6 For an Act entitled: "An Act authorizing the governor to make funds
7 available to match federal funds under the Disaster
8 Relief Act of 1974; and providing for an effective
9 date."

10 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

11 * Section 1. AS 44.19 is amended by adding a new section to read:

12 Sec. 44.19.178. GRANTS TO PERSONS ADVERSELY AFFECTED BY A MAJOR
13 DISASTER. (a) Grants to meet necessary expenses or serious needs of
14 individuals or families adversely affected by a major disaster and
15 unable to meet the expenses and needs through other public or private
16 assistance shall be made to match the federal funds available under the
17 Disaster Relief Act of 1974, P.L. 93 - 288, sec. 408.

18 (b) Funds for the grants under this section shall be from the
19 disaster relief fund provided for in secs. 171 - 175 of this chapter.

20 (c) A grant under this section shall be equal to 25 per cent of
21 the actual cost of meeting the expense or need.

22 (d) No individual or family may receive a grant from the state
23 under this section of more than \$1,250 with respect to one major
24 disaster.

25 (e) The governor shall administer the grants authorized by this
26 section and the federal matching funds authorized by P.L. 93 - 288,
27 sec. 408. The governor shall determine the eligibility of individuals
28 and families for the funds, and shall consider the following factors in
29 making the determination:

1 (1) the regulations promulgated by the President of the
2 United States under P.L. 93 - 288, sec. 408(c);

3 (2) the amount of funds available from the state;

4 (3) the amount of funds available from the United States
5 government;

6 (4) the amount of funds available from other sources;

7 (5) the number of persons adversely affected by the major
8 disaster;

9 (6) the relative degree of harm suffered, expenses incurred
10 and needs of the persons adversely affected.

11 (f) In this section "major disaster" means an event proclaimed to
12 be a major disaster by the President of the United States.

13 * Sec. 2. AS 44.19.173 is repealed.

14 * Sec. 3. This Act takes effect immediately in accordance with AS 01.10.-
15 070(c).

STATE
of ALASKA

MEMORANDUM

TO: Jay Hogan, Director
Division of Legislative Finance

DATE : April 7, 1975

FROM: Floyd R. Johnson *FRJ*
Alaska Disaster Office

SUBJECT: Fiscal Note
S B 91

Senate Bill 91 is an act authorizing the Governor to administer Section 408. of Public Law 93-288, Aid to Individuals and Families.

Unlike previous Federal Disaster Legislation, the Disaster Relief Act of 1974 allows for grants to individuals and families for unmet disaster related needs. These are individuals who do not qualify for assistance through other public or private agencies.

The maximum amount of a grant is \$5,000, with the State administering the program. The State would receive 75% reimbursement from the Federal Government.

There is no way of knowing what funding future disasters might require. Section 408 funding for the Bering Sea Disaster could reach \$800,000 with a State share of \$200,000. The Bering Sea Disaster was so wide spread and affected so much personal property which accounts for the high figure.

Date

February 6, 1975

Mr. Jay Hogan, Director
Division of Legislative Finance
State Capitol, Room 409
Juneau, Alaska 99811

Dear Mr. Hogan:

Pursuant to your request, the following are our comments on three bills:

SB 102, asking a special appropriation to the Department to assist in the allocation of assets and liabilities under section 9(b), ch. 145, SLA 1974;

SB 111, asking an appropriation of a supplementary organizational grant to the municipality established under ch. 145; and

SB 112, seeking an appropriation to accomplish a study identifying a method or methods of allocating the assets and liabilities of the Greater Anchorage Area Borough between the two municipalities.

By way of background, may I refer you to a copy of a recent letter to Representative Sam Cotten, Chairman of the House Community and Regional Affairs Committee, on the same subjects.

The Department is vitally concerned that the allocation of assets and liabilities of the Greater Anchorage Area Borough between the municipalities be accomplished expeditiously and on a rational basis. To that end, because there are no Alaska precedents upon which to construct a methodology, the Department would encourage an appropriation that would allow us to retain a consultant. Any recommendation or recommendations identified would, after review by the parties, be placed before the Local Boundary Commission and made part of the Commission's order. It has been suggested that the fee for consultant's services would cost \$25,000, hence, the request contained in SB 112.

