adopted

REPRESENTATIVE WALLIS

Section 175, Ch. 130, SLA 1986, page 37, line 26 is amended to read:

	APPROPRIATION ITEMS	GENERAL FUND
RUBY AIRPORT IMPROVEMENTS	<u>50,000</u> [400,000]	<u>50,000</u> [400,000]

The sum of \$350,000 is appropriated from the general fund to the Department of Administration for payment as a grant under AS 37.05.315 to the City of Huslia for an erosion control project.

Alaska State Legislature

HOUSE OF REPRESENTATIVES

Committee on Finance

Official Business

P.O. Box V
State Capitol
Juneau, Alaska 99811

MEMORANDUM

TO: Representative Pat Pourchot, Vice Chairman
House Finance Committee

FROM: Representative F. Kay Wallis *Kay*

SUBJ: Reappropriations bill

DATE: May 12, 1987

Included in my requests for reappropriation items is a reduction to a 1986 appropriation to the Department of Transportation for Ruby Airport Improvements. The procedures accepted by the Finance Committee concerning reappropriations have specified that no action be taken involving DOT appropriations. This is an excellent policy position in general, although in certain cases there should be exceptions.

I believe there should be an exception in this case, for the following reason: The general policy is intended to keep the legislature from changing appropriations where there is a great deal of uncertainty surrounding the amounts of funds remaining in the appropriation. The Ruby Airport Improvement project was appropriated only last year, and has had no expenditures to date. This can be confirmed by contacting Ron Lind in DOT.

This project was a legislative addition to the budget last year. As such, it was not part of the Governor's budget request, and is appropriately under the review of the legislature to determine whether or not the project should be continued as part of the legislature's portion of the capital budget.

The reduction of \$350,000 for Ruby Airport Improvements would make the funds available to complete the Huslia Erosion Control project. The City of Huslia is faced with a critical erosion problem, which has been recognized by past legislatures through the appropriation of erosion control funds. This appropriation would fund the final phase of the project.

All four phases are necessary to protect the community of Huslia from disappearing into the Koyukuk River. By appropriating the funds now, it will enable the City of Huslia to add the fourth phase of work to this summer's work, thereby making considerable savings in mobilization/demobilization costs.

The fourth phase is an essential part of the entire project, as it will provide protection in keeping the Koyukuk River from cutting through the river bank and into Mingogut Lake, located behind Huslia. If this were to happen, the course of the Koyukuk would be altered significantly enough to cause most of the land separating the river and the lake to be eroded away in a very short period of time. It is on this land that the community of Huslia is located.

I saw the desperateness of the situation when I attended my relation's funeral in early March. This request is submitted in the hope that you can accomodate this unique and serious situation.

Specific costs are detailed on the attached backup, which also shows the areas to be protected in each of the four phases of work.

REPRESENTATIVE CATO

The unexpended and unobligated balance of the appropriation made in ch. 24, SLA 1984, page 57, line 10 (APA -Silver Lake Hydroelectric Project - \$150,000) is repealed.

The unexpended and unobligated balance of the appropriation made in sec. 14, ch. 90, SLA 1981 (APA - feasibility study/design/engineering Valdez-Cordova transmission system) is repealed.

The sum of \$20,000 is appropriated from the general fund to the Department of Administration for payment as a grant under AS 37.05.315 to the City of Cordova for construction of a new animal control facility.

The sum of \$20,000 is appropriated from the general fund to the Department of Administration for payment as a grant under AS 37.05.315 to the City of Cordova for re/novation to the ski hill lift.

The sum of \$14,000 is appropriated from the general fund to the Department of Administration for payment as a grant under AS 37.05.315 to the City of Cordova for oil tank and boiler purchase and relocation.

The sum of \$33,000 is appropriated from the general fund to the Department of Administration for payment as a grant under AS 37.05.315 to the City of Valdez for the Valdez Senior Citizens program.

Representative Pat Pourchot
Finance Committee
Capital Building
Juneau, Alaska 99811

Dear Pat:

Attached is the revised reappropriation list you requested. I would appreciate your consideration of the other monies I appropriated. While I do realize that we must follow the guidelines outlined, I do feel that these were definitely funds appropriated to district 6 for projects in district 6. While these funds were administered by APA, the intent was to utilize them for specific projects in the district.

Thank you for considering this request.

MEMORANDUM

May 6, 1987

TO: Representative Al Adams, Chair
House Finance Committee

FROM: Representative Fran Ulmer

SUBJECT: Capital Budget Addition (Other Funds)

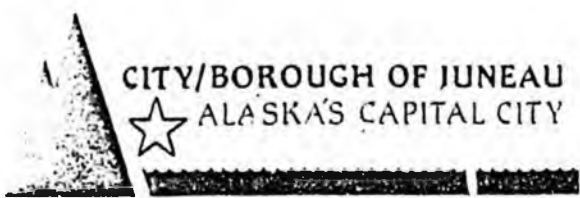

Per the attached letter from the City and Borough of Juneau, the University of Alaska needs the authority to receive and expend other funds. Please add the following item to House Bill 284, "An Act making appropriations for capital projects; and providing for an effective date."

University of Alaska

CITY/BOROUGH OF JUNEAU
ALASKA'S CAPITAL CITY

May 6, 1987

Representative Fran Ulmer
Alaska State House of Representatives
Pouch V
Juneau, Alaska 99811

Dear Representative ^{Fran}Ulmer:

The City and Borough of Juneau has reached a preliminary long-term lease-purchase agreement to operate a fishing terminal utilizing the existing University marine technology facilities.

To accomplish this goal, we would appreciate your assistance in ensuring that the necessary budget authorization is included in the State budget for the University of Alaska at Juneau. As a member of the University Finance Subcommittee, we are hopeful you can be of assistance.

Sincerely,

Kevin Ritchie
City Manager

Living in the mistakes of the past

Houses are slums after only 10 years

By HAL BERNTON
Daily News reporter

ST. MICHAEL — When the west winds bring a blast of chill Siberian air to the island village of St. Michael, Leo Kobuk huddles indoors and tries to keep his family warm. He tacks a blanket across the back door, puts an electric heater in his bedroom and turns his fuel-oil stove up full blast.

In the worst of the winter cold snaps, when the outside temperature may dip below minus 30, Kobuk still can't muster enough heat to keep his house comfortable. Frost forms along the living room wall, ice coats electrical sockets and water may freeze when spilled on the kitchen floor.

In warmer weather, Kobuk has other problems to contend with.

