A recap of the following pages from the Department of Revenue's Source Book publications shows the amount of Marine Fuel Tax collected for the past few years and the estimated tax for FY 81 and FY 82.

<u>Fiscal Year</u>	<u>Actual</u>	<u>Estimate</u>
1977	1,400	
1978	2,100	
1979	2,600	
1980	3,200	
1981		3,400
1982		3,600

The proceeds from the Marine Fuel Tax are deposited in the Watercraft Fuel Tax Account in the general fund and may be appropriated for water and harbor facilities. However, this account is not tracked by municipalities, so it is impossible to compare the amount paid into the account by a municipality to what that municipality receives back for their water and harbor facilities.

Sec. 43.40.010. Tax on transfers or consumption of motor fuel and expenditure of proceeds. (a) There is levied a tax of eight cents a gallon on all motor fuel sold or otherwise transferred within the state, except that

- (1) the tax on aviation gasoline is four cents a gallon,
- (2) the tax on motor fuel used in and on watercraft of all descriptions is five cents a gallon, and
- (3) the tax on all aviation fuel other than gasoline is two and one-half cents a gallon.

(b) There is levied a tax of eight cents a gallon on all motor fuel consumed by a user, except that

- (1) the tax on aviation gasoline consumed is four cents a gallon,
- (2) the tax on motor fuel used in and on watercraft of all descriptions is five cents a gallon, and

(3) the tax on all aviation fuel other than gasoline is two and one-half cents a gallon.

(c) Every dealer who sells or otherwise transfers motor fuel in the state shall collect the tax at the time of sale, and remit the total tax collected during each calendar month of each year to the Department of Revenue by the last day of each succeeding month. Every user shall likewise remit the tax accrued on motor fuel actually used by him during each month. At the time the remittance is made, each dealer or user shall submit a statement to the Department of Revenue showing all motor fuel which he has distributed or used during the month.

(d) Repealed by § 3 ch 166 SLA 1976.

(e) Sixty per cent of the proceeds of the revenue from the taxes on aviation fuel, excluding the amount determined to have been spent by the state in its collection, shall be refunded to a municipality owning and operating or leasing and operating an airport in the proportion that the revenue was collected at the municipal airport. All other proceeds of the taxes on aviation fuel shall be paid into a special aviation fuel tax account in the state general fund. The legislature may appropriate funds from this account for aviation facilities.

(f) The proceeds from the revenue from the tax on motor fuel used in boats and watercraft of all descriptions shall be deposited in a special watercraft fuel tax account in the general fund. The legislature may appropriate from this account for water and harbor facilities.

(g) The proceeds of the revenue from the tax on all motor fuels, except as provided in (e), (f), and (j) of this section, shall be deposited in a special highway fuel tax account in the state general fund. The legislature may appropriate funds from it for expenditure by the Department of Public Works directly or as matched with available federal-aid highway money

for maintenance of highways, construction of highway projects and ferries included in the program provided for in AS 19.10.150, including approaches, appurtenances and related facilities and acquisition of rights-of-way or easements, and other highway costs including surveys, administration, and related matters. All departments of the state government authorized to spend funds collected from taxes imposed by §§ 10—100 of this chapter shall perform, when feasible, all construction or reconstruction projects by contract after the projects have been advertised for competitive bids, except that, when feasible, arrangements shall be made with political subdivisions to carry out the construction or reconstruction projects. If it is not feasible for the work to be performed by state engineering forces, the commissioner of public works may contract on a professional basis with private engineering firms for road design, bridge design, and services in connection with surveys. If more than one private engineering firm is available for the work the contracts shall be entered into on a negotiated basis.

(h) All motor fuel tax receipts shall be paid into the general fund and distributed to the proper accounts in the general fund. Valid motor fuel tax refund claims shall be paid from the highway fuel tax account in the general fund.

