ANALYSIS

ALASKA HEALTHY-BABY PROJECT

PLAN FOR IMPLEMENTATION

1. Add all pregnant women and children up to one year of age with monthly incomes up to 100% of the federal poverty level for Alaska to the Medicaid Program. The program design includes:

- * one time eligibility determination for pregnant women. Once found eligible, the woman would retain Medicaid through the 60-day postpartum period. An income eligible pregnant woman may receive Medicaid as soon as pregnancy is medically verified. Children are automatically eligible for the 60 day postpartum period once the mother verifies the birth date.
- * no resource (asset) limit for pregnant women and children.
- * pregnant women and children will be eligible for all Medicaid services offered under the State Plan.

(Estimate 974 eligibles: \$4,163 per pregnant woman x 974 = \$4,054,762 + \$1,198 per child x 974 = \$1,166,852 = Total \$5,221,614). These cost estimates are based on actual average 1986 expenditure data for pregnant women and children age 5 and under. NOTE: the January 1, 1989 implementation date will result in $\frac{1}{2}$ the program expenditures under Medicaid services for pregnant women and children during the first year.

2. Add case management services, as an enhanced service to pregnant women, to coordinate health care service delivery. This service will be particularly targeted at women with high risk pregnancies, and must be offered to all Medicaid-eligible pregnant women. The program will be implemented by hiring four nurse consultant public health nurses in the Division of Public Health to be case managers. These positions will operate from Anchorage, Fairbanks, Bethel and Juneau. The nurses will receive Medicaid referral of all pregnant women in order that each may be evaluated as to their pregnancy risk factor. The case managers will coordinate the health care services delivered, assure that pregnant women receive necessary services, and assist with arranging appointments and transportation. Uniform perinatal guidelines will be adopted to assure that pregnant women are receiving adequate care. Also hired, will be a Nurse IV Pre-Natal Coordinator for the Division of Medical Assistance to coordinate case management services, perform a utilization review function on expenditures for pregnant women and children, design and manage computer reports to monitor program objectives, establish criteria to evaluate improved pregnancy outcome, and evaluate program compliance. All positions will be at 75/25 federal/state match since each will be filled with medical personnel.

3. Add nutrition services under enhanced services to pregnant women beginning in the second year. This service must be provided to all pregnant women. (Estimate that 15% of pregnant women would need nutrition counseling because of high risk pregnancy. Average two visits per person X 600 persons x \$35/visit)
4. New eligibility technicians in the Division of Public Assistance to review applications, conduct interviews, verify eligibility and authorize medical coupons for the new population of pregnant women and children eligible under this Medicaid option. There will be two new positions in year one and three new positions in year two, with a one time outlay of \$3,000 per position for desk, chair, file cabinet and computer terminal.
5. This change in the Medicaid Program will require a system support increase to the Eligibility Information System (EIS) of the Division of Public Assistance, and will require lead time to accomplish (the January 1, 1989 implementation date).

Year One

<u>Cost</u>	Fed match	GF match
Medicaid services for pregnant women assuming 1/2 year costs	\$1,013,690	\$1,013,690
Medicaid services for children one year of age assuming 1/2 year costs	\$ 291,713	\$ 291,713
Case management services 5 nurses at 75/25 federal state match plus travel, supplies, equipment and risk insurance assuming 3/4 year cost and 10.0 for outreach	\$ 193,743	\$ 88,956
Two new eligibility technicians for the Division of Public Assistance - \$36,300 assuming 1/2 year cost of \$18,150 each at 50/50 state/federal match plus equipment	\$ 21,150	\$ 21,150
Public Assistance computer system data processing	\$ 7,450	\$ 7,450
TOTAL	\$1,527,746	\$1,422,959

Year Three

Add children up to age three with incomes up to 100% of the federal poverty level to the Medicaid Program.

		Fed match	GF match
<u>Cost</u>	Medicaid services for children three years of age.	\$ 583,426	\$ 583,426
	Public Assistance data processing	\$ 7,450	\$ 7,450
	TOTAL	\$ 590,876	\$ 590,876

NOTE: Assumes base includes year 1 and year 2 costs.

Year Four

Add children up to age four with incomes up to 100% of the federal poverty level to the Medicaid Program.

		Fed match	GF match
<u>Cost</u>	Medicaid services for children four years of age.	\$ 583,426	\$ 583,426
	Public Assistance data processing	\$ 7,450	\$ 7,450
	TOTAL	\$ 590,876	\$ 590,876

NOTE: Assumes base includes years 1, 2 and 3 costs.

Year Five

Add children up to age five with incomes up to 100% of the federal poverty level to the Medicaid Program.

		Fed match	GF match
<u>Cost</u>	Medicaid services for children five years of age.	\$ 583,426	\$ 583,426
	Public Assistance data processing	\$ 7,450	\$ 7,450

TOTAL \$ 590,876 \$ 590,876

NOTE: Assumes base includes years 1, 2, 3 and 4 costs.

ASSUMPTIONS: An inflation factor has not been added to medical care costs for years two, three, four and five. An inflation factor will have to be applied each fiscal year to the Medicaid budget to adequately fund this option.

RESOURCE LIMITS

- | AFDC | APA/SSI |
|---|--|
| - a home of any value | - a home of any value |
| - a car worth \$1,500 | - a car worth \$4,500 |
| - other real or personal property worth up to \$1,000 | - personal effects worth up to \$2,000 |
| | - liquid resources worth \$1,800 for individuals and \$2,700 for couples |
| | - a burial plot |
| | - up to \$1,500 for burial expenses |
| | - life insurance with face value up to \$1,500 |

Alaska's Medicaid Program pays for the following services:

- inpatient hospital care
- outpatient hospital care
- laboratory and x-ray services
- skilled nursing facility and home health services for individuals 21 and older
- physicians services
- rural health clinic services
- early and periodic screening, diagnosis and treatment for individuals under 21 (EPSDT)
- family planning
- medical transportation
- nurse midwife services
- community mental health clinic and state operated mental health clinic services
- intermediate care facility services
- intermediate care facility for the mentally retarded services
- skilled nursing facility services for individuals under 21
- optometrists services and eyeglasses
- mental institution services for persons under 21
- institution for mental diseases services for persons aged 65 and older
- treatment of speech, hearing and language disorders
- outpatient surgical care center services
- physical therapy
- occupational therapy
- prosthetic devices
- medical supplies
- adult dental services (limited to relief of pain and acute infection)
- chiropractic services
- personal care attendant services

Prescription drugs are provided to Medicaid recipients through the 100% state-funded General Relief Medical Assistance Program.

