ELIGIBILITY CRITERIA

All states with comprehensive health insurance pools for high risk individuals, as well as those previously introducing legislation, have eligibility requirements for individuals wishing to take advantage of pool coverage.

The most common of these eligibility requirements are one or more of the following:

1. STATE RESIDENCY. All individuals applying for pool coverage must be state residents. This ranges from a residency requirement of 30 days up to six months before becoming eligible. Some states simply state "residency required" with no specific period listed.

2. PROOF OF REJECTION. Individuals must prove they have been rejected for insurance coverage by at least one insurance carrier. Some states require proof of rejection by at least two carriers, however the trend seems to be requiring only one proof of rejection. In addition, several states are adopting or considering guidelines which allow for automatic acceptance into a pool. The pool Board adopts a list of medical conditions to allow automatic acceptance into the pool without requiring a proof of rejection if the individual is afflicted with one of these conditions.

3. PRESENTLY INSURED WITH A HIGHER PREMIUM. An individual is eligible for pool coverage even though they are currently insured if their present insurance has a higher premium than that afforded under the pool.

4. PRESENTLY INSURED WITH A RIDER OR RATED POLICY. An individual is eligible for pool coverage even though they are currently insured if their present insurance has a rider attached or is rated.

5. Most states do not allow an individual to apply for pool coverage if that individual is eligible for Medicare or Medicaid. Several states do offer a Medicare supplement plan for these individuals.

SYNOPSIS OF MODEL

The purpose of the NAIC Model Bill is to establish a mechanism through which adequate levels of health insurance coverages can be made available to residents of the state who are otherwise considered uninsurable. The bill would establish a state "association" or pool in which all health care financing mechanisms (insurers, non-profit service plan corporations and HMOs) would be members.

The pool coverage consists of very broad, comprehensive benefits with a choice of "high" and "low" deductible. Each state is cautioned that the scope of coverage may not be appropriate. In such case the benefit levels should be adjusted.

By definition, a pool consisting of uninsurable risks will necessitate premium rates substantially greater than applicable for standard risks. The bill establishes an initial maximum rate of 150% of applicable standard risk rates. Thereafter rates are expected to fluctuate according to experience, however, in no event shall rates exceed 200% of standard risk rates. The initial maximum rate of 150% is admittedly inadequate for the risks insured, and the 200% maximum will prevent the rates from becoming prohibitive. Pool losses in excess of the 200% maximum rate will be assessed to each member of the pool in proportion to the volume of business done in the state. Eligibility for pool coverage is not established by criteria such as the incurring of a catastrophic condition or the expenditure of a prescribed amount of earnings for health care. Such criteria may not apply equitably to all uninsurables and may neither be cost efficient nor practical to administer. Practical considerations of price will serve to discourage individuals from buying pool coverage when it is available to them in the standard marketplace at a lesser rate.

For obvious cost containment reasons, the pool coverage is the coverage of "last resort" and it does not duplicate coverages from any other source, private or public. The mechanics of the pool, its operations and functions must all be established under a plan approved by the Commissioner. The pool is subject to the requirements of the insurance code as has the general powers and authority of an insurer licensed to transact health insurance.

Statement of Principles

The State and Federal Health Insurance Legislative Programs (B6) Task Force was charged to develop model state legislation for the establishment of health insurance pooling mechanisms for uninsurables. The Task Force has developed the attached Model State Health Insurance Pooling Mechanism Bill and recommends its final adoption by NAIC subject to the following principles:

1. Adoption of the model bill does not constitute NAIC endorsement of the pooling concept, nor is it recommended for enactment in all states. Each state is urged to determine, through independent study, whether a pooling mechanism is needed and whether enactment of the model would be cost effective.
2. Enactment of the model bill by states is not recommended unless and until a viable solution is secured, through federal law or otherwise, under which pools for uninsurables can operate on a universal basis including all health care financing mechanisms. These recommendations and principles are consistent with NAIC strategy for alternatives to national health insurance which embrace the interrelated goals concerning the federal ERISA preemption problems, state pooling mechanisms, adequate health insurance availability and cost containment. The interrelationship of these initiatives is exemplified by the ERISA barrier to universal participation in such pools and overall concerns about health care cost containment.

Although much has been accomplished with the enactment of P.L. 97-473 subjecting multiple employer trusts to state jurisdiction, and by the adoption of the NAIC model "Jurisdiction to Determine Jurisdiction" bill, these measures will not, in and of themselves, establish universal participation in state pools for uninsurables.

