

Leg. Finance - Finance Comte Files (1971-72) 8879

HB 415 cont., 429, 441, 443, 444

1 date each year when all applications for renewals must be made in order  
2 to have renewal preferences under this section.

3 Sec. 14.40.781. CONDITIONS OF LOANS. (a) Proceeds from scholar-  
4 ship loans may only be used for books, tuition and required fees, and  
5 for room and board.

6 (b) The loans may only be used to attend a vocational-technical in-  
7 stitution or career education program approved by the Department of Edu-  
8 cation or a college or university accredited by the accreditation associ-  
9 ation for the region in which the college or university is located.

10 (c) To maintain a loan the student must continue to be enrolled  
11 as a full-time student in good standing at a vocational-technical  
12 institution, college or university designated under (b) of this section.

13 (d) Loans shall be noninterest bearing while a student is  
14 enrolled under (c) of this section.

15 (e) Repayment of a loan shall commence within one year after a  
16 student terminates his studies and shall be fully repaid within a  
17 period of five years; in cases of hardship, the department may extend  
18 repayment of a loan for an additional two years.

19 (f) Security may not be required for the loans; however, provi-  
20 sion shall be made for payment of attorney fees and costs of  
21 court if either or both are incurred in collection of the amount owed  
22 on the loan.

23 (g) If a loan is in default, the Department of Education may  
24 notify the student that repayment of the remaining balance is acceler-  
25 ated and due by sending the student a notice by registered or certified  
26 mail.

27 Sec. 14.40.791. ELIGIBILITY OF STUDENTS. A student may apply  
28 for a scholarship loan if

29 (1) he is a resident of Alaska, and if

1 (2) he is either

2 (A) enrolled as a full-time student in a career educa-  
3 tion or associate or baccalaureate degree program; or

4 (B) a graduate of a high school, or scheduled for  
5 graduation from a high school within six months, with sufficient  
6 credits to be admitted to a career education program or to an  
7 accredited Alaskan college or university.

8 Sec. 14.40.801. SELECTION CRITERIA. In selecting from among the  
9 eligible students those students who will be awarded scholarship loans  
10 the Department of Education shall take into consideration the following  
11 items:

12 (1) priority shall be given to entering freshmen who are  
13 graduates of Alaska high schools or who are graduates of a high school  
14 outside the state if their Alaskan residency has been continuous;

15 (2) the student's standardized test scores;

16 (3) the student's prior academic record;

17 (4) personal recommendation from the student's school;

18 (5) other items as may be determined by the Department of  
19 Education.

20 Sec. 14.40.811. DISCRIMINATION PROHIBITED. The scholarship loan  
21 program shall be carried out without regard to the race, creed, sex,  
22 color, ancestry, national origin, or membership in fraternal or  
23 political organizations of the student applying for the loan.

24 Sec. 14.40.821. ADMINISTERING AUTHORITY. The scholarship loan  
25 program shall be administered by the Department of Education. The  
26 department may adopt regulations for carrying out the intent and  
27 purposes of secs. 751 - 841 of this chapter.

28 Sec. 14.40.831. ENFORCEABILITY OF CERTAIN CONTRACTS WITH MINORS.  
29 A written obligation entered into by a minor at least 16 years of age,

1 evidencing a loan or other assistance received by him from any person  
2 for the purpose of furthering his education at a vocational-technical  
3 institution or an institution of higher learning, is enforceable  
4 against the minor with the same effect as if he were, at the time of  
5 its execution, 19 years of age, if the person making the loan has in  
6 his records before making the loan a certification from the institution  
7 that the minor is enrolled in the institution or has been accepted for  
8 enrollment.

9 Sec. 14.40.841. DEFINITIONS. In secs. 751 - 831 of this chapter

10 (1) "academic year" means the period from September 1 of  
11 one year through August 31 of the following year;

12 (2) "career education" means a course or program in  
13 vocational-technical training or education approved by the Department  
14 of Education;

15 (3) "full-time student" means a student who is enrolled  
16 and is in regular attendance at classes for at least 12 semester hours  
17 of credit during the semester;

18 (4) "loan" means a scholarship loan granted under secs. 751 -  
19 841 of this chapter.

20 (5) "resident" means a person domiciled in Alaska who has  
21 resided in Alaska for at least two years before making an application  
22 for a student loan;

23 \* Sec. 3. This Act takes effect on July 1, 1971 or on the date the  
24 Alaska Higher Education Commission is enjoined from making payments under  
25 the provisions of AS 14.40.900, whichever date is earlier.

BY THE FINANCE COMMITTEE

2 CS FOR HOUSE BILL NO. 415

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 SEVENTH LEGISLATURE - FIRST SESSION

5 A BILL

6 For an Act entitled: "An Act providing for career and higher education  
7 scholarship loans; and providing for an effective  
8 date."