Mr. Jay Hogan

-2-

February 6, 1975

As an alternative, where it would be necessary for the Commission to perform the necessary allocation on an item or category basis, consultants' services would be more costly. Mr. Norm Levesque, Greater Anchorage Area Borough Finance Director, in testimony given the afternoon of February 3 before joint hearings of the respective Community and Regional Affairs Committees, indicated that \$100,000 would be a minimal figure for consultants' work. Mr. Levesque's suggestion is, I understand, the basis of the request made in SB 102.

Our letter to Representative Cotten also suggests that the Legislature concern itself with providing interim transitional assistance to the newly-established borough. An organizational grant of \$25,000 has been paid; SB 111 asks additional assistance, although Mayor Lee Jordan of the Chugiak-Eagle River Borough has suggested that transitional costs through the period ending June 30, 1975 might approximate \$200,000. The committee should know that the transitional grant was first provided in the Municipal Code revision of 1972. It contains a provision by which the Department was directed to pay additional assistance to boroughs incorporated since January 1, 1968. Three grants have been made: one each in the amount of \$25,000 to the Haines Borough, the North Slope Borough and Chugiak-Eagle River, although at least in the latter two instances funds returned have been altogether insufficient to defray initial costs of borough government operation.

Please contact me should you wish further information with respect to these three bills.

Sincerely,

Lee McAnerney
Commissioner

Enclosure

January 24, 1975

The Honorable Sam Cotten
Alaska House of Representatives
Pouch V
Juneau, Alaska 99811

Dear Mr. Cotten:

You have asked our perceptions with respect to interim financial assistance for the Chugiak-Eagle River Borough during the period of its transition.

The Chugiak-Eagle River Borough was incorporated under procedures set forth in Chapter 145, SLA 1974. In August, 1974, a majority of the voters approved separation of the area from the Greater Anchorage Area Borough and organization of a second-class borough. Subsequently, on December 3, 1974, residents elected a mayor, seven-member assembly, and five-member school board. Pursuant to AS 29.18.180, the Department has transmitted to the officers of the municipality an organizational grant of \$25,000. This is the limit of direct assistance to the municipality currently authorized by State law.

It is understood that the Alaska Supreme Court has taken under advisement arguments offered in behalf of certain residents of the municipality directly challenging the incorporation process. Plaintiffs-appellants allege that ch. 145, SLA 1974 is local and special legislation adopted in violation of a constitutional prohibition against such legislation where general law procedures have been established. Defense of the challenge has been undertaken, in part, by the municipality. A portion of the organizational grant has been used to retain services of counsel.

Department comments are confined to two general matters.

By section 9(b) of Chapter 145

Upon incorporation of a borough . . . as provided in this Act, the local boundary commission, after due notice and hearings to parties concerned, shall prepare an order providing for an equitable allocation between the Greater Anchorage Area Borough and the municipality incorporated [i.e., the Chugiak-Eagle River Borough] of assets and liabilities, whether real or intangible, and including but not limited to bonded or other indebtedness, respecting the area incorporated as to a power or function succeeded to by a municipality . . .

To date, faced with the challenge to the Borough's incorporation, the Department has been reluctant to initiate, in behalf of the Commission, an extensive effort in satisfaction of this requirement. I tell you frankly that the research that would underlie an allocation is beyond the capacity of the Department; had we the resources, we would undoubtedly engage a consultant to complete the necessary work. Our approach would, most likely, embody retention of a consultant familiar with the internal accounting processes of the Greater Anchorage Area Borough and ask that, in satisfaction of the requirement imposed by the above-quoted language, he recommend alternative methodologies which would produce equitable allocations. The several recommended methodologies, with comments as to their appropriateness by officials of the affected municipalities, would be offered to the Commission. We would ask that the Commission select one, incorporating its features into an initial order directing officials of the respective municipalities to complete the allocation consistent with the guidelines described. The burden of action would fall on the municipalities but, when they could not agree, we would ask the Commission to retain jurisdiction and dispose of remaining elements. I am advised that the cost of entering into agreement with a third party to examine Greater Anchorage Area Borough records and suggest alternative methodologies, retaining the services of the consultants through the period of entry of final order by the Commission, should approximate twenty to twenty-five thousand dollars. Additionally, to defray the costs of review of alternative methodologies by the municipalities, the Legislature may want to consider direct financial support.

