7 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

Re CSSCR 5

It is my understanding that the language of the resolution places the Legislative Council as the lead agency in carrying out the revision of AS 11. It is also my understanding that John M. Elliott, Executive Director, Legislative Affairs Agency, has submitted fiscal information to you which sets forth the estimated whole cost of the revision, including whatever costs would be incurred by the Department of Law's participation. Therefore, the Department of Law has not, nor does it propose to, request funds for a revision of AS 11.

MEMORANDUM

TO: James Fennell, Senate Finance  
FROM: John M. Elliott, Executive Director  
SUBJECT: Fiscal information re CSSCR 5

In reply to your request for the fiscal implications of CSSCR 5 which authorizes the Legislative Council to contract with competent persons or firms to oversee and direct a commission to review the existing Criminal Code of Alaska, the council has not, as of this date, had an opportunity to discuss this matter or to determine what direction the proposed study should take if the proposed study passes. However, it is my feeling and that of the resolution's original sponsor that a sizable amount of money will be included in this agency's budget request in anticipation of the resolution's passage. The maximum amount to be requested, in my judgment, would likely be approximately \$100,000.

If you have any further questions, please do not hesitate to call me.

TO: Jay Hogan, Director, Division of Legislative Finance  
FROM: John W. Elliott, Executive Director  
SUBJECT: Fiscal Implications of Senate Concurrent Resolutions 6 and 7

In response to your inquiry concerning the fiscal implications of Senate Concurrent Resolutions 6 and 7 (Legislative Assistance at Girls' and Boys' State), the following information is pertinent.

This agency has sent two staff members to each for a period of seven or eight years as a result of the passage of resolutions similar to Senate Concurrent Resolutions 6 and 7. Attendance at each requires the staff members assigned to be in attendance in Fairbanks and Anchorage for approximately one full week. The cost to the office is basically that of travel and per diem for the four staff members involved, and these costs have always come out of travel funds allocated to the agency and they do not necessitate additional appropriations.

The cost to the agency last year for per diem and travel was \$1542.36. The cost to the agency would be approximately the same this year should the aforementioned resolutions pass the legislature.

If the committee desires further information, please let me know.

MEMORANDUM

TO: Jay Hogan, Director, Division of Legislative Finance  
FROM: John M. Elliott, Executive Director  
SUBJECT: Fiscal Implications of Senate Concurrent Resolutions 6 and 7

In response to your inquiry concerning the fiscal implications of Senate Concurrent Resolutions 6 and 7 (Legislative Assistance at Girls' and Boys' State), the following information is pertinent.

This agency has sent two staff members to each for a period of seven or eight years as a result of the passage of resolutions similar to Senate Concurrent Resolutions 6 and 7. Attendance at each requires the staff members assigned to be in attendance in Fairbanks and Anchorage for approximately one full week. The cost to the office is basically that of travel and per diem for the four staff members involved, and these costs have always come out of travel funds allocated to the agency and they do not necessitate additional appropriations.

The cost to the agency last year for per diem and travel was \$1542.36. The cost to the agency would be approximately the same this year should the aforementioned resolutions pass the legislature.

If the committee desires further information, please let me know.

TO: The Honorable John Rader

FROM: Milt Barker, Fiscal Analyst  
Legislative Finance

SUBJECT: SCR 13

The cost to the State from accepting a 7% interest rate on Veterans' loans rather than 8% will be a loss of 1% in annual interest plus a difference in discount that varies with the prevailing market rate at the time of a sale of the loans:

	<u>Market Rate</u>	
	<u>8%</u>	<u>10%</u>
Discount on 8% loans	0	20%
Discount on 7% loans	<u>12.5%</u>	<u>30%</u>
Difference in Discount	12.5%	10%

These factors applied to the Department of Revenue's projections of new loans to be made after January 31, 1975 yield the following costs in millions of dollars assuming the loans are to be sold at the end of FY-76.

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 NINTH LEGISLATURE - FIRST SESSION

5 Requesting a competitive lease sale of  
6 tracts in the Beaufort Island region.

7 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

8 WHEREAS various alternatives have been proposed to provide adequate  
9 state revenues during the period before the operation of the trans-Alaska  
10 pipeline; and

11 WHEREAS the most advantageous of these alternatives is the competitive  
12 auction of leasable tracts in the Beaufort Island region, which would be an  
13 extension of the Prudhoe Bay field; this alternative being most desirable for  
14 the following reasons, among others:

15 (1) the leasable tracts are "highly attractive" to industry, and  
16 the state can expect a very substantial bonus income;

17 (2) the legislature has recorded testimony to the effect that a  
18 more favorable environment for leasing cannot be expected;

19 (3) production from leasable tracts would permit the trans-Alaska  
20 pipeline to operate at capacity, thus increasing the value of oil at the  
21 wellhead, wellhead value being the basis for computing state royalty income,  
22 production tax receipts and certain payments to be made into the Alaska  
23 Native fund;

24 (4) the leasable tracts are so located as to allow their develop-  
25 ment without new transportation infrastructure construction since these  
26 tracts can be serviced by the trans-Alaska pipeline and port facilities at  
27 Valdez;

28 (5) development of new leases in the Beaufort Islands would have  
29 marginal adverse environmental effect because of the shallow waters involved

1 inward from the Barrier Islands, and because existing airfields and camps now  
2 at Prudhoe Bay could service such an extension of the Prudhoe field;

3 BE IT RESOLVED by the Alaska State Legislature that the Governor is  
4 respectfully requested, subject to a satisfactory environmental assessment,  
5 to conduct a competitive lease sale of tracts in the Beaufort Islands area  
6 in the autumn of 1975, except that before holding the lease sale he shall  
7 establish minimum bids for each particular tract that will be acceptable to  
8 the state and protect the public interest.

24 (4) the leasable tracts are so located as to allow their develop-  
25 ment without new transportation infrastructure construction since these  
26 tracts can be serviced by the trans-Alaska pipeline and port facilities at  
27 Valdez;

28 (5) development of new leases in the Beaufort Islands would have  
29 marginal adverse environmental effect because of the shallow waters involved

1 inward from the Barrier Islands, and because existing airfields and camps now  
2 at Prudhoe Bay could service such an extension of the Prudhoe field;

3 BE IT RESOLVED by the Alaska State Legislature that the Governor is  
4 respectfully requested, subject to a satisfactory environmental assessment,  
5 to conduct a competitive lease sale of tracts in the Beaufort Islands area  
6 in the autumn of 1975, except that before holding the lease sale he shall  
7 establish minimum bids for each particular tract that will be acceptable to  
8 the state and protect the public interest.

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 NINTH LEGISLATURE - FIRST SESSION

5 Requesting a competitive lease sale of  
6 tracts in the Beaufort Island region.

7 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

8 WHEREAS various alternatives have been proposed to provide adequate  
9 state revenues during the period before the operation of the trans-Alaska  
10 pipeline; and

11 WHEREAS the most advantageous of these alternatives is the competitive  
12 auction of leasable tracts in the Beaufort Island region, which would be an  
13 extension of the Prudhoe Bay field; this alternative being most desirable for  
14 the following reasons, among others:

15 (1) the leasable tracts are "highly attractive" to industry, and  
16 the state can expect a very substantial bonus income;

17 (2) the legislature has recorded testimony to the effect that a  
18 more favorable environment for leasing cannot be expected;

19 (3) production from leasable tracts would permit the trans-Alaska  
20 pipeline to operate at capacity, thus increasing the value of oil at the  
21 wellhead, wellhead value being the basis for computing state royalty income,  
22 production tax receipts and certain payments to be made into the Alaska  
23 Native fund;

24 (4) the leasable tracts are so located as to allow their develop-  
25 ment without new transportation infrastructure construction since these  
26 tracts can be serviced by the trans-Alaska pipeline and port facilities at
