SUBJECT: CSHB 334 (Amended)

In response to your verbal request, attached is a cost analysis of the Committee Substitute for House Bill 334, as amended by the House on Friday, April 21, 1972.

Aside from the obvious change in the payment schedule, the only significant change the amendment makes to AS 43.18.010 (h) and (i) is the omission of the last sentence in subsection (h):

"Sums received by a local government under this subsection shall be used for expenses of operation, maintenance or health services or facilities as the local government determines."

In reviewing the attached schedule, you will note I have placed asterisks next to a number of the alcoholic rehabilitation centers listed, and made reference to an Attorney General's opinion of November 27, 1970. The opinion (a copy of which is attached for your information) sets forth the circumstances under which alcoholic rehabilitation centers may be classified as facilities for the physically handicapped, thereby qualifying for aid under AS 43.18.010 (h). In addition to the November 27, 1970 opinion, I have included background memoranda written by former Office of Alcoholism Coordinator, Glen M. Wilcox, regarding this subject.

Finally, please note this analysis lists 36 beds for the Hope Cottage B. We have been advised by the Department of Health and Social Services that this facility (a facility for mentally retarded youngsters) is presently equipped to provide care for that number.

Should you require further fiscal analysis of this legislation, please contact me.

In accordance with your previous memorandum and my memo of November 23, 1970, and your subsequent memorandum of November 24, 1970. The following information is submitted to you:

1. Alcoholism facilities which provide similar services to those of "hospitals, public health centers, community mental health centers, facilities for the mentally and physically handicapped, nursing homes, and convalescent centers" are eligible for revenue sharing.
2. A facility would be eligible for receipt of funds when the individual being treated has been referred to the facility by a physician certifying that the individual has been physically or mentally handicapped as a result of alcoholism.
3. In order to be eligible for revenue sharing, facilities admitting alcoholics as stated in 2 above, would be required to: provide residential care, including a "bed", whether such residential care is of short or long term duration.

Assistant Attorney General

DATE : November 24, 1970

FROM: Glen M. Wilson (M)  
Coordinator  
Office of Alcoholism

SUBJECT: Revenue Sharing and  
Community Grant-in-Aid

Your memo of November 23, 1970, spoke to some of the issues involved in Revenue Sharing and Community Grant-in-Aid. However, I believe there are further considerations which would make those facilities licensed under the Community Grant-in-Aid Program eligible for revenue sharing.

As your memo stated, "hospitals, public health centers, community mental health centers, facilities for the mentally and physically handicapped, nursing homes, and convalescent centers" were eligible and although alcoholism facilities are not specifically mentioned they would be eligible under at least two, and more likely three, of the above categories.

Vocational Rehabilitation, on the federal as well as the state level, considers alcoholism a handicapping condition. The Division of Public Welfare, in our own Department, considers alcoholism a disability when a physician and social worker concur that the extent of the drinking has medically and socially disabled the person. Alcoholics who have had long histories of this handicapping and disabling condition sometimes require long term nursing home care, especially when there has been significant brain or other physical damage. It would seem that any facility which provides residential care, including a "bed", would be eligible for inclusion under "facilities for the mentally and physically handicapped, nursing homes, and convalescent centers" categories cited in the Revenue Sharing Bill.

Additionally, community mental health centers may have residential programs. When they do, they should also be eligible for revenue sharing.

Since the terms "mentally and physically handicapped" and "convalescent centers" are generic terms, any alcoholism facility providing residential care would be eligible.

While AS 18.20.130 is mentioned in the statute as being one of the laws relating to licensing, there also is Chapter 101 SLA 1970, Section 57.30.477 which also requires licensing. There may need to be additional modifications of the legislation that are desirable, but it would seem that the intent of the Revenue Sharing Bill was to assist any of the specific facilities mentioned and any that could qualify under the generic services also mentioned. Would you give this further consideration at your earliest convenience, since we are funding programs which would be significantly altered if they are to receive revenue sharing.

DATE : November 23, 1970

FROM: G. Kent Edwards

SUBJECT: Revenue Sharing and Community  
Grant-in-Aid

By  
Ray M. Harding   
Assistant Attorney General

On November 16, 1970, you submitted a memorandum to our office requesting information relative to the above subject matter. Your memorandum asks "can the local communities expect to receive money from the revenue sharing provisions for alcoholism facilities when they are not specifically mentioned in State Statute AS 18.20.130?"