Snow that drifts into to the eaves melts and trickles down through walls and the kitchen ceiling. As summer approaches, the permafrost beneath his house begins to thaw, the wood foundation heaves and his floor begins to move in strange ways. Kobuk used to level the house by

Indoor air pollution called grave threat

By PHILIP SHABECOFF
New York Times

WASHINGTON—Indoor air pollution, now virtually unregulated, constitutes a more dangerous public health problem than outdoor air pollution, scientists and health officials told a Senate panel Friday.

Awareness that indoor air pollution may constitute a serious environmental hazard has been slowly increasing in recent years among scientists, policy makers and the public. But it was the recent realization that the contamination of buildings by radon was a broad national problem that spurred increasing interest in and research into the broader issue of indoor air pollution. Radon, a naturally occurring gas formed by the decay of radium, can cause lung cancer.

A series of witnesses before the Senate Environment and Public Works Committee's Environmental Protection Subcommittee called for vigorous federal action to protect people from air pollution inside homes, offices and public buildings. They urged the federal government, particularly the Environmental Protection Agency, to do intensive research into the ex-

tent and causes of the pollution, to set safe indoor air levels and to suggest ways to meet the problem.

Other than radon, some of the more-ubiquitous indoor pollutants are cigarette smoke, formaldehyde used in furniture and other products, asbestos, carbon monoxide from stoves and other combustion, household pesticides, household solvents such as paint strippers, and some biological pollutants such as viruses and bacteria, the witnesses said.

A. James Barnes, deputy administrator of the environmental agency, agreed that growing evidence showed "that the indoor environment may pose a more serious risk to health than previously thought."

Barnes said in his testimony that, with buildings being constructed in airtight fashion to save energy and with people spending more of their time indoors, exposure to pollution inside buildings was increasing and for some pollutants was as much as five times the outdoor exposure.

The agency has estimated that as many as 20,000 cancer deaths are caused each year by exposure to high levels of radon that collect inside homes. The agency has also estimated that 3,500 to 6,500 cancer

deaths a year are caused by exposure to other indoor air pollutants.

But the public health officials testified that indoor air pollution was beginning to be seen as the cause of a wide range of other health problems, including respiratory problems among children. They also cited a recently recognized phenomenon, which they call the "sick building syndrome," in which air pollution inside otherwise clean office buildings caused eye irritation, respiratory infection and nausea among workers, costing the United States economy millions of workdays a year.

The subcommittee's investigation of indoor air pollution problems is part of a current congressional effort to re-examine the Clean Air Act and determine if it needs strengthening and how.

Sen. George J. Mitchell, D-Me., who is chairman of the subcommittee, said, "I believe we have clear evidence of health problems resulting from indoor air pollution and that an effective and coordinated response to this problem must be considered by this committee and this Congress."

Dr. John D. Spengler, professor of public health at the Harvard University, said in a report (See POLLUTION, Back Page)

radon

The Anatomy Of a Natural Hazard

A Citizen's Guide To Radon

What It Is And What To Do About It

PHONE # 1-800-AIR-CHEK
or # 1-800-CK-RADON

Insertion of the above logo & phone number DOES NOT
INFER endorsement by any of the above agencies.

This is a reprint of the EPA's Booklet furnished com-
pliments of Air Chek. (Because of space limitations ap-
proximately 5% of the original material has been deleted.)

What is radon?

Radon is a radioactive gas which occurs in nature. You cannot see it, smell it, or taste it.

Where does radon come from?

Radon comes from the natural breakdown (radioactive decay) of uranium. Radon can be found in high concentrations in soils and rocks containing uranium, granite, shale, phosphate, and pitchblende. Radon may also be found in soils contaminated with certain types of industrial wastes, such as the byproducts from uranium or phosphate mining.

In outdoor air, radon is diluted to such low concentrations that it is usually nothing to worry about. However, once inside an enclosed space (such as a home) radon can accumulate. Indoor levels depend both on a building's construction and the concentration of radon in the underlying soil.

How does radon affect me?

The only known health effect associated with exposure to elevated levels of radon is an increased risk of developing lung cancer. Not everyone exposed to elevated levels of radon will develop lung cancer, and the time between exposure and the onset of the disease may be many years.

Scientists estimate that from about 5,000 to about 20,000 lung cancer deaths a year in the United States may be attributed to radon. (The American Cancer Society expects that about 130,000 people will die of lung cancer in 1988. The Surgeon General attributes around 85 percent of all lung cancer deaths to smoking.)

Your risk of developing lung cancer from exposure to radon depends upon the concentration of radon and the length of time you are exposed. Exposure to a slightly elevated radon level for a long time may present a greater risk of developing lung cancer than exposure to a significantly elevated level for a short time. In general, your risk increases as the level of radon and the length of exposure increase.

How certain are scientists of the risks?

With exposure to radon, as with other pollutants, there is some uncertainty about the amount of health risk. Radon risk estimates are based on scientific studies of miners exposed to varying levels of radon in their work underground. Consequently, scientists are considerably more certain of the risk estimates for radon than they are of risk estimates which rely solely on studies of the general public.

To account for the uncertainty in the risk estimates for radon, scientists generally express the risks associated with exposure to a particular level as a range of numbers. (The risk estimates given in this booklet are based on the advice of EPA's Science Advisory Board, an independent group of scientists established to advise EPA on various scientific matters.)

Despite some uncertainty in the risk estimates for radon, it is widely believed that the greater your exposure to radon, the greater your risk of developing lung cancer.

*How does radon cause lung cancer?

Radon, itself, naturally breaks down and forms radioactive decay products. As you breathe, the radon decay products can become trapped in your lungs. As these decay products break down further, they release small bursts of energy which can damage lung tissue and lead to lung cancer.

How is radon detected?

Since you cannot see or smell radon, special equipment is needed to detect it. The two most popular, passive commercially-available radon detectors are the charcoal canister and the more expensive, slower, alpha track detector. Both of these devices are exposed to the air in your home for a specified period of time and sent to a laboratory for analysis.

Charcoal Canisters
Test Period: 1 to 4 days

How can I get a radon detector?

Homeowners in some areas are being provided with detectors by their state or local government. In many areas, private firms offer radon testing. Your state radiation protection office may be able to provide you with information on the availability of detection devices or services.

* Other ongoing studies may show a more conclusive relationship between Radon 220 (Thoron) and cancer in other body tissue.

malpractice, more interesting and challenging.

The practice of law has changed in Fairbanks over the years, and Madson doesn't think all the change has been good.

Years ago, many cases were resolved without ever going to trial.

