fairbanks

CSHB 204 (JUD) Sponsor Statement

An act relating to overtaking and passing certain stationary vehicles.

In 2012, Robert Hammel, a 60-year-old Girdwood man who worked for the Alaska Department of Transportation & Public Facilities, was responding to an accident on the Seward Highway. As he was laying cones down around the damaged pick-up to alert drivers of the potential hazard, he was struck by a passing vehicle and was killed on impact.

House Bill 204 would add road maintenance vehicles to the list of vehicles that already require drivers to vacate the nearest lane or to slow down when approaching certain stationary vehicles conducting official business. These include emergency, fire, law enforcement and animal control vehicles and tow trucks when lights are flashing and performing official duties.

Currently, to alert and prevent drivers from coming within an unsafe distance of a work zone, state, municipal and private contractor maintenance workers place cones and deploy flares. However, these are only visual deterrents and are frequently ignored. With no law specifically requiring the traveling public to grant a certain area of distance between their vehicle and a roadside road maintenance vehicle, drivers are not legally required to do otherwise. As a result, they put themselves and road workers needlessly at risk.

If a driver fails to vacate the lane or slow down as required and causes personal injury, the driver is guilty of a class A misdemeanor. If a person violates the law, but does not cause personal injury, the driver is subject to \$150 fine and 2 points assessed against the driver's license.

Vehicles conducting road maintenance are already fitted with flashing lights designed to alert traffic of their presence and status of performing road work. To implement HB 204, no additional equipment costs are required.

More than 35,000 people are injured in work zones nationwide, while about 700 people, including 130 workers, are killed in work zone accidents every year. This bill would help avoid dangerous, unnecessary collisions, resulting in saving lives as well as thousands of dollars for both potential victims and the State.

I urge your support of HB 204, a simple bill in the interest of Alaska's road travelers and those who repair and maintain our road system.

Representative Scott Jiu Wo Kawasaki

Alaska State Legislature

District 1 Fairbanks

CSHB 204 (JUD)

Explanation of Changes

An act relating to Overtaking and passing certain stationary vehicles.

Version A to Version J

Section 1

The words "operated by the Department of Transportation and Public Facilities" on page 1, lines 6 and 14-15 have been deleted. Those lines now read "vehicle in the act of performing maintenance or road service work,"

AMENDMENT

OFFERED IN THE SENATE
TO: CSHB 204(JUD)

BY SENATOR MACKINNON

1 Page 1, lines 5 - 6:

2 Delete "vehicle in the act of performing maintenance or road service work,"

3

4 Page 1, line 8, following "lights":

5 Insert ", or that approaches a stationary vehicle in the act of performing
6 maintenance or road service work,"

FISCAL NOTE ANALYSIS

**STATE OF ALASKA
2018 LEGISLATIVE SESSION**

BILL NO. HB 204

Analysis

This legislation amends AS 28.35.185(a) relating to overtaking and passing certain stationary vehicles by making it unlawful to either fail to vacate the lane closest to a vehicle in the act of performing maintenance or road service work if it is safe to do so or, if it is unsafe to do so, to slow down to a reasonable and prudent speed.

This bill would have no fiscal impact on the Department of Public Safety's Division of Alaska State Troopers.

FISCAL NOTE ANALYSIS

**STATE OF ALASKA
2018 LEGISLATIVE SESSION**

BILL NO. SB 204

Analysis

SB 204 amends AS 28.10.181(d) to allow a licensed chiropractor to provide proof of disability so that a disabled veteran license plate may be issued. DMV currently accepts proof of disability from licensed physicians, physician assistants, or advanced practice registered nurses under AS 08.68.

The acceptance of proof from a chiropractor will not require any additional programming; therefore DMV is submitting a zero fiscal note.

ADOT&PF Celebrates Work Zone Safety

(JUNEAU, Alaska) – The ground may still be covered in snow across most of the state, but the Alaska Department of Transportation and Public Facilities (ADOT&PF) is looking ahead to the quickly approaching construction season. The department joins other DOTs around the nation to celebrate National Work Zone Awareness Week April 3-7, 2017.

This year's theme is "Work Zone Safety is in Your Hands; Drive Toward Zero Crashes." DOTs are sharing this message in an effort to protect workers, drivers and passengers.

Alaska averages approximately 80 highway work zone crashes each year. ADOT&PF reminds drivers to stay alert and be cautious when driving through work zones by minimizing distractions, following signs and flaggers, and reducing speeds.

Drivers can check www.AlaskaNavigator.org for construction updates on active projects or visit 511.Alaska.Gov when planning travel on Alaska highways. The Alaska 511 system is also available for drivers by dialing 511, following [@alaska511](https://twitter.com/alaska511) on Twitter or on Facebook at www.Facebook.com/Alaska511. The system provides statewide road condition information, including road closures, alerts to emergency incidences, weather conditions affecting travelers and AMBER Alerts.

The Alaska Department of Transportation and Public Facilities oversees 242 airports, 10 ferries serving 35 communities, over 5,600 miles of highway and 731 public facilities throughout the state of Alaska. The mission of the department is to "**Keep Alaska Moving** through service and infrastructure."

AAA Alaska
1277 Treat Blvd., Suite 1000
Walnut Creek, CA 94597

February 20, 2018

The Honorable Scott Kawasaki
State Capitol Room 502
Juneau AK, 99801

RE: HB 204 - Support

Dear Representative Kawasaki:

On behalf of AAA Alaska, I would like to inform you of our strong support for HB 204, relating to safe operation of motor vehicles around stationary emergency vehicles. We are non-governmental organization that focuses on improving traffic safety.

This bill would require the operator of a motor vehicle to depart the lane closest to a stationary road maintenance vehicle in the act of performing maintenance or road service work if it is safe to do so or, if it is unsafe to do so, to slow down to a reasonable and prudent speed. This bill would add Alaska Department of Transportation and Public Facilities road maintenance vehicles.

Currently, maintenance workers place cones and deploy flares to alert and prevent drivers from coming within an unsafe distance of a work zone and stationary vehicles. But these are only visual deterrents that are often ignored and leave drivers and road workers are needlessly at risk. Vehicles conducting road maintenance are already equipped with flashing lights to alert traffic of their presence, therefore, implementation of HB 204 would require no additional equipment costs.

AAA Alaska has been a leader and trusted advocate for the safety and security of people for over 100 years. One of our core missions is promoting safer roads and advocating for traffic safety policies. Therefore we urge you to support this bill because it promotes the safe operation of motor vehicles around emergency vehicles, including tow trucks, engaged in their duties at the roadside with emergency flashers activated.

Sincerely,

A handwritten signature in blue ink, appearing to read 'John Moreno'.

John Moreno
Manager, Public Affairs
AAA Alaska
