

LEG. FINANCE - BILLS 1975 - 1976 439
SSHB 615 cont., thru HB 618 439

Southeast Alaska has available some monies from previous funds. These are to be combined with the proposed bond monies. The bond issue is the beginning of a 15-year plan. Future additions will be needed to meet these goals.

Re: site selection. Fish and Game engineers would enter in here. Preliminary designs will be done before the bond issue. The contractor could be on board by May. The bond issue asks for minimum numbers of fry to be planned for, but allows for more. The size of the fry is a critical factor. You can raise more small fry, but larger fry may be better for releasing--the size of the brood stock determines.

It must be kept in mind that all charts and figures use averages.

In answer to a question from Osterback as to plans for development facilities in the Chain, answer was given that there are no immediate plans for red salmon development there. Background information is necessary before development can be attempted. The information is now lacking. Some testing could be done now, possibly.

Mr. Rhode asked how much FRED has so far received from the budget. Roys answered 2.3 million for 1976. Additional personnel would be necessary if the bond passes. Substantial budget increases will be noted in the future to back up the bond issue, and implementation. Question: What would you rate as the success factor of the 1958 hatchery built by FRED? Answer: Good mainly as a test facility. Actually, overall, very poor.

Mr. Van Doren asked about HB623. Answer: If this bill doesn't pass, planning money would have to come from the bond monies. It would cause a two-year delay in the projects.

Mr. Van Doren asked what were the problems with rearing pens. Answer: unusual storms, and predators. (The Norwegians have discovered that trained dogs take care of the seagull and otter problems.)

Mr. Roys reminded the committee that professional opinion enters in to all decisions such as site selection.

Re: spawning grounds- it is hard to protect spawning grounds from diseased adults. The Dept. of Environmental Conservation won't allow some things. Research is now going on in the field of inoculations. Testing is being done on ozonation. Pharmaceutical companies are doing research in Alaska. The longer you rear the fish the more problems with disease.

Chairman Anderson asked that Mr. Roys "walk through" a given proposal with all of the "ifs" and "probably's" out.

Roys began with Item #1 of the bond proposal: First a site selection resume is done. Detailed information on costs are available. These

cost factors are entered into the selection decision. In the development schedule certain assumptions are made. 1. The passage of bills, and 2. the passage of the bond issue.

As to why sites aren't certain at this time, one reason given was that Hidden Lake and Skeelac Lake need to be viewed with the snow off.

Negotiations with an engineering consultant company will begin as soon as it is known that money is available. Then a contract will be signed.

In many instances the Big Lake design will be used with alterations. The designs will need to be simple, but long-lasting. (There are 4 design firms only in the state capable of doing these hatcheries. It is not known whether contractor capability covering the total bond issue is available. Two construction seasons are allowed for.)

There is no "exact" facility such as is contemplated in the state. Parts are taken from several facilities.

(Tape 11) Chairman Anderson stated that we need accurate cost estimates and close to accurate site selection information. Needed also is more information on the background of each location. Mr. Roys replied that site selection can't be finalized yet, but will be before the bond proposal comes up.

Mr. Rhode asked whether any condemnation of property would be required under any of the proposed sites. Answer, none that I know of.

Mr. Roys stated that if the fisheries are in a general decline, naturally the cost/benefit ratios will not be good. As to the predicted life of facilities, 20-year cost is used as the basis. For instance, the concrete would probably last, but timber would have to be replaced.

Chairman Anderson stated that the public needed to know that there are no immediate solutions to the problem of fishery decline.

Mr. Roys stated that as in all biological situations, when you don't have complete control of the animal, you lose efficiency. Also, the king salmon situation is puzzling worldwide. He cited the situation with "outside" hatcheries, where the return of adults wasn't counted. Consequently, there was no way to tell whether the hatchery was efficient.

Chairman Anderson asked whether it was realistic to believe all will progress as planned: design, construction--of the main facilities. Roys answered that design could proceed as planned, but contractors were an unknown factor. Proper bids are assumed in the planning. There would be no problem in having the site selections finalized before the bond election.

Mr. Van Doren asked where the monies for PR for the bond election were coming from. Van Doren also stated that competition for construction bid awards from construction companies will be tremendous.