9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

10 \* Section 1. AS 14.40 is amended by adding new sections to read:

11 ARTICLE 9. SCHOLARSHIP [GRANTS AND] LOANS.

12 Sec. 14.40.751. LOAN FUND CREATED. There is created a scholar-  
13 ship revolving loan fund as an account in the general fund. The fund  
14 shall be used to make scholarship loans to students selected under  
15 secs. 751 - 773 of this chapter.

16 Sec. 14.40.753. SELECTION COMMITTEE. (a) There is created the  
17 student loan selection committee composed of seven members appointed  
18 by the governor. The committee is composed of the commissioner of  
19 education and at least one undergraduate student, one person employed  
20 as a high school counselor, one person from a minority group and one  
21 person representing the field of vocational-technical training. No  
22 member may be the president or a senior administrative officer of a  
23 college or university. Members serve at the pleasure of the governor.  
24 The committee shall elect its chairman. The commissioner of education  
25 shall act as executive secretary of the committee. The Department of  
26 Education is charged with administering the program established by  
27 this chapter.

28 (b) Members of the selection committee serve without compensation  
29 but are entitled to per diem and travel expenses authorized by law for

1 boards and commissions.

2 (c) The selection committee shall make an annual report to the  
3 governor and legislature reviewing the work of the committee.

4 (d) The selection committee shall meet at least once a year. The  
5 meetings shall be held at the call of the chairman or upon petition  
6 of two members.

7 Sec. 14.40.755. APPLICATIONS. (a) Applications shall be sub-  
8 mitted to the executive secretary of the committee.

9 (b) A person whose application is not recommended or presented  
10 to the committee by the executive secretary may appeal to the selection  
11 committee through the chairman of the committee and the committee shall  
12 consider the application.

13 Sec. 14.40.757. ADMINISTRATION OF PROGRAM. The executive  
14 secretary shall administer the program subject to review by the com-  
15 mittee and such regulations as the committee may prescribe.

16 Sec. 14.40.759. UNDERGRADUATE LOANS. The selection committee  
17 may make a loan, not to exceed \$2,500 in any one school year, to an  
18 undergraduate student eligible under sec. 765 of this chapter.

19 Sec. 14.40.761. GRADUATE LOANS. The selection committee may  
20 make a loan, not to exceed \$5,000 in any one school year, to a graduate  
21 student who is eligible under sec. 765 of this chapter and is pursuing  
22 an advance degree.

23 Sec. 14.40.763. CONDITIONS OF LOANS. (a) Proceeds from scholar-  
24 ship loans may only be used for books, tuition and required fees, and  
25 for room and board.

26 (b) The loans may only be used to attend a career education  
27 program approved by the Department of Education or a college or uni-  
28 versity accredited by the accreditation association for the region  
29 in which the college or university is located.

1 (c) To maintain a loan the student must continue to be enrolled  
2 as a full-time student in good standing in a career education program,  
3 college or university designated under (b) of this section.

4 (d) Loans shall be noninterest bearing while a student is  
5 enrolled under (c) of this section or is fulfilling required military  
6 service.

7 (e) Interest on a loan given under secs. 751 - 773 of this  
8 chapter shall be at the rate of five per cent.

9 (f) Repayment of a loan shall commence within one year after a  
10 student terminates his studies or required military service, and shall  
11 be fully repaid within a period of six years; in cases of hardship,  
12 the department may extend repayment of a loan for an additional five  
13 years.

14 (g) Security may not be required for the loans; however, provi-  
15 sion shall be made for payment of attorney fees and costs of court if  
16 either or both are incurred in collection of the amount owed on the  
17 loan.

18 (h) If a loan is in default, the Department of Education may  
19 notify the student that repayment of the remaining balance is  
20 accelerated and due by sending the student a notice by registered or  
21 certified mail.

22 (i) A portion of a loan shall be considered a grant if, within  
23 a reasonable period after a student terminates his studies, the  
24 grantee spends at least two years employed in the state. The portion  
25 of the loan which shall be regarded as a grant shall be the following  
26 percentages of the total loan received plus accrued interest:

- |    |                                  |             |
|----|----------------------------------|-------------|
| 27 | (1) two - three years residency  | 10 per cent |
| 28 | (2) three - four years residency | 20 per cent |
| 29 | (3) four - five years residency  | 30 per cent |

1 (4) over five years residency 40 per cent.

2 Sec. 14.40.765. ELIGIBILITY OF STUDENTS. A student may apply  
3 for a scholarship loan if

4 (1) he is a resident of Alaska, and if

5 (2) he is either

6 (A) enrolled as a full-time student in a career educa-  
7 tion or associate or baccalaureate or graduate degree program; or

8 (B) a graduate of a high school, or scheduled for  
9 graduation from a high school within six months, with sufficient  
10 credits to be admitted to a career education program or to an  
11 accredited college or university.