The provisions of AS 43.18.020 (i) are explicit in their definition of "health facility" which are eligible for receipt of these funds. Those being "hospitals, public health centers, community mental health centers, facilities for the mentally and physically handicapped, nursing homes, and convalescent centers." Since alcoholism facilities are not specifically mentioned, they are therefore excluded. Had the legislature chosen to use general words or terms defining the type of facilities to receive funds, it is possible that alcoholism facilities would be eligible. However, the legislature, by using specific terms, and enumerated classifications eliminated those classifications not specifically named by the particular words.

As is stated in Sutherland Statutory Construction  
3d Ed. § 4909:

The resolution of this conflict by ascribing to the series its natural meaning and by restricting the meaning of the general words to things ejusdem generis with the series is justified on the ground that had the legislature intended the general words to be used in their unrestricted sense, it would have made no mention of the particular words but would have used only one compendious expression."

Since appropriation statutes are by construction to be strictly construed, funds would therefore be available only to those facilities specifically enumerated.

Grant-in-Aid

The Session Laws of 1970, Chapter 194, Section 3 states, "AS 43.13.020 is amended by adding new sub-sections. These sub-sections specify that \$1,000 per bed or \$4,000 per facility may be obtained by the State to a borough or city for the number of beds which they contain that are used for health purposes. Under (d), there are several type facilities such as hospitals, public health centers, community mental health centers, etc., which can receive these funds. However this same sub-section mentions their being licensed by the state under AS 18.20.130.

The Session Laws of 1970, Chapter 101, for the establishment of community grant-in-aid programming specifies in Section 47.30.477 that the facilities receiving grants-in-aid shall be issued a license.

Some of the community grant-in-aid applications are using for their matching purposes the expected funds from the revenue sharing bill. This would seem to be legitimate since the money belongs to the community and not to the state for their own use, according to their own priorities, once it is given to them. If they should so elect to use the money toward the establishment of alcoholism programming, it is their choice, and would be a legitimate use of money as a matching portion for claiming grant-in-aid money.

The problem, if there is one, from our point of view would be, "Can the local communities expect to receive money from the revenue sharing provision for alcoholism facilities when they are not specifically mentioned in state statute AS 18.20.130?" It is the same department which licenses both and although the word "alcoholism" is not specifically mentioned in the statute, hospitals, public health centers, community mental health centers, etc. are eligible for grant-in-aid funds and are required to be licensed, again by the same department.

We need an early reply to this question because the Advisory Board on Alcoholism is meeting in just over two weeks and it is necessary for us to have the applications ready for their review. When their applications contain a provision to provide some of their matching money through the revenue sharing bill it will be difficult for us to determine whether or not the program is feasible unless we know whether or not the funding is feasible. We would appreciate as early a response as possible.

COMMITTEE SUBSTITUTE FOR HOUSE BILL NO. 347

The committee substitute differs from the original bill in that it deletes all reference to specific dates of military service, thus making anyone with ninety or more days active service and an honorable discharge a "veteran". Six years of service in the Alaska National Guard also qualifies a person as a "veteran"; deleted is the provision that the National Guardsman must be "currently serving".

III. ANALYSIS (See RC 100.00.000 Preparation Instructions, Section III)

Current statutes (As26.05.260) provides for State Active Duty Pay equal to those provided by Federal Active Duty Pay scales but not less than \$6 per day. HB352 adds The Alaska Naval Militia as eligibles and provides for a minimum payment of \$25/day. Cost analysis depends on frequency of emergency or natural disaster call ups by the Governor and severity of situation dictating the number of units and men called up. Approximately 20% of unit members already receive over \$25/day by The Federal pay scale. The remaining 80% would have a varying increase in pay while on State Active Duty dependent pay grade.

"FINANCE COMMITTEE REPORT  
ON  
COMMITTEE SUBSTITUTE HOUSE BILL NO. 352(Fin)"

House Bill No. 352, as introduced, would have provided National Guardsmen on duty during state emergency--in addition to pay and allowances--the maximum per diem allowances provided under state law. It may also have provided, inadvertently, statutory authority to pay the increased daily rate for all state service with the guard.

The Committee Substitute prepared with the help of the National Guard provides that pay and allowances for emergency service shall be equal to those of persons on active duty, but in no case less than \$25 per day. The change in payment may make Guard members on duty during state emergencies eligible for Workmen's Compensation coverage at the increased rate (specific coverage depends upon the circumstances of the injury, board determination and/or court findings).

The Committee Substitute repeals and re-enacts a somewhat lengthy section of the statutes. The only changes other than those outlined consolidate references to the specific services to "national guard" or "armed forces of the United States" and re-letter sub-paragraphs following the new sub-paragraph incorporating the emergency pay provisions.