One alternative to this relatively "limited" approach would be a full-fledged examination of Greater Anchorage Area Borough funds with detailed recommendations involving allocations from each. Third-party examination of these funds would involve considerably more effort by a contractor and, concomitantly, considerably more cost. Finally, should the Department and Commission operate without benefit of expert opinion, as laymen it is likely that any final order would invite judicial review.

Our second concern is for the new municipality itself. By section 9(c) of Chapter 145

. . . [A] power or function which is being exercised on the effective date of this Act by the Greater Anchorage Area Borough within an area incorporated under this Act and which is succeeded to by the borough . . . incorporated [i.e., the Chugiak-Eagle River Borough] shall continue to be exercised by the Greater Anchorage Area Borough until the [new borough] incorporated under this Act assumes the power or function which shall be not later than the close of the fiscal year of the Greater Anchorage Area Borough during which incorporation occurs [i.e., June 30, 1975]. However, in the case of incorporation of a borough under provisions of this Act, the Greater Anchorage Area Borough shall continue to assess and collect borough taxes levied within the municipality for the borough fiscal year in which incorporation occurs until the close of that year, and thereafter as necessary to enforce collection of the taxes, and shall also collect, or receive, other revenues pertaining to the area incorporated for that fiscal year; the taxes and other revenues collected or received shall be remitted as promptly as possible, consistent with this subsection, to the new municipality on a basis fairly reflecting the division of powers and functions during transition between the Greater Anchorage Area Borough and the municipality. The Local Boundary Commission shall by order determine the allocation of tax and other revenues under this section.

January 24, 1975

Thus, until the Local Boundary Commission renders a final order anent allocation of assets and liabilities, including current tax receipts and shared revenues, or until June 30, 1975--whichever is earlier--the Chuglak-Eagle River Borough may expect to receive no income.

Please note, however, that section 8 of the Act compels the new municipality to enter decisions with respect to exercise, in FY 76, of mandatory areawide powers and directs that decisions be made with respect to assumption or relinquishment of all other powers currently exercised by the Greater Anchorage Area Borough. The GAAB's responsibility in the area lapses on June 30, 1975. Section 9(c). Thus, within a very constricted time frame, officials of the Chuglak-Eagle River Borough must concern themselves with assumption of current optional powers, implementation of all functions assumed, and construction of a FY 76 budget. This is no small task for a community with but \$25,000 of cash assets to its credit. Additional interim financial assistance has been publicly discussed and I would respectfully suggest that officials of both affected municipalities may want to be heard on this subject. The Department is, of course, within the resources allocated to it, ready to assist officials of both municipalities in the problems of transition although, as you may know, direct support by the staff of the division specifically charged with responsibility for technical assistance is rendered more difficult because of the absence of staff available in an Anchorage-area office.

I would like to take this opportunity to advise you that this request has the full endorsement of the Local Boundary Commission.

I would welcome the opportunity to examine the matter in more detail with you. If the Department may be of further assistance, please contact me.

Sincerely,

Lee McAnerney
Commissioner

TELEPHONE NO:

FROM:  William D. Thomson, Director
Management and Finance
Dept. of Education

SUBJECT: Dept. of Education Supplemental
Appropriation -- Correspondence
Study -- \$34,000

The FY 75 budget for Correspondence Study for the Alaska State-Operated Schools was based on a per pupil expenditure of \$1,000, with an estimated full-time enrollment of 278 students. ASOSS's first quarter 1975 FTE enrollment for Correspondence Study was 265 elementary and 51 secondary, for a total of 316 students, or a difference of 38 full-time students at \$500 per student, or \$19,000 in additional student costs. Furthermore, to insure an adequate home study coordinator level to provide direct service to students in the Aleutian Chain and Southwestern Alaskan regions, \$15,000 additional was allowed by Division of Budget and Management, Department of Administration for administrative costs.

