Subject piece of legislation merely authorizes the purchase of real property. The Department of Fish and Game envisions no impact upon operating budget in the foreseeable future of this department as a result of this piece of legislation. It is conceivable that at some time in the future it may be desirable to develop access to the land in question.

March 27, 1975

Honorable Nels A. Anderson, Jr.
Chairman
House Resource Committee
Room 106, 109 Capitol
Juneau, Alaska 99801

Dear Representative Anderson:

Previous discussion with you and with members of your committee have adequately clarified and conveyed the thoughts and interpretation of the committee toward the intent of House Bill No. 5. It is the desire of the Division of Fish and Wildlife to conform with the opinion and intent of the committee, and I suggest the following program to conform with these previous discussions.

There presently exists within the Division of Fish and Wildlife, Department of Public Safety, an investigative unit comprised of three officers charged with responsibility to methodically pursue and prepare for court prosecution, evidence of unlawful activity in fish and wildlife resources. An addition to this existing unit of two full time positions would be provided by special appropriation.

The two investigator incumbents would be specifically charged with the responsibility of devoting full attention to the unlawful commercial utilization of fish and game resources with the goal of bringing the offenders before the courts in criminal actions. The appropriation would provide the potential to accomplish a style of undercover enforcement in fish and wildlife proven to be successful in such areas as narcotics and consumer fraud.

An outline of projected costs for the initial program is attached. Funds appropriated for the specific purpose of this program would be assigned an individual code, and funds expended would be accountable for review. A report of activity and expenditure would be made available for legislative review.

Sincerely yours,

RICHARD L. BURTON

Previous discussion with you and with members of your committee have adequately clarified and conveyed the thoughts and interpretation of the committee toward the intent of House Bill No. 5. It is the desire of the Division of Fish and Wildlife to conform with the opinion and intent of the committee, and I suggest the following program to conform with these previous discussions.

There presently exists within the Division of Fish and Wildlife, Department of Public Safety, an investigative unit comprised of three officers charged with responsibility to methodically pursue and prepare for court prosecution, evidence of unlawful activity in fish and wildlife resources. An addition to this existing unit of two full time positions would be provided by special appropriation.

The two investigator incumbents would be specifically charged with the responsibility of devoting full attention to the unlawful commercial utilization of fish and game resources with the goal of bringing the offenders before the courts in criminal actions. The appropriation would provide the potential to accomplish a style of undercover enforcement in fish and wildlife proven to be successful in such areas as narcotics and consumer fraud.

An outline of projected costs for the initial program is attached. Funds appropriated for the specific purpose of this program would be assigned an individual code, and funds expended would be accountable for review. A report of activity and expenditure would be made available for legislative review.

Sincerely yours,

RICHARD L. BURTON

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III.)

Subject piece of Legislation merely establishes a State Game Refuge. The Department of Fish & Game envisions no impact upon operating budget in the foreseeable future of this department as a result of this piece of Legislation. It is conceivable that at some point in the future it may be desirable to develop access to the land in question.

The Department of Fish & Game envisions no impact upon operating budget in the foreseeable future of this department as a result of this piece of Legislation. It is conceivable that at some point in the future it may be desirable to develop access to the land in question.

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

This amount is figured at 450 election boards with 4 people per board, working 17 hours each, per election for \$153,000. It also includes 4 members of the Absentee Canvass Boards in the 4 areas of the State for a total of 16 members working approximately 35 hours each, per election for \$2,800. Then the State Canvass Board of 4 members at 8 days with approximately 32 hours each, per election, for \$1,280. The remainder of \$6,400 is for payment of miscellaneous counting teams for the Absentee Canvass Board, Punch Card Boards and Incorporation Election Boards. These figures are for one election, on election years we hold both the Primary and General election so they would have to be doubled. The figures for the off election years

IV. ATTACHMENTS just considers the necessary boards for the incorporation elections we anticipate having.