"Now, there's more of a tendency to use the rules, to push and twist as far as you can," he said. "Before, we used to say, let's look at the person, not so much the crime. That doesn't exist anymore. There are a lot of people in jail who don't belong there."

"There are attorneys in town now who I don't even

the wedding date and the first thing my dad said—fool, don't you know that's the first day of season?"

By the time Madson graduated in engineering, Jean had two daughters. He traveled constantly as a field engineer.

"It was not a happy life," he said. "I remember time I woke up in southern Indiana, my car was in Ohio, and my clothes were in northern Minnesota."

It was at 2 a.m. one night, driving a thousand miles in a snowstorm to get home that he thought, "There to be something better in life than this."

POLLUTION

(Continued from page 1)

University School of Public Health, said the health effects of only a few indoor contaminants have been documented. But he added that it was being found that concentrations of contaminants inside homes often exceed the maximum safe levels established for hazardous waste cleanup sites. "Therefore, it is common sense that we develop a rational and consistent policy for addressing human exposures to environmental contaminants," he said.

Stephen Brobeck, executive director of the Consumer Federation of America, suggested some specific remedies for indoor air pollution problems, including an immediate ban on all uses of asbestos, a ban on smoking in airplanes and other public places, a ban on household chemicals that cause cancer and more aggressive action by the environmental agency to help the public deal with the radon problem. He also called for a "national clearinghouse," sponsored by the government and private institutions, to provide the consumer adequate information on indoor air hazards.

In a related development, the National Clean Air Coalition, an alliance of environmental public health groups, called for an aggressive new program to ease the conti-

nin threat of polluted air to Americans in cities, particularly the threat of the ozone that is a major constituent of smog.

Richard E. Ayers, chairman of the coalition, said that three-fourths of urban areas in the United States would fail to meet the De-

AIR

(Continued from page 1)

Knowles, whose city is attempting to attract the 1994 Winter Olympics, was not happy to see a front-page story heralding the city as "Los Anchorage," nor a USA Today article, but local officials emphasize that the press release must be kept in perspective.

"Personally, I don't think it's any big deal as long as it doesn't get misinterpreted by the media and the public," Richard Joy, a borough environmental engineer, said.

Implementation of the local I/M program and advances in technology have contributed to a decline in air quality violations recently, which were as high as 125 a year during the late 1970s, according to borough officials. Air quality in the borough exceeded federal standards 36 times during the 1985-86 winter, but at lower parts-per-

million readings. cember 31, 1987, deadline for meeting even the current, inadequate ozone standard imposed by the Clean Air Act. He put much of the blame on the environmental agency for what he said was a failure to adequately carry out the law, along with state and local regulators.

million readings.

"What's important is we're making progress toward attainment," Stockard said. The federal government has set Dec. 31, 1987 as the date for the nation's cities to meet the standard of only one violation per year.

In an April 2 letter to Gov. Steve Cowper and the chief executives of 41 other states, Thomas stated that EPA may impose standards in some areas that don't meet federal requirements. Those could include bans on construction of new polluting sources, imposition of sewer grant sanctions and withholding of federal highway funds. "In addition, we will begin notice-and-comment procedures late this spring with the aim of disapproving a number of plans which cannot provide a persuasive demonstration that they will attain the standard in the near future."

Respiratory diseases move to forefront of children killers

By LAWRENCE K. ALTMAN, M.D.

The New York Times

NEW YORK—New surveys and medical data reveal that pneumonia and other respiratory infections are now the leading cause of death among infants and small children worldwide, killing perhaps 6.5 million each year.

Respiratory infections, which now account for more than 40 percent of children's deaths, have replaced diarrheal diseases as the major killer in the cataloging of children's diseases, according to studies that have been or are soon to be published in medical journals.

As a result, experts believe that physicians and health workers must make major shifts in emphasis toward providing more preventive care and more research to better identify the causes of respiratory illness.

Vaccines and improvements in basic health care and in nutrition should receive even higher priority than they have now to counter respiratory problems. The effect of respiratory problems is most far-reaching in poor countries of the third world, but they are a problem to children everywhere.

Acute respiratory infections "are what kill more children than anything else in the world today," Dr. Floyd W. Denny said in an interview, commenting on an editorial by and Dr. Frank A. Loda, both of the University of North Carolina Medical School's department of pediatrics, wrote on the subject in a recent issue of *The American Journal of Tropical Medicine and Hygiene*.

No one is certain whether the new status of respiratory infections as the No. 1 killer is a result of a change in their incidence, better reporting, belated attention from pediatricians and public health officials, or the saving of more lives from diarrheal disease, through

treatment with fluids in oral rehydration programs.

Of the 6.5 million deaths from respiratory infections, more than 3 million result from pneumonia, 2 million from measles, and 1.5 million from whooping cough. Though measles is known to most people because of its rash, most deaths from this viral disease are due to related respiratory infections. For example, the disease often causes severe croup, particularly in malnourished children.

Diarrheal diseases, despite the benefits of oral rehydration, still account for about 5 million childhood deaths each year, or a third of the estimated 15 million deaths among infants and children under the age of 5 die each year. Tetanus accounts for one million deaths, and a wide variety of other causes account for the remaining 2.5 million deaths. Most of the deaths occur in less-developed countries.

In calling for measures against acute respiratory infections, the editors of *The Lancet*, the prestigious journal published in England, and other experts recently pointed to an urgent need for immunization programs against the major forms of preventable respiratory infections: measles, whooping cough, diphtheria, and possibly pneumococcal pneumonia and influenza.

Campaigns to immunize all children in the world against measles, whooping cough and other childhood diseases have been stepped up in recent months.

However, because immunization is not yet practical for most respiratory infections, there is great need for additional research, particularly those using genetic engineering techniques, to develop vaccines against the ailments that cannot now be prevented, such as the respiratory syncytial virus and certain causes of pneumonia. Many pediatricians and health officials consider the development and dis-

tribution of new vaccines as important as the wider use of existing vaccines in the long-term battle against respiratory infections.

A second aim is the improvement of primary health care in third world countries as well as better education for both health-care workers and families.

Another goal is to improve the fragmentary data on the incidence, severity and specific types of respiratory infections in different areas of the world. The experts have cited a need to develop more effective tools to monitor the frequency with which different microbes cause respiratory infections, as well as the pattern of their susceptibility to antibiotics. These are the standard measures used by pediatricians in the developed countries to identify children with respiratory infections who will benefit most from antibiotics.

Health workers are greatly handicapped in this task by the lack of precise statistics, a result of reporting systems that are at best rudimentary. Death certificates, if they are filled out, are often inaccurate. The lack of critical data is also attributed to financial and cultural differences, as well as to political unrest.

