FROM: Kerry D. Romesburg, Executive Director
Alaska Commission on Postsecondary Education

DATE: March 23, 1978

The costs of attending an institution of higher education have continued to escalate over the past few years. From September, 1976 to September, 1977 the cost of tuition and fees for an undergraduate rose 5.4 per cent according to a recently-released nationwide survey. This places the average nonresident undergraduate tuition at \$1,519. Room and board places the average expense at well over \$3,000 per year.

The Alaska Student Loan Program has reflected these increasing costs in that the percentage of students receiving the maximum loan of \$2,500, for undergraduate, has increased steadily, until last year over 49 per cent of the loans were for \$2,500. It is estimated that nearly all of the loan requests could be met with loans of \$3,500 and most with loans of \$3,000.

The graduate-level loans have not had such an increased demand placed on the maximum loan limit, probably due to the availability of other funds and graduate financial assistance of one type or another.

Therefore, the Commission on Postsecondary Education supports and encourages the passage of SB 453 which raises the undergraduate loan limit to \$3,000.

III. ANALYSIS (See Fiscal Note Preparation Instruction, Section III)

Actual federal funding by ACTION through 7/12/76 of FY77 was 90% with remaining 5/12/76 at 52% which continues through FY78 and FY79. Prospects are good in the fourth and consecutive years that ACTION will continue to aid in funding as it does with ACTION's Retired Senior Volunteer Program. Positions will continue with two full-time as providing technical assistance statewide. Presently, six volunteers assist the office with clerical, administrative, information and referral, and volunteer recruitment which is the equivalent of at least one full time position valued at approximately \$20,000. In time, staff and volunteers will recruit and refer volunteers and assist volunteer program which will result in at least \$300,000 contributed to the State in skills and labor.

III. ANALYSIS (See Fiscal Note Population Instruction, Section III)

Volunteers have been serving at Alaska Psychiatric Institute and in Corrections' Partners in Anchorage for several years and as of this date there have been no claims by volunteers for either Workmen's Compensation or for personal liability. There have been no claims against volunteers by clients of API or Corrections. In a memorandum from John George, Risk Management, March 26, 1976 recognizing the coverage provided by the State of Alaska he states:

"Since our insurance rates are based on loss history rather than number of employees or specific operations, we have obtained this volunteer coverage without additional charge."
 (See memorandum attached)

He explained later, March 10, 1977 by phone that the State provided its own workmen's compensation program and was its own liability insurer up to \$500,000 at that time and going to \$1,000,000 in FY78. Therefore, there are no direct costs for insuring volunteers.

Volunteers have been serving at Alaska Psychiatric Institute and in Corrections' Partners in Anchorage for several years and as of this date there have been no claims by volunteers for either Workman's Compensation or for personal liability. Actual federal funding by ACTION through 7/12ths of FY77 was 80% with remaining 5/12ths at 30% which continues through FY78 and FY79. Prospects are good in the fourth and consecutive years that ACTION will continue to aid in funding as it does with ACTION's Retired Senior Volunteer Program. Positions: Will continue with two full-time is providing technical assistance statewide. Presently, six volunteers assist the office with clerical, administrative, information and referral, and volunteer recruitment which is the equivalent of at least one full time position valued at approximately \$20,000. In turn, staff and volunteers will recruit and refer volunteers and assist volunteer programs which will result in at least \$100,000 contributed to the State in skills and labor.

February 1, 1978

The Honorable John L. Rader
President of the Senate
Alaska State Legislature
Juneau, Alaska 99811

Dear Mr. President:

Under authority of art. III, sec. 18, of the Alaska Constitution, and in accordance with AS 24.30.060(b) and the Uniform Rules of the Alaska State Legislature, I am transmitting a bill relating to volunteer service in state and municipal governments. The bill offers a timely step forward in bringing government and the governed closer together and in providing an effective means of broadening popular participation government, while furnishing free services to the government. The net result should be to the entire state's advantage.

Legally, it is altogether possible for the state and municipal governments to use volunteers right now. But absent a governing statute to set forth rights and duties and other legal relationships, their use creates potentially enormous legal problems. Hence, the need for the proposed new law. Briefly, it provides as follows:

All state agencies and all units of local government are authorized to use volunteers.

Volunteers receive no salaries but may receive reimbursement (or advances) for incidental expenses.

Volunteers are considered state or municipal employees only with respect to tort claims against the state (for volunteers with state agencies) or against a municipality (for those with local governments) and with respect to workmen's compensation.

No volunteers may be used to displace existing salaried employees or service contracts.

Additionally, the proposed bill amends AS 44 to establish by law an Office of Volunteer Services under the Lieutenant Governor and expressly vests in the Lieutenant

Governor the authority to coordinate, promote, and adopt regulations for a program of volunteer services.

It is my belief that volunteer services in state and local government is an idea whose time has come. Various programs for volunteer services conducted in recent years under federal auspices demonstrate both the feasibility and desirability of adapting the institution of volunteerism to state and local governments.

Sincerely,

S/SSH

MEMORANDUM

May 9, 1978

SUBJECT: Volunteer Services (CSSB 454)

TO: Senate State Affairs Committee
ATTN: Barney Eberhardt, A.A.

FROM: Kenneth E. Vassar
Legislative Counsel 

You have requested that I draft a committee substitute for Senate Bill 454 which will (1) provide that volunteers are state employees for the purposes of confidentiality statutes relating to state employees, and (2) provide a mechanism for the inclusion of volunteers under the Alaska Workmen's Compensation Act (AS 23.30.005 - 23.30.270). In connection with the latter, your instructions provided that I should contact Senator Huber for details.

You will note that the attached draft includes a new clause at the end of section 220(a) of the bill which provides that volunteers are state employees for the purposes of AS 39.51.-010. This, I believe, is the section you had in mind; and it basically prohibits misuse of confidential information by a person who is or has been an employee of the state.

In addition, a new section, which is incorporated as section 2, has been added to the bill. This section would amend the Alaska Workmen's Compensation Act by adding a new section which provides a method of determining a volunteer's average weekly wage for the purposes of that act. If a volunteer has income from outside employment or self-employment, that will be used in accordance with the normal procedure under the act to determine his average weekly wage. If a volunteer is unemployed or retired, his average weekly wage will be considered to be the greater of 75 percent of the Alaska average weekly wage or his average weekly wage for his last period of employment. The "75 percent" figure has been used only for discussion purposes and has no other particular significance.