I have also checked on the ASOSS Plan of Service to define the "other" category. No one has been able to identify what these items were intended (Mr. Dizon has left ASOSS), however, no expenditures were allowed for those items.

If I may be of further assistance, please feel free to call upon me.

CSSB 104

January 29, 1975

The Honorable Chancy Croft
President of the Senate
Alaska State Legislature
Juneau, Alaska 99811

Dear Mr. President:

Pursuant to the Uniform Rules of the Legislature, I am transmitting a bill making a supplemental appropriation to the Department of Education in the amount of \$4,426,300.

These funds are to be allocated as follows:

\$2,986,700 to the Foundation Program.

\$565,000 for the Boarding Home Program. This request is a result of delays in the construction of rural high schools and the expanded secondary programs which have resulted in the addition of 254 boarding home students.

\$750,500 for pupil transportation and out-of-district students. Inflation in pupil transportation charges and additional students requiring out-of-district payments require more funding than had been expected during Fiscal Year 1975.

\$90,100 for administration and support programs. This is requested to cover Fiscal Year 1974 insurance costs which were billed late in the year and proper provision had not been made to assure payment.

\$34,000 to the State-Operated School System Correspondence Study Program. Funds are being requested for transfer to the SOS

The Honorable Chancy Croft

-2-

January 29, 1975

Correspondence Study Program since all Fiscal Year 1975 correspondence funds for SOS were budgeted through the Department of Education. The SOS appropriation was based on an anticipated FTE enrollment of 278. However, current year FTE is now estimated to be 316.

Sincerely,

Jay S. Hammond
Governor

STATE OF ALASKA

DEPARTMENT OF ADMINISTRATION

DIVISION OF BUDGET & MANAGEMENT / POUCH C — JUNEAU 99801

86 109
WILLIAM A. EGAN, GOVERNOR

January 29, 1975

The Honorable Bill Ray
Senate Finance Committee
Pouch V
Juneau, Alaska 99811

Dear Senator Ray:

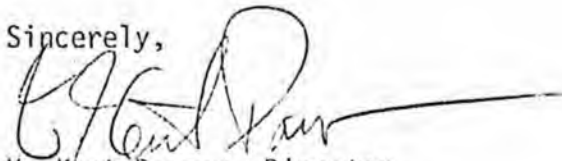

The Department of Education has today notified us that their supplemental request for \$4,426,300 may be reduced to \$3,733,300. This reduction of \$693,000 results specifically from their latest review of Foundation Program requirements.

Initially it was determined by the Department that 233 instructional units beyond the number anticipated in the FY 75 budget would be claimed by districts this year. These units generate an additional need for \$4,878,919.

It was assumed that the separate appropriation of \$5,903,300 for the FY 75 instructional unit value increase was an accurate amount for that purpose and need not be considered in calculating additional dollar requirements.

This was a faulty assumption. When total dollar requirements for the Foundation Program this year are compared with total authorization currently available (including the \$5,903.3), additional need is found to be \$4,185.9 instead of \$4,878.9. In other words, the unit value increase appropriation was \$693.0 in excess of actual need for that purpose. We therefore suggest reducing the Department's supplemental request by \$693.0.

