LETTER OF INTENT

CSSB 282

April 15, 1974

Should the bond proposition specified in CSSB 282 be approved by the voters, proceeds from the sale of those bonds shall be placed in the "1974 Health and Social Services Facilities Construction Fund," and those monies then will be appropriated to the Department of Health and Social Services. However, the intent of this legislation is solely to fund the construction of health and social services facilities through the Department of Health and Social Services. It is not intended that the Department directly operate all of these facilities. Especially with group homes, receiving homes, and half-way houses, the intent of this legislation is to allow for the continued practice of contracting with private agencies to provide services through "purchase of care" or other contractual arrangements. It is further intended that these facilities be controlled and operated by private health and social services agencies and that the Department purchase the services of these agencies when appropriate to the needs of the client.

In brief, CSSB 282 provides for the construction of health and social services facilities. It does not provide for, nor obligate the Department to, the direct operation of these facilities.