FISCAL NOTE ANALYSIS

SB 255

"An Act relating to pharmaceutical medical assistance for needy persons, and providing for an effective date"

FY89 Governor's Medical Assistance Request

	<u>GF</u>	<u>Total</u>
GENERAL RELIEF MEDICAL Request	9,380.4	9,380.4
C-4 Transfer to Medicaid	[1,370.6]	[1,370.6]
Decrement to Remove Pharmacy	[1,370.6]	[1,370.6]
REVISED	<u>6,639.2</u>	<u>6,639.2</u>

	<u>FED</u>	<u>GFM</u>	<u>Program</u>	<u>Total</u>
MEDICAID NON-FACILITY Request	17,145.4	17,213.2	169.0	34,527.6
C-4 Transfer from GRM	-0-	1,370.6	-0-	1,370.6
Increment for Federal	1,370.6	-0-	-0-	1,370.6
REVISED	<u>18,516.0</u>	<u>18,583.8</u>	<u>169.0</u>	<u>37,268.8</u>

With a move of prescription drugs for Medicaid recipients from the General Relief Medical (GRM) Component to the Medicaid Non-Facility Component, Medicaid funds would become available at a 50/50 federal financial participation ratio. The Governor's FY 89 General Relief Medical budget request for Title XIX pharmacy is \$3,654.8. This fiscal note assumes an October 1, 1988 implementation date.

The national rate of increase for prescription drug costs in 1987 according to the U.S. Department of Labor was 8%. For purposes of this fiscal note the Department has assumed 8% as the annual rate of inflation for prescription drugs.

Medical Assistance Administration - Claims Processing

The administrative costs except for the \$14,000 for computer programming changes will not be necessary if the increment in the Governor's budget is approved as introduced.

Travel:

On-site pharmacy reviews for dispensing fees, validating acquisition costs for drugs, meetings with the pharmacy association, and gathering data for pricing compounded drugs.	\$10,000
--	----------

Contractual:

Professional services contract for pharmacist/ pharmacy services*	\$84,000
One time funding for fiscal intermediary to change computer system documentation including provider manuals, change the collocation code table to shift expenditures from GRM to Medicaid, change pricing logic, and add new edits	\$14,000
On-going funding for fiscal intermediary for Blue Book update of average wholesale prices into MMIS claims processing system	\$ 3,000
Space Rent \$1.25/sq. ft. X 200 sq. ft.	\$ 3,000
Communications - Long Distance and Printing	\$ 1,000
Advertising and Printing	\$ 1,000

Supplies: \$ 1,500

Total \$117,500

Federal \$58,750

SGFM \$58,750

Increases from fiscal year to fiscal year are projected at 8%.

* The Department proposes using the services of a contractor to do the initial work of design, development, and implementation of a Medicaid pharmacy program. However, the Department may elect in subsequent years to seek legislative approval of a permanent position for these services.

ANALYSIS

ALASKA HEALTHY BABY PROJECT

PLAN FOR IMPLEMENTATION

1. Add all pregnant women and children up to one year of age with monthly incomes up to 100% of the federal poverty level for Alaska to the Medicaid Program. The program design includes:
 - * one time eligibility determination for pregnant women. Once found eligible, the woman would retain Medicaid through the 60 day postpartum period. An income eligible pregnant woman may receive Medicaid as soon as pregnancy is medically verified. Children are automatically eligible for the 60 day postpartum period once the mother verifies the birth date.
 - * no resource (asset) limit for pregnant women and children.
 - * pregnant women and children will be eligible for all Medicaid services offered under the State Plan.

(Estimate 974 eligibles: \$4,163 per pregnant woman x 974 = \$4,054,762 + \$1,198 per child x 974 = \$1,166,852 = Total \$5,221,614). These cost estimates are based on actual average 1986 expenditure data for pregnant women and children age 5 and under. NOTE: the January 1, 1989 implementation date will result in $\frac{1}{2}$ the program expenditures under Medicaid services for pregnant women and children during the first year.

2. Add case management services, as an enhanced service to pregnant women, to coordinate health care service delivery. This service will be particularly targeted at women with high risk pregnancies, and must be offered to all Medicaid-eligible pregnant women. The program will be implemented by hiring four nurse consultant public health nurses in the Division of Public Health to be case managers. These positions will operate from Anchorage, Fairbanks, Bethel and Juneau. The nurses will receive Medicaid referral of all pregnant women in order that each may be evaluated as to their pregnancy risk factor. The case managers will coordinate the health care services delivered, assure that pregnant women receive necessary services, and assist with arranging appointments and transportation. Uniform perinatal guidelines will be adopted to assure that pregnant women are receiving adequate care. Also hired, will be a Nurse IV Pre-Natal Coordinator for the Division of Medical Assistance to coordinate case management services, perform a utilization review function on expenditures for pregnant women and children, design and manage computer reports to monitor program objectives, establish criteria to evaluate improved pregnancy outcome, and evaluate program compliance. All positions will be at 75/25 federal/state match since each will be filled with medical personnel.

3. Add nutrition services under enhanced services to pregnant women beginning in the second year. This service must be provided to all pregnant women. (Estimate that 15% of pregnant women would need nutrition counseling because of high risk pregnancy. Average two visits per person X 600 persons x \$35/visit)
4. New eligibility technicians in the Division of Public Assistance to review applications, conduct interviews, verify eligibility and authorize medical coupons for the new population of pregnant women and children eligible under this Medicaid option. There will be two new positions in year one and three new positions in year two, with a one time outlay of \$3,000 per position for desk, chair, file cabinet and computer terminal.
5. This change in the Medicaid Program will require a system support increase to the Eligibility Information System (EIS) of the Division of Public Assistance, and will require lead time to accomplish (the January 1, 1989 implementation date).