"Malnutrition," Dr. Stephen Berman and Dr. Kenneth McIntosh have said in the journal *Reviews of Infectious Diseases*, "is the most important identified factor affecting mortality among children hospitalized with pneumonia."

Malnutrition creates a vicious cycle of infection and malnutrition leading to suppression of the immune system. But no one knows precisely why malnourished children fare so poorly when struck by respiratory infections. Undoubtedly, other important factors are at play, such as the large number of premature births in the third world; the decline in breast feeding, depriving infants of substances

in mother's milk that seem to protect against infection for the first few months of life.

Some experts believe the numbers of microbes that strike susceptible children is so large that it overwhelms their immunological defense mechanisms. Others believe the high death rates are related to a combination of factors. Still, the experts they note that the respiratory ailments are caused by the same microbes in both developed and underdeveloped countries and that there do not seem to be major differences between these areas in the incidence of acute respiratory infections.

But respiratory death rates, if not disease incidence, do differ sharply between rich and poor countries. For example, in 1977 the death rate from acute respiratory infections in Paraguay was about 30 times higher than that in the United States. Similarly huge differences have been reported between other developed and underdeveloped countries. In general, the death rates from respiratory infections drops as the children grow older, with infants having the highest death rate.

The main cause of death among the respiratory killers of children is bacterial pneumonia, which often occurs as a primary illness, rather than as a complication or result of other illness. However, bacterial pneumonia also occurs frequently as a secondary complication of viral infections. The predominant bacteria identified in several studies in fatal pneumonias are *Streptococcus pneumoniae* and *Hemophilus influenzae*.

Why these two bacteria, and not others?

"We have no idea," Denny said in the interview. The role of other microbes, such as mycoplasma and chlamydia, that commonly cause respiratory problems in developed countries is

Causes

Deaths annually children under 5

DIARRHEA
5 million

OTHER
2.5 million

unknown in the developing countries.

Poor sanitation, crowded living conditions, and possibly air pollution are cited as additional factors underlying the higher death rates in developing countries. Another factor cited is the quality of medical care, because, in developing countries, death rates from respiratory infections are usually highest in rural areas.

Respiratory infections, like diarrheal diseases, are general categories, not single diseases. Both categories are caused by a wide variety of microbes, primarily bacteria and viruses, though fungi and parasites play a role, too. Respiratory infections are further classified according to the anatomical area of the respiratory system:

MEMORANDUM

TO: House Finance Committee

FROM: Representative John Sund

RE: HB29 "An Act making a supplemental appropriation to the Department of Commerce and Economic Development for distribution to qualified regional aquaculture associations; and providing for an effective date."

.....

In FY 87, for the first time, money was taken from Salmon Enhancement Tax Receipts to fund operations of the Department of Commerce and Economic Development. In the past, 100% of the tax receipts were allocated to the Non-profit salmon hatcheries, this year 7% was siphoned off to make up DCED's budget. The amount was \$239,000 which bore no relation to the costs of operating the state distribution program.

The Department of Commerce has one staff assigned to the Salmon Enhancement Tax Receipts program (the funds are collected by the Department of Revenue and only distributed by Commerce to the Regional Aquaculture Associations).

I would like your support for adding back into the FY 88 operating budget the amount diverted from the Tax Receipts. I think that taking these funds out as a general tax is setting an unfortunate precedent. This was never expressed as a possibility at the time that the fishermen voted the tax on themselves.

MEMORANDUM

State of Alaska

TO: Jay Hogan, Director
Division of Budget Review
Office of Management and Budget
Office of the Governor

DATE: December 23, 1986

FILE NO.:

THRU:

TELEPHONE NO.: 465-2500

FROM: 
F. Terry Elder, Deputy Commissioner
Department of Commerce and Economic
Development

SUBJECT: Request for Supplemental
Appropriation, Fisheries
Enhancement Tax Receipts

JAN 21 1987

This memo is the department's formal request for a supplemental appropriation in the amount of \$239,000 to replace funds that were cut from the Fisheries Enhancement Tax Receipts budget for FY 87.

Salmon enhancement taxes on the sale of salmon are collected by the Department of Revenue in areas where regional aquaculture associations have been formed by local fishermen, and those fishermen have approved a tax. The funds are subsequently appropriated by the Legislature to the Department of Commerce and Economic Development, which then distributes the funds to the regional associations through contractual agreements. It is clear that the legislative intent was to correlate the appropriations of fisheries enhancement funds to the actual tax revenues collected, and that the tax receipts are not to be used to subsidize other state government functions.

Despite the legislative intent and history of the program, the original FY 87 budget request of \$3,186,600 was reduced by 7.5% (\$239,000) in the Conference Committee during across-the-board budget cuts. Consequently, we must now request a supplemental appropriation to restore full funding for the Fisheries Enhancement Tax Receipts Program.

Please let us know if you require additional information.

Mr. Donald F. Amend
General Manager
Southern Southeast Regional
Aquaculture Association, Inc.
1649 Tongass Avenue
Ketchikan, AK 99901

Dear ~~Mr. Amend~~ *Don*

Thank you for your November 10 letter of congratulations. I greatly appreciate your support and offer of assistance.

The request for a supplemental appropriation to replace restricted salmon enhancement tax dollars remains on this Administration's agenda. The salmon enhancement taxes were established solely to support enhancement activities of the regional aquaculture associations and, consequently, the tax receipts should not be used to supplement general government funding.

We will keep the regional associations informed as to the progress of this issue.

Thanks again for your comments.

Sincerely,

Steve Cowper

The Honorable Bill Sheffield
Pouch A
Juneau, Alaska 99811

Dear Governor Sheffield:

A dangerous precedent has been set in this year's budget with the \$239,000 that has been skimmed from the fisheries enhancement tax receipts.

That money was removed in OMB's revised version of your budget. The House restored the 7.5% cut, only to have it removed once again in conference committee, when the Senate followed your lead and cut an identical 7.5% from the fishermen's tax receipts.

At the time the original cut was made in your budget, the action was justified as the cost of administrative overhead. When the fisheries enhancement tax was voluntarily established by the fishermen, the courts said that receipts must be channeled through a government agency. However, the agreement in 1979 was that 100% of those receipts would be reimbursed to the aquaculture associations; no "administrative overhead" and no skimming!

As I mentioned, I am very disturbed by the precedent that we are setting here. If I could alter the action of this Legislature I would do so. Lacking that ability, I ask for your strongest assurances that this will never happen again.

