RE: FY 88 Contract Jails
Reimbursement Shortfall

Dear Senator Hensley:

The Department of Public Safety contracts with 17 communities within Alaska to provide care and confinement for state-charged prisoners. The purpose of the jail contract is to reimburse the communities for their expenses in providing care and confinement.

The reimbursement funds are based on the number of "mandays" that a prisoner is confined in jail. The following figures represent the expense amount in addition to the FY 88 contracted funding. In other words, the expense to confine prisoners in these locations exceeded the contracted amount.

I have also listed a recommended supplement figure for each community in the event a supplemental appropriation is possible. The recommended amounts are based on our review of the manday counts. The figures reflect the costs submitted for the first nine months of FY 88 and projected manday counts for the final three months.

Subject: Request for addition FY 1988 Supplemental

Dear Senator Binkley and Senator Halford:

Enclosed is a request for an FY88 general fund supplemental in the amount of \$1,509,500. This request would be added as a new section to CSHB 444 (2nd FIN). This request is for additional funds for several school districts to mitigate adverse consequences arising from area differentials and P.L. 874 hold-back provisions of the school foundation formula.

The adverse consequences issue arose during the Legislative Budget and Audit Committee hearings regarding section 154, Chapter 3, FSSLA 1987 (adverse consequences-appropriation of \$2,000,000). The Legislative Budget and Audit Committee agreed with the distribution method proposed by the Department of Education for the two million dollar appropriation. The department's distribution plan did not address all of the adverse consequences arising from implementation of the new foundation formula. Specifically three areas not taken into consideration by the department in their distribution were 1) whether the cost of living study used in the foundation program operated to the disadvantage of low income areas when it was used as a cost-of-education study; 2) whether the deferral of non-deductible P.L. 874 funds was foreseen as applied to small city schools; and 3) whether the existence of a negative balance be a determinant in distribution or whether those operating with negative fund balances are rewarded for non-prudent management.

It was at this time that the Governor's Office committed to seeking supplemental funding to correct this situation. The Governor's Office felt that several points raised in the discussion had merit and could be solved with further study, but that these school districts should not suffer in the interim.

In addition, Centralized Correspondence Study is requesting an FY88 \$25,000 general fund supplemental to cover the costs of materials and freight needed to meet the demands of increased enrollment for the FY88 portion of summer school. We also respectfully request consideration of this supplemental item.

Sincerely,

Jay Hogan
Director

BUDGET REVIEW

Dear Representative Larson:

4 AAC 09.071 was promulgated to implement section 154, Ch 3 FSSLA 1987 which appropriated \$2,000,000 to be distributed to districts which provided satisfactory evidence to the department that adverse consequences arose from the implementation of the new school funding formula and that other money is not available to remedy the situation.

Pursuant to this regulation a letter was sent to all superintendents which outlined the application procedure and included a copy of the regulation (attached). This letter stipulated the minimum amount of information that must be submitted and the deadline for applications. As a result of this process, sixteen applications were received. Three of these applicants (Kuspuk, Nenana, and Yukon Koyukuk School Districts) were rejected due to the fact that they did not meet the minimum requirements outlined in the application process or were received in the department after the deadline of December 17, 1987. Of the remaining thirteen applications three were rejected for the following reasons.

Annette Island School District

This application was rejected due to the fact that the district had projected a positive fund balance for FY 88 of \$128,440. It is the department's position that this fund balance should be sufficient to cover any additional costs incurred in the operation of the school district for the current school year.

St. Mary's School District

This application was rejected due to the fact that the school district admitted having a capital reserve fund of \$1.4 million which could be used to cover any expenditure shortfall the district may incur during the existing school year.

Sand Point School District

This application was rejected due to the fact that the school district projected a fund balance of \$7,544 for the FY 88 school year. As in the case of Annette Island School District, it is the department's position that a positive fund balance is an indication that the district can fiscally support itself for the existing school year.

January 7, 1987

It was determined that the ten remaining school districts were entitled to state funds pursuant to 4 AAC 09.071.

The following is a list of these districts, the amounts they initially requested and their projected FY 88 fund balance.

<u>District Name</u>	<u>Amount Requested</u>	<u>Projected FY 88 Fund Balance</u> <denotes deficit>
Craig	168,253	<149,139>
Dillingham	374,000	<272,000>
Galena	635,000	<628,095>
Hoonah	336,340	<228,142>
Take	615,573	<518,751>
Kashunamiut	342,754	<266,355>
Klawock	268,786	<147,789>
Tanana	234,464	<177,659>
Yakutat	280,247	<280,247>
Unalaska	153,435	<153,435>
TOTAL	3,408,852	

It was determined that a simple proration of this request would not meet the constraints imposed by the disparity test for P.L. 81-874. Therefore, the following list was generated based on two considerations: 1) the maximum allowable amount of funds which could be made available to districts that would not violate the disparity test imposed by P.L. 81-874; and, 2) the amount of money each district would need to bring its projected fund balance for FY 88 to zero, thus providing sufficient funds to operate the district throughout the existing school year.