Chairman Anderson mentioned the Aquaculture position paper by Prince William Sound Corporation. Anderson asked whether the Dept. of Fish and Game would be in competition with that group.

Roys answered that he didn't see competition with the group. Coordination would be developed. Major policy is now being developed.

Anderson stated that there appear to be two criteria in question--one for the state, and one for the non-profit developers. How come, when the state is supposed to encourage non-profit.

Roys answered that the state will be working on the sport fishery while the Prince William Corp. will be doing commercial.

Don Doren asked what happens to surplus fish. Answer: We must assess the ability to harvest, then control the output. If systems are right for harvesting, there will be no surplus.

Question: Is it possible that native stocks will be wiped out by the cultivated fish. Answer: It's possible. There is a need to select areas where no major natural producer is now.

Question: Have any fish runs in any area been completely written off? Answer: To my knowledge, only one small one associated with a small creek.

Question: Are any areas self-destructive? Answer: Side by side runs can be different. Answers are not known yet. Experiments are being carried out. Natural rearing areas that don't produce are directly related to not enough spawning areas.

Question: Do you feel that adequate planning has been done for the 1.5 million bond issue? Answer: In many cases an excellent job has been done, such as setting up the siting criteria. Whether the bond issue reflects the needs of the people is yet to be decided. This will be no more of a biological gamble than natural fish processes.

Question: How long did it take to prepare the green booklet? Answer: We have been incorporating research from other areas, including Japanese.

Mr. Huntington asked about the development of the AYK fishery. Answer: This has been coordinated with the sport fishing division. The fish hatchery near Fairbanks will help. These will be introduced into barren lakes. Some tests have been done.

Discussion ensued as to the merits of introducing a "strange" fish into an unknown area.

Question re: Pg. 2 Ln. 10--1.5 million dollars. Answer: This was provided by the fisheries council--I (Roys) don't know what for.

Announcement was made that Friday, April 2, HB615 will be before this committee again. (Mr. Huntington suggested cutting the amount for the bond in half)

Meeting adjourned at 5:10 p.m.

STATE
of ALASKA

MEMORANDUM
DEPARTMENT OF PUBLIC WORKS

TO:

Bob Palmer
Project Coordinator
Alaska Fisheries Council

DATE : April 23, 1976

FROM:

Dick Holden *DH*
Deputy Commissioner
Department of Public Works

SUBJECT: Construction of Salmon
Hatchery Facilities

This is to confirm our recent discussion and decisions concerning the construction of state-owned salmon hatcheries to be financed by G.O. Bonds.

If the Department of Fish and Game can have specific sites selected for as many as eight hatcheries, each of as much as 50 million egg capacity by late August of this year, then the Alaska Department of Public Works will be able to go to bid with those projects no later than April 1 of 1977, for construction in 1977.

REQUEST OF THE GOVERNOR

2 HOUSE BILL NO. 616

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 NINTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act providing for the issuance of general obliga-
7 tion bonds in the amount of \$3,000,000 for the purpose
8 of paying the cost of constructing and equipping
9 highway maintenance facilities; and providing for an
10 effective date."

11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

12 * Section 1. For the purpose of paying the cost of constructing and
13 equipping highway maintenance facilities, general obligation bonds of the
14 state in the principal amount of not more than \$3,000,000 shall be issued
15 and sold. The full faith, credit and resources of the state are pledged to
16 the payment of the principal of and interest and redemption premium, if
17 any, on these bonds. These bonds shall be issued under the provisions of
18 AS 37.15 as those provisions read at the time of issuance.

19 * Sec. 2. If the issuance of these bonds is authorized by the qualified
20 voters of the state, a special fund of the state to be known as the 1976
21 Highway Maintenance Facility Fund shall be established, to which shall be
22 credited the proceeds of the sale of the bonds described in sec. 1 of this
23 Act except for the accrued interest and premiums. There is appropriated
24 from the 1976 Highway Maintenance Facility Fund to the Department of Highways
25 the amount of \$3,000,000. To the extent feasible, the proceeds of these
26 bonds shall be allocated by the governor in accordance with the following
27 projects and estimates:

<u>Project</u>	<u>Location</u>	<u>Amount</u>
(1) Fuel tank replacement	Statewide	\$ 150,000

