

LEG. FINANCE - BILLS 1977 - 1978 991

CSSB 562 am cont., thru SB 576 991

1 potential settlement and of critical environmental concern. This in-
2 ventory shall be kept current so as to reflect changes in conditions and
3 to identify new and emerging resource and other values.

4 (b) The commissioner's inventory shall include land and water
5 under interagency assignment of land management authority and land and
6 water proposed for such an assignment. That land and water must be
7 reviewed at regular intervals to analyze current and proposed uses as
8 these uses relate to alternative uses for all or part of the land and to
9 determine the uses which best provide for the public interest.

10 (c) As funds and manpower are made available, the commissioner
11 shall provide local and federal governments and major private landowners
12 with data from the inventory for the purpose of planning and managing
13 the uses of land in proximity to state land.

14 Sec. 38.04.065. LAND USE PLANNING AND CLASSIFICATION. (a) The
15 commissioner shall, with local governmental and public involvement, ^{AND}
16 develop, maintain and, when appropriate, revise land use plans which
17 provide, by regions or areas, for the use of the state-owned land.

18 (b) In the development and revision of land use plans, the commis-
19 sioner shall

20 (1) use and observe the principles of multiple use and sus-
21 tained yield; ^(CONSTITUTIONAL AMENDMENT)

22 (2) use a systematic interdisciplinary approach to achieve
23 integrated consideration of physical, economic, and social factors
24 affecting the region or area;

25 (3) give priority to planning and classification in areas of
26 potential settlement and critical environmental concern;

27 (4) rely, to the extent that it is available, on the inven-
28 tory of the state land, its resources, and other values;

29 (5) consider present and potential uses of state land;

1 (6) consider the supply, resources, and present and potential
2 use of land under other ownership within the area or region of concern;

3 (7) weigh long-term benefits to the public against short-term
4 benefits; ~~DELETE~~

5 (8) plan for compatible surface and mineral land use classi-
6 fications; and

7 (9) provide for meaningful participation in the planning
8 process by affected local governments, state and federal agencies,
9 adjacent landowners, and the general public.

10 (c) As a basis for more detailed land use planning and classifi-
11 cation, the commissioner shall develop regional land use plans for the
12 use of all state land. These regional plans shall identify and de-
13 lineate

14 (1) areas of settlement and settlement impact, where land must
15 be classified for various private uses and for public recreation, open
16 space, and other public uses desirable in and around settlement; and

17 (2) areas which must be retained in state ownership and
18 planned and classified for various uses and purposes in accordance with
19 sec. 15 of this chapter.

20 (d) Official regional or area plans and subsequent amendments
21 adopted by the commissioner after public and local governmental parti-
22 cipation shall be signed and dated by the commissioner. Land classifi-
23 cations shall be made in accordance with these official plans.

24 (e) Land shall be classified before being made available for pri-
25 vate use or included in the management systems described in sec. 70 of
26 this chapter. ~~delete~~

27 (F) Decisions about the location of easements and rights-of-way,
28 other than for minor access, shall be integrated with land use planning
29 and classification for the appropriate area or region.

HOLDSWORTH'S AMENDMENT

LISA'S
Middle NO. 4
ACHIEVEMENT
↓
AND COMPETITIVES

1 (g) Land use plans adopted by the commissioner under this section
2 shall be consistent with local governmental land use plans to the maxi-
3 mum extent he determines to be consistent with the state interests and
4 the purposes of this chapter.

5 Sec. 38.04.070. MANAGEMENT SYSTEMS. (a) State land classified
6 for uses and purposes involving retention in public ownership may be
7 included in the following management systems:

8 (1) State Public Reserve System: areas of public land to be
9 managed for a wide variety of compatible uses and purposes in accordance
10 with the principles of multiple use and sustained yield; land designated
11 to this system may include, but need not be limited to, state forest
12 reserves and state wildlife reserves as well as land classified for
13 public purposes within settlement impact areas;

14 (2) State Park System: areas with special recreational,
15 scenic, cultural, historical, wilderness, or similar values, to be
16 managed primarily for the public use and enjoyment of these values;

17 (3) State Trail System: a system of public historic or
18 recreational trails;

19 (4) Wild and Scenic River Systems: a system of rivers with
20 special natural, scenic, and recreational values designated by the state
21 to be managed as part of the national system of wild and scenic rivers
22 in accordance with the federal Wild and Scenic Rivers Act (82 Stat. 906;
23 16 U.S.C. 1271 et seq.);

24 (5) State Public Domain: land within areas designated on
25 regional plans as settlement and settlement impact which are not part of
26 the management systems listed in (1) - (4) of this subsection; through
27 classification, this land may be made available for private use, settle-
28 ment, and development as well as for public uses associated with settle-
29 ment and development.

1 (b) State land classified in accordance with sec. 65 of this
2 chapter may be included in the State Public Reserve ~~System~~ by procla-
3 mation of the governor. LANDS

4 (c) State land classified in accordance with sec. 65 of this
5 chapter may be included in the State Park System, State Trail System or
6 the Wild and Scenic River System by proclamation of the governor. ACT OF THE STATE LEGISLATURE
7 However, no state land, water, or combination of land and water may,
8 except by Act of the state legislature, be closed to multiple purpose
9 use if the area involved contains more than 640 acres.

10 ARTICLE 4. GENERAL PROVISIONS.

11 Sec. 38.04.900. REGULATIONS. The commissioner may adopt under the
12 Administrative Procedure Act (AS 44.62) regulations he believes are
13 necessary to carry out the purposes of this chapter. Within 120 days
14 after the effective date of this Act, the director shall submit to the
15 commissioner draft regulations implementing this chapter and revising
16 regulations in effect on the effective date of this Act pertaining to
17 planning, classification, management, and disposal of the state's sur-
18 face estate in land. New and revised regulations shall be integrated in
19 a single comprehensive draft compatible with the structure of the Alaska
20 Administrative Code. In preparing this draft, the director shall seek
21 to simplify and clarify regulations governing land planning, classifi-
22 cation, management, and disposal. LISA'S NO. 5 (as amended)

23 Sec. 38.04.910. DEFINITIONS. In this chapter, unless the context
24 otherwise requires, LISA'S NO. 6

- 25 (1) "commissioner" means the commissioner of the Department
26 of Natural Resources;
27 (2) "director" means the director of the division of lands of
28 the Department of Natural Resources;
29 (3) "fair market value" means the price at which a willing

1 seller and a willing buyer will trade;

2 (4) "multiple use" means the management of state land and its
3 various resource values so that it is used in the combination that will
4 best meet the present and future needs of the people of Alaska, making
5 the most judicious use of the land for some or all of these resources or
6 related services over areas large enough to provide sufficient latitude
7 for periodic adjustments in use to conform to changing needs and condi-
8 tions; it includes

