1 IN THE HOUSE BY THE LABOR AND  
COMMERCE COMMITTEE  
2 CS FOR HOUSE CONCURRENT RESOLUTION NO. 45 (L&C)  
3 IN THE LEGISLATURE OF THE STATE OF ALASKA  
4 FIFTEENTH LEGISLATURE - SECOND SESSION  
5 Relating to encouraging private industry  
6 to hire state residents and to contract  
7 with local businesses.  
8 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:  
9 WHEREAS the hiring of state residents is an important public policy  
10 issue to the citizens of the state; and  
11 WHEREAS public support for hiring state residents increases as the  
12 number of jobs in the state economy decreases; and  
13 WHEREAS the state has a pool of skilled workers and organizations from  
14 which private industry could, in most instances, find the persons necessary  
15 to fulfill its contracts and fill its employment positions; and  
16 WHEREAS businesses, especially those controlled by nonresident or  
17 foreign interests, must be made aware of the importance of giving state  
18 residents a chance to work in the state;  
19 BE IT RESOLVED by the Alaska State Legislature that the Governor is  
20 respectfully requested to direct the commissioner of labor to embark on a  
21 public awareness and promotional campaign to encourage private industry to  
22 hire state residents and to contract with state businesses for projects  
23 located in the state.

## Analysis of Fiscal Note for CS HCR 45 (L&amp;C)

CSHCR 45 (L&C)  
HOUSE 5/2/88

This resolution requests the Department of Labor to embark on a public awareness and promotional campaign to encourage resident hire. The Department proposes a multi-media campaign which would spread the resident hire message through radio, television, newspapers, brochures, trade shows, conferences, etc. Detailed cost estimates of this campaign are as follows:

Travel - \$15,000

This would cover travel to trade shows, chamber of commerce meetings, business association meetings, conferences, and other places where private industry groups gather.

Contractual - \$65,000

\$15,000 - This would be for the production and development of the campaign by a professional advertising consultant. We would have the person or agency develop printed and electronic media ads, and produce a traveling display for use at meetings.

\$5,000 - Printing and postage costs. This would cover the costs associated with printing a brochure encouraging resident hire. It would be both mailed to employers and handed out at conferences.

\$20,000 - Newspaper advertising.

\$10,000 - Radio advertising.

\$15,000 - Television advertising.

The paid advertising provided for in this fiscal note will be supplemented, to the extent possible, with public service announcements which radio and television stations provide at no cost.

TOTAL - \$80,000

## Assumptions:

1. We would begin this campaign July 1, 1988.
2. Inflation of 3% in fiscal years 90 - 93.

#### Assumptions:

1. We would begin this campaign July 1, 1988.
2. Inflation of 3% in fiscal years 90 - 93.

boat trailer dealers from the motor vehicle dealer registration and bonding requirements. He explained that a business that sold boats usually sold trailers as an accessory to the boats and currently they were required to be licensed and bonded as a motor vehicle dealer.

Chairman Donley wondered why the title of SB 199 was so broad.

Mr. Staley stated he did not have a response to that question.

Number 508

Mr. Gary Jenkins, representing himself, stated that it came to his attention a couple of years ago, that there was a hole in the current motor vehicle dealer law. Technically, because of the very broad definition in the law, it included someone selling boat trailers. He talked with motor vehicles about it and they indicated that they never enforced it. Some boat dealers did comply, others didn't, especially the smaller ones statewide. He explained that he was part owner in a boat dealership and wanted to make sure they were complying with everything and this hole came to light. He explained the different prices of bonds for motor vehicle dealers as opposed to motorcycle dealers, who had a special category in law. He wanted to clean up the statute, if possible, and that was why he went to Senator Duncan who introduced SB 199.

Chairman Donley stated that he wanted to talk with the Judiciary Committee Chair about SB 199 and he wanted to hold SB 199 until Tuesday, April 26. He stated that Senator Duncan's office could talk with Judiciary about prescheduling SB 199 and he hoped to move it Tuesday.

Number 533

Mr. Staley asked if Chairman Donley planned on introducing an amendment to SB 199.

Chairman Donley stated that he did because of the broad title.

Chairman Donley stated that the next matter on the agenda was HCR 45, a resolution relating to encouraging private industry to hire state residents and to contract with local businesses.

Number 577

Rep. Pearce, sponsor of HCR 45, stated that the focus of the resolution was to encourage private industry to hire state residents and to contract with local businesses. She

proposed the Commissioner of Labor embark upon a public awareness campaign to put pressure on all businesses in the state concerning hiring local people. She continued that resident business owners and operators must be given every opportunity to understand clearly that Alaska had a skilled workforce from which to draw on. She explained the present policy that the Dept. of Labor did with regard to encouraging local hire. She asked for the committee's support on HCR 45 and mentioned the fiscal note prepared by the Dept. of Labor. She offered to work with the department in trying to find \$80,000 somewhere to enable them to do the advertising required. She believed they would be able to cut some of the advertising costs through using public service announcement slots on the radio and television. She mentioned SB 274 which allowed the department to release local hire statistics and HCR 45 would be a secondary approach to the same problem.

