2. AMU agrees to transfer to UA all improvements on said real property. The buildings include the following:

- a. Gould Hall
- b. Grant Hall
- c. Campus Center Buildings
- d. Behavioral Science Building
- e. Faculty housing (9 units)
- f. Maintenance and storage buildings

3. UA agrees to pay the sum of \$15,427,000.00 for the above-listed real property and improvements. The terms of said payment shall be as follows:

- a. The sum of \$3,000,000.00 as a down payment. Said down payment shall be reduced by the sum of the obligations for salary at current AMU rates assumed by UA as a result of the termination by AMU of its faculty contracts due to the closure of AMU and the employment

by UA of some or all of the AMU faculty. The exact sum of said obligation shall be determined prior to May 1, 1975, by the joint UA-AMU administrative task force subject to the approval of the Presidents of the two Universities and shall be limited to the salary obligations at current AMU rates for faculty actually employed by UA for the 1975-1976 school year.

b. UA shall assume AMU's rights and obligations under that certain Indenture dated October 1, 1972, between AMU and the First National Bank of Anchorage, as Trustee, and under that certain Indenture dated April 1, 1966, between AMU and the First National Bank of Anchorage, as Trustee. The said Indentures have a principal balance of \$2,721,000.00, of which principal balance the sum of \$100,000.00 is presently in arrears. The additional sum of \$250,000.00 is presently due and owing under said Indentures, which sum includes \$95,000.00 interest in accordance with the payment schedules under said Indentures, \$140,000.00 deficiency in the sinking fund provided for in said Indentures, and the sum of \$15,000.00 in miscellaneous interest and penalties under said Indentures. UA agrees to assume all of said principal, interest and penalty obligations and bring all arrearages current. It is understood by the parties that the concurrence of the Trustee and the bond holder under said Indentures will be required prior to the assumption by UA of AMU's obligation under said Indentures. The parties agree to jointly approach said Trustee and bond holder to secure their approval to the assumption. The purchase price set out hereinabove shall be reduced by the amount of the assumed indebtedness under said Indentures.

H

c. The first installment of the down payment shall be due on or before April 15, 1975 and shall be the sum of \$1,000,000.00. The balance of said down payment shall be due on July 1, 1975.

4. AMU shall, in addition, sell to UA furniture, fixtures and other personal property for an additional sum not to exceed \$800,000.00. Schedules of said furniture, fixtures and other personal property shall be prepared and affixed to this

Prim.
Inventory and
W

agreement as exhibits. UA shall ^{pay for} ~~have the right to~~ an independent appraisal of said personal property, ^{(the appraiser(s) to be jointly selected)} which appraisal shall determine the price ^{for each property.} ~~set forth above.~~ ^{AMU may withhold any item which it believes is priced too low by the appraisal and UA may decline to purchase any item.} ~~AMU must agree to any reduction in said price.~~ The parties understand that certain personal property may be subject to restrictions in the applicable deed of gift and AMU may therefore be required to retain said property.

5. The balance of the purchase price shall be paid in ten annual installments commencing on the 1st day of July, 1975. Each annual installment shall equal one-tenth of the principal balance remaining after payment of the down payment provided for in paragraph 3(a) herein together with accrued interest on the unpaid balance. Interest on the unpaid balance shall be prime rate charged by the Bank of America as of the effective date of this memorandum of agreement.

6. The unpaid balance due under the terms of this agreement shall be evidenced by a promissory note which shall be secured by an appropriate deed of trust on the real property and improvements transferred hereby and by an appropriate security agreement covering the personal property transferred hereby. The deed of trust and security agreement shall be superior to all other security interests in said real and personal property with the exception only of the Indentures described in paragraph 3(b) hereinabove. The deed of trust and security agreement shall provide for a minimum of six months within which any default

under said deed of trust and security agreement may be cured by UA.

7. AMU shall retain its art collection and its Alaskan library.

8. AMU shall retain AMU Press and the publication rights to all periodicals now published by AMU Press and the copyrights to all books published by AMU Press since the establishment of AMU Press, together with current inventory of books and periodicals.

9. AMU shall retain all AMU student records. AMU shall have the right to transfer said student records to UA at some future time. In such event UA agrees to maintain the AMU student records and to answer and provide information and transcripts based upon such records upon request.

10. UA shall retain in perpetuity all existing building names, memorials, monuments, plaques or other memorial or commemorative designations or identifications on the AMU campus.

11. The parties through the negotiating committees, the Board of Regents and Board of Trustees respectively, and through the parties' legal counsel shall cooperate fully in securing approval of the sale by the Legislature of the State of Alaska and by the United States Department of the Interior. Both parties agree to use their best efforts to promptly secure the approval of both of said agencies. It is understood by both parties that the price and payment terms set forth herein are subject to approval by the Legislature. AMU reserves the right to withdraw from this Agreement, without penalty or obligation, at any time prior to approval of the sale under the terms set forth herein and the funding of said sale as agreed herein by the Legislature and the Governor.

12. The details regarding the implementation of the transfer of the property and improvements of AMU to UA shall be

negotiated by the joint AMU/UA administrative task force subject to the approval of the Presidents of the two institutions. Any dispute which cannot be finally resolved between those groups shall be submitted to the sale negotiating committees appointed by the Regents and Trustees of the two universities.

2 ^{ultim} 13 ANU will hold UA harmless ^{defend UA from and} ~~from~~ any litigation ^{claim} or

liability arising in relation to the operation of AMU ~~or arising~~ prior to the transfer of possession of the premises to UA.

14. It is understood and agreed by the parties hereto that this agreement is a preliminary agreement intended to express the general understanding of the parties with regard to the terms of the sale and that this agreement may require amendment, modification or substitution at a later date.

Re: Appraisal of Alaska Methodist University

Dear Dr. Moyer:

As requested, I have made an inspection and preliminary analysis of the value of land and buildings owned by Alaska Methodist University. The land is described as follows:

- The NW $\frac{1}{4}$ Section 27 EXCEPT The NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 27;
- The N $\frac{1}{2}$ SW $\frac{1}{4}$ Section 27;
- The NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 28;
- The SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 27 lying South of University Drive;
- The E $\frac{1}{2}$ E $\frac{1}{2}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 27 lying North of University Drive;
- The SW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$ North of University Drive.

The gross area is approximately 292.69 acres.

Alaska Methodist University proposes to sell this property to the University of Alaska. The purpose of this preliminary estimate is to ascertain a fair price to be paid for the real estate. While the final appraised value may vary somewhat from this preliminary estimate, it should not be significantly different.

In my opinion, the Market Value of the Alaska Methodist University real estate as of December 27, 1974 is:

NINETEEN MILLION, TWO HUNDRED THOUSAND

(\$19,200,000)

See p. 6 for restriction on release of this info. to public media!

Land	<u>7,000,000</u>
TOTAL VALUE ALASKA METHODIST UNIVERSITY REAL ESTATE	\$19,161,818
(rounded)	<u><u>\$19,200,000</u></u>

Methodology:

The subject is a special purpose property. The standard method of appraising special purpose properties is to value the improvements based on cost new less depreciation then add the land. Depreciation must include all forms including

physical deterioration, functional obsolescence and economic obsolescence when these elements are present.

The land is zoned PLI, Public Lands and Institutions District, by the Greater Anchorage Area Borough. This district is intended to include major open lands, major public and quasi public institutional uses. The standard method in appraising land in this type of zoning is to substitute the highest and best use of the land as if it were in the private sector. This is because parks and institutional lands very seldom transfer on a Market Value basis. The highest and best alternate use for this land would be for a PUD, which includes condominiums, apartments, a small amount of offices and commercial and possibly some single family residences. The subject land has been valued on this basis.

There is a restrictive covenant in the patent from the Bureau of Land Management to Alaska Methodist University which restricts the use of this land to school purposes. The sale agreement between Alaska Methodist University and the University of Alaska for 197 acres of adjacent land in 1972 also contained a restriction on the remaining Alaska Methodist University land to school purposes. The land value in this preliminary estimate has not been penalized because of the restrictions placed on the land. ~~Prior to completion of the final appraisal, I would like to have an opportunity to discuss the impact of these restrictions with counsel.~~

[The land has been appraised with the streets in place. That is to say, land is more valuable with street frontage than land without street access. Therefore, although the streets are privately owned and maintained, the value of those streets is included in the land value.] Near the South end of the property is a 25 acre lake which was created by mining of the gravel resources previously located thereon. Assuming that Chester Creek, which flows nearby, could be diverted in and out of the lake to fill it and freshen it, the lake is an asset to the land. The 25 acre lake area has been deducted from the total land area for purposes of calculation of land value. However, the 58.4 acres surrounding the lake have been valued at a higher unit value than the rest of the land.

The faculty residences have been valued on a comparative basis rather than cost less depreciation. This method includes the land on which a residence is located. Typical lot size for residences of this size is 16,000 square feet each, which would result in 3.31 acres being utilized for faculty housing.

Dr. Donald C. Moyer
December 31, 1974
Page 4

This land value is included with the value of the faculty housing and was, therefore, deducted from the land area which was valued on an acreage basis.

Land Values:

58.4 Acres @ \$35,000/Acre	=	\$2,044,000
192.18 Acres @ \$25,000/Acre	=	4,804,500
<u>13.8 Acres @ \$15,000/Acre</u>	=	<u>207,000</u>
264.38 Acres	TOTAL	\$7,055,500
25 Acre Lake		
3.31 Acres with Faculty Housing		
	(rounded)	<u>\$7,000,000</u>

As requested, the above presentation has been abbreviated with the supporting evidence retained in the appraiser's files. The final appraisal, when requested, will contain the back-up evidence for land value, cost of reproduction estimates and the comparable sales utilized in valuing the faculty housing.

The land areas utilized are approximate. No survey was made, and there is no warranty as to land area.

We acknowledge assistance of Terry Gorsuch, Cost Estimator, and Fred Ferrara, Appraiser, in this report.

We wish to thank you for this opportunity to be of service.

Sincerely,
DIRKSEN APPRAISAL COMPANY

ASSUMPTIONS AND LIMITING CONDITIONS

1. No legal questions are considered in this analysis, such as titles, encumbrances, etc.. The property is considered as if free and clear.
2. All dimensions and legal descriptions are assumed to be correct, as furnished.
3. All information, as found in data furnished, is deemed to be reliable. If any errors are found, the right is reserved to modify the conclusions reached.
4. No study has been made to determine whether structures may have an infestation, such as termites or dry rot. In the absence of such study, it is assumed the property is free of such problems.
5. While various "approaches to value" and various mathematical calculations have been used in estimating value, these are but aids to the formulation of the opinion of value expressed by the appraiser in this report. In these calculations, certain arithmetical figures are rounded off to the nearest significant amount.
6. The data and conclusions embodied in this appraisal are a part of the whole valuation. No part of this appraisal is to be used out of context; and, by itself alone, no part of this appraisal is necessarily correct, as being only part of the evidence upon which final judgment as to value is based.
7. Employment to make this appraisal does not require testimony in court, unless mutually satisfactory arrangements are made in advance.
8. This appraisal is made in accordance with the standards of the American Institute of Real Estate Appraisers.
9. Fair Market Value is defined as "the price it (the real estate) will bring between a willing buyer and a willing seller, with equity to both.
10. This report is delivered subject to the stipulation that neither all nor any part of the contents shall be conveyed to the public media through advertising, public relations, news, sales or any other media without the written consent and approval of the author, particularly as to valuation conclusions, the identity of the appraiser, his firm, or any reference to the American Institute of Real Estate Appraisers.

CERTIFICATION:

The undersigned does hereby certify that, except as otherwise noted in this appraisal report:

1. I have no present or contemplated future interest in the real estate that is the subject of this appraisal report.
2. I have no personal interest or bias with respect to the subject matter of this appraisal report or the parties involved.
3. To the best of my knowledge and belief the statements of fact contained in this appraisal report, upon which the analyses, opinions and conclusions expressed herein are based, are true and correct.
4. This appraisal report sets forth all of the limiting conditions affecting the analyses, opinions and conclusions contained in this report.
5. This appraisal report has been made in conformity with and is subject to the requirements of the Code of Professional Ethics and Standards of Professional Conduct of the American Institute of Real Estate Appraisers of the National Association of Real Estate Boards.
6. No one other than the undersigned prepared the analyses, conclusions and opinions concerning real estate that are set forth in this appraisal report.

RESTRICTION UPON DISCLOSURE & USE:

Disclosure of the contents of this appraisal report is governed by the By-Laws and Regulations of the American Institute of Real Estate Appraisers of the National Association of Real Estate Boards.

Neither all nor any part of the contents of this report (especially any conclusions as to value, the identity of the appraiser or the firm with which he is connected, or any reference to the American Institute of Real Estate Appraisers or to the M.A.I. or R.M. designation) shall be disseminated to the public through advertising media, public relations media, news media, sales media or any other public means of communication without the prior written consent and approval of the undersigned.

Justification for New Positions Proposed in Relation to the Transfer of
AMU Personnel and Facilities

Personnel Services

See attached memo.

Purchasing & Expediting Services

One additional clerical position is necessary to accommodate the increased purchasing activity and the increased property processing and control, and warehouse activity which will be created by the acquisition of AMU personnel, programs, and facilities.

One additional expeditor position will be necessary in order to serve the expediting and delivery requirements that will be generated by the expansion of personnel and the acquisition of another facility. This position is considered to be a critical requirement.

Bus Operation & Mail Service

The intercampus bus operation will likely expand to include far more frequent trips to the AMU campus than they now make. In order to expand the schedule, it may be necessary to put another vehicle into operation and will require an additional driver to operate it.

The acquisition of another facility to include residence halls will most definitely put a strain on the intercampus mail system and will require at least one additional mail clerk position. This is considered to be a minimal request.

Physical Plant Administration

The current clerical support to the Physical Plant administration is marginal and is not entirely adequate to accommodate the needs of both the administration and maintenance department and the custodial department. The acquisition of the AMU facility will mean a significant expansion in the maintenance and custodial staffs, thereby creating the need for more clerical support for the department.

March 14, 1975

Physical Plant Maintenance

The policy of the University is to establish maintenance positions by specialty; i.e., plumber, electrician, carpenter, etc. Since it appears that most of the current AMU staff are generalists and because the AMU grounds as we remember them from last summer were neglected by financial necessity, it is felt that the addition of a qualified groundsman would be necessary in order to maintain the grounds at the same level of quality as the UAA campus.

Physical Plant Custodial

Four additional custodial positions will be required in order to maintain the facilities at the same level of quality as the UAA campus.

Physical Plant Safety & Security

The addition of 14 more buildings to include three residence halls, plus faculty housing, will require the minimum of one and one-half FTE security patrolmen positions in addition to our current staffing. The distance involved from the UAA campus and the added attractions of the ski jump, a ski tow, a ski hill, a lake, a tennis court, and a hockey rink will have a definite impact on the manpower requirement for safety and security purposes. The expansion of the safety and security department staff from two and a half FTE to four FTE will require its own clerical help in order to accommodate the prompt processing of reports and other paper work, and also maintain proper staffing for handling an increasing load of contacts by both University personnel and the public.

MEMORANDUM

To: Finance Committee - Hugh Malone, Chairman
Education Subcommittee - Clark Gruening, Chairman

From: Interim Committee on Higher Education - Kathryn Ostrosky, Chairwoman

Date: May 15, 1975

Subject: Rationale for Option to Purchase and for Continued Operation of AMU

Option to Purchase AMU

The State of Alaska would purchase an option on buildings and grounds of AMU, option price to be 1.93 million. Intent of purchasing the option would be to allow the State of Alaska to examine its interests in higher education in the state. Option would be effective for one year but could be extended from year to year at an agreed upon price. The mechanics of such an extension would be agreed upon by both parties. For example, an additional extension of the option price for one year could be \$1.2 million.

Tuition Assistance

The tuition assistance program pertaining to AMU would be revised upward to \$1850 per student for an academic year. The purpose of this would be to place AMU students on a parity for tuition costs with those of the U of A. Since the tuition at AMU is \$2,150 per academic year, the student would be required to pay an additional \$300 - the same cost as it would be to enroll for one year at the U of A. Appropriate amendments to HB 433 in the amount of grants and the formula for computing states portion of operational budget would implement this portion. It is important that the residency requirements be reduced to one year in order to qualify for AMU tuition assistance. There is only a one year requirement for a non-resident to become a resident at the U of A. Inasmuch as AMU would be reclaiming \$250 more per student for tuition assistance than other private higher education institutions in the state, the \$250 would be considered part of the option money which would apply against the purchase of AMU. Thus it is conceivable that \$1,295,000 would be needed to accommodate approximately 700 FTE.

(full time equivalent) students who would like to register at AMU. Of this \$1.295 million, \$175,000 would be that extra amount that would apply toward that purchase option. It is important to note that the tuition assistance money not applied toward the option is money which has been paid for services rendered in that AMU has provided educational services for the students who have participated in the tuition assistance program. Please note that the tuition assistance money given Sheldon Jackson is given freely and there is no "reimbursement" to the State for these monies which S.J. receives.

Cross-Registration

There must be a change in the conditions of the consortium arrangement in the Anchorage area - this change being any student who cross-registers pays the appropriate registration fee at that institution where they choose to cross-register. During 1974-75, 279 U of A students cross-registered for courses at AMU. During that same period only 75 AMU students cross-registered at UAA/ACC. In addition, several U of A classes convened in AMU facilities; furthermore, many of the drama productions were held in the theater facility.

Many communities in the state and several hundred students have already benefited from the health care they have received from the nurses that have participated in the nursing program. It is essential that this program be funded and continued at the strength requested as this is the only four year baccalaureate nursing program in the state. This nursing program brings in additional federal dollars in the amount of \$250,000 per year.

Option Costs

To summarize the option expense to the State of Alaska for 1975-76 would consist of two parts:

\$1,930,000.00	option
\$ 175,000.00	extra tuition assistance
\$2,105,000.00	Total

This amount of money shall be deducted from the purchase price of ~~\$15,000,000~~ should the state elect to exercise the option to buy at the end of the option year.

