SUBJECT: ~~Kotzebue Hatchery Request for~~
~~Site Management~~
Snettisham Hatchery, Chp. 740/78

→ Info for Amend. to HB 558
900,000 for Snettisham Hatchery

The Department of Transportation and Public Facilities requests authorization to reallocate \$900,000 from the Kotzebue Hatchery project to the Snettisham Hatchery project.

The bids were opened on January 30, 1980 for the construction of the salmon hatchery at Snettisham. There were seven bidders with the four lowest bids being close together. This indicates that the bids are reasonable and valid. The lowest bid is approximately \$900,000 over the funds presently available for construction. The latest construction cost estimate anticipated correctly the discrepancy between available funding and prices. The request for reallocation of funding was delayed until bid opening to verify the amount required.

The required funding is requested from Kotzebue Hatchery since the project is anticipated to cost less than funds allocated. The Kotzebue project fund request was based on the assumption of poor access to a difficult to develop water supply. Because a spring water supply has been found adjacent to the Noatak River both access and water supply development will be less expensive than anticipated. In addition, development on the basis of using prefabricated modular units for hatchery construction will significantly reduce costs. For these reasons the reallocation from Kotzebue to Snettisham will not adversely effect the Kotzebue project.

The proposed revised budget for the Snettisham Hatchery is as follows:

Site Investigation Design & Other Preliminaries	\$ 626,27?
Site Preparation Contract	766,136
Restricted for Equipment (RSA'd to ADF&G)	500,000
Low Bid - Hatchery Construction	4,717,000
Change Order Contingency	<u>215,991</u>
TOTAL	\$6,825,400

HOUSE BILL NO. 948

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act making an appropriation to the Department of Transportation and Public Facilities for completion of the Snettisham hatchery; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. The sum of \$900,000 is appropriated from the general fund to the Department of Transportation and Public Facilities to complete the construction of the Snettisham hatchery. The appropriation made by this Act is a supplement to the general obligation bonds allocated for the Snettisham hatchery from the general obligation bonds authorized in ch. 140, SLA 1978, and approved by the voters in 1978.

* Sec. 2. The appropriation made by this Act is for a capital project and is subject to AS 37.25.020.

* Sec. 3. This Act takes effect immediately in accordance with AS 01.10.-070(c).

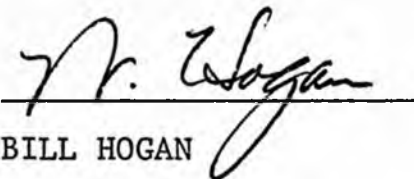

March 17, 1980

ANALYSIS OF HB 948 (An Act making an appropriation to DOT for the completion of the Snettisham hatchery...)

The Act would appropriate \$900,000 to complete the Snettisham Hatchery. \$6,002,000 was originally allocated from the general obligation bonds authorized in CH 140, SLA 1978.

It has come to my attention that a similar short fall exists with the Clear hatchery. \$905,000 was allocated from general obligation bonds. Bids are not yet in on the project but cost is now estimated at \$1,300,000 *. Department of Fish and Game had planned to reallocate unneeded funds from other bond projects but a recent Attorney General's opinion has stated that this cannot be done.

I recommend that the bill be amended to provide an additional \$600,000 * for the Clear project.

BILL HOGAN

* As of 3/18/80 the total will be \$1,655,000 with \$750,000 additional required.

COMMITTEE REPORT

SENATE

Letter of Intent

HB 950

This appropriation is necessitated by recent, rapid and unprecedented increases in the rate of interest charged for municipal bonds. This increase has been caused by federal monetary policy designed to shrink the national debt market. As a result of this policy, the Bond Buyer Index, which shows the average rate charged for municipal bonds on a weekly basis, has increased from 7.71 per cent on February 14 to 8.94 per cent on March 6.

