DEPT. OF ENVIRONMENTAL CONSERVATION

JAY S. HAMMOND, GOVERNOR

Pouch O
Juneau, Alaska 99811

May 12, 1976

The Honorable Hugh Malone
House of Representatives
Pouch V
Juneau, Alaska 99811

Dear Representative Malone:

Thanks for your request for our Department's views concerning the proposal before the House Finance Committee to increase the amount available in HB 610 for the construction of Village Safe Water (VSW) facilities from the \$1 million proposed by the Governor to \$2 million. Several issues were addressed in our discussions on this proposals and I would like to review them for you.

First, we have decided to propose sewer and water bond authorizations, including VSW funds, on a biennial basis. This will allow us to regularly and continually fund these projects, and help avoid any cash flow difficulties that then would have to be funded out of general fund appropriations. As you know, bond funding for these two programs has not been proposed biennially in the past, but has been rather erratic.

Secondly, we needed to integrate the on-going VSW construction program with a comprehensive long range planning process for the provision of sanitary facilities in rural areas. This planning is now going on, and, hopefully, can result in a long range program for those facilities addressing not only construction, but also continuing operation and maintenance. During the planning process, we propose to continue construction of 1-2 VSW facilities per year. The experience gained in the construction and operation of these facilities is essential if our long range planning is to be meaningful. As well, the need for these facilities is well demonstrated in a number of villages, and we can, as mentioned earlier, take advantage of concurrent school construction in certain areas, thus reducing total costs to the State.

"1776-A TRIBUTE FROM OUR STATE TO OUR NATION-1976"

The Honorable Hugh Malone

-2-

May 12, 1976

To continue this construction program, we feel that the \$1 million bond fund request coupled with the general fund moneys presently available to us, is adequate until 1978. At that time, our planning will be completed to the extent that we should have a long range program available for review by the legislature, and proposed bond issue for the 1978 election.

Lastly, the 1976 sewer and water bond program was designed within the limits established by the Governors Bond Committee. Any increase in the proposal could potentially run the total bond fund level beyond the guidelines set by this Administration in preparing its 1976 bond package.

Sincerely,

Ernst W. Mueller

Rep. Itta.

PRESENT

The first topic for discussion was SB 732. Rep. Malone said there was one change that might be considered. Funding has been provided for the Village Safe Water Program at \$1,000,000 a year. Under the Governor's bill they provided \$1,000,000 for a two-year period. The committee might consider increasing the amount to \$2,000,000 in the bill.

SB 732

On SB 267 am Rep. Malone said the bill provides for an increase in funding for community water systems. Right now the state picks up 25% of the cost of construction programs. The bill would raise it to 50% or 50% of the non-Federal share. Rep. Duncan asked how the \$31,000,000 figure was arrived at. Rep. Malone explained that they estimated \$1,000,000 in applications per month. They feel that the bond issue will have to do them for two and one-half years. It takes into account the increased funding for water systems. They added \$1,500,000 for the Village Safe Water Program.

SB 267 am

Rep. Haugen moved to send out SB 732 the way it is. Rep. Guy said that in HB 610 the figure for the Village Safe Water Program was set at \$5,000,000 instead of \$1,000,000. He then moved to amend Rep. Haugen's motion to reflect the \$5,000,000 figure. Rep. Haugen objected. He said he felt that the \$1,000,000 for Village Safe Water was enough. It was included in most of the school bond issues too. Rep. Duncan questioned whether \$5,000,000 could be used in the next two years. Rep. Malone answered that he didn't know but the projects are running about \$500,000 each. Rep. Haugen objected to the fact that cosmopolitan area communities had to come up with 25% of the cost before they could get anything. They also have to pay a sewer and water fee. Rep. Malone said he was reasonably sure all the money had not been spent by Village Safe Water last year.

SB 732

Rep. Itta joined the meeting at 9:30.

Rep. Malone commented that he felt the way to operate the program was not to have the department administering it but rather to have the local people handle it as a grant program.

SB 732

Rep. Malone said he would have to object to the \$5,000,000 figure. The way the program has been operating they are unlikely to be able to spend more than \$2,000,000 over the next two years.

The amendment was voted on and failed. Rep. Malone moved to amend SB 732 to change the \$1,000,000 for Village Safe Water to \$2,000,000. Rep. Guy said he had not seen a significant impact provided by the annual \$1,000,000 donation. The motion was voted on and it passed.

There was no objection to the motion to report the bill out, so it was adopted. The committee report was circulated with the majority signing "do pass" recommendation. So CS for SB 732 was reported out with a "do pass" recommendation.