12 Sec. 14.40.757. SELECTION CRITERIA. In selecting from among the  
13 eligible students those students who will be awarded loans the selec-  
14 tion committee shall take into consideration the following items:

15 (1) the student's financial needs;

16 (2) entering freshmen who are graduates of Alaska high  
17 schools or who are graduates of a high school outside the state if  
18 their Alaska residency has been continuous;

19 (3) personal recommendations from the student's instructors,  
20 employers, and others familiar with his abilities;

21 (4) the student's record of achievement.

22 Sec. 14.40.769. DISCRIMINATION PROHIBITED. The student loan  
23 program shall be carried out without regard to the race, creed, sex,  
24 color, ancestry, national origin, or membership in fraternal or  
25 political organizations of the student applying for the loan.

26 Sec. 14.40.771. ENFORCEABILITY OF CERTAIN CONTRACTS WITH MINORS.  
27 A written obligation entered into by a minor at least 16 years of age,  
28 evidencing a loan or other assistance received by him from any person  
29 for the purpose of furthering his education in a career education

1 program or an institution of higher learning, is enforceable against  
2 the minor with the same effect as if he were, at the time of its  
3 execution, 19 years of age, if the person making the loan has in his  
4 records before making the loan a certification from the institution  
5 that the minor is enrolled in the institution or has been accepted  
6 for enrollment.

7 Sec. 14.40.773. DEFINITIONS. In secs. 751 - 773 of this chapter

8 (1) "school year" means the period from September 1 of  
9 one year through August 31 of the following year;

10 (2) "career education" means a course or program in  
11 vocational-technical training or education approved by the Department  
12 of Education;

13 (3) "full-time student" means a student who is enrolled and  
14 is in regular attendance at classes for at least 12 semester hours of  
15 credit during the semester;

16 (4) "loan" means a student loan granted under secs. 751 -  
17 773 of this chapter;

18 (5) "resident" means a person domiciled in Alaska who has  
19 resided in Alaska for at least two years before making an application  
20 for a student loan.

21 \* Sec. 2. AS 14.40.750 - 14.40.849 and AS 14.40.900 - 14.40.910 are  
22 repealed.

23 \* Sec. 3. This Act takes effect on July 1, 1971 or on the date the  
24 Alaska Higher Education Commission is enjoined from making payments under  
25 the provisions of AS 14.40.900, whichever date is earlier.

8 mitted to the executive secretary of the committee.

9 (b) A person whose application is not recommended or presented  
10 to the committee by the executive secretary may appeal to the selection  
11 committee through the chairman of the committee and the committee shall  
12 consider the application.

13 Sec. 14.40.757. ADMINISTRATION OF PROGRAM. The executive  
14 secretary shall administer the program subject to review by the com-  
15 mittee and such regulations as the committee may prescribe.

16 Sec. 14.40.759. UNDERGRADUATE LOANS. The selection committee  
17 may make a loan, not to exceed \$2,500 in any one school year, to an  
18 undergraduate student eligible under sec. 765 of this chapter.

19 Sec. 14.40.761. GRADUATE LOANS. The selection committee may  
20 make a loan, not to exceed \$5,000 in any one school year, to a graduate  
21 student who is eligible under sec. 765 of this chapter and is pursuing  
22 an advance degree.

23 Sec. 14.40.763. CONDITIONS OF LOANS. (a) Proceeds from scholar-  
24 ship loans may only be used for books, tuition and required fees, and  
25 for room and board.

26 (b) The loans may only be used to attend a career education  
27 program approved by the Department of Education or a college or uni-  
28 versity accredited by the accreditation association for the region  
29 in which the college or university is located.

1 (c) To maintain a loan the student must continue to be enrolled  
2 as a full-time student in good standing in a career education program,  
3 college or university designated under (b) of this section.

4 (d) Scholarship loans may not be made to a student for more than  
5 six years.

6 (e) Loans shall be noninterest bearing while a student is  
7 enrolled under (c) of this section or is fulfilling required military  
8 service.

9 (f) Interest on a loan given under secs. 751 - 773 of this  
10 chapter shall be at the rate of five per cent.

11 (g) Repayment of a loan shall commence within one year after a  
12 student terminates his studies or required military service, and shall  
13 be fully repaid within a period of six years; in cases of hardship,  
14 the committee may extend repayment of a loan for an additional five  
15 years.

16 (h) Security may not be required for the loans; however, provi-  
17 sion shall be made for payment of attorney fees and costs of court if  
18 either or both are incurred in collection of the amount owed on the  
19 loan.

20 (i) If a loan is in default, the Department of Education may  
21 notify the student that repayment of the remaining balance is  
22 accelerated and due by sending the student a notice by registered or  
23 certified mail.

24 (j) A portion of a loan shall be considered a grant if, upon  
25 completion of the course of study for which the loan was granted, the  
26 grantee spends at least two years employed in the state. The portion  
27 of the loan which shall be regarded as a grant shall be the following  
28 percentages of the total loan received plus accrued interest:

29 (1) two - three years residency 10 per cent

- 1           (2) three - four years residency           20 per cent
- 2           (3) four - five years residency           30 per cent
- 3           (4) over five years residency           40 per cent.

4           Sec. 14.40.765. ELIGIBILITY OF STUDENTS. A student may apply  
5 for a scholarship loan if

- 6           (1) he is a resident of Alaska, and if
- 7           (2) he is either

- 8                   (A) enrolled as a full-time student in a career educa-  
9 tion or associate or baccalaureate or graduate degree program; or
- 10                   (B) a graduate of a high school, or scheduled for  
11 graduation from a high school within six months, with sufficient  
12 credits to be admitted to a career education program or to an  
13 accredited college or university.

14           Sec. 14.40.767. SELECTION CRITERIA. In selecting from among the  
15 eligible students those students who will be awarded loans the selec-  
16 tion committee shall take into consideration the following items:

- 17           (1) the student's financial needs;
- 18           (2) entering freshmen who are graduates of Alaska high  
19 schools or who are graduates of a high school outside the state if  
20 their Alaskan residency has been continuous;
- 21           (3) personal recommendations from the student's instructors,  
22 employers, and others familiar with his abilities;
- 23           (4) the student's record of achievement.

24           Sec. 14.40.769. DISCRIMINATION PROHIBITED. The student loan  
25 program shall be carried out without regard to the race, creed, sex,  
26 color, ancestry, national origin, or membership in fraternal or  
27 political organizations of the student applying for the loan.

28           Sec. 14.40.771. ENFORCEABILITY OF CERTAIN CONTRACTS WITH MINORS.  
29 A written obligation entered into by a minor at least 16 years of age,

1 evidencing a loan or other assistance received by him from any person  
2 for the purpose of furthering his education in a career education  
3 program or an institution of higher learning, is enforceable against  
4 the minor with the same effect as if he were, at the time of its  
5 execution, 19 years of age, if the person making the loan has in his  
6 records before making the loan a certification from the institution  
7 that the minor is enrolled in the institution or has been accepted  
8 for enrollment.

9 Sec. 14.40.773. DEFINITIONS. In secs. 751-773 of this chapter

10 (1) "school year" means the period from September 1 of  
11 one year through August 31 of the following year;

12 (2) "career education" means a course or program in  
13 vocational-technical training or education approved by the Department  
14 of Education;

15 (3) "full-time student" means a student who is enrolled and  
16 is in regular attendance at classes for at least 12 semester hours of  
17 credit during the semester;

18 (4) "loan" means a student loan granted under secs. 751-  
19 773 of this chapter;

20 (5) "resident" means a person domiciled in Alaska who has  
21 resided in Alaska for at least two years before making an application  
22 for a student loan.

23 \* Sec. 2. AS 14.40.750 - 14.40.849 and AS 14.40.900 - 14.40.910 are  
24 repealed.

25 \* Sec. 3. Sec. 1 of this Act takes effect on July 1, 1971 or on the  
26 date the Alaska Higher Education Commission is enjoined from making pay-  
27 ments under the provisions of AS 14.40.900, whichever date is earlier.

28 Sec. 2 of this Act takes effect on July 1, 1972.

## MEMORANDUM

State of Alaska

*Warwick*

TO:  The Honorable George Hohman  
Chairman, House Finance Committee

DATE . April 23, 1971

FROM: James F. McClain *James F. McClain*  
Administrative Officer  
Department of Health and Welfare

SUBJECT: HB 429

This Department has been requested to provide a fiscal note on HB 429 relating to loans for water supply and sewerage systems.

There are no direct fiscal implications in this Bill, which is enabling legislation designed to provide for loans from monies appropriated for water and sewerage grants.

JFM/be

HB 429

ANALYSIS

This bill would provide for loans for advanced engineering planning for water and sewer system improvements from the fund already existing and administered by the Department of Environmental Conservation for construction grants in this field. Since the amounts are small (maximum loan \$20,000), they are intended for smaller municipalities such as Cordova, Wrangell, Bethel, etc., and would enable these municipalities to employ a consulting engineer to develop a preliminary engineering plan for the facility. The added costs to the State would be the small part of the administrative assistant, which is being requested on the Fiscal Note for SB 277, (see attached, page 2 of Analysis), a bill to authorize a \$28 million bond issue for the grant program. There is no commitment in the bill authorizing the State to forgive the loan or assuring the municipality that a grant will be available in a fixed time period. Thus, the municipality would be expected to make repayment within the maximum five year period. It is contemplated, however, that if grant funds are made available, either through bonding or through direct appropriation, that this engineering loan would become a part of the project cost, and thus would not be repaid to the State. The actual grant, therefore, would be reduced by the amount of the loan, in lieu of repayment.