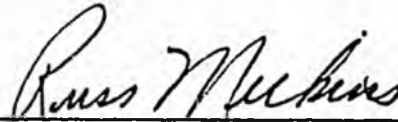

This increase has rendered seven Alaska municipalities (Anchorage, Sitka, the Bristol Bay Borough, the Kenai Peninsula Borough, Seward, the Ketchikan Gateway Borough and the Kodiak Island Borough) incapable of issuing bonds for projects slated to begin this construction season.

These municipalities are legally barred from issuing these bonds because their bond authorizations have "caps" --- voter approved limits on the rate of interest they can pay on their bonds. In all cases, these "caps" are 8 per cent or below. At the time in late February that three of these municipalities (Anchorage, Sitka and the Bristol Bay Borough) attempted to issue bonds, they received no bids acceptable under their "caps". Given current market conditions, it is a virtual certainty that the other four municipalities will likewise receive no acceptable bids.

If it weren't for the necessity of capturing this construction season, the affected municipalities could raise their "caps" through the election process. But, so that the projects could go to bid and help stimulate the state's sagging economy, the committee decided not to wait for these municipalities to go through that process.

Legal constraints prevented the committee from making this appropriation in the form of a loan to the affected municipalities. Had this been possible, the consensus of the committee was that it would be done.

Thus, although there is a question of equity involved in providing a subsidy for only seven of the state's municipalities, the committee passed out the appropriation. But it is the committee's intent not to provide an on-going subsidy for all municipal bonds. In this regard, I intend to request the commissioner of revenue to notify all municipalities that, if they wish to issue bonds, they must deal with their "caps" in a manner that reflects current market conditions.

ALASKA MUNICIPAL BOND BANK AUTHORITY

March 19, 1980

Senator John Sackett
Senate Finance Committee
Pouch V
Juneau, ALaska 99811

Dear John:

The Board of Directors has asked me to request that you calendar debate and Committee action on HB 950 as soon as possible.

This Bill will assist the cities of Anchorage, Kodiak, Ketchikan, Seward, City and Borough of Sitka, Bristol Bay Borough, and the Kenai Peninsula Borough in the marketing of bonds. These seven municipalities all have bond sales scheduled in order to secure funds for use during the summer construction season.

As you know the bond market is in major disarray and interest costs are increasing on a daily basis. Some of these cities cannot sell bonds above the 8% interest level (Anchorage and Sitka), another (Seward) cannot sell above the 7½% level. The others do not have voter mandated restrictions. When HB 950 becomes operative it will serve to provide a subsidy between the market rate of bonds and the mandated cap. For those cities that do not have caps, an 8% cap will be assumed for equity purposes.

If you or the Committee have any questions, I will be available in Juneau at your call on Wednesday and Thursday. Please expedite action as much as possible as Bristol Bay and Sitka bond sales are scheduled for March 25th on the assumption that the Bill will pass the Committee and the Senate in the form it left the House.

Sincerely,

David A. Rose

ALASKA MUNICIPAL BOND BANK AUTHORITY

FACTS:

Federal monetary policy directed at contraction of the national money supply has had an adverse effect on the bond market.

The 20 Bond Index, the national standard which indicates the interest rate level of bonds purchased, is presently 8.46. This is the highest level in the history of the country.

Alaska credits are rated by national bond rating services (Moody's and Standard & Poor's) at "A" or below. Many municipalities are un-rated. With these ratings interest rates will approximate the 20 Bond Index or will exceed it.

Most Alaskan municipalities, as part of the voter approval process, set a limit on the interest rates they are willing to pay on bonds issued. Some cities set a "capper" of 7 1/2 percent while some others have a "capper" of 8.0 percent.

PROBLEM:

Alaskan cities cannot issue their debt because the current market price of bonds exceeds the "capper" limits.

The Alaskan summer construction season depends on raising funds now. Without sufficient funds, we will lose the season.