Sincerely,

V. Kent Dawson, Director

7 Analysis of Governor's Decisions

ITEM	AMOUNT	FUNDING SOURCE	EXPLANATION
<u>Agency Request</u>	6,044.8	GF	4,185.0 Foundation Program 78.0 Pupil Transportation 358.7 Out-of-District Tuition 565.0 Boarding Home Program 61.5 Correspondence Study 90.1 Administration and Support (FY 74 Insurance costs)
Reduce Foundation Request	(1,892.2)	GF	This amount will be requested under the FY 75 pipeline impact appropriation to the Foundation Program. The pipeline amount has been derived as follows:
Reduce Pupil Transportation Request	(391.8)	GF	435.0 Anchorage 502.4 Fairbanks 326.2 Kenai 217.5 Matanuska-Susitna 251.2 North Slope 159.9 Valdez
Reduce Correspondence Study Request	(27.5)	GF	This amount will also be requested under the FY 75 pipeline impact appropriation. It is felt that at least this amount is attributable to double shifting students in Fairbanks.
<u>Governor's Recommendation</u>	3,733.3	GF	61.5 was requested by the Department of Education for transfer to the SOS Correspondence Study program, since all FY 75 correspondence funds for SOS were budgeted through DOE. The original amount intended for SOS was based on an anticipated FTE enrollment of 278. Current year FTE is now estimated to be 316. 34.0 has been allowed for the following: 19.0 for purchase of courses - 38 x \$500/FTE; 15.0 for additional field services.

BRU Department of Education - Supplementals BRU CODE _____ REVISED _____

STATE
of ALASKA

MEMORANDUM

TO: Kent Dawson, Director
Budget & Management

DATE : January 29, 1975

FROM: William Thomson, Director
Administration & Finance

SUBJECT: Supplemental Appropriation

FOUNDATION PROGRAM

The Department's original request for this program was \$82,425,000 based upon a unit value of 20,250. The Legislature authorized \$78,917,000 which included funds for the new Selawik City School District.

The Legislature also approved an increased unit value of \$21,750 and appropriated \$5,903,300 to cover the increase.

The revised report for 1974-75 from the districts shows that an additional 4,185,900 will be required for 100% funding of the Foundation Program.

While most of the deficiency can be attributed to initial under-funding, there are substantial increases in both vocational and special education pupils, without a comparable increase in total number of pupils.

Certain pupil increases in Anchorage, Fairbanks, Kenai, Matanuska-Susitna, North Slope and Valdez school districts can be related to Pipeline Impact (attachment)* in the amount of \$1,892,233.

Estimated Funds Needed		89,006,245
Funds Available		
Appropriation	78,917,000	
Unit Increase	<u>5,903,300</u>	
	\$84,820,300	

Need \$4,185,945

*Although the total change shown is higher than the amount request, the difference can be absorbed from the appropriation for unit increase which was an estimated amount.

PUPIL TRANSPORTATION

The original budget request for pupil transportation (public and nonpublic) was \$7,090,000. The final legislative appropriation was \$6,500,000.

According to our latest estimate at least \$7,283,616 will be required to fund all school district pupil transportation.

The estimated deficiency is substantially due to a need to increase the Fairbanks daily mileage from 5,000 to 8,000. This increase in mileage results from the necessity to double shift the University Park Elementary School and Lathrop High School. (The latter is really the establishment of two separate high schools using the same facilities). This increase in mileage alone amounts to approximately \$540,000.

The Valdez enrollment has increased from 333 in 1973-74 to 496 in 1974-75, requiring additional transportation for that district.

Other increases are attributed to the expansion of special education programs and the need to provide special transportation services for these pupils.

Projected Needs	\$7,283,616
Funds Available	<u>6,500,000</u>
Deficiency	783,616

Several of the contractors, especially those in the 2nd or 3rd year of an existing contract feel that rapidly rising costs, far beyond the original federal guidelines of 5.5%, should be given recognition. Fuel and oil products plus labor are their greatest concern.

Last year the Department had sufficient funding to permit a \$.01 per mile increase for every \$.05 increase in fuel costs. We believe this adjustment is fair and recommend the inclusion of \$100,000 to pay supplemental fuel costs according to the formula.

OUT-OF-DISTRICT TUITION

This program funds tuition costs for children who are wards of the state, have been placed in a school district by a social agency, or are receiving special services in special education in other than their home district. The state also contracts with the Anchorage district to administer and operate certain state educational programs in state institutions. Part of the costs are paid through the Foundation Program with the balance coming from the "out-of-district tuition" appropriation.

The budget request for 1974-75 was \$800,000 and the appropriation was \$800,000. However, there were several unknowns at the time the budget request was submitted.

All contracts for services were renegotiated just prior to the fiscal year and the extent of general tuition payments for "wards of the state" were unknown as this item had previously been handled by SOS.

	ESTIMATED EXPENDITURES		Appropriation \$800,000	
	Total	Foundation	Out-of-dist. Tuition

THE MAIN INCREASE IS WAGES WHICH ARE UP 20% OR MORE OVER LAST YEAR. THIS INCREASE HAS BEEN INSTALLED BECAUSE THE DRIVER SITUATION IS CRITICAL. THERE HAS BEEN MORE TURNOVER IN DRIVERS DURING THE FIRST TWO MONTHS OF SCHOOL THIS YEAR THAN IN ANY 9 MONTHS PREVIOUSLY. AS THE WEATHER GETS COLDER, PIPELINE WORKERS ARE RETURNING TO WARMER CLIMATES. THIS CAUSES MORE VACANCIES ON THE PIPELINE THAT CAN BE FILLED BY MY EXISTING BUS DRIVERS THUS CAUSING ME TO USE NEW DRIVERS. THE STATE HAS MADE IT RATHER DIFFICULT TO OBTAIN DRIVERS BECAUSE OF THE LETTER SENT STATESIDE ADVISING PEOPLE NOT TO COME TO ALASKA.

THE NEXT THING WOULD BE THE INCREASED COST OF THE SCHOOL BUS ITSELF. MR. HERB PERRIN OF THE SCHETKY EQUIPMENT CORPORATION OF PORTLAND, OREGON TOLD ME IN SEPTEMBER THAT NEW SCHOOL BUSES WERE UP 40% WITH A 12 MONTH WAIT ON DELIVERIES AND A 2% INCREASE IN COST PER MONTH WITH NO GUARENTEE THAT THE 2% PER MONTH WOULD COVER THE TOTAL COST OF THE BUS.

TIRES ARE UP APPROXIMATELY 40%.

PARTS ARE UP APPROXIMATELY 40% NATIONWIDE AND AN ADDITIONAL 20% ABOVE THAT IN THE FAIRBANKS MARKET.

ANTI-FREEZE IS UP 300 to 500%.

SUBMITTED BY:

BILL BLACKARD
TRANSPORTATION SERVICES.

REASONS FOR INCREASED MILEAGE

- (1) 2 schools in the Fairbanks area have gone on double-shift University Park and Lathrop. Jr. Hi from North Pole School have been shifted to McKinley on Ft. Wainwright to prevent double shifting @ N.P.

REASONS:

- (A) Overcrowding
- (B) Heavy growth in university area
- (C) Bond issues for new schools were not passed.

Examples: U. Park shift is 1:00 - 6:00 p.m.
Lathrop shift is 1:00 - 6:03 p.m.
Ryan Jr. High is 9:00 - 3:30 p.m.

Last Year

University Park & Ryan could ride the same bus, drop children at University Park & then continue onto Ryan. We ran 2 buses from 1 area. we could also combine high school & jr. high runs in most areas saving mileage.

This Year

We have to run 3 buses to serve the same area in U.P. & 2 buses instead of one in most other areas.

Due to the times of the schools involved, we are able to accomplish this with basically the same number of buses we used in 73-74 but with the double-shifting we are running duplicate miles in most areas.

BACKGROUND:

On projected impact this year, as of last spring, all but 5 schools in the F.N.S.B.S.D. had anticipated double shifting. Those 5 were Joy, Nordale, Barnette, Main and Ryan Jr. Highs. We found that we could eliminate double shifting at Hunter by shifting the 6th graders into Ryan Jr. High.

A week before school started, McKinley school on Fort Wainwright became vacant and S.O.S. granted the district its use. We then transferred the 7th & 8th graders in the North Pole area to McKinley to prevent double shifting at North Pole. Fox school, a group of moduale units, was moved out to 9 mile steese hiway to (1) take care of projected growth in that area and (2) prevent double shifting at Barnette.