ANALYSIS

The following comments apply to the questions raised in the January 27, 1972 memorandum from the Legislative Finance Committee requesting this Fiscal Note:

(1) The amount of Federal aid generated by these general obligation bonds is not a discrete single figure. This program was conceived and the law was drawn in the spring of 1970 to take advantage of a clause in Federal law which automatically increases Federal sewage treatment plant grants from 33% to 55% where a State provides 25% of the cost of each project, as Alaska now does under this program. Provision for construction grants for collection sewers (as contrasted with interceptors and sewage treatment) and for water systems was added to the proposed State legislation at a time when it appeared that royalties from the production of oil soon would be flowing freely, and thus, that adequate funding for all such programs would be readily available. In the tentative list of projects used to develop the \$28 million for FY 73, if only sewage treatment projects are considered, the additional 22% of Federal aid generated by the bond issue would amount to about \$8 million. If, however, it is considered that few, if any, Alaskan municipalities can construct water or sewer system facilities at today's prices without a combination of both State and Federal financial assistance, and if it is recognized that Federal assistance for water and sewer system projects averages about 40%, from 40 to 45 million Federal dollars will be generated by this \$28 million State bond issue.

(2) The attached listing of water and sewer system funding needs has been developed to show a program requirement this year of \$28 million. It should be noted that this listing does not represent commitment or priority order of projects. Since many of the municipalities listed have not yet obtained Federal commitments, and those on the lower part of the page have not raised their own funding, actual priorities will be established at the time funds become available soon after the general election in November. Similarly, completion dates are not available at this time. In a number of cases, the municipalities, even those in the upper part of the list where municipal bond elections have been held, are awaiting State funding to authorize consulting engineers to carry out detailed designs.

(3) As this program is growing, it will be essential to place administration on a permanent basis, instead of relying on a temporary administrative assistant, as has been done until the present time. The position proposed for funding in the Fiscal Note will establish the administration of this program on a permanent and orderly basis, and provide more prompt servicing of municipal forms.

The administrative details involve a complex interweaving of State grant and loan payments with payments from several Federal agencies also supporting such construction. Since this Department fixes priorities for Federal funding among sewage treatment projects, a variety of Federal fiscal forms for change orders, progress reports, etc., must be co-ordinated with State payments. Because this is a new Department, the administration of this program is a relatively large work load which cannot be absorbed by the skeleton administrative staff proposed in the FY 73 budget. Perhaps five percent of the time of the employee administering this program will be devoted to handling matters which will be generated by passage of HB 429 (loans from the same funds for advance engineering of water and sewer projects.)

## ANALYSIS

This bill would provide for loans for advanced engineering planning for water and sewer system improvements from the fund already existing and administered by the Department of Environmental Conservation for construction grants in this field. Since the amounts are small (maximum loan \$20,000), they are intended for smaller municipalities such as Cordova, Wrangell, Bethel, etc., and would enable these municipalities to employ a consulting engineer to develop a preliminary engineering plan for the facility. The added costs to the State would be the small part of the administrative assistant, which is being requested on the Fiscal Note for SB 277, (see attached, page 2 of Analysis), a bill to authorize a \$28 million bond issue for the grant program. There is no commitment in the bill authorizing the State to forgive the loan or assuring the municipality that a grant will be available in a fixed time period. Thus, the municipality would be expected to make repayment within the maximum five year period. It is contemplated, however, that if grant funds are made available, either through bonding or through direct appropriation, that this engineering loan would become a part of the project cost, and thus would not be repaid to the State. The actual grant, therefore, would be reduced by the amount of the loan, in lieu of repayment.

ANALYSIS

The following comments apply to the questions raised in the January 27, 1972 memorandum from the Legislative Finance Committee requesting this Fiscal Note:

(1) The amount of Federal aid generated by these general obligation bonds is not a discrete single figure. This program was conceived and the law was drawn in the spring of 1970 to take advantage of a clause in Federal law which automatically increases Federal sewage treatment plant grants from 33% to 55% where a State provides 25% of the cost of each project, as Alaska now does under this program. Provision for construction grants for collection sewers (as contrasted with interceptors and sewage treatment) and for water systems was added to the proposed State legislation at a time when it appeared that royalties from the production of oil soon would be flowing freely, and thus, that adequate funding for all such programs would be readily available. In the tentative list of projects used to develop the \$28 million for FY 73, if only sewage treatment projects are considered, the additional 22% of Federal aid generated by the bond issue would amount to about \$8 million. If, however, it is considered that few, if any, Alaskan municipalities can construct water or sewer system facilities at today's prices without a combination of both State and Federal financial assistance, and if it is recognized that Federal assistance for water and sewer system projects averages about 40%, from 40 to 45 million Federal dollars will be generated by this \$28 million State bond issue.

(2) The attached listing of water and sewer system funding needs has been developed to show a program requirement this year of \$28 million. It should be noted that this listing does not represent commitment or priority order of projects. Since many of the municipalities listed have not yet obtained Federal commitments, and those on the lower part of the page have not raised their own funding, actual priorities will be established at the time funds become available soon after the general election in November. Similarly, completion dates are not available at this time. In a number of cases, the municipalities, even those in the upper part of the list where municipal bond elections have been held, are awaiting State funding to authorize consulting engineers to carry out detailed designs.

(3) As this program is growing, it will be essential to place administration on a permanent basis, instead of relying on a temporary administrative assistant, as has been done until the present time. The position proposed for funding in the Fiscal Note will establish the administration of this program on a permanent and orderly basis, and provide more prompt servicing of municipal forms.

The administrative details involve a complex interweaving of State grant and loan payments with payments from several Federal agencies also supporting such construction. Since this Department fixes priorities for Federal funding among sewage treatment projects, a variety of Federal fiscal forms for change orders, progress reports, etc., must be co-ordinated with State payments. Because this is a new Department, the administration of this program is a relatively large work load which cannot be absorbed by the skeleton administrative staff proposed in the FY 73 budget. Perhaps five percent of the time of the employee administering this program will be devoted to handling matters which will be generated by passage of HB 429 (loans from the same funds for advance engineering of water and sewer projects.)

6 For an Act entitled: "An Act relating to loans for water supply and  
7 sewerage systems; and providing for an effective date."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 \* Section 1. AS 46.05.155 is amended by adding a new subsection to read:

10 (d) The department may lend, as funds are available, up to  
11 \$20,000 to any municipality for advance engineering and planning  
12 expenses related to projects described in (a) and (b) of this section.  
13 Loans made under the authority of this subsection must be repaid  
14 within five years and bear interest at the rate of four per cent per  
15 year. If money is received by a borrowing municipality from a federal  
16 agency for a project for which money was loaned under this subsection,  
17 the money received must be used in part to repay the advance  
18 engineering and planning loan.

19 \* Sec. 2. This Act takes effect on the day after its passage and approval  
20 or on the day it becomes law without approval.

IN THE LEGISLATURE OF THE STATE OF ALASKA

SEVENTH LEGISLATURE - FIRST SESSION

A BILL

For an Act entitled: "An Act relating to state support for vocational education; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

\*Section 1. AS 14.17.041(c) is amended to read:

(c) Vocational education schedule:

ADM	No. Instructional Units
Full-Time Equivalent	
5 - 10	1
11 - 25	2
26 - 40	3
41 and over	3 plus 1 for each 20 pupils or fraction of 20 pupils in Full-Time Equivalent ADM

\*Sec. 2. AS 43.18.100(a) is amended to read:

(a) During each fiscal year the state shall allocate to an organized borough or a city which is a school district one-half the sum, exclusive of any funds from state or federal sources, which the local government paid during the fiscal year two years prior for the retirement of principal and interest on bonds, notes, or other indebtedness issued or incurred to pay costs of school construction. To the extent that the school construction is for vocational education facilities, as determined by the commissioner, the state shall allocate three-fourths of the sums paid.

\*Sec. 3. This Act takes effect on July 1, 1972.

PREPARED TESTIMONY FOR THE HOUSE HEW COMMITTEE  
IN SUPPORT OF HB 441

Vocational Training: Still For Someone Else's Children

It is unconscionable the lack of concern and/or lip service paid to vocational education in a state where the concept of imported labor is repugnant.

Notwithstanding the fact that only 50% of the state's high school graduates enter college and only 50% subsequently earn at least a baccalaureate degree, vocational education remains the step-child of the educational process. Vocational education has been forced to compete for funding against the academic-oriented establishment, whether on the federal, state or local level. From a social standpoint, the prestige of a baccalaureate degree has totally overshadowed the importance of a sound technical education.

Vocational education must be an integral part of total education. The state, local communities and school boards should change the funding pattern by which some 95% of its educational budget is spent on college oriented programs.

The changing employment picture in the U.S. has made education beyond high school a necessity for employment in many fields. Automation and our increasing technological society have created more and more jobs and professions requiring skills and education, while every year sees fewer jobs for the unskilled. The man with only his labor to sell has almost nothing to sell.

It has become quite clear that willingness to work is not enough for the high school graduate. Increasingly, preparation with job entry skills during high school or education beyond high school is essential for employment.

Originally high school was set up to prepare young people for college. Later the curriculum was modified in two ways: First, we tried to put some vocational education into high schools, but this is very hard to do and very costly. When it comes to fitting out a really modern shop and keeping it up to date, the cost of vocational education is 2 to 3 times that for general education. Second, we tried to modify the college-preparatory tone of schools by instituting "general education", which really means that if a youngster behaves himself in a classroom he gets a diploma but knows very little.

Vocational education gets a lot of attention during election year, but many educators and a few legislators would prefer less talk and more action--especially funding as proposed in HB 441.

An educational system must produce citizens who work as well as play, produce as well as consume, and create as well as appreciate.

Honorable Joshua J. Wright  
House of Representatives  
Alaska State Legislature  
Juneau, Alaska 99801

Dear Representative Wright:

As per your request to carry my letter of March 10 to you concerning vocational facilities a bit further, the following information has been put together to use at your discretion.

In order to provide adequate facilities at the following locations, a number of things should be taken into consideration. They are as follows:

1. All proposed programs should be developed on the basis of need as pointed out through a needs assessment in the local area plus information from the "Alaska Manpower Outlook for the 70's."
2. The curricula for all programs should be developed with performance objectives stating precisely at what level of competency a student would have obtained by the time he has finished a given course.
3. All students should receive a normal high school diploma with the addition of a vocational certificate stating precisely how many hours of instruction and the level of competency they have obtained.
4. All facilities would be designed in such a manner that total flexibility would exist to the point that as labor demands change occupational training areas could also change without additional renovation to facilities.
5. Teacher in-service training and teacher education programs should be made an integral part of a total instruction program so that adequate instruction would always be available.

The amount of money necessary to meet these demands over a three-year period of time would be:

Nenana - approximately 5,000 square feet for \$300,000

Cordova and Valdez - 6,000 square feet for \$360,000

Honorable Joshua J. Wright

-2-

March 24, 1971

Fairbanks - 95,000 square feet for \$4,250,000

Anchorage - 100,000 square feet for \$4,500,000

Sitka - 50,000 square feet for \$2,250,000 (joint community college-secondary facility)

Ketchikan - additional 30,000 square feet for \$1,350,000

Juneau - joint community college-secondary facility for \$2,250,000

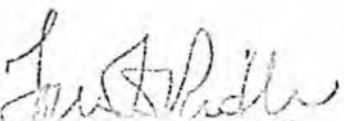

Petersburg, Wrangell, Haines, and Skagway - \$225,000 each

Also over the next three to five years, additional facilities should be considered for Bethel, Tok, Glennallen, and Fort Yukon for a total of \$16,460,000. This figure would include the equipping of all the above-mentioned facilities as well as the construction of the facilities. It would be my recommendation that if funds were made available for such a construction program all proposals submitted for funding would be based somewhat on the five things mentioned above.

If we can be of any further assistance to you, please feel free to call on us.

Sincerely,

Cliff R. Hartman  
Commissioner of Education

# STATE OF ALASKA

## DEPARTMENT OF EDUCATION

DIVISION OF VOCATIONAL AND ADULT EDUCATION

WILLIAM A. EGAN, GOVERNOR

POUCH F — ALASKA OFFICE BUILDING  
JUNEAU 99801

March 10, 1971

The Honorable Joshua J. Wright  
House of Representatives  
Alaska State Legislature  
State Capitol Building  
Juneau, Alaska 99801

Dear Mr. Wright:

In response to your request for information concerning vocational programs in Alaska, there are a number of things that I would like to refer to.

First of all, I would like to say that over the years, education has been charged with the responsibility of providing occupational training for the Nation's population. The theory behind the educational process, and particularly vocational education, is to provide an adequate work force to meet the occupational demands of business and industry. Even though education has been charged with this responsibility, little attention has been given to the financial aspects until recently.

During the last legislative session, the Alaska State Legislature saw fit to pass a bill allowing foundation support for vocational-technical education. This financial support money through the foundation plan is very beneficial to those school districts who have already developed their programs and have adequate equipment and facilities to operate such programs.

An example of this is a school like Kodiak with an adequate vocational-technical facility and equipment. Without much difficulty, Kodiak can fund a full-fledged program of occupational training in areas of metal, power mechanics, fisheries, woodworking, drafting, electronics, refrigeration, etc. Those types of facilities throughout the State are non-existent except for Kodiak.

Because of the adequate funding made available for program operation through the legislature last year, a tremendous change in attitude has taken place on the parts of superintendents, principals, and local boards of education. However, they have suddenly realized that even though money is available for program operation, equipment and facilities are not adequate and in most cases are non-existent. An example of this is at the present time before adequate programs can be operated, new facilities or additional facilities need to be added at the following locations:

The Honorable Joshua J. Wright

-2-

March 10, 1971

If adequate facilities were made available through a statewide funding process, there would be no reason then for any high school to not provide a strong comprehensive educational program which is made up of three main components. Those components being:

- (1) A career guidance center.
- (2) A strong academic program.
- (3) Vocational-technical education.

It is our opinion that until such time these facilities are made available, the local boards of education and local school administration cannot take the initiative to provide an adequate comprehensive high school that will provide the three ingredients we have referred to.

If such facilities were made available, not only would secondary students on the high school level benefit from such programs, but it would be very easy to utilize those facilities for adult programs and post-secondary programs as well. As an example, we would see no reason why a vocational-technical facility should not be operated from 12 to 16 hours a day.

Sincerely,

Cliff R. Hartman  
Commissioner of Education

Alaska State Legislature  
Juneau, Alaska 99801

Dear Representative Wright:

As per your request to carry my letter of March 10 to you concerning vocational facilities a bit further, the following information has been put together to use at your discretion.

