The bill establishes a Criminal Justice Information Advisory Board, one member of which will be the Commissioner of Corrections (or designee.) The Board will advise the Commissioner of Public Safety regarding criminal justice information issues. The Commissioner of Public Safety will adopt regulations concerning the collection, reporting, and analysis of criminal justice information.

Criminal Justice Information Issues

The bill requires that criminal justice information be accurate and complete, and sets up auditing requirements. The bill outlines a series of events which must be reported to Public Safety at the time, in the manner, and in the form specified by the department. DOC is incapable of providing much of this information due to shortcomings in the inmate tracking system (OBSCIS), lack of training and accountability procedures for data entry, and an already-strained data management unit. Resources in the department's institutional component are strained by responding to immediate crises caused by emergency overcrowding and cannot realistically be diverted to less urgent needs such as information system improvement.

The bill also clarifies which criminal justice information can be released, to whom, and by whom, and authorizes agencies to collect fees, through regulations, for processing records requests. Changes in rules governing what information can be given out will require revision of our policies and training of all staff in all components who routinely respond to questions about offenders.

During FY95 the department will need to assess its information system needs/resources in order to submit an appropriate budget request in FY96 to accomplish the requirements in the bill. The department does not have any available positions to assign to this work; management, research and data processing resources are extremely strained. **The attached letter, from Wolfe and Associates to the Executive Director of the Alaska Judicial Council, explains the department's need for \$150,000 in contractual funds for this task.**

Fingerprinting Issues

The bill requires that fingerprints be taken for persons arrested for an offense, with or without a warrant, when booked into a correctional facility, or at arraignment, adjudication, or sentencing. A court will order that the offender be fingerprinted at a correctional facility unless the court is informed that other available options are more appropriate. Mandatory fingerprinting for misdemeanants will not go into effect until FY96. The department cannot determine with accuracy the number of additional cases which will require fingerprinting without further investigation.

Fiscal Note/DOC
CSHB 442(FIN)
Revised March 21, 1994
Page 3 of 6

The provisions of the bill do not go into effect until at least FY96, except that agencies may develop regulations during FY95 which may go into effect in FY96.

The department is continuing to work with the Department of Public Safety to assess the actual number of cases which are not being satisfactorily fingerprinted now. Offenders taken directly to a magistrate, appearing in court on a summons, or sentenced to probation without a period of incarceration, as well as some warrant arrests and some probation violators are probably not being fingerprinted under current practice. The increase in workload to fingerprint these cases will require additional resources.

It costs roughly \$10 per set of prints (for 20 minutes of a correctional officer's time plus supplies.) The department plans to begin using an automated fingerprint machine at the busiest booking facility, Sixth Avenue Correctional Center, which may reduce personnel and supply expenses per set of prints. The time estimated to fingerprint an offender does not include the time required to perform a pat search and property inventory for a prisoner prior to admission into a correctional facility.

Any increase in resources needed to accomplish additional fingerprinting will be requested through the FY96 budget process.

Mr. William Cotton
Executive Director
Alaska Judicial Council
1029 W. Third Street, Suite 201
Anchorage, Alaska 99501

Dear Mr. Cotton:

As you know, on March 1st, we met with the Criminal Justice Coordination Policy Group to present a status report on our progress in developing a plan for the integration of Alaska's criminal justice computer systems. While we are several weeks away from finishing a draft of our report, we have completed our research and field interviews.

As a result of these completed activities, we have identified several policy issues that need to be addressed, have developed several design alternatives for a centralized repository, and have identified several of the system priorities that need to be addressed. There is no question that the development of a complete, accurate, and timely computerized criminal history will be dependent on the timely submittal of fingerprint cards and the electronic transfer of arrest and disposition information.

The enactment of the APSIN legislation during the current session of the legislature will provide the statutory authority to require the submittal of the fingerprint information in a timely fashion and the ability to promulgate regulations concerning the submittal of "reportable events" information to the criminal history repository.

The submission, however, of "reportable events," which consist of key arrest and change/court disposition data, will be possible only if the existing criminal justice agency systems support the submittal requirements. Currently, two agencies have systems that will not support these requirements: the Department of Law, with

its PROMIS system, and the Department of Corrections, with its OBSCIS system. Both of these systems need to be replaced as soon as feasible.

During our presentation of March 1st, we outlined a process we described as "business process re-engineering." This process should be employed for all system replacement projects. This process is graphically presented in the attachment to this letter. A design team of department personnel and systems analysts skilled in the re-engineering process will ensure that any new system, whether purchased as a package or developed in house or with contract personnel, will meet the agency's automation information needs.

In addition, this process should include input from the other criminal justice agencies, to ensure that data-sharing needs are properly addressed. A part of this process is to also identify the architectures that should be employed for the new systems. We believe these two systems can and should employ client/server technologies in addressing their information system needs.

We recognize that our written report will not be available until late April, which is near the end of the current legislative session, and that it may be too late, even at this date, to request funding for any priority projects for the 1994-1995 fiscal year. We do believe, however, that a year's delay in beginning the implementation of the plan will be extremely detrimental to improving these systems, as well as making the criminal history repository the complete and accurate data base it needs to be.

Because of this, we request your assistance in alerting the legislature to the need for some appropriation to the departments of Law and Corrections that will allow them to begin this re-engineering effort during the next fiscal year. We estimate the costs of this effort to be \$150,000 for the Department of Corrections and \$75,000 for the Department of Law. Once these re-engineering efforts are completed, each agency will have the information it needs to detail costs for replacing their systems, which can then be placed in their 1995-1996 fiscal-year budget requests.

Mr. William Cotton

Your assistance in alerting the legislature to this need will be extremely beneficial to implementing the plan we will submit as part of our written report.

Very truly yours,

This bill establishes a statutory framework for 1) a number of continuing programs currently operating within the state's criminal justice community and 2) certain new provisions regarding criminal history information. In both cases, operational requirements are established, through regulation, by the Criminal Justice Advisory Board. The Board consists of representatives of law enforcement, Courts and other criminal justice agencies. The Board will work in concert with existing policy making bodies such as the Criminal Justice Working Group. The adoption and timing of the Board's regulations depends upon the ability of several state agencies, and the Court System to implement the required changes.

It is difficult to predict the requirements that may be imposed through future regulations. In many cases, these regulations will relate to expenditures that agencies would incur regardless of this legislation. Costs associated with increases in system capacities, maintenance and replacement of existing computer systems, and workload increases stemming from general societal trends cannot be directly associated with this bill. This bill formalizes many existing procedures currently in place within the state's criminal justice community. Accordingly, the Department of Public Safety submits a zero fiscal note. Our additional comments are:

The Alaska Legislature has passed a number of criminal, employment and licensing laws that require or permit the use of criminal history information for investigations, sentencing and release decisions, employment and licensing screening.

Alaska law provides for presumptive sentencing which assumes that repeat offenders receive progressively more severe sentencing as a deterrent to repeating criminal behavior.

Alaska law provides for the screening of day care workers, foster parents, school teachers, school bus drivers and various other occupations which require the use of criminal history information to ensure that inappropriate persons are not employed or not licensed who come in contact with children and protected adults, or should otherwise not be allowed to work in certain areas for public safety reasons.

Legislation continues to be proposed and enacted which requires the use of criminal history information to implement these proposals. Examples include federal legislation involving gun control (Brady-National Instant Check System) and protection of children (National Child Protection Act). Other federal initiatives are pending involving children (Jacob Wetterling Crimes Against Children Registration Act) and a requirement for states to screen, license and train security officers (Private Security Officers Quality Assurance Act). The Alaska Legislature is considering concealed Weapons permit, handgun and other legislation (HB 351, HB 480, HB 3, SB 321).

The legislature has indicated that where criminal history information is required, that it be complete, and to the extent possible, reflect the result of a national search of a person's criminal history. Alaska's state criminal records contain approximately 330,000 convictions on about

135,000 subjects of which 16,000 are felons. Nationally, it is estimated that there are more than 50 million criminal record entries. Whereas two thirds of arrests involve repeat offenders and 20 - 30 percent of offenders have a criminal record in more than one state, it is critical that Alaska maintain criminal records systems that are complete and conform to standards required for the exchange of criminal record information nationally.

Further, it should be understood that the administration of effective and efficient criminal justice information systems is extremely challenging. Coordination is required across branches of government and involves local, state, and national governments. Presently, there is no comprehensive set of laws that Alaska can rely on as a guide to ensure critical criminal history information is maintained. The passage of HB 442 will significantly assist the Department of Public Safety and users who depend upon the availability of criminal history information which is essential to the proper application of certain laws of the State of Alaska.

At the present time, fingerprints support about 39% of Alaska's criminal history records. Additionally, of those fingerprints received, more than 20% are rejected by the Alaska Automated Fingerprint Identification System(AAFIS) due to their poor quality. Missing and rejected fingerprints prevent the automated searching of 180,000 Alaska records and 12 million Western Identification Network records and preclude reliable indexing and searching the FBI's Interstate Identification Index and National Crime Information Center which are used for conducting national criminal records searches. Fingerprints are the internationally accepted standard for authenticating entries to a person's criminal record. Fingerprints are required as the basis for registration of criminal records to state repositories and they are required to register, index and query criminal records with the national systems. Alaska needs to substantially improve.

1. This legislation establishes a statutory framework that should permit a better allocation of existing resources. To a significant degree, this legislation formalizes procedures that exist currently. To this extent, the bill should help improve the efficiency of criminal record processing. Efficiency improvements cannot reliably be quantified but would assist the department and contributing agencies in reducing criminal record backlogs;
2. Mandatory provisions have been minimized, sections generally do not take effect until regulations are adopted.
3. To the extent this legislation may increase public access, provision for the adoption of fees to provide services has been made. The Department currently charges fees for a number of services that will continue to be provided.
4. This bill will provide a framework to guide discussion on how to improve the collection of fingerprints and related criminal history record information. That discussion will include all

agencies represented by the Criminal Justice Working Group. Implementing the full scope of this legislation will require a series of discussions in order to reach implementation agreement. This will take time to negotiate.