Projected Building & Construction completion dates:

Aug. 1, 1975	New Jr. Hi replacement for Main Jr. Hi.
Dec. 31, 1975	New Senior in North Pole area
Sept. 1, 1976	New elementary in U.P. area
Sept. 1, 1976	New high school north of Chena River

We should be off the double shift by the opening on school in Sept., 1976.

Lowell H. Purcell

Domiciliary Services FY 75
\$565,000.

The Domiciliary Services authorized FY 75 budget was based on serving 758 students throughout the state. That enrollment base was established by coordinating with the Alaska State Operated Schools' BRU request for six new rural high schools and expanded secondary programs in fourteen locations. It was estimated by ASOSS that these new programs would serve 537 students. Initial enrollment as of September 1974 at these sites totals 179. The anticipated enrollment did not materialize because of delays in completion of construction of some of the new schools, and the decision by ASOSS to establish 9th grade only programs, rather than grades 9-12 as they had indicated in the FY 75 budget preparation. (Exhibit I.)

The Domiciliary Services enrollment as of September 30, 1974 was 1012 against an anticipated 758, a surplus of 254 students. (Exhibit II)

Page 4 of the Free Conference Committee Report, Fiscal Year 1975 Budget gives legislative intent as follows:

"If any of the projected new high schools or programs are not ready in Fall, 1974, it is intended that funds necessary to accommodate the students will be transferred to other components or BRU's such as Correspondence Study, Tuition, Foundation Program etc..."

We have requested funds from ASOSS; however, they have indicated since enrollments did not materialize they have a shortfall in revenue and will not be able to transfer receipts to us. (Exhibit 5) Therefore, in order to serve the additional students in the Domiciliary Services Program, I am requesting \$565,000.

DEPARTMENT OF EDUCATION

REGIONAL SCHOOLS AND BOARDING HOME PROGRAM

Exhibit 9

WILLIAM A. EGAN, GOVERNOR

November 13, 1974

POUCH F — ALASKA OFFICE BUILDING
JUNEAU 99801

Mr. Stanley Friese
Superintendent of Schools
650 International Airport Road
Anchorage, Alaska 99502

Dear Mr. Friese,

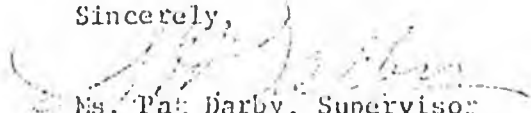

As indicated by Alaska State Operated School System in the FY 75 budget request, there were to be six new rural high schools completed and expanded secondary programs in fourteen locations in operation this year. These programs were to serve 537 students.

Since completion of construction on many of the new sites was delayed and the decision was made by Alaska State Operated School System to establish 9th grade only programs rather than 9-12 as indicated in the budget preparation, 254 students beyond the 758 budgeted for Domiciliary Services Programs are now enrolled in that program.

The legislative intent statement in the Free Conference Committee Report for FY 75 indicates that if any of the new schools or expanded programs were not operating by fall of 1974, funds necessary to accommodate the students were to be transferred to other components or BRU's.

It has been determined that an additional 565 thousand dollars will be required to serve the 254 students enrolled in the Domiciliary Services Program. Therefore, please transfer that amount to the Domiciliary Services budget.

Sincerely,

Ms. Pat Darby, Supervisor
Domiciliary Services Program

TELEPHONE NO:

FROM: William D. Thomson, Director
 Management and Finance
 Dept. of Education

SUBJECT: Request for Supplemental Funds

The Department of Education requests approval of a ^{\$90,100}~~\$90,400~~ supplemental to cover over-expenditures in fiscal year 1974. The following is a breakdown:

\$38,900 in fire insurance under the Dormitory and Boarding Home Program, and

\$51,200 in Workmen's Compensation and Liability insurance, under the divisions and sections of the Department generally.

The over-expenditure resulted from under estimating the amount required, and not being billed until late in the fiscal year, leaving no avenues of recovery through the limiting of various programs.

