

LEG. FINANCE - BILLS 1979 - 1980 1013

HB 15 cont., thru HB 19

March 23, 1979

Representative Randy Phillips
Alaska State Legislature
Mail Station 3100, Pouch V
Juneau, Alaska 99801

Dear Representative Phillips:

It is my understanding that you introduced a bill in the house to correct the inequity of a number of Alaskans not receiving longevity bonuses due to having lived outside at sometime.

Those of us affected, will surely appreciate a bill being passed to enable us to participate in this program. Inflation really hits the retired individual who lives in Alaska.

To speak of my own case, I came to Anchorage in the summer of 1944; part of the time I worked for the Federal Government, the rest, owned and operated my own business. In 1955, due to illness and business problems of my family in California, I had to leave Alaska to assist my family. It was not my choice to be out of Alaska and I owned property here during all of the time I was outside. It was the summer of 1963 before I could again return home to Anchorage and I have lived here continuously since that time.

It seems to me that when you were here in early days and have spent most of your adult life here, that you should not be penalized for circumstances that really were not under your control. Meeting the original date of residency and having the proper number of years of residency should be the requirements.

It was mentioned that the bill under consideration would require us to spend more years to qualify than is required for those now receiving bonuses. It does not seem that such a penalty is really justifiable.

My thanks to you for introducing the bill and to it's supporters in the legislature.

Sincerely,

Margery McCormick

Dear Randy:

Thank you for providing a copy of H. B. 15 and your letter of February 9th.

I was sorry to see your H. B. 13 of the 10th Legislative Session go by the board. The concept was one of two recommendations that I made in 1974, when I administered the Longevity Bonus Program.

The figures used in the last session to estimate the cost of the change, created considerable doubt in my mind as to their accuracy and if used again this session should be scrutinized sharply.

Our first priority at this time is for the legislature to provide the avenues for a more realistic and efficient "in home care", also called Home Health-Home Support Program. Our suggestion is for the bill to provide for a budget transfer from the Health and Social Services 1980 Budget of \$5,000,000.00 from Medicaid-General Relief Medical to Home Health-Home Support. We recommend that the bill provide for local administration with state supervision or monitoring and that payments to relatives be included which would tend to hold families together. It is hoped that a savings in taxpayer funds can be realized by expansion of in home care.

Regarding H. B. 15, I have provided OPAG and the Anchorage Municipal Commission for Senior Citizens with copies of your letter and bill. I expect that both organizations will help to distribute the message.

Thank you again for your interest and concern.

Sincerely,

Rose Palmquist

Dear Sir: I was in Juneau last spring with a group of seniors from the Anchorage area.

Regretted having to leave without a chance to talk to you. I have your letter of May 9th, '77 and am pleased to know that you will continue to work for the enactment of HB #13. (Hope 13 isn't unlucky this year)

Thank you again for sponsoring HB #13 amendment. It is just the ticket for me & numerous other Alaskans.

Giving you a re-hash: I was born in Valdez in 1906 residing in Alaska (the possession, Territory & State) a 60 yrs.; but am unable to find a string of 25 consecut. yrs. in my record of residence. Under the existing law I must wait, at least, until 1983 to be eligible to qualify for the Longevity Bonus (if I'm still around then).

I have never been on relief and never wanted any charity but would gladly accept the AK. Longevity Bonus, as in my view it is not de-meaning charity, simply a High Cost of Living Bonus.

As you know the built-in inflation in our economy has been depressing the standard of living for those of us on fixed incomes. We seem to be getting a double dose

here in the 49th state: Current Bureau of Labor figures put our cost of living 64% higher than the National Average.

Myself and several other seniors, who I know, could survive a cost of living bonus. Without the Longevity Bonus if present trends continue, we may be forced to look for lower cost living elsewhere; although we would rather remain in Alaska our Home State.

The State Treasury coffers should fill with oil Royalty money as N. Slope production reaches its peak.

I hope all deserving Alaskans will share in this wealth as a bonus for developing this frontier into a state. These pioneers endured the disadvantages of frontier life including high cost of living and should be rewarded and at least partially reimbursed.