DPS's primary goal is to provide the framework necessary to maintain an accurate, complete and timely criminal history file. DPS depends on all criminal justice agencies to contribute to the database. This bill provides such a framework.

DPS cannot autonomously implement this legislation across the board. DPS will use the Criminal Justice Advisory Group in concert with existing policy making bodies such as the Criminal Justice Working Group and its subcommittees as a forum to confirm the need for specific data in the criminal history record and proceed only after concurrence is obtained.

Summary

This legislation is required to establish this State's statutory framework for timely, accurate, and complete criminal history record information. Such a statutory framework exists in virtually every other state. Criminal history records consist of timely, accurate, and complete files used to make decisions related to investigations, release, sentencing and employment. Defendants are not going to volunteer their previous criminal history. If accurate and complete criminal records are not available on line, criminal justice agencies have no choice but to make ongoing decisions without reliable criminal history record information. This will result in lighter sentencing, improper employment decisions, and less efficient police investigations.

The Criminal Justice Work Group has endorsed the need for this type of legislation and has submitted a written recommendation to the Governor's Office. The Criminal Justice Work Group consists of the following criminal justice agencies: Department of Public Safety, Department of Law, Department of Health and Social Services, Office of Public Advocacy, Public Defender, Department of Administration, Department of Corrections, Office of Management and Budget, Chief Justice and Administrative Director of the Alaska Court System, Chairs of the House and Senate Judiciary Committees, President of the Alaska Chiefs of Police Association, and the Chief of the Anchorage Police Department.

2. Personal Services:

A new position will be required to provide training on new policies and procedures to improve the accuracy and completeness of criminal justice information, and to help institute a plan to improve security of the system. This individual would travel to all institutions and field offices at least once per year to provide intensive training to data entry staff on all shifts in all locations across the state. This individual would be responsible for training on-site personnel to become trainers, and to coordinate statewide training on criminal justice information issues among all sites. The individual would need to be familiar with booking procedures as well as data entry and data management systems, and would have to be skilled in training, including training on-site trainers for follow-up. This will require an Analyst Programmer IV located in Anchorage area. Total position cost in FY95 would be \$63,842. (See attached Position Information Sheet.)

Training line staff in institutions requires overtime coverage for the positions assigned to attend training. To train eight staff per institution for two days requires 128 hours of overtime pay, at approximately \$37 per hour, at each of 12 institutions.

128 hours X \$37 per hour X 12 institutions = \$56,832 in personal services expenses in FY95.

TOTAL: \$63,842 + \$56,832 = \$120,674 personal services expense in FY95.

A 3% inflation factor has been used to calculate personal services increases in succeeding years.

3. Contractual:

Contract funds will be necessary to revise and update policies, procedures, and regulations, and to disseminate them in coordination with the field training referenced above. Much of the FY95 contract year will be spent developing clear instructions regarding information dissemination according to the new guidelines. A full-year contract to coordinate policy development related to criminal justice information is estimated at \$40,000, assigned to the Office of the Commissioner, where Policy and Procedure functions rest.

The bill establishes a Criminal Justice Information Advisory Board, one member of which will be the Commissioner of Corrections (or designee.) The Board will advise the Commissioner of Public Safety regarding criminal justice information issues. The Commissioner of Public Safety will adopt regulations concerning the collection, reporting, and analysis of criminal justice information. It is difficult to predict the fiscal impact of this bill since it is not currently known what requirements may be imposed through future regulations. The bill mandates fingerprinting in all criminal cases, "in the manner and on forms approved by the department" [of Public Safety.] The bill requires that criminal justice information be accurate and complete, and sets up auditing requirements. The bill also clarifies which criminal justice information can be released, to whom, and by whom, and authorizes agencies to collect fees, through regulations, for processing records requests.

Assumptions

1. It is assumed that the Board will meet at least twice per year, and that the Commissioner or designee will be required to travel to Juneau on two occasions. Travel and per diem is estimated at approximately \$600 per trip at current rates.
2. It is assumed that this department will not be required to perform any additional data management, research, data entry, booking procedures, or other information reporting services than are currently being performed, unless specifically informed of the new requirements during the budget process of the year preceding the effective date of the new requirement, in order to be able to request the necessary resources/ funds. It is further assumed that if, at the end of the legislative session, funds were not appropriated to perform the anticipated new requirements, that the Department of Public Safety will not require the new/additional tasks of the Department of Corrections. Therefore, no fiscal impact is estimated for the implementation of any new tasks beyond those explicitly required in the bill.
3. The department fingerprints misdemeanants and felons booked into institutions on criminal charges. Those booked on warrants pertaining to a previously printed charge are not re-fingerprinted. Those appearing in court on a summons, without having been booked into a correctional center may not be fingerprinted. The department is continuing to research the number of additional fingerprints which might be required and cannot estimate fiscal impact with the information currently available. It costs approximately \$10 per set of prints for personnel and supplies. It is assumed that the efforts currently made by the Department of Corrections to obtain more legible sets of fingerprints, when notified of an unsatisfactory identification, are considered "reasonable" and that no additional staff resources will be needed to comply with this requirement.

4. It is assumed that the department's current criminal justice information is not accurate, nor is it complete. It is further assumed that our procedures to protect information are inadequate, that our ability to screen, supervise, and discipline agency personnel in order to avoid security violations is inadequate, that our training resources for employees working with criminal justice information are grossly inadequate, and that we do not have adequate resources to keep records required for audit purposes in this bill. The department has an auditor position which can be assigned to set up a system for auditing. Additional resources will be necessary to bring the department into compliance with this requirement of the bill.

5. It is assumed that additional training will be necessary for all institutional and probation/parole staff, as well as for central records staff, concerning the new rules as to what information can be given to the public and to other criminal justice agencies. It is assumed that the majority of requests for information involving the Department of Corrections will not be likely to be subject to fee collection, since most involve brief questions and answers directed to institutions by phone, around the clock each day and night. Although a review will be done to determine if there are any requests which can be used to generate revenue, at this point no fees are anticipated.

6. The bill will require significant rewriting of regulations and policies governing department operating procedures. Revisions to address information dissemination will be a major need, as will revisions to clarify instructions during the booking process to improve accuracy and completeness of information. The department will contract for these one-time revisions, and anticipates a full-year contract to accomplish the changes.

Operating Expenses

1. Travel:

Two trips per year at \$600 = \$1200 for the Office of the Commissioner. In order to train institutional booking personnel in data entry procedures, to insure accuracy and completeness of criminal justice information, a trainer and the auditor will have to travel to each institution and field probation office at least once per year. Each visit will require a minimum of two days to reach all shift rotations. It is roughly estimated that two individuals traveling to 15 sites will cost \$20,000 in airfare and per diem. This travel is assigned to the Office of the Commissioner, where the Training Academy and auditor positions are located. Total travel expenses for the Office of the Commissioner would be \$21,200 in FY95 and each subsequent year. This does not include an inflation factor.

BILL NO. _____

ANALYSIS CONTINUATION:

This bill would completely revise state law regarding the collection, safekeeping and dissemination of criminal justice information in the state's automated criminal justice data systems. The bill would also establish an oversight committee to be known as the Criminal Justice Information Advisory Board. Among other members, the bill would make the attorney general or the attorney general's designee a member of the advisory board. These new duties would entail two meetings per year. Consequently, the department does not anticipate a fiscal impact.

ANALYSIS: (Attach a separate page if necessary)

This bill pertains to criminal justice information sharing and procedural requirements affecting adult criminals and juveniles waived to adult status. This fiscal note is based on the assumption that mandatory fingerprinting pertains only to adults and those juveniles waived to adult status. Additionally, DFYS assumes the standards for fingerprinting contained in the bill will not apply to the juvenile justice system.

4 **BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

5 *** Section 1. AS 12.62 is amended by adding new sections to read:**

6 **Sec. 12.62.100. CRIMINAL JUSTICE INFORMATION ADVISORY BOARD;**
7 **FUNCTIONS AND DUTIES. (a) There is established in the department the Criminal**
8 **Justice Information Advisory Board consisting of the following members:**

9 (1) a member of the general public appointed by and serving at the
10 pleasure of the governor;

11 (2) a municipal police chief appointed by and serving at the pleasure
12 of the governor; in making this appointment, the governor shall consult with the
13 Alaska Association of Chiefs of Police;

14 (3) the attorney general or the attorney general's designee;

- 1 (4) the chief justice of the supreme court or the chief justice's designee;
- 2 (5) the commissioner of administration or the commissioner's designee;
- 3 (6) the commissioner of corrections or the commissioner's designee;
- 4 (7) the commissioner of health and social services or the
- 5 commissioner's designee; and

- 6 (8) the commissioner of public safety or the commissioner's designee,
- 7 who serves as chair of the board; and

#1

- 8 (9) The ED of The AK JUD COUNCIL or The ED. Designee
- 9 (b) Members of the board receive no compensation for services on the board,
- 10 but are entitled to per diem and travel expenses authorized for boards under
- 11 AS 39.20.180.

12 (c) The board shall meet once every six months and at such other times as the

13 chair finds necessary.

14 (d) The board shall

- 15 (1) advise the department and other criminal justice agencies on matters
- 16 pertaining to the development and operation of the central repository described in
- 17 AS 12.62.110(1) and other criminal justice information systems, including providing
- 18 advice about regulations and procedures, and estimating the resources and costs of
- 19 those resources, needed to carry out the provisions of this chapter; and

- 20 (2) provide an annual report of its activities and recommendations to
- 21 the governor and the legislature.