In the event of the purchase of AMU, the net cost for educating approximately 700 students for 1975-76 at AMU would be \$1,447,000. If the State failed to exercise its option, the net cost would be no more than what it normally costs the State of Alaska to educate 700 students for one year. This is substantially less than it would cost the State to consummate the sale and transfer the programs and students.

In order to consummate the option to purchase, 1 million dollars would be needed as of May 23, 1975 and the balance of \$930,000 to be paid July 1, 1975.

(DRAFT)
PRESS STATEMENT

(From Office of Gov)

UNIVERSITY OF ALASKA AGREEMENT TO PURCHASE
ALASKA METHODIST UNIVERSITY

For several weeks the executive and legislative branches have been reviewing the information provided by Alaska Methodist University and the University of Alaska regarding the proposal for the University of Alaska to purchase Alaska Methodist University and transfer the programs to the University.

There are several issues both implicit and explicit in deciding what action should be taken. While I do not feel it is the prerogative of the Office of the Governor to determine the various means for implementation of any action chosen, I do feel that it is incumbent upon me to offer some kind of statement of policy direction.

1. The Purchase

It is my position that a purchase, since it is a substantial capital investment, should not be carried out without an opportunity for voters to give direction. A bond issue should be placed on the November 1976 ballot. In the meantime, I recommend a lease of Alaska Methodist University facilities by the University of Alaska with an option to purchase, contingent on voter approval on the bond issue. The option monies should then be applied to the purchase price.

2. The Educational Program

It is becoming increasingly clear that Alaska Methodist University has provided a program which has met specific needs of the Alaskan citizenry and, by virtue of its flexibility, has been able

to stimulate an imaginative educational program in Alaska. There is little doubt that some of the difficulties faced by Alaska Methodist University are directly tied to the growth of the Anchorage campus of the University of Alaska.

It would be my recommendation that the State guarantee a continued operation of Alaska Methodist University programs through either contractual relationship with Alaska Methodist University or the necessary adjustments in the tuition assistance program.

By the State providing an approximate \$1.9 million option funding and increasing tuition assistance for both Alaska Methodist University and Sheldon Jackson to \$16 hundred it appears that the additional funding necessary to keep Alaska Methodist University programs operating, would be approximately \$175 thousand or the difference between the \$16 hundred of tuition assistance and the actual cost amount. If the State added the \$175 thousand support to the \$1.9 million option monies and applied that amount of approximately \$2.1 million to the purchase price, in the event of the passage of a bond issue, the net cost for educating the students for that year would likely be no more than the cost of educating them at the University of Alaska.

The funding for the two year period involved would then be basically as follows:

ALASKA METHODIST UNIVERSITY

Under a program such as this the recently formed post secondary education could perform most responsibility the charge given through statute, and hopefully, the entire State would be benefited by a more thorough, far-reaching analysis future of post secondary education in the State of Alaska.

It is my understanding that this recommendation is consistent with the general concepts of the suggestions adopted by the interim committee on higher education and submitted to the House Finance Committee.

I am encouraged that the executive and legislative branches may reach mutual agreement on the wisest way to address the Alaska Methodist University purchase question and that the Post-Secondary Education Commission may have a significant role in truly directing discussions surrounding this major move in higher education.

14 dents shall be employed where they are available and qualified. If 10
15 or fewer persons are employed under the contract, then 90 per cent
16 residents shall be employed where they are available and qualified. In
17 all cases of public works projects, preference shall be given to resi-
18 dents.

19 * Sec. 2. AS 36.10.125 is amended by adding a new subsection to read:

20 (b) A private person is entitled to bring action in the superior
21 court to enforce the provisions of this chapter if he gives at least
22 20 days notice before filing the action to the commissioner of labor
23 that he intends to bring action under this subsection, the specific
24 violation complained of, and the name of the person accused of the
25 violation. In an action brought under this subsection the court may,
26 in its discretion, order denial of state revenue sharing or public
27 school foundation money, forfeiture of office or position, or injunc-
28 tive or other relief. If the court finds for the plaintiff in an
29 action brought under this subsection, it may award the plaintiff an

amount equal to the actual costs and attorney fees he incurred.

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

Senate Bill No. 719 binds home rule and general law municipalities to the special assessment payment procedures and limitations as set forth in AS 29.63.060.

The bill has no state fiscal implications.

The bills intent is apparently to protect a taxpayer from being billed a lump sum assessment or installment of an assessment in one year which exceeds 25% of the assessed value of the property affected.