Year One

<u>Cost</u>	Fed match	GF match
Medicaid services for pregnant women assuming ½ year costs	\$1,013,690	\$1,013,690
Medicaid services for children one year of age assuming ½ year costs	\$ 291,713	\$ 291,713
Case management services 5 nurses at 75/25 federal state match plus travel, supplies, equipment and risk insurance assuming 3/4 year cost and 10.0 for outreach	\$ 193,743	\$ 88,956
Two new eligibility technicians for the Division of Public Assistance - \$36,300 assuming ½ year cost of \$18,150 each at 50/50 state/federal match plus equipment	\$ 21,150	\$ 21,150
Public Assistance computer system data processing	\$ 7,450	\$ 7,450
TOTAL	\$1,527,746	\$1,422,959

Year Two

NOTE: This will be the first full year of the program, so the costs for medical services for pregnant women and children, and new positions have been restated indicating full year costs.

Add children up to age two with incomes up to 100% of the federal poverty level to the Medicaid Program.

<u>Cost</u>	Fed match	GF match
Medicaid services for pregnant women	\$2,027,381	\$2,027,381
Medicaid services for children one and two years of age.	\$1,166,852	\$1,166,852
Nutrition services	\$ 21,000	\$ 21,000
Case management services, full year cost	\$ 249,700	\$ 103,200
Three new eligibility technicians for the Division of Public Assistance - \$36,300 each at 50/50 state federal match plus equipment	\$ 59,000	\$ 59,000
Full year cost of two eligibility technicians added year one	\$ 36,300	\$ 36,300
Public Assistance data processing	\$ 7,450	\$ 7,450
TOTAL	\$3,567,683	\$3,421,183

Year Three

Add children up to age three with incomes up to 100% of the federal poverty level to the Medicaid Program.

		Fed match	GF match
<u>Cost</u>	Medicaid services for children three years of age.	\$ 583,426	\$ 583,426
	Public Assistance data processing	\$ 7,450	\$ 7,450
	TOTAL	\$ 590,876	\$ 590,876

NOTE: Assumes base includes year 1 and year 2 costs.

Year Four

Add children up to age four with incomes up to 100% of the federal poverty level to the Medicaid Program.

		Fed match	GF match
<u>Cost</u>	Medicaid services for children four years of age.	\$ 583,426	\$ 583,426
	Public Assistance data processing	\$ 7,450	\$ 7,450
	TOTAL	\$ 590,876	\$ 590,876

NOTE: Assumes base includes years 1, 2 and 3 costs.

Year Five

Add children up to age five with incomes up to 100% of the federal poverty level to the Medicaid Program.

		Fed match	GF match
<u>Cost</u>	Medicaid services for children five years of age.	\$ 583,426	\$ 583,426
	Public Assistance data processing	\$ 7,450	\$ 7,450

TOTAL \$ 590,876 \$ 590,876

NOTE: Assumes base includes years 1, 2, 3 and 4 costs.

ASSUMPTIONS: An inflation factor has not been added to medical care costs for years two, three, four and five. An inflation factor will have to be applied each fiscal year to the Medicaid budget to adequately fund this option.

AFDC	APA/SSI
- a home of any value	- a home of any value
- a car worth \$1,500	- a car worth \$4,500
- other real or personal property worth up to \$1,000	- personal effects worth up to \$2,000
	- liquid resources worth \$1,800 for individuals and \$2,700 for couples
	- a burial plot
	- up to \$1,500 for burial expenses
	- life insurance with face value up to \$1,500

Alaska's Medicaid Program pays for the following services:

- inpatient hospital care
- outpatient hospital care
- laboratory and x-ray services
- skilled nursing facility and home health services for individuals 21 and older
- physicians services
- rural health clinic services
- early and periodic screening, diagnosis and treatment for individuals under 21 (EPSDT)
- family planning
- medical transportation
- nurse midwife services
- community mental health clinic and state operated mental health clinic services
- intermediate care facility services
- intermediate care facility for the mentally retarded services
- skilled nursing facility services for individuals under 21
- optometrists services and eyeglasses
- mental institution services for persons under 21
- institution for mental diseases services for persons aged 65 and older
- treatment of speech, hearing and language disorders
- outpatient surgical care center services
- physical therapy
- occupational therapy
- prosthetic devices
- medical supplies
- adult dental services (limited to relief of pain and acute infection)
- chiropractic services
- personal care attendant services

Prescription drugs are provided to Medicaid recipients through the 100% state-funded General Relief Medical Assistance Program.

SENATE BILL NO. 348

3

IN THE LEGISLATURE OF THE STATE OF ALASKA

4

FIFTEENTH LEGISLATURE - SECOND SESSION

5

A BILL

6

For an Act entitled: "An Act relating to medical assistance for needy
7 persons."

8

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9

* Section 1. AS 47.07.020(b) is amended to read:

10

(b) In addition to the persons specified in (a) of this section,

11

the following optional groups of persons for whom the state may claim

12

federal financial participation are eligible for medical assistance:

13

(1) persons eligible for but not receiving assistance under

14

any plan of the state approved under 42 U.S.C. 601 - 615 (Title IV-A,

15

Social Security Act, Aid to Families with Dependent Children) or 42

16

U.S.C. 1381 - 1383c (Title XVI, Social Security Act, Supplemental

17

Security Income);

18

(2) persons in a general hospital, skilled nursing facility

19

or intermediate care facility, who, if they left the facility, would

20

be eligible for assistance under one of the federal programs specified

21

in (1) of this subsection;

22

(3) persons under age 21 who are under supervision of the

23

department, for whom maintenance is being paid in whole or in part

24

from public funds, and who are in foster homes or private child-care

25

institutions;

26

(4) aged, blind, or disabled persons, who, because they do

27

not meet income and resources requirements, do not receive supple-

28

mental security income under 42 U.S.C. 1381 - 1383c (Title XVI, Social

29

Security Act), and who do not receive a mandatory state supplement,

1 but who are eligible, or would be eligible if they were not in a
2 skilled nursing facility or intermediate care facility to receive an
3 optional state supplementary payment;

4 (5) persons under age 21 who are in an institution desig-
5 nated as an intermediate care facility for the mentally retarded and
6 who are financially eligible as determined by the standards of the
7 federal aid to families with dependent children program;

8 (6) persons in a medical or intermediate care facility
9 whose income while in the facility does not exceed 300 percent of the
10 supplemental security income benefit rate under 42 U.S.C. 1381 - 1383c
11 (Title XVI, Social Security Act) but who would not be eligible for an
12 optional state supplementary payment if they left the hospital or
13 other facility;

14 (7) persons under age 21 who are receiving active treatment
15 in a psychiatric hospital and who are financially eligible as deter-
16 mined by the standards of 42 U.S.C. 601 - 615 (Title IV-A, Social
17 Security Act, Aid to Families with Dependent Children);

18 (8) persons under age 21 and not covered under (a) of this
19 section, who would be eligible for benefits under the federal aid to
20 families with dependent children program, except that they have the
21 care and support of both their natural and adoptive parents;

22 (9) pregnant women not covered under (a) of this section
23 and who meet the income and resource requirements of the federal aid
24 to families with dependent children program;

25 (10) pregnant women, and children five years of age or
26 younger, with a household income that does not exceed 100 percent of
27 the federal poverty level.

28 * Sec. 2. AS 47.07.030(b) is amended to read:

29 (b) In addition to the mandatory services specified in (a) of

1 this section, the department may offer only the following optional
2 services: case management and nutrition services for pregnant women;
3 personal care services in a recipient's home; emergency hospital
4 services; long-term care noninstitutional services; medical supplies
5 and equipment; clinic services; inpatient psychiatric facility ser-
6 vices for individuals age 65 or older and individuals under age 21;
7 physical therapy; occupational therapy; chiropractic services; treat-
8 ment of speech, hearing, and language disorders; adult dental ser-
9 vices; prosthetic devices and eyeglasses; optometrists' services;
10 intermediate care facility services, including intermediate care
11 facility services for the mentally retarded; skilled nursing facility
12 services for individuals under age 21; and reasonable transportation
13 to and from the point of medical care.

14 * Sec. 3. AS 47.07.035 is amended to read:

15 Sec. 47.07.035. PRIORITY OF MEDICAL ASSISTANCE. If the depart-
16 ment finds that the cost of medical assistance for all persons eligi-
17 ble under this chapter will exceed the amount allocated in the state
18 budget for that assistance for the fiscal year, the department shall
19 eliminate coverage for optional medical services and optionally eligi-
20 ble groups of individuals in the following order:

- 21 (1) chiropractic services;
- 22 (2) adult dental services;
- 23 (3) emergency hospital services;
- 24 (4) treatment of speech, hearing, and language disorders;
- 25 (5) optometrists' services and eyeglasses;
- 26 (6) occupational therapy;
- 27 (7) prosthetic devices;
- 28 (8) medical supplies and equipment;
- 29 (9) clinic services;

- 1 (10) physical therapy;
- 2 (11) personal care services in a recipient's home;
- 3 (12) long-term care noninstitutional services;
- 4 (13) inpatient psychiatric facility services;
- 5 (14) intermediate care facility services for the mentally
6 retarded;
- 7 (15) intermediate care facility services;
- 8 (16) pregnant women, and children five years of age or
9 younger, with a household income that does not exceed 100 percent of
10 the federal poverty level;
- 11 (17) individuals under age 21 who are not eligible for
12 benefits under the federal aid to families with dependent children
13 program because they are not deprived of one or more of their natural
14 or adoptive parents;
- 15 (18) [(17)] skilled nursing facility services for persons
16 under age 21;
- 17 (19) [(18)] aged, blind, and disabled individuals who,
18 because they do not meet the income requirements, do not receive
19 supplemental security income under Title XVI of the Social Security
20 Act, but who are eligible, or would be eligible if they were not in a
21 skilled nursing facility or intermediate care facility, to receive an
22 optional state supplementary payment;
- 23 (20) [(19)] individuals in a hospital, skilled nursing
24 facility, or intermediate care facility whose income while in the
25 facility does not exceed 300 percent of the supplemental security
26 income benefit rate under Title XVI of the Social Security Act, but
27 who, because of income, are not eligible for the optional state
28 supplementary payment;
- 29 (21) [(20)] individuals under age 21 under supervision of

1 the department, for whom maintenance is being paid in whole or in part
2 from public money and who are in foster homes or private child-care
3 institutions.

Alaska State Legislature

Senate

P.O. BOX V
State Capitol
Juneau, Alaska 99811

MEMORANDUM

TO: Senator Paul Fischer
Chair, Senate HESS Committee

FROM: Senator Rick Uehling

DATE: January 21, 1988

SUBJECT: SE 348, "An Act relating to Medical Assistance for Needy Persons" - The Healthy Babies Bill

I have asked staff to provide the following background and analysis to SB 348, "An Act relating to Medical Assistance for Needy Persons" or as it is called, "The Healthy Babies bill."

SB 348 would provide prenatal care, delivery and other health services to pregnant women who have income up to 100% of the federal poverty level. These services would also include case management and nutritional services.

Alaska presently has the highest postneonatal mortality rate in the country. Low birthweight babies accounted for 40% of all infant deaths in our State. SB 348 will be a first step in providing those women at greatest risk the means to receive adequate prenatal care thereby helping to reduce the the possible complications of pregnancy and diminish the frequency and severity of handicaps associated with premature delivery and low birthweight infants.

In addition, this bill would also provide children whose families have incomes up to 100% of the federal poverty level with preventive, screening and treatment health services in the first five years of their life, by phasing in children each year until all children under the age of five are covered.

There is an increasing number of women in Alaska who do not have access to prenatal and delivery care because they are low income but ineligible for Medicaid. SB 348 raises the resource level so that every year approximately 974 low income women would be eligible for Medicaid coverage through their pregnancy and postpartum.

Because this is a Medicaid option, 50% of the costs are paid by the Federal Government.

AN ACT RELATING TO MEDICAL
ASSISTANCE FOR NEEDY PERSONS

SECTION 1

Adds language to A.S. 47.07.020(b) Medical Assistance for Needy Persons, to allow pregnant women and children five years or younger who do not exceed 100 percent of the federal poverty level, eligible for Medicaid.

SECTION 2

Adds language to A.S. 47.07.030(b) Medical Services to Be Provided, so the state may offer case management and nutrition services to pregnant women.

SECTION 3

Amends the language in A.S. 47.07.35 Priority of Medical Assistance, to include services to the pregnant women and young children in the prioritized medical services that Medicaid provides.

"An Act relating to medical assistance for needy persons."