Sincerely,

John Sund
Representative

September 29, 1986

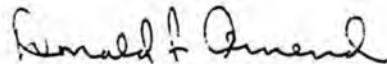

Dear Representative Sund:

You may recall the controversy among fishermen last spring when \$239,000 of the salmon enhancement tax was eliminated from the state budget. Your support was greatly appreciated in getting a commitment from Governor Sheffield to seek a supplemental appropriation during the next legislative session to replace these funds. However, we will now have a new governor and this commitment must be maintained.

I am asking for your support now to back this commitment. If you would write to me rededicating this commitment, I will gladly distribute it among the fishermen.

Thank you for your assistance.

Sincerely,

Donald F. Amend

Alaska Trollers Association Testimony on House Bill 29
1/29/87

The Alaska Trollers Association wishes to strongly support House Bill #29. This Bill rectifies a bookkeeping error by the Office of Budget & Management, which occurred during the budget-cutting scramble last session; \$239,000 of fisherman-supported enhancement tax was lost when across the board cuts were made in the Department which administers these funds. House Bill #29 replaces these funds.

Under Title 43, Chapter 76, Section 43.76.010, salmon enhancement taxes on the sale of salmon is collected by the Department of Revenue, but only in areas where regional aquaculture associations have been formed by local fishermen, and where those fishermen have approved a tax. The funds are subsequently appropriated by the Legislature to the Department of Commerce and Economic Development, which then distributes these tax funds to the proper regional association.

Understanding that there are no dedicated funds within the State system, fishermen took this commitment to pay an assessment (3% in Southeast) with a political promise from the State and the Legislature that their tax monies would, in fact, be appropriated to support regional aquaculture. Any overhead costs used to subsidize other government functions, and thus reduce the full amount of expected revenue to the regional associations, can only be viewed as a breach of that promise. Such losses will effect the cash flow of the aquaculture associations since they anticipate these funds to drive their programs, and, in part, are used to pay back State loans on capital investment.

Fishermen would certainly understand budget deficits since they are businessmen themselves; what they would not understand is that if after voting themselves a tax, whose proceeds were promised as support for aquaculture, the funds were directed elsewhere.

The entire fishing industry respectfully requests your support on mitigating this error.

RESOLUTION FOR
FULL DISBURSEMENT OF THE SALMON ENHANCEMENT TAX FUNDS TO
THE REGIONAL AQUACULTURE ASSOCIATIONS

WHEREAS, the State of Alaska has created by statute provisions for fishermen to tax themselves for the purpose of salmon enhancement by Qualified Regional Aquaculture Associations (Title 43, chapter 76), and

WHEREAS, the majority of fishermen belonging to Qualified Regional Aquaculture Associations elected to impose either a two or three percent tax upon themselves based upon promises by the State of Alaska to fully disperse the tax collected to their respective Regional Aquaculture Association for salmon enhancement,

LET IT BE KNOWN, that the 1986 legislature withheld a portion of the enhancement tax, violating the promise made to fishermen.

LET IT BE FURTHER KNOWN, that Governor Sheffield promised to initiate supplemental funding in the 1987 legislative session to reinstate the funds withheld by the 1986 legislature and he further confirmed the promise that future enhancement taxes collected will be fully dispersed back to the appropriate Qualified Regional Aquaculture Association.

FURTHERMORE, gubernatorial candidate Steve Cowper also promised to support a supplemental appropriation in the 1987 legislature to reinstate the funds previously withheld and promised to support full disbursement of the salmon enhancement tax to the Regional Aquaculture Associations.

LET IT BE RESOLVED, that governor Steve Cowper honor his promises by supporting a supplemental appropriation in the 1987 legislative session to reinstate the funds withheld in 1986 and direct the Office of Budget and Finance and the Department of Commerce and Economic Development to prepare future budgets that require full disbursement of the salmon enhancement tax to the appropriate Qualified Regional Aquaculture Association.

APPROVED BY THE SSRAA BOARD OF DIRECTORS

BILL SHEFFIELD
GOVERNOR

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

June 5, 1986

Mr. Donald Amend
General Manager
Southern Southeast Regional
Aquaculture Association
1649 Tongass Avenue
Ketchikan, AK 99901

Dear Don,

As you are aware, the FY 87 operating budget shows a \$239,000 reduction in salmon enhancement tax money. In the chaos at the end of the session, the tax money unfortunately fell through the cracks when the Conference Committee failed to select the full funding provided in the House of Representatives' budget and instead chose the Senate's figures. This shortfall is truly regrettable, and my Administration will seek a \$239,000 supplemental appropriation early next session to cover it.

Although the Department of Law now tells us we can't issue a contract for an amount larger than the FY 87 appropriation, the Division of Investments of the Department of Commerce and Economic Development (DCED) will be able to quickly amend your contract once a supplemental is approved. A copy of this letter will be formally attached to your contract to represent my Administration's intent. Commerce officials recommend that you base your FY 87 budget on the full funding level with the fourth quarter reflecting your individual shortfall to be funded by the supplemental. Your first three quarterly payments will be based on the full payment due.

I will work closely with the Legislature to ensure speedy passage of this appropriation. Should the Legislature fail to act, DCED will work closely with you to make sure your financial needs are met and to see that the funds are added to the FY 88 budget.

I realize that your major fear is concerning possible future raids on the fisheries enhancement tax funds. I can assure

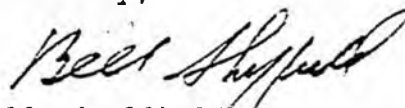

June 5, 1986

Page 2

you that my Administration is fully aware of the history of this tax and is committed to the full disbursement of these funds. I have instructed the Office of Management and Budget to take whatever steps are necessary to ensure that future changes in DCED's budget will not impact the disbursement of fisheries enhancement taxes to the regional aquaculture associations.

Thank you for your assistance in working with us to arrange this plan to recover the full funding. I regret any inconveniences this may have caused your organization.

Sincerely,

Bill Sheffield
Governor

NOTES TO DECISIONS

Cited in State. N.S.E. Regional No. 2488 (File Nos. 5065, 5086, 5142), 646 Aquaculture Ass'n v. Alex. Sup. Ct. Op. P.2d 203 (1982).

Sec. 43.76.010. Three percent salmon enhancement tax. (a) A person holding a limited entry permit under AS 16.43 shall pay a salmon enhancement tax at the rate of three percent of the value of salmon, as defined in AS 43.75.140(8), that the person removes from the state or transfers to a buyer in the state. The buyer shall collect the salmon enhancement tax at the time the salmon is acquired by the buyer.

