STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

14B661
^
662

February 1, 1980

The Honorable Terry Gardiner
Speaker of the House
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. Speaker:

Under the authority of art. III, sec. 18, of the Alaska Constitution, I am transmitting two bills relating to the Alaska Industrial Development Authority. The longer bill contains amendments to expand the authority's powers and functions, and would consolidate in the authority many of the existing loan programs. The second bill transfers from the Department of Revenue to the authority small business and veterans loans totaling \$500,000,000 in unpaid principal balance and which have been purchased over the years by the Department of Revenue from the Department of Commerce and Economic Development.

The primary bill expands the powers and functions of the Alaska Industrial Development Authority by:

- (a) permitting the financing of a much broader range of business projects than is presently authorized by law, including the financing of certain types of personal property;
- (b) establishing a loan insurance account to make funds available to the authority for insuring loans either made or purchased by the authority for an authorized project;
- (c) creating a direct loan revolving account to centralize a majority of existing state business loan programs; and
- (d) creating an interest reduction account, funded by legislative appropriations, to provide for a reduced rate of interest on loans made from the

direct loan revolving account, on loans insured by the loan insurance account, and on loans made from taxable bonds issued by the authority.

In detail, the bill provides as follows:

1. The existing legislative finding and policy section (AS 44.61.010) is expanded to include additional tax exempt financing purposes such as mass commuting facilities and parking facilities and to include business enterprises such as agriculture, fishing, and tourism generally within the authority's financing powers.

2. AS 44.61.050(c) is amended to make it clear that the executive director and authority employees are in the exempt service, under the state personnel Act.

3. The powers of the authority are expanded in AS 44.61.080 to allow it to make or insure loans for business enterprise projects as well as to assist private lenders in making loans for those purposes. In addition, the authority would be allowed to own and manage a project, but only if it were necessary to do so to protect the security of a loan.

4. AS 44.61.100 is amended to allow the authority to establish a capital reserve fund to secure bonds issued by the authority. In the event the authority determines that the marketability of bonds would be enhanced by the establishment of a capital reserve fund, such a fund could be created with amounts capitalized from bond proceeds, borrowed from the Department of Revenue or derived from other sources.

5. AS 44.61.155 establishes an overall enterprise development fund. Within this fund, there would be established a loan insurance account, a direct loan account and a loan interest reduction account. Other accounts within the fund could also be established by the authority.

6. The loan insurance account established in AS 44.61.157 would allow the authority to insure mortgage loans made by the authority or by commercial lenders for any defined project. The terms of eligibility for insurance include the limitation of principal amount to \$10,000,000 and 90 per cent of the cost or appraised value, whichever is less, of the project and the limitation of three-quarters of the useful life of the project or 25 years from the date of insurance,

whichever is earlier. The authority could collect fees and charges with respect to the loans insured and would annually calculate whether the amount in the fund is actuarially sufficient for its purposes.

7. AS 44.61.158 creates the direct loan account. Loans to a business enterprise for any project from the account may not exceed \$500,000. The interest rate on those loans is fixed as the then current yield on ten-year treasury bonds. The limitations on loans are the same as for the insurance account.

8. AS 44.61.159 creates the loan interest reduction account. Interest rate reductions would be available for loans made from the direct loan account, loans insured by the loan insurance account, and loans made by the authority from the proceeds of bonds, the interest on which is not exempt from federal income tax. The interest rate reduction is fixed at an amount which provides a loan rate to state veterans of nine and one-quarter per cent and to other borrowers a loan rate of nine and one-half per cent. The legislature would annually fix the total amount of interest rate reductions to be made from the account for loans made that year. When the amount of the interest reduction is determined by the authority, investments which would produce the necessary amount to pay the interest reductions are put in trust. The amount of interest reduction payable from the account would be fixed in each loan instrument for the term of the loan.

9. AS 44.61.160 retains the necessary local governmental findings with respect to projects financed directly by the authority and with respect to loans insured by the authority in excess of \$3,000,000.

10. The definition of "project" in AS 44.61.220 would now include additional tax exempt projects permitted under the Internal Revenue Code, as well as other business enterprises, excluding residential housing except for child care and residential care facilities. The definition of "plant" in paragraph (6) includes not only real property but tangible personal property (except for work in process or stock in trade) if the owner agrees not to remove the property for a period of time determined by the authority.

