Re: Senate Bill No. 612

Dear Mr. Chairman:

This Bill would amend AS 43.20.016(a) to increase the portion of net income tax proceeds from 10 percent to 30 percent that the Legislature may appropriate to the Municipal Assistance Fund. While the Administration believes that the methods of providing municipal assistance should be re-examined and overhauled (and will shortly be introducing legislation to that effect), the rationale in SB 612 for increasing this formula program from 10 to 30 percent is that legislation enacted last year significantly shifted State tax revenues from the oil and gas income tax to the oil and gas severance tax.

As a consequence that revenue shift between tax types, the amount of income taxes the State will collect in the future is materially reduced. For example, in FY 83, under the old oil and gas income tax laws, the revenue to the State would have been \$1086.8 million (according to the Legislative Finance Division). Add this to the \$35 million we project for the rest of the income tax, and the total income tax revenues the State would be receiving in FY 83 would have been \$1121.8 million. With the new law, we foresee some \$304 million in income tax in FY 83 from the oil industry and the same \$35 million, making a total of \$339.0 million.

You can see that the formulary 10 percent of the revenues under the old income tax laws would be \$112.18 million, whereas with the new laws it is \$33.90 million. If the 10 percent figure were changed to 30 percent, the formulary amount under the new income tax laws would be \$101.70 million. Thus, if the formulary approach is the one that the State continues to follow (and bear in mind that the Administration believes there are better alternatives to provide for municipal revenue sharing), the increase in the percentage from 10 to 30 percent under SB 612 would very nearly restore the formulary amount of income that may be shared with the municipalities to the level it would have been had oil and gas tax revenues not been shifted away from the income tax to the severance tax.

 2. FY 81-84 from "Revenue Sources", Alaska Department of Revenue, January 1982.
FY 85-90 projected to be 40.0 because growth in corporate income tax liabilities will be offset by the accelerated depreciation provisions of the Economic Recovery Tax Act of 1981.
 3. Col. 1 + Col. 2
 4. Under current law, an amount equal to or greater than 10% of the prior fiscal year's income tax revenue may be appropriated for municipal assistance.
 5. SB 612 would raise the amount to 30% or more; no effective date is specified, but presumably the first appropriation at the higher level is intended to be for FY 84. This would mean a slight decrease for FY 83. Of course, even under current law, any amount may be appropriated.

POSITION PAPER
CS FOR SENATE BILL NO. 615

CS for SB 615 is "An Act providing for the planning of a Medical and Health Services School in the University of Alaska at Anchorage."

CS for SB 616 is "An Act making a special appropriation to the University of Alaska for development of a plan for a Medical and Health Services School at Anchorage; and providing for an effective date."

The first Bill CS for SB 615 requires the University of Alaska prepare a plan for the planned development of a Medical and Health Services School to be located in Anchorage. The plan is to include five points that will cause the program to enhance health care to Alaskans.

The second bill CS for SB 616 provides for the sum of \$150,000 to fund a study and resultant plan to create a Medical and Health Services School at Anchorage.

The Department feels this proposed study and the time schedule laid out to accomplish the program, coupled with the five areas to be approached will produce a plan that will enable an informed decision to be made.

We support the passage of CS for Senate Bills 615 and 616.

III. ANALYSIS (See Fiscal Note Preparation Instruction, Section III)

The estimated impact for FY 82 is based on an effective date of May 1, 1982. (The proposed legislation reads "takes effect immediately.") The FY 82 amount is estimated from anticipated FY 83 costs. Beyond FY 83, a 9% inflation factor has been applied.

If the proposed legislation is enacted, it is anticipated claims would increase 50%. The current staff for the Violent Crimes Compensation Board consists of the program administrator and a clerical position. The anticipated increase in casework will necessitate the addition of an Administrative Assistant (Range 12) and associated costs, including equipment.

With the increase in claims and investigation necessary for claims, the Violent Crime Compensation Board would hold several additional Board meetings at a cost of approximately \$4,500, plus additional hearings for approximately \$4,000.

Public awareness of this major statute change will require TV spots, and radio (see bottom of page)