(i) Within 30 days after the legislature convenes the Department of Public Works shall submit an annual budget covering anticipated revenues and their expenditure, for the consideration and approval by the legislature. The budget shall cover all money collected or anticipated to be collected under §§ 10—100 of this chapter for the year following the adjournment of each regular session of the legislature.

(j) The proceeds from the tax on motor fuel used in snow vehicles and, unless a tax refund is applied for under § 40 of this chapter, other internal combustion engines not used in or in conjunction with a motor vehicle licensed to be operated on public ways shall be deposited in a special nonpublic highway use account in the general fund. The legislature may appropriate from this account to the Department of Highways for trail staking and shelter construction and maintenance.

(k) The tax on the transfer or consumption of motor fuel provided for in this section does not apply to liquified petroleum gas. (§ 48-5-2 ACLA 1949; am § 1 ch 80 SLA 1951; am § 1 ch 47 SLA 1955; am §§ 1, 2 ch 27 SLA 1957; am § 1 ch 134 SLA 1957; am § 1 art VI title II ch 152 SLA 1957; am § 2 art V title III ch 152 SLA 1957; am § 2 ch 124 SLA 1959; am §§ 1, 2 ch 20 SLA 1960; am § 1 ch 150 SLA 1960; am § 1 ch 110 SLA 1961; am § 1 ch 136 SLA 1961; am §§ 1—3 ch 131 SLA 1962; am § 1 ch 130 SLA 1968; am § 10 ch 143 SLA 1968; am §§ 1, 2 ch 216 SLA 1968; am §§ 1—3 ch 158 SLA 1970; am § 3 ch 58 SLA 1971; am §§ 1, 2 ch 124 SLA 1971; am §§ 2, 3 ch 125 SLA 1971; am §§ 1—3 ch 153 SLA 1972; am § 3 ch 166 SLA 1976; am §§ 1, 2 ch 116 SLA 1977)

Cross reference. — For civil penalty imposed for failure to file a return or report, or pay the full amount of a tax, or a portion or a deficiency of the tax, see AS 43.05.220.

Effect of amendments. — The 1976 amendment repealed subsection (d), which provided for an additional amount to be added to the tax for failure to file a return and remit the tax within the time prescribed by law or prescribed by the department pursuant to law, due to wilful neglect.

The 1977 amendment rewrote paragraph (2) of subsection (a) and paragraph (2) of subsection (b).

Editor's note. — Section 1, ch. 125, SLA 1971, provides: "Intent. The intent of this Act is to provide funds for trail staking and shelter construction and maintenance projects in sparsely populated areas where the interests of safety require their establishment for the protection of traveling citizens of the state."

Purpose of subsection (g). — The purpose of the dedication of the taxes on motor fuels contained in subsection (g) of this section is public highways. 1959 Op. Att'y Gen., No. 9.

A proposed alteration going to the geographical area of expenditure rather

than to the special purpose of a dedication, does not contravene the constitution. 1959 Op. Att'y Gen., No. 9.

Amendment of 1957 effected no change in dedication. — The 1957 amendment to this section, which reduced the tax on motor fuel used in commercial fishing crafts for purposes of commercial fishing from five cents to two cents per gallon, effected no change in the dedication inasmuch as the reduction in the tax was coupled with an exemption from the refund of three cents per gallon formerly allowed to users of fuel in commercial fishing craft for commercial purposes. Nothing has been done which increased or decreased the dedication. 1959 Op. Att'y Gen., No. 14.

Civil Air Patrol exempt. — The Civil Air Patrol is exempt from taxation under the Alaska Motor Fuel Oil Tax Act because it is an instrumentality of the federal government. 1961 Op. Att'y Gen., No. 26.

But volunteer members of Civil Air Patrol are not exempt. 1961 Op. Att'y Gen. No. 26.

Am. Jur. and C.J.S. references. — 51 Am. Jur., Taxation, §§ 1260 to 1279.

