CATEGORY: DEVELOPMENT
PROGRAM: ECONOMIC DEVELOPMENT

AGENCY: COMMERCE AND ECONOMIC DEVELOPMENT
BRU (s): BUSINESS LOANS

The Business Loans BRU provides Alaskan businesses and residents with long term, low interest financing which is usually not available from private lending institutions. Specific loan programs include:

- Small Business Loans These loans are generally too risky or too small to interest private lending institutions.
- Commercial Fishing Loans provide commercial fishermen with capital for purchase or upgrade of vessels needed to remain competitive. Due to high risk and unpredictable fish seasons, local banks have been reluctant to make these loans.
- Tourism Loans provide capital for the expansion of tourist facilities.
- Fisheries Enhancement Loans provide long-term, low interest loans for hatchery planning and construction, in support of private ownership of hatcheries by qualified nonprofit corporations.
- Child Care Facilities Loans provide financing for the development of licensed child care facilities which helps stabilize that portion of the work force dependent on these services.
- Water Resources Loans provide funds for hydroelectric and water supply projects. With the exception of certain previously conceived projects, this program has been replaced by the Power Project Loan Fund.
- Historical Districts The intent of these loans is to foster an awareness of the need to preserve our historical past.
- Residential Care Facilities provides residential care facilities with financing needed for renovation or equipment needed to comply with licensing standards. Loans are often not available from private lending institutions.
- Alternative Technology and Power Resource Loans This loan fund assists in the development of energy production utilizing sources other than fossil fuel.

The Division has decentralized it's operations with the opening of offices in Anchorage and Fairbanks. As a result, the number of applicants has doubled. This outreach effort will continue in FY 81.

The primary goal of the Division of Retirement and Benefits is to administer specific benefit programs established by statute for the State of Alaska and participating political subdivisions. The secondary goal is to provide information to the legislative process, collective bargaining process, and administrative process. Some of the primary functions of the division are: to maintain records; to disseminate information and provide counseling to members of the various retirement systems regarding programs, retirement, social security, health and life insurance programs and the deferred compensation plan; to analyze and recommend statutory changes to the legislature for all benefit programs in order to remain competitive with those programs offered by other employers; to testify before the legislature on proposed legislation affecting the various benefit programs; and to ensure that correct benefit payments or refunds are made to employees or beneficiaries in a timely manner. The FY 81 request includes funding to administer the State Supplemental Benefits Program, which replaced the Federal Social Security program on January 1, 1980.