9 (A) the use of some land for less than all of the re-
10 sources, and

11 (B) a combination of balanced and diverse resource uses
12 that takes into account the short-term and long-term needs of
13 present and future generations for renewable and nonrenewable
14 resources, including, but not limited to, recreation, range, tim-
15 ber, minerals, watershed, wildlife and fish, and natural scenic,
16 scientific, and historic values;

17 (5) "official cadastral survey" means a United States public
18 land survey or a survey executed under survey instructions issued by the
19 division for the purpose of preparing a cadastral survey plat, and
20 approved and accepted by the division for the state's official records;

21 (6) "official control survey" means a position marked on the
22 ground by triangulation or traverse stations established in conformity
23 with standards adopted by United States Coastal and Geodetic Survey for
24 first, second and third order work, whose geodetic positions have been
25 rigidly adjusted on the North American datum of 1927 and approved by the
26 division;

27 (7) "short-term lease" means a lease for a term of five years
28 or less;

29 (8) "state park" means an area of state land designated by

(Delete)

LAW

~~proclamation of the governor or by statute~~ to be managed for public use and enjoyment of recreational, scenic, cultural, historical, wilderness, and similar values, including but not limited to areas designated under

(A) AS 41.20.050 - 41.20.060, roadside rests and recreational beaches;

(B) AS 41.20.130 - 41.20.160, 41.20.330 - 41.20.345, ch. 61 SLA 1966, and ch. 26 SLA 1967, state recreation areas;

(C) AS 41.20.170 - 41.20.320, state parks; and

(D) AS 41.35.030, state monuments and historic sites;

(9) "state trail" means an area designated by proclamation of the governor or by statute to be managed as a public historic or recreational trail including but not limited to

(A) trails designated under AS 41.20.070 - 41.20.120, wilderness trails and campsites; and

(B) trails and footpaths designated under AS 41.20.355 - 41.20.375;

(10) "state wild and scenic river" means any free-flowing river or stream so designated by the state in accordance with the criteria set out in the Federal Wild and Scenic Rivers Act (82 Stat. 906; 16 U.S.C, 1271-1287);

(11) "sustained yield" means the achievement and maintenance in perpetuity of a high level annual or regular periodic output of the various renewable resources of the state lands consistent with multiple use.

* Sec. 3. AS 38.05.300 is repealed.

delete

* Sec. 4. This Act takes effect immediately in accordance with AS 01.10.070(c). *3*

WOOD - Tikahik

1 For an Act entitled: "An Act creating the Wood-Tikchik State Park."

2 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

3 * Section 1. AS 41.20 is amended by adding new sections to read:

4 ARTICLE 12: WOOD-TIKCHIK STATE PARK

5 Sec. 41.20.410 DECLARATION OF PURPOSES. The purpose of Sections
6 410-430 of this chapter is to establish the state owned land and
7 water areas described in Sec. 415 of this chapter as the Wood-
8 Tikchik State Park. The primary purposes of creating the state
9 park are to protect the area's fish and wildlife breeding and
10 support systems and to preserve the continued use of the area for
11 subsistence and recreational activities. Secs. 410-430 of this
12 chapter are intended to close the described lands and waters to
13 multiple purposes use in conformity with AS 28.05.300 and to
14 dedicate them as a special purpose site in accordance with art.
15 VII, sec. 7 of the Constitution of the State of Alaska.

16 Sec. 41.20.415 DESIGNATED STATE LAND AND WATER. (a) The
17 state owned or acquired land and water lying within the following
18 parcel, containing approximately 1,428,320 acres designated as
19 the Wood-Tikchik State Park: beginning at the S.E. corner of
20 Township 7 South, Range 54 West, Seward Meridian, and said . . .
21 (continue description)

22 (b) All or part of the state owned or acquired land and water
23 with-in the following adjacent parcel, containing approximately
24 126,720 acres, may be added to the Wood-Tikchik State Park by
25 proclamation of the governor beginning at the S.E. corner of T7S,
26 R4W, S.M; said point being . . . (continue description)

27 (c) Land lying within the parcels described in (a) or (b) of
28 this section, upon which there are valid entries, or which is
29 withdrawn for or selected by Native village or regional corporations

1 under Secs. 11, 12, and 14 of the Alaska Native Claims Settlement
2 Act (P.L. 92-203 85 Stat. 688; 43 U.S.C. 1601 Et. seq.), is
3 excepted from (a) and (b) of this section; however, if any land
4 excepted under this subsection is subsequently relinquished to
5 the state, it shall be included as part of Wood-Tikchik State
6 Park.

7 Sec. 41.20.420 DESIGNATION OF MANAGEMENT RESPONSIBILITY AND
8 CRITERIA.

9 (a) The lands and waters described in Sec. 415 of this chapter
10 are assigned to the Department of Natural Resources for control
11 maintenance and development consistent with the purposes and pro-
12 visions of this chapter. The Department of Fish and Game is respon-
13 sible for the management of fish and game resources in the Wood-
14 Tikchik State Park, consistent with the purposes and provisions of
15 this chapter.

16 (b) A seven-member Wood-Tikchik State Park Management Council
17 is created and shall be appointed by the governor. Management Council
18 members may receive the same per diem and travel expenses subject to
19 appropriations authorized for members of state boards. The governor
20 shall appoint one member of the council from three nominations sub-
21 mitted to him by each of the following:

- 22 (1) the village council of Kotiganeh
- 23 (2) the village council of New Stuyahok
- 24 (3) the village council of Aleknagik
- 25 (4) the city council of Dillingham
- 26 (5) the Bristol Bay Native Association, Inc.
- 27 (6) the commissioner of Natural Resources
- 28 (7) the commissioner of Fish and Game

29 (c) The Wood-Tikchik State Park Management Council shall

1 develop a management plan for the park with the advice and assistance
2 of the Department of Natural Resources which shall be presented at a
3 public meeting prior to approval and implementation.

4 (d) the Department of Natural Resources shall consult with the
5 Department of Fish and Game and the Management Council prior to
6 adoption of regulations governing the public use of the park. The
7 Department of Fish and Game shall consult with the Department of
8 Natural Resources and the Management Council prior to adoption of
9 regulations governing fish and wildlife management in the park. No
10 regulations shall be adopted by either department without prior
11 review at public hearings.

12 (e) The fish and wildlife habitat breeding areas in the Wood-
13 Tikchik State Park shall be managed to sustain the fish and wildlife
14 resources of the park in perpetuity. (No use or development may be
15 permitted within the park which is not in accord with secs. 410-430
16 of this chapter, the management plan, and the regulations governing
17 the park; or which will adversely affect the fish and wildlife
18 habitat and breeding area, or the operation of fish and wildlife
19 management programs.)

20 Sec. 41.20.430. INCOMPATIBLE USES. (a) The land and water areas
21 described in Sec. 415 of this chapter are not open to mineral entry
22 under the provisions of AS 38.05.205 and 38.05.245.

