3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 EIGHTH LEGISLATURE - FIRST SESSION

5 A BILL

6 For an Act entitled: "An Act relating to revenue sharing with local govern-
7 ments; and providing for an effective date."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. AS 43.18.010(a)(6) is amended to read:

10 (6) \$5 per capita to cities and boroughs providing any of
11 the following municipally financed and operated facilities or services:

12 [TRANSPORTATION FACILITIES OR SERVICES LIMITED TO MUNICIPALLY-OPERATED]
13 small boat harbors, ports, or airports; [OR TRANSIT SYSTEMS.]

14 * Sec. 2. AS 43.18.010(a) is amended by adding a new paragraph to read:

15 (7) \$5 per capita to cities and boroughs providing mass
16 transit facilities or services, whether by a municipally owned, financed
17 and operated system or by contract.

18 * Sec. 3. AS 43.18.010(h) and (i) are repealed and re-enacted to read:

19 (h) During each fiscal year the state shall make payments as
20 follows:

21 (1) \$1,000 per hospital bed to an organized borough or a
22 city outside an organized borough in which a hospital is operated for
23 each hospital bed actually used for patient care, limited to the number
24 of beds provided for in the construction design of the hospital, or
25 \$50,000 per hospital as the local government may determine;

26 (2) \$1,000 per hospital bed to hospitals located outside any
27 organized municipality for each hospital bed actually used for patient
28 care, limited to the number of beds provided for in the construction
29 design of the hospital, or \$50,000 as the hospital may determine;

1 (3) \$1,000 per bed to an organized borough or city outside
2 an organized borough in which a health facility is operated for each
3 bed actually used for patient care, limited to the number of beds pro-
4 vided for in the construction design of the health facility, or \$8,000
5 per health facility as the local government may determine;

6 (4) \$1,000 per bed to each health facility located outside
7 a municipality for each bed actually used for patient care, limited to
8 the number of beds provided for in the construction design of the
9 health facility, or \$8,000 per health facility as the nonprofit corpora-
10 tion or other nonprofit group or association located in the community
11 and operating the health facility may determine;

12 (5) funds received by a local government, hospital, or non-
13 profit corporation or other nonprofit group or association located in
14 the community and operating a health facility under (1), (2), (3), or
15 (4) of this subsection shall be used for expenses of operation, mainte-
16 nance, or health services or facilities;

17 (6) before funds may be distributed under this subsection,
18 the commissioner of health and social services shall certify to the
19 distributing agency that

20 (A) the local governments, hospitals, or health facili-
21 ties located outside a city or organized borough are entitled in
22 all respects to receive aid under this subsection or (j) of this
23 section;

24 (B) the recipient local government, hospital, nonprofit
25 corporation or other nonprofit group or association located in a
26 community and operating a health facility has not incurred in the
27 prior year expenses for rent, supplies, services, or otherwise,
28 which exceed their fair market or reasonable value; and

29 (C) any accumulation of assets by nonprofit corporations

1 or other recipients under this subsection are dedicated irrevocably
2 to a public purpose;

3 (7) as a condition precedent to receipt of aid under this
4 subsection, a nonprofit corporation or other nonprofit group or associa-
5 tion located in and organized for the purpose of operating a health
6 facility in an unincorporated community must certify to the commissioner
7 of health and social services, at the time application is made, that the
8 corporation, group, or association is organized for the sole purpose
9 of operating a health facility, has established rules or bylaws to
10 regulate the conduct of the corporation, group, or association, and
11 that all meetings, proceedings and records of the group or corporation
12 are open to the public.

13 (1) In (h) and (j) of this section

14 (1) "hospital" means a licensed hospital determined by the
15 Department of Health and Social Services to be a general hospital; the
16 term excludes

17 (A) facilities operated or wholly supported by the
18 state or the federal government and

19 (B) nonprofit facilities leased from private profit-
20 making groups or corporations only as to use of shared revenue for
21 capital improvements under (j) of this section, but not as to use
22 of shared revenue for operating expenses under (h) of this section;

23 (2) "health facility" means public health centers, maternity
24 homes, and community mental health centers, facilities for the mentally
25 retarded or physically handicapped, nursing homes, convalescent centers
26 and facilities for the treatment and rehabilitation of alcoholism,
27 which are licensed, when required, by the state under AS 16.20.010 -
28 18.20.130 or AS 47.37.080 and are owned or operated or both by a local
29

1 government or nonprofit corporation or other nonprofit sponsor; the
2 term excludes

3 (A) facilities wholly supported by the state or the
4 federal government and

5 (B) nonprofit facilities leased from private profit-
6 making groups or corporations only as to the use of shared revenue
7 for capital improvements under (j) of this section, but not as to
8 use of shared revenue for operating expenses under (h) of this
9 section.