SUBJECT: Alaska Longevity Bonus Impact Survey

TO : The Honorable Pandy Phillips
Alaska State Representative

FROM : Gregg K. Erickson
Director
Research Division

The Department of Health and Social Services recently released the results of an indepth study of the effects of the Alaska Longevity Bonus on the elderly in the state, with special consideration of those persons on public assistance. Since the study was funded with 100% state monies and was the result of three years' effort, the Division of Research summarized the 102 page report for legislator use. Since you sponsored HB 13 dealing with the Longevity Bonus, this report may be of some interest to you. The report contains details concerning the type of person served and the benefits derived from the Longevity Bonus Program.

Brief Summary of Alaska Longevity
Bonus Impact Survey: 1975

General Overview

During 1961 the Alaska Longevity Bonus Program was instituted in the state. The bonus was authorized by the State legislature to reward elderly Alaskans for having settled the state. This reward is in the form of a monthly payment of \$100 to Alaskan citizens who meet certain criteria listed in AS 47.45.010-.170. (The award was raised to \$125 monthly effective July 1, 1976.) That statute requires, in order to be eligible, that the individual must:

- 1) 65 years of age or older
- 2) Have lived in Alaska for twenty-five years
- 3) Have resided in the state on or before January 3, 1959.

The monthly check was given as an incentive to these pioneer Alaskans to continue uninterrupted residency in the state, so that they would not be forced to leave Alaska upon or prior to retirement due to insufficient funds, as often happened in the past. The payment level is uniform statewide and does not vary according to client's needs or resources.

Many persons receiving this special \$100 bonus for their service to Alaska still have insufficient resources to meet their daily needs. Certain of these persons are also eligible for public assistance through the Department of Health and Social Services. If these needy persons apply and are determined to qualify they can receive a monthly check to meet their daily living needs. The maximum for that check is set in state law. Eligibility for those categorical assistance programs is based on the client's earned (less allowable deductions) and unearned funds and resources. Federal law and regulation set requirements as to what income is counted and what deductions are allowed.

In order that Alaska Longevity Bonus checks not be counted as income for purposes of determining public assistance payments, a waiver had to be granted from the federal government. As a condition of that waiver, the Department of Health and Social Services had to conduct a research project to determine the effect of Longevity Bonus on Alaska's elderly, with special emphasis on those persons who receive monthly public assistance checks as well. The survey was initiated in 1973 and was continued in 1975. The 1975 results were released in the fall of 1976. A permanent exemption excluding the bonus payments from being counted as income for determinations for public assistance was passed by Congress and became law in January, 1976.

Research Plan

The bonus study does represent a significant piece of research. Through it, characteristics of bonus recipients can be discerned. During 1975, the Department of Health and Social Services and various senior citizen groups interviewed 472 elderly persons. The sample was randomly chosen from across the state to represent three major groups of people:

- 1) People who received Longevity Bonus Payments Only
- 2) People who received Longevity Bonus Payments and received Public Assistance (Old Age Assistance)
- 3) People who received Public Assistance (Old Age Assistance only)

At the time the interviews were made 3,814 people were receiving Longevity Bonus payments, 435 people were receiving only Old Age Assistance; and 1,450 people participated in both programs. The study estimates that there were over 8,000 persons in the state that were over 65 years of age. Therefore, over 70% of the elderly population was reflected in this study.

The persons selected were asked questions on three main topic areas:

- (1) Does the Longevity Bonus reduce outmigration of elderly Alaskans?
- (2) Does the Longevity Bonus increase the independence of those who receive it, especially low income recipients?
- (3) Does the Longevity Bonus increase the life satisfaction of those who receive it, with special emphasis placed upon an evaluation of the effect of the Bonus on the lives and on the general life satisfaction of the low-income elderly?

Study Findings

The study reached the following conclusions:

- (1) The Bonus has a significant positive impact upon the elderly Alaskans receiving it.

