COMMITTEE REPORT

ON

COMMITTEE SUBSTITUTE FOR SENATE BILL NO. 465

The Finance Committee has had SENATE BILL NO. 465 under consideration and recommends it be replaced with COMMITTEE SUBSTITUTE FOR SENATE BILL NO. 465 and that it do pass. COMMITTEE SUBSTITUTE FOR SENATE BILL NO. 465 will assure State general fund savings in three ways. First, Medicaid coverage for all existing recipients is continued by changing the references to Federal statutes so that they are consonant with the new Federal statutes creating the Supplemental Security Income program which has replaced Old Age Assistance, Aid to the Blind, and Aid to the Disabled. This will maintain Federal reimbursement of approximately \$3.5 million per year under the existing Medicaid program.

Secondly, COMMITTEE SUBSTITUTE FOR SENATE BILL NO. 465 authorized Medicaid coverage for "children under 21 years of age under the supervision of the Department of Health and Social Services for whom maintenance is being paid in whole or in part from public funds and who are in foster homes or private child-caring institutions." By receiving 50% Federal reimbursement of medical costs now paid by State funds for these children a savings of \$17,500 is estimated for FY 75.

Finally, COMMITTEE SUBSTITUTE FOR SENATE BILL NO. 465 authorized Medicaid coverage for individuals under 21 or over 65 receiving in-patient care in a psychiatric hospital. Roughly 20 individuals in API would thus qualify for Medicaid at a savings to the State general fund of approximately \$225,000 per year.

Cliff Groh
Chairman
Senate Finance Committee

meet the financial criteria for SSI (they must be aged, blind, or disabled according to the federal definitions). If a cash assistance program is established for these persons in (b) (the Federal Government refers to such a program as an "optional state supplementary payment"), then they may be covered by Medicaid if certain conditions are met. If an optional state supplementary payment is established so that the person who becomes aged, blind, or disabled in 1974 receives the same amount of assistance as someone who became aged, blind, or disabled in 1973, then these individuals should be covered by Medicaid. This would simply maintain current eligibility coverage.

All the eligible persons listed in the recommended amendment were covered by Medicaid in 1973 except for one new group recommended for Medicaid coverage consisting of children under 21 years of age under supervision of the Department of Health and Social Services for whom maintenance is being paid in whole or in part from public funds and who are in foster homes or private child-care institutions.

Addition of these "juvenile code" children (children who are committed to the department by the court) would enable Alaska to claim 50 per cent federal funds for providing medical care to these children, whose health care costs are currently borne entirely from state funds under the General Relief Medical program. Fiscal details are provided on the attached data sheet.

In sec. 1, the committee substitute modifies the proposed AS 47.07.020(b) (1) so that it no longer refers to the repealed titles of the Social Security Act and refers instead to the new Title XVI, covering the same persons. The counsel's office for Region X of the U.S. Department of Health, Education, and Welfare concurs in this approach. The only other changes in sec. 1 made by the committee substitute are minor ones for a simpler statement of the mandatory coverage in subsection (a) and for specificity of citations and accuracy of a date reference. The same change in date reference is made in sec. 3. The committee substitute adds a new subsection (c), taken verbatim from the last sentence of the current AS 47.07.020, and a new subsection (d) which is self-explanatory.

The committee substitute also adds a new sec. 2, dealing with the medical services to be provided. This section adds coverage of inpatient psychiatric hospital services for certain persons. On any given day during Fiscal Year 1974 the API provided services to approximately 20 Medicaid eligible children. Over a period of a year this represents approximately 7,300 patient days of care at a cost of approximately \$61.00/day or \$445,300. At the present time these hospitalization and treatment costs are currently paid for out of 100% General Fund dollars. By adding this medical service to the medical services provided under Medicaid to eligible recipients, Alaska will be able to secure 50% federal participation in these costs. This would amount to approximately

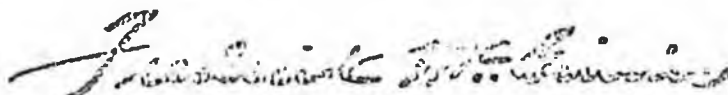

Honorable Lowell Thomas, Jr.

\$111,325 reimbursed to the State of Alaska for Fiscal Year 1974. Section 2 also deletes language no longer appropriate since provision of the specified services is in fact now required by federal provisions (Title XIX of the Social Security Act as amended, Section 1905(a)(4)(B) and 45 CFR 249.10(a)(3)). (Also see 45 CFR 249.10(a)(5) and (b)(15)(i)). Language in Section 2 also changes the terminology used for child screening to the correct federal name for the Early Periodic Screening Diagnosis and Treatment program.