1	(2) Acquire land and construct		
2	maintenance facility	Palmer vicinity	1,235,000
3	(3) Thompson Pass Camp improvements	Valdez vicinity	500,000
4	(4) Highway maintenance camp		
5	construction	Skagway	690,000
6	(5) Construct Anchorage cold		
7	storage building	Anchorage	50,000
8	(6) Construct trailer pads	Interior district	60,000
9	(7) Highway camp improvements	Tok	265,000
10	(8) Construct cold storage		
11	building	Soldotna	50,000

12 * Sec. 3. If the issuance of these bonds is authorized by the qualified
13 voters of the state, the amount of \$10,500 or as much of that amount as is
14 found necessary is appropriated from the general fund of the state to the
15 state bond committee to carry out the provisions of this Act and to pay
16 expenses incident to the sale and issuance of the bonds authorized in this
17 Act. The amounts expended from the appropriation authorized by this section
18 shall be reimbursed to the general fund from the proceeds of the sale of
19 the bonds authorized by this Act.

20 * Sec. 4. The amount withdrawn from the Public Facility Planning Fund
21 for the purpose of advance planning for the improvements financed under
22 this Act shall be reimbursed to the fund from the proceeds of the sale of
23 bonds authorized by this Act.

24 * Sec. 5. The question whether the bonds authorized in this Act are to
25 be issued shall be submitted to the qualified voters of the state at the
26 next state general election and shall read substantially as follows:

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 NINTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act providing for the issuance of general obliga-
7 tion bonds in the amount of \$25,520,000 for the pur-
8 pose of paying the cost of capital improvements for
9 the University of Alaska; and providing for an
10 effective date."

11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

12 * Section 1. For the purpose of paying the cost of capital improvements
13 for the University of Alaska, general obligation bonds of the state in the
14 principal amount of not more than \$25,520,000 shall be issued and sold.
15 The full faith, credit and resources of the state are pledged to the payment
16 of the principal of and interest and redemption premium, if any, on these
17 bonds. These bonds shall be issued under the provisions of AS 37.15 as
18 those provisions read at the time of issuance.

19 * Sec. 2. If the issuance of these bonds is authorized by the qualified
20 voters of the state, a special fund of the state to be known as the "1976
21 University of Alaska Construction Fund" shall be established, to which shall
22 be credited the proceeds of the sale of the bonds described in sec. 1 of
23 this Act except for the accrued interest and premiums. There is appropriated
24 from the "1976 University of Alaska Construction Fund" to the University of
25 Alaska the amount of \$25,520,000. To the extent feasible, the proceeds of
26 these bonds shall be allocated by the governor in accordance with the fol-
27 lowing projects and estimates:

28 Project	Location	Amount
29 (1) Laboratory facility construction	Seward	\$1,050,000

1 IN THE HOUSE BY THE SELECT COMMITTEE ON EDUCATION
2 CS FOR HOUSE BILL NO. 617
3 IN THE LEGISLATURE OF THE STATE OF ALASKA
4 NINTH LEGISLATURE - SECOND SESSION
5 A BILL

6 For an Act entitled: "An Act providing for the issuance of general obliga-
7 tion bonds in the amount of \$24,014,000 for the pur-
8 pose of paying the cost of capital improvements for
9 the University of Alaska; and providing for an
10 effective date."

11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

12 * Section 1. For the purpose of paying the cost of capital improvements
13 for the University of Alaska, general obligation bonds of the state in the
14 principal amount of not more than \$24,014,000 shall be issued and sold.
15 The full faith, credit and resources of the state are pledged to the payment
16 of the principal of and interest and redemption premium, if any, on these
17 bonds. These bonds shall be issued under the provisions of AS 37.15 as
18 those provisions read at the time of issuance.