In order to provide adequate facilities at the following locations, a number of things should be taken into consideration. They are as follows:

1. All proposed programs should be developed on the basis of need as pointed out through a needs assessment in the local area plus information from the "Alaska Manpower Outlook for the 70's."
2. The curricula for all programs should be developed with performance objectives stating precisely at what level of competency a student would have obtained by the time he has finished a given course.
3. All students should receive a normal high school diploma with the addition of a vocational certificate stating precisely how many hours of instruction and the level of competency they have obtained.
4. All facilities would be designed in such a manner that total flexibility would exist to the point that as labor demands change occupational training areas could also change without additional renovation to facilities.
5. Teacher in-service training and teacher education programs should be made an integral part of a total instruction program so that adequate instruction would always be available.

The amount of money necessary to meet these demands over a three-year period of time would be:

Nenana -- approximately 5,000 square feet for \$300,000

Cordova and Valdez -- 6,000 square feet for \$360,000

Honorable Joshua J. Wright

-2-

March 24, 1971

Fairbanks - 95,000 square feet for \$4,250,000

Anchorage - 100,000 square feet for \$4,500,000

Sitka - 50,000 square feet for \$2,250,000 (joint community college-secondary facility)

Ketchikan - additional 30,000 square feet for \$1,350,000

Juneau - joint community college-secondary facility for \$2,250,000

Petersburg, Wrangell, Haines, and Skagway - \$225,000 each

Also over the next three to five years, additional facilities should be considered for Bethel, Tek, Glennallen, and Fort Yukon for a total of \$16,460,000. This figure would include the equipping of all the above-mentioned facilities as well as the construction of the facilities. It would be my recommendation that if funds were made available for such a construction program all proposals submitted for funding would be based somewhat on the five things mentioned above.

If we can be of any further assistance to you, please feel free to call on us.

Sincerely,

Cliff R. Hartman  
Commissioner of Education

# STATE OF ALASKA

DEPARTMENT OF EDUCATION

DIVISION OF VOCATIONAL AND ADULT EDUCATION

WILLIAM A. BAYL, GOVERNOR

FOUNDED — ALASKA OFFICE ESTABLISHED  
JUNE 18, 1959

March 10, 1971

The Honorable Joshua J. Wright  
House of Representatives  
Alaska State Legislature  
State Capitol Building  
Juneau, Alaska 99801

Dear Mr. Wright:

In response to your request for information concerning vocational programs in Alaska, there are a number of things that I would like to refer to.

First of all, I would like to say that over the years, education has been charged with the responsibility of providing occupational training for the Nation's population. The theory behind the educational process, and particularly vocational education, is to provide an educated work force to meet the occupational demands of business and industry. Even though education has been charged with this responsibility, little attention has been given to the financial aspects until recently.

During the last legislative session, the Alaska State Legislature was able to pass a bill allowing foundation support for vocational-technical education. This financial support money through the foundation plan is very beneficial to those school districts who have already developed their programs and have adequate equipment and facilities to operate such programs.

An example of this is a school like Kodiak with an adequate vocational-technical facility and equipment. Without much difficulty, Kodiak can fund a full-fledged program of occupational training in areas of metal, power mechanics, fisheries, woodworking, drafting, electronics, refrigeration, etc. Those types of facilities throughout the State are non-existent except for Kodiak.

Because of the adequate funding made available for program operation through the legislature last year, a tremendous change in attitude has taken place on the parts of superintendents, principals, and local boards of education. However, they have suddenly realized that even though money is available for program operation, equipment and facilities are not adequate—and in most cases are non-existent. An example of this is at the present time before adequate programs can be operated, new facilities or additional facilities need to be added at the following locations:

The Honorable Joshua J. Wright

-2-

March 10, 1971

If adequate facilities were made available through a statewide funding process, there would be no reason then for any high school to not provide a strong comprehensive educational program which is made up of three main components. Those components being:

- (1) A career guidance center.
- (2) A strong academic program.
- (3) Vocational-technical education.

It is our opinion that until such time these facilities are made available, the local boards of education and local school administration cannot take the initiative to provide an adequate comprehensive high school that will provide the three ingredients we have referred to.

If such facilities were made available, not only would secondary students on the high school level benefit from such programs, but it would be very easy to utilize these facilities for adult programs and post-secondary programs as well. As an example, we would see no reason why a vocational-technical facility should not be operated from 12 to 16 hours a day.

Sincerely,

Cliff R. Hartman  
Commissioner of Education

By:   
Louis B. Riddle, Director  
Vocational and Adult Education

## MEMORANDUM

State of Alaska

TO: F

Mrs. Nadine Williams  
Fiscal Assistant  
House Finance Committee  
Alaska State Legislature

DATE: April 26, 1971

FROM: Eric E. Wohlforth  
Commissioner  
Department of Revenue

SUBJECT: Fiscal Note -- House Bill 444

The State purchased \$13,350,000 Greater Anchorage Area Borough bonds under authority of AS 37.10.079 in July 1970 and sold \$6,545,000 of these bonds in October 1970 for a profit of \$306,614.80. This amount would be repaid to the Borough from the general fund if House Bill 444 is enacted.

The balance of the issue will be sold when market conditions warrant; however, the dollar profit (if any) is speculative until the time of sale.