Communities affected TODAY:

Anchorage	19.0 mm
Sitka	5.6 mm
Bristol Bay Borough	4.0 mm
TOTAL:	<u>28.6 mm</u>

Communities affected in APRIL:

Kenai Peninsula Borough	6.7 mm
Seward	1.7 mm
Ketchikan Gateway Borough	.4 mm
Kodiak Island Borough	10-28 mm
TOTAL:	<u>18.8 mm</u>

TOTAL KNOWN BOND ISSUES: 47.4 mm

ASSUMPTION:

The State wishes to assist its municipalities and avoid loss of the Statewide construction season as it pertains to locally funded capital projects.

ALTERNATIVE SOLUTIONS:

1. Fund all projects directly out of the General Fund as grants. (Cost: \$47,400,000).
2. State purchase of bonds issued by the Bond Bank or a municipality at the 7 1/2 - 8 percent level. Hold the bonds in the State portfolio for resale when the market improves. (Cost: \$47,400,000).
3. Direct the Bond Bank to sell its bonds at market and have the Bond Bank purchase municipal debt at the 7 1/2 - 8 percent level. Appropriate the differential to the Bond Bank along with necessary reserve funds to leverage the unexpected increase in bonds sold this fiscal year. (Cost: \$6,000,000).

DISCUSSION:

1. Alternate 1 is rejected as too costly to the State. Municipalities have the debt capacity and their citizens have indicated a willingness to bear the debt burden.
2. Alternate 2 is rejected as a poor investment of State funds. Emergency subsidy can be provided without either temporary or long-term use of \$47,400,000.
3. Alternate 3 is preferred as it uses the least amount of State funds and fully solves the problem. The Bond Bank would utilize approximately \$2,765,000 to increase its leveraging reserves to handle the unanticipated increase in bond sale volume. Approximately \$3,235,000 would be utilized to provide the full subsidy required for the life of the bonds.
4. Funds not utilized for subsidy (dependent on market improvement) would be available to use as leveraging reserves in FY 81.
5. Municipal Bonds would be purchased at the "capper" rate previously approved by municipal voters in each respective political subdivision. In cases where a "capper" has not been prescribed, the 8 percent figure will be used.
6. Action in this matter, in a timely manner, is essential as the inability to raise funds for construction will delay projects and result in further inflated costs. The sagging construction industry cannot afford a further decline in activity. While bonded costs are \$47,400,000, total construction is much higher as other State and Federal funds are being used -- contingent on the availability of local funds.

RECOMMENDATION:

1. That the sum of \$6,000,000 be added to the Bond Bank Statutory Reserve Fund through supplemental appropriation.
2. That the Bond Bank sell its bonds at prevailing market rates. That proceeds be used to purchase municipal bonds in the approximate amount of \$47,400,000; and the above appropriation be utilized for leverage reserves and subsidy.
3. That the sale of bonds on behalf of Anchorage, Bristol Bay Borough and Sitka, take place on or about March 12, 1980, dependent upon date of passage of supplemental funding. Sale of bonds on behalf of the other cities will take place in late April as presently scheduled or at another date as specified by the cities involved.

DAVE ROSE
FEB 26, 1980

Municipal Newsletter

February 25, 1980

What municipal bond market? Just when we thought things couldn't get worse, the bottom fell out. The Bond Buyer's Municipal Bond Index went off the scale with an unprecedented jump of 71 basis points in one week, to stand at 8.46%.

The chaotic money market situation is a result of the failure of the Carter Administration to recognize the problem, let alone the solutions. The current annualized inflation rate of 20% is a result of continuing federal deficits and the very rapid rise in petroleum prices. These problems aren't going to be solved by high interest rates; in fact, the record high interest rates of today are in themselves inflationary.

Unless the government takes immediate, decisive action to come to grips with the problem, it will get worse before it gets better. High interest rates may be with us through the balance of this year, and as long as inflation continues at the present rate, we will simply have to get used to tax-exempt bond rates at current high levels. Expect to see tax-exempt revenue bond interest rates in excess of 10%. Buyers will be interested mostly in higher quality bonds and in staying with shorter term maturities. It may be difficult or impossible to find a market for some of the lesser quality issues that only a few months ago would have been well received by the market.

It is a time for careful planning of capital improvement financing.

POSITION PAPER / Department of Health and Social Services

POSITION PAPER

HOUSE BILL 956

"An Act making a special appropriation to the Department of Health and Social Services for a mental health transitional facility in Anchorage; and providing for an effective date."

Federal law defines a transitional facility as:

"A program of transitional half-way house services for mentally ill individuals who are residents of its catchment area and who have been discharged from a mental health facility or would without such services require inpatient care in such a facility." Presently, this sector in the continuum of care for the mentally ill adult and adolescent in Alaska is deficient.

The State Plan and Governor's Mental Health Advisory Council all include such a program as high priority. The Department of Health and Social Services recognizes the need for a transitional facility in Anchorage. The chronic mentally ill require both housing and daily supervision to adjust to their return to the community. The present facilities in Anchorage do not provide either the appropriate environment or adequate daily programming. There is also a need for a transitional facility for emotionally disturbed adolescents.

We have a technical suggestion in terms of form. Since capital expenditures cannot be funded under the auspices of Alaska Statute 47.30.520-620, the Community Mental Health Services Act, any capital portion of the \$450,000 should be funded under Alaska Statute 18.25.010 and be appropriated to Department of Health and Social Services, Division of State Health Planning and Development. Any program portion of the \$450,000 should be funded under the Alaska Statute 47.30.520-620 and appropriated to Department of Health and Social Services, Division of Mental Health and Developmental Disabilities.

There is a statewide need for transitional facilities for the chronically mentally ill and emotionally disturbed adolescents. The Anchorage area provides an excellent pilot arena for a model program due to the presence of the Alaska Psychiatric Institute and the Anchorage Community Mental Health Clinic..

SUBJECT: HB 957

The cost of HB 957 is difficult to estimate because it would vary directly with the types and numbers of projects planned for inclusion by the Governor in next year's capital budget. It is my opinion, however, that sufficient funding will be budgeted to allow for better documentation of those projects that are recommended for appropriation by the Governor. An example of this type of funding is attached (capital budget request for Department of Transportation and Public Facilities).

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 37.07.060, GOVERNOR'S RECOMMENDATION, is amended in part
to read:

. . . .

(b) The governor shall present the proposed comprehensive operating and capital improvements programs and financial plans in a message to a joint session of the legislature before the fourth legislative day following the convening of the legislature in regular session. The message shall be accompanied by an explanatory report which summarizes recommended goals, plans, and appropriations. The report shall contain

(1) the coordinated program goals and objectives which the governor recommends to guide the decisions on the proposed program plans and budget appropriations;

(2) his operating program and budget recommendations for the succeeding fiscal year;

(3) his capital improvements program and budget recommendations for the succeeding fiscal year and capital improvements program for the succeeding six fiscal years which shall include

(A) a description of each project, its estimated cost for the year construction is to start and the estimated cost adjusted for inflation over the assumed period of construction, and the source of financing. New building or facility projects and major additions to buildings or facilities should include as part of the project description a site plan, preliminary drawings and architects or engineers total project cost estimate.

RE: Legislative Intent -
Tenakee Health Center
Facility

J. H. Hogan, Director
Legislative Finance Division
Legislative Affairs Agency
Pouch WF
Juneau, Alaska 99811

Dear Mr. Hogan:

The first session of the 11th Legislature requested that this Department develop and submit to the second session a schematic plan and cost estimate for a Health Center at Tenakee. The attached plan and cost estimate covers a basic Health center plus two options for a public safety facility and a community center. This proposal has been developed in cooperation with the officials of the City of Tenakee.

Sincerely,

Robert W. Ward
Commissioner