<u>District Name</u>	<u>Amount</u>
Craig	149,139
Dillingham	272,000
Galena	243,306
Hoonah	228,142
Take	279,090
Kashunamiut	266,355
Klawock	147,789
Tanana	177,408
Yakutat	214,578
Unalaska	153,435
TOTAL	2,131,240

January 7, 1987

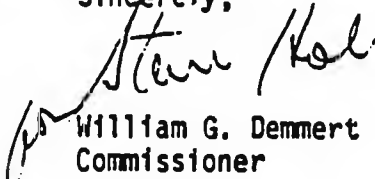

The total request based on the above list exceeds the appropriation by \$131,240. For this reason, the amount of funds allocated to each district has been based on a proration of 93.842% and resulted in the following.

<u>District Name</u>	<u>Amount</u>
Craig	139,955
Dillingham	255,250
Galena	228,323
Hoonah	214,093
Kake	261,904
Kashunamiut	249,953
Klawock	138,688
Tanana	166,483
Yakutat	201,364
Unalaska	143,987
<hr/>	
TOTAL	2,000,000

Attached for your information and review are copies of individual school district requests. FY 88 budgets and FY 87 audits are on file with the Department of Education.

We believe this represents a fair and equitable means of fund distribution to those districts that have been severely impacted by the implementation of the new foundation program and recommend approval by your committee.

William G. Demmert

Supplemental Request**

The Department of Education respectfully requests a supplemental appropriation of \$25,000 to cover the cost of Centralized Correspondence Study (CCS) summer school course materials. Response to the summer school program has been overwhelming, with enrollment far in excess of anticipated demand. Enrollment was estimated at a maximum of 500 students enrolling in 940 courses; to date 518 students have enrolled in 1,100 courses. Given the open window for enrollment through June 15, 1988, a total of 1,700 students are estimated to enroll in 3,000 courses. Without additional funds to purchase course materials and cover shipping costs, enrollment in CCS summer school must be closed. Time is of the essence since course materials must arrive at the CCS warehouse by May 30, 1988, for shipment to students for start-up of school on June 15, 1988. This school schedule is necessary to provide students sufficient time to complete their coursework and receive credit prior to their regular school program starting in the fall.

Please contact me if there are any questions regarding this request.

The Honorable John Binkley
Co-Chairman
Senate Finance Committee
Alaska State Legislature
Juneau, AK 99811

Dear Senator Binkley:

I am forwarding copies of two professional services statements in connection with the Juneau Grand Jury and Impeachment hearings of Governor William J. Sheffield. Also attached is a memorandum from then Commissioner Garrey Peska in response to this request for reimbursement, and a letter of acknowledgement from the law offices of Atkinson, Conway & Gagnon, Inc. It is my understanding that both statements were reviewed only to ascertain legal basis or authority for presentation as a claim against the state.

As per discussions with the legislative leadership, I am submitting this request to you for your review and inclusion as a supplemental appropriation to the Department of Law in the claims and judgments section of the supplemental appropriation bill.

Sincerely yours,

Mr. Gary Bader, Director
Division of Administrative Services
Department of Administration

Juneau, Alaska 99811

Re: Reimbursement of Legal Expenses
and Costs to Governor Sheffield

Dear Mr. Bader:

The purpose of this letter is to request, on behalf of Governor Sheffield, reimbursement from the Department of Administration to Governor Sheffield the costs and legal expenses which he incurred in connection with the proceedings held before the Alaska State Senate in 1985.

It has been recognized that public officials may be subject to investigations that are much more intrusive and searching than would be warranted if only a private citizen were involved. Public policy also recognizes that the capacity to render public service, with all of its attendant burdens and exposures, should not depend on that official's personal wealth, or lack of it. It is recognized that, where no criminal charges actually result, and the investigation relates to the official's performance of his public duties, the public ought to be prepared to indemnify him for the expenses incurred.

The investigation and the Grand Jury proceedings focused solely on Governor Sheffield's performance of his official duties. Nevertheless, it was necessary, in order to avoid any improprieties, that the Governor retain separate counsel to defend himself, and not to rely upon the Attorney General's office. The Attorney General's

office refused to represent or to defend him. The State of Alaska retained and paid a special prosecutor and a battery of independent counsel to pursue the Grand Jury investigation before the Alaska State Senate. Governor Sheffield was eventually cleared of all suggested charges emanating from the Grand Jury and the Alaska State Senate found that the Grand Jury Report was a gross and unfair abuse of power. The people of the State of Alaska had a compelling interest in assuring that those charges were fully aired and tested. When the matter was concluded, the Alaska State Senate decided that the evidence did not warrant impeachment or any other adverse action. We believe it only fair and appropriate that the State of Alaska reimburse the Governor for the expenses and costs which he incurred in successfully defending against those charges.

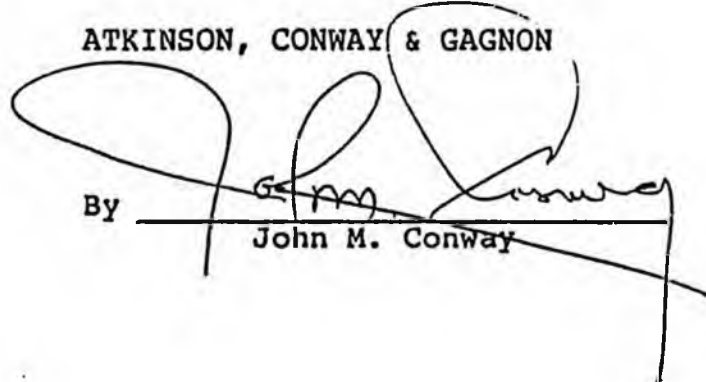

The costs and expenses totaled \$302,652.82. Enclosed you will find statements from Messrs. Atkinson, Conway & Gagnon, Inc. and Hughes, Hubbard & Reed. I can represent to you that those statements have been paid, but should you require additional documentation, kindly let me know.

We look forward to your advices.

Very truly yours,

ATKINSON, CONWAY & GAGNON

Dear Mr. Conway:

Gary Bader has asked me to reply to your letter of May 27, 1987, requesting reimbursement of Governor Sheffield's legal expenses related to the 1985 impeachment proceedings before the State Senate.

Your letter provides no legal basis or authority for presentation of this claim to the Department of Administration. Since you have directed your letter to the Department of Administration, I assume you consider this a "monetary claim against the State" under the authority of Alaska Statute (AS) 44.77 and 2 AAC 25. However, your letter does not indicate what the underlying authority for the claim is.

I would appreciate your confirmation that you are presenting this as a claim under AS 44.77 and citations to relevant authority that would give rise to an obligation on the part of the State to pay for the Governor's expenses at your earliest convenience.

Sincerely,

Garrey Peska

Re: Reimbursement of Legal Expenses
and Costs to Governor Sheffield

Dear Mr. Peska:

This will acknowledge and thank you for your letter dated June 18, 1987, in which you inquired as to whether Governor Sheffield's request for reimbursement of legal expenses related to the 1985 impeachment proceedings before the State Senate was being presented to the Department of Administration pursuant to AS 44.77 and 2 AAC 25. The answer is no.

2 AAC 25.010(d) expressly excludes claims for attorney's fees from those procedures.

AS 39.20 provides for compensation and allowances, including the reimbursement and payment of expenses incurred by the Governor. It is my understanding that the Department of Administration has routinely reimbursed the Governor's office for expenses pursuant to this statute.

The Department of Law is obligated to provide advice, counsel and defense for any matters arising out of a Governor's performance of his public duties. In this instance, Governor Sheffield specifically asked then Attorney General Norman Gorsuch to provide such advice and defense. Governor Sheffield was advised by Attorney General Gorsuch that the Department of Law had determined

that it had a "conflict" and he advised Governor Sheffield to seek and retain separate counsel. The clear implication of that exchange was that Governor Sheffield would be reimbursed, by the State, for his legal expenses.

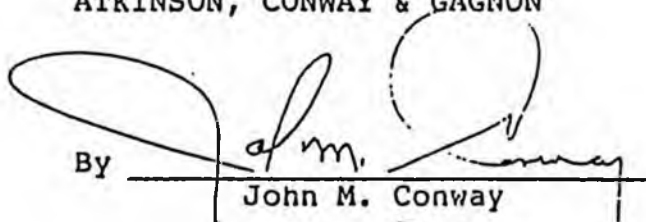

Governor Sheffield was eventually cleared of all suggested charges made by the Grand Jury and, additionally, the Alaska State Senate found that the Grand Jury Report was a gross and unfair abuse of power. This finding was confirmed by the Alaska Judicial Council which has recommended substantial changes in the investigative procedure of the Grand Jury in Alaska including protection of public figures from public disclosure of groundless charges. (The Investigative Grand Jury in Alaska, Alaska Judicial Council, February 1987) Further, the Alaska State Senate found the charges to be groundless and determined, by vote, that the "evidence" did not warrant impeachment or any other adverse action. Under these circumstances, it is quite apparent that it is only fair and appropriate that Governor Sheffield, and additionally any Governor in the future who is forced to incur legal expenses in responding to charges arising out of his performance of his public duties, is entitled to be reimbursed for those expenses and costs.

If you need any further information, please let me know. We look forward to your further advices.

Very truly yours,

ATKINSON, CONWAY & GAGNON