11. Section 9 repeals the lending authority of the various loan funds as of July 1, 1981 in order to

permit an effective transition between the new functions of the Alaska Industrial Development Authority and the existing loan fund structure.

12. Section 10 of the bill would repeal AS 44.61.030(b) and (c). These provisions currently allow local government participation in certain proposed projects to be financed by the authority under existing statutes. At the present time those statutes permit the financing for the most part only of major industrial projects in which local governments should be involved. However, because this bill proposes that the authority now undertake many smaller loans now handled through the Department of Commerce and Economic Development, it does not seem feasible or desirable to provide for local government participation in these loan decisions. Instead, local consent would be required only as provided under AS 44.61.160, and then only for projects involving funds of the authority in excess of \$3,000,000.

The interest reduction account created in AS 44.61.159 will require an appropriation from the legislature. An appropriation bill to fund this aspect of the authority's proposed program will be submitted separately and at a later date.

Sincerely,

Jay S. Hammond
Governor

1 IN THE HOUSE

BY ANDERSON

2 HOUSE BILL NO. 665

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 ELEVENTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act relating to late applications for limited entry
7 permits; and providing for an effective date."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. FINDINGS. The legislature finds that

10 (1) many persons who were otherwise qualified for limited entry
11 permits have not received permits solely because of their failure to submit
12 an application to the Alaska Commercial Fisheries Entry Commission before the
13 closing date for applications set by the commission in accordance with AS 16.
14 43.260(b);

15 (2) in order to prevent economic distress among fishermen and
16 their dependents, to regulate entry into the commercial fisheries without
17 unjust discrimination, and to ensure that permits are awarded on the basis of
18 hardship, as defined in AS 16.43.250, it is necessary to ensure that persons
19 eligible for permits are not denied permits solely because of a failure to
20 apply in a timely fashion.

21 * Sec. 2. APPLICATIONS FOR LIMITED ENTRY PERMITS. Notwithstanding the
22 provisions of AS 16.43.260 relating to closing dates for application periods,
23 the Alaska Commercial Fisheries Entry Commission shall accept applications
24 for limited entry permits, for those fisheries for which the application
25 periods have closed, from all persons who meet the eligibility requirements
26 of AS 16.43.260(a) but who failed to apply for limited entry permits for the
27 fisheries within the time period established by the Alaska Commercial Fish-
28 eries Entry Commission for the fisheries. Persons who have previously sub-
29 mitted applications to the Alaska Commercial Fisheries Entry Commission after

1 the closing dates of the application period for the fisheries, but before the
2 effective date of this Act shall be considered to have applied under this
3 section. The Alaska Commercial Fisheries Entry Commission shall process
4 applications received under this section as if they had been submitted during
5 the application period set by the commission, except that the commission
6 shall afford an additional reasonable period of time for the submission of
7 supporting evidence. The application period established in this section
8 shall open on the effective date of this Act and shall close on December 31,
9 1980.

10 * Sec. 3. The Alaska Commercial Fisheries Entry Commission shall process
11 applications received under sec. 2. of this Act in accordance with regula-
12 tions applicable to the fishery into which entry is sought except as other-
13 wise provided in sec. 2 of this Act. The Alaska Commercial Fisheries Entry
14 Commission shall issue permits to persons applying under this Act who demon-
15 strate hardship equal to that shown by persons previously issued permits.
16 The Alaska Commercial Fisheries Entry Commission may issue permits in excess
17 of the maximum number of permits established for a fishery under AS 16.43.-
18 230 - 16.43.240 for the purposes of this section. This section does not
19 authorize the Alaska Commercial Fisheries Entry Commission to revoke a permit
20 previously issued.

21 * Sec. 4. This Act takes effect immediately in accordance with AS 01.10.-
22 070(c).

7 tion period set by the commission, except that the commission shall afford an
8 additional reasonable period of time for the submission of supporting evi-
9 dence. Applications received under this section for a fishery may not be
10 processed until the commission has substantially completed processing those
11 applications for that fishery which were received before the closing date of
12 the application period established by the commission for that fishery.