(b) A three percent salmon enhancement tax may only be levied or collected under (a) of this section

(1) in a region designated by the commissioner of fish and game for the purpose of salmon production under AS 16.10.375;

(2) if there exists in that region an association determined by the commissioner of fish and game to be a qualified regional association under AS 16.10.380; and

(3) if the qualified regional association approves the three percent salmon enhancement tax under AS 43.76.015. (§ 2 ch 154 SLA 1980; am § 13 ch 117 SLA 1981)

Effect of amendments. — The 1981 amendment, in subsection (a), substituted "removes from the state or transfers to a buyer in the state" for "sells to a processor licensed under AS 43.75.011" at the end of the first sentence, and, in the second sentence, substituted "the buyer" for "the processor" preceding "shall collect," deleted "of" following "at the time" and substituted "salmon is acquired by the buyer" for "sale."

Editor's notes. — Section 4, ch. 154, SLA 1980 provides: "The commissioner of commerce and economic development shall direct that no further royalty assessments be collected under AS 16.10.530 on or after the effective date of an election in the region of a qualified regional association that approves a salmon enhancement tax in accordance with AS 43.76.010 — 43.76.015."

Sec. 43.76.011. Two percent salmon enhancement tax. (a) A person holding a limited entry permit under AS 16.43 shall pay a salmon enhancement tax at the rate of two percent of the value of salmon, as defined in AS 43.75.140(8), that the person removes from the state or transfers to a buyer in the state. The buyer shall collect the salmon enhancement tax at the time the salmon is acquired by the buyer.

(b) A two percent salmon enhancement tax may only be levied or collected under (a) of this section

(1) in a region designated by the commissioner of fish and game for the purpose of salmon production under AS 16.10.375;

(2) if there exists in that region an association determined by the commissioner of fish and game to be a qualified regional association under AS 16.10.380; and

(3) if the salmon enhancement tax is 14 ch

of an election
regional asso-
salmon
ce with AS

Sec. 43.76.015. Election to approve or terminate salmon enhancement tax. (a) A qualified regional association may conduct an election under this section after the commissioner of commerce and economic development approves

- (1) the notice to be published by the qualified regional association;
- (2) the ballot to be used in the election; and
- (3) the registration and voting procedure for the approval or termination of the salmon enhancement tax.

(b) The salmon enhancement tax is levied under AS 43.76.010 or 43.76.011 in a region on the effective date stated on the ballot if

- (1) it is approved by a majority vote of the eligible interim-use permit and entry permit holders voting in an election held under this section in the region; and
- (2) the election results are certified by the commissioner of commerce and economic development.

(c) In conducting an election under this section, a qualified regional association shall adopt the following procedures:

(1) The qualified regional association for the region shall hold at least one public meeting not less than 30 days before the date on which ballots must be postmarked to be counted in the election to explain the reason for the proposed salmon enhancement tax and to explain the registration and voting procedure to be used in the election. The qualified regional association shall provide notice of the meeting by

- (A) mailing the notice to each eligible interim-use permit and entry permit holder;
- (B) posting the notice in at least three public places in the region; and
- (C) publishing the notice in at least one newspaper of general circulation in the region at least once a week for two consecutive weeks before the meeting.

(2) The qualified regional association shall mail two ballots to each eligible interim-use permit and entry permit holder. The first ballot shall be mailed no more than 45 days before the date ballots must be postmarked to be counted in the election. The second ballot shall be mailed no less than 15 days before the date ballots must be postmarked to be counted in the election. The qualified regional association shall

adopt procedures to insure that only one ballot from each eligible interim-use permit and entry permit holder is counted in the election.

(3) The ballot shall

(A) indicate whether the election relates to a salmon enhancement tax under AS 43.76.010 or to a salmon enhancement tax under AS 43.76.011;

(B) ask the question whether the salmon enhancement tax shall be levied;

(C) indicate the boundaries of the region in which the salmon enhancement tax will be levied;

(D) provide an effective date for the levy of the salmon enhancement tax; and

(E) indicate the date on which returned ballots must be postmarked in order to be counted.

(4) The ballots shall be returned by mail and shall be counted by the commissioner of commerce and economic development or by a person approved by the commissioner of commerce and economic development.

(d) The commissioner of commerce and economic development shall certify the results of an election under this section if the commissioner determines that the requirements of (a) and (c) of this section have been satisfied.

(e) Except as provided in AS 43.76.020(b)(2), an election to terminate a salmon enhancement tax shall be conducted under the same procedures established under (a), (c) and (d) of this section for an election to approve a salmon enhancement tax.

(f) In this section, "eligible interim-use permit and entry permit holder" means an individual who, 90 days before the date ballots must be postmarked to be counted in an election under this section, is listed in the records of the Alaska Commercial Fisheries Entry Commission as the legal owner of an interim-use permit or an entry permit which authorizes the individual to fish commercially in an administrative area established by the Alaska Commercial Fisheries Entry Commission under AS 16.43.200, which is included, in whole or in part, in the region in which the election is held. (§ 2 ch 154 SLA 1980)

Sec. 43.76.020. Termination of salmon enhancement tax. (a) The salmon enhancement tax levied under AS 43.76.010 or 43.76.011 may be terminated by the commissioner of revenue upon majority vote at an election held under AS 43.76.015 in the region in which the salmon enhancement tax is levied.

(b) A salmon enhancement tax shall be terminated by the commissioner of revenue under (a) of this section following an election in a region if

(1) a petition is presented to the commissioner of commerce and economic development requesting termination of the salmon enhancement tax which is signed by at least 25 percent of the number of persons who voted under AS 43.76.015 in the election approving the salmon enhancement tax in the region;

(2) an elector shall ask the region shall be vote is for continuation for termination;

§ 43.76.025

REVENUE AND TAXATION

§ 43.76.025

(2) an election is held in accordance with AS 43.76.015; the ballot shall ask the question whether the salmon enhancement tax for the region shall be terminated; the ballot shall be worded so that a "yes" vote is for continuation of the salmon enhancement tax and a "no" vote is for termination of the salmon enhancement tax;

(3) a majority of the eligible interim-use permit and entry permit holders who vote in the election cast a ballot for the termination of the salmon enhancement tax;

(4) the qualified regional association provides notice of the election in accordance with AS 43.76.015 within two months after receiving notice from the commissioner of commerce and economic development that a valid petition under (1) of this subsection has been received. (§ 2 ch 154 SLA 1980; am § 15 ch 117 SLA 1981)

Effect of amendments. — The 1981 amendment added "or 43.76.011" following "AS 43.76.010" in subsection (a).