53 C.J.S. Licenses § 30.

Sec. 43.40.020. Penalty for violation. (a) A person who violates a provision of §§ 10—100 of this chapter upon conviction is punishable for each violation by a fine of not less than \$50 nor more than \$5,000, or by imprisonment for not more than one year, or by both. Each day's violation is a separate offense.

(b) Repealed by § 3 ch 116 SLA 1977. (§ 48-5-3 ACLA 1949; am § 4 ch 153 SLA 1972; am § 3 ch 116 SLA 1977)

Effect of amendment. — The 1977 amendment repealed subsection (b), which read "A person who claims the nonpropulsion use fuel tax exemption under § 10 (a) (2) or § 10 (b) (2) of this chapter and who uses a portion of the

CSHB 110

CSHB 110 expands the WICHE Student Exchange Program by adding the fields of maritime technology and the study of chiropractic medicine. The priority of the Commission on Postsecondary Education is maritime technology, for the following reasons:

1. Maritime technology, for WICHE purposes is a four-year merchant marine and ship engineering program. This program is available at only two schools in the nation, one of which is in California, the California Maritime Academy in Vallejo.
2. Maritime technology has been formally approved by the thirteen WICHE compact states as an exchange field (at the request of Washington and Oregon).
3. We already have six Alaskan students who have applied for admission and WICHE certification and have been admitted, pending final WICHE certification.
4. With the large tanker and shipping industry serving much of Alaska, the program should be most beneficial in helping Alaskans enter this growing industry.

POSITION PAPER

CS FOR HOUSE BILL NO. 114. (Finance)

"An Act relating to the Office of Alcoholism and Drug Abuse in the Department of Health and Social Services, and combining the Review Board on Alcoholism with the Advisory Board on Drug Abuse".

Combining the two advisory boards would improve the continuity of service planning and delivery, facilitate board involvement in planning, budget allocation and oversight, and save State money at several levels.

The Office of Alcoholism and Drug Abuse were administratively combined by the Legislature in 1977. The Office has, in the five years of its existence as a single agency, gradually integrated its functions in order to provide support functions as effectively as possible. Accordingly, the Office has adopted common philosophies and procedures for planning, administration, prevention, intervention and training services. The Office has experienced no detriment to program or support services as a result of this commonality. The Office does recognize that serious abusers of alcohol and narcotics require different treatment approaches.

Recent trends however, indicate an increase in use of more than one drug, including alcohol. In 1980, 23.7% of drug treatment admissions listed alcohol as a secondary drug. In 1981, 27.1% listed alcohol as a secondary drug. Additionally, the local programs available in fifty-three communities provide services to both alcohol and other drug abusers, referring as needed to specialized narcotic drug treatment in Anchorage or Fairbanks. If the boards are combined, the State's response to the needs of combined programs and the poly drug abusing client would be more effective. Local service providers would experience relief from the necessity of communicating with members of two boards, and in some cases, the necessity of writing, presenting, and reporting on two separate grants for essentially the same services.

Another major area of benefit would result from the bill's provisions for regional membership. The program interests in different portions of the state would have better access to the Board and better representation. It is expected that services would, as a result, better meet the area's needs. The Board members could also play a more active role in coordinating services and strategies with allied service and planning agencies in their respective regions, including Health Systems Agencies. The Department feels that this regional membership configuration, together with the Alcohol and Drug Abuse Board's designation as a subcommittee of the Statewide Health Coordinating Council, would greatly enhance the effectiveness of the entire health care system. It would provide a direct access route for local program interests into statewide health planning. Similarly a combined board would be able to relate more effectively with other state departments and divisions encountering alcohol and other drug problems.

From an administrative standpoint greater efficiency would be realized in several ways. First, substantial savings would accrue from the reduced travel: currently, the Office pays travel and per diem for both Board's and staff to attend at least eight full Board meetings per year. Under the

proposed legislation, the number would be reduced to four. Aside from travel cost savings, personnel time and administrative expenses necessary to arrange, prepare for, and otherwise support the activity of eight Board meetings would be reduced by approximately half.