22 Sec. 12.62.110. DUTIES OF THE COMMISSIONER REGARDING

23 INFORMATION SYSTEMS. The commissioner shall

- 24 (1) develop and operate a criminal justice information system that will
- 25 serve as the state's central repository of criminal history record information, and that
- 26 will collect, store, and release criminal justice information as provided in this chapter;

- 27 (2) consult with the board established by AS 12.62.100 regarding
- 28 matters concerning the operation of the department's criminal justice information
- 29 systems;

- 30 (3) provide a uniform crime reporting system for the periodic
- 31 collection, analysis, and reporting of crimes, and compile and publish statistics and
- other information on the nature and extent of crime in the state;

1 (4) cooperate with other agencies of the state, the criminal record
2 repositories of other states, the Interstate Identification Index, the National Law
3 Enforcement Telecommunications System, the National Crime Information Center, and
4 other appropriate agencies or systems, in the development and operation of an effective
5 interstate, national, and international system of criminal identification, records, and
6 statistics; and

7 (5) in accordance with AS 44.62 (Administrative Procedure Act), adopt
8 regulations necessary to implement the provisions of this chapter; in adopting the
9 regulations, the commissioner shall consult with affected law enforcement agencies
10 regarding the fiscal implications of the regulations; regulations may not be adopted
11 under this section that affect procedures of the court system;

12 Sec. 12.62.120. MANDATORY FINGERPRINTING. (a) When a person is
13 taken into custody for an arrestable offense, with or without a warrant, fingerprints of
14 the person may be taken by the law enforcement agency with custody of the person.
15 If the law enforcement agency with custody of the person does not take the
16 fingerprints, they shall be taken by the correctional facility where the person is lodged
17 following the arrest.

18 (b) At the initial court appearance or arraignment of a person for an arrestable
19 offense, the court shall determine if the person's fingerprints have been taken in
20 connection with the offense. If the court is unable to conclusively determine that the
21 person's fingerprints have been taken, the court shall order the person to submit to
22 fingerprinting within 24 hours at the appropriate correctional facility unless, after
23 consultation with state or local law enforcement agencies, the court determines that
24 another place for taking fingerprints is more appropriate.

25 (c) When a defendant is sentenced or otherwise adjudicated for an arrestable
26 offense, the court shall determine if legible fingerprints have been taken in connection
27 with the proceedings. If the court is unable to conclusively determine that legible
28 fingerprints have been taken, the court shall order that the defendant, as a condition
29 of sentence, adjudication, suspended imposition of sentence, probation, or release,
30 submit to fingerprinting within 24 hours at the appropriate correctional facility unless,
31 after consultation with state or local law enforcement agencies, the court determines

1 that another place for taking fingerprints is more appropriate.

2 (d) The department shall develop standard forms and procedures for the taking
3 of fingerprints under this section. Fingerprints shall be

4 (1) taken on a form, and in the manner, prescribed by the department;
5 and

6 (2) forwarded within five working days to the department.

7 (e) When the department receives fingerprints of a person in connection with
8 an arrestable offense, the department shall make a reasonable effort to confirm the
9 identity of the person fingerprinted. If the department finds that the person
10 fingerprinted has criminal history record information under a name other than the name
11 submitted with the fingerprints, the department shall promptly notify the officer,
12 agency, or facility that took the fingerprints.

13 (f) If the arresting officer, the law enforcement agency that employs the
14 officer, or the correctional facility where fingerprints were taken is notified by the
15 department that fingerprints taken under this section are not legible, the officer,
16 agency, or facility shall make a reasonable effort to obtain a legible set of fingerprints.
17 If legible fingerprints cannot be obtained within a reasonable period of time, and if the
18 illegible fingerprints were taken under a court order, the officer or agency shall inform
19 the court, which shall order the defendant to submit to fingerprinting again.

20 Sec. 12.62.130. REPORTING OF CRIMINAL JUSTICE INFORMATION.

21 (a) The commissioner, by regulation and after consultation with the board and affected
22 agencies, may designate which criminal justice agencies are responsible for reporting
23 the events described in (b) of this section. An agency designated under this subsection
24 shall report the events described in (b) of this section to the department, at the time,
25 in the manner, and in the form specified by the department.

26 (b) An agency designated under (a) of this section shall report the following
27 events to the department if they occur in connection with an arrestable offense:

28 (1) the issuance, receipt, withdrawal, quashing, or execution of a
29 judicial arrest warrant, a governor's warrant of arrest for extradition, or a parole arrest
30 warrant;

31 (2) an arrest, with or without a warrant, or an escape after arrest;

- 1 (3) the release of a person after arrest without charges being filed;
- 2 (4) the admittance to, release or escape from, or unlawful evasion of,
- 3 official detention in a correctional facility, either pretrial or post-trial;
- 4 (5) a decision by a prosecutor or a grand jury not to commence
- 5 criminal proceedings, to defer or indefinitely postpone prosecution, or to decline to
- 6 prosecute charges;
- 7 (6) the filing of a charging document, including an indictment, criminal
- 8 complaint, criminal information, or a petition or other document showing a violation
- 9 of bail, probation, or parole, or the amendment of a charging document;
- 10 (7) an acquittal, dismissal, conviction or other disposition of charges
- 11 set out in a charging document described in (6) of this subsection;
- 12 (8) the imposition of a sentence or the granting of a suspended
- 13 imposition of sentence under AS 12.55.085;
- 14 (9) the commencement or expiration of parole or probation supervision;
- 15 (10) the commitment to or release from a facility, designated by the
- 16 Department of Health and Social Services, of a person who was previously accused
- 17 of a crime but who has been found to be incompetent to stand trial or found not
- 18 criminally responsible;
- 19 (11) the filing of an action in an appellate court or a federal court
- 20 relating to a conviction or sentence:
- 21 (12) a judgment of a court that reverses, remands, vacates, or reinstates
- 22 a criminal charge, conviction, or sentence;
- 23 (13) a pardon, reprieve, executive clemency, commutation of sentence,
- 24 or other change in the length or terms of a sentence by executive or judicial action;
- 25 and
- 26 (14) any other event required to be reported under regulations adopted
- 27 under this chapter.

28 Sec. 12.62.140. REPORTING OF UNIFORM CRIME INFORMATION. A

29 criminal justice agency shall submit to the department, at the time, in the manner, and

30 in the form specified by the department, data regarding crimes committed within that

31 agency's jurisdiction. The department shall compile, and provide to the governor and

1 the attorney general, an annual report concerning the number and nature of criminal
2 offenses committed, the disposition of the offenses, and any other data the
3 commissioner finds appropriate relating to the method, frequency, cause, and
4 prevention of crime.

5 Sec. 12.62.150. REPORTING OF INFORMATION REGARDING WANTED
6 PERSONS AND STOLEN PROPERTY. (a) A criminal justice agency shall report
7 to the department, at the time, in the manner, and in the form specified by the
8 department, data regarding

9 (1) a person the agency is trying to locate, whether that person is
10 wanted in connection with the commission of a crime, and the discovery, if any, of
11 that person;

12 (2) the theft, and recovery if any, of an identifiable motor vehicle; and

13 (3) the theft, and recovery if any, of identifiable property.

14 (b) A criminal justice agency, annually and at other times if requested by the
15 department, shall confirm whether information already reported under (a) of this
16 section continues to be valid, and shall cooperate with the department in periodic
17 audits to validate the information reported.

18 Sec. 12.62.160. COMPLETENESS, ACCURACY, AND SECURITY OF
19 CRIMINAL JUSTICE INFORMATION. (a) A criminal justice agency shall

20 (1) adopt reasonable procedures to ensure that criminal justice
21 information that the agency maintains is accurate and complete;

22 (2) notify a criminal justice agency known to have received information
23 of a material nature that is inaccurate or incomplete;

24 (3) provide adequate procedures and facilities to protect criminal justice
25 information from unauthorized access and from accidental or deliberate damage by
26 theft, sabotage, fire, flood, wind, or power failure;

27 (4) provide procedures for screening, supervising, and disciplining
28 agency personnel in order to minimize the risk of security violations;

29 (5) provide training for employees working with or having access to
30 criminal justice information;

31 (6) if maintaining criminal justice information within an automated

1 information system operated by a noncriminal justice agency, develop or approve
2 system operating procedures to comply with this chapter or regulations adopted under
3 this chapter, and monitor the implementation of those procedures to ensure that they
4 are effective; and

5 (7) maintain, for at least three years, and make available for audit
6 purposes,

7 (A) records showing the accuracy and completeness of
8 information maintained by the agency in a criminal justice information system;
9 and

10 (B) records required to be maintained under AS 12.62.170(c)(4).

11 (b) The department shall adopt reasonable procedures designed to ensure that
12 information about arrests and criminal charges that is stored in a criminal justice
13 information system can be linked with information about the disposition of those
14 arrests and charges.

15 (c) Every two years the department shall undertake an audit, and every four
16 years shall obtain an independent audit, of the department's criminal justice
17 information system that serves as the central repository and of a sample of other state
18 and local criminal justice information systems, to verify adherence to the requirements
19 of this chapter and other applicable laws. The department shall provide to the board
20 the final report of each audit.

21 Sec. 12.62.170. RELEASE AND USE OF CRIMINAL JUSTICE
22 INFORMATION; FEES. (a) Criminal justice information and the identity of
23 recipients of criminal justice information is confidential and exempt from disclosure
24 under AS 09.25. The existence or nonexistence of criminal justice information may
25 not be released to or confirmed to any person except as provided in this section and
26 AS 12.62.190(d).

