

LEG. FINANCE - BILLS 1983 - 1984 2046
CSSB 162 cont. - SB 162 2046

HOUSE JOURNAL

LETTER OF INTENT
FOR
HCS FOR CSSB 162 (Finance)

Page 6, line 10

It is the intent of the House Finance Committee that a special appropriation be made for the cities of Newhalen and Nondalton for road construction between Illiamna and Nondalton as a special grant to the Department of Transportation and Public Facilities.

The House Transportation Committee requests the Department of Transportation and Public Facilities to work cooperatively with the cities of Newhalen and Nondalton and to manage and administer this project pursuant to AS 35.14.080.

It is the House Finance Committee's intent that the Department of Transportation and Public Facilities will work cooperatively with these communities to ensure this project is completed on the existing timeframe and will not be delayed.

Page 12, line 6

The lease or lease-purchase of all or part of an office building for the Anchorage Community College to be used as its administrative headquarters and faculty office building with the intent that they give up one square foot of existing office space to UAA for every two square feet they acquire.

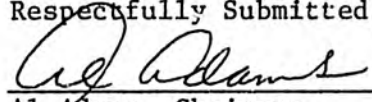

Page 14, line 7

These books are explicitly and exclusively for that section of the library which would otherwise be used for an auditorium or small theatre. The funds are to immediately lapse if library design is altered to accommodate such an auditorium or small theatre.

Page 27, lines 20-21

The intent of these funds is to encourage the paving of the heretofore unpaved subdivision streets in House District 10 which the Municipality accepted prior to the current paving requirement and so must periodically grade at great annual expense. These funds and all interest earned on them are to be exclusively used to provide matching funds to help pay for the paving of such older unpaved streets and are to lapse immediately if the interest earned on them is not totally added to the principal.

Respectfully Submitted,

Al Adams, Chairman
House Finance Committee

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

March 7, 1983

The Honorable Jalmar Kerttula
President of the Senate
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. President:

Under the authority of art. III, sec. 18, of the Alaska Constitution, I am transmitting a bill making supplemental and special appropriations for capital projects.

The intent of all of the appropriations in this bill is to put out to bid well-defined capital projects that are ready for construction in the 1983 construction season.

My selection of projects was made from nominations by communities from across the state, by state agencies, and by some legislators. The top priority in consideration of projects which are ready for construction was to meet immediate life and health safety needs. In this category you will find many water and sewer projects and school repairs.

Economic development projects are a high priority in this bill. You will find dock and harbor and other projects, to create the infrastructure for economic development throughout the state.

Another priority is the upgrading of highways. I am proposing to spend many millions of dollars in making our highway system usable by the heavier commercial and tourist traffic which our economic development projects will help bring about. In particular, there are several projects to improve highways in the interior region and Anchorage that will benefit most of the people in the state.

Another major consideration in project selection is to direct some construction employment in 1983 toward regions in which employment has become soft or is in decline.

The bill totals nearly \$250 million. This is the maximum amount we can allow for a FY '83 supplemental capital appropriation. This judgment is based on our long-term financial forecasts and the likely near-term availability of fund balances to finance state government.

There is a \$15 million appropriation in this bill intended to fund small rural construction projects. It is my intention that money will be allocated from this fund on mutual agreement between my office and each legislator who has projects that qualify for this fund.

I expect that the projects identified in this bill will now be subjected to close public scrutiny. This administration stands ready to testify and explain them at any time during the forthcoming public hearings on this bill.

In summary, this bill represents my best judgment as to how we should spend the money available to us for capital projects in fiscal year 1983. I welcome your suggestions for better projects, and will be pleased to substitute any higher priority projects that will meet or exceed the objectives that have been established.

I urge early consideration and enactment of this bill so that the state will be able to take full advantage of the 1983 construction season.

Sincerely,

Bill Sheffield
Governor

ALASKA STATE LEGISLATURE

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

March 7, 1983

The Honorable Jalmar Kerttula
President of the Senate
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. President:

Under the authority of art. III, sec. 18, of the Alaska Constitution, I am transmitting a bill making supplemental and special appropriations for capital projects.

The intent of all of the appropriations in this bill is to put out to bid well-defined capital projects that are ready for construction in the 1983 construction season.

My selection of projects was made from nominations by communities from across the state, by state agencies, and by some legislators. The top priority in consideration of projects which are ready for construction was to meet immediate life and health safety needs. In this category you will find many water and sewer projects and school repairs.

Economic development projects are a high priority in this bill. You will find dock and harbor and other projects, to create the infrastructure for economic development throughout the state.

Another priority is the upgrading of highways. I am proposing to spend many millions of dollars in making our highway system usable by the heavier commercial and tourist traffic which our economic development projects will help bring about. In particular, there are several projects to improve highways in the interior region and Anchorage that will benefit most of the people in the state.

Another major consideration in project selection is to direct some construction employment in 1983 toward regions in which employment has become soft or is in decline.

The bill totals nearly \$250 million. This is the maximum amount we can allow for a FY '83 supplemental capital appropriation. This judgment is based on our long-term financial forecasts and the likely near-term availability of fund balances to finance state government.