13 * Sec. 3. ISSUANCE OF LIMITED ENTRY PERMITS TO APPLICANTS. The Alaska
14 Commercial Fisheries Entry Commission shall process applications received
15 under sec. 2. of this Act in accordance with regulations applicable to the
16 fishery into which entry is sought except as otherwise provided in sec. 2 of
17 this Act. The Alaska Commercial Fisheries Entry Commission shall issue
18 permits to persons applying under this Act who demonstrate hardship equal to
19 that shown by persons previously issued permits. However, the Alaska Commer-
20 cial Fisheries Entry Commission may not issue permits under this Act to
21 persons ranked in the priority classification under AS 16.43.250(c) of appli-
22 cants who would suffer only minor economic hardship by exclusion from the
23 fishery. The Alaska Commercial Fisheries Entry Commission may issue permits
24 in excess of the maximum number of permits established for a fishery under
25 AS 16.43.230 - 16.43.240 for the purposes of this section. This section does
26 not authorize the Alaska Commercial Fisheries Entry Commission to revoke a
27 permit previously issued.

28 * Sec. 4. This Act takes effect immediately in accordance with AS 01.10.-
29 070(c).

PROGRAM: FISHERIES RESOURCE CONSERVATION

AGENCY: FISH AND GAME
BRU (s): COMMERCIAL FISHERIES ENTRY COMMISSION

The Alaska Commercial Fisheries Entry Commission promotes the conservation and sustained yield management of Alaska's fisheries resources. It also promotes the economic health and stability of commercial fishing in Alaska.

The Commission is responsible for regulating and controlling entry into the commercial fisheries in support of the public interest. There are three major steps in this process: (1) identification of fisheries that need limited entry; (2) implementation of limited entry where it is needed; and (3) establishment of voluntary buy-back programs to reduce fishing effort in limited fisheries where current effort levels are excessive.

Much of the Commission's work focuses on the determination of the optimum number of entry permits for various fisheries. The optimum number is that number which will: (1) maintain an economically healthy fishery that will result in a reasonable rate of economic return to fishermen; (2) promote an orderly and efficient commercial harvest consistent with sound fishery management technique; and (3) avoid serious economic hardships to fishery participants.

In FY 81, entry limitation programs will be implemented in all 24 of Alaska's salmon net fisheries, the salmon power troll and hand troll fishery, three herring seine fisheries and one herring gillnet fishery.

The Commission serves the public directly through the issuance of entry permits, transfers and commercial vessel licenses. In 1979 the Commission issued 26,870 permits to people in 126 different fisheries. Additionally, it issued 15,182 vessel licenses.

Principal FY 80 program activities include: the regulation of participants in commercial fisheries; collection of permit and license fees, including fees dedicated to the Fishermen Fund; determination of optimum number of gear units per limited fisheries; and the provision of technical support to federal and state fisheries management agencies.

The Commission will be attached to the Department of Fish and Game beginning in FY 1981 to reduce the workload in the Governor's Office and to facilitate coordination with the state fisheries management agencies.

MEMORANDUM

State of Alaska

TO: Robert J. Simon
 Chairman
 Commercial Fisheries Entry
 Commission

DATE: March 6, 1980

FILE NO:

TELEPHONE NO:

HB 665 Page 1 of 4

FROM: Derrill L. Johnson 
 Director of Administration
 Commercial Fisheries Entry
 Commission

SUBJECT: Financial Analysis of
 HB-665 - Late Application
 Bill

You asked that I prepare a preliminary estimate of the incremental costs should HB 665 be enacted. I utilized the following assumptions: (1) we will receive 5,000 handtroll applications in FY 81; (2) the late application period will generate 5,000 additional applications; (3) the 600 case backlog in adjudications is to be completed prior to awarding permits under the new application period; and (4) the Commission's intent is to finalize the processing of the new applications in two years. There is no provision for application assistance or other type of professional services added to this estimate.

You have noted that HB 665 does not have a Finance Committee referral at present. Additionally, there seems to be at least some question as to whether the bill will be amended in a manner which will affect the fiscal impact. Hence, I hope this memorandum suffices until a formal fiscal note is required. Because of the short time allowed to complete this estimate, I believe there could be a 5% change in the final figure of 1,154.7 even if the bill is not amended.