23 (b) The regulations shall recognize that the current practice
24 of traditional subsistence and recreation activities includes
25 the use of ~~small outboard motors and snow machines.~~
portable generators

26 (c) Development and operation of a hydro-electric site at Lake
27 Elva is not considered an incompatible use;

28 (d) Development and operation of campsites on or adjacent to
29 major spawning and breeding areas are incompatible uses unless it can

be shown by a preponderance of evidence that the fishery and wildlife habitat and breeding areas will not be significantly adversely affected by said development and operation.

1 Tikchik State Park shall be managed to sustain the fish and wildlife
2 resources of the park in perpetuity. (No use or development, including
3 recreational, may be permitted within the park which is not in accord
4 with secs. 460 - 490 of this chapter, the management plan, and the
5 regulations governing the park, or which will adversely affect the fish
6 and wildlife habitat and breeding areas, the operation of fish and
7 wildlife management programs, or traditional subsistence uses of fish,
8 wildlife and flora.)

9 Sec. 41.20.490. INCOMPATIBLE USES. (a) The land and water areas
10 described in sec. 470 of this chapter are not open to mineral entry
11 under the provisions of AS 38.05.205 and 38.05.245.

12 (b) The regulations adopted under sec. 480(d) of this chapter
13 shall guarantee the continuation of traditional subsistence use of the
14 area for the harvesting of fish, game, fur bearing animals, and plant
15 life. These regulations shall recognize that the current practice of
16 traditional subsistence activities includes the use of small outboard
17 motors and snow machines.

18 Insert (c)

19 (d) (g) Development and operation of campsites on or adjacent to major
20 spawning and breeding areas are incompatible uses unless it can be shown
21 by a preponderance of evidence that the fishery and wildlife habitat and
22 breeding areas will not be significantly adversely affected by the
23 development and operation.

24 * Sec. 4. This Act takes effect immediately in accordance with AS 01.10.
25 070(c).

26 (c) Development and operation of a hydro-electric site at Lake
27 Elva is not considered an incompatible use.
28
29

1 tenance and development consistent with the purposes and provisions of
2 this chapter. The Department of Fish and Game is responsible for the
3 management of fish and game resources in the Wood-Tikehik State Park,
4 consistent with the purposes and provisions of this chapter.

5 (b) A seven-member Wood-Tikehik State Park Management Council is
6 created and shall be appointed by the governor. Management council
7 members may, subject to appropriations, receive the same per diem and
8 travel expenses authorized for members of state boards. The governor
9 shall appoint one member of the council from three nominations submitted
10 to him by each of the following:

- 11 (1) the village council of Koliganek;
- 12 (2) the village council of New Stuyahok;
- 13 (3) the village council of Aleknagik;
- 14 (4) the city council of Dillingham;
- 15 (5) the Bristol Bay Native Association, Inc.;
- 16 (6) the commissioner of natural resources;
- 17 (7) the commissioner of fish and game;

18 (c) The Wood-Tikehik State Park Management Council shall, with the
19 advice and assistance of the Department of Natural Resources, develop a
20 management plan for the park which shall be presented at public meeting
21 before approval and implementation.

22 (d) The Department of Natural Resources shall consult with the
23 Department of Fish and Game and the management council before adoption
24 of regulations governing the public use of the park. The Department of
25 Fish and Game shall consult with the Department of Natural Resources and
26 the management council before adoption of regulations governing fish and
27 wildlife management in the park. No regulations may be adopted by
28 either department without prior review at public hearings.

29 (e) The fish and wildlife habitat breeding areas in the Wood-

MEMORANDUM

TO: [

Russ Cahill, Director
Division of Parks

DATE: February 9, 1977

FROM:

Peter B. Froehlich
Assistant Attorney General.

PBF
SUBJECT: Wood-Tikchik Park
Alternative bill

I have reviewed the alternative bill to establish the Wood-Tikchik Park; and have rewritten it in attempt to correct some of its language and form, while preserving its substance and protecting the concerns expressed by its drafters. The underlined language in the attached bill draft has been added to and the [BRACKETED CAPITALIZED LANGUAGE] has been deleted from the alternative bill. My comments and reasons for changes are listed below by number.

- #1. If priorities are to be mentioned specifically in this section, it should be at the end of this sentence, not the beginning. (i.e., add "and to establish priorities for the use of the Wilderness Park.") Priorities are covered adequately by the "primary purpose" and "is also created to" language.
- #2. For obvious practical reasons, the park should only encompass state owned lands.
- #3. This language is unnecessary and confusing. AS 41.20 provides authority for establishment of wilderness Parks (AS 41.20-.047(4)) but not "habitat preserves", which may be confused with critical habitat areas or Game Refuges or Sanctuaries under AS 16.20.
- #4. Essentially, my change is a clean-up and condensation of the alternative language. The second sentence omitted is unnecessary here as it is included in §420.
- #5. The change is intended to make preservation of recreational and scenic resources subordinate to the primary purposes of the act without actually labeling it "secondary". Again, the second sentence omitted is unnecessary as it is included in §420.
- #6. See #2. Also some clean-up changes made.
- #7. These changes merely reflect description technique.
- #8. These changes merely reflect description technique.
- #9. The order of the subsections of §420 has been entirely rearranged in an attempt to achieve a more logical sequential definition of management responsibility and criteria. The section is put in this new order, matching the alternative subsections with their replacements where possible.

Russ Cahill, Director
Division of Parks

February 9, 1977
Page 2

#10. This subsection combines subsections (7) and (6) of the alternative bill, and qualifies the powers and duties of both ADF & G and ADNR by making them subject to the purposes and provisions of the bill.

#11. This is subsection (8) of the alternative bill modified to include a council member from Dillingham, ADF & G and ADNR and only one member from Aleknik, and to provide that the Governor appoint the members to avoid any problems of improper delegation of executive power to village councils.

#12. This is subsection (c) from the bill introduced modified as suggested by Division of Parks to require the council to prepare the plan with the department's help and public review. No plan was mentioned in the alternative bill.

#13. This is the last part of subsection (a) plus subsection (d) of the bill introduced with the addition of the requirement of public meetings. It is similar to subsection (11) in the alternative bill with the addition of ADF & G regulations. Perhaps the meetings should be required to be in the vicinity of the park and their number specified. The council cannot properly be given veto power over regulations.

#14. This replaces subsections (5) and (10) of the alternative bill which goes too far in giving veto power to the council over any proposed development. Rather, any development must be in accord with the plan the council prepared and with the regulations on which the council was consulted, both of which were reviewed at public meetings. This subsection also combines subsections (1-5) of the alternative bill, and subsection (e) of the bill introduced.

#15. Probably not necessary since park is closed to multiple use, but no problem.

#16. Subsection 426(d) already requires regulations.

#17. It is hard to conceive of any project having no effect whatsoever on fish and wildlife habitat and breeding areas.