Sec. 43.76.025. Collection of tax and disposition of proceeds.

(a) A buyer who acquires fisheries resources which are subject to the salmon enhancement tax imposed by AS 43.76.010 or 43.76.011 shall collect the salmon enhancement tax at the time of purchase, and shall remit the total salmon enhancement tax collected during each month to the Department of Revenue by the last day of the next month.

(b) A buyer who collects the salmon enhancement tax shall

(1) maintain records reflecting the region designated under AS 16.10.375 in which the fishery resource was caught; and

(2) report to the Department of Revenue by March 1 of each year the total value, as defined in AS 43.75.140(8), of the salmon caught in each region designated under AS 16.10.375 which the buyer has acquired during the preceding year.

[REDACTED SECTION]

The legislature may base an appropriation for a qualified regional association operating within a region designated under AS 16.10.375 on the value of the fisheries resources caught in that region rather than the value of the fisheries resources sold in that region if those values differ. (§ 2 ch 154 SLA 1980; am §§ 16, 17 ch 117 SLA 1981)

Effect of amendments. — The 1981 amendment substituted "buyer" for "processor" and substituted "acquires" for "buys" in subsection (a). In subsection (b), the amendment substituted "buyer" for "processor" in the introductory language and in paragraph (2) and substituted "acquired" for "purchased" preceding "during the preceding year" in paragraph (2).

Sec. 43.76.028. Liability for tax on salmon shipped from state. (a) The owner of salmon removed from the state is liable for payment of the salmon enhancement tax imposed by AS 43.76.010 or 43.76.011 if, at the time the salmon are removed from the state, the tax payable on the salmon has not been collected by a buyer.

(b) If the owner of salmon is liable for payment of the salmon enhancement tax under (a) of this section, the owner shall comply with the requirement of AS 43.76.025(b) to report the owner's liability for payment of the tax. (§ 18 ch 117 SLA 1981)

Sec. 43.76.030. Accounting of financing received as a result of the salmon enhancement tax. A qualified regional association requesting state financial assistance in accordance with AS 43.76.025(c) shall submit an annual financial report to the Department of Commerce and Economic Development on a form provided by the Department of Commerce and Economic Development. The Department of Commerce and Economic Development may, by regulation, require that a qualified regional association use a uniform system of accounting. A qualified regional association requesting state assistance shall submit an annual budget to the Department of Commerce and Economic Development on or before a date specified by the Department of Commerce and Economic Development. (§ 3 ch 154 SLA 1980)

Sec. 43.76.040. Definition. In this chapter, unless the context otherwise requires, "buyer" means a person who acquires possession of salmon from the person who caught the salmon regardless of whether there is an actual sale of the salmon but excluding a transfer to a person engaged solely in interstate transportation of goods for hire. (§ 19 ch 117 SLA 1981)

5 A BILL

6 For an Act entitled: "An Act making, amending, transferring, and repealing
7 operating and capital appropriations; and providing
8 for an effective date."

9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

10 * Section 1. The unexpended and unobligated balance of the appropria-
11 tion made in sec. 485, ch. 130, SLA 1986 (North Slope Borough-Atqasuk
12 Runway Lights - \$150,000) is repealed and reappropriated to the Department
13 of Administration for payment as a grant under AS 37.05.315 to the North
14 Slope Borough for the purchase of a transit mini-bus for the community of
15 Atqasuk.

16 * Sec. 2. The unexpended and unobligated balance of the appropriation
17 made in sec. 3, ch. 96, SLA 1985, page 37, line 22 (Gambell-Municipal
18 Building Shortfall - \$79,000) is repealed and reappropriated to the Depart-
19 ment of Administration for payment as a grant under AS 37.05.315 to the
20 City of Gambell for the purchase of health clinic equipment.

21 * Sec. 3. Section 81, ch. 130, SLA 1986, page 19, line 9 is amended to
22 read:

23 Sec. 81. The appropriation made in sec. 26, ch. 98, SLA 1985,
24 page 119, line 16 (House Leadership - \$1,667,000) lapses into the
25 general fund June 30, 1988 [1987].

26 * Sec. 4. The unexpended and unobligated balance of the appropriation
27 made in sec. 21, ch. 129, SLA 1986, page 102, line 7 (Leadership -
28 \$2,460,000) lapses into the general fund June 30, 1988.

29 * Sec. 5. The unexpended and unobligated balance of the appropriation

1 made in sec. 2, ch. 10, SLA 1983, page 7, line 24, as amended by sec. 182,
 2 ch. 130, SLA 1986 (Islands Community College - Mt. Edgecumbe Campus Opera-
 3 tions - \$223,762) is repealed and reappropriated to the Department of
 4 Education for operation of the newly renovated facilities on the Mt.
 5 Edgecumbe campus for the fiscal year ending June 30, 1988.

6 * Sec. 6. Section 3, ch. 96, SLA 1985, page 26, line 22 is amended to

28 * Sec. 9. Section 122, ch. 130, SLA 1986 is amended to read:
 29 Sec. 122. The sum of \$36,000 is appropriated from the general

1 fund to the Legislative Finance Division for House Finance Committee
2 education funding related activities for the fiscal years [YEAR] end-
3 ing June 30, 1987, and June 30, 1988.

4 * Sec. 10. The unexpended and unobligated balance of the appropriation
5 made in sec. 2, ch. 22, SLA 1984, page 8, line 10 (North Slope Borough-
6 Kaktovik Snow Fencing - \$75,000) is repealed and reappropriated to the
7 Department of Administration for payment as a grant under AS 37.05.315 to
8 the North Slope Borough for purchase of a transit mini-bus for the communi-
9 ty of Kaktovik.

10 * Sec. 11. The unexpended and unobligated balances of the appropria-
11 tions made in sec. 286, ch. 50, SLA 1980, page 98, line 17 (Fairbanks North
12 Star Borough-Transportation Corridor Acquisition - \$1,220,000) and sec. 2,
13 ch. 24, SLA 1984, page 23, line 6 (Fairbanks North Star Borough-Woodriver
14 Reroofing Repairs, Phase II - \$30,000) are repealed and reappropriated to
15 the Department of Administration for payment as a grant under AS 37.05.315
16 to the Fairbanks North Star Borough for the emergency repair of borough
17 facilities.

18 * Sec. 12. The unexpended and unobligated balance of the appropriation
19 made in sec. 286, ch. 50, SLA 1980, page 78, line 15 (Fairbanks North Star
20 Borough-Solid Waste Disposal Transfer System Equipment - \$1,500,000) is
21 repealed and reappropriated to the Department of Administration for payment
22 as a grant under AS 37.05.315 to the Fairbanks North Star Borough for the
23 disposal of hazardous materials located at the borough landfill.