While the above discussion describes cost savings at the level of the State Office, still further advantages would be realized at the grantee, or service provider level, should the proposed Board combination occur. Many of the Office's grantees budget for attendance at one or more Board meetings in order to keep abreast of policy and ensure continuity of program effort from the state to the local level. Since the great majority of these community agencies provide service to both alcohol and other drug abuses, contact with both Boards is usually maintained. If the boards are combined, the desirable level of contact with statewide policy advisors could be achieved at less cost, and the money saved could be redirected toward providing local services.

The Department strongly recommends passage of the proposed legislation.

POSITION PAPER

CS FOR HOUSE BILL NO. 114

"An Act relating to the Office of Alcoholism and Drug Abuse in the Department of Health and Social Services, and combining the Review Board on Alcoholism with the Advisory Board on Drug Abuse".

Combining the two advisory boards would improve the continuity of service planning and delivery, facilitate board involvement in planning, budget allocation and oversight, and save State money at several levels.

The Office of Alcoholism and Drug Abuse were administratively combined by the Legislature in 1977. The Office has, in the five years of its existence as a single agency, gradually integrated its functions in order to provide support functions as effectively as possible. Accordingly, the Office has adopted common philosophies and procedures for planning, administration, prevention, intervention and training services. The Office has experienced no detriment to program or support services as a result of this commonality. The Office does recognize that serious abusers of alcohol and narcotics require different treatment approaches.

Recent trends however, indicate an increase in use of more than one drug, including alcohol. In 1980, 23.7% of drug treatment admissions listed alcohol as a secondary drug. In 1981, 27.1% listed alcohol. Additionally, the local programs available in fifty-three communities provide services to both alcohol and other drug abusers, referring as needed to specialized narcotic drug treatment in Anchorage or Fairbanks. If the boards are combined, the State's response to the needs of combined programs and the poly drug abusing client would be more effective. Local service providers would experience relief from the necessity of communicating with members of two boards, and in some cases, the necessity of writing, presenting, and reporting on two separate grants for essentially the same services.

Another major area of benefit would result from the bill's provisions for regional membership. The program interests in different portions of the state would have better access to the Board and better representation. It is expected that services would, as a result, better meet the area's needs. The Board members could also play a more active role in coordinating services and strategies with allied service and planning agencies in their respective regions, including Health Systems Agencies. The Department feels that this regional membership configuration, together with the Alcohol and Drug Abuse Board's designation as a subcommittee of the Statewide Health Coordinating Council, would greatly enhance the effectiveness of the entire health care system. It would provide a direct access route for local program interests into statewide health planning. Similarly a combined board would be able to relate more effectively with other state departments and divisions encountering alcohol and other drug problems.

From an administrative standpoint greater efficiency would be realized in several ways. First, substantial savings would accrue from the reduced travel: currently, the Office pays travel and per diem for both Board's and staff to attend at least eight full Board meetings per year. Under the

proposed legislation, the number would be reduced to four. Aside from travel cost savings, personnel time and administrative expenses necessary to arrange, prepare for, and otherwise support the activity of eight Board meetings would be reduced by approximately half.

While the above discussion describes cost savings at the level of the State Office, still further advantages would be realized at the grantee, or service provider level, should the proposed Board combination occur. Many of the Office's grantees budget for attendance at one or more Board meetings in order to keep abreast of policy and ensure continuity of program effort from the state to the local level. Since the great majority of these community agencies provide service to both alcohol and other drug abuses, contact with both Boards is usually maintained. If the boards are combined, the desirable level of contact with statewide policy advisors could be achieved at less cost, and the money saved could be redirected toward providing local services.

The Department strongly recommends passage of the proposed legislation.

POSITION PAPER

HOUSE BILL NO. 114

H8 114

"An Act relating to the Office of Alcoholism and Drug Abuse in the Department of Health and Social Services, and combining the Review Board on Alcoholism with the Advisory Board on Drug Abuse".

Combining the two advisory boards would improve the continuity of service planning and delivery, facilitate board involvement in planning, budget allocation and oversight, and save State money at several levels.

The Office of Alcoholism and Drug Abuse were administratively combined by the Legislature in 1977. The Office has, in the five years of its existence as a single agency, gradually integrated its functions in order to provide support functions as effectively as possible. Accordingly, the Office has adopted common philosophies and procedures for planning, administration, prevention, intervention and training services. The Office has experienced no detriment to program or support services as a result of this commonality. The Office does recognize that serious abusers of alcohol and narcotics require different treatment approaches.

Recent trends however, indicate an increase in use of more than one drug, including alcohol. In 1980, 23.7% of drug treatment admissions listed alcohol as a secondary drug. In 1981, 27.1% listed alcohol. Additionally, the local programs available in fifty-three communities provide services to both alcohol and other drug abusers, referring as needed to specialized narcotic drug treatment in Anchorage or Fairbanks. If the boards are combined, the State's response to the needs of combined programs and the poly drug abusing client would be more effective. Local service providers would experience relief from the necessity of communicating with members of two boards, and in some cases, the necessity of writing, presenting, and reporting on two separate grants for essentially the same services.

Another major area of benefit would result from the bill's provisions for regional membership. The program interests in different portions of the state would have better access to the Board and better representation. It is expected that services would, as a result, better meet the area's needs. The Board members could also play a more active role in coordinating services and strategies with allied service and planning agencies in their respective regions, including Health Systems Agencies. The Department feels that this regional membership configuration, together with the Alcohol and Drug Abuse Board's designation as a subcommittee of the Statewide Health Coordinating Council, would greatly enhance the effectiveness of the entire health care system. It would provide a direct access route for local program interests into statewide health planning. Similarly a combined board would be able to relate more effectively with other state departments and divisions encountering alcohol and other drug problems.

From an administrative standpoint greater efficiency would be realized in several ways. First, substantial savings would accrue from the reduced travel: currently, the Office pays travel and per diem for both Board's and staff to attend at least eight full Board meetings per year. Under the

proposed legislation, the number would be reduced to four. Aside from travel cost savings, personnel time and administrative expenses necessary to arrange, prepare for, and otherwise support the activity of eight Board meetings would be reduced by approximately half.

While the above discussion describes cost savings at the level of the State Office, still further advantages would be realized at the grantee, or service provider level, should the proposed Board combination occur. Many of the Office's grantees budget for attendance at one or more Board meetings in order to keep abreast of policy and ensure continuity of program effort from the state to the local level. Since the great majority of these community agencies provide service to both alcohol and other drug abuses, contact with both Boards is usually maintained. If the boards are combined, the desirable level of contact with statewide policy advisors could be achieved at less cost, and the money saved could be redirected toward providing local services.

The Department strongly recommends passage of the proposed legislation.

HB 114

February 2, 1981

Speaker of the House
Alaska State Legislature
Pouch V
Juneau, AK 99811

Dear Mr. Speaker:

Under the authority of art. III, sec. 18, of the Alaska Constitution, I am transmitting a bill which would combine the Review Board on Alcoholism with the Advisory Board on Drug Abuse. The combined board would save money for travel, per diem, and staff support and would afford those interested in both alcoholism and drug abuse access to the state health planning process because the combined board would be a standing committee of the Statewide Health Coordinating Council. The bill would also give the combined board regional membership which would promote cooperation with regional health systems agencies and would make it possible for communities working on both alcoholism and drug abuse to work with only one board.

This bill also would amend the powers of the Office of Alcoholism and Drug Abuse to provide authority to combat drug abuse. The legislature recently amended the name of the office to include drug abuse, however, a corresponding change was not made in the law relating to its authority to prevent drug abuse.

Sincerely,

S/JS#