27 (b) Subject to the requirements of this section, and except as otherwise limited
28 or prohibited by other provision of law or court rule, criminal justice information may
29 be released by a criminal justice agency as follows:

30 (1) an assessment or summary of criminal justice information may be
31 provided to a person when necessary to avoid imminent danger to life or extensive

1 damage to property;

2 (2) criminal justice information may be provided to any person to the
3 extent required by applicable court rules or under an order of a court of this state,
4 another state, or the United States;

5 (3) criminal justice information may be provided to a person if the
6 information is commonly or traditionally provided by criminal justice agencies in order
7 to identify, locate, or apprehend fugitives or wanted persons or to recover stolen
8 property, or for public reporting of recent arrests, charges, and other criminal justice
9 activity;

10 (4) criminal justice information may be provided to a criminal justice
11 agency for a criminal justice activity;

12 (5) criminal justice information may be provided to a government
13 agency to the extent necessary for enforcement of or for a purpose authorized by local,
14 state, or federal law;

15 (6) criminal justice information may be provided to a person
16 specifically authorized by a state or federal law to receive such information;

17 (7) criminal justice information may be provided to the governor or the
18 lieutenant governor for purposes of

19 (A) personal or family security; or

20 (B) reviewing a candidate for appointment as a state official or
21 employee in the exempt or partially exempt service under AS 39.25.110 or
22 39.25.120;

23 (8) criminal justice information may be provided to a legislator
24 of this state for purposes of

25 (A) personal or family security;

26 (B) reviewing a governor's appointee whose appointment has
27 been submitted to the legislature for confirmation; or

28 (C) reviewing a candidate for legislative appointment or for
29 employment in the legislative branch of government;

30 (9) criminal justice information may be released to a qualified person,
31 as determined by the agency, for criminal justice research, subject to written conditions

1 that assure the security of the information and the privacy of individuals to whom the
2 information relates;

3 (10) current offender information may be provided to a person for any
4 purpose;

5 (11) past conviction information may be provided to a person for any
6 purpose if less than 10 years has elapsed from the date of unconditional discharge to
7 the date of the request;

8 (12) past conviction information relating to a serious offense may be
9 provided to an interested person if 10 or more years have elapsed from the date of
10 unconditional discharge to the date of the request and if the information is requested
11 for the purpose of determining whether to grant a person supervisory or disciplinary
12 power over a minor or dependent adult; and

13 (13) criminal justice information may be provided to the person who
14 is the subject of the information.

15 (c) Unless otherwise provided for in regulations adopted by the commissioner,
16 if access to criminal justice information is permitted under (b) of this section

17 (1) the information may be released only by the agency maintaining
18 that information;

19 (2) the information may not be released under this section without first
20 determining that the information is the most current information available within that
21 criminal justice information system, unless the system is incapable of providing the
22 most current information available within the necessary time period;

23 (3) the information may not be released under this section until the
24 person requesting the information establishes the identity of the subject of the
25 information by fingerprint comparison or another reliable means of identification
26 approved by the department;

27 (4) the information may not be released under this section unless the
28 criminal justice agency releasing the information records, and maintains for at least
29 three years, the name of the person or agency that is to receive the information, the
30 date the information was released, the nature of the information, and the statutory
31 authority that permits the release; and

1 (5) information released under this section may be used only for the
2 purpose or activity for which the information was released.

3 (d) Notwithstanding AS 09.25, a criminal justice agency may charge fees,
4 established by regulation or municipal ordinance, for processing requests for records
5 under this chapter, unless the request is from a criminal justice agency or is required
6 for purposes of discovery in a criminal case. In addition to fees charged under
7 AS 44.41.025 for processing fingerprints through the Alaska automated fingerprint
8 system, the department may charge fees for other services in connection with the
9 processing of information requests, including fees for contacting other jurisdictions to
10 determine the disposition of an out-of-state arrest or to clarify the nature of an
11 out-of-state conviction. The department may also collect and account for fees charged
12 by the Federal Bureau of Investigation for processing fingerprints forwarded to the
13 bureau by the department. The annual estimated balance in the account maintained by
14 the commissioner of administration under AS 37.05.142 may be used by the legislature
15 to make appropriations to the department to carry out the purposes of this chapter.

16 Sec. 12.62.180. CORRECTION OF CRIMINAL JUSTICE INFORMATION.

17 (a) A criminal justice agency shall correct, modify, or add an explanatory notation to
18 criminal history records that the agency is responsible for maintaining if the revision
19 is necessary to achieve accuracy or completeness.

20 (b) A person may submit a written request to the head of the agency
21 responsible for maintaining criminal justice information asking the agency to correct,
22 modify, or add any information or explanatory notation to criminal justice information
23 about the person that the person believes is inaccurate or incomplete. The decision of
24 the head of the agency is the final administrative decision on the request.

25 (c) The person requesting revision of criminal justice information may appeal
26 an adverse decision of the agency to the court under applicable rules of procedure for
27 appealing the decision of an administrative agency. The appellant bears the burden on
28 appeal of showing that the agency decision was in error. An appeal filed under this
29 subsection may not collaterally attack a court judgment or a decision by prison,
30 probation, or parole authorities, or any other action that is or could have been subject
31 to appeal, post-conviction relief, or other administrative remedy.

1 Sec. 12.62.190. SEALING OF CRIMINAL JUSTICE INFORMATION. (a)
2 Under this section, a criminal justice agency may seal only the information that the
3 agency is responsible for maintaining.

4 (b) A person may submit a written request to the head of the agency
5 responsible for maintaining past conviction or current offender information, asking the
6 agency to seal such information about the person that, beyond a reasonable doubt,
7 resulted from mistaken identity or false accusation. The decision of the head of the
8 agency is the final administrative decision on the request.

9 (c) The person requesting that the information be sealed may appeal an adverse
10 decision of the agency to the court under applicable rules of procedure for appealing
11 the decision of an administrative agency. The appellant bears the burden on appeal
12 of showing that the agency decision was clearly mistaken. An appeal filed under this
13 subsection may not collaterally attack a court judgment or a decision by prison,
14 probation, or parole authorities, or any other action that is or could have been subject
15 to appeal, post-conviction relief, or other administrative remedy.

16 (d) A person about whom information is sealed under this section may deny
17 the existence of the information and of an arrest, charge, conviction, or sentence shown
18 in the information. Information that is sealed under this section may be provided to
19 another person or agency only

- 20 (1) for record management purposes, including auditing;
21 (2) for criminal justice employment purposes;
22 (3) for review by the subject of the record;
23 (4) for research and statistical purposes;
24 (5) when necessary to prevent imminent harm to a person; or
25 (6) for a use authorized by statute or court order.

26 Sec. 12.62.200. PURGING OF CRIMINAL JUSTICE INFORMATION. (a)
27 A criminal justice agency may purge only the criminal justice information that the
28 agency is responsible for maintaining. An agency may determine when and what
29 information will be purged, under (b) of this section.

30 (b) Criminal justice information may be purged if the agency determines that
31 the information is devoid of usefulness to a criminal justice agency due to the

- 1 (1) death of the subject of the information;
- 2 (2) age of the information;
- 3 (3) nature of the offense or of the information;
- 4 (4) volume of the agency's records or other record management
- 5 considerations.

6 Sec. 12.62.210. CIVIL ACTION AND DEFENSE. (a) Failure to comply with
7 a requirement of this chapter or a regulation adopted under this chapter is not a basis
8 for civil liability, but may be the basis for employee discipline or administrative action
9 to restrict a person's or agency's access to information. However, a person whose
10 criminal justice information has been released or used in knowing violation of this
11 chapter or a regulation adopted under this chapter may bring an action for damages in
12 the superior court.

13 (b) It is a defense to a civil or criminal action based on a violation of this
14 chapter, or regulations adopted under this chapter, if a person relied in good faith upon
15 the provisions of this chapter or of other laws or regulations governing maintenance,
16 release, or use of criminal justice information, or upon policies or procedures
17 established by a criminal justice agency.

29 12.62.035, 12.62.040, 12.62.050, 12.62.060, 12.62.070; AS 18.65.060; and AS 44.41.040 are
30 repealed.

31 * Sec. 4. Notwithstanding the repeal of AS 44.41.040 by sec. 3 of this Act, the regulations

1 adopted under AS 44.41.040 that are in effect on the effective date of this Act remain in effect
2 until the regulations required to be adopted under AS 12.62.170(d), added by sec. 1 of this
3 Act, take effect.

4 * Sec. 5. TRANSITION. Notwithstanding sec. 8 of this Act, an agency of the state that
5 has regulation adoption authority or that is authorized by this Act to adopt regulations, may
6 proceed to adopt regulations necessary to implement provisions in this Act that affect that
7 agency. The regulations take effect under AS 44.62 (Administrative Procedure Act), but not
8 before July 1, 1995.

9 * Sec. 6. APPLICABILITY. Notwithstanding sec. 8 of this Act, the fingerprinting and
10 mandatory reporting requirements of AS 12.62.120 - 12.62.150, added by sec. 1 of this Act,
11 and regulations adopted under those statutes, are not applicable before July 1, 1996 to criminal
12 activity that does not constitute a felony offense.

13 * Sec. 7. Section 5 of this Act takes effect immediately under AS 01.10.070(c).

14 * Sec. 8. Sections 1 - 4 and 6 of this Act take effect July 1, 1995.

The Honorable Ron Larson
Co-Chair, House Finance
Alaska State Legislature
State Capitol, Room 502
Juneau, AK 99801-1182

Dear Representative Larson:

This is to request your assistance in scheduling a ~~House~~ Finance hearing on HB 442, "An Act relating to criminal justice information; providing procedural requirements for obtaining certain criminal justice information; and providing for an effective date."

This bill to update Alaska's laws regarding the administration of certain criminal justice information is the culmination of a four-year effort sponsored by the Department of Public Safety, assisted by SEARCH, the National Consortium for Criminal Justice Information and Statistics, and the Department of Law.

