THIRTEENTH LEGISLATURE - SECOND SESSION

5

A BILL

6 For an Act entitled: "An Act relating to leasing land for refuse dis-
7 posal."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. AS 38.05.315(f) is amended to read:

10 (f) The commissioner shall lease state land for telephone or
11 electric transmission and distribution lines for less than the ap-
12 praised value of the land if the lessee is a nonprofit cooperative
13 association organized under AS 10.25.010 - 10.25.650. The commis-
14 sioner may lease state land that is not located within the boundary of
15 a municipality for the disposal of garbage, refuse, trash, or other
16 waste material for less than the appraised value of the land if the
17 lessee is a licensed public utility authorized to collect and dispose
18 of garbage, refuse, trash, or other waste material outside the bound-
19 aries of a municipality. Before determining [HE DETERMINES] the
20 annual rental, the commissioner shall consider the nature of the
21 public service rendered by the nonprofit cooperative association or
22 licensed public utility and the terms of the grant under which the
23 land was acquired by the state. A nonprofit cooperative association
24 may not construct improvements other than transmission or distribution
25 lines and substations on land leased under this subsection. A li-
26 icensed public utility may not construct permanent improvements on land
27 leased under this subsection that are not related to the purpose of
28 the lease.

Official Business

Alaska State Legislature

House of Representatives

Pouch V
State Capitol
Juneau, Alaska 99811

BACKGROUND of HB 542

Rural communities in unorganized boroughs or any community without a central government have been handicapped in obtaining property to be used as a land refuse. This has been due to the inability of the Department of Natural Resources to allow lease of the land for less than the appraised value to any one other than a municipality, a Co-op or a registered non-profit entity. Non-profit entities are discouraged from participating in this lease program due to the amount of paper work involved and the University of Alaska is becoming adamant about not leasing any more of their land for refuse disposal. Co-ops can not use their leased land for garbage disposal. THIS BILL will permit DNR to lease State owned land at less than the appraised value to licensed public utilities who are authorized to collect and dispose of garbage and refuse in thier area. The public utilities --under this bill--will be able to make a minimal charge to their customers to amortize their lease rather than a prohibitive one.

This bill will benefit all residents of an unorganized community and solve a very difficult and impossible situation with regard to obtaining land for garbage disposal.

When this bill is enacted, it is predicted the air pollution problem will be improved in many parts of Alaska.

ANALYSIS OF HB 542

1. Section 1---AS 38.05.315 is amended to allow the State of Alaska to lease land not located within the boundary of a municipality to a licensed public utility authorized to collect and dispose of garbage or trash at less than its appraised value.
2. Provides for the Commissioner to determine the annual rental after considering the purpose for which the land will be used.
3. Provides that a licensed public utility may not construct permanent improvements on land leased for refuse unless improvements are directly related to the purpose of the lease.

6 For an Act entitled: "An Act relating to the obstruction or hindrance of
7 lawful hunting, fishing, or trapping."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. AS 16.05 is amended by adding new sections to read:

10 Sec. 16.05.925. OBSTRUCTION OR HINDRANCE OF LAWFUL HUNTING,
11 FISHING, OR TRAPPING. (a) A person may not perform an act with the
12 intent to obstruct or hinder hunting, fishing, or trapping engaged in
13 lawfully by another person.

14 (b) For purposes of (a) of this section, "lawfully" means

15 (1) in accordance with AS 16, regulations adopted under
16 AS 16, and applicable federal statutes and regulations; and

17 (2) with the permission of the private landowner if the
18 hunting, fishing, or trapping is engaged in on private land.

19 (c) A peace officer who has probable cause to believe that a
20 person has violated this section may order the person to desist. The
21 officer may cite or arrest the person upon refusal to desist.

22 (d) This section does not apply to obstruction or hindrance that
23 is incidental to the lawful use of public or private land or water.

24 (e) A person who violates this section is guilty of a mis-
25 demeanor punishable by a fine of not more than \$500 or imprisonment
26 for not more than 30 days or both.

27 Sec. 16.05.926. CIVIL REMEDIES. (a) A person aggrieved by
28 conduct in violation of AS 16.05.925 or threatened with such conduct
29 may petition a superior court to enjoin the respondent from engaging

1 in such conduct.

2 (b) A person aggrieved by a violation of AS 16.05.925 is en-
3 titled to recover general damages and special damages, including
4 license and permit fees, travel costs, guide fees, special equipment
5 and supplies, and other related expenses.

6 (c) A court may award punitive damages in addition to the dam-
7 ages set out in (b) of this section.

Fiscal Analysis
CSHB 548 (Finance)

"Assistance for community health aide program."

State assistance for provision of CSHB 548 (HESS) would require a total appropriation in FY 85 of \$2,280.0. This calculation is based upon the following consideration.

(1) \$30.0 to used for expenses of conducting a community health aide program x 12 Regional Health Corps.	360.0
(2) \$ 8.0 per each primary community health aide x 230	1,840.0
(3) \$80.0 Health Observer Program for 10 communities	80.0
TOTAL	<u>\$2,280.0</u>

The additional General Funds required to meet the obligations as proposed in CSHB 548 (HESS) in FY 85 would be \$1,295.6. This projected expenditures is based upon the off set from the FY 85 Governor's budget for this program. This funding FY 85 request is as follows:

Department of Health and Social Services

Health grants BRU. Community Health Grants Component	\$ 814.4
Maniilaq BRU. Health Services Component	\$ 170.0
Total FY 85 Governor's Budget	\$ 984.4
Total HB 54P Required	\$2,280.0
<Governor's Requested>	<u>984.4</u>
	\$1,295.6

FY 86 thru FY 89 budget estimates include the Governor's FY 84 off-set, incorporates a 5% annual inflationary adjustment and an incremental growth for the Health Observer Program from \$80.0 in FY 85, to \$168.0 in FY 86 and \$264.0 in FY 87. The proposed budget for the Health Observer Program is based upon the assumption that:

- (a) approximately 30 communities would qualify for this program; and,
- (b) due to the pilot nature of this project, a maximum of 10 communities would be served during FY 85 assuming demonstrated feasibility and an additional 10 would be incorporated in FY 86 and with maximum community involvement not occurring until FY 87.

POSITION PAPER

COMMITTEE SUBSTITUTE FOR HOUSE BILL No. 548 (FINANCE)

For "An act relating to State assistance for community health aide programs; and providing for an effective date."

This bill provides for expansion of financial assistance to non-profit health organizations for training and supervision of community health aides (CHA) or equivalently trained individuals. Funding will be provided through a two phased formula that allocates: 1) a \$30,000 base for each regional corporation serving more than 4,000 square miles, plus \$8,000 for each primary CHA or similar individual who averages at least 20 hours of service a week; 2) for local corporations providing services to less than 4,000 square miles, funding provided through this formula would be limited to \$8,000 per CHA or similar individual.