I hope this is helpful. Please call if you want to discuss any part of this memo or the draft bill. I have also enclosed the draft with comments which you gave me although I accidentally marked (marked?) up the last part.

Delete Sec. 3, Renumber Sec. 4 to 3.

Attached is a copy of AS 38.05.300 which satisfactorily provides the necessary classification authority.

AS 38.05.185 protects against closing areas over 640 acres in size to mining without legislative approval.

Sec. 38.05.185. Generally. (a) The acquisition and continuance of rights in and to deposits on state lands of minerals which on January 3, 1959, were subject to location under the mining laws of the United States shall be governed by §§ 185 — 280 of this chapter. Nothing in §§ 185 — 280 of this chapter affects the law pertaining to the acquisition of rights to mineral deposits owned by any other person or government. The director, with the approval of the commissioner, shall determine those lands from which mineral deposits may be mined only under lease, and, subject to the limitations of § 300 of this chapter, those lands which shall be closed to mining.

(b) The failure on the part of a mining lessee or a locator to comply strictly with §§ 185 — 280 of this chapter and regulations adopted under it does not invalidate his rights if it appears to the satisfaction of the commissioner that the locator complied as nearly as possible under the circumstances of the case, and that no conflicting rights are asserted by any other person. Unless otherwise provided, the usages and interpretations applicable to the mining laws of the United States as supplemented by state law apply to §§ 185 — 280 of this chapter. (§ 1 art IX ch 169 SLA 1959; am § 19 ch 61 SLA 1960; am § 1 ch 123 SLA 1961)

323. Tidelands seaward of public recreational sites	348. Grants of land after natural disaster
	349. Disposition of state land for flood control projects

Sec. 38.05.300. Classification of lands. The director shall make a preliminary classification for surface use of all lands in areas where he considers it necessary and proper for future development. The classification, together with a land use plan, shall be transmitted to the commissioner for his approval, modification, or rejection. This section does not prevent reclassification of lands where the public interest warrants reclassification, nor does it preclude multiple purpose use of lands whenever different uses are compatible. No state land, water, or land and water area shall, except by act of the state legislature, be closed to multiple purpose use, if the area involved contains more than 640 acres. LABOR & MANAGEMENT COMMITTEE

Senate

May 25, 1978

Commissioner Bob LeResche
Department of Natural Resources
Pouch M
Juneau, Alaska 99811

Dear Commissioner LeResche:

We are currently reviewing the fiscal impact of the Alaska Land Policy Act (HB 904 and SB 562). In order to more precisely estimate the costs of this act, we have formulated certain budgeting assumptions to be utilized in developing a revised fiscal note. It is hoped that these assumptions will clarify the objectives of the legislation and the accomplishments expected from your department.

We would appreciate receiving the revised fiscal note by June 2, 1978.

Sincerely,

Judy Crondahl
Administrative Assistant

GU:dh
cc: Ted Smith, Director
Division of Lands and
Water Management

Budgeting Assumptions For Building Fiscal Note
HB 904 and SB 562

1. Costs should be projected based on the minimum mandates of the law, which are:

<u>Section of CSSB 562 am</u>	<u>Brief Description</u>
38.04.020	During FY 79, 50,000 acres must be disposed.
38.04.025	Assess the supply and demand for state land.
38.04.045	Survey land prior to disposal.
38.04.050-.055	Reserve easements for access and utilities.
38.04.060-.065	Prepare and maintain an inventory of state land.
38.04.065	Prepare and revise land use plans at the regional and local levels.
38.04.900	Rewrite existing regulations pertaining to planning, classification, management and disposal within 120 days.

2. The fiscal note should be based upon the following assumptions:
- A. The department will dispose of 50,000 acres (in addition to the Delta Barley Sale) in FY 1979.
 - B. That land which is to be disposed shall consist of 25,000 acres of large tracts of 40 acres or greater and 25,000 acres of tracts less than 40 acres. The small tracts shall consist of predominantly one to five acres.
 - C. In determining the costs of the disposals, it is to be assumed that lands will be disposed in the following order:
 - (1) Planned or anticipated disposal (other than the Delta Barley Sale) occurring in FY 79 are to be utilized first.
 - (2) Additional acres required to meet the 50,000 acre mandate shall come first from land already surveyed and available for disposal. Only the remaining acres required shall come from unsurveyed land.

(3) The unsurveyed large-tract land necessary to fulfill the mandate of these bills shall be funded from the 100,000 acres of large tracts planned for survey and disposal in the Department of Natural Resources FY 79 capital budget.

(4) The unsurveyed small-tract land required shall be funded, to the extent possible, from the Department of Natural Resources FY 79 capital budget.

D. The department shall assume that the assessment of the supply and demand of state land as specified in Section 38.04.025 shall be done only for the area within the vicinity of the land disposal. The section shall not be interpreted to require a statewide assessment of the supply and demand for land.

E. The department has an existing responsibility of providing for easements on state land. The fiscal note, therefore, should only reflect those costs arising from the increased workload attributable to HB 904/SB 562.

F. Section 38.04.060 requires the commissioner to provide local governments and major private landowners with data from the inventory for the purpose of planning and managing the uses of land. The department shall budget for a minimum cost associated with this function exploring the possibility of charging for direct cost to the users of such services.

G. Please coordinate between the various sections of the division affected by the bill to insure that funding requests are not duplicated. This is especially important in the areas of planning, cartography, and computer services.

H. Please consider the impacts of the operating budget, the HB 704 (Ch. 37 SLA 1978), the capital budget and the Alaska Land Policy Act in preparing your fiscal note. Also, please take extra caution to eliminate any duplications in funding between these appropriations.

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

Detailed analysis and breakdown not yet completed. Will be completed and submitted on April 3, 1978. (See attached sheet for general breakdown)

N.B.

This fiscal note must be read in conjunction with the fiscal note for HB 905 (Land Disposal Act) since \$4,579,631 in costs are identical in both bills (i.e. each bill mandates disposal of the same 50,000 acres). The additional cost of this bill, if HB 905 passes, is only \$428,233.

Present municipal subdivision laws generally require actual construction of road access before sale of parcels under 40 acres in size. Unless the State is released from such requirements, the additional fiscal impact could be quite severe.

Preliminary

Estimated State Implementation Costs

Alaska Land Policy Act -- HB904, S3562

This preliminary statement analyzes the costs of implementing (1) the 50,000 acre minimum per year disposal directive and (2) the administration of the land inventory, assessment, coordination, etc. efforts. This is basically a first year cost analysis because Section 38.04.020 of the bill provides for an annual program as part of the administration's budget (at the 50,000 acre minimum level an estimated 5 percent inflationary factor could be added for each succeeding year).