The broad based goal of this bill is to establish the statutory framework necessary to provide police, prosecutors, courts, corrections and employers, essential criminal history information via the Alaska Public Safety Information Network (APSIN)

Legislation is required to ensure the taking of fingerprints and the capturing of arrest and related information to ensure that Alaska's criminal justice decision-makers are supplied with complete, accurate, and timely criminal history information. Alaska's APSIN criminal history database is dependent upon cooperation with police agencies to provide arrest information, Corrections for fingerprints and prisoner information, Department of Law for decline to prosecute information, and the Courts for judgement information. This legislation will provide the statutory framework necessary to facilitate the reporting of criminal history information to the Department of Public Safety. The Criminal Justice Working Group has endorsed the need for this type of legislation.

Without accurate, complete, and timely criminal history records, police investigations will be impaired; persons who should be arrested or otherwise held during routine police contact will not be; repeat offenders will receive lighter sentencing or be inappropriately released from custody; unsuitable persons will be permitted employment in criminal justice or sensitive civilian capacities; and ineligible persons will be allowed to purchase and carry firearms.

The Honorable Ron Larson
February 24, 1994
Page 2

APSIN houses Alaska's criminal history database and provides access to national criminal history and fingerprint networks. APSIN is accessed statewide by all police and criminal justice agencies comprising 2,000 users and 900 computer terminals. Information contained in this database and its companion fingerprint system is used by police to investigate crimes and identify persons and property. Prosecutors depend upon APSIN to determine previous criminal history. Courts, through Corrections' presentence reports, use APSIN information in making sentencing, release, probation, and parole decisions.

APSIN criminal history information is provided to employers and regulatory authorities to make informed employment and licensing decisions. Certain background checks, such as those for criminal justice employment and school teachers, are provided for by law. Others, such as background checks on foster parents, are voluntary but critical to the public welfare. Further, APSIN is a partner with our sister states and the federal government in developing national systems initiatives to form national criminal justice information networks.

The importance of complete, accurate, and timely access to criminal history information continues to increase due to recently enacted federal legislation involving gun control (Brady-National Instant Check System) and protection of children (National Child Protection Act). Other federal initiatives are pending involving the registration of offenders who are convicted of crimes against children (Jacob Wetterling Crimes Against Children Registration Act) and requiring states to establish programs to screen, license, and train security officers (Private Security Officers Quality Assurance Act). In addition, the Alaska Legislature is considering concealed weapons permit legislation (HB 351), registration of sexual offenders (HB 69), and the Governor's Anti-Crime Package. All of these initiatives are dependent upon the availability of criminal history information in order to implement the provisions of these enacted and pending laws.

To expedite the scheduling of a hearing, please find enclosed a copy of the bill, transmittal letter with sectional analysis, agency fiscal notes, and pertinent background information.

Sincerely,

Richard L. Burton

**GOVERNOR HICKEL'S
CRIMINAL HISTORY RECORDS INFORMATION
LEGISLATION
(SB 276 & HB 442)**

Governor Hickel has introduced legislation which will provide police, prosecutors, courts, corrections, and employers with essential criminal history information via the Alaska Public Safety Information Network (APSIN).

APSIN houses Alaska's criminal history database and provides access to national criminal history and fingerprint networks. APSIN is accessed statewide by all police and criminal justice agencies comprising 2,000 users and 900 computer terminals. Information contained in this database and its companion fingerprint system is used by police to investigate crimes and identify persons and property. Prosecutors depend upon APSIN to determine previous criminal history. Courts, through Corrections presentence reports, use APSIN information in making sentencing, release, probation and parole decisions.

Without accurate, complete and timely criminal history records, police investigations will be impaired. Persons who should be arrested or otherwise held during routine police contact will not be. Repeat offenders will receive lighter sentencing or be inappropriately released from custody. Unsuitable persons will be permitted employment in criminal justice or sensitive civilian capacities. Ineligible persons will be allowed to purchase and carry firearms.

APSIN criminal history information is provided to employers and regulatory authorities to make informed employment and licensing decisions. Certain background checks, such as those for criminal justice employment and school teachers, are provided for by law. Others, such as background checks on foster parents, are voluntary but critical to the public welfare. Further, APSIN is a partner with our sister states and the federal government in developing national systems initiatives to form national criminal justice information networks.

The importance of complete, accurate and timely access to criminal history information continues to increase due to recently enacted federal legislation involving gun control (Brady-National Instant Check System) and protection of children (National Child Protection Act). In addition, the Alaska legislature is considering concealed weapons permit legislation (HB 351), registration of sexual offenders (HB 69), and the Governor's Anti-Crime Package. All of these initiatives are dependent upon the availability of criminal history information in order to implement the provisions of these enacted and pending laws.

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

*The Honorable Ramona L. Barnes
Speaker of the House
Alaska State Legislature
State Capitol
Juneau, AK 99801-1182*

Dear Speaker Barnes:

Under the authority of art. III, sec. 18, of the Alaska Constitution, I am transmitting a bill relating to criminal justice information.

The need for new Alaska legislation on the subject of criminal justice information and computer information systems has been recognized for a number of years. If accurate and complete, these information systems provide a measure of protection for law enforcement officers on the front line of the battle against crime and provide needed information for all parts of the criminal justice system and the public. At the same time, provisions are needed for the security and privacy of the information contained in these systems. Under the bill, "criminal justice information" does not include records relating to juvenile offenders.

The federal Anti-Drug Abuse Act of 1988 required the United States Department of Justice to develop a system for more immediate and accurate identification of offenders, which resulted in voluntary national standards being developed. The Department of Justice recommended that all states (1) implement mandatory reporting of all criminal justice information, (2) monitor case dispositions and adopt unique case-tracking numbers to improve data accuracy, (3) ensure timely submission of fingerprint records, (4) provide standardized data entry, and (5) provide audits, training, and data security. This bill is a necessary step toward that goal, and it will provide a framework under which the state can comply with appropriate national standards for the collection and use of criminal justice information, to the extent they are practical as applied to Alaska.

This bill also adopts a trend seen in some other states, to give the press and public greater access to criminal history records and to make those records more "open."

The Honorable Ramona Barnes
February 3, 1994
Page 2

For example, under this bill, anyone would be permitted to receive information about a person in the custody or under the supervision of the state, including the location of incarceration of inmates, and the conditions under which such inmates are released into the community on bail, probation, or parole. Currently, much of this information is available only to victims of crimes. AS 33.16.120(f). The public would also be permitted to receive information about past convictions if less than 10 years has elapsed from the date the offender was released from all state supervision. Current law gives past conviction records only to employers of persons who work with children, and only for specified crimes. AS 12.62.035. These provisions in this legislation would give the public a great deal of information about current or past criminal offenders that is either not available under current law, or is only available by expending great effort to search paper or microfilm records in the possession of the court system.

A detailed section-by-section description that describes the need for and the intent behind each provision in the bill is available from the Department of Public Safety.

Sincerely,

A handwritten signature in cursive script, reading "Walter J. Hickel". The signature is written in dark ink and is positioned above the printed name and title.

RE: Criminal Justice Working Group Recommendation concerning Criminal History
Legislation

Dear Governor Hickel:

I am writing on behalf of the Criminal Justice Working Group which you recently established to, among other reasons, recommend to you policies which would benefit the criminal justice system in Alaska as a whole. The CJWG recently reviewed legislation prepared by the Departments of Public Safety and Law which comprehensively addresses the collection, oversight and dissemination of criminal history information. While the CJWG did not consider all of the specifics in the legislation, and undoubtedly members will have differences of opinion on individual items, the CJWG was unanimous in endorsing the general direction of the legislation. The Group strongly urges you to introduce it and work for its passage next session.

Accurate and complete criminal history information is a necessity for all parts of the criminal justice system. The ability of the police and troopers to apprehend criminals and protect the public depends in many cases on accurate fingerprint identification. Innocent citizens often can be absolved by accurate records while inaccurate information can put them at risk. Sentencing decisions under our laws are dependent on accurately determining prior convictions. Further, accurate and complete information is vital to a wide range of decisions in our society, for example, hiring a day care worker who has not been convicted of sexual abuse of a minor. Current statutes governing criminal records collection, use and dissemination are inadequate. Because of these inadequacies, protection of the public and individuals can be at risk.

The CJWG endorses the following general objectives of the proposed legislation:

BACK-UP

1. Establish an advisory group to oversee the collection and use of criminal history information;
2. Establish regulatory authority with Department of Public Safety;
3. Provide for mandatory fingerprinting;
4. Establish mandatory reporting of events in the criminal justice system;
5. Provide for correcting or sealing information;
6. Make recommendations for dissemination of information.

The CJWG did not review individual sections of the legislation. In particular, some members had reservations about the dissemination provisions, although all felt that dissemination of criminal history information is an important topic which must be addressed.

The CJWG believes a need for new, comprehensive legislation governing the collection and use of criminal history information is an important issue. As a whole, the group feels that complete and accurate criminal history records are an integral part of a good criminal justice system and request the Governor endorse and introduce this legislation during the next session.

Very truly yours,

William T. Cotton

IMPACT UPON LOCAL POLICE

IN GENERAL: This legislation establishes a statutory framework which formalizes existing criminal justice information processing procedures. Mandatory provisions have been minimized and sections generally do not take effect until regulations are adopted. To implement the full scope of this legislation, a series of implementation discussions with local law enforcement are required. Full implementation will be achieved through negotiation and concurrence. The bill provides for an effective date of July 1, 1994 but the substantive sections of the bill do not apply to misdemeanants until July 1, 1995. This delay is intended to hold down the initial costs of this legislation and to enable justice agencies to streamline procedures.

The information depicted below addresses those provisions that may increase the work load of local police. Other provisions of the bill, not mentioned here, are either already performed by local police or the performance requirement is placed on other organizations in the criminal justice community. The accompanying materials fully explain the provisions of the legislation.