10 * Sec. 4. AS 43.18.010 is amended by adding a new subsection to read:

11 (k) In (a)(7) of this section "mass transit facilities or ser-
12 vices" means the transportation of groups of people over regular routes
13 at specified times in accordance with fixed and set tariffs but is
14 limited to transportation by rail, monorail or bus, specifically manu-
15 factured and designed to accommodate the general public.

16 * Sec. 5. AS 43.18 is amended by adding new sections to read:

17 Sec. 43.18.040. REGULATIONS. The Department of Community and
18 Regional Affairs shall promulgate regulations necessary to carry out the
19 purpose of this chapter.

20 Sec. 43.18.050. SPECIFIC EXPENDITURES. A municipality or a hos-
21 pital or health facility located outside a municipality shall expend
22 funds received for the operation and maintenance of hospitals and
23 health facilities and services and mass transit facilities and services
24 under this chapter only for those specific facilities and services.

25 * Sec. 6. This Act takes effect July 1, 1973.

3 bed actually used for patient care, limited to the number of beds pro-
4 vided for in the construction design of the health facility, or \$8,000
5 per health facility as the local government may determine;

6 (4) \$1,000 per bed to each health facility located outside
7 a municipality for each bed actually used for patient care, limited to
8 the number of beds provided for in the construction design of the
9 health facility, or \$8,000 per health facility as the nonprofit corpora-
10 tion or other nonprofit group or association located in the community
11 and operating the health facility may determine;

12 (5) funds received by a local government, hospital, or non-
13 profit corporation or other nonprofit group or association located in
14 the community and operating a health facility under (1), (2), (3), or
15 (4) of this subsection shall be used for expenses of operation, mainte-
16 nance, or health services or facilities;

17 (6) before funds may be distributed under this subsection,
18 the commissioner of health and social services shall certify to the
19 distributing agency that

20 (A) the local governments, hospitals, or health facili-
21 ties located outside a city or organized borough are entitled in
22 all respects to receive aid under this subsection or (j) of this
23 section;

24 (B) the recipient local government, hospital, nonprofit
25 corporation or other nonprofit group or association located in a
26 community and operating a health facility has not incurred in the
27 prior year expenses for rent, supplies, services, or otherwise,
28 which exceed their fair market or reasonable value; and

29 (C) any accumulation of assets by nonprofit corporations

1 or other recipients under this subsection are dedicated irrevocably
2 to a public purpose;

3 (7) as a condition precedent to receipt of aid under this
4 subsection, a nonprofit corporation or other nonprofit group or associa-
5 tion located in and organized for the purpose of operating a health
6 facility in an unincorporated community must certify to the commissioner
7 of health and social services, at the time application is made, that the
8 corporation, group, or association is organized for the sole purpose
9 of operating a health facility, has established rules or bylaws to
10 regulate the conduct of the corporation, group, or association, and
11 that all meetings, proceedings and records of the group or corporation
12 are open to the public.

13 (i) In (h) and (j) of this section

14 (1) "hospital" means a licensed hospital determined by the
15 Department of Health and Social Services to be a general hospital; the
16 term excludes

17 (A) facilities operated or wholly supported by the
18 state or the federal government and

19 (B) nonprofit facilities leased from private profit-
20 making groups or corporations only as to use of shared revenue for
21 capital improvements under (j) of this section, but not as to use
22 of shared revenue for operating expenses under (h) of this section;

23 (2) "health facility" means public health centers, maternity
24 homes, and community mental health centers, facilities for the mentally
25 retarded or physically handicapped, nursing homes, convalescent centers
26 and facilities for the treatment and rehabilitation of alcoholism,
27 which are licensed, when required, by the state under AS 18.20.010 -
28 18.20.130 or AS 47.37.080 and are owned or operated or both by a local
29

1 government or nonprofit corporation or other nonprofit sponsor; the
2 term excludes

3 (A) facilities wholly supported by the state or the
4 federal government and

5 (B) nonprofit facilities leased from private profit-
6 making groups or corporations only as to the use of shared revenue
7 for capital improvements under (j) of this section, but not as to
8 use of shared revenue for operating expenses under (h) of this
9 section.

10 * Sec. 4. AS 43.18.010 is amended by adding a new subsection to read:

11 (k) In (a)(7) of this section "mass transit facilities or ser-
12 vices" means the transportation of groups of people over regular routes
13 at specified times in accordance with fixed and set tariffs but is
14 limited to transportation by rail, monorail or bus, specifically manu-
15 factured and designed to accommodate the general public.

<u>MUNICIPALITY</u>	<u>ESTIMATED 7/1/73 POPULATION</u>		<u>PER CAPITA ENTITLEMENT</u>	<u>ESTIMATED ENTITLEMENT</u>
City & Borough of Juneau	15,260	x	\$5	\$ 76,300

TOTALS	<u>148,678</u>			<u>\$698,390</u>

ASSUMPTIONS & ANALYSIS

- (1) The City and Borough of Juneau will continue their present operation of the Capital Transit System on an areawide basis.