Department of Administration

DATE: November 4, 1974

FILE NO:

TELEPHONE NO: 465-2859

FROM: Margaret Justice *M.J.*
Education Administrator
Correspondence Study

SUBJECT: Revised Program Request
Correspondence Study-\$61,500.

RECEIVED
NOV 7 1974
BUDGET & MANAGEMENT

This memorandum is a request for approval of \$61,500. increase in General Funds to support the ASOSS Correspondence Study students during FY75.

This year's budget figure was based upon 389 ASOSS students at a cost of \$1,000. per pupil. The amount was to be divided equally--\$500. for Correspondence Study services and \$500. for ASOSS field/area services.

An error in pupil accounting arose which, in effect, reduced the expected per pupil support. During FY74 there were 451 rather than 389 students. ASOSS returned 120.5 to the Correspondence Study office to assure a maintenance educational level for their students (see attachments).

We are requesting 61.5 to adjust this loss to students' educational programs. The following figures should help clarify.

451 Students Should Equal \$451,000.

	Original Figures	Addendum Figures	Supplemental Request	Total Request
ASSOS	267.0	146.5	61.5	208.0
C/S	<u>122.5</u>	<u>243.0</u>	<u>-0-</u>	<u>243.0</u>
TOTAL	389.5	389.5	61.5	<u>451.0</u>

The \$61,500. will be used in travel and per diem for Correspondence Study students to attend peer group meetings, on-the-job training programs, special oriented remedial programs, and for home teachers' and supervisors' travel to training sessions. Areas will receive different amounts according to the number of students and program plans.

FROM: *Byds*
Bob Jacobs, Sr. Budget Analyst
Division of Budget and Management
Department of Administration

SUBJECT: Legislative Intent for FY 75
Correspondence Study Appropriation

The purpose of this memo is to record in writing my understanding of the intent and background of the FY 75 correspondence study intent, based on my discussions of this topic with Rich Guthrie and you today.

Apparently, the legislature's action to fund both your correspondence operation and the SOS correspondence operation through your BRU resulted from squabbling between members of the two agencies at the time the final legislative appropriations were put together. Apparently, representatives of the two agencies disagreed as to how the appropriations should be handled, and so gave you the entire amount since they had more faith in your abilities than in those of SOS, and particularly in view of the fact that SOS had no correspondence study staff or experience.

The requirement that SOS submit an acceptable plan of service in order to receive its money for tutoring and other personal services is apparently an attempt to 1) treat SOS just like the other districts, since plans of service were also required of them, and 2) force SOS to take advantage of your advice and expertise in structuring their new correspondence study program. This of course dumps a large extra load on your shoulders, but is probably the best way to assure that a program of some real benefit to the students is developed in this first year.

Guthrie felt that if SOS and Education can agree on a strategy during the FY 76 budget, their requests will be much more likely to be treated favorably and the appropriations made in the form requested.

{ Both Guthrie and I feel that you will have rather good ground for requesting a supplemental appropriation in the event that the SOS correspondence enrollment exceeds the estimated FTE enrollment of 278 by a significant amount, e.g. over ten percent.

X I would also like to record in the record that I made a mistake in computing the interagency transfers amount in the SOS correspondence study budget. While we adjusted the enrollment estimate from 245 to 278 and changed the expenditure lines accordingly, particularly in contractual services, I neglected to increase the interagency transfers amount from 122.5 to 139.0. Since the contractual services amount included \$500 per student for transfer to Department of Education to buy course materials and correction services, it would seem only fair that an additional amount of 16.5 be transferred if this enrollment of 278 in fact materializes.

Margaret Justice, Director

-2-

June 18, 1974

In summary, thanks to your efforts in bringing a gross inequity to the attention of the finance committees, they have budgeted approximately the same number of dollars per SOS correspondence student as the districts receive for their correspondence students. And they have budgeted them under your control in order to assure that your expertise will be applied toward the development of a viable correspondence program in SOS and also to force the two agencies to get together and resolve their differences.