BACKGROUND

Community Health Aide

Community health aides provide primary health care to approximately 37,000 to 40,000 people in bush communities. A CHA is a community based medical paraprofessional who provides limited diagnostic and treatment services through standing orders or in radio/telephone consultation with IHS or health corporation physicians. Health care training of a CHA is based on a standardized curriculum consisting of three basic sessions that are oriented towards utilizing the Guidelines for Primary Health Care In Rural Alaska, adopted by Alaska Area Native Health Service. Qualifications for being a primary CHA require completion of first session with certification depending upon completion of all three sessions. In addition to the requirements for basic sessions, a CHA must complete a preceptorship with a supervising physician at a medical centers and attend continuing education session that range from 1-2 days, to 1-2 weeks once a year. In addition, CHA's have periodic contact with supervisor/ instructors (S/I) employed by the corporations. The S/I are generally mid-level practitioners or registered nurses, who conduct site visits 1-3 times a year for continuing education, skills evaluation and administration. In addition, the state public health nurses provide education and support during their itinerant visits.

The number of CHAs per village varies with population size ranging from a half-time equivalent to a maximum of two. In addition to the primary community health aides, alternates are also assigned to provide relief support and coverage during absence of the primaries. Training for alternate aides varies widely with the minimum standards that range from emergency trauma technician skills to completion of the first basic session.

Historically the CHA program has been sponsored and funded by the Federal Indian Health Service (IHS). This program was formulated in 1967 although the concept and practices have a longer history. Until recent years financial support for this program rested solely with the Federal Government which contracted with regional or local corporations. Starting in FY 82, selected health corporations received designated state grants through direct legislative appropriation for support of community health aide supervision and training.

This trend has continued through the current fiscal year budget approaching \$1,100.0 being allocated towards support of programs in the areas of the Bristol Bay Health Corporation, Yukon-Kuskokwim Health Corporation, Norton Sound Health Corporation, Maniilaq Association and Tanana Chiefs Conference. The FY 85 Governor's Budget maintains these services and expands assistance for training and supervision programs into the areas of Aleutian Pribilof Island Association and Southeast Regional Health Corporation. The need for State support of the CHA programs has been recognized as a means of addressing problems associated with provision of health care in rural communities. While the Federal budget supports a basic level of service there are insufficient funds to meet the demands for adequate field supervision by supervisor/instructors, training of the aides in all three basic three sessions, and salary support for alternates. In addition to an insufficient Federal budgetary base, State involvement is also based upon the issues of responsibility for rural health services. While CHAs are theoretically responsible for provision of care to IHS beneficiaries, by virtue of being the only community based primary medical provider, aides care for non-beneficiaries also.

Similarly Trained Individuals

This bill (Sec. 18.28.010 (b)) provides for support of individuals with training similar to that of a CHA as defined by the Department of Health and Social Services. It should be noted that a crucial aspect of the CHA program is its interaction with the Indian Health Services (IHS) which assures medical supervision, patient referral and quality control that are necessary elements of health care. A functional definition of a similar program must incorporate a supervisory and referral system. Duplication of the IHS system is not feasible in terms of cost and legal constraints for all parties involved. The only program that is conceptually comparable is a pilot project currently being developed by the Southeast Alaska Regional Health Corporation under a grant from this Department. While this project is not a replication of CHA services it does offer a degree of similarity in that it is a means of providing limited primary care in isolated rural communities.

RECOMMENDATIONS

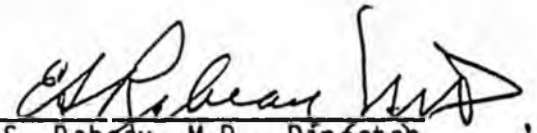

Given that a similar training program and the necessary infrastructure do not exist, the Department anticipates to define "similar" in terms of the Health Observer Project currently being piloted by the Southeast Alaska Regional Health Corporation. Grants provided through this bill would be directed to Regional Emergency Medical Services Council or Regional Health Corporations and not directly with the individual communities. This would be necessary in order to assure cost effective utilization of the funds through economy of scale and assure continuity of service.

Position Paper CSHB 548 (FINANCE)
Page 3

POSITION

The Department of Health and Social Services recognizes the value of community health aide and similar programs in providing primary medical care in rural communities and strongly supports the enhancement of supervision and training as provided by this bill.

ANCHORAGE, ALASKA 99510

Representative Al Adams
Alaska House of Representatives
Pouch V
Juneau, Alaska 99811

Dear Mr. Adams:

I have just reviewed HB 548, "An act relating to state assistance for Community Health Aide Programs; and providing for an effective date." I would like to go on record as supporting this significant legislation in terms of the Community Health Aide Program (CHAP).

As Director of the Alaska Area Native Health Service, I have come to know and appreciate the importance of the CHAP in helping to make possible an improved health status of Alaskan Natives. Community Health Aides (CHAs) are located in 171 isolated communities, from Point Hope to Kasaan. They provide year round primary health care coverage. Not only does this coverage consist of emergency and acute care, it also embraces a wide range of health surveillance and other preventive activities. Drugs may be administered by a CHA under a physician's direction. The CHA, then, represents the front line in the delivery of health care, the link between village residents and the appropriate health care backup system.

The foundation of the CHAP is formed by a consistent training program, which includes a published curriculum and skills list. Using established guidelines and tested approaches to training, health care professionals, whether in the training centers or the field, are better able to relate to training needs of the CHAs. CHA certification is offered to those CHAs who are able to acquire the skills and successfully meet other training requirements. Certification is a milestone for a CHA in the acquisition of specified competencies, and it indicates that a CHA may practice safely with an high level of independence. The term "practitioner" is often used when referring to CHAs who have reached the certificate level.

Representative Adams
Community Health Aide Program
March 19, 1984

Page 2

The difficulty of making appropriate health care accessible and cost-effective to sparsely populated and widely scattered villages remains an acute problem in many countries. The achievements of the CHAP in helping to reduce this health care service gap in rural Alaska has repeatedly been recognized and acknowledged by health care professionals. The CHAP has been regarded by the World Health Organization as a model program because of its success in utilizing the village resident in improving his own health status.

With the passage of HB 548, significant resources will be made available. From the viewpoint of AANHS, the strong funding assistance proposed in the bill is welcomed and encouraged. This bill will allow not only for program maintenance but also for continued growth and improvement. Passage of this bill will also see the State of Alaska making a much-appreciated budget commitment to the overall program. It is apparent that if the configuration of well-trained CHAs providing primary health care services from small rural clinics is to be maintained and enhanced, the combined resources of the State of Alaska, the Regional Health Corporations, and AANHS will be required.

Sincerely,

G. H. Ivey
Director
Alaska Area Native Health Service

SENATE CS FOR HOUSE BILL NO. 548 (Finance)

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act relating to state assistance for community health aide programs; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 18 is amended by adding a new chapter to read:

CHAPTER 28. STATE ASSISTANCE FOR COMMUNITY HEALTH AIDE PROGRAMS.

Sec. 18.28.010. COMMUNITY HEALTH AIDE GRANTS. (a) During each fiscal year a qualified regional health organization is entitled to a grant of \$30,000 to be used for expenses of conducting a community health aide program.

(b) During each fiscal year a qualified regional health organization or local health organization is entitled to a grant of \$8,000 for each primary community health aide or person with similar training as determined by the department who averaged at least 20 hours of service each week paid for by the health organization during the previous fiscal year. A grant under this subsection may only be used for

(1) training of community health aides, including tuition and travel to training programs;

(2) supervision of community health aides, including travel for supervisors;

(3) alternate community health aides; for purposes of this subparagraph an alternate community health aide is a person who assists the primary community health aide when necessary and acts in the

1 absence of the primary health aide.

2 (c) Within limits of appropriations for the purpose, the depart-
3 ment shall compute and pay a grant under (a) and (b) of this section
4 to each qualified regional health organization and under (b) of this
5 section to each qualified local health organization.

6 Sec. 18.28.020. QUALIFICATIONS. To qualify for a community
7 health aide grant a regional or local health organization must

8 (1) have received money from the federal government for a
9 community health aide program during the fiscal year for which the
10 grant is sought or be engaged in conducting a program that meets
11 standards established by the department and is similar to a community
12 health aid program;

13 (2) provide the services of community health aides on a
14 nondiscriminatory basis for the benefit of the public;

15 (3) apply for the grant in accordance with application
16 requirements of the department or negotiate a contract with the
17 department if the regional or local health organization provides other
18 contract services for the state; and

19 (4) supply information requested by the department.

20 Sec. 18.28.030. COMMUNITY HEALTH AIDE GRANT ACCOUNT. (a) The
21 community health aide grant account is established in the department.
22 Money to carry out the provisions of this chapter shall be appropri-
23 ated to the account and distributed as community health aide grants by
24 the department.

25 (b) Each fiscal year the department shall determine the amount
26 of money needed to fund all grants under AS 18.28.010 during the next
27 fiscal year and shall request an appropriation of that amount from the
28 legislature. If the amount appropriated to the account is not suffi-
29 cient to finance all grants, the money shall be distributed pro rata

1 among qualified regional and local health organizations.

2 Sec. 18.28.040. LIABILITY LIMITATION. The state is not liable
3 for any injury that may result from use of money awarded by the state
4 as a community health aide grant.

5 Sec. 18.28.050. REGULATIONS. The department may adopt regula-
6 tions necessary to carry out the provisions of this chapter.

7 Sec. 18.28.060. DEFINITIONS. In this chapter

8 (1) "department" means the Department of Health and Social
9 Services;

10 (2) "local health organization" means a nonprofit corpo-
11 ration or other entity that provides health services in a rural area
12 that is less than 4,000 square miles;

13 (3) "primary community health aide" means a person who has
14 completed the first of three levels of community health aide training
15 offered by the Norton Sound Health Corporation at the Nome Hospital,
16 the Kuskokwim Community College in Bethel, or the Alaska Area Native
17 Health Service;

18 (4) "regional health organization" means a nonprofit corpo-
19 ration or home rule borough that provides health services in a rural
20 area that is at least 4,000 square miles.

21 * Sec. 2. This Act takes effect July 1, 1984.

6 For an Act entitled: "An Act relating to state assistance for community
7 health aide programs; and providing for an effective
8 date."

9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

10 * Section 1. AS 18 is amended by adding a new chapter to read:

11 CHAPTER 28. STATE ASSISTANCE FOR COMMUNITY HEALTH AIDE PROGRAMS.

12 Sec. 18.28.010. COMMUNITY HEALTH AIDE GRANTS. (a) During each
13 fiscal year a qualified regional health organization is entitled to a
14 grant of \$30,000 to be used for expenses of conducting a community
15 health aide program.

16 (b) During each fiscal year a qualified regional health orga-
17 nization or local health organization is entitled to a grant of \$8,000
18 for each primary community health aide or person with similar training
19 as determined by the department who averaged at least 20 hours of
20 service each week paid for by the health organization during the
21 previous fiscal year. A grant under this subsection may only be used
22 for

23 (1) training of community health aides, including tuition
24 and travel to training programs;

25 (2) supervision of community health aides, including travel
26 for supervisors;

27 (3) alternate community health aides; for purposes of this
28 subparagraph an alternate community health aide is a person who as-
29 sists the primary community health aide when necessary and acts in the

1 absence of the primary health aide.

2 (c) Within limits of appropriations for the purpose, the depart-
3 ment shall compute and pay a grant under (a) and (b) of this section
4 to each qualified regional health organization and under (b) of this
5 section to each qualified local health organization.

6 Sec. 18.28.020. QUALIFICATIONS. To qualify for a community
7 health aide grant a regional or local health organization must

8 (1) have received money from the federal government for a
9 community health aide program during the fiscal year for which the
10 grant is sought or be engaged in conducting a program that meets
11 standards established by the department and is similar to a community
12 health aid program;

13 (2) provide the services of community health aides on a
14 nondiscriminatory basis for the benefit of the public;

15 (3) apply for the grant in accordance with application
16 requirements of the department; and

17 (4) supply information requested by the department.

18 Sec. 18.28.030. COMMUNITY HEALTH AIDE GRANT ACCOUNT. (a) The
19 community health aide grant account is established in the department.
20 Money to carry out the provisions of this chapter shall be appropri-
21 ated to the account and distributed as community health aide grants by
22 the department.

23 (b) Each fiscal year the department shall determine the amount
24 of money needed to fund all grants under AS 18.28.010 during the next
25 fiscal year and shall request an appropriation of that amount from the
26 legislature. If the amount appropriated to the account is not suffi-
27 cient to finance all grants, the money shall be distributed pro rata
28 among qualified regional and local health organizations.

29 Sec. 18.28.040. LIABILITY LIMITATION. The state is not liable

1 for any injury that may result from use of money awarded by the state
2 as a community health aide grant.

3 Sec. 18.28.050. REGULATIONS. The department may adopt regula-
4 tions necessary to carry out the provisions of this chapter.

5 Sec. 18.28.060. DEFINITIONS. In this chapter

6 (1) "department" means the Department of Health and Social
7 Services;

8 (2) "local health organization" means a nonprofit corpo-
9 ration or other entity that provides health services in a rural area
10 that is less than 4,000 square miles;

11 (3) "primary community health aide" means a person who has
12 completed the first of three levels of community health aide training
13 offered by the Norton Sound Health Corporation at the Nome Hospital,
14 the Kuskokwim Community College in Bethel, or the Alaska Area Native
15 Health Service;

16 (4) "regional health organization" means a nonprofit corpo-
17 ration or home rule borough that provides health services in a rural
18 area that is at least 4,000 square miles.

19 * Sec. 2. This Act takes effect July 1, 1984.

MISTER CHAIRMAN AND MEMBERS OF THE SENATE FINANCE COMMITTEE, I AM REPRESENTATIVE ADELHEID. I REPRESENT DISTRICT 26 WHICH IS BRISTOL BAY, THE WESTERN ALASKA PENNINSULA, AND THE ALEUTIAN AND PRIBILOF ISLANDS. I WANT TO THANK YOU FOR GIVING ME THIS OPPORTUNITY TO ADDRESS THE COMMITTEE SUBSTITUTE FOR HOUSE BILL 548. I AM THE SPONSOR OF HOUSE BILL 548 ON COMMUNITY HEALTH AIDES, AND I AM REQUESTING THAT THE COMMITTEE TAKE FAVORABLE ACTION ON THIS BILL TODAY.