19 * Sec. 2. If the issuance of these bonds is authorized by the qualified
20 voters of the state, a special fund of the state to be known as the "1976
21 University of Alaska Construction Fund" shall be established, to which shall
22 be credited the proceeds of the sale of the bonds described in sec. 1 of
23 this Act except for the accrued interest and premiums. There is appropriated
24 from the "1976 University of Alaska Construction Fund" to the University of
25 Alaska the amount of \$24,014,000. To the extent feasible, the proceeds of
26 these bonds shall be allocated by the governor in accordance with the fol-
27 lowing projects and estimates:

Project	Location	Amount
(1) Laboratory facility construction	Seward	\$1,050,000

2 HOUSE BILL NO. 619

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 NINTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act providing for the issuance of general obliga-
7 tion bonds in the amount of \$19,900,000 for the
8 purpose of paying the cost of constructing rural
9 secondary school facilities; and providing for an
10 effective date."

11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

12 * Section 1. For the purpose of paying the cost of constructing rural
13 secondary school facilities, general obligation bonds of the state in the
14 principal amount of not more than \$19,900,000 shall be issued and sold.
15 The full faith, credit and resources of the state are pledged to the payment
16 of the principal of and interest and redemption premium, if any, on these
17 bonds. These bonds shall be issued under the provisions of AS 37.15 as
18 those provisions read at the time of issuance.

19 * Sec. 2. If the issuance of these bonds is authorized by the qualified
20 voters of the state, a special fund of the state to be known as the 1976
21 Rural Secondary School Construction Fund shall be established, to which
22 shall be credited the proceeds of the sale of the bonds described in sec. 1
23 of this Act except for the accrued interest and premiums. There is appro-
24 priated from the 1976 Rural Secondary School Construction Fund to the
25 Department of Education the amount of \$19,900,000. Unless reallocation
26 among the projects is determined to be necessary by the governor, the
27 proceeds of these bonds shall be allocated in accordance with the following
28 projects and estimates:

29

Location

Amount

1	Manokotak	\$1,300,000
2	New Stuyahok	900,000
3	Kongiganak	1,050,000
4	Akiachak	1,260,000
5	Kasigluk	1,110,000
6	Kipnuk	470,000
7	Kwethluk	1,770,000
8	Napakiak	960,000
9	Napaskiak	1,020,000
10	Quinhagak	1,170,000
11	Tununak	1,080,000
12	Nunapitchuk	1,290,000
13	Kalskag	990,000
14	Ambler	930,000
15	Noatak	770,000
16	Stebbins	1,050,000
17	Pilot Station	1,050,000
18	Kotlik	1,230,000
19	Angoon	500,000

20 * Sec. 3. If the issuance of these bonds is authorized by the qualified
21 voters of the state, the amount of \$69,650 or as much of that amount as is
22 found necessary is appropriated from the general fund of the state to the
23 state bond committee to carry out the provisions of this Act and to pay
24 expenses incident to the sale and issuance of the bonds authorized in this
25 Act. The amounts expended from the appropriation authorized by this section
26 shall be reimbursed to the general fund from the proceeds of the sale of
27 the bonds authorized by this Act.

28 * Sec. 4. The amount withdrawn from the Public Facility Planning Fund
29 for the purpose of advance planning for the improvements financed under

1 this Act shall be reimbursed to the fund from the proceeds of the sale of
2 bonds authorized by this Act.

3 * Sec. 5. The question whether the bonds authorized in this Act are to
4 be issued shall be submitted to the qualified voters of the state at the
5 next state general election and shall read substantially as follows:

6 Proposition

7 State General Obligation Rural Secondary School Construction

8 Bonds \$19,900,000

9 Shall the State of Alaska issue its general obligation bonds in the
10 principal amount of not more than \$19,900,000 for the purpose of
11 paying the cost of constructing rural secondary school facilities?

12 Bonds Yes []

13 Bonds No []

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 NINTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act providing for the issuance of general obliga-
7 tion bonds in the amount of \$15,000,000 for the pur-
8 pose of paying the cost of capital improvements for
9 the University of Alaska; and providing for an
10 effective date."

11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

12 * Section 1. For the purpose of paying the cost of capital improvements
13 for the University of Alaska, general obligation bonds of the state in the
14 principal amount of not more than \$15,000,000 shall be issued and sold.
15 The full faith, credit and resources of the state are pledged to the payment
16 of the principal of and interest and redemption premium, if any, on these
17 bonds. These bonds shall be issued under the provisions of AS 37.15 as
18 those provisions read at the time of issuance.