Number 607

Chairman Donley suggested including public before the word support on line 11. Rep. Pearce didn't have any objections to the suggestion. Chairman Donley suggested deleting the words "able bodied and" from line 13. Rep. Pearce didn't have any objections to the suggestion.

Number 626

Ms. Eileen Plate, special assistant to the Dept. of Labor, stated that the department loved HCR 45. She continued that nonresidents were taking a lot of jobs that could go residents. She cited statistics from 1986 regarding nonresidents working in Alaska.

TAPE TWO, SIDE ONE  
Number 000

Ms. Eileen Plate stated that the statistics speak to the need for some awareness in the state with respect to why it's necessary for payroll dollars to go to Alaska residents and to be spent in Alaska communities. She reiterated the department's support of HCR 45.

Number 024

Rep. Boucher commented that HCR 45 was a perfect compliment to the senate legislation aimed at disclosing nonresident employment statistics. He mentioned that HCR 45 went hand in hand with the indices report bill that the committee passed out a week ago. He stated his support of HCR 45.

Number 062

Rep. Pearce stated that because of the public service nature of the entire issue, the \$80,000 it would cost for advertising could be stretched and made to look like there was a lot more money involved because of the public service announcements which were free. She requested that the suggestions be put to the committee in the form of conceptual amendments so the resolution could be passed out of committee today.

Rep. Koponen moved to strike the words, "able bodied and" from line 13 of HCR 45. There being no objection to the motion, the motion carried.

Rep. Koponen moved to strike the word "perform" and substitute the word "fulfill" on line 15 of HCR 45. There being no objection to the motion, the motion carried.

Rep. Koponen moved to insert the "public" before the word support in line 11 of HCR 45. There being no objection to the motion, the motion carried.

Number 106

Rep. Koponen moved to adopt the committee substitute for HCR 45. There being no objections, the motion carried.

Rep. Koponen moved CS HCR 45 to the next committee of referral with individual recommendations. There being no objections, the motion carried.

Since there was no further business to come before the House Labor and Commerce Committee, Chairman Donley adjourned the meeting at 3:42 p.m.

April 26, 1988

In accordance with Alaska's Employment Preference Law, the following determinations have been made by the Department of Labor.

### ZONE OF UNDEREMPLOYMENT

#### STATE OF ALASKA

The State of Alaska has been determined to be a Zone of Underemployment in accordance with AS 36.10.150 and 8 AAC 30.064, of the Employment Preference Law.

Effective immediately, and for the next two (2) fiscal years, qualified residents of Alaska who are eligible under AS 36.10.140 shall be given preference in hiring for at least 90 percent of employment on each public works project in the State of Alaska covered by the law.

### ECONOMICALLY DISTRESSED ZONE

#### GULF COAST, INTERIOR, AND NORTHERN REGIONS

The Gulf Coast, Interior, and Northern Regions of the State of Alaska have been determined to qualify as "Economically Distressed Zones" under AS 36.10.160 and 8 AAC 30.065.

Effective immediately, and for the next two (2) fiscal years, qualified residents of each zone who are eligible under AS 36.10.140 shall be given a preference in hiring for at least 50 percent of employment on each public works project covered by the law that is wholly or partially located within each zone.

ECONOMICALLY DISADVANTAGED MINORITY ZONE

NORTHERN REGION AND SOUTHWEST REGION

The Northern and Southwest Regions of Alaska have been determined to qualify as "Economically Disadvantaged Minority Zones" under AS 36.10.170 and 8 AAC 30.066.

Effectively immediately, and for the next two (2) fiscal years, qualified minority residents of each zone who are eligible under AS 36.10.140 shall be given preference in hiring for at least 25 percent of employment on each public works project covered by the law that is wholly or partially located within the zone.

---

All determinations shall apply on a craft-by-craft or occupational basis. A map of the designated zones and a list of the classifications subject to the employment preference per zone is attached for your information; Also enclosed for reference is a copy of the Employment Preference Law (AS 36.10), and the applicable regulations.

Should you have any questions concerning the employment preference requirements described in this communication, please contact my office or Mr. Tom Stuart, Director of the Labor Standards and Safety Division, at (907) 264-2452.

Please consider this communication official notice that Employment Preference Zones under AS 36.10 have been declared effective this date.

Sincerely,

Jim Sampson  
Commissioner

A map of the designated zones and a list of the classifications subject to the employment preference per zone is attached for your information. Also enclosed for reference is a copy of the Employment Preference Law (AS 36.10), and the applicable regulations.

Should you have any questions concerning the employment preference requirements described in this communication, please contact my office or Mr. Tom Stuart, Director of the Labor Standards and Safety Division, at (907) 264-2452.

Please consider this communication official notice that Employment Preference Zones under AS 36.10 have been declared effective this date.

Sincerely,

Jim Sampson  
Commissioner

EMPLOYMENT PREFERENCE DETERMINATIONS  
BY ZONE

ZONE OF UNDEREMPLOYMENT

The following classifications qualify for a minimum of 90% resident hire preference on new hires within the state of Alaska.