I. Purpose of SB 348

The purpose of SB 348 is to add two new groups of eligibles to the Medicaid Program: Pregnant women and children up to the age of five whose household incomes do not exceed 100% of the federal poverty level. The children would be phased in by age, one year each year until all children age five and under are covered.

II. Sectional Analysis

Section 1 Section 1 amends AS 47.07.020(b), which delineates the optional groups of people who are eligible for Medicaid, by adding pregnant women and children up to age five whose household incomes do not exceed 100% of the federal poverty level.

Section 2 Section 2 amends AS 47.07.030(b) to specify that case management and nutrition services for pregnant women are covered Medicaid services in Alaska.

Section 3 Section 3 amends AS 47.07.035 by adding pregnant women and children up to the age of five whose household incomes do not exceed 100% of the federal poverty level to the existing list. The purpose of this section is to provide guidance to the department on the order in which optional Medicaid services and optional coverage groups are to be eliminated in the case of inadequate funding for the Medicaid Program.

III. Recommendations

Congress created this new Medicaid option recognizing that one in four children in America live in poverty; that the number of children living in poverty has grown each year since 1975; and that the United States is tied for last place among the 22 industrialized nations in infant mortality. In Alaska, although our welfare standards are generous compared with many other states, we have the highest mortality rate of all 50 states for infants between one month and one year of age.

This Medicaid option allows the state great flexibility in providing Medicaid coverage to pregnant women and children, while removing many of the current barriers to eligibility. It is estimated that close to 1,000 women will qualify for Medicaid each year, and nearly 5,000 children will be eligible each year when all children under age 5 are covered.

The program design would include a one time eligibility determination for pregnant women, so that once found eligible the woman would be covered by Medicaid through the 60 day postpartum period for all covered services. Additionally, this group of pregnant women and children will not be subject to the \$1,000 resource limit of the Aid to Families With Dependent Children Program.

All pregnant women will receive case management services to better coordinate delivery of health care services and identify high risk pregnancies, with a goal of improved pregnancy outcome. Nutrition services will be available to high risk women who are not served by the Women, Infants and Children (WIC) Program. Children will receive all Medicaid services, including Early, Periodic Screening, Diagnosis and Treatment (EPSDT). EPSDT has proven especially useful in early identification and treatment of potentially handicapping medical, social and psychological conditions; it's success due to monitoring of all Medicaid children by Public Health Nurses to assure that appropriate services are received.

Addition of this Medicaid option will allow the state to claim matching federal dollars for all general fund dollars spent on health care for pregnant women and children under five.

The Department believes enactment of this legislation would be a sound investment in children which would pay for itself economically and socially. The Department spends millions of dollars each year on neo-natal intensive care and long term institutional care for children which may have been prevented by provision of adequate pre-natal care to their mothers. It has been estimated that \$1.00 spent on pre-natal care could ultimately save up to \$11.00 if all the costs of caring for permanently disabled children are considered.

However, the expense of this program requires policy makers to consider the many competing and worthy needs of the medically indigent and others. The Governor's Interim Commission on Children and Youth (GICCY) recommended the pregnant women Medicaid option authorized by this legislation in its report. A plan for the implementation of the GICCY recommendations is being developed by the Governor.

A PROPOSAL FOR COMPREHENSIVE PRENATAL CARE AND HEALTH SERVICES FOR CHILDREN

ALASKA HEALTHY BABY PROJECT

WHAT IS IT?

The Alaska Healthy Baby Project would provide prenatal care, delivery and other health services to pregnant women who have incomes up to 100% of the federal poverty level.

The Alaska Healthy Baby Project would insure that prenatal care can begin as soon as pregnancy is confirmed, to include regular physical examinations, monitoring of the pregnancy, treatment of correctable conditions, assistance in making behavioral changes to reduce the risk of harm to mother and child, and assistance in securing basic needs such as good nutrition.

Children whose families have incomes up to 100% of the federal poverty level would receive a broad spectrum of preventive, screening and treatment services to assure optimum health status in the first five years of life. It is estimated that 5,000 children would receive additional medical coverage over the five year period.

Case management would be available through Public Health Nurses to Medicaid-eligible pregnant women to assess their health problems, coordinate their access to necessary medical care, and refer them to providers of social, education and other services. Promoting individual needs and appropriate prenatal care and health services, case management would aid in reducing complications of pregnancy, and diminish the frequency and severity of handicaps associated with premature delivery and low birth weight infants.

Nutrition services would also be made available to Medicaid-eligible pregnant women to assist those women identified as having complex nutritional, medical and social risk factors requiring intensive nutrition education. Through case managers, all pregnant women would be referred to the Women Infants and Children (WIC) Nutrition Program, however certain high risk women require services beyond the scope of WIC and would be served through enhanced nutritional services.

WHO

Under this Medicaid option, an estimated 974 low income women would be eligible for Medicaid coverage through their pregnancy and postpartum periods. This would increase, by a minimum of 22.2%, the number of pregnant women eligible for Medicaid services.

All children with incomes under the federal poverty level would also be eligible for Medicaid, up to age one the first year and phasing in children each year until all children under the age of five are covered.

WHY

The Alaska Healthy Baby Project is important because of the increasing number of women in Alaska who do not have access to prenatal and delivery care because they are low income but ineligible for Medicaid, or cannot afford health insurance or the cash outlay to cover the cost of those services.

Lack of prenatal care is associated with poor delivery outcomes, including prematurity, infants of low birthweight, and infant deaths and disabilities.

Research shows that improvement in the quality and availability of prenatal and delivery care reduces the need for expensive newborn intensive care.

In FY 84 the Medicaid program spent over \$4.6 million dollars for 96 infants in newborn intensive care; 11 of those babies had medical costs exceeding \$100,000 each.

In 1984, 141 Alaskan babies died before reaching the age of one; 72 of those infants died in the first 28 days of life.

HOW

All of these changes would require an amendment by the legislature to AS 47.07.020, 47.07.030 and 47.07.035 to allow the department to provide Medicaid to pregnant women and children whose incomes do not exceed 100% of the federal poverty level; to allow these pregnant women to receive case management and nutrition services; and to prioritize this group and these services under AS 47.07.035.