19 * Sec. 2. If the issuance of these bonds is authorized by the qualified
20 voters of the state, a special fund of the state to be known as the 1976
21 University of Alaska Construction Fund shall be established, to which shall
22 be credited the proceeds of the sale of the bonds described in sec. 1 of
23 this Act except for the accrued interest and premiums. There is appropriated
24 from the 1976 University of Alaska Construction Fund to the University of
25 Alaska the amount of \$15,000,000. To the extent feasible, the proceeds of
26 these bonds shall be allocated by the governor in accordance with the fol-
27 lowing projects and estimates:

28	<u>Project</u>	<u>Location</u>	<u>Amount</u>
29	(1) Laboratory facility construction	Seward	\$1,050,000

1	(20) Utilities upgrade	Juneau	200,000
2	(21) Chemistry lab equipment	Juneau	100,000

3 * Sec. 3. If the issuance of these bonds is authorized by the qualified
4 voters of the state, the amount of \$52,500 or as much of that amount as is
5 found necessary is appropriated from the general fund of the state to the
6 state bond committee to carry out the provisions of this Act and to pay
7 expenses incident to the sale and issuance of the bonds authorized in this
8 Act. The amounts expended from the appropriation authorized by this section
9 shall be reimbursed to the general fund from the proceeds of the sale of
10 the bonds authorized by this Act.

11 * Sec. 4. The question whether the bonds authorized in this Act are to
12 be issued shall be submitted to the qualified voters of the state at the
13 next state general election and shall read substantially as follows:

Proposition

State General Obligation University of Alaska Construction
Bonds \$15,000,000

Shall the State of Alaska issue its general obligation bonds in the

ROBERT W. HIATT
PRESIDENT

COPIES - ALL HFC

FILES CIV HB 617

APR 09 1976

UNIVERSITY OF ALASKA
OFFICE OF THE PRESIDENT
FAIRBANKS, ALASKA 99701

April 6, 1976

The Honorable Hugh Malone
Chairman, House Finance Committee
Alaska State House
Pouch V
Juneau, Alaska

Ref: CS for SB 587

Dear Hugh:

The referenced Bill providing for capital improvements for the community colleges and extension centers of the University of Alaska leaves only the Tanana Valley Community College out of consideration. There are, of course, reasons for this, since our regular Fairbanks campus classrooms service TVCC adequately except for vocational-technical shop-type facilities which have never existed on the Fairbanks campus. Expecting to use cooperatively the Hutchison Adult Career Center facilities adjacent to the campus, no request was made for shop facilities when TVCC was established. However, lack of cooperation and extensive use of these facilities during the daytime period by the North Star School District has made the Career Center shops and classrooms unavailable for TVCC's use.

To solve this problem the Regents approved as a high priority item a shop, laboratory and classroom building for TVCC (\$6,650,000), but in meeting the Governor's reduced G. O. Bond project allowance the Regents had to choose between the Museum building and the TVCC shop building. For good reasons the Regents gave highest priority to the Museum building, and it is included in CS for HB 617. Thus, the TVCC major shop building has been eliminated. However, there is urgent need for a less costly and highly specialized facility - an Aviation Training Complex.

This facility would cost about \$1.0 million, and would thus be in line with the allocations made to other community colleges in the Bill. The attached information describes the project, the need for it in terms of student registrations and a breakdown of the anticipated costs of construction and equipment.

I respectfully request your consideration in adding this project to the Bill so that time will not be lost in a program designed to fill an important need in interior Alaska. The Board of Regents endorse this request.

Sincerely,

Robert W. Hiatt
President

AVIATION TRAINING COMPLEX

Tanana Valley Community College Aviation Department is presently offering two degree programs in Aviation Technology: Associate of Applied Science in Air Traffic Control and Associate of Applied Science in Professional Piloting.

It is the intent of the program to provide ground instruction and flight training to degree candidates in Aviation Technology. The Department is proposing an Aviation Training Complex to be built at Fairbanks International Airport. This Complex would consist of hangar space for four aircraft (three fixed wing and one rotor craft), and a maintenance facility to keep the aircraft operational and to comply with Federal Aviation Regulations. We would like to point out that the maintenance facility would only be for program aircraft and would in no way conflict with current Airframe and Power Plant programs in the community. In addition to hangar space, the Department is requesting at least three classrooms for ground instruction purposes, one flight simulator room, a flight ready room, reception area, office spaces, and a complete Aviation Library. The primary objective of the Complex would be to house the Flight Program; however, because of the nature of the Air Traffic Control curriculum, the building would also serve Air Traffic Control education.

The proposed training complex would only be used for those students enrolled in Aviation Technology through Tanana Valley Community College at the University of Alaska. The aircraft would be student-owned and purchased by the students through a Tanana Valley Community College Aviation Club. Since the aircraft would be student-owned, and the Aviation Department would only accept those students currently enrolled in the program, we feel the Aviation Department would not, in any way, be competing with private enterprise.

It is projected that general aviation and corporation flying is to be faced with a pilot shortage starting in approximately five years, both in fixed wing and rotor wing type aircraft. In view of these circumstances, we feel the Aviation Department could, indeed, help solve this problem and provide a potential work force, and therefore, the possibilities of additional revenue for Alaska residents, particularly those in interior Alaska.

Moreover, I believe this program can help fulfill an urgent community need in job placement opportunities, as well as provide the genesis for a comprehensive program in Aviation Safety.

Glenn Massay
Director, Tanana Valley Community College

ACCIDENTS

First 11 months of 1975 in Alaska:

230 -- Accidents Total -- 26 Fatal

19 -- WXR Related

142 -- Faulty Pilot Technique

0 -- Alcohol

3 -- Fuel/Oil

27 -- Structural or Mechanical Failure

40 -- Ground Collisions

8 -- Stall Spin

14 -- Inadequate Preflight

26 -- Unknown

It should be pointed out that 11.4% of the total accidents were fatal, however, 50% of the WXR related accidents were fatal. So, in this case 50% of total accidents were related to weather.

LETTER OF INTENT

It is the intent of the Health, Education and Social Services Committee that before implementing the bond issues authorizing construction of new facilities, the Department must meet with the respective communities to develop mutually acceptable plan for program and physical structures.

It is also the intent of the Committee, that the money apportioned to Juneau for correctional facilities be distributed as follows:

Juvenile facilities \$797,400

Adult facilities 3,702,600

A handwritten signature in cursive script that reads "Susan Sullivan".

12 * Section 1. For the purpose of paying the cost of constructing and
13 remodeling of correctional facilities, general obligation bonds of the
14 state in the principal amount of not more than \$27,090,000 shall be issued
15 and sold. The full faith, credit and resources of the state are pledged to
16 the payment of the principal of and interest and redemption premium, if
17 any, on these bonds. These bonds shall be issued under the provisions of
18 AS 37.15 as those provisions read at the time of issuance.

19 * Sec. 2. If the issuance of these bonds is authorized by the qualified
20 voters of the state, a special fund of the state to be known as the "1976
21 Correctional Facilities Construction Fund" shall be established, to which
22 shall be credited the proceeds of the sale of the bonds described in sec. 1
23 of this Act except for the accrued interest and premiums. There is appro-
24 priated from the "1976 Correctional Facilities Construction Fund" to the
25 Department of Health and Social Services the amount of \$27,090,000. To the
26 extent feasible, the proceeds of these bonds shall be allocated by the
27 governor in accordance with the following projects and estimates:

28

<u>Project</u>	<u>Location</u>	<u>Amount</u>
(1) Major replacement and renovation		

29

HB 618

March 12, 1976

DIVISION OF CORRECTIONS, RECOMMENDED ALTERNATIVE USE OF PROPOSED
CAPITAL CONSTRUCTION FUNDS IN H.B. 618

Remove juvenile and female offenders from the Juneau Correctional Center by constructing a separate detention facility in Juneau. The Juneau Correctional Center has recently been designated as the State's maximum security facility. As such its continued use for juvenile detention is undesirable.

Remodel the existing detention facility in Ketchikan for the exclusive use of juveniles once the new adult facility in that community is constructed.

Transfer the funds currently proposed for the construction of new juvenile facilities in Ketchikan to Juneau. The amount of this transfer would be \$797,400.00.

This proposal will provide juvenile resources to both communities with the same capital construction dollars.

The new juvenile facility for Juneau will create an annual operating cost of \$100,000.00 for the addition of four staff.