2 CS FOR HOUSE BILL NO. 665

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 ELEVENTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act relating to late applications for limited entry
7 permits; and providing for an effective date."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. FINDINGS. The legislature finds that

10 (1) many persons who were otherwise qualified for limited entry
11 permits have not received permits solely because of their failure to submit
12 an application to the Alaska Commercial Fisheries Entry Commission before the
13 closing date for applications set by the commission in accordance with
14 AS 16.43.260(b);

15 (2) in order to prevent economic distress among fishermen and
16 their dependents, to regulate entry into the commercial fisheries without
17 unjust discrimination, and to ensure that permits are awarded on the basis of
18 hardship, as defined in AS 16.43.250, it is necessary to ensure that persons
19 eligible for permits are not denied permits solely because of a failure to
20 apply in a timely fashion.

21 * Sec. 2. APPLICATIONS FOR LIMITED ENTRY PERMITS. Notwithstanding the
22 provisions of AS 16.43.260 relating to closing dates for application periods,
23 the Alaska Commercial Fisheries Entry Commission shall accept applications
24 for limited entry permits, for those fisheries for which the application
25 periods have closed, from all persons who meet the eligibility requirements
26 of AS 16.43.260(a) but who failed to apply for limited entry permits for the
27 fisheries within the time period established by the Alaska Commercial Fish-
28 eries Entry Commission for the fisheries. Persons who have previously sub-
29 mitted applications to the Alaska Commercial Fisheries Entry Commission after

CSHB 665

General analysis 5/6

1 the closing dates of the application period for the fisheries, but before the
2 effective date of this Act shall be considered to have applied under this
3 section. The application period established in this section shall open on
4 the effective date of this Act and shall close on December 31, 1980. The
5 Alaska Commercial Fisheries Entry Commission shall process applications
6 received under this section as if they had been submitted during the applica-
7 tion period set by the commission, except that the commission shall afford an
8 additional reasonable period of time for the submission of supporting evi-
9 dence. Applications received under this section for a fishery may not be
10 processed until the commission has substantially completed processing those
11 applications for that fishery which were received before the closing date of
12 the application period established by the commission for that fishery.

13 * Sec. 3. ISSUANCE OF LIMITED ENTRY PERMITS TO APPLICANTS. The Alaska
14 Commercial Fisheries Entry Commission shall process applications received
15 under sec. 2. of this Act in accordance with regulations applicable to the
16 fishery into which entry is sought except as otherwise provided in sec. 2 of
17 this Act. The Alaska Commercial Fisheries Entry Commission shall issue
18 permits to persons applying under this Act who demonstrate hardship equal to
19 that shown by persons previously issued permits. However, the Alaska Commer-
20 cial Fisheries Entry Commission may not issue permits under this Act to
21 persons ranked in the priority classification under AS 16.43.250(c) of appli-
22 cants who would suffer only minor economic hardship by exclusion from the
23 fishery. The Alaska Commercial Fisheries Entry Commission may issue permits
24 in excess of the maximum number of permits established for a fishery under
25 AS 16.43.230 - 16.43.240 for the purposes of this section. This section does
26 not authorize the Alaska Commercial Fisheries Entry Commission to revoke a
27 permit previously issued.

28 * Sec. 4. This Act takes effect immediately in accordance with AS 01.10.-
29 070(c).

MEMORANDUM

State of Alaska

TO: Robert J. Simon
 Chairman
 Commercial Fisheries Entry
 Commission

DATE: March 6, 1980

FILE NO:

TELEPHONE NO:

HB 665 Page 1 of 4

FROM: Derrill L. Johnson 
 Director of Administration
 Commercial Fisheries Entry
 Commission

SUBJECT: Financial Analysis of
 HB-665 - Late Application
 Bill

You asked that I prepare a preliminary estimate of the incremental costs should HB 665 be enacted. I utilized the following assumptions: (1) we will receive 5,000 handtroll applications in FY 81; (2) the late application period will generate 5,000 additional applications; (3) the 600 case backlog in adjudications is to be complete prior to awarding permits under the new application period; and (4) the Commission's intent is to finalize the processing of the new applications in two years. There is no provision for application assistance or other type of professional services added to this estimate.

You have noted that HB 665 does not have a Finance Committee referral at present. Additionally, there seems to be at least some question as to whether the bill will be amended in a manner which will affect the fiscal impact. Hence, I hope this memorandum suffices until a formal fiscal note is required. Because of the short time allowed to complete this estimate, I believe there could be a 5% change in the final figure of 1,154.7 even if the bill is not amended.

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

The first session of the 11th Legislature appropriated \$2,400,000* to the Department of Transportation and Public Facilities for maintenance of the North Slope Haul Road during Fiscal Year 1980. The Governor's original request was for \$4,566,100 based on the assumption that the road would be maintained solely by State forces operating from five camp sites. At the present time there are three camps in operation manned by State employees providing maintenance for 182 miles of the Haul Road. The remaining 210 miles of road is being maintained under contract with two private contracting firm. This arrangement for maintenance of the North Slope Haul Road is expected to continue through Fiscal Year 1980.

(Continued on next page)

IV. DATE 2/21/80 PREPARED BY Robert W. Steele
 AGENCY Transportation & Public Facilities
 Original: Legislative Finance PHONE 364-2121 Ext. 258
 cc: Budget and Management
 Prime Sponsor (First Legislator Named)

Fiscal Note - HB 667

The cost of maintaining the 182 miles of road with State forces during FY 80 is projected at \$1,953,900. The costs of the two presently negotiated contracts total \$344,260 per month, or \$4,131,100 for the 12 month period of FY 80. The total anticipated expenditures for maintenance of the entire road by both State forces and contracts would then be \$6,085,000. The table below indicates the projected shortfall based upon the above narrative.

| | |
|-----------------------------|--------------------|
| Maintenance by State forces | \$1,953,900 |
| Maintenance by contracts | <u>4,131,100</u> |
| Total Maintenance Costs | \$6,085,000 |
| Less FY 80 appropriation* | <u>(2,400,000)</u> |
| Supplemental Requirement | \$3,685,000 |

A copy of Deputy Commissioner Ryan's memorandum on this subject is attached. It should be noted the due to an error in calculation, his memorandum requests \$3,737,300 of supplemental funds when in actuality only \$3,685,000 is required.

The Fiscal Year 1981 Governor's budget request assumes maintenance of the entire haul road utilizing only State forces, resulting in an overall reduction from the amounts required for FY 80.

Note * This assumes passage of HB 577 which appropriates the remaining \$360,000 of the North Slope Haul Road budget.

TELEPHONE NO.

FROM: Patrick P. Ryan
P.P.R.
Deputy Commissioner, M & O
Department of Transportation
and Public Facilities

SUBJECT: Supplemental Request - North
Slope Haul Road Component

The Free Conference Committee Budget provided for a lump sum appropriation of \$2,400,000.00 to maintain the North Slope Haul Road. Additionally, the Haul Road was made a Component of the Interior Region Maintenance and Operations BRU.

The Governor's Request for the 1980 Operating Budget for the Haul Road was \$4,566,100. That amount was estimated to be adequate to provide year around maintenance from five camps manned by State employees. At the current time and for the remainder of Fiscal Year 80 there will be only three camps in operation providing coverage for 182 miles of the road. The remaining, 210 miles will be maintained under a contractual arrangement with two private contractors. The requirement to continue the two contracts for the remainder of Fiscal Year 1980 will require us to request a Supplemental greater than \$2,166,100. The \$2,166,100 is the difference between the Governor's request of \$4,566,100 for year around maintenance and the \$2,400,000 approved by the FCC for partial year funding.

The total Supplemental needed for the Haul Road Component to finish Fiscal Year 1980 is \$3,737,300. This amount will make a total FY 80 budget of \$6,137,300 which is \$1,571,200 over the Governor's Request for 1980.

The cost of maintaining the first 182 miles with the state forces located at three camps is estimated at \$1,953,900 for a full year. The two contracts will cost \$344,260 per month or \$4,131,100 for a full year. The total expenditures for this component as of November 30, 1979 was \$1,635,593 leaving a balance of \$404,407. The Legislature only fund 85% of the \$2.4 million approved.

There is the alternative of making up the shortfall in the Haul Road Component by transferring funds from the other three Interior Components. This alternative has been considered but would result in extensive reduction of services to the remainder of the Region as the effect would be a 33% reduction in those components. Therefore, that alternative is unacceptable in my opinion.

The third alternative is to drop the two contracts and man the remaining 210 miles with state forces. While it is estimated that this would result in a savings to the state, the alternative is not practical as camp facilities do not exist at this time to allow the placement of state personnel.

Therefore, we believe the only viable course of action is to request a supplemental in the amount of \$3,737,300 to complete FY 80.