Sincerely,

Frederick McGinnis

WILLIAM A. EGAN, GOVERNOR

DEPARTMENT OF HEALTH, EDUCATION AND SOCIAL SERVICES

OFFICE OF THE COMMISSIONER

POUCH H-JUNEAU 99801

March 22, 1974

The Honorable Lowell Thomas, Jr., Chairman
Health, Education, & Social Services Committee
Alaska State Senate
Pouch V
Juneau, Alaska 99801

Dear Senator Thomas:

Attached to this letter are a proposed committee substitute for SB 465 and a fiscal data sheet pertaining to sec. 1 of the bill. You may wish to use some of the information in this letter and the attached fiscal data sheet for a committee report on the bill.

On January 1, 1974 the federal Supplemental Security Income (SSI) program under Title XVI of the Social Security Act replaced all previous federal-state adult public assistance programs (Old Age Assistance, Aid to the Blind, Aid to the Disabled). SSI recipients who were receiving assistance in December 1973 must receive supplemental payments from the state to maintain their December income level, or the state will lose all Medicaid funds and the federal share of AFDC payments will be reduced (in Alaska, from 50 per cent to \$22 per recipient per month). The Division of Medical Assistance in the Department of Health and Social Services estimates that the penalty for not providing the "mandatory state supplement" would cost Alaska at least \$3.8 million in federal funds for FY 74 alone.

Alaska's Medicaid Statute currently ties eligibility for Medicaid to discontinued adult public assistance programs. It is recommended that AS 47.07.020 be amended to provide Medicaid to the same groups of people presently covered and to bring Alaska law into conformity with federal requirements.

In sec. 1 of the bill, the persons specified in AS 47.07.020(a) are those required by federal law to be covered. Those persons and the ones in (b) (1) and (2) are persons who were covered by Medicaid in 1973. Subsection (b) (4) refers to persons who would have received Old Age Assistance, Aid to the Blind, or Aid to the Disabled under the old programs but who do not

meet the financial criteria for SSI (they must be aged, blind, or disabled according to the federal definitions). If a cash assistance program is established for these persons in (b) (the Federal Government refers to such a program as an "optional state supplementary payment"), then they may be covered by Medicaid if certain conditions are met. If an optional state supplementary payment is established so that the person who becomes aged, blind, or disabled in 1974 receives the same amount of assistance as someone who became aged, blind, or disabled in 1973, then these individuals should be covered by Medicaid. This would simply maintain current eligibility coverage.

All the eligible persons listed in the recommended amendment were covered by Medicaid in 1973 except for one new group recommended for Medicaid coverage consisting of children under 21 years of age under supervision of the Department of Health and Social Services for whom maintenance is being paid in whole or in part from public funds and who are in foster homes or private child-care institutions.

Addition of these "juvenile code" children (children who are committed to the department by the court) would enable Alaska to claim 50 per cent federal funds for providing medical care to these children, whose health care costs are currently borne entirely from state funds under the General Relief Medical program. Fiscal details are provided on the attached data sheet.

In sec. 1, the committee substitute modifies the proposed AS 47.07.020(b) (1) so that it no longer refers to the repealed titles of the Social Security Act and refers instead to the new Title XVI, covering the same persons. The counsel's office for Region X of the U.S. Department of Health, Education, and Welfare concurs in this approach. The only other changes in sec. 1 made by the committee substitute are minor ones for a simpler statement of the mandatory coverage in subsection (a) and for specificity of citations and accuracy of a date reference. The same change in date reference is made in sec. 3. The committee substitute adds a new subsection (c), taken verbatim from the last sentence of the current AS 47.07.020, and a new subsection (d) which is self-explanatory.

