JUNEAU, ALASKA

MEMORANDUM

TO: Senator Cliff Groh
Chairman, Senate Finance Committee

FROM: J. H. Hogan

SUBJECT: SENATE BILL NO. 266 (Fiscal Note)
"Relating to meetings of Budget and
Audit Committee"

The only additional cost to be included under the proposed legislation would be the cost of providing the Committee with a listing of votes and members designated to attend the special meeting. If the special meeting were to be held during a legislative session, there would be no added cost since a memorandum would be distributed to all members.

If the special meeting were called during the interim (which is what the bill really envisions), the logical approach would be to send a telegram stating the items on the agenda, showing the polled votes of the entire membership and listing those members designated to attend. In all probability, the cost would never exceed \$200 in any fiscal year.

The Honorable Cliff Groh, Chairman
Senate Finance Committee

REFERENCE: Senate Bill No. 268

Dear Senator Groh:

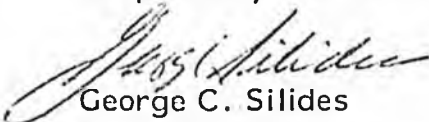

For the interest and possible guidance of yourself and the other members of the Senate Finance Committee, the following is a brief analysis and statement of purpose of the above referenced measure.

If you will review existing language of Sec. 42.06.30, Order for joint use or connections, you will notice that it is, first of all, predicated on disagreement between parties and the subsequent investigation and delay. Moreover, the probable claim by the carrier concerning economic loss and danger involved in making connections during operation is clearly anticipated.

Senate Bill No. 268 seeks to mitigate both the costs and danger involved in making "hot taps" to a line other than at pumping stations (such not always being possible or desirable), by giving the Commission both the authority and the mandate it does not now have, to provide special fittings and valves during construction. An actual safe and inexpensive connection for either the removal or injection of pipeline product is thus created. The service would be available to the State, local governments, persons, companies or corporations, at the expense of those requesting the connection.

As you know, Senate Bill No. 268 has already cleared the Resources Committee with a "Do Pass" recommendation, and I hope the measure will receive similar early consideration in Finance. I believe Senate Bill No. 268, with its accompanying measures, Senate Bill No. 269 and Senate Concurrent Resolution No. 1 (Passed), are instrumental to receiving maximum use and benefit from the State's royalty oil and gas. I hope you will join me in securing their passage.

Respectfully submitted,

George C. Silides
State Senator

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

Projecting the number of possible requests for special fittings and the number of advances to fund them was discussed with the Department of Natural Resources in an attempt to arrive at a reasonable estimate of general fund outlay for this Bill. It was our consensus that the magnitude of the Pipeline and the monitoring controls to be placed on the line would tend to prohibit noncontinuous flow thereby prohibiting connections for other than municipalities or possibly refineries.

Analysis (Continued)

To include one of the special fittings referred to in the Bill at the time of construction of the Pipeline would probably cost in the neighborhood of \$5,000. This estimate could, however, be much higher depending on the magnitude of the proposed connection.

At the present time, 5 villages or small towns are located within proximity of the Pipeline which could conceivably request such a connection (Wiseman, Bettles, Stevens Village, Big Delta and Glennallen) and could possibly request an advance from the State. It is felt, however, that a corporation, company or person proposing a project of an extent to utilize a continuous flow into or from a pipeline the size of the Alaska Pipeline would have the funds available to cover the special connection.

The operating budget for the Pipeline Commission to process the advances would not be impacted. An unsubstantiated estimate of advancements would be \$25,000 for FY 74 and 75.

The Honorable Cliff Groh, Chairman
Senate Finance Committee

REFERENCE: Senate Bill No. 268

Dear Senator Groh:

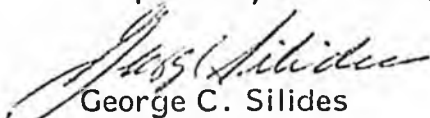

For the interest and possible guidance of yourself and the other members of the Senate Finance Committee, the following is a brief analysis and statement of purpose of the above referenced measure.

If you will review existing language of Sec. 42.06.30, Order for joint use or connections, you will notice that it is, first of all, predicated on disagreement between parties and the subsequent investigation and delay. Moreover, the probable claim by the carrier concerning economic loss and danger involved in making connections during operation is clearly anticipated.

Senate Bill No. 268 seeks to mitigate both the costs and danger involved in making "hot taps" to a line other than at pumping stations (such not always being possible or desirable), by giving the Commission both the authority and the mandate it does not now have, to provide special fittings and valves during construction. An actual safe and inexpensive connection for either the removal or injection of pipeline product is thus created. The service would be available to the State, local governments, persons, companies or corporations, at the expense of those requesting the connection.

As you know, Senate Bill No. 268 has already cleared the Resources Committee with a "Do Pass" recommendation, and I hope the measure will receive similar early consideration in Finance. I believe Senate Bill No. 268, with its accompanying measures, Senate Bill No. 269 and Senate Concurrent Resolution No. 1 (Passed), are instrumental to receiving maximum use and benefit from the State's royalty oil and gas. I hope you will join me in securing their passage.

Respectfully submitted,

George C. Silides
State Senator

4 EIGHTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act relating to oil and gas pipelines and the
7 Alaska Pipeline Commission; and providing for an
8 effective date."

9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

10 * Section 1. AS 42.06.340 is amended by adding a new subsection to read:

11 (b) During construction of a pipeline the commission shall order
12 the inclusion within the pipeline at such points that it designates,
13 special fittings including but not limited to tees, wyes, spools,
14 reducers, enlargers, flanges, flange plates, valves and valve boxes,
15 for the purpose of mitigating the time and cost of future connections
16 for the injection and removal of gas and oil from the main pipeline,
17 and for the maintenance and facilitation of intrastate commerce. A
18 request for special fittings and valves may be made by the state, a
19 local government, person, company or corporation. The cost of furnishing
20 and installing the special fittings shall be borne by whoever requests
21 the work. However, the state may advance as a loan the necessary funds
22 for that purpose if the advancement of funds appears to be in the
23 public interest, subject to those terms and conditions prescribed by
24 law.

25 * Sec. 2. This Act takes effect on the day after its passage and approval
26 or on the day it becomes law without approval.

5 A BILL

6 For an Act entitled: "An Act relating to pipelines; and providing for an
7 effective date."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. AS 38.35.120(a)(5) is amended to read:

10 (5) it will provide special fittings during construction and
11 connections, as determined by the Alaska Pipeline Commission under
12 AS 42.06.340, to facilities on the pipeline subject to the lease, both
13 on state land and other land in the state, for the purpose of delivering
14 crude oil or natural gas, depending on the kind of pipeline involved,
15 to persons (including the state and its political subdivisions) con-
16 tracting for the purchase at wholesale of crude oil or natural gas
17 transported by the pipeline when required by the public interest;

18 * Sec. 2. AS 38.35.120(a)(6) is amended to read:

19 (6) it shall, notwithstanding any other provision, provide
20 special fittings, connections and interchange facilities at state
21 expense at such times and at such places the state considers necessary
22 if the state determines to take a portion of its royalty or taxes in
23 oil or natural gas;

24 * Sec. 3. AS 38.35.120(c) is amended to read:

25 (c) The commissioner may insert in any right-of-way lease other
26 reasonable provisions and conditions that he determines the public
27 interest requires, including the requirement to install valves and
28 special fittings within the pipeline during its construction.

29 * Sec. 4. AS 38.35.225 is amended to read:

1 Sec. 38.35.225. BINDING EFFECT OF COVENANTS. By entering into
2 a lease under this chapter, the lessee is bound by all the covenants
3 provided for in the lease to the full extent of the power of the state
4 to impose those covenants under its authority as owner of the land to
5 be leased or under its police or regulatory powers or otherwise;
6 provided that the right of the lessee to challenge the power of the
7 state to require such a covenant as owner of the land to be leased or
8 under its police or regulatory powers or otherwise is preserved for a
9 period of three years or until such time as action to enforce the
10 covenant is taken by the state, whichever occurs first.