STATE OF ALASKA

BOILERMAKERS	MECHANICS
BRICKLAYERS	PAINTERS
CARPENTERS	PILE DRIVING OPERATORS
CEMENT FINISHERS	PLUMBERS & PIPEFITTERS
CULINARY WORKERS	ROOFERS
ELECTRICIANS	SHEET METAL WORKERS
ENGINEERS & ARCHITECTS	SURVEYING CREWS
EQUIPMENT OPERATORS	TRUCK DRIVERS
FOREMEN & SUPERINTENDENTS	TUG BOAT WORKERS
INSULATION WORKERS	WELDERS
IRONWORKERS	
LABORERS	

ECONOMICALLY DISTRESSED ZONE

The following classifications qualify for a minimum of 50% resident hire preference on new hires within each zone listed. . .

GULF COAST REGION

BOILERMAKERS	MECHANICS
BRICKLAYERS	PAINTERS
CARPENTERS	PILE DRIVING OPERATORS
CEMENT FINISHERS	PLUMBERS & PIPEFITTERS
CULINARY WORKERS	ROOFERS
ELECTRICIANS	SHEET METAL WORKERS
ENGINEERS & ARCHITECTS	SURVEYING CREWS
EQUIPMENT OPERATORS	TRUCK DRIVERS
FOREMEN & SUPERINTENDENTS	TUG BOAT WORKERS
INSULATION WORKERS	WELDERS
IRONWORKERS	
LABORERS	

April 26, 1988

INTERIOR REGION

BOILERMAKERS	LABORERS
BRICKLAYERS	MECHANICS
CARPENTERS	PAINTERS
CEMENT FINISHERS	PLUMBERS & PIPEFITTERS
CULINARY WORKERS	ROOFERS
ELECTRICIANS	SHEET METAL WORKERS
ENGINEERS & ARCHITECTS	SURVEYING CREWS
EQUIPMENT OPERATORS	TRUCK DRIVERS FOREMEN &
FOREMEN & SUPERINTENDENTS	WELDERS
INSULATION WORKERS	
IRONWORKERS	

NORTHERN REGION

CARPENTERS	MECHANICS
CULINARY WORKERS	PAINTERS
ELECTRICIANS	PLUMBERS & PIPEFITTERS
ENGINEERS & ARCHITECTS	ROOFERS
EQUIPMENT OPERATORS	SURVEYING CREWS
FOREMEN & SUPERINTENDENTS	TRUCK DRIVERS
INSULATION WORKERS	TUG BOAT WORKERS
IRONWORKERS	WELDERS
LABORERS	

ECONOMICALLY DISADVANTAGED MINORITY RESIDENTS

The following classifications qualify for a minimum of 25% resident hire preference on new hires within each zone.

NORTHERN REGION

CARPENTERS	MECHANICS
CULINARY WORKERS	PLUMBERS & PIPEFITTERS
ENGINEERS & ARCHITECTS	ROOFERS
EQUIPMENT OPERATORS	TRUCK DRIVERS
FOREMEN & SUPERINTENDENTS	TUG BOAT WORKERS
IRONWORKERS	WELDERS
LABORERS	

SOUTHWEST REGION

CARPENTERS	MECHANICS
CULINARY WORKERS	PAINTERS
ELECTRICIANS	PLUMBERS & PIPEFITTERS
EQUIPMENT OPERATORS	ROOFERS
FOREMEN & SUPERINTENDENTS	TRUCK DRIVERS

HOUSE CONCURRENT RESOLUTION NO. 45

3

IN THE LEGISLATURE OF THE STATE OF ALASKA

4

FIFTEENTH LEGISLATURE - SECOND SESSION

5

Relating to encouraging private industry

6

to hire state residents and to contract

7

with local businesses.

8 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9

WHEREAS the hiring of state residents is an important public policy  
10 issue to the citizens of the state; and

11

WHEREAS support for hiring state residents increases as the number of  
12 jobs in the state economy decreases; and

13

WHEREAS the state has a pool of able-bodied and skilled workers and  
14 organizations from which private industry could, in most instances, find  
15 the persons necessary to perform its contracts and fill its employment  
16 positions; and

17

WHEREAS businesses, especially those controlled by nonresident or  
18 foreign interests, must be made aware of the importance of giving state  
19 residents a chance to work in the state;

20

BE IT RESOLVED by the Alaska State Legislature that the Governor is  
21 respectfully requested to direct the commissioner of labor to embark on a  
22 public awareness and promotional campaign to encourage private industry to  
23 hire state residents and to contract with state businesses for projects  
24 located in the state.

ASSUMPTIONS

No. 1

A) Toll Checkpoint

HCR 46  
HOUSE 3/2/88

- 1) One toll checkpoint would be needed to collect tolls.
- 2) Checkpoint costs were based on similar costs for a checkpoint on the Dalton Highway.
- 3) A checkpoint for year round occupancy would be more expensive as it would require additional insulation, permanent utilities systems, larger living quarters, etc.