PROVISION	EXPECTED IMPACT	EXPECTED BENEFIT
<p>Criminal Justice Information Board (12.62.100)</p>	<p>A municipal police chief serves as a Board member</p>	<p>Direct local police representation on policy and implementation issues. Travel and per diem expenses are paid by the State.</p>
<p>Mandatory fingerprinting (12.62.120) Current practice is to obtain fingerprints for all felonies and serious misdemeanors.</p>	<p>All accused misdemeanants and felons must be fingerprinted. If the arresting agency normally books prisoners at a Correctional facility, there is no impact. If the local police department operates a jail, there will likely be an increase in the number of people it fingerprints.</p>	<p>Fingerprints are the only acceptable, cost effective way to guarantee the identity of the individual and the accuracy of the criminal history record. Additionally, these fingerprints are included in AAFIS and the FBI system for latent matching and national retrieval of criminal records.</p>
<p>Time limit for forwarding fingerprints to the central repository (12.62.120)</p>	<p>Fingerprint cards must be forwarded to AAFIS within five working days. CRIMINAL HISTORY DATABASE

PROPOSED CRIMINAL HISTORY RECORD CONTENTS

Source: December 1989 Search Report, September 26, 1991 University of Alaska White Paper

The importance of complete and accurate criminal history records cannot be over-emphasized at this time. Within the criminal justice system, criminal history records are needed for decisions relating to pretrial release, offense charging, prosecution priorities, sentencing and correctional assignments. Similarly, such data are increasingly necessary for noncriminal justice purposes to meet requirements relating to licensing, security clearances and employment of individuals in sensitive positions. A Bureau of Justice Statistics (BJS) survey found that, as of October 1990, almost all states had enacted some legislation which required that criminal history record information be considered in connection with criminal justice decisions. ALASKA'S CRIMINAL HISTORY REPOSITORY

Alaska's criminal history database contains approximately 500,000 criminal record entries representing approximately 300,000 persons;

Alaska's fingerprint database contains approximately 170,000 sets of ten print records;

Alaska's fingerprint database contains approximately 2,500 latent fingerprints from crime scenes;

Alaska's criminal history database is updated or queried approximately 50,000 times per month by courts, police, corrections, prosecutors and on behalf of employers;

Alaska's criminal history database is accessed through 900 terminals and 2,000 users in state and nationally via the Law Enforcement Telecommunications System (NLETS);

Preliminary results of a sample of 300 FY 91 arrests disclosed that approximately one third were supported by fingerprints and one third had dispositions reported. Currently, State Correctional facilities are fingerprinting approximately 40% of people accused of committing crimes; Contract Jails fingerprint approximately 50% and smaller facilities approximately 30%.

"An Act Relating to criminal justice information;

Commentary and section-by-section description

The need for new Alaska laws for criminal justice information systems has been recognized for a number of years. It has been recommended, for example, that state statutes "should be revised to reflect a decision as to oversight and monitoring responsibility and to clearly set policy . . .". *A Special Report on the Oversight of Criminal Justice Information Systems in Alaska and the Alaska Public Safety Information Network*, Division of Legislative Audit, 1986. See also, Trostle, *Alaska Criminal History Record Information Program, A White Paper*, Justice Center, University of Alaska (1991) ("Legislative intervention in this area is warranted and required."). The Ombudsman has also recommended new legislation. *Investigative Report, Complaint J91-0810* (December 10, 1992).

In 1972, the statutes in AS 12.62, the regulations in 6 AAC 60, and the constitutional right of privacy in Art. I, sec. 22, of the state constitution, were adopted as a direct result of fears generated by the 1971 implementation of the Alaska Justice Information System computer (known as "AJIS").¹ With the exception of AS 12.62.035 (access to conviction records for sex offenders), the statutes have not changed in over 20 years. The last decade has seen enormous changes in the use of, and attitude towards, computer systems, and statutory changes are needed to reflect these changes.²

¹ Newspaper reports at the time contained statements by the sponsors and supporters of the constitutional amendment that the AJIS system was the primary motivation for the right-to-privacy provision. See, articles appearing in Alaska newspapers in 1972: Anchorage Daily News, March 21 at 8; March 22 at 5; March 31 at 1-2; April 1 at 4; April 6 at 2; Anchorage Times, March 20 at 8; March 27 at 2; March 27 at 2; March 31 at 1-2; Fairbanks Daily News-Miner, March 20 at 2; Southeast Alaska Empire, March 17 at 2; March 20 at 1; March 21 at 1 and 8; May 18 at 4.

² The regulations in 6 AAC 60 were amended in 1982 during the last meeting of the Governor's Commission on the Administration of Justice, but in reality there has been no systematic oversight of criminal justice information systems since the 1970's. The federal regulations in 28 CFR, Part 20, apply only to information systems funded in whole or in part by the Law Enforcement Assistance Administration, which provided federal grant funds since the 1970s. In 1986 the Department of Law issued an opinion concluding that changes in the funding of the Department of Public Safety criminal records system meant that the statutes and regulations no longer applied to that system. See, *Applicability of AS 12.62 to Alaska Public Safety Information Network*, Inf. Op. Atty. Gen. 663-86-0479, December 10, 1986. Both the division of legislative audit and the division of legislative legal services concur in that conclusion. See, *A Special Report On The Oversight Of Criminal Justice Systems In Alaska And The Alaska Public Safety Information Network*, 5 (March 19, 1986; Audit Control Number 12-4247-86-5) and *A Report to the Fifteenth State Legislature, Examining Court Decisions and Opinions of the Attorney General Construing Alaska Statutes*, at 29 (November, 1987).

There has also been a growing recognition that national standards for criminal justice data collection should be established, and the Anti-Drug Abuse Act of 1988 required the Department of Justice to develop a system for more immediate and accurate identification of offenders. The Justice Department recommended that states (1) implement mandatory reporting of all criminal justice information, (2) monitor case dispositions and adopt unique case-tracking numbers to improve data accuracy, (3) ensure timely submission of fingerprint records, (4) provide standardized data entry, and (5) provide audits, training, and data security.

In addition, federal handgun control efforts, such as the "Brady bill" in 1993, depend to a large extent on the accuracy, completeness and availability of criminal history records. Alaska has recently received a federal grant to improve its data collection, and this bill is a necessary step toward that goal. This legislation provides a framework under which the state can comply with appropriate national standards, to the extent they are practical in Alaska.

Major portions of this legislation are patterned after the laws in other states, the federal regulations in 28 CFR, Part 20, and the recommendations made by SEARCH, Inc., in *Standards for the Security and Privacy of Criminal History Record Information, Third Edition*, published in July, 1988.³ This publication resulted from a three-year effort by the SEARCH Law and Policy Project Advisory Committee, with assistance provided by experts within and outside of the criminal justice community. While the SEARCH publication was not intended as a model statute that would fit the particular needs of every state, it does set out a comprehensive approach to criminal justice information policy based upon articulated standards that reflect the knowledge and experience of a large, nationwide group of criminal justice information experts.

This bill is organized as follows:

AS 12.62.100	Criminal justice information advisory board.
AS 12.62.110	Duties of the commissioner regarding information systems.
AS 12.62.120	Mandatory fingerprinting in criminal cases.
AS 12.62.130	Reporting of criminal justice information.
AS 12.62.140	Reporting of uniform crime information.
AS 12.62.150	Reporting of information regarding wanted persons and stolen property.
AS 12.62.160	Completeness, accuracy and security of criminal justice information.
AS 12.62.170	Release and use of criminal justice information; fees.
AS 12.62.180	Correction of criminal justice information.
AS 12.62.190	Sealing of criminal justice information.
AS 12.62.200	Purging of criminal justice information.
AS 12.62.210	Civil action and defense.
AS 12.62.900	Definitions.

³ That SEARCH publication is known across the country as *Technical Report No. 13 (Revised)*.

AS 12.62.100

Subsection (a) establishes the Criminal Justice Information Board, located for administrative and budgetary purposes within the Department of Public Safety. Although the board's role is advisory, provisions requiring twice yearly meetings and annual reports to the Governor and Legislature should encourage it to be active in its advisory role.

There are boards of this type in about half of the states. *Compendium of State Privacy and Security Legislation*, United States Department of Justice, 1989 Overview (hereafter "Dept. of Justice Overview") at page 21. Experience in other states has shown that an advisory board of this type can be effective and can exert a strong influence on the development of policies.

In order to keep the board to a manageable size, the board's membership is limited to commissioners from the five state departments most directly involved in criminal justice matters, the chief justice, a municipal police chief, as well as a member of the public appointed by the Governor to represent broader public interests.

AS 12.62.110

This section sets out the powers and duties of the Commissioner of Public Safety, based on similar provisions in numerous state laws, and requires the commissioner to develop a central state repository for criminal history records and other criminal justice information. At the present time, the Alaska Public Safety Information Network (APSIN) serves as the central repository, and it is anticipated that it will continue in that role. The commissioner must consult with the Criminal Justice Information Board, and cooperate with other state and federal law enforcement agencies.

This section also specifically requires the commissioner to promulgate regulations governing the central repository. Based upon Alaska's past experience with the long-inactive Governor's Commission on the Administration of Justice, it is more efficient and workable to vest rule-making authority in the official, i.e., the commissioner, who is responsible for the day-to-day operation of the system.

There is regulatory authority in this area in nearly every state in the country. Dept. of Justice Overview at page 20. This bill limits the commissioner's rule-making authority to the development and operation of the central repository and enforcement of the statutory requirements concerning the reporting of information to the central repository. The commissioner also is authorized to issue regulations necessary to insure that criminal justice agencies maintain records sufficient to facilitate the audit responsibilities imposed by the statute,

although regulations would not be strictly necessary to prescribe the forms on which information is to be reported. In other respects, criminal justice agencies in the state are free to establish their own agency rules and procedures to comply with the substantive requirements of the chapter. The section specifically authorizes the commissioner to cooperate with NLETS, NCIC, the Interstate Identification Index (III) system and other interstate, national or international identification and record systems.