24 * Sec. 13. The unexpended and unobligated balances of the appropria-
25 tions made in sec. 319, ch. 171, SLA 1984, page 71, line 7 (Fairbanks North
26 Star Borough-Bentley Park Acquisition - \$97,400) and sec. 319, ch. 171, SLA
27 1984, page 71, line 10 (Fairbanks North Star Borough-Bentley Park Acquisi-
28 tion - \$157,400) are repealed and reappropriated to the Department of
29 Administration for payment as a grant under AS 37.05.315 to the Fairbanks

1 North Star Borough to meet Environmental Protection Agency requirements for
2 an asbestos management plan.

3 * Sec. 14. The unexpended and unobligated balances of the appropria-
4 tions made in sec. 212, ch. 130, SLA 1986 (Natural Resources-Seismic and
5 Volcanic Monitoring of Mt. St. Augustine - \$66,400) and sec. 213, ch. 130,
6 SLA 1986 (Natural Resources-Tide Gauges Offshore of Augustine Island -
7 \$80,000) are repealed and reappropriated to the University of Alaska for
8 equipment for the monitoring of Augustine Volcano and other existing
9 statewide seismic activities.

10 * Sec. 15. Section 3, ch. 128, SLA 1986, page 23, line 14 is amended to

25 the Department of Administration for payment as a grant under AS 37.05.315
26 to the City of Fairbanks for construction of the South Fairbanks fire
27 station.

28 * Sec. 31. The unexpended and unobligated balances of the appropria-
29 tions made in sec. 3, ch. 96, SLA 1985, page 43, line 8 (Klukwan-Cultural

1 Heritage/Museum - \$25,000); sec. 225, ch. 130, SLA 1986 (Klukwan-Chilkat
2 Indian Village, Cultural Heritage Center - \$32,000); and sec. 638, ch. 130,
3 SLA 1986 (Klukwan-Bald Eagle Cultural Heritage Center - \$20,000) are re-
4 pealed and reappropriated to the Department of Community and Regional
5 Affairs for payment as a grant under AS 37.05.317 to the unincorporated
6 community of Klukwan-Chilkat Indian Village for planning, design, and
7 construction of the Klukwan-Bald Eagle Cultural Heritage Museum.

8 * Sec. 32. The fiscal year 1987 one-year appropriations set out in
9 chs. 129 and 130, SLA 1986, and the appropriation made in sec. 2, ch. 128,
10 SLA 1986, are reduced by the amounts withheld from the rate of obligation
11 in the actions of the governor and the executive branch in issuing and
12 implementing Administrative Orders Numbers 90 and 91, as reflected in the
13 budget workbooks submitted to the legislature under AS 37.07.040 and enti-
14 tled "Operating Budget FY 87 Revised."

15 * Sec. 33. The unexpended and unobligated balance of the appropriation
16 made in sec. 34, ch. 107, SLA 1983, page 94, line 21 (Saxman Revilla-Ever-
17 green Water & Sewer - \$125,000) is repealed and reappropriated to the
18 Department of Administration for payment as a grant under AS 37.05.315 to
19 the City of Saxman for the Saxman mutual help water and sewer project.

20 * Sec. 34. Section 495, ch. 130, SLA 1986 is amended to read:
21 Sec. 495. The sum of \$140,000 is appropriated from the general
22 fund to the Legislative Affairs Agency for the joint special committee
23 on tax policy to conduct a comprehensive review of the state's tax
24 policy on economic growth and employment for the fiscal years ending
25 June 30, 1987, and June 30, 1988.

26 * Sec. 35. Section 2, ch. 24, SLA 1984, page 55, line 23 is amended to
27 read:

16	RATION] (ED 1)	400,000	400,000

17 * Sec. 38. Section 30, ch. 82, SLA 1981, page 188, line 18 is amended
18 to read:

19		APPROPRIATION	GENERAL
20		ITEMS	FUND
21	Shageluk-Small Boat Dock		
22	<u>and Road Construction</u>		
23	(ED 18)	60,000	60,000

24 * Sec. 39. The unexpended and unobligated balance of the appropriation
25 made in sec. 2, ch. 10, SLA 1983, page 28, line 23 (Koyukuk-Erosion Con-
26 trol - \$100,000) is repealed and reappropriated to the Department of
27 Administration for payment as a grant under AS 37.05.315 to the City of
28 Koyukuk for an electrical system upgrade.

29 * Sec. 40. The unexpended and unobligated balances of the appropria-

1 tions made in sec. 34, ch. 107, SLA 1983, page 118, line 7 (Kenai Peninsula
2 Borough-Greer Road - \$100,000) and sec. 561, ch. 130, SLA 1986 (Kenai
3 Peninsula Borough-Phase II North Fork Road - \$120,000) are repealed and
4 reappropriated to the Department of Administration for payment as a grant
5 under AS 37.05.315 to the Kenai Peninsula Borough for construction of the
6 Anchor Point Fire Service Area firehouse.

7 * Sec. 41. The sum of \$600,000 is appropriated from the general fund to
8 the University of Alaska, contingent on the lapse of \$600,000 in general
9 funds from the fiscal year 1987 (revised) operating budget of the Univer-
10 sity of Alaska, for the purpose of meeting unforeseen problems arising from
11 the implementation of the Board of Regents restructuring plan and for
12 reducing the restructuring reductions, as may be determined to be appropri-
13 ate for the fiscal year ending June 30, 1988. The Board of Regents shall
14 assure that the reductions are allocated equitably on a regional basis,
15 considering the program modifications which result from the restructuring.
16 If the general fund lapse falls short of the estimated \$600,000, this
17 appropriation is reduced by the amount of the shortfall. The University of
18 Alaska shall report monthly to the Legislative Budget and Audit Committee
19 on expenditures made from this appropriation.

20 * Sec. 42. Section 49, ch. 130, SLA 1986 is amended to read:

21 Sec. 49. The unexpended and unobligated balance of the appro-
22 priation made in sec. 2, ch. 24, SLA 1984, page 20, line 8 (Tanana
23 Valley Community College Student Housing Purchase/Bidder Designed
24 Construction - \$1,000,000) is repealed and reappropriated to the
25 University of Alaska, Tanana Valley Community College, for lease
26 [PURCHASE] and renovation of a new campus facility.

27 * Sec. 43. Section 3, ch. 128, SLA 1986, page 24, lines 20 and 21 are
28 amended to read:
