4 THIRTEENTH LEGISLATURE - FIRST SESSION

5 A BILL

6 For an Act entitled: "An Act establishing the Tanana Valley State Forest
7 and a program for the management of state forests and
8 forest land of the state; and providing for an effec-
9 tive date."

10 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

11 * Section 1. AS 41.17 is amended by adding new sections to read:

12 ARTICLE 2. STATE FOREST SYSTEM.

13 Sec. 41.17.200. STATE FOREST PURPOSES. The purpose of AS 41.-
14 17.200 - 41.17.230 is to permit the establishment of designated state-
15 owned or acquired land and water areas as state forests. The primary
16 purpose in the establishment of state forests is the perpetuation of
17 personal, commercial, and other beneficial uses of resources through
18 multiple-use management.

19 Sec. 41.17.210. STATE FORESTS. (a) The governor may propose to
20 the legislature the establishment of state forests consisting primar-
21 ily of commercially valuable forest land determined by the governor to
22 be necessary for retention in state ownership for management under the
23 principles of multiple use and sustained yield and consistent with
24 AS 38.04.005. The proposal of the governor shall include a report and
25 recommendations of the commissioner including

26 (1) a preliminary forest inventory;

27 (2) a summary of the testimony offered at public hearings
28 held on the management of the proposed state forest in communities
29 proximately located to a proposed state forest;

1 (3) the findings of the commissioner on anticipated incom-
2 patibilities of uses described in AS 41.17.230(e) under AS 41.17.-
3 230(f);

4 (4) written comments from appropriate state agencies on the
5 compatibility of the uses described in AS 41.17.230(e) within the
6 proposed state forest;

7 (5) an estimate of the cost of a full implementation of an
8 operational level forest inventory and the management plan.

9 (b) A state forest established by the legislature shall be
10 retained in state ownership.

11 Sec. 41.17.220. MANAGEMENT OF STATE FORESTS. Land within a
12 state forest or within a unit of a state forest shall be managed under

13 (1) the principles of multiple-use and sustained yield;

14 (2) this chapter; and

15 (3) a management plan prepared by the department.

16 Sec. 41.17.230. MANAGEMENT PLANS. (a) The commissioner shall
17 prepare a management plan consistent with AS 38.04.005 and this chap-
18 ter for each state forest and for each unit of a state forest to
19 assist in meeting the requirements of this chapter. An operational
20 level forest inventory shall be completed before a management plan for
21 the state forest or the unit of a state forest is adopted. The man-
22 agement plan shall be adopted, implemented and maintained within three
23 years of the establishment of a state forest by the legislature.

24 (b) The commissioner shall review a management plan at least
25 once every five years and may revise the plan when necessary.

26 (c) A management plan may not be adopted or revised after the
27 establishment of the state forest without prior review by the Board of
28 Forestry and by other appropriate state agencies or without public
29 hearings held in a community proximately located to the state forest

1 or to a unit of a state forest.

2 (d) A copy of a management plan or a revision to a management
3 plan adopted or prepared by the commissioner shall be provided to the
4 legislature within 30 days of its adoption or revision or within the
5 first 10 days of the first regular session of the legislature to
6 convene after its adoption or revision.

7 (e) The commissioner shall consider and permit the following
8 uses under a management plan prepared under (a) or (b) of this section
9 subject to a determination under (f) of this section:

- 10 (1) commercial timber harvest and related activities;
- 11 (2) harvest of forest products for personal use;
- 12 (3) mining, mining claim, and mineral leasehold location;
- 13 (4) mineral leasing;
- 14 (5) material extraction;
- 15 (6) recreation;
- 16 (7) wildlife and fisheries habitat management including
17 critical habitat management;
- 18 (8) greenbelts;
- 19 (9) trapping and sport and subsistence fishing and hunting;
- 20 (10) grazing;
- 21 (11) watershed management;
- 22 (12) research;
- 23 (13) uses consistent with the policies of AS 38.04.015; and
- 24 (14) other traditional, compatible uses.

24 (f) A management plan prepared by the commissioner shall con-
25 sider and permit the uses described in (e) of this section. If the
26 commissioner finds that a permitted use is incompatible with one or
27 more other uses in a portion of a state forest, the commissioner shall
28 affirmatively state in the management plan that finding of incompati-
29 bility for the specific area where the incompatibility is anticipated

1 to exist and the time period when the incompatibility is anticipated
2 to exist together with the reasons for each finding.

3 * Sec. 2. AS 41.17 is amended by adding new sections to read:

4 ARTICLE 3. STATE LAND REFORESTATION.

5 Sec. 41.17.300. STATE LAND REFORESTATION FUND. A state land
6 reforestation fund is established in the department. The money in the
7 state land reforestation fund may be used only for the reforestation
8 of state land, including site preparation, seed and seedling acquisi-
9 tion and cultivation, planting, and other reforestation measures,
10 timber stand improvement, and the development of materials and tech-
11 niques for the reforestation of state land.

12 Sec. 41.17.310. APPROPRIATIONS TO STATE LAND REFORESTATION FUND.

13 (a) The state land reforestation fund consists of money appropriated
14 by the legislature and contributions from private donors. It is the
15 intent of the legislature that the appropriations made to the fund
16 equal no less than 25 percent of the revenues from the sale of timber
17 and other forest products from state land as well as the total reve-
18 nues from

19 (1) compensation for loss or damage to land within a state
20 forest; and

21 (2) the federal government and other governmental units for
22 reforestation.

23 (b) Money appropriated to or paid into the state land reforesta-
24 tion fund does not lapse.

25 Sec. 41.17.320. REPORT TO THE LEGISLATURE. The commissioner
26 shall make an annual report to the legislature within the first 10
27 days of each session of the legislature on the uses of the money in
28 the state land reforestation fund, the proposed uses of the fund in
29 the following fiscal year, and the balance in the fund.

1 * Sec. 3. AS 41.17 is amended by adding a new section to read:

2 ARTICLE 4. TANANA VALLEY STATE FOREST.

3 Sec. 41.17.400. TANANA VALLEY STATE FOREST. (a) Subject to
4 valid existing rights and except for land owned by or transferred to
5 the University of Alaska under a settlement agreement between the
6 state and the university, the state-owned or acquired land and water
7 lying within the parcels described in (d) of this section is desig-
8 nated as the Tanana Valley State Forest.

9 (b) The commissioner shall prepare a management plan for the
10 Tanana Valley State Forest under AS 41.17.230. The commissioner shall
11 submit the management plan to the legislature for its approval within
12 the first 10 days of the ~~Second Session of the Fourteenth State~~
13 ~~Legislature.~~ The management plan for the Tanana Valley State Forest
14 is approved unless the legislature adopts legislation disapproving the
15 management plan.

16 (c) The commissioner shall consider and permit the uses de-
17 scribed in AS 41.17.230(e) within the Tanana Valley State Forest,
18 subject to the procedures established in AS 41.17.230(f). The commis-
19 sioner may establish transportation corridors within the Tanana Valley
20 State Forest.

SB 108 ESTABLISHING THE TANANA VALLEY STATE FOREST AND A PROGRAM FOR
THE MANAGEMENT OF STATE FORESTS AND FOREST LAND OF THE STATE.

PROPOSED AMENDMENT

In Section 3 in the appropriate place include the following State lands:

Township 3 North, Range 2 West, Fairbanks Meridian
Section 7, Tract E, ASLS 81-20
Section 8, Tracts H,J,K,L, ASLS 81-20
Section 17, Tracts M,N,O, ASLS 81-20
Section 18, Tracts A,B, ASLS 81-20
Section 19

Township 3 North, Range 3 West, Fairbanks Meridian
Section 13
Sections 19 - 31

Township 3 North, Range 4 West, Fairbanks Meridian
Section 3, west of Washington Creek
Sections 4 - 8

RATIONALE

The amendment would add back about 34,000 acres of land in the Chatanika River area near Fairbanks which was included in the original Senate-passed SB 108. This land is in the immediate Fairbanks area and would add back approximately 2,400 cut cords of fuelwood for personal use annually. This represents 8% of the fuelwood annual allowable harvest in the Fairbanks area from the proposed state forest.

Approximately 5,000 acres of land along the Chatanika River contained in the original Senate-passed bill is not included in this amendment. These lands within one mile of the river have been deleted for possible settlement purposes.

LEGISLATIVE AFFAIRS AGENCY

MEMORANDUM

June 1, 1983

SUBJECT: State forests
(HCS CSSB 108 (Finance))

TO: Representative Albert P. Adams
Chairman, House Finance Committee

FROM: Richard A. Bradley 
Legislative Counsel

You have requested a comparison of HCS CSSB 108 (Finance) with HCS CSSB 108 (Resources). For convenience, I will refer to them as the Resources bill or the Finance bill.

Section 1 of the Resources bill is unique. It provides that the governor may not propose the establishment of a state forest or any other special use area until he is able to certify that acreage amounting to 20 percent of the acreage put into special use areas had been conveyed into private ownership.

Section 2 of the Resources bill and sec. 1 of the Finance bill are similar.

Sec. 200 is similar in each; the phrase "land, water, scenic, and recreational resources to ensure a variety of" is deleted from the Resources language. Since the section is a "purposes" section, the substantive effect is minimal.

The effect of sec. 210 in each is not dissimilar though the language of each is completely different. The Resources bill contemplates a proposal for a state forest by the governor after preliminary classification and other review has been completed. The state forest should comprise land "primarily of commercially valuable forest land determined . . . to be necessary for retention in state ownership . . ." The Finance bill uses the same phrase.

Representative Albert P. Adams

Page 2

June 1, 1983

The Finance bill then requires the governor to include with the proposal "a report and recommendations of the commissioner" on five stated elements.

Each bill has an identical sec. 210(b).

Sec. 220 is identical in each bill.

Sec. 230(a) is similar in each bill. The difference is that the Resources bill requires the establishment of the management plan before the forest is proposed and therefore it is implemented immediately on the establishment of the forest; the Finance bill requires the implementation of the management plan within three years of the establishment of the forest.

Sec. 230(b) is identical in each.

Sec. 230(c) are similar in each. The Resources bill permits only revision (because the management plan was submitted with the proposal for the forest to the legislature). The Finance bill permits adoption or revision. Otherwise the first sentence in the Resources bill and the entire section in the Finance bill are identical. The Resources bill also contain unique language directing the commissioner to seek frequent public participation during the development of the management plans.

Sec. 230(d) is identical in each.

Sec. 230(e) is identical in each.

Sec. 230(f) is identical in each.

Section 3 of the Resources bill and sec. 2 of the Finance bill are identical.

Section 4 of the Resources bill and sec. 3 of the Finance bill are similar.

Sec. 400(a) in each are identical.

Sec. 400(b) in the Resources bill directs the preparation of a management plan for the Tanana Valley State Forest. Its language essentially duplicates much of the material in sec. (41.17.)230 of the bill. The Finance bill eliminates the language and directs the commissioner to prepare the

Representative Albert P. Adams

management plan under sec. 230. The management plan is to be submitted to the First Session of the Fourteenth Legislature according to the Resources bill, to the Second Session of the Fourteenth Legislature according to the Finance bill. The bill is approved unless the "legislature adopts a concurrent resolution disapproving the management plan within 90 days of its submission." The Finance bill provides that the management plan is approved unless it is disapproved by legislation.

Sec. 400(c) is identical in each.

Sec. 400(d) establishes the description of the land within the forest. I cannot recall as I write this whether the descriptions are identical.

Section 6 of the Resources bill and sec. 5 of the Finance bill are identical.

Section 7 of the Resources bill is unique. It provides that the Tanana Valley State Forest takes effect after the conveyance of certain land into private ownership. It has no equivalent in the Finance bill.

Section 8 of the Resources bill is unique and deals with the repeal of the section establishing the Tanana Valley State Forest if the management plan is disapproved.

Section 9 of the Resources bill and sec. 6 of the Finance bill are essentially identical (except for the "Except" phrase in sec. 9).

If I may be of further assistance, please advise.

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 THIRTEENTH LEGISLATURE - FIRST SESSION

5 A BILL

6 For an Act entitled: "An Act establishing the Tanana Valley State Forest
7 and a program for the management of state forests and
8 forest land of the state; and providing for an effec-
9 tive date."

10 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

11 * Section 1. AS 41.17 is amended by adding new sections to read:

12 ARTICLE 2. STATE FOREST SYSTEM.

13 Sec. 41.17.200. STATE FOREST PURPOSES. The purpose of AS 41.-
14 17.200 - 41.17.230 is to permit the establishment of designated state-
15 owned or acquired land and water areas as state forests. The primary
16 purpose in the establishment of state forests is the perpetuation of
17 personal, commercial, and other beneficial uses of resources through
18 multiple-use management.

19 Sec. 41.17.210. STATE FORESTS. (a) The governor may propose to
20 the legislature the establishment of state forests consisting primar-
21 ily of commercially valuable forest land determined by the governor to
22 be necessary for retention in state ownership for management under the
23 principles of multiple use and sustained yield and consistent with
24 AS 38.04.005. The proposal of the governor shall include a report and
25 recommendations of the commissioner including

26 (1) a preliminary forest inventory;

27 (2) a summary of the testimony offered at public hearings
28 held on the management of the proposed state forest in communities
29 proximately located to a proposed state forest;

1 (3) the findings of the commissioner on anticipated incom-
2 patibilities of uses described in AS 41.17.230(e) under AS 41.17.-
3 230(f);

4 (4) written comments from appropriate state agencies on the
5 compatibility of the uses described in AS 41.17.230(e) within the
6 proposed state forest;

7 (5) an estimate of the cost of a full implementation of an
8 operational level forest inventory and the management plan.

9 (b) A state forest established by the legislature shall be
10 retained in state ownership.

11 Sec. 41.17.220. MANAGEMENT OF STATE FORESTS. Land within a
12 state forest or within a unit of a state forest shall be managed under

- 13 (1) the principles of multiple-use and sustained yield;
14 (2) this chapter; and
15 (3) a management plan prepared by the department.

16 Sec. 41.17.230. MANAGEMENT PLANS. (a) The commissioner shall
17 prepare a management plan consistent with AS 38.04.005 and this chap-
18 ter for each state forest and for each unit of a state forest to
19 assist in meeting the requirements of this chapter. An operational
20 level forest inventory shall be completed before a management plan for
21 the state forest or the unit of a state forest is adopted. The man-
22 agement plan shall be adopted, implemented and maintained within three
23 years of the establishment of a state forest by the legislature.

24 (b) The commissioner shall review a management plan at least
25 once every five years and may revise the plan when necessary.

26 (c) A management plan may not be adopted or revised after the
27 establishment of the state forest without prior review by the Board of
28 Forestry and by other appropriate state agencies or without public
29 hearings held in a community proximately located to the state forest

1 or to a unit of a state forest.

2 (d) A copy of a management plan or a revision to a management
3 plan adopted or prepared by the commissioner shall be provided to the
4 legislature within 30 days of its adoption or revision or within the
5 first 10 days of the first regular session of the legislature to
6 convene after its adoption or revision.

7 (e) The commissioner shall consider and permit the following
8 uses under a management plan prepared under (a) or (b) of this section
9 subject to a determination under (f) of this section:

- 10 (1) commercial timber harvest and related activities;
- 11 (2) harvest of forest products for personal use;
- 12 (3) mining, mining claim, and mineral leasehold location;
- 13 (4) mineral leasing;
- 14 (5) material extraction;
- 15 (6) recreation;
- 16 (7) wildlife and fisheries habitat management including
17 critical habitat management;
- 18 (8) greenbelts;
- 19 (9) trapping and sport and subsistence fishing and hunting;
- 20 (10) grazing;
- 21 (11) watershed management;
- 22 (12) research;
- 23 (13) uses consistent with the policies of AS 38.04.015; and
- 24 (14) other traditional, compatible uses.

24 (f) A management plan prepared by the commissioner shall con-
25 sider and permit the uses described in (e) of this section. If the
26 commissioner finds that a permitted use is incompatible with one or
27 more other uses in a portion of a state forest, the commissioner shall
28 affirmatively state in the management plan that finding of incompati-
29 bility for the specific area where the incompatibility is anticipated

1 to exist and the time period when the incompatibility is anticipated
2 to exist together with the reasons for each finding.

3 * Sec. 2. AS 41.17 is amended by adding new sections to read:

4 ARTICLE 3. STATE LAND REFORESTATION.

5 Sec. 41.17.300. STATE LAND REFORESTATION FUND. A state land
6 reforestation fund is established in the department. The money in the
7 state land reforestation fund may be used only for the reforestation
8 of state land, including site preparation, seed and seedling acquisi-
9 tion and cultivation, planting, and other reforestation measures,
10 timber stand improvement, and the development of materials and tech-
11 niques for the reforestation of state land.

12 Sec. 41.17.310. APPROPRIATIONS TO STATE LAND REFORESTATION FUND.

13 (a) The state land reforestation fund consists of money appropriated
14 by the legislature and contributions from private donors. It is the
15 intent of the legislature that the appropriations made to the fund
16 equal no less than 25 percent of the revenues from the sale of timber
17 and other forest products from state land as well as the total reve-
18 nues from

19 (1) compensation for loss or damage to land within a state
20 forest; and

21 (2) the federal government and other governmental units for
22 reforestation.

23 (b) Money appropriated to or paid into the state land reforesta-
24 tion fund does not lapse.

25 Sec. 41.17.320. REPORT TO THE LEGISLATURE. The commissioner
26 shall make an annual report to the legislature within the first 10
27 days of each session of the legislature on the uses of the money in
28 the state land reforestation fund, the proposed uses of the fund in
29 the following fiscal year, and the balance in the fund.

7 program for the management of state forests and
8 forest land of the state; and providing for an effective
9 date."

10 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

11 * Section 1. AS 41.17.020(c) is amended to read:

12 (c) After planning and classification procedures under AS 38.05
13 have been completed, the governor shall [MAY] propose annually to the
14 legislature, state forests, to consist of forest land determined by
15 the governor [HIM] to be desirable for retention in state ownership as
16 multiple-use land. The commissioner shall classify as forest land the
17 land determined by the governor to be desirable for retention in state
18 ownership.

5 of materials and techniques for the reforestation of state land.

6 Sec. 41.17.160. APPROPRIATIONS TO STATE LAND REFORESTATION FUND.

7 The state land reforestation fund consists of money appropriated by

11 and other forest products from state land as well as the total reve-
12 nues from

13 (1) compensation for loss or damage to land within a state
14 forest; and