- (2) The Greater Anchorage Area Borough possesses mass transit authority. For purposes of this analysis, we assume the borough will take over the operation of the demonstration bus project operated by the City of Anchorage on a contractual basis, and funded with a \$250.0 U.S. Department of Transportation demonstration grant, and city and borough funds. The Department has been advised the borough would undertake a bond issue to match Department of Transportation funds, and expand and operate the present system on a limited route basis areawide or create a transportation service area encompassing the City of Anchorage, the Anchorage military base area annexed to the borough, and a majority of the borough area outside the City of Anchorage and the military bases. It is further assumed the legislation effecting the military base annexation to the borough will become law this session. The cost of the borough's potential claim for mass transportation for the population residing in the military base annexation area is not covered in fiscal notes prepared for annexation legislation considered by this session of the legislature, nor is the cost of this potential claim included in any previous estimate of the amount required to fully fund the present provisions of the Municipal Services Revenue Sharing Program.

SUBJ: SB 85, Special
Appropriation to
Educational Broad-
casting Commission

SB 85 will provide funding for FY 1974 projects that were desired by the EBC but were not included in the Governor's FY 1974 budget request. Pertinent information is attached:

1. Memo from Bob Arnold, Executive Director, EBC, to Joe Henri, Commissioner, Department of Administration; justification for items (3) to (6)--new starts of educational radio stations at Kodiak, Dillingham, Barrow and Petersburg.
2. FY 1974 budget request from EBC; items included in SB 85 are underlined or bracketed.
3. FY 1973 Appropriation Act and Legislative Intent regarding Southcentral Alaska educational television; requires 35% matching federal funds. It may be noted that the FY 1974 EBC budget requests the \$125,000 for "operation" of the station authorized in the FY 1973 Appropriation Act.

It should be noted that the EBC Board has approved these projects for funding in FY 1974.

A fiscal note is due from the EBC on February 15, 1973. Additional information will probably accompany that fiscal note.

MEMORANDUM

TO:

Joe Henri, Commissioner
Department of Administration

Jacobs

DATE : December 7, 1972

FROM:

Bob Arnold *Bob Arnold*
Executive Director
Educational Broadcasting Commission

SUBJECT:

Change in Educational Broadcasting
Commission Budget Request

In my FY 74 budget request increase I show requests for modest increases for operating stations at Bethel, Kotzebue, and Anchorage and funds for the establishment of four new radio stations in rural areas. It is the latter which occasions this letter.

Two of the requested new starts--Kodiak and Dillingham--were approved by Governor Egan, but failed to win the approval of the House Finance Committee, so I rather expect funds for those locations will be sought again.

The problem is with one of the other two. I want to persist in the request for a Barrow station, but I have an uncertainty about naming Petersburg-Valdez.

Top priority for educational radio stations goes to communities without commercial radio. While there is no radio at all in Petersburg-Wrangell, the president of Great Land Broadcasters, Bill Williams (who is also deputy director of the travel division), has informed me that he is finalizing his plans to establish a station there.

Because such plans for radio stations don't always materialize, I don't want to withdraw the request, but because they may, I would rather not have Petersburg-Wrangell named. Therefore, I request that, if four new radio start-ups are to be proposed to the legislature that the fourth station not be named by location. Okay?

Thanks.

cc: Governor William A. Egan

OVERVIEW

While 75 percent of America's population can view educational television, and more that 60 percent can hear educational/non-commercial radio, only 15 percent of Alaska's population can do either. There are educational and informational needs in Alaska that can be met effectively through such facilities, and via satellite. This Commission is seeking to increase the number of stations so that more Alaskans can see or hear public broadcasting, and to engage in satellite demonstrations (usually with federal funds) to learn how to employ communications technology more effectively.

Maintenance

Almost seventy percent of the \$395,000 FY-74 request would go to operating broadcast stations at Kotzebue and Bethel, the same percentage that is going out as grants in the present fiscal year. Funds for support of the Commission itself are less than FY-73. The staff of the Commission would remain three persons.

Change

Public needs in areas without radio or television that would be met are, in order of priority, the needs of the public for information that affects their lives, especially, regional and local information such as disaster warnings, weather forecasts, news, or culturally relevant information; information in a language that is understood, unique instruction that might be only provided by the media, continuing adult education and enrichment. Public needs in areas already having television are, in order of priority, unique instruction, aggregation of minorities, and, continuing education and enrichment.

Adding funds to budgets for Kotzebue and Bethel will allow nearer achievement of information/education objectives for both, and in the case of Kotzebue, construction of a small studio. (Even with the proposed additional operating funds, these budgets are far less than most stations.) Funds for southcentral educational television are requested to allow the operation of the authorized, but not constructed station.

Since one public and several commercial stations serve portions of the Tanana Chiefs' region, funds are sought for the production of culturally relevant materials which could be made available for broadcast.

Areas not now served by broadcasts at all are of highest priority to the Commission, and radio stations are sought for Kodiak, Dillingham, Petersburg-Wrangell, and Barrow. Radio stations promise the advancement of Commission objectives at lower initial and operating costs than television stations, and require less technical and professional skill to operate, so fiscal constraints argue for such stations.

The following is an analysis of maintenance and needed increase for educational broadcasting in Alaska.

EXPLANATION

- a. Of this amount, \$60,000 would go for construction of a building to house the Kotzebue station; remainder would go for remote broadcast equipment and information resources (AP, cultural heritage).
- b. Addition to operating funds of Bethel Broadcasting to allow minimum operation.
- c. Part-year operating funds for already authorized Southcentral ETV station.
- d. No stations now planned for Tanana region, so funds are sought for relevant production to be made available to existing public and commercial stations.
- e. Minimum amounts necessary (without buildings) to serve these areas not now served by commercial or public radio.

OFFICE OF THE COMMISSIONER

DEPARTMENT OF ECONOMIC DEVELOPMENT

TO: J. H. Hogan, Director
Legislative Finance

DATE March 28, 1973

FROM: Paul M. Schaaf
Administrative Officer
Department of Economic Development

SUBJECT: SB - 86

The attached information identifies fund requests in each of the three areas set forth in the bill.

Projecting these costs forward, it is anticipated that a 5% inflationary figure in the identification program and in travel would be realistic. These figures should then be displayed as follows:

FY-1974	FY-1975	FY-1976	FY-1977	FY-1978
\$15,000.	\$15,750.	\$16,538	\$17,365.	\$18,233.

The additional \$2,500 will cover the estimated costs for full utilization of the MEDLINE system. This is a computer based medical journal searching procedure with a terminal at the Alaska Health Sciences Information Center for direct communication with the National Library of Medicine in Bethesda, Maryland. The funds are required for line charges between Anchorage and Seattle from where they are paid by the NIM. The system has been used since August, 1972 and has shown its value both in speed of getting information and in saving time because searching is done by computer rather than manually. It is now estimated that 1,000 - 1,200 MEDLINE searches will be made in FY74

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

The inclusion of this group would have no administrative cost impact. The projection of the Benefits Cost was based upon an increase in the employers contribution rate of .19% times an estimated payroll of \$115,000,000.00. It is estimated that this would apply to approximately 213 positions.

A five percent annual increase in salaries is assumed.

Alaska Public Employees' Retirement System
Police and Fire Provisions

Dear Bob:

Apparently, as was the case in the 1972 legislative session, legislation has either been proposed or introduced regarding the inclusion of certain additional employee groups under the Police and Fire provisions of the Alaska Public Employees' Retirement System. In order to comment on such legislation, the basic intent and the philosophy underlying those provisions should be discussed.

It is my understanding that these provisions were enacted, during the 1970 legislative session, in order to provide for earlier retirement and larger death and disability benefits for policemen and firemen. The improved benefit provisions are made available under the System to such employees, whose day to day work involves the maintenance of the public peace and safety and involves substantial exposure to physical risk. Police officers and fire fighters risk their lives as a matter of occupational course.

The large death and disability benefits provided under this portion of the System are intended to ensure that the family of each such employee will be financially secure in case he is struck down by the physical hazards which he faces on a routine day to day basis.

The earlier retirement age and larger retirement benefits per year of service provided in this portion of the System reflect the fact that, in order to perform such hazardous work, the employee must be in top flight physical and mental condition. The physical requirements of this type of work forces employees into retirement at an earlier age than do those of most other occupations.

In summary, then, it should be noted that more liberal benefits are provided under the Alaska Public Employees' Retirement System to those employees who risk their lives on a routine, day to day basis in order to preserve the public peace and safety.

Based upon our latest actuarial valuation of the Public Employees' Retirement System, we find that the contribution level which would be required were the Police and Fire portion of the System a separate retirement program, standing on its own, would be 25% of covered pay. This can be used as a basis of estimation of the effect on the total State rate of providing Police and Fire coverage to other groups.

I'd be happy to discuss this question with you further at your pleasure.

Sincerely yours,

Norman S. Losk FSA

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

The inclusion of this group would have ~~relatively~~ no cost impact in the benefits office. However, it would involve payroll and data processing changes for which costs are not included.

The projection of the Benefits Cost was prepared based upon a rate increase of .5134% over the current 11.21% times a \$82,855.400 total payroll figure.

IV. ATTACHMENTS

A yearly 5% cost increase was applied.