FOR YOUR CONVENIENCE, BACK-UP MATERIAL ON THE BILL HAS BEEN PROVIDED, BUT I WOULD LIKE TO TAKE THE TIME TO SUMMARIZE FOR YOU THE KEY POINTS ABOUT THE COMMUNITY HEALTH AIDE PROGRAM.

COMMUNITY HEALTH AIDES ARE THE BACKBONE OF HEALTH CARE THROUGHOUT RURAL ALASKA. OVER 40,000 ALASKANS IN 171 COMMUNITIES THROUGHOUT RURAL ALASKA ARE SERVED BY COMMUNITY HEALTH AIDES. IN MANY OF THESE COMMUNITIES WHERE THERE IS A SHORTAGE OF MEDICAL PROFESSIONALS OR HEALTH CARE FACILITIES, THE HEALTH AIDES PROVIDE THE ONLY AVAILABLE SERVICES. COMMUNITY HEALTH AIDES PROVIDE ROUTINE CARE AND HANDLE EMERGENCY SITUATIONS. THEY ARE ALSO ENGAGED IN A RANGE OF HEALTH SURVEILLANCE AND OTHER PREVENTIVE CARE PRACTICES. UNDER A PHYSICIAN'S DIRECTION, A COMMUNITY HEALTH AIDE MAY ADMINISTER DRUGS, AND FLU SHOTS, TREAT DISEASES AND INJURIES, AND CARE FOR THE TERMINALLY ILL. COMMUNITY HEALTH AIDES ARE RESPONSIBLE FOR HEALTH CARE DELIVERY THROUGHOUT RURAL ALASKA AND PROVIDE THE LINK BETWEEN THESE COMMUNITIES AND THE APPROPRIATE HEALTH CARE BACKUP SYSTEM.

Please submit as written testimony from the sponsor and note in committee that testimony has been submitted -

Thank you

IN ORDER TO BECOME CERTIFIED, A COMMUNITY HEALTH AIDE MUST COMPLETE

- THREE TEN WEEK COURSES OF FORMAL INSTRUCTION,
- A PRECEPTORSHIP, AND,
- PASS AN EXAMINATION.

HOWEVER, AT THE CURRENT TIME, LESS THAN HALF OF THE STATE'S COMMUNITY HEALTH AIDES ARE CERTIFIED. THOSE WHO ARE CERTIFIED OFTEN OPERATE WITHOUT THE APPROPRIATE SUPERVISION. FOR THOSE WHO ARE CERTIFIED THERE IS NO OPPORTUNITY TO RECEIVE ADDITIONAL TRAINING ON NEW HEALTH CARE TECHNIQUES, OR TO TAKE REFRESHER COURSES. FEDERAL FUNDS HAVE NEVER BEEN ADEQUATE FOR TRAINING, SUPERVISING, AND CERTIFYING COMMUNITY HEALTH AIDES IN AN EFFICIENT MANNER. THIS HAS RESULTED IN A LACK OF STANDARDIZATION IN THE PROGRAM, AND HAS LED TO MANY SITUATIONS WHERE ABLE AND HARD WORKING HEALTH AIDES HAVE BEEN FORCED TO PRACTICE WITHOUT CERTIFICATION.

THE BILL PROVIDES FUNDS NEVER BEFORE PROVIDED BY THE FEDERAL GOVERNMENT, FOR HEALTH AIDES TO RECEIVE THE NECESSARY TRAINING. THE BILL ESTABLISHES A FUNDING FORMULA MANDATING THAT STATE FUNDS FOR COMMUNITY HEALTH AIDE PROGRAMS BE ALLOCATED ON AN EQUITABLE BASIS. THE BILL AND THE FUNDS ARE CRITICAL FOR ACHIEVING STATEWIDE STANDARDIZATION AND CERTIFICATION OF COMMUNITY HEALTH AIDES.

THE COMMUNITY HEALTH AIDE PROGRAM IS THE HEALTH CARE PROGRAM FOR RURAL ALASKA, AND IS ONE OF THE MOST COST EFFECTIVE HEALTH CARE PROGRAMS THE STATE COULD EVER HOPE TO HAVE. WITHOUT THE PROGRAM THE STATE WOULD BE FORCED TO INCUR THE EXPENSE OF STATIONING HIGH PAID MEDICAL PROFESSIONALS THROUGHOUT THE STATE, OR HAVING A SYSTEM TO TRANSPORT PATIENTS INTO AREAS WITH LARGER HEALTH FACILITIES FOR BOTH EMERGENCY AND ROUTINE CARE.

KEEP IN MIND THAT IN MOST COMMUNITIES SERVED BY HEALTH AIDES, THERE IS NO OTHER TRAINED PERSON WHO CAN PROVIDE BOTH ROUTINE PRIMARY HEALTH CARE AND HANDLE EMERGENCY SITUATIONS. NO OTHER PROGRAM CAN REPLACE THE COMMUNITY HEALTH AIDE PROGRAM. NO OTHER SOURCE OF FUNDING OR SUPPORT IS AVAILABLE TO BRING THE COMMUNITY HEALTH AIDES UP TO AN ACCEPTABLE AND STANDARDIZED LEVEL OF CERTIFICATION. WITHOUT PASSAGE OF THIS BILL, WE RISK JEOPARDIZING NOT ONLY THE PROGRAM, BUT THE VERY HEALTH AND WELFARE OF OVER 40,000 CITIZENS OF THE STATE OF ALASKA. THE BILL IS SUPPORTED BY THE DEPARTMENT OF HEALTH AND SOCIAL SERVICES, THE 12 REGIONAL HEALTH DIRECTORS, THE LOCAL HEALTH AGENCIES INVOLVED, THE ALASKA NATIVE HEALTH BOARD, THE ALASKA WOMEN'S COMMISSION, AND THE LARGE NUMBER OF ALASKAN RESIDENTS WHO DEPEND UPON THESE SERVICES. AND IT IS ON THIS BASIS THAT REPRESENTATIVE HERRMANN REQUESTS THAT YOU PASS THE COMMITTEE SUBSTITUTE FOR HB 518 OUT OF THE SENATE HESS COMMITTEE TODAY.

I WANT TO THANK YOU FOR YOUR CONCERN AND YOUR SUPPORT.

POSITION PAPER

COMMITTEE SUBSTITUTE FOR HOUSE BILL No. 548 (FINANCE)

For "An act relating to State assistance for community health aide programs; and providing for an effective date."

This bill provides for expansion of financial assistance to non-profit health organizations for training and supervision of community health aides (CHA) or equivalently trained individuals. Funding will be provided through a two phased formula that allocates: 1) a \$30,000 base for each regional corporation serving more than 4,000 square miles, plus \$8,000 for each primary CHA or similar individual who averages at least 20 hours of service a week; 2) for local corporations providing services to less than 4,000 square miles, funding provided through this formula would be limited to \$8,000 per CHA or similar individual.

BACKGROUND

Community Health Aide

Community health aides provide primary health care to approximately 37,000 to 40,000 people in bush communities. A CHA is a community based medical paraprofessional who provides limited diagnostic and treatment services through standing orders or in radio/telephone consultation with IHS or health corporation physicians. Health care training of a CHA is based on a standardized curriculum consisting of three basic sessions that are oriented towards utilizing the Guidelines for Primary Health Care In Rural Alaska, adopted by Alaska Area Native Health Service. Qualifications for being a primary CHA require completion of first session with certification depending upon completion of all three sessions. In addition to the requirements for basic sessions, a CHA must complete a preceptorship with a supervising physician at a medical centers and attend continuing education session that range from 1-2 days, to 1-2 weeks once a year. In addition, CHA's have periodic contact with supervisor/ instructors (S/I) employed by the corporations. The S/I are generally mid-level practitioners or registered nurses, who conduct site visits 1-3 times a year for continuing education, skills evaluation and administration. In addition, the state public health nurses provide education and support during their itinerant visits.

The number of CHAs per village varies with population size ranging from a half-time equivalent to a maximum of two. In addition to the primary community health aides, alternates are also assigned to provide relief support and coverage during absence of the primaries. Training for alternate aides varies widely with the minimum standards that range from emergency trauma technician skills to completion of the first basic session.

Historically the CHA program has been sponsored and funded by the Federal Indian Health Service (IHS). This program was formulated in 1967 although the concept and practices have a longer history. Until recent years financial support for this program rested solely with the Federal Government which contracted with regional or local corporations. Starting in FY 82, selected health corporations received designated state grants through direct legislative appropriation for support of community health aide supervision and training.

This trend has continued through the current fiscal year budget approaching \$1,100.0 being allocated towards support of programs in the areas of the Bristol Bay Health Corporation, Yukon-Kuskokwim Health Corporation, Norton Sound Health Corporation, Maniilaq Association and Tanana Chiefs Conference. The FY 85 Governor's Budget maintains these services and expands assistance for training and supervision programs into the areas of Aleutian Pribilof Island Association and Southeast Regional Health Corporation. The need for State support of the CHA programs has been recognized as a means of addressing problems associated with provision of health care in rural communities. While the Federal budget supports a basic level of service there are insufficient funds to meet the demands for adequate field supervision by supervisor/instructors, training of the aides in all three basic three sessions, and salary support for alternates. In addition to an insufficient Federal budgetary base, State involvement is also based upon the issues of responsibility for rural health services. While CHAs are theoretically responsible for provision of care to IHS beneficiaries, by virtue of being the only community based primary medical provider, aides care for non-beneficiaries also.

Similarly Trained Individuals

This bill (Sec. 18.28.010 (b)) provides for support of individuals with training similar to that of a CHA as defined by the Department of Health and Social Services. It should be noted that a crucial aspect of the CHA program is its interaction with the Indian Health Services (IHS) which assures medical supervision, patient referral and quality control that are necessary elements of health care. A functional definition of a similar program must incorporate a supervisory and referral system. Duplication of the IHS system is not feasible in terms of cost and legal constraints for all parties involved. The only program that is conceptually comparable is a pilot project currently being developed by the Southeast Alaska Regional Health Corporation under a grant from this Department. While this project is not a replication of CHA services it does offer a degree of similarity in that it is a means of providing limited primary care in isolated rural communities.

RECOMMENDATIONS

Given that a similar training program and the necessary infrastructure do not exist, the Department anticipates to define "similar" in terms of the Health Observer Project currently being piloted by the Southeast Alaska Regional Health Corporation. Grants provided through this bill would be directed to Regional Emergency Medical Services Council or Regional Health Corporations and not directly with the individual communities. This would be necessary in order to assure cost effective utilization of the funds through economy of scale and assure continuity of service.

POSITION

The Department of Health and Social Services recognizes the value of community health aide and similar programs in providing primary medical care in rural communities and strongly supports the enhancement of supervision and training as provided by this bill.

Fiscal Analysis
CSHB 548 (Finance)

"Assistance for community health aide program."

State assistance for provision of CSHB 548 (HESS) would require a total appropriation in FY 85 of \$2,280.0. This calculation is based upon the following consideration.

(1) \$30.0 to used for expenses of conducting a community health aide program x 12 Regional Health Corps.	360.0
(2) \$ 3.0 per each primary community health aide x 230	1,840.0
(3) \$80.0 Health Observer Program for 10 communities	80.0
TOTAL	<u>\$2,280.0</u>

The additional General Funds required to meet the obligations as proposed in CSHB 548 (HESS) in FY 85 would be \$1,295.6. This projected expenditures is based upon the off set from the FY 85 Governor's budget for this program. This funding FY 85 request is as follows:

Department of Health and Social Services

Health grants BRU. Community Health Grants Component	\$ 814.4
Maniilaq BRU. Health Services Component	\$ 170.0
Total FY 85 Governor's Budget	\$ 984.4
Total HB 548 Required	\$2,280.0
<Governor's Requested>	<u>984.4</u>
	\$1,295.6

FY 86 thru FY 89 budget estimates include the Governor's FY 84 off-set, incorporates a 5% annual inflationary adjustment and an incremental growth for the Health Observer Program from \$80.0 in FY 85, to \$168.0 in FY 86 and \$264.0 in FY 87. The proposed budget for the Health Observer Program is based upon the assumption that:

- (a) approximately 30 communities would qualify for this program; and,
- (b) due to the pilot nature of this project, a maximum of 10 communities would be served during FY 85 assuming demonstrated feasibility and an additional 10 would be incorporated in FY 86 and with maximum community involvement not occurring until FY 87.

MEMORANDUM

Director
Division of Public Health

DATE: March 22, 1984

FILE NO:

TELEPHONE NO: 465-3090

FROM: Dwayne Peeples 
Coordinator
Division of Public Health

SUBJECT: Senate Version FY 85
CHA Funding

The Senate version of Department of Health and Social Services' Community Health Aide funding that would be utilized to off-set the Fiscal Note for CSHB 548 (HESS) would be as follows:

Community Health Grants Component	
Tanana Chiefs Conference	\$257.9
Yukon Kuskokwim Health Corp.	145.7
Kodiak Area Native Assoc.	62.7
Norton Sound Health Corp.	107.4
	<u>\$573.7</u>
Manilaq BRU	\$176.8 (est. 4% +)
Total DHSS	\$750.5

It should be noted that the YKHC figure is derived from a 4% adjustment to the amount requested in FY 84; and the KANA amount is based upon an estimate that 50% of the itinerant program is utilized for CHA activities. The \$163.6 New Health Aide Training Monies have been omitted from this calculation since these funds are for support of health clinics.

In addition, the Kuskokwim Community College has \$147.6 in the FY 84 Governor's Budget Request which would bring the Senate version total off-set to \$898.1.

THE HONORABLE JOE P. JOSEPHSON
Alaska State Senate
1526 "F" Street
Anchorage, AK 99501

Dear Senator Josephson:

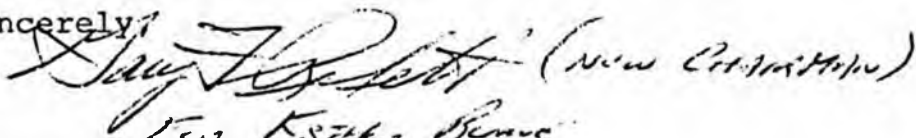

Re: HB 548 Regarding Community Health Aides

The Health Aide Program in the State and especially in rural Alaska has been vitally important to its people. In all cases, the Health Aide is initially the first person to assist the patient in rural settings.

Medical technology has developed rapidly since the territorial days of Alaska, so must our health aides develop in the training program to meet our daily patient care. Totally recognizing the health problem can play a vital direction when professional help is needed.

We all support House Bill 548 in its entirety and hope the members of the House consider our plea.

Sincerely,

ESTHER RONNE

3-14-84

Dear Sirs.

I've been Health aide since 1963, I make \$5.13
an hour. I make home ^{visit} some times after clinic hrs.
I dont get paid for home ~~visit~~ visit, I work after
clinic hrs. some time middle of the night, wake
me up if any who have fever, couldnt sleep much.
to work for my patient, cause I worry about
my patient. I support the bill to give Health
more money.

Josephson,

Senator Joe Josephson, Chairman
Senate Health, Education and
Social Services Committee
State Capitol
Pouch V
Juneau, Alaska 99811

Dear Senator Josephson:

The Alaska Women's Commission would like to thank you for sponsoring HB 548 which requests State assistance for Community Health Aide Programs. Community Health Aides are the primary providers of health care to rural Alaskan residents. There are over 200 Health Aides employed by the 12 regional health corporations throughout the State. Women comprise the largest percentage of employed community Health Aides. As I'm sure you are aware Alaska Native women in the rural areas are in desperate need of employment and this bill would increase employment for this population of women.

In addition, House Bill 548 will benefit women in many other ways. It will provide for improved supervision and increased continuing education for community Health Aides and will ultimately lead to the improvement of health care for all people. In addition, passage of the bill will allow us to more adequately compensate Health Aides by raising salaries, increasing the number of hours they work per day or paying them for extra hours worked.

If the Commission can offer any support for HB 548 please don't hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kathy Marshall".

4 THIRTEENTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act relating to state assistance for community
7 health aide programs; and providing for an effective
8 date."

9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

10 * Section 1. AS 18 is amended by adding a new chapter to read:

11 CHAPTER 28. STATE ASSISTANCE FOR COMMUNITY HEALTH AIDE PROGRAMS.

12 Sec. 18.28.010. COMMUNITY HEALTH AIDE GRANTS. (a) During each
13 fiscal year a qualified regional health organization is entitled to a
14 grant of \$30,000 to be used for expenses of conducting a community
15 health aide program.

16 (b) During each fiscal year a qualified regional health orga-
17 nization or local health organization is entitled to a grant of \$3,000
18 for each primary community health aide or person with similar training
19 as determined by the department who averaged at least 20 hours of
20 service each week paid for by the health organization during the
21 previous fiscal year. A grant under this subsection may only be used
22 for

23 (1) training of community health aides, including tuition
24 and travel to training programs;

25 (2) supervision of community health aides, including travel
26 for supervisors;

27 (3) alternate community health aides; for purposes of this
28 subparagraph an alternate community health aide is a person who as-
29 sists the primary community health aide when necessary and acts in the

1 absence of the primary health aide.

2 (c) Within limits of appropriations for the purpose, the depart-
3 ment shall compute and pay a grant under (a) and (b) of this section
4 to each qualified regional health organization and under (b) of this
5 section to each qualified local health organization.

6 Sec. 18.25.020. QUALIFICATIONS. To qualify for a community
7 health aide grant a regional or local health organization must

8 (1) have received money from the federal government for a
9 community health aide program during the fiscal year for which the
10 grant is sought or be engaged in conducting a program that meets
11 standards established by the department and is similar to a community
12 health aid program;

13 (2) provide the services of community health aides on a
14 nondiscriminatory basis for the benefit of the public;

15 (3) apply for the grant in accordance with application
16 requirements of the department; and

17 (4) supply information requested by the department.

18 Sec. 18.28.030. COMMUNITY HEALTH AIDE GRANT ACCOUNT. (a) The
19 community health aide grant account is established in the department.
20 Money to carry out the provisions of this chapter shall be appropri-
21 ated to the account and distributed as community health aide grants by
22 the department.

23 (b) Each fiscal year the department shall determine the amount
24 of money needed to fund all grants under AS 18.28.010 during the next
25 fiscal year and shall request an appropriation of that amount from the
26 legislature. If the amount appropriated to the account is not suffi-
27 cient to finance all grants, the money shall be distributed pro rata
28 among qualified regional and local health organizations.

29 Sec. 18.28.040. LIABILITY LIMITATION. The state is not liable

1 for any injury that may result from use of money awarded by the state
2 as a community health aide grant.

3 Sec. 18.28.050. REGULATIONS. The department may adopt regula-
4 tions necessary to carry out the provisions of this chapter.

5 Sec. 18.28.060. DEFINITIONS. In this chapter

6 (1) "department" means the Department of Health and Social
7 Services;

8 (2) "local health organization" means a nonprofit corpo-
9 ration or other entity that provides health services in a rural area
10 that is less than 4,000 square miles;

11 (3) "primary community health aide" means a person who has
12 completed the first of three levels of community health aide training
13 offered by the Norton Sound Health Corporation at the Home Hospital,
14 the Kuskokwim Community College in Bethel, or the Alaska Area Native
15 Health Service;

16 (4) "regional health organization" means a nonprofit corpo-
17 ration or home rule borough that provides health services in a rural
18 area that is at least 4,000 square miles.

19 * Sec. 2. This Act takes effect July 1, 1984.

"Assistance for community health aide program."

State assistance for provision of CSHB 548 (HESS) would require a total appropriation in FY 85 of \$2,280.0. This calculation is based upon the following consideration.

(1) \$30.0 to used for expenses of conducting a community health aide program x 12 Regional Health Corps.	360.0
(2) \$ 8.0 per each primary community health aide x 230	1,840.0
(3) \$80.0 Health Observer Program for 10 communities	80.0
TOTAL	<u>\$2,280.0</u>

The additional General Funds required to meet the obligations as proposed in CSHB 548 (HESS) in FY 85 would be \$1,148.0. This projected expenditures is based upon the off set from the FY 85 Governor's budget for this program. This funding FY 85 request is as follows:

Department of Health and Social Services

Health grants BRU. Community Health Grants:	\$551.4
State Health Services BRU. Public Health Administration:	<u>263.0</u>
	\$814.4

Manillaq BRU. Health Services	\$170.0
-------------------------------	---------

University of Alaska

Community Colleges Kuskokwim Community College	\$ 147.6
--	----------

Total FY 85 Governor's Budget	\$1,132.0
-------------------------------	-----------

Total HB 548 Required	\$2,280.0
<Governor's Requested>	<u><1,132.0></u>
	1,148.0

FY 86 thru FY 89 budget estimates include the Governor's FY 84 off-set, incorporates a 5% annual inflationary adjustment and an incremental growth for the Health Observer Program from \$80.0 in FY 85, to \$168.0 in FY 86 and \$264.0 in FY 87. The proposed budget for the Health Observer Program is based upon the assumption that:

- (a) approximately 30 communities would qualify for this program; and,
- (b) due to the pilot nature of this project, a maximum of 10 communities would be served during FY 85 assuming demonstrated feasibility an additional 10 would be incorporated in FY 86 and with maximum community involvement not occurring until FY 87.

Sectional Analysis of House HESS Committee Substitute for HB 548

Section 1.

This section establishes that qualified regional health organizations are entitled to a lump sum of \$30,000 for community health aide programs. Additionally, each regional and local health organization receives \$8,000 for each primary community health aide or person with similar training, who worked at least twenty hours during the previous fiscal year. Under this section the department is responsible for determining whether a person's training is similar to that of a health aide. The \$8,000 can be used for training, supervision, and alternate health aides. This section also establishes that grants are to be paid in accordance with AS 37.05.316 to the extent that those provisions are consistent with the bill. In essence this section establishes a formula for funding organizations with a community health aide or similar program. Previously, funding was granted through the legislative add-on process and was not awarded to all organizations meeting the qualifications of this chapter. This section also describes how the monies can be used.

This section also establishes the qualifications a regional or local health organization must meet in order to receive funds. To qualify, an organization must either have already been involved in the federal community health aide program, or conduct a similar program meeting the standards established by the Department of Health and Social Services. Services must be provided on a nondiscriminatory basis. Grant recipients must follow the department's application requirements and supply them with any information they might request.

Section 1 also discusses the grant account. The account is set up in the Department of Health and Social Services, and the department is responsible for distributing the grants. Money to carry out the provisions of the bill are to be appropriated to the account. The department is responsible for calculating the amount needed to fund all grants during the next fiscal year, and to request this appropriation from the legislature. Insufficient funds are to be distributed pro rata among qualifying local and regional health organizations.

Under the provisions of this section the State is not liable for any injury resulting from the use of the grants awarded by this bill.

This section grants the department the right to adopt regulations to carry out the provisions of the bill. The State has not before made regulations pertaining to community health aides.

Section one also defines "department", "local health organization", "primary community health aide", and "regional health organization".

Section 2

Section 2 provides for an effective date of July 1, 1984

POSITION PAPER

COMMITTEE SUBSTITUTE FOR HOUSE BILL No. 548 (HESS)

For "An act relating to State assistance for community health aide programs; and providing for an effective date."

This bill provides for expansion of financial assistance to non-profit health organizations for training and supervision of community health aides (CHA) or equivalently trained individuals. Funding will be provided through a two phased formula that allocates: 1) a \$30,000 base for each regional corporation serving more than 4,000 square miles, plus \$8,000 for each primary CHA or similar individual who averages at least 20 hours of service a week; 2) for local corporations providing services to less than 4,000 square miles, funding provided through this formula would be limited to \$8,000 per CHA or similar individual.

BACKGROUND

Community Health Aide

Community health aides provide primary health care to approximately 37,000 to 40,000 people in bush communities. A CHA is a community based medical paraprofessional who provides limited diagnostic and treatment services through standing orders or in radio/telephone consultation with IHS or health corporation physicians. Health care training of a CHA is based on a standardized curriculum consisting of three basic sessions that are oriented towards utilizing the Guidelines for Primary Health Care In Rural Alaska, adopted by Alaska Area Native Health Service. Qualifications for being a primary CHA require completion of first session with certification depending upon completion of all three sessions. In addition to the requirements for basic sessions, a CHA must complete a preceptorship with a supervising physician at a medical centers and attend continuing education session that range from 1-2 days, to 1-2 weeks once a year. In addition, CHA's have periodic contact with supervisor/ instructors (S/I) employed by the corporations. The S/I are generally mid-level practitioners or registered nurses, who conduct site visits 1-3 times a year for continuing education, skills evaluation and administration. In addition, the state public health nurses provide education and support during their itinerant visits.

The number of CHAs per village varies with population size ranging from a half-time equivalent to a maximum of two. In addition to the primary community health aides, alternates are also assigned to provide relief support and coverage during absence of the primaries. Training for alternate aides varies widely with the minimum standards that range from emergency trauma technician skills to completion of the first basic session.

Historically the CHA program has been sponsored and funded by the Federal Indian Health Service (IHS). This program was formulated in 1967 although the concept and practices have a longer history. Until recent years financial support for this program rested solely with the Federal Government which contracted with regional or local corporations. Starting in FY 82, selected health corporations received designated state grants through direct legislative appropriation for

This trend has continued through the current fiscal year budget approaching \$1,100.0 being allocated towards support of programs in the areas of the Bristol Bay Health Corporation, Yukon-Kuskokwim Health Corporation, Norton Sound Health Corporation, Maniilaq Association and Tanana Chiefs Conference. The FY 85 Governor's Budget maintains these services and expands assistance for training and supervision programs into the areas of Aleutian Pribilof Island Association and Southeast Regional Health Corporation. The need for State support of the CHA programs has been recognized as a means of addressing problems associated with provision of health care in rural communities. While the Federal budget supports a basic level of service there are insufficient funds to meet the demands for adequate field supervision by supervisor/instructors, training of the aides in all three basic three sessions, and salary support for alternates. In addition to an insufficient Federal budgetary base, State involvement is also based upon the issues of responsibility for rural health services. While CHAs are theoretically responsible for provision of care to IHS beneficiaries, by virtue of being the only community based primary medical provider, aides care for non-beneficiaries also.

Similarly Trained Individuals

This bill (Sec. 18.28.010 (b)) provides for support of individuals with training similar to that of a CHA as defined by the Department of Health and Social Services. It should be noted that a crucial aspect of the CHA program is its interaction with the Indian Health Services (IHS) which assures medical supervision, patient referral and quality control that are necessary elements of health care. A functional definition of a similar program must incorporate a supervisory and referral system. Duplication of the IHS system is not feasible in terms of cost and legal constraints for all parties involved. The only program that is conceptually comparable is a pilot project currently being developed by the Southeast Alaska Regional Health Corporation under a grant from this Department. While this project is not a replication of CHA services it does offer a degree of similarity in that it is a means of providing limited primary care in isolated rural communities.

RECOMMENDATIONS

Given that a similar training program and the necessary infrastructure do not exist, the Department anticipates to define "similar" in terms of the Health Observer Project currently being piloted by the Southeast Alaska Regional Health Corporation. Grants provided through this bill would be directed to Regional Emergency Medical Services Council or Regional Health Corporations and not directly with the individual communities. This would be necessary in order to assure cost effective utilization of the funds through economy of scale and assure continuity of service.

POSITION PAPER/Department of Health & Social Services

Position Paper CSHB 548

Representative Al Adams
Alaska House of Representatives
Pouch V
Juneau, Alaska 99811

Dear Mr. Adams:

I have just reviewed HB 548, "An act relating to state assistance for Community Health Aide Programs; and providing for an effective date." I would like to go on record as [REDACTED]

As Director of the Alaska Area Native Health Service, I have come to know and appreciate the importance of the CHAP in helping to make possible an improved health status of Alaskan Natives. Community Health Aides (CHAs) are located in 171 isolated communities, from Point Hope to Kasaan. They provide year round primary health care coverage. Not only does this coverage consist of emergency and acute care, it also embraces a wide range of health surveillance and other preventive activities. Drugs may be administered by a CHA under a physician's direction. The CHA, then, represents the front line in the delivery of health care, the link between village residents and the appropriate health care backup system.

