This bill creates a task force that will have 8-10 months to analyze the need and make recommendations for vocational and technical education in Alaska.

In light of the extensive historical involvement of the Bureau of Indian Affairs in this field of education for Alaska Natives and in light of the continuing needs of Alaska Native young people to have appropriate opportunities there should be an addition to page 1, line 27: (10) an employee of the Bureau of Indian Affairs who has had experience with the vocational training programs.

There should be an interface of the University of Alaska with the vocational education that is being offered. Teacher training and actual vocational training in certain fields are two specific desired aspects of this interface. Therefore a suggested addition to page 1, line 27 is: (11) an employee of the University of Alaska who is familiar with curriculum development in the university system.

The Department supports the concept of these bills.

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

Sections 1 - 3 have no budget impact except in the event of a disaster. This funding is received from the Governor's Emergency Fund.

Section 5 & 7 will require expenditures of \$330.0 in FY84, \$197.0 in FY85, and \$454.0 in FY86. Beginning FY87, the expenditures will decrease each year as current (1980-81) members drawing the old bonus payment will begin to retire or leave the Guard for other reasons. As these older members retire or drop out, the new program will have completed paying 33 1/3% of the new members. Attached to this fiscal note is a breakdown of the payments to be paid FY 84-87.

Section 6 extends reimbursement of tuition to retired members. About 15 retired members would use this benefit. The average reimbursement is \$125.00 for active members. Shown above as \$5,000 each year.

House Bill 244

"An Act making special appropriations for hospital expansion and improvement in Petersburg and Wrangell; and providing for an effective date"

House Bill 244 makes special appropriations in the form of grants for hospital expansion and improvement in Petersburg and Wrangell in the respective amounts of \$7,100,000 and \$6,500,000.

The Department of Health and Social Services has for several years noted deficiencies at Petersburg and Wrangell hospitals. Most of the deficiencies relate to the physical plant of each hospital or are "operating" deficiencies resulting from the constraints of the physical plant. The department supports efforts to correct the deficiencies, many of which have possible impact upon patient life and safety.

Petersburg General Hospital

In August of 1981 the Department issued a Certificate of Need to Petersburg General Hospital approving the requested expenditure of \$7,150,000 for renovation/replacement of the hospital facility. Since the issuance of the Certificate of Need, further assessments by the hospital's architect have resulted in an increase of the estimated cost of the project to \$9,155,000. The hospital is presently requesting a modification of the existing Certificate of Need to reflect the higher estimated cost.

Chapter 50, Session Laws of Alaska 1980, appropriated \$1,500,000 for the renovation of Petersburg General Hospital. The \$7,100,000 appropriated by HB 244 when added to the available \$1,500,000 provides a total of State grant assistance for the project of \$8,600,000.

The Department views the renovation/replacement of Petersburg General Hospital as essential to the continued offering of hospital services in Petersburg. The preliminary reports of the rural hospital inventory and condition survey and past licensure/certification visits and past architectural surveys offer severe criticisms of the existing facility. The structural deficiencies of the facility have made it necessary for the Department to disallow surgery (other than emergency surgery) at the hospital. The Department has also indicated that it will not be possible to recommend continued medicare and medicaid certification of the hospital unless the facility is improved.

Wrangell General Hospital

In August of 1981 the Department issued a Certificate of Need to Wrangell General Hospital approving the requested expenditure

Position Paper
House Bill 244
Page 2

of \$6,870,000 for the renovation/expansion of the facility. Further progress is pending financing, since the application indicated that state assistance would be needed for this community.

Past certification/licensure visits and architectural surveys have noted several structural deficiencies at the facility. Most of the deficiencies result from space shortages in treatment, staff, and ancillary areas. The facility has some building code and life safety code violations, many of which are occasioned simply because space is short and storage areas are inadequate. The facility also has certain mechanical and electrical conditions which violate codes and should be corrected as part of the hospital's planned renovation and expansion, or separately, should the planned renovation and expansion be delayed for any significant period.

Wrangell General Hospital does have some deficiencies which require correction and this small community does not have the capability to totally undertake all needed changes or improvements to its hospital. While small and in need of renovation - and therefore state assistance - correction for Wrangell General Hospital's condition is not as urgent as is that of Petersburg. It is the position of the Department that the Petersburg General Hospital is a top priority for state assistance in replacing this structure.

As a step toward the development of a rational approach to health facility construction the Department of Health and Social Services has begun an inventory and condition survey of rural Alaskan hospitals and nursing homes. The purpose of the survey is two-fold: 1) to develop a detailed record of the current condition of each participating facility, emphasizing physical condition and functional adequacy, and 2) to identify positive means for upgrading each facility to correct any deficiencies. This survey is scheduled for completion in mid-February, 1982.

Even though the final inventory and condition survey report is not yet available to provide a justifiable estimate of the costs involved in bringing the rural Alaskan hospitals up to current standards, it is evident to the Department from a reading of the preliminary reports, past contacts with the subject facilities, and informal observations that several health care facilities around the State are in need of extensive renovation or replacement and that the associated costs will exceed the ability of the subject facilities to acquire the capital necessary to meet those costs. It would appear that in the absence of such state assistance in the form of grants, the renovation/replacement of rural hospitals and nursing homes will not be feasible.

The Department of Health and Social Services believes that State assistance for renovation, replacement, and expansion of existing hospitals and nursing homes in the form of grants may be appropriate for publicly owned or not-for-profit facilities; however, it is also realized that the availability of such grant funds may be limited. For this reason the Department supports

Position Paper
House Bill 244
Page 3

the concept of state grants for hospital construction, but believes that the priority for such funds should be placed on facilities which are in need of renovation, replacement, and/or expansion in order to assure the continued offering of hospital services within their respective communities, and are unable to secure other types of financing. The Department would further recommend consideration of the development of a long range health facility construction program to equitably address the construction needs of all health facilities in the State.

III. ANALYSIS (See Fiscal Note Preparation Instruction, Section III)

This Bill, in and of itself, does not create a need for additional funding. Should several other similar requests for hospital construction funding be approved in the same year the Department may find it necessary to provide additional staffing to handle an increased workload.