1. 50,000 acre disposal TOTAL COST = \$4,579,631/TOTAL PERSONNEL = 59 full time

The following acreages from the state's three principal disposal programs are assumed to comprise the first year's offerings (costs do not include provision of roads or services at sites):

<u>Program</u>	<u>No. Sites</u>	<u>Acres/Site</u>	<u>Total Acres</u>
Homesite	1,000	5	5,000
Open-to-entry	1,000	5	5,000
Agriculture and general sales	500	20	10,000
	250	40	10,000
	50	160	8,000
	25	320	8,000
	7	640	4,480
TOTALS	<u>2,830 sites</u>		<u>50,480 acres</u>

- 4 -

The following activities are assumed for any disposal program: (1) site identification and evaluation, (2) public information and community coordination, (3) subdivision and layout, (4) survey and records, (5) appraisal, (6) disposal and accounting, (7) administration, and (8) follow-up monitoring.

A. Estimated costs for (1) site identification and evaluation, (2) public information and community coordination, and (3) subdivision layout: \$361,618/
9 full time.

AMENDMENTS

Section 33.04.020 -- Second sentence: Change fiscal year to calendar year.

Section 33.04.020 -- at end add: Where the State and a municipality have entered into an agreement for state management of municipal lands, any disposals made pursuant to such an agreement shall be included in this annual acreage requirement.

LAND POLICY BILL

Suggested Amendments

- A. Page 6, line 6, suggested substitution for section .040.

AVAILABILITY OF MENTAL HEALTH LAND, SCHOOL LAND, AND UNIVERSITY LAND. Under the purposes of this chapter, mental health land, school land, and university land may be made available for private use in accordance with statutes governing such lands. In their capacity as trustee for such lands, the Mental Health Board, the Board of Education, and the Board of Regents of the University of Alaska shall, within 120 days from the date of this act, define goals and objectives for the management and disposition of lands under their trusteeship. In accordance with these goals and objectives and in consultation with the municipalities in which such lands are located, the director shall prepare an annual program for sale or lease offerings of selected mental health lands, school lands, and university lands. This program shall accompany the annual land availability programs submitted to the Legislature in accordance with section .020 of this chapter.

- B. Page 7, line 11, substitute for last sentence.

The requirements of this section do not apply to land made available through a cabin permit system, material sales, or short-term leases; provided, however, that for short-term leases a municipality may require compliance with local subdivision ordinances.

- C. Page 9, line 27, added sentence to paragraph (e).

The classification process must include notice and review requirements of existing statutes.

- D. Page 10, line 5, added sentence to paragraph (g).

Where a local zoning ordinance or other land use regulation is in effect, the provisions of AS 35.30.020 and AS 35.30.030 shall apply.

TESTIMONY
REGARDING LAND POLICY BILL
PRESENTED BY
JOINT FEDERAL-STATE LAND USE PLANNING COMMISSION FOR ALASKA
APRIL, 1978

The Commission wants to speak in support of Senate Bill 562 establishing an Alaskan land policy. We have been studying State land policy for several years and participated with the Administration in preparing this bill. As we reviewed the existing statutes governing the State's public domain and studied the State's land programs as they have operated over the past 15 years, we found that Alaska has very little statutory guidance to govern the Administration's decisions about disposal or retention of State lands. The existing constitutional and statutory requirement that State lands be managed for "maximum use and benefit consistent with the public interest" gives us an excellent basic goal, but is not specific enough to guide the administrator who is deciding where and how much State lands to make available for private use. As evidence of this statutory lack, we have seen the State's land program shift from large tract disposal practices in the late 1960's and early 1970's to the minimal disposal of recent years.

Members of the Legislature have recognized this problem, and, last year, Senator Poland requested the Commission to study the subject and prepare recommendations to this Legislature. We presented initial recommendations to members of the Senate and House Resources Committees this

January. The land policy bill represents a refinement of those sections of the Commission's recommendations dealing with policy matters.

The land policy bill before you accomplishes these purposes through three articles:

(1) Article 1 covers policy for public and private use. Essentially, this section makes it clear that the State's overall land policy is to provide lands for both private and public use purposes and to allocate suitable lands for each purpose. Special emphasis is placed on maintaining a balance of public and private lands near communities so that natural areas are easily reached by all people, and not just those who can afford to travel long distances. Two parallel subsections set forth the public purpose in making lands available for private use and the public purpose in retaining State lands in public ownership for recreation, mining, resource development, and other purposes. The policy statement recognizes the essential role of local governments in the process of arriving at decisions about State lands.

(2) Article 2 provides guidelines to the Administration for making land available for private use. The first section on timing and amount is identical to the first section of the land credit bill which Governor Hammond introduced. This section mandates that the Administration make a quantity of State

lands available on an annual basis for private use purposes. A minimum of 50,000 acres is set for the first year, no more than 10% of which may be leased land. Thereafter, the amount is set annually by the Legislature. The basic orientation of this section is towards making land available for direct, individual use in locations and in parcel sizes that best meet differing needs in different areas as determined through an inventory process.

The bill sets forth a State policy for making land available at fair market value, particularly in close-in locations with high real estate values; but the criteria provide room for use of homesiting and open-to-entry in appropriate locations. To prevent misuse of leasing, as has occurred in past years, the bill lists the types of special circumstances where leasing would be an appropriate method of making land available. Provision is also made for recreation cabin permitting in isolated locations on State lands. A section on availability of trust lands is included, and standards for surveying and subdivision as well as for adequate access are set forth. On page 7 there is a strong provision requiring State subdivisions to conform with local platting authority.

- (3) Article 3 covers inventory planning and classification. This section draws from existing scattered and partial statutory direction for land inventory, planning and classification to

establish in one statute a clear, simple and unified program for analyzing the value and use potential of State lands. All lands must be inventoried and their appropriate use designated. As part of this process, the advise of local governments must be obtained.

The section establishes a new State management system for multiple use lands, called the "State Public Reserve System." There is also a new section on wild and scenic rivers giving the State the option of designated selected rivers in State ownership as part of the National Wild and Scenic Rivers System to be managed by the State in accordance with national guidelines. The Legislature retains its existing authority to approve any designation of more than 640 acres which would close the land to multiple use.

In summary, much of what is included in the land policy bill are generally accepted principles of good land management. The bill acknowledges the public desire to acquire State land for private use and mandates an active program in this direction. However, it does so in a responsible manner without sacrificing the many other valid uses of State land. We feel that adoption of this bill will clarify the State's position as a land manager, and will help in establishing this fact at a national level.

Municipality
of
Anchorage

POUCH 6 650
ANCHORAGE, ALASKA 99502
(907) 274-2525

GEORGE M. BIRLOTTA
MAYOR

OFFICE OF THE MAYOR

April 17, 1978

The Honorable Kay Pollard
Alaska State Senator
Pouch V
Juneau, Alaska 99811

Dear Senator Pollard:

Senate Bill No. 562 will come before the Natural Resources Committee on Monday, April 17, 1978. There are three sections of this Bill which may adversely affect the Municipality of Anchorage. We would like to share our concerns with you regarding these sections before the Bill is heard by your committee.

Proposed section 38.04.045 (b) deals with the survey and subdivision of State land to be conveyed to private ownership. This section mandates compliance with local planning and platting ordinances. However, this section exempts from these ordinances land made available through mineral sales or a cabin permit system.

We object to the exemption provision for two reasons. First, it would be detrimental to the Municipality's planning program because under it large segments of land within the Municipality would not be subject to our planning and platting ordinances. If certain segments of land are not subject to the Municipality's planning and platting ordinances, then the ordinances become ineffective because they are designed to regulate all the land within the Municipality.

Second, the exemption provision conflicts with the policy contained in A.S. 09.55.275 which requires that any agency of the State must comply with local platting regulations in the same manner as private land owners when the State seeks to acquire property. This policy logically applies to the converse, i.e. when the State seeks to dispose of property. Providing for a partial exemption when the State seeks to dispose of property appears to serve no purpose. For the foregoing reasons, we suggest that the exemption provision be deleted.

The Honorable Kay Pollard

April 17, 1976

Page 2

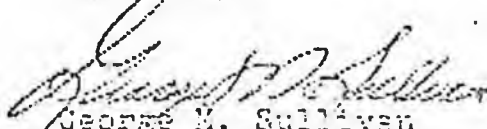

Proposed section 38.04.065 deals with State Land Use Planning and Classification. Subsection (g) requires that State land use plans be consistent with local plans only to the extent that the Commissioner determines the local plan to be consistent with State interests.

We object to this subsection because it seems to conflict with A.S. 35.10.020 entitled "Consultation with Municipal Planning and Zoning Commissions". This section requires the State to comply with all local planning and zoning ordinances in the same manner as private land owners unless a State agency can "clearly demonstrate an overriding State interest". When a State agency makes such a showing, a specific waiver must be granted by the Governor.

We suggest that subsection (g) be made consistent with the language in A.S. 35.10.020 by amending the latter to require State land use plans to be consistent with Municipal plans unless a gubernatorial waiver is granted upon a "clear showing of an overriding State interest".

Proposed Section 38.04.065 would involve the State in regional land use planning in areas which now have local planning. The Municipality of Anchorage has actively engaged in a land use planning program and intends to maintain this effort. Until the degree of State involvement in local land use management is clarified, we cannot support this proposed section.

Sincerely,

George M. Sullivan
Mayor

Michael J. Meenan

 Alaska State Senate

Representative Steve Cowper
 Pouch V
 Juneau, Alaska 99811 Mail Stop 3100

C.S.S.B. 562 "An act relating to Alaska land policy" should be rescinded by the Senate and stopped in the House. It is a deceptive measure which disenfranchises the people of Alaska from their State land. It is passed off as a conveyance of land into private hands but actually it is a massive lock up of state land patterned after the BLM Organic Act. It can be used to create an instant wilderness devoid of private human use.

The land is the foundation of our economy, our livelihoods, our liberty. Please read the following notes on CSSB 562.

Chapter 4 Title is deceptive because it addresses state land surface whereas the bill addresses both surface and sub-surface.

Section 38.04.065 has sections lifted verbatim from the BLM Organic Act which have already proved unworkable. This section effectively removes all the basic rights of citizens on the land and places the land in the hands of total bureaucratic control.

Subsection (e) can be used to prevent any private activity on the land for an indefinite period pending classification. This means hunting, fishing, guiding, mining, logging, every conceivable private use.

The entire section gives total discretion over our lives to the Commission.

What does subsection (b)(3) mean? In whose judgement are these decisions to be made?

Subsection (b)(8) can easily be used to close all state lands to mining and oil exploration and development.

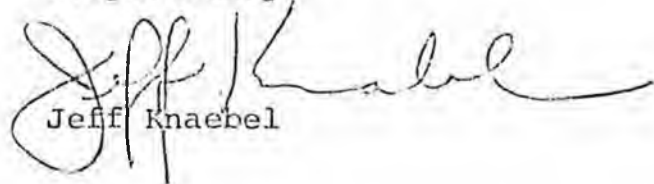

Section 38.04.070 creates new systems for reserves, parks, wild and scenic rivers. Do we not have enough of this from the Feds already?

This bill completes the process of economic suicide of Alaska's resource industries that was begun with 17d-2 and HR-39 (even potentially including tourism through application of Section 38.04.065 (e)). Yet it is being hailed as an aid to private ownership. It is a monstrous deception.

My outfit has hoped to employ over 100 Alaskans this year, which generates about 40 jobs with subcontractors. But if you people pass anything like CSSB 562 into law, the predictable consequence of the regulations which will be promulgated is that the resource industries will be drowned in bureaucracy and these potential jobs will be lost. The task of raising risk capital for exploration will become insurmountable.

I implore you not to disenfranchise us from our land. At the least, please give us a chance to testify at public hearings. Our livelihoods are at stake.

Respectfully,

Jeff Knaebel

Representative Steve Cowper, Chairman
 House Finance Committee
 Pouch V
 Juneau, Alaska 99811

Dear Steve:

The Greater Fairbanks Chamber of Commerce, by action of its Board of Director's on Monday, May 22, 1978 is opposed to the enactment of C.S.S.B. 562 "An act relating to Alaska land policy" and hereby requests your support in defeating the bill when it is considered by the House.

While we are in agreement with those proposals in the bill that would make 50,000 acres of land available for private ownership, we are greatly concerned by other sections of the bill which appear to have been taken verbatim from the BLM Organic Act and would in effect make it most difficult to achieve the orderly resource development essential to the economic well being of all Alaska.

On balance, it is our feeling that not only is this bill unnecessary at this time but that it poses a distinct treat to the beneficial use of Alaska lands by Alaskan citizens.

Again, we are opposed to the passage of C.S.S.B. 562 and ask your support in defeating the bill.

Building for Fairbanks' future,

Robert L. Hufman
President

May 22, 1978

The Board of Directors of the Greater Fairbanks Chamber of Commerce respectfully request your support and affirmative action with regard to the attached resolution.

Gateway to the Arctic

RESOLUTION

WHEREAS, this resolution is based on the state of Alaska's long standing understanding and appreciation of the important part mining, oil, agriculture, timbering, hunting, fishing, and guiding have contributed to the basic economy of the state of Alaska and the nation and to the standard of living of all the citizens of the U.S.

WHEREAS, it is the apparent intention of the Department of Interior to conduct a wilderness review program under Section 603 of BLM Organic Act that will effectively prohibit mining and oil exploration or development and will further interfere with or prohibit timbering, agriculture, and recreational operations

WHEREAS. this proposed wilderness policy as outlined depends to a great measure on the definition of what constitutes a "road" or "roadway" and because roads and roadways inside the state of Alaska are vital to the conduct of commerce, health, welfare, security and the pursuit of happiness of its citizens

WHEREAS, the proposed wilderness policy and review by the Department of Interior would change the advalorem tax structure of future possible patented lands thus reducing future property tax revenues for the state, thus increasing the existing individual tax burden and increasing the loss of personal income to the citizens of the state of Alaska by removing vast areas from any productive use

WHEREAS, the implementation of this policy would tend to encroach on states rights, reduce or seriously limit domestic exploration for and production of vitally needed minerals, oil, food and fibre and other raw materials, thus forcing increased dependence on unreliable and expensive foreign sources with the attendant problems of insecurity of supplies and added deficits in the balance of payments thus reducing the true value of U.S. currency and by so doing seriously harm all U.S. citizens

WHEREAS, implementation of section 603 may be used as a threat to force Alaskans to quit their resistance against HR-39 which is clearly not in the best interest of most Alaskans as expressed in citizen polls

WHEREAS, through a mountainous maze of bureaucracy and regulation, the federal government already maintains effective control over the means of production of U.S. industry, and extractive industries in particular

WHEREAS, the implementation of Section 603 together with RARE II and HR-39 effectively removes all federal lands in Alaska from any productive use to support the livelihoods of its citizens

WHEREAS, the jobs of Alaskanas involved in minerals exploration, timbering and construction are in immediate jeopardy because of procedures already commenced by BLM to deny permits

NOW THEREFORE, BE IT RESOLVED, that the Greater Fairbanks Chamber of Commerce hereby, desires to go on record as objecting to the proposed wilderness policy program and review and further desires to urge the administration, including the Departments of Interior and Agriculture, to consider the wishes of the citizens of this state and to solicit the Alaska State Legislature to pass on the need of future designated wilderness areas on the public lands within the state of Alaska

AND BE IT FURTHER RESOLVED that we urge the U.S. Congress to grant immediate legislative relief to Alaska from the implementation of Section 603 of the BLM Organic Act.

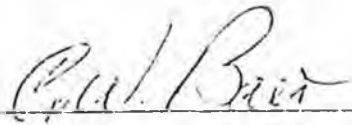

Dated May 22, 1978

Adult & Continuing Education

SUBJECT

Budget Justification for SB 567
Alaska Skill Center

The Skill Center has for many years operated on a very tight budget. The alternative budget attached would accomplish, if funded, three major objectives:

1. Provide adequate staff and funds to fully staff and equip our present ongoing operations.
2. Provide \$200,000 in a miscellaneous account to be used only for the implementation of new programs.
3. Provide \$600,000 in a miscellaneous account to be used to implement any new programs required to train Alaskans for the Gas Pipeline.

Details of changes to our original budget request:

Personnel \$20,000. To change the request for a Mechanical Aide and a Building Trades Aide to a Placement Officer and a Forestry Instructor.

Travel \$7,000. To provide travel funds for placement and recruitment activities.

Commodities \$40,000. To provide funds to start a technical library. No library facilities presently exist at the Skill Center.

Equipment \$215,900. Much of the Skill Center's equipment is old and outdated. It is important that we use late model equipment when training students as training them on outmoded equipment doesn't meet their future employers' needs. Attached is a listing of some of the major equipment needed. All prices are estimates and we would anticipate purchasing used late model equipment whenever possible. We are constantly trying to get donations of needed equipment from private industry. (See attached equipment list and narrative of private/state/federal cooperation.)

Grants (\$75,000 reduction from our original request.) Please see attached narrative for a detailed discussion of these funds.

Miscellaneous \$800,000. A portion of these funds (\$200,000) would be reserved for the implementation of new programs as the desires of the state's employers become known. In the past, we have relied upon obtaining CETA funds to start new programs and they are sometimes difficult or impossible to obtain.

The remaining \$600,000 would be used to implement any program required to provide trained Alaskans for the Gas Pipeline. Any such program would be developed in close cooperation with the Northwest Pipeline Company and we would anticipate some funding of the program to come from Northwest. These funds would only be released upon the okay of the Governor or some standing body of the legislature.

Fund Source

The funds identified as federal receipts, \$250,000, are not federal receipts. They are receipts from the State Department of Labor called training and building funds and should be shown as other funds. The Skill Center has used these funds for the past several years as recommended by Budget and Management.

Juneau, Alaska 99811

Dear Senator Sumner:

The attached information is in regards to SB567 where we asked for additional equipment monies in the amount of \$215,900. I thought more justification might be in order since this is a real necessary priority.

It is of importance that the Skill Center upgrades its training equipment to enable students to be trained on similar equipment used by Industry. Most of our present equipment which has been donated is old and outdated as it was manufactured in the 1940-50's.

The Industry has indicated that if I could obtain some front money such as we did on the oil rig with John Cassidy Companies, that they would be more willing to work with us on acquiring late model equipment. With the money requested the State would pay approximately 1/4 to 50% of value towards purchase of equipment and Industry would inkind the remainder.

This is a prime time for such as all equipment on the Alyeska Project is being disposed of and we have been in contact with Miller & Miller Auctioneers through John Cassidy Company in regards to acquiring Alyeska equipment.

Attached is correspondance to John Cassidy Company and Miller & Miller.

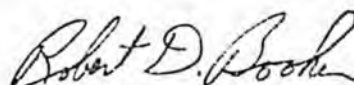

Senator Sumner

Dear Bill:

I'm sure you will remember several months ago giving us an appraisal on an Emsco drilling rig. I don't know if you were aware of it or not, but we had made a gift of this rig to the State of Alaska, Department of Education, Skill Center, at Seward.

Since that time they have put it in operation and have graduated a class, and we have received several letters of appreciation. I went to Juneau at the invitation of Alaska's Governor Hammond, where he accepted the rig, and he was very appreciative of our efforts. The State and the school were very cooperative in recognizing the charge-off value to us, and although final rulings will come upon the filing of our tax return, I feel we will receive a substantial tax benefit from this gift, which of course will be beneficial to us, but certainly it was a very satisfying experience in itself to us to be able to make this contribution to a good cause.

Enclosed is a copy of a letter I received from the school, which sets out additional requirements they have. I assured them that much of this equipment was probably on a consignment basis to you, and that you would be limited on what you might do for the school. But I do encourage you to look into the possibility of utilizing some of the equipment that needs extensive repairs, and possibly making a tax deductible gift to the school.

I also caution you that the contribution rules recently have been changed considerably and if it becomes practical to make some gifts to the school, you might want to get an opinion covering this gift first. Along this line, I could recommend Stroud and Smith, tax attorneys, in Dallas, as they have worked out the details for us hopefully to the point that we will be fully in compliance with the tax regulations covering same.

I would also encourage you to give me a call, if this has any interest at all, as there are some additional comments I could give you that might be beneficial to you.

Best regards,

John Cassidy, Jr.

John Cassidy Companies
5450 East 46th St Suite 200
Box 35667
Tulsa, Oklahoma 74135

Dear Mr. Cassidy:

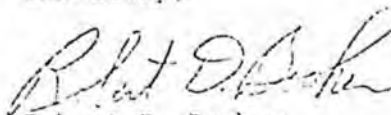

I would like to thank you again for the oil rig that you donated to the Alaska Skill Center to be used for training in our Oil Tech Program. We have already graduated thirty students and they are all now employed, some on platforms in Cook Inlet, others on the North Slope or in pump stations on the Alyeska Pipeline. Without your cooperation and assistance this program would have been impossible.

John, we have been operating heavy equipment, diesel, power generation, automotive, welding, carpentry, etc. programs continuously for approximately eight years. We also conducted many training programs for Alyeska during pipeline construction. At one time we had over 500 individuals working on the pipeline that acquired the training here at the Center. During this time we had developed a good rapport and reputation with Alyeska and they assisted the Center in acquiring six dump trucks and 2 dozers as a tax deductible donation to the Center for training purposes. This was donated during pipeline construction and we had discussions with Mr. Olver, Supervisor for Equipment and Facilities Sales; and Mr. Beebout, who was Sales Specialist for the Surplus Management Department, on acquiring additional equipment once the line was completed.

Recently, we were notified by Alyeska that they had contracted the dispersal of all equipment to Miller & Miller, Inc. and any further contacts should be directed to this Company, not Alyeska. I know Miller & Miller inspected and gave us the appraisal when we acquired the rig. Through your contacts would you possibly know who we might contact with Miller & Miller in regards to acquiring equipment.

Attached is the equipment list sent to Alyeska and other correspondence.
Any assistance towards this matter would be greatly appreciated.

Sincerely,

Robert D. Booker
Director

Aug 4, 1976

Larry Miller, Jr.
Manager
Surplus Management Department
P.O. Box 4-Z
Anchorage, Ak 99509

Dear Mr. Miller:

Some weeks ago Mr. Robert Booher from the Alaska Skill Center and I made a visit to your office. However, at that time you were on the road and we were unable to meet with you. Since then we have talked with Mr. Patterson of your office, and he recommended that we send a list of equipment that might be used in training programs throughout the State.

This office is responsible for all Adult and Continuing Education Programs for the State of Alaska (Department of Education, including the Skill Center), as well as for coordinating all other Adult Vocational Programs within the State. Because of this responsibility, we are very interested in what kind of equipment that might be available from Alyeska.

We are especially interested in the property that may be surplus from the construction of the Pipeline. The attached list refers to different kinds of equipment that we feel we would be able to put to immediate use in the various training programs throughout the State. If there is other equipment which we have not listed that you feel might be useful in training programs, we would appreciate being informed. If you have any questions or concerns about the attached list, please feel free to contact either Mr. Booher or me. I don't know for sure what your scheduling process will be in surplus the equipment; however, we would like to be considered along with others that will be requesting the same equipment.

Thank you very much for your cooperation in this matter.
We will look forward to hearing from you.

Sincerely,

Gerald Hiley, Coordinator
Adult and Continuing Education

Enclosure

August 27, 1976

Mr. Ge . i Hiley, Coordinator
Adult and Continuing Education
State of Alaska
Department of Education
Pouch F - State Office Bldg.
Juneau, Ak. 99811

Dear Mr. Hiley:

Thank you for sending the list of construction equipment that Alaska Skill Center is interested in acquiring. As discussed with you, we have had many requests for donations and we are very limited in the amount of donations we will be allowed to make. However, we will watch closely to see if there are pieces of equipment which are not marketable but which might be of use to you in your Skill Training Center. Additionally, we will put you on the Bid Invitation List for the types of equipment that you have listed in your letter so that you can, if you choose, submit bids to purchase these items when they are available.

Due to the continuing construction effort very little equipment has been declared surplus at this time. However, we are expecting the rush to start in the very near future. We will contact you when we have something that might be of interest to you.

Very truly yours,

R. C. Patterson

1815 S. Dragaw
Anchorage, Alaska 99504

Dear Mr. VanBargon:

Per our telephone conversation enclosed is the list of equipment that is needed by the Alaska Skill Center which would be utilized within our training programs.

The following is equipment which would be of highest priority:

1. Busses - 22 to 45 passenger
2. Pickhoe, rubber tires and bucket
3. Fork lift - 5 to 10 Ton - for outside use
4. Graders - sizes #12 or #14 or #112
5. Tractors - John Deere - 350 to 450, Cat D3 to D5 Small Cat
6. Lobot and trailer
7. Overhead crane - for our heavy equipment mechanical shop
8. Front-end loaders, rubber tire - size 922 - 950 - 956 - 988
9. Shop equipment and hand tools

The following equipment would be the next in priority:

1. Pick-up truck - 1/2 Ton to 3/4 Ton
2. Econoline type vans
3. Steam cleaner - size 75 to 150 P.S.I.
4. Dump trucks - size 6 to 12 year capacity (diesel engine)
5. Tire service trucks
6. Light tower and portable flood light generators
7. Electric generator sets - size D330 - D333 - D343 - D353 - D398

Any assistance in regards to our acquiring any of the equipment listed
would be greatly appreciated.

Sincerely yours,

Robert D. Becker

2 SENATE BILL NO. 567

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 TENTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act making a special appropriation to the Depart-
7 ment of Education for the fiscal year 1979 operating
8 expenses of the Alaska Skill Center at Seward; and
9 providing for an effective date."

10 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

11 * Section 1. The sum of \$3,832,600 is appropriated to the Department of
12 Education for the operating expenses of the Alaska Skill Center at Seward
13 during the fiscal year ending June 30, 1979. Sources for this appropriation,
14 and the respective amounts of each, are:

15	General fund	\$3,034,900
16	Program receipts	547,700
17	Federal receipts	250,000

18 * Sec. 2. This Act takes effect July 1, 1978.

5 A BILL

6 For an Act entitled: "An Act relating to the fisherman's fund."

7 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

8 * Section 1. AS 23.35.070 is amended to read:

9 Sec. 23.35.070. BENEFITS. A fisherman, upon becoming disabled,
10 is entitled to receive benefits as follows: Immediately after he
11 sustains an injury or disability arising out of an accident directly
12 connected with his operations as a fisherman, either ashore in the
13 state or in Alaska water [THE TERRITORIAL WATERS OF THE STATE], or
14 suffers an occupational disease, the fisherman is entitled to emergency
15 treatment, transportation to the nearest place where approved medical
16 facilities are available, medical care and hospitalization. As used
17 in this section, "Alaska water" means the inland and territorial water
18 of the state and the fishery conservation zone adjacent to the state
19 established by sec. 101 of the Fishery Conservation and Management Act
20 of 1976, P.L. 94-265 (16 U.S.C. 1801 et seq.).