The foundation of the CHAP is formed by a consistent training program, which includes a published curriculum and skills list. Using established guidelines and tested approaches to training, health care professionals, whether in the training centers or the field, are better able to relate to training needs of the CHAs. CHA certification is offered to those CHAs who are able to acquire the skills and successfully meet other training requirements. Certification is a milestone for a CHA in the acquisition of specified competencies, and it indicates that a CHA may practice safely with an high level of independence. The term "practitioner" is often used when referring to CHAs who have reached the certificate level.

Representative Adams
Community Health Aide Program
March 19, 1984

Page 2

The difficulty of making appropriate health care accessible and cost-effective to sparsely populated and widely scattered villages remains an acute problem in many countries. The achievements of the CHAP in helping to reduce this health care service gap in rural Alaska has repeatedly been recognized and acknowledged by health care professionals. The CHAP has been regarded by the World Health Organization as a model program because of its success in utilizing the village resident in improving his own health status.

With the passage of HB 548, significant resources will be made available. From the viewpoint of AANHS, the strong funding assistance proposed in the bill is welcomed and encouraged. This bill will allow not only for program maintenance but also for continued growth and improvement.

[REDACTED] It is apparent that if the configuration of well-trained CHAs providing primary health care services from small rural clinics is to be maintained and enhanced, [REDACTED]

Sincerely,

G. H. Ivey
Director

Alaska Area Native Health Service

Fiscal Analysis
HB 548

"Assistance for community health aide program."

State assistance for community health aide as proposed in Sec. 18.28.010 (a) would require a total appropriation in FY 85 of \$2,176.0. This calculation is based upon the following consideration.

(1) \$30.0 to used for expenses of conducting a community health aide program x 12 Regional Health Corps.	360.0
(2) \$ 8.0 per each primary community health aide x 227	1,816.0
TOTAL	\$2,176.0

The additional General Funds required to meet the obligations as proposed in HB 548 in FY 85 would be \$1,044.0. This projected expenditures is based upon the off set from the FY 85 Governor's budget for this program. This funding request is as follows:

Department of Health and Social Services

Health grants BRU. Community Health Grants:	\$551.4
State Health Services BRU. Public Health Administration:	263.0
	\$814.4

Manilaq BRU. Health Services	\$170.0
------------------------------	---------

University of Alaska

Community Colleges Kuskokwim Community College	\$ 147.6
--	----------

Total FY 85 Governor's Budget	\$1,132.0
-------------------------------	-----------

Total HB 548 Required	\$2,176.0
<Governor's Requested>	<1,132.0>
	1,044.0

Estimate expenditure increase FY 86 thru FY 89 is based upon an 5% annual inflation adjustment.

If the Department recommendations concerning elimination of salary supports are adopted, the total program cost in FY 85 would be \$1,722.0 Additional general fund allocations necessary in FY 85 would be \$590.

POSITION PAPER

HOUSE BILL No. 548

For an act "An act relating to State assistance for community health aide programs; and providing for an effective date."

This bill provides for expansion of financial assistance to the regional health corporations for community health aide (CHA) programs by subsidizing supervision and training and alternate community health aide salaries. Funding will be provided to the health corporations through a formula that allocates \$30.0 base for each corporation and \$8.0 for each primary community health aide who averages at least 20 hours of services a week.

BACKGROUND

Community health aides provide primary health care to approximately 37,000 to 40,000 people in bush communities. A CHA is a community based medical para-professional who provides limited diagnostic and treatment services under standing orders or in radio/telephone consultation with IHS or health corporation physicians. Health care training of a CHA is based on a standardized curriculum consisting of a ten week core course taught in three sessions, a preceptorship and on-the-job skills acquisition. Training is based on the Guidelines for Primary Health Care In Rural Alaska, adopted by the Alaska Area Native Health Service. An individual may begin to function as a primary CHA before completion of the entire training program, but certification is not awarded until all training requirements are met. Most corporations attempt to provide at least one continuing education or refresher course each year. CHAs have periodic contact with supervisor/instructors (S/I) employed by the corporations. The S/Is are generally mid-level practitioners or registered nurses who attempt to visit each CHA 1-3 times a year for continuing education, skills evaluation and administration. In addition, the state public health nurses provide educational and program support during their itinerant visits.

The number of CHAs per village varies with population size ranging from a half-time equivalent to a maximum of two. In addition to the primary community health aides, CHA alternates are also assigned to provide relief support and coverage during absence of the primaries. Training for alternate aides varies widely with minimum standards that range from emergency trauma technician skills to completion of the first basic session.

Historically the CHA program has been sponsored and funded by the Federal Indian Health Service (IHS). This program was formulated in 1967 although concept and practices have a longer history. Until recent years financial support for this program rested solely with the Federal Government through contracts with the regional health corporations. Starting in FY 82, selected health corporations received designated State grants through direct legislative appropriation for support of community health aide supervision and training.

This trend has continued through the current fiscal year with approximately \$1,100.0 being allocated towards support of programs sponsored by the Bristol Bay Health Corporation, Yukon-Kuskokwim Health Corporation, Norton Sound Health Corporation, Maniilaq Association and the Tanana Chiefs Conference. The FY 85 Governor's Budget request maintains these grants and provides for expansion of training and supervision programs for organizations such as the Aleutian Pribilof Island Association and Southeast Regional Health Corporation.

The need for State support of the CHA programs has been recognized as a means of addressing problems associated with provision of health care in rural communities. While the Federal budget supports a basic level of service, there are insufficient funds to meet the demands for adequate field supervision by supervisor/instructors, training of the aides to the certification level, and salary support for alternates. State assistance to the CHA program is also based upon the fact that Federal appropriations for the program are intended to provide health care only for the Native population while, in fact, CHAs, by virtue of being the only health care providers in many bush communities, must provide primary care services to the entire population, both Native and non-Native.

RECOMMENDATIONS

While State support of this program will greatly enhance opportunities for CHAs to complete the entire training program, obtain closer supervision and increase stability through salaries for the alternates, there are several inherent problems with increasing State involvement. With the probability of increasing federal funding constraints, there is potential that as the State increases its involvement, IHS will correspondingly decrease its financial commitment for this program. In addition, there is potential for legal and ethical state responsibility for medical malpractice liability of the community health aides and alternates. Currently medical malpractice is covered through the Federal Tort Claims Act for IHS beneficiaries. The issue of liability for non-beneficiaries within the Federal structure and legal consequences of the State paying for salaries has yet to be resolved. At this time, the Department of Health and Social Services recommends the State continue its role in supervision and training, but refrain from direct involvement in salaries by deleting in Sec. 18.28.010 (a)(2) (c). It is also recommended that formula funding in (a) (1) be modified from \$8.0 per primary health aide to \$6.0 per aide to reflect only the costs of training and supervision.

POSITION

The Department of Health and Social Services recognizes the value of community health aide program in providing primary medical care in bush communities and supports the enhancement of supervision and training. It is in the best interest of the State that the image and status of CHAs be enhanced, but the department strongly recommends direct involvement in salaries not be pursued until the State obtains further experience with this program and the malpractice issues are clarified.