Uninsurable pools may not be needed in every state, nor present the most effective answer to questions of availability of health insurance in every state. The establishment of such programs is costly and their cost effectiveness should be weighed in relation to whether there is a demonstrated need for a pool in a given state. Their cost effectiveness can be substantially impaired in the absence of universal participation, for without the inclusion of self-insured plans, the financial base necessary to support the pooling mechanism will tend to progressively diminish. The purpose of the attached model bill is to establish a mechanism through which adequate levels of health insurance coverages can be made available to residents of the state who are otherwise considered uninsurable. The bill would establish a state "association" or pool in which all health care financing mechanisms (insurers, nonprofit service plan corporations, HMO's and self-insurers) would be members.

The pool coverage consists of very broad comprehensive benefits with a choice of a "high" and a "low" deductible. Each state is cautioned that the scope of coverage may not be appropriate. In such case, the benefit levels should be adjusted, or the bill should include the Alternative Section 6. under which the Commissioner is authorized to establish by regulation actual pool benefits commensurate with the prevailing levels of group coverages provided in that state.

By definition, a pool consisting of uninsurable risks will necessitate premium rates substantially greater than applicable for standard risks. The bill establishes an initial minimum rate of 150% of applicable standard risk rates. Thereafter rates are expected to fluctuate according to experience, however, in no event shall rates exceed 200% of standard risk rates. The minimum rate of 150% is admittedly inadequate for the risks insured, and the 200% maximum will prevent the rates from becoming prohibitive. Pool losses in excess of the 200% maximum rate will be assessed to each member of the pool in proportion to the volume of business done in the state. Eligibility for pool coverage is not established by criteria such as the incurring of a catastrophic condition, the expenditure of a prescribed amount of earnings for health care, or the rejection of the applicant by any specified number of health insurance carriers. Such criteria may not apply equitably to all uninsurables and may neither be cost efficient nor practical to administer. Practical considerations of price will serve to discourage individuals from buying pool coverage when it is available to them in the standard marketplace at a lesser rate.

For the obvious cost containment reasons, the pool coverage is the coverage of "last resort" and it does not duplicate coverages from any other source, private or public. The mechanics of the pool, its operations and functions must all be established under a plan approved by the Commissioner. The pool is subject to the requirements of the insurance code and has the general powers and authority of an insurer licensed to transact health insurance.

Section 1. Definitions.

- (1) "Pool" means the State Health Insurance Pool as created in Section 2. of the Act.
- (2) "Board" means the Board of Directors of the pool.
- (3) "Insured" means any individual resident of this state who is eligible to receive benefits from any insurer or insurance arrangement as defined in this section.
- (4) "Insurer" means any insurance company authorized to transact health insurance business in this state, any (reference state nonprofit health care service plan act and, if appropriate, HMO law).
- (5) "Insurance arrangement" means any plan, program, contract or any other arrangement under which one or more employers, unions or other organizations provide to their employees or members, either directly or indirectly through a trust or third party administrator, health care services or benefits other than through an insurer.
- (6) "Health insurance" means any hospital and medical expense incurred policy, nonprofit health care service plan contract and health maintenance organization subscriber contract. The term does not include short term, accident, fixed indemnity, limited benefit or credit insurance, coverage issued as a supplement to liability insurance, insurance arising out of a workers' compensation or similar law, automobile medical-payment insurance, or insurance under which benefits are payable with or without regard to fault and which is statutorily required to be contained in any liability insurance policy or equivalent self-insurance.

- (7) "Medicare" means coverage under both part A and B of Title XVIII of the Social Security Act, 42 USC 1395 et seq., as amended.
- (8) "Physician" (reference applicable state laws).
- (9) "Hospital" (reference applicable state laws).
- (10) "Health maintenance organization" (reference applicable state laws).
- (11) "Plan of operation" means the plan of operation of the pool, including articles, bylaws and operating rules, adopted by the board pursuant to Section 3. of this Act.
- (12) "Benefits plan" means the coverages to be offered by the pool to eligible persons pursuant to Section 6. of this Act.
- (13) "Department" means the Insurance Department.
- (14) "Commissioner" means the Insurance Commissioner.
- (15) "Member" means all insurers and insurance arrangements participating in the pool.

Section 2. Operation of the Pool.

- (1) There is hereby created a nonprofit entity to be known as the (State) Health Insurance Pool. All insurers issuing health insurance in this state and insurance arrangements providing health plan benefits in this state on and after the effective date of this Act shall be members of the pool.
- (2) The Commissioner shall give notice to all insurers and insurance arrangements of the time and place for the initial organizational meetings. The pool members shall select the initial board of directors and appoint one or more insurers to serve as administrator. Both the selection of the board of directors and the administering insurer(s) shall be subject to approval by the Commissioner. The Board shall at all times, to the extent possible, include at least one domestic insurance company licensed to transact health insurance and one domestic nonprofit health care service plan.
- (3) If, within sixty (60) days of the organizational meeting, the board of directors is not selected or the administering insurer is not appointed, the Commissioner shall appoint the initial board and appoint an administering insurer.
- (4) The pool shall submit to the Commissioner a plan of operation for the pool and any amendments thereto necessary or suitable to assure the fair, reasonable and equitable administration of the pool. The Commissioner shall, after notice and hearing, approve the plan of operation provided such is determined to be suitable to assure the fair, reasonable and equitable administration of the pool, and provides for the sharing of pool gains or losses on an equitable proportionate basis. The plan of operation shall become effective upon approval in writing by the Commissioner consistent with the date on which the coverage under this Act must be made available. If the pool fails to submit a suitable plan of operation within 180 days after the appointment of the board of directors, or at any time thereafter fails to submit suitable amendments to the plan, the Commissioner shall, after notice and hearing, adopt and promulgate such reasonable rules as are necessary or advisable to effectuate the provisions of this section. Such rules shall continue in force until modified by the Commissioner or superseded by a plan submitted by the pool and approved by the Commissioner.

- (5) In its plan the pool shall,
- (a) Establish procedures for the handling and accounting of assets and monies of the pool.
 - (b) Select an administering insurer in accordance with Section 4. of this Act, and establish procedures for filling vacancies on the Board of Directors.
 - (c) Establish procedures for the collection of assessments from all members to provide for claims paid under the plan and for administrative expenses incurred or estimated to be incurred during the period for which the assessment is made. The level of payments shall be established by the board, pursuant to Section 5. of this Act. Assessment shall occur at the end of each calendar year. Assessments are due and payable within 30 days of receipt of the assessment notice.
 - (d) Develop and implement a program to publicize the existence of the plan, the eligibility requirements, and procedures for enrollment, and to maintain public awareness of the plan.
- (6) The pool shall have the general powers and authority granted under the laws of this state to insurance companies licensed to transact the kinds of insurance defined under Section 1. and in addition thereto, the specific authority to:
- (a) Enter into contracts as are necessary or proper to carry out the provisions and purposes of this Act, including the authority, with the approval of the Insurance Commissioner, to enter into contracts with similar pools of other states for the joint performance of common administrative functions, or with persons or other organizations for the performance of administrative functions;
 - (b) Sue or be sued, including taking any legal actions necessary or proper for recovery of any assessments for, on behalf of, or against pool members;
 - (c) Take such legal action as necessary to avoid the payment of improper claims against the pool or the coverage provided by or through the pool;
 - (d) Establish appropriate rates, rate schedules, rate adjustments, expense allowances, agents' referral fees, claim reserve formulas and any other actuarial function appropriate to the operation of the pool. Rates shall not be unreasonable in relation to the coverage provided, the risk experience and expenses of providing the coverage. Rates and rate schedules may be adjusted for appropriate risk factors such as age and area variation in claim cost and shall take into consideration appropriate risk factors in accordance with established actuarial and underwriting practices.
 - (e) Assess members of the pool in accordance with the provisions of this section. and to make advance interim assessments as may be reasonable and necessary for the organizational and interim operating expenses. Any such interim assessments to be credited as offsets against any regular assessments due following the close of the fiscal year.
 - (f) Issue policies of insurance in accordance with the requirements of this Act.
 - (g) Appoint from among members appropriate legal, actuarial and other committees as necessary to provide technical assistance in the operation of the pool, policy and other contract design, and any other function within the authority of the pool.

Drafting Note - Optional Paragraph

A state may wish to provide members of the pool with the option of utilizing their existing distribution systems for the issuance of pool coverage. If so, such a provision should authorize the establishment of specific rules under which the pool would approve and serve as a reinsurer for coverage issued by members in their own names. Paragraph (h) is designed to allow states to implement this option.

- (h) Establish rules, conditions and procedures for reinsuring risks of pool members desiring to issue pool plan coverages in their own name. Such reinsurance facility shall not subject the pool to any of the capital or surplus requirements, if any, otherwise applicable to reinsurers.

Section 3. Eligibility.

- (1) Any individual person, who is a resident of this state shall be eligible for pool coverage, except the following:
 - (a) persons who have on the date of issue of coverage by the pool coverage under health insurance or an insurance arrangement;
 - (b) any person who is at the time of pool application eligible for health care benefits under (references state Medicaid law);
 - (c) any person having terminated coverage in the pool unless twelve months have lapsed since such termination;
 - (d) any person on whose behalf the pool has paid out \$1,000,000 in benefits;
 - (e) inmates of public institutions and persons eligible for public programs.
- (2) Any person who ceases to meet the eligibility requirements of this section may be terminated at the end of the policy period.
- (3) Any person whose health insurance coverage is involuntarily terminated for any reason other than nonpayment of premium and who is not eligible for conversion, may apply for coverage under the plan. If such coverage is applied for within 60 days after the involuntary termination and if premiums are paid for the entire coverage period, the effective date of the coverage shall be the date of termination of the previous coverage.

Drafting Note - Section 3

It is intended that only those unable to purchase health insurance coverage in the marketplace at a reasonable price will apply for pool coverage. The higher cost of pool coverage should accomplish this result. However, to assure that the pool coverage does not compete with available coverage in the marketplace, a state may desire to include as a criterion for pool coverage the requirement of rejection of coverage by a specified number of health insurance carriers. This question is discussed fully in the attached Synopsis.

Section 4. Administering Insurer.

- (1) The board shall select an insurer or insurers through a competitive bidding process to administer the pool. The board shall evaluate bids submitted based on criteria established by the board which shall include:
 - (a) The insurer's proven ability to handle individual accident and health insurance;
 - (b) The efficiency of the insurer's claim paying procedures;

- (c) An estimate of total charges for administering the plan;
 - (d) The insurer's ability to administer the pool in a cost efficient manner.
- (2)
- (a) The administering insurer shall serve for a period of 3 years subject to removal for cause.
 - (b) At least 1 year prior to the expiration of each 3-year period of service by an administering insurer, the board shall invite all insurers, including the current administering insurer to submit bids to serve as the administering insurer for the succeeding 3-year period. Selection of the administering insurer for the succeeding period shall be made at least 6 months prior to the end of the current 3-year period.
- (3)
- (a) The administering insurer shall perform all eligibility and administrative claims payment functions relating to the pool.
 - (b) The administering insurer shall establish a premium billing procedure for collection of premium from insured persons. Billings shall be made on a periodic basis as determined by the board.
 - (c) The administering insurer shall perform all necessary functions to assure timely payment of benefits to covered persons under the pool including:
 - 1. Making available information relating to the proper manner of submitting a claim for benefits to the pool and distributing forms upon which submission shall be made;
 - 2. Evaluating the eligibility of each claim for payment by the pool.
 - (d) The administering insurer shall submit regular reports to the board regarding the operation of the pool. The frequency, content, and form of the report shall be as determined by the board.
 - (e) Following the close of each calendar year, the administering insurer shall determine net written and earned premiums, the expense of administration, and the paid and incurred losses for the year and report this information to the Board and the Department on a form as prescribed by the Commissioner.
 - (f) The administering insurer shall be paid as provided in the plan of operation for its expenses incurred in the performance of its services.

Section 5. Assessments.

- (1) Following the close of each fiscal year, the pool administrator shall determine the net premiums (premiums less administrative expense allowances), the pool expenses of administration and the incurred losses for the year, taking into account investment income and other appropriate gains and losses. Health insurance premiums and benefits paid by an insurance arrangement that are less than an amount determined by the board to justify the cost of collection shall not be considered for purposes of determining assessments.
- (a) Each insurer's assessment shall be determined by multiplying the total cost of pool operation by a fraction, the numerator of which equals that insurer's premium and subscriber contract charges for health insurance written in the state during the preceding calendar year and the denominator of which equals the total of all premiums, subscriber contract charges written in the state and 110% of all claims paid

by insurance arrangements in the state during the preceding calendar year.

- (b) Each insurance arrangement's assessment shall be determined by multiplying the total cost of pool operation by a fraction, the numerator of which equals 110% of the benefits paid by that insurance arrangement on behalf of insureds in this state during the preceding calendar year and the denominator of which equals the total of all premiums, subscriber contract charges and 110% of all benefits paid by insurance arrangements made on behalf of insured in this state during the preceding calendar year. Insurance arrangements shall report to the board claims payments made in this state on an annual basis on a form prescribed by the Commissioner.
- (2) If assessments exceed actual losses and administrative expenses of the pool, the excess shall be held at interest and used by the board to offset future losses or to reduce pool premiums. As used in this subsection, "future losses" includes reserves for incurred but not reported claims.
- (3) (a) Each member's proportion of participation in the pool shall be determined annually by the board based on annual statements and other reports deemed necessary by the board and filed by the member with it.
(b) Any deficit incurred by the pool shall be recouped by assessments apportioned under subsection (1) of this Section by the board among members.
- (4) The board may abate or defer, in whole or in part, the assessment of a member if, in the opinion of the board, payment of the assessment would endanger the ability of the member to fulfill its contractual obligations. In the event an assessment against a member is abated or deferred in whole or in part, the amount by which such assessment is abated or deferred may be assessed against the other members in a manner consistent with the basis for assessments set forth in subsection (1) of this Section. The member receiving such abatement or deferment shall remain liable to the pool for the deficiency for 4 years.

Drafting Note - Section 6

Section 6 deals with the coverage to be issued by the pool. The original draft bill established a comprehensive and specific plan of coverage. However, this plan may not be appropriate to the needs of all states. Thus, the model bill provides two alternative approaches to Section 6. Alternative 1 specifically establishes a broad, comprehensive plan of coverage in the form of a detailed schedule of benefits, exclusions, limits, deductibles and coinsurance factors.

Alternative 2 vests authority in the Commissioner to promulgate, with the advice and recommendations of the pool members, a level of pool coverage determined to be commensurate with those typically provided by a representational number of large employers in the state. It should be pointed out that most carriers will be members of the pools in more than one, and perhaps all, of the states that enacted pooling legislation. The administration of these pools will be greatly facilitated if those provisions of the model bill dealing with pool formation, operation and administration remain uniform. This uniformity will allow each state pool to benefit from the operational experience of the others and will facilitate monitoring of the efficiency of pooling mechanisms. There is not the same necessity, however, regarding the actual plan benefits or coverage and the scope of coverage could vary according to individual state needs.

ALTERNATIVE 1

Section 6. Minimum Benefits - Availability.

- (1) The pool shall offer major medical expense coverage to every eligible person who is not eligible for Medicare. Major medical expense coverage offered by the pool shall pay an eligible person's covered expenses, subject to limits on the deductible and coinsurance payments authorized under paragraph (4) (d) of this Section, up to a life time limit of \$1,000,000 per covered individual. The maximum limit under this paragraph shall not be altered by the Board, and no actuarial equivalent benefit may be substituted by the Board.

- (2) **Covered Expenses.** Covered expenses shall be the prevailing charge in the locality for the following services and articles when prescribed by a physician and determined by the pool to be medically necessary:
- (a) Hospital services;
 - (b) Professional services for the diagnosis or treatment of injuries, illnesses, or conditions, other than mental or dental, which are rendered by a physician, or by other licensed professionals at his direction;
 - (c) Drugs requiring a physician's prescription;
 - (d) Services of a licensed skilled nursing facility for not more than 120 days during a policy year;
 - (e) Services of a home health agency up to a maximum of 270 services per year;
 - (f) Use of radium or other radioactive materials;
 - (g) Oxygen;
 - (h) Anesthetics;
 - (i) Prostheses other than dental;
 - (j) Rental of durable medical equipment, other than eyeglasses and hearing aids, for which there is no personal use in the absence of the conditions for which is prescribed;
 - (k) Diagnostic x-rays and laboratory tests;
 - (l) Oral surgery for excision of partially or completely unerupted, impacted teeth or the gums and tissues of the mouth when not performed in connection with the extraction or repair of teeth;
 - (m) Services of a physical therapist;
 - (n) Transportation provided by a licensed ambulance service to the nearest facility qualified to treat the condition;
 - (o) Services for diagnosis and treatment of mental and nervous disorders, provided that an insured shall be required to make a 50 percent copayment, and that the payment of the pool shall not exceed \$4,000 for outpatient psychiatric treatment.
- (3) **Exclusions.** Covered expenses shall not include the following:
- (a) Any charge for treatment for cosmetic purposes other than surgery for the repair or treatment of an injury or a congenital bodily defect to restore normal bodily functions;
 - (b) Care which is primarily for custodial or domiciliary purposes;

- (c) Any charge for confinement in a private room to the extent it is in excess of the institution's charge for its most common semiprivate room, unless a private room is prescribed as medically necessary by a physician;
 - (d) That part of any charge for services rendered or articles prescribed by a physician, dentist, or other health care personnel which exceeds the prevailing charge in the locality or for any charge not medically necessary;
 - (e) Any charge for services or articles the provision of which is not within the scope of authorized practice of the institution or individual providing the services or articles;
 - (f) Any expense incurred prior to the effective date of coverage by the pool for the person on whose behalf the expense is incurred;
 - (g) Dental care except as provided in subsection (3) (1) of this section;
 - (h) Eyeglasses and hearing aids;
 - (i) Illness or injury due to acts of war;
 - (j) Services of blood donors and any fee for failure to replace the first 3 pints of blood provided to an eligible person each policy year;
 - (k) Personal supplies or services provided by a hospital or nursing home, or any other nonmedical or nonprescribed supply or service.
- (4) Premiums, Deductibles, and Coinsurance.
- (a) Premiums charged for coverages issued by the pool may not be unreasonable in relation to the benefits provided, the risk experience, and the reasonable expenses of providing the coverage.
 - (b) Separate schedules of premium rates based on age, sex, and geographical location may apply for individual risks.
 - (c) The pool shall determine the standard risk rate by calculating the average individual standard rate charged by the five largest insurers offering coverages in the state comparable to the pool coverage. In the event five insurers do not offer comparable coverage, the standard risk rate shall be established using reasonable actuarial techniques and shall reflect anticipated experience and expenses for such coverage. Initial rates for pool coverage shall not be less than 150% of rates established as applicable for individual standard risks. Subsequent rates shall be established to provide fully for the expected costs of claims including recovery of prior losses, expenses of operation, investment income of claim reserves, and any other cost factors subject to the limitations described herein. In no event shall pool rates exceed 200% of rates applicable to individual standard risks. All rates and rate schedules shall be submitted to the Commissioner for approval.
 - (d) The pool coverage defined in Section 6. shall provide optional deductibles of \$500 or \$1,500 per annum per individual, and coinsurance of 20%, such coinsurance and deductibles in the aggregate not to exceed \$3,500 per individual nor \$5,000 per family per annum. The deductibles and coinsurance factors may be adjusted annually according to the Medical Component of the Consumer Price Index.
- (5) Preexisting Conditions. Pool coverage shall exclude charges or expenses incurred during the first twelve months following the effective date of coverage as to any condition, which

during the six month period immediately preceding the effective date of coverage, (i) had manifested itself in such a manner as would cause an ordinarily prudent person to seek diagnosis, care or treatment or (ii) for which medical advice, care or treatment was recommended or received. Such preexisting condition exclusions shall be waived to the extent to which similar exclusions, if any, have been satisfied under any prior health insurance coverage which was involuntarily terminated; provided, that application for pool coverage is made not later than thirty-one (31) days following such involuntary termination and, in such case, coverage in the pool shall be effective from the date on which such prior coverage was terminated.

(6) Nonduplication of Benefits.

- (a) Benefits otherwise payable under pool coverage shall be reduced by all amounts paid or payable through any other health insurance, or insurance arrangement, and by all hospital and medical expense benefits paid or payable under any workers' compensation coverage, automobile medical payment or liability insurance whether provided on the basis of fault or nonfault, and by any hospital or medical benefits paid or payable under or provided pursuant to any state or Federal law or program except Medicaid.
- (b) The insurer or the pool shall have a cause of action against an eligible person for the recovery of the amount of benefits paid which are not coverage expenses. Benefits due from the pool may be reduced or refused as a set-off against any amount recoverable under this paragraph.

ALTERNATIVE 2

Section 6. Minimum Benefits - Availability.

- (1) The pool shall offer major medical expense coverage to every eligible person who is not eligible for Medicare. The coverage to be issued by the pool, its schedule of benefits, exclusions and other limitations, shall be established through regulations promulgated by the Commissioner taking into consideration the advice and recommendations of the pool members.
- (2) In establishing the pool coverage, the Commissioner shall take into consideration the levels of health insurance provided in the state, medical economic factors as may be deemed appropriate and promulgate benefit levels, deductibles, coinsurance factors, exclusions and limitations determined to be generally reflective of and commensurate with health insurance provided through a representative number of large employers in the state.
- (3) Pool coverage established under this Section shall provide both an appropriate "high" and a "low" deductible to be selected by the pool applicant. The deductibles and coinsurance factors may be adjusted annually according to the Medical Component of the Consumer Price Index.
- (4) Premiums and Assessments.
 - (a) Premiums charged for pool coverage may not be unreasonable in relation to the benefits provided, the risk experience and the reasonable expenses of providing the coverage. Separate schedules of premium rates based on age, sex and geographical location may apply for individual risks.
 - (b) The pool shall determine the standard risk rate by calculating the average individual standard rate charged by the five largest insurers offering coverages in the

state comparable to the pool coverage. In the event five insurers do not offer comparable coverage, the standard risk rate shall be established using reasonable actuarial techniques and shall reflect anticipated experience and expenses for such coverage. Initial rates for pool coverage shall not be less than 150% of rates established as applicable for individual standard risks. Subsequent rates shall be established to provide fully for the expected costs of claims including recovery of prior losses, expenses of operation, investment income of claim reserves, and any other cost factors subject to the limitations described herein. In no event shall pool rates exceed 200% of rates applicable to individual standard risks. All rates and rate schedules shall be submitted to the Commissioner for approval.

- (5) **Preexisting Conditions.** Pool coverage shall exclude charges or expenses incurred during the first twelve months following the effective date of coverage as to any condition, which during the six month period immediately preceding the effective date of coverage, (i) had manifested itself in such a manner as would cause an ordinarily prudent person to seek diagnosis, care or treatment or (ii) for which medical advice, care or treatment was recommended or received as to such condition. Such preexisting condition exclusions shall be waived to the extent to which similar exclusions, if any, have been satisfied under any prior health insurance coverage which was involuntarily terminated; provided, that application for pool coverage is made not later than thirty-one (31) days following such involuntary termination and, in such case, coverage in the pool shall be effective from the date on which such prior coverage was terminated.
- (6) **Nonduplication of Benefits.**
 - (a) Benefits otherwise payable under pool coverage shall be reduced by all amounts paid or payable through any other health insurance, or insurance arrangement, and by all hospital and medical expense benefits paid or payable under any workers' compensation coverage, automobile medical payment or liability insurance whether provided on the basis of fault or nonfault, and by any hospital or medical benefits paid or payable under or provided pursuant to any state or Federal law or program except Medicaid.
 - (b) The insurer or the pool shall have a cause of action against an eligible person for the recovery of the amount of benefits paid which are not for covered expenses. Benefits due from the pool may be reduced or refused as a set-off against any amount recoverable under this paragraph.

Section 7. Collective Action.

Neither the participation in the pool as members, the establishment of rates, forms or procedures nor any other joint or collective action required by this Act shall be the basis of any legal action, criminal or civil liability or penalty against the pool or any of its members.

Section 8. Taxation.

The pool established pursuant to this Act shall be exempt from any and all taxes.

Model Health Insurance Pooling Mechanism Act

Drafting Note - Optional Section

A state may wish to provide for some form of offset against applicable taxes in the amount of the assessments incurred by the members of the pool. If so, such a provision should allow appropriate reductions in assessments as to pool members not subject to the taxes against which offsets are allowed.

Section 9. Effective Date.

The provisions of this Act shall become effective _____.

FISCAL NOTE ANALYSIS - CSSSSB 304 (FIN)

Personal Services: Funding for a new PFT position, Chief of Operations, \$65.4 is included.

Travel: The director is an ex officio board member of the Comprehensive Disability Insurance Association. The seven members of the board will be from out-of-state insurance companies and hospital or medical service corporations. The travel estimate is based on the director or the director's designee attending eight out-of-state board meetings in the first year of operation and four in each subsequent year at an estimated cost of \$1,500 for each.

Contractual: Each year, the division will have to contract with an actuary to verify that the rating structures of the association are actuarially sound. The estimate for the annual contract is \$25,000.

In addition, the director may undertake studies or demonstration projects to develop awareness of the benefits of the program. The annual estimate for this is \$8,000.

\$2,000 is also included for the new position's miscellaneous contractual expenditures.

Supplies: The new position's supplies are estimated at \$1,000.

Revenue: The members of the Comprehensive Disability Insurance Association are entitled to receive a credit against taxes levied by the state on disability insurance premiums. The maximum potential loss of state revenue is equal to the total tax collected on disability insurance premiums. It is impossible to predict what the actual tax revenue loss will be. However, using 1987 premium data as a benchmark, the state could lose \$2.5 million.

JUSTIFICATION:

This position is necessary to work with the Comprehensive Disability Insurance Association's board members. The division anticipates that this program will take a great deal of staff time, which is unavailable. Another position is required if the division is to take on this additional responsibility.

Funds are included for a computer and workstation in the equipment line item.

Senate Bill No. 304
3-15-90

BY COGHILL

"An Act relating to disability insurance; and providing for an effective date."

It is estimated that 43,000 Alaskan residents have no source of third party payment for financing their health care costs. This estimate is arrived at using the 1982 Alaska Comprehensive Health Care Financing Study (Battelle Study) for the current estimated population of Alaska (534,400).

The Battelle Study found that 0.9% of the Alaska population are "uninsurable" due to high risk medical condition(s). This compares favorably with the Blue Cross Insurance's national rate of uninsurable individuals (0.4-1%). It is estimated that 5000 Alaska residents are uninsurable due to their medical condition(s).

The department estimates about 50% of the uninsurable individuals in Alaska are covered by medical assistance. The group covered predominately have long term disabilities. It is unlikely that this group of Medicaid eligibles is seeking private insurance coverage, since they are generally not employed and do not have the income/resources to pay for private insurance. The department would not anticipate reduced expenditures for the medical assistance programs with the implementation of the insurance discussed in this bill.

5 A BILL

6 For an Act entitled: "An Act making, amending, transferring, and repealing
7 capital and operating appropriations; and providing
8 for an effective date."

9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

10 * Section 1. (a) The unexpended and unobligated balances of the appro-
11 priations made in sec. 2, ch. 24, SLA 1984, page 40, line 10 (Ketchikan
12 Gateway Borough By-Pass Route - \$3,034,100) and sec. 4, ch. 24, SLA 1984,
13 page 71, line 14 (Ketchikan Gateway Borough By-Pass Route - \$2,330,900) are
14 repealed.

15 (b) The sum of \$2,000,000 is appropriated from the general fund,
16 contingent on the deposit in the general fund of the amounts repealed in
17 (a) of this section, to the Department of Administration for payment as
18 grants under AS 37.05.315 to the City of Ketchikan for design and construc-
19 tion of road access and providing utility service to the Deer Mountain
20 municipal solid waste incinerator.

21 (c) The sum of \$2,550,000 is appropriated from the general fund to
22 the Department of Transportation and Public Facilities for road access to
23 the Point Higgins Elementary School.

24 (d) If the amount deposited in the general fund by the repeal of the
25 appropriations in (a) of this section is less than \$4,550,000, then the
26 appropriations made by (b) and (c) of this section shall be reduced in
27 proportion to the amount of the shortfall.

28 * Sec. 2. Section 9, ch. 172, SLA 1988 is amended to read:

29 Sec. 9. The sum of \$3,000,000 is appropriated from the general

1 fund to the Department of Administration for payment as a grant under
 2 AS 37.05.315 to the Ketchikan Gateway Borough for construction of the
 3 Saxman small boat harbor, contingent upon the receipt by the borough
 4 of not less than the same amount of federal funds for the project.
 5 Notwithstanding AS 37.05.315(b), the unexpended and unobligated bal-
 6 ance of this appropriation lapses June 30, 1991 [1990]. It is the
 7 intent of the legislature that this appropriation is for a statewide
 8 need and is not specific to House District 1, Senate District A with
 9 respect to future reappropriation.

10 * Sec. 3. Section 34, ch. 107, SLA 1983, page 95, line 7 is amended to
 11 read:

29 * Sec. 6. The unexpended and unobligated balance of the appropriation

1 made in sec. 2, ch. 24, SLA 1984, page 40, line 19 (Hoonah-Paving Project -
 2 \$75,000) is repealed and reappropriated to the Department of Administration
 3 for payment as a grant under AS 37.05.315 to the City of Hoonah for municipi-
 4 pal roads.

5 * Sec. 7. The unexpended and unobligated balance of those portions of
 6 the appropriation made in sec. 3, ch. 61, SLA 1981, as amended by sec. 63,
 7 ch. 92, SLA 1981, and sec. 1, ch. 119, SLA 1982, that were distributed as
 8 municipal entitlements to the City of Hoonah for the purposes of municipal
 9 land use and street and drainage work is repealed and reappropriated to the
 10 Department of Administration for payment as a grant under AS 37.05.315 to
 11 the City of Hoonah for platting and surveying and drainage installation.

12 * Sec. 8. The unexpended and unobligated balance of the appropriation
 13 made in sec. 1, ch. 10, SLA 1988, page 17, line 12 (Port Alexander-Water-
 14 line Construction and Materials - \$73,000) lapses into the general fund
 15 June 30, 1991.

16 * Sec. 9. Section 1, ch. 10, SLA 1988, page 17, line 15 is amended to

* Sec. . (a) The sum of \$30,000,000 is appropriated from the Railbelt energy fund (AS 37.05.520) to the general fund, contingent upon (b) of this section.

(b) The sum of \$30,000,000 is appropriated from the general fund to the Railbelt energy fund (AS 37.05.520) for the Healy cogeneration project reserve, contingent upon (a) of this section.

(c) No funds may be expended from the Healy cogeneration project reserve without appropriation by the Legislature.

(d) The unappropriated balance of the appropriation made in (b) of this section lapses into the Railbelt energy fund without restrictions July 1, 1990.

LEGISLATIVE INTENT:

It is the intent of the Legislature that this appropriation is for a Railbelt energy need and is not specific to House District 17, Senate District J, with respect to future reappropriation.

It is the intent of the Legislature that prior to any legislative appropriation for the Healy Cogeneration Project, the project sponsors shall provide the Legislature with:

- I. a draft power sales agreement for firm energy output from the plant;
- II. a financial plan for the Healy Cogeneration Project; and
- III. a commitment from the Federal Department of Energy Clean Coal Technology Program to the Healy Cogeneration Project in an amount which at least matches State contribution.

It is the intent of the Legislature that during the interim the project sponsors work with the Alaska Industrial Development and Export Authority to evaluate ownership and finance options.

Dear Senator Uehling and Representative Hoffman:

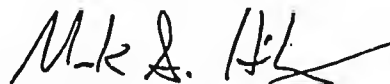

This letter is in reference to the Legislature's reappropriation bill discussed at the joint finance committee meeting of April 28, 1989.

As you know, the department is continuing its effort to financially clean-up and close-out completed capital projects and appropriations. The legislation proposed for repealing and reappropriating capital appropriations (ARs) contains certain items, both general and federal funds, which have not been through the department's close-out process. Therefore, amounts contained in the bill may change once the process is completed for those items.

In January, the department provided the Legislature with a list of ARs which had been fully reviewed and ready for final disposition. We can provide assurance that the balances detailed in those appropriations are correct.

Please call if I can be of further assistance.

Sincerely,

Mark S. Hickey