This section also provides that any regulations adopted by the commissioner will not affect agencies or officials of the judicial branch. This avoids legal questions concerning the separation of powers. It is anticipated that rules affecting operation of the court will be adopted by the supreme court, and it is the intent of this legislation that the court cooperate with executive branch agencies in providing workable criminal justice information systems. As a member of the Criminal Justice Information Board, the chief justice will be familiar with the issues involved in criminal justice data collection, and participation on the board will provide a basis for cooperation with other agencies concerning such issues as court disposition reporting, taking of fingerprints and use of tracking numbers. According to SEARCH, such an approach has worked well in other states.

AS 12.62.120 -- 150: Applicability

Based on preliminary comments from a number of criminal justice agencies, an applicability section at the end of the bill will apply the fingerprinting and reporting requirements of AS 12.62.120 -- 150 only to persons arrested for felony offenses. It was felt that meeting the fingerprinting and reporting requirements for the many thousands of misdemeanor cases proceedings through the courts every year in Alaska would be burdensome to state and municipal agencies. In order to hold down the initial costs of this legislation, and to enable justice agencies to streamline procedures, these sections will not apply to misdemeanor offenses until July 1, 1996.

AS 12.62.120

This section imposes a mandatory fingerprinting requirement for all offenses that will be included in the central criminal history record system. Since fingerprints provide positive identification, thereby ensuring the integrity of the records, it is important that fingerprints be uniformly obtained and forwarded to the central repository. National standards adopted by the Justice Department call for increased collection of fingerprint data.

It has been suggested that routine taking of fingerprints in all criminal cases may violate an offender's right of privacy. Given the minimal intrusiveness of fingerprinting, however, and its common acceptance as a standard police practice, it is doubtful a person under

arrest or charged with a crime would have a subjective expectation of privacy with respect to fingerprints, nor is it likely society would be willing to recognize any such expectation as reasonable. It is therefore unlikely a court would conclude that the right of privacy is implicated.

Subsection (a), requiring arresting officers to take fingerprints, and requiring a court to order a person charged with a crime to submit to fingerprinting if not arrested, is modeled after a provision in New York's law (N.Y. Crim. Proc. Law § 160.10). See, also 18 Pa. Cons. Stat. Ann. § 9112 (Purdon). Subsection (b) ensures that fingerprints are obtained at the time of conviction in cases in which, for whatever reason, fingerprints were not obtained earlier.

Subsection (c) is modeled after provisions in many state laws requiring correctional institutions to obtain fingerprints of persons committed to such institutions. E.g., Ga. Code Ann. § 35-3-36(f) (1981); Del. Code Ann. tit. 11, § 8509-8510. In addition, most other states follow this practice, though it is not expressly required by law.

Subsection (d) sets a time limit for the forwarding of fingerprints to the central repository. Fingerprints are required to be forwarded within five days. The most common time frame in use (by law or practice) in other states is seventy-two hours, although fingerprint reporting requirements vary from twenty-four hours to a week or more. Five days is a reasonable standard that criminal justice agencies in Alaska can meet in practice. This subsection also deals with poor quality fingerprints by requiring the originating agency to attempt to obtain better prints.

Subsection (e) is modeled after a provision in New York's law specifically requiring the central repository to use reasonable efforts to confirm the identity of the person being fingerprinted. N.Y. Crim. Proc. Law, § 160.30. If the central repository discovers that the person has an alias, the original agency must be notified. It is anticipated that in the vast majority of cases the sole effort to confirm identity would be through the department's automated fingerprint system. This will be sufficient to meet the requirement of "reasonable" efforts.

Subsection (f) permits the commissioner to adopt regulations to exempt certain classes of offenders from the fingerprinting requirement. For example, the commissioner may determine that it is not necessary for purposes of prison security or data accuracy to take repeated sets of fingerprints of prisoners transferred between institutions or of persons rearrested for violations of bail conditions, as would be required by subsection (c).

AS 12.62.130

This section establishes a framework for requiring that every significant event in the criminal justice process be reported to the Department of Public Safety. The current record system is ordinarily based only on the first event (usually an arrest) and the last event (usually a court judgment). Because of delays in the court process, records may show no disposition of the charges for long periods of time unless the department is notified of intervening events, such as dismissals of or amendments to criminal charges.

Reporting requirements set out in this section are modeled after the approach followed in Maryland. Md. Ann. Code art. 27, § 747 (1957). This section identifies all decisions or actions that occur in the course of the processing of criminal offenders and anticipates that the agency responsible for each "reportable event" will forward relevant information to the central repository. This section, however, leaves it to the commissioner to specify by regulation which agency is responsible for reporting each event.

At the present time this level of information is not uniformly reported to the department, and the APSIN system currently in operation is not capable of collecting all of this information. It is anticipated that the ability to collect and report this information will be developed over a period of time, and this section requires the commissioner to consult with the Criminal Justice Information Board and with affected agencies such as municipal police departments, prosecutors, courts, probation and parole officers, and others. Although this section will not be implemented immediately, the basic framework should be set forth in statute.

The form, content, and timing of the reports may be specified by the department without regulation. It is anticipated that different events will be required to be reported under different deadlines, depending on the importance of the information. For example, it may be reasonable to require that information about arrests and arrest warrants be reported within 48 hours, whereas information about other events could be reported within 30-60 days. A 30-day requirement is consistent with California's statutes for court disposition reporting (Cal. Penal Code § 13151) and with laws and policies of several other states. The national average, however, is about 60 days. See, e.g., Maryland Ann. Code art. 27, § 747 (1957) (60 days), 18 Pennsylvania Cons. Stat. Ann. § 9113(a) (Purdon) (90 days); Delaware Code Ann. tit. 11, § 8509 (90 days). Given the wide variation in personnel, equipment and telecommunication capabilities in Alaska, the specific requirements are best left to the commissioner, after consultation with local criminal justice agencies.

Subsection (b) is a relatively complete list of reportable events, but a catch-all category is included authorizing the commissioner to specify other events or actions to be reported.

AS 12.62.140 and AS 12.62.150

These two provisions are not strictly necessary to deal with the most immediate issues concerning criminal justice information systems, but they are useful and appropriate recommendations made by the SEARCH group in order to establish a statutory framework for a workable central criminal justice reporting system.

Proposed AS 12.62.140 imposes a legal requirement on criminal justice agencies to submit information to the Department of Public Safety for uniform crime reports and to cooperate with the central repository in efforts to ensure compliance with national and state uniform crime reporting requirements. It is modeled after provisions in Georgia. Ga. Code Ann. of 1981, § 35-3-36 (i), (k) (1981).

Proposed AS 12.62.150 is modeled after provisions in the laws of other states, requiring the reporting of information relating to wanted persons, stolen vehicles and identifiable stolen property.

AS 12.62.160

This section sets out data quality requirements applicable to the central records repository and to other criminal justice information systems in the state.

All criminal justice systems are subject to the general requirement in subsection (a) that procedures be adopted to ensure that criminal history record information is complete, accurate and secure. Such steps may include the use of manual procedures such as standard data collection forms and reporting procedures to detect inaccurate or missing information, or automated procedures to edit and verify required data fields and to perform a wide variety of checks on the accuracy and consistency of information entered into the systems.

The security provisions set out in (a) are taken from the federal regulations but in somewhat abbreviated form. They set out basic requirements for physical, personnel and computer security. Subsection (a) also requires that when a criminal justice agency utilizes a shared automated information system operated by a non-criminal justice agency, such as a municipal or regional data processing center, the criminal justice agency must insure that the system utilizes security procedures that are adequate to comply with the statutory security requirements.

Subsection (b) requires that procedures be developed for linking of charges and dispositions. Such a procedure might include use of a unique tracking number. The few extensive audits of state repositories that have been undertaken (including recent audits in Texas and Maryland) have demonstrated that tracking systems utilizing unique case numbers can solve

most problems encountered in linking reported disposition data to the right rap sheet and to the correct charges. In this way all charges can be accounted for and the criminal history record can accurately and clearly reflect the outcome of the case.

The requirement that the department adopt "reasonable" procedures recognizes that there is a large amount of information already maintained in APSIN, which was not collected using a uniform arrest tracking number or which was received from another jurisdiction, and missing information within this data cannot reasonably be linked to dispositions of the charges. This limitation on existing data is well known within the criminal justice system and this bill does not require modification of that data.

Subsection (c) requires the department to perform audits every two years, and to obtain an independent audit every four years, of the central repository and of a sample of other agencies to verify compliance with legal requirements. It should be noted that the sample need not be a random sample or a representative sample. This will permit the central repository to audit problem agencies or large agencies in a particular year, if appropriate or necessary. The independent audit could be performed by a private contractor or by an agency such as the Division of Legislative Audit. Subsection (a) also requires criminal justice agencies to maintain source documents and other records necessary to facilitate the performance of the audits.

AS 12.62.170

Even in criminal justice information systems that are federally-funded, a detailed state law will govern dissemination -- rather than federal regulations. "When a State enacts comprehensive legislation in this area, such legislation will govern dissemination by local jurisdictions within the State." Commentary to 28 CFR 20.21(b) (7-1-91 Edition).

Unfortunately, current Alaska law does not directly address the confidentiality of criminal history records on state computers.⁴ This section makes criminal justice information confidential and prohibits its release, except as provided in this chapter. The rules for dissemination in this section are taken in general form from recommendations by the SEARCH group.

Criminal justice information is made confidential in subsection (a), and may not be disseminated except pursuant to subsection (b) or AS 12.62.190(d). Information may be

⁴ The United States Supreme Court, however, has held that public disclosure of such information would constitute an "unwarranted invasion of personal privacy" as that term is used in the federal Freedom of Information Act, and dissemination of such information at the federal level is limited. *United States v. Reporters Committee For Freedom of the Press*, 489 U.S. 749, 103 L.Ed.2d 774, 109 S.Ct. 1468 (1989).

released only by the agency that maintains it. The information cannot be provided unless it is up-to-date and accompanied by proper identification, and once provided, the information must be used only for the purpose for which it was released. Subsection (c). The department of public safety is permitted to establish fees for certain services in providing information under this section. Subsection (d).

Subsection (b) specifies several categories of criminal justice information that may be disseminated by criminal justice agencies. Even if the information may be disseminated under subsection (b), it is recognized that some other provision of law or court rule may prohibit its release. The types of information that may be provided by criminal justice agencies under subsection (b) are:

- An assessment or summary of criminal justice information can be provided to anyone if necessary to avoid imminent danger to life or extensive damage to property. Subsection (b)(1).

- Criminal justice information may be provided pursuant to court rule or court order. Subsection (b)(2).

- Agencies would be permitted to publicly release information about recent police activity, such as posters, announcements, notices, press releases, bulletins, police blotters, including data derived from a criminal justice information system. Subsection (b)(3). This is a common and traditional practice, recognized in current 6 AAC 60.070(g) and in most other states and the federal regulations.

- Criminal justice information would be provided to criminal justice agencies for criminal justice purposes. Subsection (b)(4). This includes making full criminal histories available to federal and out-of-state criminal justice agencies, such as the FBI and to central repositories in other states by means of the Interstate Identification Index (III) system. By exchanging information in this way, the state is permitted to participate in the III system.

- Criminal justice information would also be provided to non-criminal justice governmental agencies for official purposes (that is, those related to an agency's statutory duties), to other persons authorized by law to receive the information. Subsections (b)(5) and (b)(6).

Under (b)(5) the Public Defender Agency or the Office of Public Advocacy would be able to directly obtain information necessary for representation of indigent defendants, to the same extent as is available currently. Private defense attorneys would be able to obtain the same

information through the court or court rules under subsection (b)(2), or as a member of the public under (b)(10) or (b)(11).⁵

Government agencies would also be able to obtain information for purposes of licensing, security clearances, and other official purposes, as is available currently through written agreements with the Department of Public Safety. It is not anticipated, however, that employment of non-criminal justice personnel will be "necessary" for the enforcement of a law, and therefore full criminal justice information will not be made available for general government employment purposes unless there is specific statutory authorization in another law. Government employers would, however, be able to obtain more limited records to the same extent as other employers under subsections (b)(10), (b)(11) and (b)(12).

- The governor, lieutenant governor and state legislators would also be entitled to receive criminal justice information under (b)(7) and (b)(8) for security purposes and for purposes of appointment of exempt or partially-exempt state officials.

- Information for research purposes may be disseminated under (b)(9), subject to written conditions to safeguard security and privacy.

- Any person would be permitted to receive "current offender information". Subsection (b)(10). The definition of "current offender information" includes many pieces of information about a person currently charged with a crime or in the custody or under the supervision of the state, including the location of incarceration of inmates, and the conditions under which such inmates are released. Much of this information is presently provided only to victims of crimes under AS 33.16.120(f).

- Anyone would also be permitted to receive "past conviction information", if less than 10 years has elapsed from the date the offender was released from all state supervision. Subsection (b)(11). The 10-year limitation on past records is designed to assure that very old conviction records are not freely disseminated.

Although current law does not explicitly make criminal justice information confidential, the United States Supreme Court has held that such information is exempt from the federal "freedom of information" statutes that formed the basis for current state public records laws in AS 09.25.120(6). *United States Dept. of Justice v. Reporters Committee for Freedom of the Press, et al.*, 489 U.S. 749, 103 L.Ed.2d 774, 109 S.Ct. 1468 (1989) (criminal conviction

⁵ Current regulations in 6 AAC 60 (which no longer apply to APSIN; see footnote 2) adopt a procedure that would permit private defense attorneys to get criminal justice information directly from the Public Defender Agency. It was felt that this procedure is not workable because if it became a routine practice it would greatly add to the workload of the Public Defender Agency and because the normal safeguards applied to agency access would be missing.

records on computers are not subject to disclosure under federal law). In addition, current AS 12.62.035 could be construed as a legislative expression that conviction records be provided to the public only if the person requesting the information is an employer of persons who work with children, and only for specified crimes. For these, and other reasons, the Department of Public Safety does not currently disseminate criminal justice information to the public.

Taken together, however, subsections (b)(10) and (b)(11) provide the public with a great deal of information that is either not available under current law, or is only available by expending great effort to search manual or microfilm files in the possession of the court system. These provisions reflect a strong public policy interest in permitting criminal justice agencies to respond to press or public inquiries about ongoing criminal cases and about offenders currently or recently under state supervision.

Florida, Oklahoma and Wisconsin currently have "open" record policies and several other states permit criminal history records to be made available for a wide range of non-criminal justice purposes. Based on a study in Florida by SEARCH, the main recipients of this information are businesses and agencies that use the information for employment screening purposes. Only a small percentage of the requests for such information are for "curiosity". "Availability of Criminal History Records: The Effect of an Open Records Policy", SEARCH Group, Inc. 1990.

- The current provisions in AS 12.62.035 are retained in subsection (b)(12). This current statute permits dissemination of certain conviction records, regardless of the passage of time, in order to evaluate someone for a position involving supervision of children or dependent adults.

- Finally, a person can have access to his or her own criminal justice information. Subsection (b)(13).

Subsection (c)(3) provides that criminal justice information may not be released unless the subject's identity is confirmed by fingerprint comparison or some other approved means of identification. There are other instances, however, when the requirement of fingerprint identification or other positive identification is not feasible or necessary, and this subsection permits the commissioner to exempt certain requesters (such as criminal justice agencies, for example) from the strict identification requirements.⁶

⁶ For the public and the press it is not feasible to obtain fingerprint identification for current offenders. Because most such inquiries will likely be made of local criminal justice agencies by persons within the community where the crime was committed, fingerprints are probably not required to obtain information about the correct person. Moreover, newly developed name search techniques used in Florida are regarded as extremely accurate. "Availability of Criminal History Records: The Effect of

Subsection (c)(4) requires that criminal justice agencies maintain logs of persons to whom criminal history record information is provided. This facilitates audits of the system, and permits notification in case of errors or corrections. Here, too, there are instances when the requirement of maintaining logs is not warranted, and this subsection permits the commissioner to exempt agencies from maintaining logs for certain classes of recipients, such as criminal justice agencies.

AS 12.62.180

The provisions in the bill authorizing persons to request corrections to their own records are similar to existing law in AS 12.62.030 (c), (e) and (f). Under this bill, however, if a court undertakes a review of an agency's refusal to modify records, the burden is placed on the person to prove that the information is inaccurate or incomplete, rather than on the criminal justice agency. It is appropriate to place the burden on the person challenging the information, because that person is usually in the best position to have access to relevant evidence to support the challenge. Although less than half of the states provide for judicial review (Dept. of Justice Overview at 25), it was felt that this provision in Alaska law should be continued.

AS 12.62.190

This section permits criminal justice agencies to "seal" past or current conviction records if the records resulted, beyond a reasonable doubt, from mistaken identity or false accusation. It is anticipated that, upon request, the central repository or other agency will voluntarily seal records in appropriate circumstances.

Like the provisions for revising information in proposed AS 12.62.180, an administrative appeal of the agency's decision may be made to the court, but the appellant bears the burden on appeal of showing that the agency's decision was clearly mistaken. This heavy burden reflects the intent that proceedings to seal records should be rare. As noted by the court of appeals, "no court has seriously questioned the legitimacy or importance of the government's interest in obtaining and retaining records dealing with individuals who pass through our criminal justice system . . ." *Journey v. State*, 850 P.2d 663, 666 (Alaska App. 1993).

an Open Records Policy", SEARCH Group, Inc. 1990. at page 7. It is also not required that the person requesting current offender information present positive identification.

If the state or a municipal prosecutor pursues a criminal case in good faith, it is unlikely a defendant could muster the necessary level of proof beyond a reasonable doubt, much less that the department's decision to retain the records was clearly mistaken. Thus sealing will not become a common practice following dismissal or acquittal of criminal charges. Moreover, a proceeding to seal information should not be used as another avenue of collateral attack on court judgments, or on other actions taken by prison, probation or parole authorities. Unless the person is successful in an appeal or post-conviction relief action, a court judgment or prison administrative decision will be conclusive evidence that the record should not be sealed.

Under current Alaska law, it is not clear that persons have a right to have their records sealed. *Journey v. State*. This section thus establishes a procedure for persons to use to seal their records, and, to the extent that subsection (d) permits a person to deny the existence of a sealed record, this statute provides a broader remedy than would be available under a the "inherent" power of the courts.

Subsection (d) authorizes a person whose record has been sealed to deny the existence of the record and any related arrest or other action. This provision reflects the view in half the states (Dept. of Justice Overview at 31) that if a person can be required to reveal the existence of a sealed record, in answer to a question on an employment application, for example, the sealing remedy is ineffective. Records that have been sealed may only be disseminated for specific limited purposes under this section.

AS 12.62.200

This section permits criminal justice agencies to "purge" (i.e., destroy) criminal justice information for a variety of administrative reasons, if the information is devoid of any usefulness to a criminal justice agency.

AS 12.62.210

Given the many thousands of arrests made each year, and the remoteness of many locations in Alaska, it is likely that in many instances fingerprints will not be taken or will not be submitted to the department, that backlogs in reporting of events or in data entry may cause delays in processing and compiling data in an information system, or that other errors may occur. Therefore, subsection (a) provides immunity from civil liability if the requirements of the chapter or regulations (including requirements for accurate and complete data), are not strictly followed, but such conduct can be used as a basis for employee discipline or administrative action to restrict agency access to the system. Public officials could, however, be subject to criminal sanctions in extreme cases in which confidential information is misused.