92.2% of all Bonus recipients interviewed said they are experiencing improvements in their well-being. Most persons used the Bonus to pay for food and clothing, followed by fuel and home maintenance. The study concludes that Bonus is being used for essentials.

- (2) Bonus-only recipients exhibit a greater degree of independence than do elderly person on public assistance only.

The survey found that recipients of only the Longevity Bonus generally need less assistance in obtaining essentials of normal life such as transportation, food, and clothing, than do elderly only on public assistance. Also, Bonus only recipients tend to own their own home, while elderly receiving only public assistance generally rent.

- (3) Most elderly Alaskans do not intend to leave the state; however, the Bonus is enabling those who want to stay, to remain.

Nearly one-third of all Bonus only recipients stated that the Bonus positively affected their plans to stay in Alaska. Also, an additional

5.2% of persons on both Bonus and Old Age Assistance programs said the Bonus had an effect on their plans to stay in the State. The study concludes the Bonus seems to have the greatest effect upon those persons with higher income with regards to emigration decisions.

- (4) Bonus recipients have a lower rate of social service use than do non-recipients.

The study found that twice as many elderly on public assistance in the sample used Food Stamps than do persons receiving both the Bonus and Old Age Assistance. It also discovered that hardly any Bonus-only recipients use food stamps. The study also found that nearly 1/3 of all Bonus recipients reported that the Bonus allowed them to delay or prevent entry to, or to leave an institution. Finally, the study revealed that 30% of recipients of Bonus-only appear to be eligible for public assistance, but do not receive it. The researchers concluded that these people prefer to remain off welfare.

- (5) The Bonus is contributing significantly to the life-satisfaction of the elderly.

The study found that of the 5,264 persons receiving the Bonus, 4,859 persons' situations improved because of it. Only 258 persons (5%) did not view the Bonus as significantly improving their living situations. Also, they did not see that their living situations would decline without the Bonus. The study concluded that Bonus recipients are better able to pay for medical expenses and to obtain food and that Bonus recipients are more active, physically and socially, than elderly only on public assistance.

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 ELEVENTH LEGISLATURE - FIRST SESSION

5 A BILL

6 For an Act entitled: "An Act relating to the Alaska longevity bonus."

7 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

8 * Section 1. AS 47.45.010(a) is amended to read:

9 (a) A person who is 65 years of age or over, who was domiciled in
10 the territory on or before January 3, 1959 and who has maintained a
11 continuous domicile in the territory or state for 25 years or has inter-
12 mittently maintained a domicile in the territory or state for a cumula-
13 tive total of 30 years, may apply to the commissioner of administration
14 for qualification to receive a monthly bonus of \$150.

15 * Sec. 2. AS 47.45.010 is amended by adding a new subsection to read:

16 (d) For the purposes of (a) of this section, a person has inter-
17 mittently maintained a domicile in the territory or state only if he has
18 been physically present in the state for five years immediately pre-
19 ceding his application and if the periods cumulating 30 years are 12
20 months or more in length.

21 * Sec. 3. AS 47.45.170 is amended to read:

22 Sec. 47.45.170. PURPOSE. The sole purpose of this chapter is to
23 offer and provide all law-abiding Alaskans capable of managing their own
24 affairs who have maintained a domicile in the state for at least 25
25 years continuously or 30 years intermittently and have reached a retire-
26 ment age of 65, an incentive to continue uninterrupted residency in the
27 state. Under no circumstances shall this chapter be considered a form,
28 type, or manner, of public relief. Bonuses made under this chapter are
29 not predicated on need even though they may appear to provide supple-

1 mental income to some qualified persons who would otherwise be forced to
2 become responsibilities of the state. The legislature further finds and
3 states that this legislation recognizes the economic hardships suffered
4 by many elderly Alaskans, Alaskans who through their tenacity and per-
5 severance molded Alaska as we know it through skillful application of
6 their talents. These pioneers are the same Alaskans, who in the prime
7 of their life were in effect treated as second-class citizens by the
8 federal government and who paid much of their hard-earned income to a
9 government in which they did not have the right to participate through
10 the power of the ballot. The legislature also is aware of the fact that
11 many of these pioneers have been forced to live out their retirement
12 years in areas far away from the land they loved and nurtured and there-
13 by also suffering, in many cases, the loss of familial relationship with
14 their own kin, an experience that is sad and frustrating to them as well
15 as depriving new generations of Alaskans of the benefits of their wisdom
16 and experience. This legislation hopefully will provide our pioneers
17 with the economic means to remain in and continue to serve their state
18 and to enjoy the opportunity of aiding the new Alaskan in making this
19 state truly "The Great Land."