The state would also have to provide funding for these services: The FY 89 cost of adopting the option is \$3,063.1 million (\$1,477.5 state funds); for FY 90 the cost is \$6,880.8 million (\$3,397.1 state funds). The increase from FY 89 to FY 90 is because the program cannot be implemented until January 1, 1988 resulting in only $\frac{1}{2}$ year funding the first year.

WHAT WILL HAPPEN?

These provisions will reduce the incidence of infant deaths, birth defects, and developmental disabilities related to insufficient prenatal care, premature birth and low birthweight; and will provide a system of preventive health care and early intervention, promote health and reduce long-term health care costs.

CONTACTS:

Elizabeth Ward, Director, Division of Public Health - 465-3090
Nancy Bennett, Medical Assistance Administrator, Division of Medical Assistance - 465-3355

* The federal law allows many different ways to provide coverage to all or part of this target group, The Alaska Healthy Baby Project is one way. These options are explained in more detail in additional materials.

PHONE:

PREVENTION SAVES ALASKA'S BABIES AND THE STATE'S MONEY

- National data shows lack of prenatal care as the most significant factor in problem births, including prematurity, infants of low birthweight and infant deaths and disabilities.
- A woman without adequate prenatal care has twice the risk of her infant being born with low birthweight and twice the risk of infant death as the infant born to a mother with adequate care.
- Low birthweight babies can suffer tragic outcomes and must endure extensive and costly medical care: about 20% of all neonatal intensive care unit graduates have major medical problems by age two. Up to 60% have some physical or intellectual difficulties by age five.
- Every \$1.00 spent on comprehensive prenatal care saves \$2.00 in the first year of an infant's life alone, because of the reduced need for hospital care.
- Every \$1.00 spent on prenatal care saves up to \$11.00 when all costs of caring for permanently disabled children are included.
- Every \$1.00 spent on women at high risk for delivering low birthweight babies saves \$3.40 during the surviving infants' first year of life.
- Prenatal care that begins early in pregnancy and provides a woman with the medical, nutritional and supportive services she and her baby need has been shown to reduce the incidence of low birthweight by 30%.
- Prenatal care is most effective in improving the health of high risk mothers and babies, whether the risk is from medical factors, or social factors or both.
- 3/4 of the factors that lead to low birthweight can be evaluated in the first prenatal visit and appropriate intervention, such as counseling on substance abuse, can begin early to reduce risks.
- Prenatal visits routinely include blood pressure checks and blood urine tests to screen for conditions which if left unprotected and untreated can cause major problems to the mother or her baby.
- Routine prenatal tests can detect treatable conditions which lead to poor pregnancy outcomes.

DEPT. OF HEALTH AND SOCIAL SERVICES

DIVISION OF PUBLIC HEALTH

POUCH H-06
JUNEAU, ALASKA 99811-9976

PHONE:

THE HEALTH OF ALASKA'S MOTHERS AND BABIES

- ° Each year, about 2,000 or 16% of all births in Alaska occur to women who recieve inadequate or no prenatal care.
- ° The average total cost for prenatal, labor and delivery care in Alaska is \$3,500..... less than the cost of 1 1/2 days in a neonatal intensive care unit.
- ° In 1984, 608 babies were born low in Alaska weighing less than 5 1/2 pounds, most of whom required expensive (\$2,500/day) neonatal intensive care; 142 babies died before reaching their first birthday.
- ° In 1986, an estimated 2,140 women in Alaska were not able to afford prenatal care in their crucial first trimester.
- ° Low birthweight babies constituted less than 5% of all births in Alaska in 1984, but accounted for more than 40% of all infant deaths.
- ° Alaska's low birthweight rate has remained fairly constant.... we have made very little progress in preventing low birthweight.
- ° Alaska's women most in need of prenatal care are least likely to receive it: single, nonwhite, teens and those with little education or income.
- ° The hight cost of prenatal and hospital delivery care is cited repeatedly as the predominant barrier in preventing low income women from obtaining needed prenatal care.
- ° Medicaid provides coverage for < 78% of the poor in Alaska.

EXAMPLES OF GAPS IN PRENATAL CARE

Women earning over 78% of poverty are not eligible for medicaid; these women must pay cash out of pocket for prenatal care unless insured.

-- uncomplicated pregnancy = 25% of her income must go toward prenatal care

The 1984 Vital Statistics Report states that 25% (605) of Native women had inadequate prenatal care and 13% of White Alaskan women received inadequate prenatal care.

Four to five deliveries occur monthly in Anchorage emergency rooms because these women have had no prenatal care.

Alaska Women's Health Clinic in Anchorage reports 27% of their patients are not eligible for any third party reimbursement.

Providence Hospital reported that in 1986, 667 of the 2,480 births there occurred to women who had no third party reimbursement for their birth; 555 of these women have established some sort of payment plan for their birth, but 112 of these have not been able to establish a payment plan.

The state demographer estimates that 11% of the Alaska population has incomes above the Alaska poverty line, but below \$18,000.

POSTNEONATAL MORTALITY IN ALASKA

Definitions:

Infant Mortality (IM) - death of an infant during its first year of life

Neonatal Mortality (NM) - death of an infant during its first 28 days of life

Postneonatal Mortality (PNM) - death of an infant between 28 days and one year of age

Facts: (based on Alaska data for 1979-85)

1. Alaska's PNM rate is the highest of any state in the union.

- AK's 1984 PNM rate: 5.5
- U.S. 1984 PNM rate: 3.8

2. In Alaska, the PNM rate for Natives is twice as high as that for Whites.

1984

- Natives - 9.2
- Whites - 4.5

1979-85

- Natives - 9.6
- Whites - 4.3

3. The Native's PNM rate is higher than the rate for Whites in each of the 6 geographical regions in the state.

4. The PNM rate (for all races) is highest in these 2 regions:

1985 Rate

- Southwest AK 10.0
- Northern AK 9.1

5. Low Birth Weight (LBW) is more common among Neonatal deaths than among Postneonatal deaths.

2/3 of neonatal deaths are LBW

1/4 of postneonatal deaths are LBW

This is true for both Whites and Natives.

6. 3/4 of all Postneonatal deaths are Normal Birth Weight (NBW).

7. Teens account for:

(1984 - 85 data)

9% of births

17% of Neonatal deaths

17% of PN deaths (between 6 mos. and 1 year)

8. Single mothers account for:

16% of births

24% of Neonatal deaths

33% of all PN deaths

9. Natives account for:

20% of births

26% of Neonatal deaths

42% of all PN deaths

10. The bush accounts for:

14% of births

18% of Neonatal deaths

26% of all PN deaths

11. Inadequate Prenatal Care was characteristic of 3-4% of infant deaths compared to <2 % of all births.

Higher percentage of Inadequate Prenatal Care was found among teens and among Natives.

(Adequacy of Care could not be determined for 1/3 of all infant deaths)

12. Causes of Death

- Neonatal: (of Whites and Natives respectively)
 - Congenital Anomalies (29% and 22%)
 - Respiratory Distress Syndrome (16% and 16%)
 - Other Conditions of Perinatal Origin (30% and 31%)
- Postneonatal: (of Whites and Natives respectively)
 - Sudden Infant Death Syndrome (SIDS) - (54% and 44%)
(90% of PN SIDS occurred before the age of 6 months).
 - For Whites, Congenital Anomalies (13%)
 - For Natives, Pneumonia and Influenza (11%)

All other causes (18% and 27%). More detailed information is needed here.

Further Detail:

(1) **Low Birth Weight (LBW)** - less than 2500 grams (5.5 lbs)

Normal Birth Weight (NBW) - 2500 grams (5.5 lbs.) or more

(2) **PNM rate** = # postneonatal deaths in a year/# live births in a year X 1,000

(3) The 6 geographical regions of the state (with census areas included in each):

- Anchorage/Matanuska - Susitna Region
 - Anchorage Borough
 - Matanuska-Susitna Borough
- Gulf Coast Region
 - Kenai Peninsula Borough
 - Kodiak Island Borough
 - Valdez-Cordova Census Area
- Interior Region
 - Fairbanks North Star Borough
 - Southeast Fairbanks Census Area
 - Yukon-Koyukuk Census Area

- Northern Region
 - Nome Census Area
 - North Slope Borough
 - Northwest Arctic Borough (Kobuk C.A.)

- Southeast Region
 - Haines Borough
 - Juneau Borough
 - Ketchikan Gateway Borough
 - Prince of Wales-Outer Ketchikan C.A.
 - Sitka Borough
 - Skagway-Yakutat-Angoon Census Area
 - Wrangell-Petersburg Census Area

- Southwest Region
 - Aleutian Islands Census Area
 - Bethel Census Area
 - Bristol Bay Borough
 - Dillingham Census Area
 - Wade Hampton Census Area

(4) The bush: Census Areas

Nome, North Slope, Northwest Arctic (Kobuk), Aleutian Islands, Bethel,
 Bristol Bay, Dillingham, Wade Hampton, Yukon-Koyukuk

(5) Inadequate Prenatal Care: Initial visit was in the third trimester of pregnancy or fewer than five prenatal visits.

PRENATAL CARE COSTS

Adequate Prenatal Care - for uncomplicated pregnancies must begin in the first trimester

- visits should be every 4 weeks for first 28 weeks
- one visit every 2 weeks for next 8 weeks
- one visit every week thereafter until delivery
- total number of prenatal visits = 14 to 15 visits
- prenatal care provider - obstetrician/gynecologist, certified nurse midwife, or advanced nurse practitioner

Alaska Women's Health Service - Prenatal Care

1st Prenatal Visit	\$ 200
--------------------	--------

Each Subsequent Visit @ \$45 x 13 visits	\$ 585
--	--------

Since the recommended prenatal visit schedule for prenatal care totals 14 visits for a low risk full term gestation, I multiplied the \$45 per visit rate by 13 visits.

Delivery Fees

Vaginal delivery	\$ 700
------------------	--------

Cesarean Section	\$ 1,400
------------------	----------

Cost of Vaginal Delivery

Prenatal Care	\$ 785
Delivery-Physician Chg.	700
Total Fees	\$1,485
Providence Hospital Fees	1,950
Grand Total	\$3,435

Cost of a C-Section Delivery

Prenatal Care	\$ 785
C-Section Del.	\$1,400
Total Fees	\$ 2,185
Providence Fees	\$5,000
Grand Total	\$ 7,185

Neighborhood Health Center

Fee includes all prenatal visits plus delivery charges

0 Fee	25% Fee	50% Fee	75% Fee	Full Fee
Medicaid	125% Poverty	150% Poverty	175% Poverty	200% Poverty
\$0.00	\$300	\$600	\$900	\$1,200

OPTIONS FOR INCREASING PRENATAL SERVICES

I. Increase the number of women and children who qualify for medicaid

II. Provide a prenatal care program that would pay a portion of the cost of the medical prenatal care of the eligible women. Each woman would have a participation amount that would be dependent on her income and family size.

Eligibility

-- low income, but not eligible for medicaid

-- high risk pregnancy due to a medical condition or lack of access to prenatal care because of geographic location.

III. Enhancement of Services

-- case management

-- nutritional services

-- presumptive eligibility

-- no resource limit

-- one time eligibility

Solutions can be limited to one of these three choices or be combination of the three - see schematic.

SOURCE: State Medicaid Information Center, National Governors' Association
 July 1987

NOTES

1. Based on annualized monthly maximum countable income for a family of three (AFDC, Medically Needy, OBRA-86 Pregnant Women). Under AFDC, the term "threshold" refers to that income limit which truly drives program eligibility, and can be either a state's AFDC Need or Payment Standard, depending on how each state determines eligibility.
2. Poverty levels for Alaska and Hawaii differ from other states: Alaska - family of 3 = \$11,620; Hawaii - family of 3 = \$10,690.
3. California already covers pregnant women (and all other groups) with family income below the federal poverty level by virtue of its medically needy threshold.
4. In response to OBRA-86, Minnesota elected to raise its medically needy threshold to the highest possible level (133 1/3% of AFDC payment standards) and, as a result, now covers all pregnant women with family incomes up to 91.5% of the federal poverty level.
5. The percentage represents the average medically needy threshold as a percent of poverty only for those states which have medically needy programs. If states without medically needy programs were included in the calculation (AFDC levels would represent eligibility thresholds), the percentage would drop significantly.
6. The percentage represents the average OBRA-86 pregnant women income threshold only for those states which have elected to expand such coverage, and includes California and Minnesota.

ANALYSIS

ALASKA HEALTHY BABY PROJECT

PLAN FOR IMPLEMENTATION

1. Add all pregnant women and children up to one year of age with monthly incomes up to 100% of the federal poverty level for Alaska to the Medicaid Program. The program design includes:
 - * one time eligibility determination for pregnant women. Once found eligible, the woman would retain Medicaid through the 60 day postpartum period. An income eligible pregnant woman may receive Medicaid as soon as pregnancy is medically verified. Children are automatically eligible for the 60 day postpartum period once the mother verifies the birth date.
 - * no resource (asset) limit for pregnant women and children.
 - * pregnant women and children will be eligible for all Medicaid services offered under the State Plan.

(Estimate 974 eligibles: \$4,163 per pregnant woman x 974 = \$4,054,762 + \$1,298 per child x 974 = \$1,166,852 = Total \$5,221,614). These cost estimates are based on actual average 1986 expenditure data for pregnant women and children age 5 and under. NOTE: the January 1, 1989 implementation date will result in $\frac{1}{2}$ the program expenditures under Medicaid services for pregnant women and children during the first year.

2. Add case management services, as an enhanced service to pregnant women, to coordinate health care service delivery. This service will be particularly targeted at women with high risk pregnancies, and must be offered to all Medicaid-eligible pregnant women. The program will be implemented by hiring four nurse consultant public health nurses in the Division of Public Health to be case managers. These positions will operate from Anchorage, Fairbanks, Bethel and Juneau. The nurses will receive Medicaid referral of all pregnant women in order that each may be evaluated as to their pregnancy risk factor. The case managers will coordinate the health care services delivered, assure that pregnant women receive necessary services, and assist with arranging appointments and transportation. Uniform perinatal guidelines will be adopted to assure that pregnant women are receiving adequate care. Also hired, will be a Nurse IV Pre-Natal Coordinator for the Division of Medical Assistance to coordinate case management services, perform a utilization review function on expenditures for pregnant women and children, design and manage computer reports to monitor program objectives, establish criteria to evaluate improved pregnancy outcome, and evaluate program compliance. All positions will be at 75/25 federal/state match since each will be filled with medical personnel.

3. Add nutrition services under enhanced services to pregnant women beginning in the second year. This service must be provided to all pregnant women. (Estimate that 15% of pregnant women would need nutrition counseling because of high risk pregnancy. Average two visits per person X 600 persons x \$35/visit)
4. New eligibility technicians in the Division of Public Assistance to review applications, conduct interviews, verify eligibility and authorize medical coupons for the new population of pregnant women and children eligible under this Medicaid option. There will be two new positions in year one and three new positions in year two, with a one time outlay of \$3,000 per position for desk, chair, file cabinet and computer terminal.
5. This change in the Medicaid Program will require a system support increase to the Eligibility Information System (EIS) of the Division of Public Assistance, and will require lead time to accomplish (the January 1, 1989 implementation date).

Year One

<u>Cost</u>		Fed match	GF match
	Medicaid services for pregnant women assuming ½ year costs	\$1,013,690	\$1,013,690
	Medicaid services for children one year of age assuming ½ year costs	\$ 291,713	\$ 291,713
	Case management services 5 nurses at 75/25 federal state match plus travel, supplies, equipment and risk insurance assuming 3/4 year cost and 10.0 for outreach	\$ 192,743	\$ 87,956
	Two new eligibility technicians for the Division of Public Assistance - \$36,300 assuming ½ year cost of \$18,150 each at 50/50 state/federal match plus equipment	\$ 21,150	\$ 21,150
	Public Assistance computer system data processing	\$ 7,450	\$ 7,450
	TOTAL	\$1,526,746	\$1,421,959

Year Two

NOTE: This will be the first full year of the program, so the costs for medical services for pregnant women and children, and new positions have been restated indicating full year costs.

Add children up to age two with incomes up to 100% of the federal poverty level to the Medicaid Program.

<u>Cost</u>		Fed match	GF match
	Medicaid services for pregnant women	\$2,027,381	\$2,027,381
	Medicaid services for children one and two years of age.	\$1,166,852	\$1,166,852
	Nutrition services	\$ 21,000	\$ 21,000
	Case management services, full year cost	\$ 253,700	\$ 107,200
	Three new eligibility technicians for the Division of Public Assistance - \$36,300 each at 50/50 state federal match plus equipment	\$ 59,000	\$ 59,000
	Full year cost of two eligibility technicians added year one	\$ 36,300	\$ 36,300
	Public Assistance data processing	\$ 7,450	\$ 7,450
	TOTAL	\$3,571,683	\$3,425,183

Year Three

Add children up to age three with incomes up to 100% of the federal poverty level to the Medicaid Program.

		Fed match	GF match
<u>Cost</u>	Medicaid services for children three years of age.	\$ 583,426	\$ 583,426
	Public Assistance data processing	\$ 7,450	\$ 7,450
	TOTAL	\$ 590,876	\$ 590,876

NOTE: Assumes base includes year 1 and year 2 costs.

Year Four

Add children up to age four with incomes up to 100% of the federal poverty level to the Medicaid Program.

		Fed match	GF match
<u>Cost</u>	Medicaid services for children four years of age.	\$ 583,426	\$ 583,426
	Public Assistance data processing	\$ 7,450	\$ 7,450
	TOTAL	\$ 590,876	\$ 590,876

NOTE: Assumes base includes years 1, 2 and 3 costs.

Year Five

Add children up to age five with incomes up to 100% of the federal poverty level to the Medicaid Program.

		Fed match	GF match
<u>Cost</u>	Medicaid services for children five years of age.	\$ 583,426	\$ 583,426
	Public Assistance data processing	\$ 7,450	\$ 7,450

TOTAL \$ 590,876 \$ 590,876

NOTE: Assumes base includes years 1, 2, 3 and 4 costs.

ASSUMPTIONS: An inflation factor has not been added to medical care costs for years two, three, four and five. An inflation factor will have to be applied each fiscal year to the Medicaid budget to adequately fund this option.

ALASKA HEALTHY BABY PROJECT
Summary

	YEAR					TOTAL
	1989	1990	1991	1992	1993	
Pregnant Women Coverage for medical services	2,027.4	4,054.8	4,054.8	4,054.8	4,054.8	18,246.6
Medical services for children:
