SUBJECT: C/S - HB 489

To most accurately respond to the effect this program might have on future funding, it will be necessary to reflect Legislative intent and develop rules and regulations to meet the requirements set forth.

Within the guidelines written in C/S - Hb 489, matching requirements, maximum participation, basic restrictions, etc, may be incorporated in the rules and regulations. It is suggested, therefore, first year experience dictate conditions of future funding requests.

DATE - FEB 3, 1972

COMMITTEE SUBSTITUTE HOUSE BILL 490

The project contemplated in respect to CSHB 490 is a secondary school for Noorvik.

The elementary school at Noorvik is the single largest elementary school operated by the state and enrolls 142 pupils in grades 1 - 8.

Grades	K	1	2	3	4	5	6	7	8	
Pupils	---	19	25	22	19	26	15	14	12	142

Potentially, Noorvik could have a high school of 50 - 75 pupils in grades 9 - 12 or 75 - 100 in grades 7 - 12.

The existing school consists of 5 classrooms, a small multi-purpose room, kitchen, storage, and administrative space, and 3 sets of quarters.

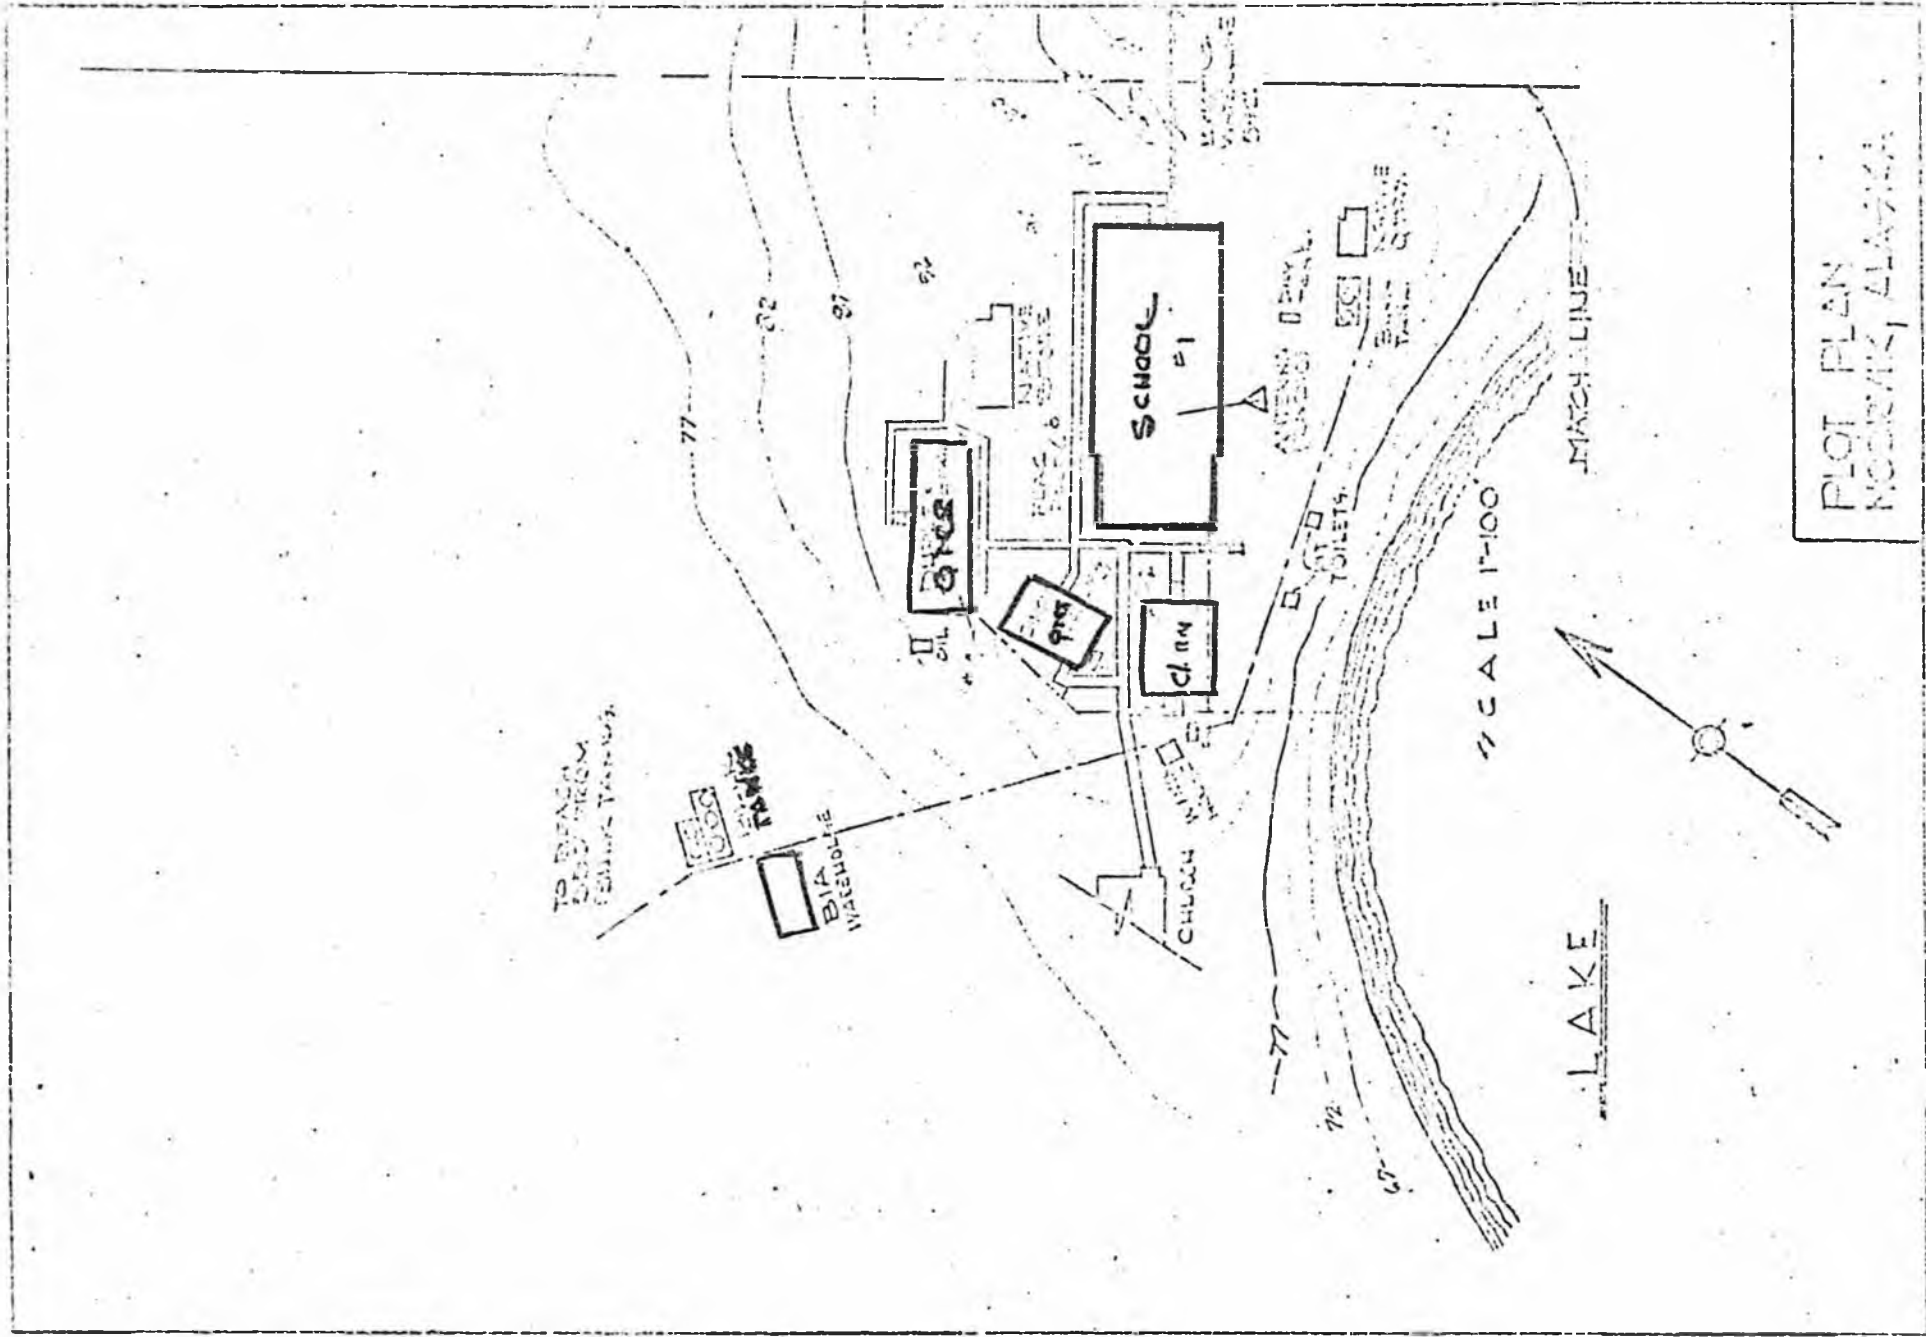

It is estimated that an additional 20,000 square foot structure housing a multi-purpose room. Instructional area and other related space would be necessary for a secondary program.

If a secondary school is constructed, it would permit for grades 7 - 12, it will relieve the pressure on the elementary school due to increasing enrollments in the lower grades.

The proposed appropriation of \$1,500,000 should be adequate to construct a secondary school of approximately 20,000 square feet plus two teachers quarters.

20,000 square feet @ \$75 a square foot = \$1,500,000

MEMORANDUM

TO: R. D. Stevenson
Deputy Commissioner

DATE: January 24, 1972

FROM: *Steffen Andersen*
Steffen Andersen, Director
Excise Tax Division

SUBJECT: House Bill No. 497
Watercraft Fuel Tax

I have been advised by Jay Hogan, Fiscal Analyst, that the intent of House Bill 497 is to eliminate the tax on all fuel used on boats and watercraft.

LOSS OF REVENUE

Fiscal Year 1973	\$1,100,600
Fiscal Year 1974	1,144,600
Fiscal Year 1975	1,190,400
Fiscal Year 1976	1,238,000
Fiscal Year 1977	1,287,000

Alaska Statutes 43.40.010(f) provides: The proceeds from the revenue from the tax on motor fuel used in boats and watercraft of all descriptions shall be deposited in a special watercraft fuel tax account in the general fund. The legislature may appropriate from this account for water and harbor facilities.

Accordingly, it should be noted that another source of revenue would have to be used for the maintenance and construction of harbor facilities.

The Honorable Gene Guess
Speaker of the House
Alaska State Legislature
Juneau, Alaska 99801

Dear Mr. Speaker:

Pursuant to the Uniform Rules of the Legislature,
I am submitting a bill appropriating for the
operating and capital expenses of the Alaska Court
System for the fiscal period beginning July 1, 1972.
The amounts reflected in the bill are precisely the
amounts requested by the Alaska Court System during
the budgeting process. They reflect the estimates
and expectations of the judicial branch. The
figures are submitted as received for the appraisal
and action of the Legislature and do not reflect
my recommendations. My recommendations for a lesser

The Honorable Gene Guess
Speaker of the House
Alaska State Legislature
Juneau, Alaska 99801

Dear Mr. Speaker:

Pursuant to the Uniform Rules of the Legislature, I am submitting a bill which increases the individual income tax rate to 16-1/2 per cent of federal tax computed at the 1963 federal rates. This increase of one half of one per cent will offset the recent changes made by Congress in the Federal Income Tax Act. This legislation will preserve and enhance our revenues from the State income tax.

It is estimated that the changes in the Federal tax laws would result in a decrease in State taxes of \$1,198,855 in Fiscal 1973 if our current rates remain in effect. An increase of one half of one per cent in our rates brings in an additional \$1,972,455 in Fiscal Year 1973 for a net gain of \$673,600.

Sincerely,

William A. Egan

DATE: January 27, 1972

SUBJECT: Fiscal Note Request
House Bill No. 519

House Bill No. 519 provides for an increase in the individual income tax rate from 16 percent to 16.5 percent of federal tax computed at the 1963 Federal tax rates for individuals. This increase of one half of one percent will offset the revenue losses anticipated by incorporating changes made in the 1971 Federal Income Tax Act. Such Act has stepped up the dates for increased personal exemptions and has increased the amount of the standard deduction as follows:

PERSONAL EXEMPTION CREDIT

<u>Calendar Year</u>	<u>Old Law</u>	<u>New Law</u>
1971	\$650	\$675
1972	700	750
1973 and later	750	750

STANDARD DEDUCTION

<u>Calendar Year</u>	<u>Old Law</u>	<u>New Law</u>
1971	13% with \$1,500 ceiling	Same
1972	14% with \$2,000 ceiling	15% with \$2,000 ceiling
1973	15% with \$2,000 ceiling	15% with \$2,000 ceiling

Attached is a chart covering the fiscal years 1973 through 1977 which indicates projections of additional gross revenue to be derived from increasing the rate of income tax by one-half of one per cent; projections of loss of revenue anticipated from increased Federal exemptions and standard deductions and net new additional individual income tax revenue.

MEMORANDUM

TO: [

Honorable George Hohman, Chairman
House Finance Committee
Alaska State Legislature

DATE : April 24, 1972

FROM:

Richard W. Freer
Deputy Commissioner
Department of Administration

SUBJECT: Retirement Bills - H. B. 537
H. B. 539 - S. B. 290

This agency does not support an increase in the 10% matching contributions limit at this time, and under no circumstances does this agency support an increase in benefits which exceeds the available funding. This office would recommend a veto of any legislation for which appropriate funding is not provided by law.

We do not support the concept of retrospective benefit changes as contained in S. B. 290 and H. B. 537. The amounts being paid to retired teachers represents the results of the benefit formula in effect at the date of retirement of these retirees as well as the salary levels recognized at the time teachers terminated and the funding required to provide such benefits.

Furthermore, there is a philosophical question regarding the application of contributions. We do not believe that current participants in the Retirement System, including the State and the local school districts, should be obligated to divert current contributions to the benefit of individuals who are no longer actively engaged in the education profession. When a person retires, a reserve is established and interest is credited to the reserve on the basis of the earned rate. It is from this reserve that benefits are paid. If benefits are adjusted upward, the liability reserve for retired lives must be adjusted accordingly. If the liabilities exceed the reserves, current contributions and/or interest which should be credited to the reserve for active lives would have to be diverted to the reserve for retired lives. In essence, the cost of the benefit increases is being absorbed by future taxpayers.

The greatest growth in the Teachers' Retirement Fund has been since 1970 when the contributions were increased to their present level. These contributions are required to fund benefits currently being earned.

If all benefits are to be paid on the same basis, the value of benefits adjusted upward is considerably greater than the value of the benefits being paid to persons contributing the larger amounts. If the equity between active and retired teachers is to be preserved, the benefits improvement should be adjusted downward to offset the

difference in contributions.

As you know, the actuary has advised us that the adjustments contained in S. B. 290 and H. B. 537 for the teachers currently receiving retirement benefits would cost an additional .31% this year and would increase the liabilities by \$2.25 million. To evaluate the effect of the possible cost of future benefit level increases if this precedent is established, we asked the actuary to calculate the cost if the benefit formula level was changed to 2.5%. He has advised us that the cost, assuming no difference in the current retired group (i.e. no growth factor, change in salary factors, etc.), would increase the cost an additional .58% and would increase the liabilities \$4,165,411.

H. B. 539 provides for a one-time adjustment. This is an acceptable retirement plan design if the benefits being paid do not meet certain subsistence income standards. The minimum benefit was introduced into this System a few years ago and the benefits have been adjusted the past two legislative sessions. Furthermore, the post retirement pension adjustments have been applied to these revised minimums. The cost of this bill is within current funding limitations.

We do believe that benefits must be adjusted subsequent to retirement. It is for this purpose that the post retirement pension adjustment provision was included in the law. If this provision is effective and if the level of the benefits paid at the time of retirement is realistic, major changes in the amounts being paid should not be necessary and under no circumstances should annual adjustments in the benefit level other than the post retirement pension adjustment be required - - or expected. The effect of inflation should be offset by the post retirement pension adjustment.

We do approve the concept of H. B. 539.

11 years of creditable service, at least 15 of which were membership ser-
12 vice, and who is entitled to a retirement salary under either this
13 retirement fund or the retirement fund of 1945, shall receive a service
14 retirement salary of not less than \$375 [\$300] a month, based on a
15 minimum sum of \$15 a month for each year of creditable service, not
16 including adjustments made under sec. 142 or sec. 143 of this chapter.
17 A teacher who retired before July 1, 1971, with less than 25 years of
18 creditable service, and who is entitled to a retirement salary under
19 either this retirement fund or the retirement fund of 1945, shall
20 receive a service retirement salary of at least \$15 [\$12] a month for
21 each year of credited service. If on the date the teacher originally
22 applied for retirement salary, the teacher elected option two as pro-
23 vided by sec. 120(c)(2)(B) of this chapter as payment of his indebted-
24 ness or a reduced benefit in accordance with sec. 120(c)(4) of this
25 chapter, the amount of the dollar reduction shall remain in effect.

4 SEVENTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act providing for the issuance of general obliga-
7 tion bonds in the amount of \$140,000,000 for the
8 purpose of paying the cost of constructing a bridge
9 across Knik Arm; and providing for an effective date."

10 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

11 * Section 1. For the purpose of paying the cost of constructing a bridge
12 across Knik Arm, general obligation bonds of the state in the principal
13 amount of not more than \$140,000,000 shall be issued and sold. The full
14 faith, credit and resources of the state are pledged to the payment of the
15 principal of and interest and redemption premium, if any, on these bonds.
16 These bonds shall be issued under the provisions of AS 37.15 as those provi-
17 sions read at the time of issuance.

18 * Sec. 2. If the issuance of these bonds is authorized by the qualified
19 voters of the state, a special fund of the state to be known as the "Knik
20 Arm Bridge Construction Fund" shall be established, to which shall be
21 credited the proceeds of the sale of the bonds described in sec. 1 of this
22 Act except for the accrued interest and premiums. There is appropriated
23 from the "Knik Arm Bridge Construction Fund" to the Department of Highways
24 the sum of \$140,000,000. The specific uses of the proceeds of these bonds
25 shall be determined by the governor.

26 * Sec. 3. If the issuance of these bonds is authorized by the qualified
27 voters of the state, the amount of \$200,000 or as much of that amount as is
28 found necessary is appropriated from the general fund of the state to the
29 state bond committee to carry out the provisions of this Act and to pay

1 expenses incident to the sale and issuance of the bonds authorized in this
2 Act. The amounts expended from the appropriation authorized by this section
3 shall be reimbursed to the general fund from the proceeds of the sale of
4 the bonds authorized by this Act.

5 * Sec. 4. The question whether the bonds authorized in this Act are to
6 be issued shall be submitted to the qualified voters of the state at the
7 next state general election and shall read substantially as follows:

8 Proposition

9 State General Obligation Knik Arm Bridge

10 Construction Bonds \$140,000,000

11 Shall the State of Alaska issue its general obligation bonds
12 in the principal amount of not more than \$140,000,000 for
13 the purpose of paying the cost of capital improvements for
14 construction of the Knik Arm Bridge?