Inflation of 7% is computed on operating costs for each succeeding year.

*note: this cost estimate reflects Fish and Wildlife Protection needs if hunting and fishing are allowed. If the present bans on hunting and fishing within 5 miles of the pipeline continue, the costs would be reduced to roughly \$458.3 instead of \$916.6.

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. AS 14.25.040 is amended by adding a new subsection to read:

10 (d) For the purposes of this section, an employee or a former
11 employee of the National Education Association of Alaska who qualifies
12 under AS 14.25.045(a) is a teacher and qualifies for membership under
13 this chapter.

14 * Sec. 2. AS 14.25.060(c) is amended to read:

15 (c) The total military service claimed may not exceed five years.
16 The total Alaska National Guard and Alaska Naval Militia service claimed
17 may not exceed five years. The combined total of outside, [AND] mili-
18 tary, and Alaska National Guard and Alaska Naval Militia service may not
19 exceed 10 years, except that, if entry into the armed forces is immedi-
20 ately preceded by membership service and within one year after discharge
21 is continued by membership service, that service will not be counted for
22 purposes of determining the applicability of the 10-year limitation on
23 the combined total of outside, [AND] military, and Alaska National
24 Guard and Alaska Naval Militia service. The combined total of outside,
25 military, Alaska National Guard and Alaska Naval Militia, and Alaska BIA
26 service may not exceed 15 years.

27 * Sec. 3. AS 14.25.100(a) is amended to read:

28 (a) A member who served as an active member of the armed forces of
29 the United States may receive credited [CREDITABLE] service under this

To receive credited [CREDITABLE] service under this section, the member must have received a discharge other than dishonorable. Except as provided in (f) of this section, credit [CREDIT] for service in the armed forces shall be granted only if the member makes contributions for the service [IN THE SAME MANNER AS REQUIRED FOR OUTSIDE SERVICE] under AS 14.25.060. [THE MILITARY SERVICE CREDITED UNDER THIS SECTION SHALL BE INCLUDED IN THE 10-YEAR LIMITATION OF OUTSIDE SERVICE AS SPECIFIED IN AS 14.25.060, EXCEPT IF ENTRY INTO THE ARMED FORCES IS IMMEDIATELY PRECEDED BY ALASKA MEMBERSHIP SERVICE AND FOLLOWING DISCHARGE IS CONTINUED BY ALASKA MEMBERSHIP SERVICE WITHIN ONE YEAR THEREAFTER, SERVICE MAY NOT BE COUNTED FOR PURPOSES OF DETERMINING THE APPLICABILITY OF THE 10-YEAR LIMITATION ON OUTSIDE SERVICE.]

* Sec. 4. AS 14.25.100 is amended by adding a new subsection to read:

(f) Notwithstanding AS 14.25.060, a member is not required to make contributions for credit for service in the armed forces if the member is a member or former member of the Alaska National Guard or Alaska Naval Militia, or a former member of the Territorial Guard, and the military service claimed under this section plus the Alaska National Guard, Alaska Naval Militia or Territorial Guard Service equals or exceeds 20 years. If the member has received retirement pension benefits under the Alaska National Guard and Alaska Naval Militia retirement plan and wishes to claim credited service with respect to months for which benefits have been paid, he is indebted to the retirement fund in the amount of those benefits. Compound interest at the rate prescribed by regulation adopted by the administrator shall be added to the arrearage indebtedness beginning on the date the member received the first benefit for which he is indebted to the retirement fund or July 1, 1980, whichever is later, and continuing to the date of payment or the date of retirement, whichever occurs first.

(c) Except as provided in (b) of this section, a member is not required to make contributions for credited service allowed under this section.

(d) The credited service allowed under this section may not exceed an aggregate period of five years.

(e) A member may not receive credited service under this section if credit for membership in the Alaska National Guard or Alaska Naval Militia was granted under the public employees' retirement system

9 * Section 1. AS 03.20.020(a) is amended to read:

10 (a) Fairs may be held each year in each of the house election dis-
11 tricts, and state aid for the operation and maintenance of the fairs may
12 not exceed a basic grant of \$10,000; however, fairs in existence five
13 years or longer may receive an increment grant not to exceed \$2,500 a
14 year of existence beyond four years to a maximum of \$75,000 [THE SUM OF

18 they subscribe to spend from their own funds for that purpose an amount

24 * Sec. 2. AS 03.20.020 is amended by adding new subsections to read:

25 (c) For the purpose of matching state fair aid allocations, a fair

28 value on donated labor, materials, and equipment used in the construc-
29 tion, repairing and maintenance of fairgrounds, buildings, and facili-

1 ties in place of dollar matching up to 50 per cent of its annual

NOTE: Fiscal Note computations are based on maximum amount allowable under Committee Substitute. Currently the maximum amount allowable to fairs is \$183,000, while grants total only 158.3. It is estimated that fairs held at Ninilchik and Bethel, while eligible for substantial increases, would continue to remain far below the limit.

The Honorable Charles Parr
House of Representatives
State of Alaska
Pouch V
Juneau, Alaska 99811

Dear Mr. Parr:

This department has reviewed HB 19, an act relating to agricultural and industrial fairs, and would like to offer the following amendments for your consideration:

- 1. Page 1, line 11: delete from the word "following" through the amount \$25,000 on line 12, and insert in lieu thereof: "\$75,000."

This amendment would allow the five major fairs held in the State to obtain higher grants and attendantly offer a wider range of exhibits, displays, demonstrations, premiums and prizes. All warrant increased state support. The present working of HB 19 would limit the increased grants to the fairs held at Fairbanks and Palmer, while omitting increased grants to the other major fairs in Kodiak, Bethel and Haines.

- 2. Page 1, line 16, delete the words "equal to" and insert in lieu thereof: "which, when added to the value of donations allowed under (c) of this section, equals:

Page 1, line 17, between the words "and" insert the following: "unless they";

Add a new Section 2 to read as follows:

*Sec. 2. AS 03.20.020 is amended by adding new subsections to read:

✓ (c) For the purpose of matching state fair aid allocations, those fairs whose local resources are not sufficient to match dollar for dollar may, in preparing their annual reports, place a reasonable itemized monetary value on donated ~~labor~~ materials and equipment used in the construction, repairing and maintenance

of fair grounds, buildings and facilities in lieu of dollar matching up to 50 percent of their annual requests. The commissioner shall determine when local resources are insufficient to allow the community to match the amount of state aid requested under (a) of this section, and shall approve the reasonableness of the value assigned to donations by the fair.

These amendments would allow the smaller fairs to match state grants with in-kind services and donated materials. This practice is presently being done by a number of the smaller fairs and facilitates expansion of the scope of the fairs.

3. Add the following to Sec. 2 of the bill:

✓(d) Premiums and prizes that qualify for listing for allocation purposes under this section shall be those paid for exhibits and educational contests, displays, and demonstrations of an educational nature. This does not include prizes or premiums for promotion or entertainment activities such as queen contests, parades, dances, rodeos or races. A listing of fund allocations under this section containing the names of all premium and prize winners, including the amount and value of all awards, shall be maintained by the fair association.

Sec. 03.20.080 Definitions. As used in this chapter an "agricultural and industrial fair" means a fair, the major focus of which is displays, exhibitions, demonstrations, contests or promotions of agricultural or industrial concern to the region in which the fair is located.

These amendments clarify the purposes for which the grant program is aimed. The promotion of agriculture or industry within a region should be the only purposes funded under this program.