B) Pioneer Road

- 1) Would be 18ft. wide, screened gravel surface and have trestle type bridges. The cost for this work assumes that 18ft. wide road could be constructed so that it was safe and maintainable and that only minimal reconstruction on the existing railbed would be necessary. Should any of these parameters be forced to change, during the course of actual design, the cost could increase substantially. Cost increases would depend on the type of changes that were necessary.

C) Federal Aid Secondary

- 1) Would be 28ft. wide, crushed gravel surface and have standard bridges. The cost is based on current construction costs for typical gravel surface Federal Aid secondary roads. Assumes construction of access road from the Million Dollar Bridge, Mile Post 49, to Chitina.

D) Copper River Bridge

- 1) To keep per vehicle tolls to a minimum, it was assumed that the estimated \$7,500,000 to construct a bridge across the Copper River, adjacent to the Million Dollar Bridge, would be done with Federal discretionary bridge funds. Therefore, this particular cost does not appear in the overall capital costs. If discretionary funding cannot be obtained the \$7,500,000 construction cost would have to be added to the total capital costs of the project. This would increase the per vehicle toll for capital costs payoff by \$7.00 for seasonal and \$4.00 for year-round.

E) Maintenance Station

- 1) In order to distribute the added mileage evenly, one additional station would be needed in the Tasnuna River area and additional equipment would be needed at the Chitina Station.
- 2) Facilities requirements to meet seasonal needs.  
2,400 sq. ft. shop  
Generator Bldg. w/two generators  
4 each trailer pads for 14X70 trailers.  
Utilities and water/well system.
- 3) Facilities requirements to meet year round needs (in addition to above building needs).  
2 Trailer pads for 14X70 trailers.  
Utilities and water system.  
Sand shed 2,000 sq. ft.

2,000 sq. ft. work store building.

No. 1

F) Maintenance Equipment

HCR 46  
HOUSE 3/2/88

- 1) Seasonal (either type road)
  - a) New Tasnuna Station
    - Motor graders CAT 14 Type (2)
    - Dump Truck 8 Yd.
    - Loader 4 yd. type (1)
    - Dozer D-8 type
    - 2 4WD 3/4 ton pickups
    - Low tractor trailer
  - b) The mileage this road would add to the existing system would be slightly more than a new station should handle. Therefore, some additional equipment would be needed at the existing Chitina Station to cover the extra northernmost portion of the additional mileage. This additional equipment would also be used on other state-maintained roads in the Chitina area.
  - c) Chitina Station (additional equipment)
    - Motor grader CAT 14 type (1)
    - Loader 4yd. type (1)
    - Dump Truck 8 yd. type (1)
- 2) Year-round (in addition to season equipment needs) [either type road]
  - a) Tasnuna Station
    - Truck type Rotary snowblower 2 each 2200 tph
    - 4x4 Oshkosh with V-nose plow, belly blade and wing, 2 each Sander

G) Building and equipment needs are based on:

- 1) Historical information from old railroad records, which show that a substantial maintenance effort was required to keep the alignment open and in good repair at all times of the year.
- 2) Personal on-site observations of substantial slide and erosion activity by DOT&PF maintenance staff and other individuals at various times of the year.
- 3) If the Pioneer Road is built, it will be heavily used. The one-lane road will not be able to handle the volume of traffic very long. By building and staffing an adequate camp, maintenance forces can make many of the upgrades that will be required by the traffic volume.

H) Maintenance Costs - Manpower Needs

- 1) Seasonal
    - a) Tasnuna Station (New Positions)
      - i) 1 WG 52 Foreman
      - ii) 2 WG 53 Operations
      - iii) 1 WG 53 Operator/Mechanic
    - b) Chitina Station
      - i) 2 WG 53 Operators
  - 2) Year Round
    - a) Tasnuna Station
      - i) above 4 Positions @ Full-time
      - ii) Plus 1 additional WG 53 Operator and 1 additional WG 54 Operator
- I) Toll Program Administration
- 1) Based on estimates of manpower needs for similar checkpoint program on Dalton Highway at \$7,000 per month for a staff of 3.
  - 2) Accounting support assumes accounting clerk, range 9, part-time.
- J) Average Annual Traffic
- 1) Based on historical traffic generating data for similar sized communities, future growth patterns as demonstrated in the draft Cordova Comprehensive Plan and the area's location relative to major population centers and recreational/resource opportunities. This resulted in an average daily traffic count forecast of 375 vehicles a day, or 11,250 a month based on a 30-day month.
  - 2) The average monthly traffic count for a year round rate will be less than a seasonal route. This is because the year round average takes in a 7-month period where historic traffic declines by approximately 60% from the five-month summer period.
- K) Capital Costs
- 1) Capital costs for check point construction, maintenance equipment, maintenance station construction, and Pioneer Road would all have to be funded initially from General Funds.
  - 2) Capital costs for constructing the Federal Aid Secondary Road would be split 91.35% Federal and 8.65% State General Fund match.
  - 3) Costs for Pioneer Road construction could be recovered from the FHWA upon upgrade of this road to Federal Highway Secondary standards. However this recovered cost would come from federal obligation authority which could otherwise be used on other projects.

- L) Toll charges for private vehicles may be able to be lessened by charging on the basis of vehicle gross weight. This would increase the cost to truck traffic, but assumably increase shipping costs as well. Because we have no way to determine gross weight at this time, such a charge schedule would have to wait until traffic data could be collected on the road, so that a determination could be made as to whether or not actual truck traffic was substantial enough to invoke such a schedule. An annual reassessment of toll charges could be done if changes in traffic level, maintenance costs, and/or toll program costs change.
- M) Analysis does not include "cost of money."

**ANALYSIS:** The use of a toll authority is not established procedure in the department. The assumptions expressed in this analysis represent the department's initial reactions to this concept and may need modification to more accurately reflect the opportunity costs of money, the pay back terms and other financial assumptions. In addition, federal aid funds for construction may have to be re-paid prior to establishing a toll.

ASSUMPTIONS

No. 1

A) Toll Checkpoint

HCR 46  
HOUSE 3/2/88

- 1) One toll checkpoint would be needed to collect tolls.
- 2) Checkpoint costs were based on similar costs for a checkpoint on the Dalton Highway.
- 3) A checkpoint for year round occupancy would be more expensive as it would require additional insulation, permanent utilities systems, larger living quarters, etc.

B) Pioneer Road

- 1) Would be 18ft. wide, screened gravel surface and have trestle type bridges. The cost for this work assumes that 18ft. wide road could be constructed so that it was safe and maintainable and that only minimal reconstruction on the existing railbed would be necessary. Should any of these parameters be forced to change, during the course of actual design, the cost could increase substantially. Cost increases would depend on the type of changes that were necessary.

C) Federal Aid Secondary

- 1) Would be 28ft. wide, crushed gravel surface and have standard bridges. The cost is based on current construction costs for typical gravel surface Federal Aid secondary roads. Assumes construction of access road from the Million Dollar Bridge, Mile Post 49, to Chitina.

D) Copper River Bridge

- 1) To keep per vehicle tolls to a minimum, it was assumed that the estimated \$7,500,000 to construct a bridge across the Copper River, adjacent to the Million Dollar Bridge, would be done with Federal discretionary bridge funds. Therefore, this particular cost does not appear in the overall capital costs. If discretionary funding cannot be obtained the \$7,500,000 construction cost would have to be added to the total capital costs of the project. This would increase the per vehicle toll for capital costs payoff by \$7.00 for seasonal and \$4.00 for year-round.

E) Maintenance Station

- 1) In order to distribute the added mileage evenly, one additional station would be needed in the Tasnuna River area and additional equipment would be needed at the Chitina Station.
- 2) Facilities requirements to meet seasonal needs.  
2,400 sq. ft. shop  
Generator Bldg. w/two generators  
4 each trailer pads for 14X70 trailers.  
Utilities and water/well system.
- 3) Facilities requirements to meet year round needs (in addition to above building needs).  
2 Trailer pads for 14X70 trailers.  
Utilities and water system.  
Sand shed 2,000 sq. ft.

2,000 sq. ft. work store building.

No. 1

F) Maintenance Equipment

HCR 46  
HOUSE 3/2/88

- 1) Seasonal (either type road)
  - a) New Tasnuna Station
    - Motor graders CAT 14 Type (2)
    - Dump Truck 8 Yd.
    - Loader 4 yd. type (1)
    - Dozer D-8 type
    - 2 4WD 3/4 ton pickups
    - Low tractor trailer
  - b) The mileage this road would add to the existing system would be slightly more than a new station should handle. Therefore, some additional equipment would be needed at the existing Chitina Station to cover the extra northernmost portion of the additional mileage. This additional equipment would also be used on other state-maintained roads in the Chitina area.
  - c) Chitina Station (additional equipment)
    - Motor grader CAT 14 type (1)
    - Loader 4yd. type (1)
    - Dump Truck 8 yd. type (1)
- 2) Year-round (in addition to season equipment needs) [either type road]
  - a) Tasnuna Station
    - Truck type Rotary snowblower 2 each 2200 tph
    - 4x4 Oshkosh with V-nose plow, belly blade and wing, 2 each
    - Sander

G) Building and equipment needs are based on:

- 1) Historical information from old railroad records, which show that a substantial maintenance effort was required to keep the alignment open and in good repair at all times of the year.
- 2) Personal on-site observations of substantial slide and erosion activity by DOT&PF maintenance staff and other individuals at various times of the year.
- 3) If the Pioneer Road is built, it will be heavily used. The one-lane road will not be able to handle the volume of traffic very long. By building and staffing an adequate camp, maintenance forces can make many of the upgrades that will be required by the traffic volume.

H) Maintenance Costs - Manpower Needs

- 1) Seasonal
  - a) Tasnuna Station (New Positions)
    - i) 1 WG 52 Foreman
    - ii) 2 WG 53 Operations
    - iii) 1 WG 53 Operator/Mechanic
  - b) Chitina Station
    - i) 2 WG 53 Operators
- 2) Year Round
  - a) Tasnuna Station
    - i) above 4 Positions @ Full-time
    - ii) Plus 1 additional WG 53 Operator and 1 additional WG 54 Operator

## I) Toll Program Administration

- 1) Based on estimates of manpower needs for similar checkpoint program on Dalton Highway at \$7,000 per month for a staff of 3.
- 2) Accounting support assumes accounting clerk, range 9, part-time.

## J) Average Annual Traffic

- 1) Based on historical traffic generating data for similar sized communities, future growth patterns as demonstrated in the draft Cordova Comprehensive Plan and the area's location relative to major population centers and recreational/resource opportunities. This resulted in an average daily traffic count forecast of 375 vehicles a day, or 11,250 a month based on a 30-day month.
- 2) The average monthly traffic count for a year round rate will be less than a seasonal route. This is because the year round average takes in a 7-month period where historic traffic declines by approximately 60% from the five-month summer period.

## K) Capital Costs

- 1) Capital costs for check point construction, maintenance equipment, maintenance station construction, and Pioneer Road would all have to be funded initially from General Funds.
- 2) Capital costs for constructing the Federal Aid Secondary Road would be split 91.35% Federal and 8.65% State General Fund match.
- 3) Costs for Pioneer Road construction could be recovered from the FHWA upon upgrade of this road to Federal Highway Secondary standards. However this recovered cost would come from federal obligation authority which could otherwise be used on other projects.

- L) Toll charges for private vehicles may be able to be lessened by charging on the basis of vehicle gross weight. This would increase the cost to truck traffic, but assumably increase shipping costs as well. Because we have no way to determine gross weight at this time, such a charge schedule would have to wait until traffic data could be collected on the road, so that a determination could be made as to whether or not actual truck traffic was substantial enough to invoke such a schedule. An annual reassessment of toll charges could be done if changes in traffic level, maintenance costs, and/or toll program costs change.
- M) Analysis does not include "cost of money."

HCR 46  
Fiscal Analysis

In order to provide emergency response and regular road patrol, one commissioned State Trooper position would be required. The current Alaska State Trooper staffing level does not allow for the picking up of these additional responsibilities. Presumptions made in preparing this fiscal note are that actual construction would not begin until July 1, 1991. No inflation is accounted for and the equipment requirement will exist in the first year only.

Re: Copper River Highway

Dear Margy:

As I promised, we are continuing to gather information about the Copper River Highway. Both Roy Peratrovich and I have always thought that this project is of great economic importance to Chitna, Cordova, Valdez and Alaska.

In earlier days, we both worked on route reconnaissance and designed many of the bridges including the large ones at Flag Point.

When work was stopped in the mid 1970's only about 4 miles was left to complete the initial pioneer road stretching from Chitna to the Million Dollar Bridge, according to Bruce Campbell, then Commissioner of Highways. Apparently work crews on both sides of the Tasnuna River were within sight of each other.

The pioneer road was begun at two ends, one near Chitna and the other near the Million Dollar Bridge. Crews pressed forward to around the Tasnuna River.

Photos taken by the late Charles Matlock are enclosed to show typical views of the road along the route. The pioneer road was about 14 feet wide and in condition to allow car passage.

The route crosses a few rivers that need substantial bridges. The Million Dollar Bridge could be repaired, Allen River needs a bridge, Abercrombie Creek, the large Tasnuna crossing would be the most expensive and there could be some lesser crossings of creeks.

Bruce Campbell says that a 14 foot wide gravel road with turnouts every 1/4 mile or so could be readily built in a fairly short time.

The State apparently owns the entire route right-of-way so that should not be a problem.

Modern technology involving modular bridges, heavy lift techniques and fast track road construction methods could all be employed on this project.

# THE EYAK CORPORATION

February 16, 1988

Office of The Governor  
ATTN: Governor Cowper  
Pouch A  
Juneau, AK 99811

RE: COPPER RIVER HIGHWAY SUPPORT BY EYAK

Dear Governor Cowper,

The Eyak Corporation strongly supports the building of the Copper River Highway, and has supported it for a number of years. Any method that would expedite the building of the Copper River Highway, including a pioneer road, we feel would be a benefit to our people and all the people of Cordova. A highway would be a more economical way for people and freight to flow in and out of this community.

We feel that the question of whether or not the people of Cordova want a road, has been answered, and that answer was yes. We also would hope that you would be in favor of tying the state together via a highway system especially one that connects Cordova to the rest of the state. It is our understanding that since the Hickel Administration, the new state highways have been built.

The Eyak Corporation passed a resolution that endorsed the Woods Canyon Route otherwise known as the Chitna Route. This resolution is attached.

We also feel that this road would not only benefit the Cordova area, but it would also benefit the entire state. With the increase in tourism, especially in the area of McKinley Park, The Copper River Highway could go a long way to diversifying the areas visited by tourists by opening up the Wrangell St Elias area during the tourist season. Additional attractions that would be opened up and visited, are the Childs Glacier, Copper River Delta, and Sheridan Glacier, all of which are currently enjoyed by only a few people. Another fact that should be considered is the potential stabilization of Cordova's economy with the additional flow of persons and commerce that would travel to Cordova via the Copper River Highway. Many of these persons and businesses might not come without the highway.

Again we ask for your support and hope that the Highway can become a reality soon.

Sincerely,

  
Lucas Borer  
Chief Executive Officer  
The Eyak Corporation

P.O. BOX 340 CORDOVA, ALASKA 99574 (907)424-7161

Betty Lato  
Juneau Alaska  
99811

FEB 23 1988

The Copper River Highway has long been a dream to most Cordovans. The business community has always supported the completion of our Highway. As you know, we were within 10 miles of completion when the Good Friday earthquake hit. Since then, the project has been a political football.

We ask you to support our legislators in the efforts to secure funding for the Copper River Highway. We are not asking for a deluxe or even paved highway, simply a pioneer access so that our community can be linked to Alaska's road system.

Supporting the development of Alaska's infrastructure through construction of necessary roads is vital to the economic well being of the State of Alaska.

We would be most appreciative of your support.

Sincerely,

David Henry  
General Delivery  
Cordova Alaska

Governor's Office  
Box A, Juneau, 99811-0101  
February 19, 1988

FEB 23 1988

Dear Governor Cowper,

I want you to know I am in complete support of completion of the Copper River Highway to Chitna. I was born, raised, and have lived all my life in Cordova. The road would be a real asset to help with all aspects of life here. The ferry is essential and would remain so, but the way things are now the ferry is nearly impossible for the average guy. When I need service on my new truck I have to take a week to go to Anchorage to get the work done. The ferry schedule has always worked this way, and it seems like just by it's very nature it can not provide all our transportation needs. I believe if we had a highway connection with the rest of the state I probably would not have to go to Anchorage for vehicle service, in the long run.

In addition I do not think a road would ruin our town. We who were born and raised here have always had the history of the Copper River and Northwestern Railroad and regular land transportation to the Interior as part of our being and desires. It is very frustrating to have had a bunch of short timers and summer only users telling us a road would ruin our community. Land transportation made this City. It won't ruin anything to have what we grew up expecting to finally be a reality.

Thanks for listening and please help end this very frustrating situation for my community.

Sincerely,

Roger Behymer

FEB 23 1988

February 15, 1988

Dear Governor Cowper,

This letter is to show my support for the Copper River Highway which would connect Cordova, Alaska to the rest of the State by means of a road. Not only would the road encourage other Alaskan to visit Cordova, it would make it possible for Cordovans to visit and shop outside of Cordova at less expense.

The local merchants use the "high cost of shipping" excuse to inflate local prices to a ridiculous high and then virtually laugh at their customers because we pay these prices. Example: a gallon of milk cost almost \$5.00; a loaf of bread costs \$2.50, chicken sells for \$2.99 a pound. As there is no competition the merchants can set any price they so desire. If Cordovans were able to drive Anchorage without the need to take a ferry to Valdez, they could afford to bring back a truckload of groceries and still save money.

Please lend your support to the Copper River Highway to connect Cordova to the rest of the State.

Sincerely,

*Dixie Lambert*

*-I'd appreciate your support also Betty!*

Govenor Steve Cowper  
Juneau, 99811-0101  
February 15, 1988

FEB 23 1988

Dear Govenor Cowper,

I would like to see the Copper River ROAD COMPLETED. This would be a very strong unifying point for Cordova. You see the people who oppose the road all admit that sooner or later there will be a road. Once the road is finally completed we will be able to start having a city of agreement and purpose. As it is now many people who want the road keep quiet. They are afraid to lose some of the little business there is. Some such as our newspaper editor have very negative feelings about the road for selfish reasons. They do not want TO SHARE THE COUNTRY with others. They want to have rafting business or tour business all to themselves. Some of these few can make life uncomfortable for any of the many who want the roaddue to their community position. Many collect a salary from government in some form or another. These few have made life hard on some of our most energetic community members and they have left the community. Far too many of our young adults have to leave also creating a brain drain , and further erode our ability to have any sense of community except the small group of elite who managed to cheat Cordova out of the road. I know this is somewhat hard to believe, but for instance one might wonder why there is never anything in the newspaper about positive aspects of the Copper River Road. The editor makes it appear ridiculous. She will edit for space or run contradictory information .

None of these type of things is good for a community. We need to have our history back. The railroad went to Chitna and let people move freely into the interior and be Alaskans. We must regain our identity and take our place amongst other Alaskan cities. We need your help.

Respectfully,

*Dennis Marchant*

Cordova, 99574

Dear Govenor Cowper,

I have been a resident of Cordova for forty-three years and have always supported the completion of the Copper River Highway. The town has always been in favor of the road except in the very unfair 1982 vote. They said that it was just another unofficial vote but very unfairly doomed the Million Dollar Bridge on the basis of the vote. To many voters it was just another ho-hum vote for something we all knew was desperately needed and long sought. Advertisemennts in the newspaper made it appear like a yes vote would ruin the hunting and fishing and leave us buried in litter. I don't believe any of these things would happen. I know from living at a turn around spot on Eyak Lake that TOURISTS DON'T LITTER, LOCALS DO.

The ferry system is good but it can not run every day. A road would give us the added dimension of freedom to travel to other Alaskan cities when we need to go. I would be happy to pay a toll to travel at my own convenience and would continue to use the Marine Highway as it fit into my own schedule. I know that the road has been made to appear vey controversial in the past but I do not think this is true. I believe that the '82 vote was generated by a young element who were relatively new to Cordova and wanted it all to themselves. As it is now many of our young people have to move away, and this is not good for our sense of our community.

I hope you will give us stroug support in finally finishing the road.  
Thank you.

Sincerely,

*Dagmar J. Davis*

FEB 23 1986

Dear Bill:

Copper River Highway #10 finally has come this far with the help of many of you--Cato, City of Cordova, etc. we now have HCR-46 attached.

I don't need to tell you or stress that NOW IS THE TIME. After 50 years, after 29 years in statehood, and only one highway being built, Cordova's economy, future tourism, and the North Gulf Coast should be opened to some development

I only have two words LET'S BUILD.

Under the toll road option we are not asking for handouts, there can be no more legitimate obstacles. For all Alaska, not just this area, build the highway; let's work together. There can be no other alternative but to support HCR 46.

Dear Govenor Cowper,

Cordova deserves to be re-connected with the rest of Alaska. The Copper River Route is the easiest way into the interior, and its construction is the history of Cordova. All Americans deserve the chance to travel through the old rail-belt area and see some of the most spectacular scenery on earth. This road has always been a political football. They say copper is the metal people fight the most over. This must be true and have rubbed of on the railroad grade. I hope you can help us rejoin the rest of Alaska.

Sincerely,

*Mike Szymanski*

FEB 19 1988

Dear Govenor Cowper,

Please give your approval to finishing the road up the Copper River to Chitna. It will be important to protect the salmon stock spawning areas that might be adjacent to the road so fish and game can study any effect additional use might have. perhaps some kind of moratorium could be made so as to do no harm. We need the road very badly right now. If you would help us, may be we would not have to wait anothe fifty years. It seems similar to the question of ANWR, Only it really is not new business, just a return to what we had historically and something that could be managed with very low impact on the enviorment. The Southeastern tourism people have shown quite plainly that the best return from tourism is the independant traveler. I think we can easily double the amount of business the Bartlett Does here, and that would decrease the overall subsidy to the Marine Highway system.

It seems like the kind of proposition where no one can lose. I sincerely hope you can help make the completion of the road a reality in the very near future. Thank you.

Very Truly Yours,

*Bruce Lehman*

FEB 19 1988

Dear Govenor Cowper,

Since our only real builder in Cordova has moved over to Valdez to begin a new fish processing plant where there is a road, and the Coast Guard which is ten percent of our winter population will probably be moving out in the fall we need a road into Cordova more than ever. Please if you can help, help now. Some people say that the army has a plan to put a road into Cordova that would only take one month to complete. Have you ever heard this about a defense road which the Corps of Engineers supposedly has.? This would really be great if it were true. It really doesn't seem like we should have to wait anymore for permits or any of that stuff. After all this road is not new. It was there 75 years ago. It operated as a railroad for 30 years. We have always wanted to still be a part of Alaska, but it isn't easy being isolated without normal transportation.

I have also heard that a toll road might be possible. If this was true then the road could maintain itself and no one could object due to high costs. Then we here in Cordova could share in the beauty that is in the rest of the state, and the rest of the state could come over here to see the Gulf of Alaska. It would be the only place where Alaskans could see the ocean. Amazing, we have more coast than the entire US and this would be the only place to see the Pacific from that you could drive to! I hope you can help all Alaskans share the beauty we have to offer.

Thanks for reading,

Donnita K. Burch

RE: Wednesday's hearing on HCR 46, the Copper River toll road

Please do not approve this resolution. Although it does not commit any money, the resolution is an embarrassment as it continues the "mega-project" mentality. The pro-road residents of Cordova need to face the fact that the State can no longer obligate itself to \$100 million dollar projects with marginal benefits. I hope you will consider three points:

1) The fiscal note severely underestimates the cost of maintenance. For example, the cost of maintenance for a year-round road was estimated to be over \$3 million in the DOT/PF 3/1/83 project analysis. And that was in 1983 dollars!

2) The road proponents have a major dilemma since a pioneer or seasonal road wouldn't provide sufficient access for those local residents and tour operators who want it, while a year-round road's construction and maintenance costs would be prohibitive.

3) The whereas clause in HCR 46 that claims "residents of Cordova very much want" road access is ridiculous. In a 1982 Cordova city poll voters opposed the highway by a 59% to 41% margin. Since then the Cordova economy has worsened, and a majority is apparently now in favor of the road. If the economy improves, the majority will probably reverse itself again. The important point is that it is not true that Cordova residents very much want a road; they are in fact very divided in opinion on the issue.