The committee substitute also adds a new sec. 2, dealing with the medical services to be provided. This section adds coverage of inpatient psychiatric hospital services for certain persons. On any given day during Fiscal Year 1974 the API provided services to approximately 20 Medicaid eligible children. Over a period of a year this represents approximately 7,300 patient days of care at a cost of approximately \$61.00/day or \$445,300. At the present time these hospitalization and treatment costs are currently paid for out of 100% General Fund dollars. By adding this medical service to the medical services provided under Medicaid to eligible recipients, Alaska will be able to secure 50% federal participation in these costs. This would amount to approximately

\$111,325 reimbursed to the State of Alaska for Fiscal Year 1974. Section 2 also deletes language no longer appropriate since provision of the specified services is in fact now required by federal provisions (Title XIX of the Social Security Act as amended, Section 1905(a)(4)(B) and 45 CFR 249.10(a)(3)). (Also see 45 CFR 249.10(a)(5) and (b)(15)(i)). Language in Section 2 also changes the terminology used for child screening to the correct federal name for the Early Periodic Screening Diagnosis and Treatment program.

THIS LETTER ACCOMPANIED SENATE BILL NO. 466

WILLIAM A. EGAN
GOVERNOR

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

March 7, 1974

The Honorable Terry Miller
President of the Senate
Alaska State Legislature
Juneau, Alaska 99801

Dear Mr. President:

Pursuant to the Uniform Rules of the Legislature, I am transmitting a bill making a special appropriation to the Office of the Governor for a professional study of the costs and effects of relocating the capital of the State of Alaska.

Because of the public interest that has been generated in the possibility of moving Alaska's capital, it is incumbent upon the Administration and Legislature to inform Alaska voters to the fullest extent possible as to the costs and effects such an undertaking would entail. A thorough analysis, carried out by impartial professionals, is required so that the proposition can be objectively evaluated, free of bias from either side of the question that could be damaging to the state.

While it has been suggested that basic state governmental facilities for a new Capital City could be gained through exchanges of state land to a private-sector constructing entity, there are many other financial considerations involved above and beyond those basic costs. This unknown factor is of great concern in view of the state's already serious financial difficulties which will be felt in the years just ahead.

These unknown costs include the very substantial additional funding that would be required for the construction of municipal facilities, public utilities, schools, hospital and other medical facilities, an airport, a community college, a public transportation system, parks and recreation areas, and all of the other public needs of a new city. Would property taxpayers (that is, mainly individual wage earners already burdened with personal moving costs) be expected, as residents of the new city, to also bear the burden of paying for municipal services the new city would require immediately upon occupation?

The Hon. Terry Miller

-2-

March 7, 1974

Further, even as to the proposition of financing construction of basic state governmental facilities through land exchanges, there has been no real assessment made as to whether suitable lands are available for this purpose or whether such use of public lands would be in the best interests of the people of Alaska. In addition, regarding lands, no assessment has been made of any environmental impact consideration involved.

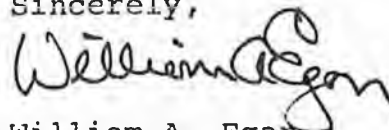

The analysis I am hereby proposing would also address itself to two other massive and vital considerations:

1. The costs and the effects on local economies of moving state offices and employees out of Anchorage, Fairbanks and Juneau, to the suggested new Capital City, including individual employee relocation costs and family life disruptions as well as public relocation costs and governmental disruptions;
2. The population impact, estimated at 20,000 people, upon the already heaviest populated area of Alaska, the Railbelt area, at a time when tremendous population impact also is going to be experienced by that area from the trans-Alaska oil pipeline construction project.

Other considerations requiring evaluation include the increasing problem of scarcity of building materials; the nation's energy emergency as it relates to scarcity of construction materials and all the various fuels required by a city and its residents; whether the federal facilities customarily required in a state capital for efficient state-federal relations would be made available by the federal government; and what effect state bonding required for construction of the new city would have on state bonding capacity and bond ratings?

All of these questions, and many others concerning any possible capital move, require full answers and objective evaluation if Alaskans are to be able to vote intelligently on such a proposition, and I urge that top priority by the Legislature be given to this funding request so that creation of the proposed commission and its engagement of a professional firm to provide the answers Alaska voters need can proceed expeditiously.

Sincerely,

William A. Egan

MEMORANDUM

DEPARTMENT OF NATURAL RESOURCES
DIVISION OF AGRICULTURE

TO: Jay Hogan, Director
Division of Legislative Finance

DATE : March 27, 1974

FROM: F. S. Honsinger, D.V.M.
State Veterinarian

SUBJECT: SB 467

AS 03.10.130(c) states: "A short term loan, to be amortized within one year, not to exceed \$15,000 to any one borrower may be made for emergency purposes."

We now find this maximum amount to be grossly inadequate for today's Alaska farming operations.

The majority of short term loans are made for seed and fertilizer in the spring of each year for that year's crop.

Fertilizer costs alone in the last year have increased over 50%, thus our larger farm units that have in the past borrowed to the maximum \$15,000 limit now find themselves unable to finance their normal spring needs.

An increase to the requested \$25,000 limit in SB 467 would be realistic to today's short term (1 year) needs of our large farms. Also, the majority of the short term loans are for operating needs not emergencies as the present wording would lead one to believe. Therefore, the change in the wording from emergency to operating is more meaningful.

No increase in administrative costs for these amendment changes are needed.

18 contain provisions by which owners of or persons entitled to the
19 possession of or right to operate a commercial vehicle registered or
20 licensed or upon which fees have been paid in this state who operate
21 vehicles of the same type upon the highways of one of the other
22 jurisdictions shall receive substantially equivalent exemptions as one
23 extended to persons or owners of vehicles of the same type from the
24 other jurisdictions in this state.

25 (c) The department shall, wherever practicable, enter into
26 agreements or arrangements for the proportionate registration and
27 licensing of vehicles or payment of fees under sec. 546 of this chapter.

28 (d) Agreements or arrangements made under this section shall
29 authorize owners of or persons entitled to the possession of or right

1 to operate commercial vehicles who are residents of other jurisdictions
2 which are parties to the agreement or arrangement to register or
3 license the vehicles in the other jurisdiction. Vehicles registered
4 or licensed in one of the jurisdictions under the agreement or
5 arrangement shall be exempt from registration or licensing requirements
6 in the other jurisdictions which are parties to the agreement or
7 arrangement and shall be entitled to the exemptions granted to other
8 vehicles registered or licensed in the other jurisdiction.

9 (e) Agreements or arrangements made under this section may deny
10 exemption to a person who violates the conditions stated or who
11 violates the rules and regulations for the administration of reciprocal
12 exemptions issued by the department.

13 (f) The department may examine the legal requirements or motor
14 vehicle registration, license and weight fee statutes of other juris-
15 dictions which grant reciprocal privileges to out-of-state owners
16 or persons but which do not authorize negotiation or execution of
17 agreements by administrative officials and the department may
18 determine and declare the extent and nature of the reciprocal exemptions
19 to which owners of commercial vehicles or other persons from other
20 jurisdictions shall be entitled under the laws of this state.

21 (g) All agreements, arrangements, and declarations made under
22 this section shall be in writing and shall be approved as to form by
23 the attorney general at which time they will become effective, and
24 shall remain in effect until revoked by act of the department. Original
25 copies of such agreements, arrangements, and declarations shall be
26 filed in the department with copies available to the public upon request.

27 * Sec. 2. AS 28.10 is amended by adding a new section to read:

28 Sec. 28.10.545. PROPORTIONATE REGISTRATION AND LICENSING. (a)
29 The legislature declares that in enacting this section, it adheres

1 to the principle that each state should have the freedom to develop
2 the kind of highway user tax structure that it determines to be
3 most appropriate to itself, that the method of taxation of interstate
4 vehicles should not be a determining factor in developing its user tax
5 structure, and that annual taxes or other taxes of the fixed fee type
6 which are not imposed on a basis that reflects the amount of highway
7 use should be apportioned among the states, within limits of practi-
8 cality, on the basis of vehicle miles traveled within each of the
9 states. In the event the department determines that apportionment of
10 taxes on the basis of vehicle miles for a particular fleet of
11 vehicles is impractical, the department may require the taxes on such
12 fleet to be apportioned on an equivalent basis other than miles, as
13 determined by the department.

14 (b) A person engaged in operating fleets of three or more
15 commercial vehicles in this state in interstate commerce, may, in
16 place of registration of the vehicles under other provisions of this
17 chapter register and license each fleet for operation in this state
18 by filing an application with the department.

19 (c) The application shall declare the total fleet miles or the
20 equivalent when required by the department, of each fleet of vehicles
21 in all other jurisdictions and the total fleet miles, or equivalent
22 as required, operated by each fleet in this state during the preceding
23 calendar year, or a preceding 12-month period as determined by the
24 department, and shall describe and identify each vehicle in each
25 fleet to be operated in this state during the following license year.

26 (d) "Total fleet miles" for the purposes of this section includes
27 total fleet miles in this state, in other jurisdictions having
28 proportionate registration and licensing provisions, in jurisdictions
29 with which this state has reciprocity, either by law or under a

1 reciprocal agreement, arrangement or declaration, and in other
2 jurisdictions which the department determines should be included under
3 the circumstances in order to protect or promote the interests of
4 this state.

5 (e) Mileage proportions, or their equivalents when required,
6 for interstate fleets not operated in this state during the preceding
7 year shall be determined by the department upon an application
8 on forms to be supplied by the department, upon request, which will
9 show the operations of the preceding year in other jurisdictions and
10 the estimated operation in this state. If no operations were conducted
11 for the previous year a full statement of the proposed method of
12 operation shall accompany the application.

13 (f) Applications under which fees are due and payable on or
14 before January 31 may be filed with the department on or after
15 November 1.

16 (g) The department shall register and issue distinctive
17 stickers or other suitable devices for every vehicle described and
18 identified in the application, identifying it as an interstate fleet
19 vehicle which shall be exempt from all further license and registra-
20 tion fee requirements of this state for any type of movement or
21 operation if each of the vehicles is properly and duly licensed and
22 registered in another jurisdiction unless the department determines
23 that such licensing and registration would be contrary to the pro-
24 tection or promotion of the interests of this state.

25 (h) The provisions of this section apply to vehicles added to a
26 fleet and operated in this state during the license year.

27 (i) A person complying with the provisions of this section
28 shall preserve the records on which the application is based for a
29 period of four full years following the year upon which the application

1 is based, and the applicant shall make the records available to the
2 department at its request and at its designated office for audit as
3 to accuracy of computation and payments.

4 (j) If the department determines that the applicant should have
5 registered more vehicles in this state under provisions of this
6 section or paid additional fees, it may deny him the right of any
7 further benefits by reason of any reciprocal agreement or declaration
8 until the fees, including those for the additional vehicles which
9 should have been registered, have been paid.

10 (k) The fees determined to be due and owing under this section
11 are a lien upon all vehicles of the applicant of a type subject to
12 registration under this chapter.

13 * Sec. 2. AS 28.10.540(b) - (c) are repealed.

14 * Sec. 3. This Act takes effect on the day after its passage and
15 approval or on the day it becomes law without approval.

5 A BILL

6 For an Act entitled: "An Act relating to motor vehicle registration; and
7 providing for an effective date."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. AS 28.10 is amended by adding a new section to read:

10 Sec. 28.10.541. RECIPROCITY. (a) The department may enter
11 into agreements or arrangements with authorities of other jurisdictions,
12 provinces, or countries granting exemption from the licensing and
13 registration provisions of this chapter to commercial vehicles which
14 are properly registered or licensed or for which fees have been paid
15 in the jurisdictions, and upon which evidence of registration or
16 payment of fees is conspicuously displayed.

17 (b) Agreements or arrangements made under this section shall
18 contain provisions by which owners of or persons entitled to the
19 possession of or right to operate a commercial vehicle registered or
20 licensed or upon which fees have been paid in this state who operate
21 vehicles of the same type upon the highways of one of the other
22 jurisdictions shall receive substantially equivalent exemptions as one
23 extended to persons or owners of vehicles of the same type from the
24 other jurisdictions in this state.

25 (c) The department shall, wherever practicable, enter into
26 agreements or arrangements for the proportionate registration and
27 licensing of vehicles or payment of fees under sec. 546 of this chapter.

28 (d) Agreements or arrangements made under this section shall
29 authorize owners of or persons entitled to the possession of or right

1 to operate commercial vehicles who are residents of other jurisdictions
2 which are parties to the agreement or arrangement to register or
3 license the vehicles in the other jurisdiction. Vehicles registered
4 or licensed in one of the jurisdictions under the agreement or
5 arrangement shall be exempt from registration or licensing requirements
6 in the other jurisdictions which are parties to the agreement or
7 arrangement and shall be entitled to the exemptions granted to other
8 vehicles registered or licensed in the other jurisdiction.

9 (e) Agreements or arrangements made under this section may deny
10 exemption to a person who violates the conditions stated or who
11 violates the rules and regulations for the administration of reciprocal
12 exemptions issued by the department.

13 (f) The department may examine the legal requirements or motor
14 vehicle registration, license and weight fee statutes of other juris-
15 dictions which grant reciprocal privileges to out-of-state owners
16 or persons but which do not authorize negotiation or execution of
17 agreements by administrative officials and the department may
18 determine and declare the extent and nature of the reciprocal exemptions
19 to which owners of commercial vehicles or other persons from other
20 jurisdictions shall be entitled under the laws of this state.

21 (g) All agreements, arrangements, and declarations made under
22 this section shall be in writing and shall be approved as to form by
23 the attorney general at which time they will become effective, and
24 shall remain in effect until revoked by act of the department. Original
25 copies of such agreements, arrangements, and declarations shall be
26 filed in the department with copies available to the public upon request.

27 * Sec. 2. AS 28.10 is amended by adding a new section to read:

28 Sec. 28.10.545. PROPORTIONATE REGISTRATION AND LICENSING. (a)
29 The legislature declares that in enacting this section, it adheres

12 fleet to be apportioned on an equivalent basis other than miles, as
13 determined by the department.

14 (b) A person engaged in operating fleets of three or more
15 commercial vehicles in this state in interstate commerce, may, in
16 place of registration of the vehicles under other provisions of this
17 chapter register and license each fleet for operation in this state
18 by filing an application with the department.

19 (c) The application shall declare the total fleet miles or the
20 equivalent when required by the department, of each fleet of vehicles
21 in all other jurisdictions and the total fleet miles, or equivalent
22 as required, operated by each fleet in this state during the preceding
23 calendar year, or a preceding 12-month period as determined by the
24 department, and shall describe and identify each vehicle in each
25 fleet to be operated in this state during the following license year.

26 (d) "Total fleet miles" for the purposes of this section includes
27 total fleet miles in this state, in other jurisdictions having
28 proportionate registration and licensing provisions, in jurisdictions
29 with which this state has reciprocity, either by law or under a

1 reciprocal agreement, arrangement or declaration, and in other
2 jurisdictions which the department determines should be included under
3 the circumstances in order to protect or promote the interests of
4 this state.

5 (e) Mileage proportions, or their equivalents when required,
6 for interstate fleets not operated in this state during the preceding
7 year shall be determined by the department upon an application
8 on forms to be supplied by the department, upon request, which will
9 show the operations of the preceding year in other jurisdictions and
10 the estimated operation in this state. If no operations were conducted
11 for the previous year a full statement of the proposed method of
12 operation shall accompany the application.

13 (f) Applications under which fees are due and payable on or
14 before January 31 may be filed with the department on or after
15 November 1.

16 (g) The department shall register and issue distinctive
17 stickers or other suitable devices for every vehicle described and
18 identified in the application, identifying it as an interstate fleet
19 vehicle which shall be exempt from all further license and registra-
20 tion fee requirements of this state for any type of movement or
21 operation if each of the vehicles is properly and duly licensed and
22 registered in another jurisdiction unless the department determines
23 that such licensing and registration would be contrary to the pro-
24 tection or promotion of the interests of this state.

25 (h) The provisions of this section apply to vehicles added to a
26 fleet and operated in this state during the license year.

27 (i) A person complying with the provisions of this section
28 shall preserve the records on which the application is based for a
29 period of four full years following the year upon which the application

1 is based, and the applicant shall make the records available to the
2 department at its request and at its designated office for audit as
3 to accuracy of computation and payments.

4 (j) If the department determines that the applicant should have
5 registered more vehicles in this state under provisions of this
6 section or paid additional fees, it may deny him the right of any
7 further benefits by reason of any reciprocal agreement or declaration
8 until the fees, including those for the additional vehicles which
9 should have been registered, have been paid.

10 (k) The fees determined to be due and owing under this section
11 are a lien upon all vehicles of the applicant of a type subject to
12 registration under this chapter.

13 * Sec. 2. AS 28.10.540(b) - (c) are repealed.

14 * Sec. 3. This Act takes effect on the day after its passage and
15 approval or on the day it becomes law without approval.

March 11, 1974

The Honorable Terry Miller
President of the Senate
Alaska State Legislature
Juneau, Alaska 99801

Dear Mr. President:

Pursuant to the Uniform Rules of the Legislature, I am transmitting a bill which provides for reciprocity agreements and proportionate registration and licensing of interstate commercial vehicles.

Enactment of this bill will increase the enforcement capabilities of the state by enabling it to require interstate commercial vehicles operators' to register and license vehicles on a proportionate mileage basis. This in turn will increase the revenue to the state in the form of collection of registration and licensing fees from interstate commercial vehicles.

This bill also relieves certain compliance burdens with respect to licensing and registering interstate commercial vehicles.

Sincerely,

William A. Egan
Governor
