HB 108. SPONSOR STATEMENT

HB 108, if enacted, would establish a comprehensive recreational boating safety program in Alaska.

HB 108 proposes to transfer the responsibilities and regulatory authority over boat safety equipment requirements from the Coast Guard to the State of Alaska. Additionally, the State would assume vessel registration that is currently being managed by the Coast Guard. The Department of Motor Vehicles will conduct the registration process, utilizing their current systems (mail, on-line, and in person registration at any DMV office) In addition, new boat dealers will also be authorized to register boats at the point of sale for the convenience of the boating public.

In 1998, 38 Alaskans lost their lives in recreational boating accidents; and in 1999, 29 recreational boaters died. Alaska continues to experience boating fatalities at nearly ten times the national rate. Currently Alaska's boating safety programs are a combination of Coast Guard, State of Alaska, and private and public efforts, which are not centrally coordinated. Passage of HB 108 will assure that the State manages and controls it's own boating safety laws and programs.

HB 108 would mandate that boats placed on state waters be equipped with some or all of the following: fire extinguishers, personal flotation devices, a sound producing device, back-fire flame protectors, ventilation, and visual distress signals. The actual carriage requirements will be identical to the Coast Guard requirements for the size and type of vessel being licensed. Currently, the Coast Guard requirements call for this safety equipment to be carried on vessels when on navigable waters within the state. This legislation would expand the current Coast Guard requirement to carry this safety equipment to all waters within the state (the addition of some small streams and small lakes.)

Alaska is the only state in the nation that does not have an approved Boating Safety Program. Because Alaska does not comply with the Federal Safe Boating Act of 1971, our share of federal marine fuel taxes that Alaskans pay is not redistributed back to Alaska, as it is in all other states. Passage of HB 108 will assure we are included in the redistribution of these taxes, bringing an excess of \$500,000 annually back to the State, along with approximately \$500,000 annually in program receipts being added into the state coffers. These dollars will allow the State to make a major push to educate the boating public about boating safety, thereby lowering the rate of accidents and death on Alaska's waterways.

Under this proposal, the charge for new registrations will be identical to the charges established by the Coast Guard and will replace those now assessed by the Coast Guard.

**South Kenai Peninsula State Parks
Citizen's Advisory Board
PO Box 575
Anchor Point, AK 99556**

April 14, 2000

Senator John Torgerson
Room 516, State Capital
Juneau, AK 99801-1182

Dear Senator Torgerson:

The South Kenai Peninsula State Parks Citizen's Advisory Board met recently and discussed the progress of the proposed Boating Safety legislation that you are considering this session. A couple of months ago we wrote to express our support for this legislation as we feel that it is very important for Alaska to take a more proactive approach to reducing recreational boating injuries and fatalities.

Since this legislation designates that 75% of the funds generated by boat licensing be dedicated to educational efforts, we feel it will be very effective in educating our youngsters and other Alaskan residents about prudent and safe boating practices. We urge that you use all available means to ensure that this bill successfully makes it to the Senate floor for a vote this session and that this happens in time so that any differences with the House bill can be remedied. We must not let unnecessary boating deaths and family tragedies continue to mar our wonderful Alaskan summers, when education can clearly make a difference in their prevention!

Sincerely,

Ann Bayes
Chair, South Kenai Peninsula State Parks Citizen's Advisory Board

**South Kenai Peninsula State Parks
Citizen's Advisory Board
PO Box 575
Anchor Point, AK 99556**

April 14, 2000

Senator John Torgerson
Room 516, State Capital
Juneau, AK 99801-1182

Dear Senator Torgerson:

The South Kenai Peninsula State Parks Citizen's Advisory Board met recently and learned of the proposed cuts to the Division of Parks and Outdoor Recreation's operating budget for FY 01. The Board unanimously supports the Alaska Senate version of the operating budget for DPOR, providing full funding, and recommends that you reject any suggestion to cut the budget as proposed within the Alaska House budget version.

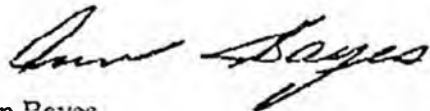

We have learned that the popular Anchor River State Recreation Area is included on the list of parks that may be closed should DPOR's budget be reduced for FY 01. It is important for you to understand what an impact this closure would have on the local and regional economy of the Anchor Point area. This area is heavily dependent upon tourism as a foundation for the local economy, and the Alaska State Park units in our area are some of the main attractions for visitors coming to our area to enjoy sportfishing, camping and picnicking. If one of the foundations for our tourism economy is threatened with closure, the foundation of a large portion of our economy is also threatened. In addition to threatening our local tourism economy, these closures also would impact the quality of life for local residents who use the state parks for recreation and time with their families. A "closed park" is not a reality, and these parks will likely become heavily vandalized, trashed and dangerous sites. Families will no longer be able to depend upon a safe and enjoyable recreational experience.

The health of the river and its watershed has been an issue under local grassroots discussion for the past few years. State Parks has been a wonderful partner in the education component of these efforts and has done a great job of securing grant funding to do some much needed streambank restoration work in heavily used stretches of the river. Threats of closure of the Anchor River State Recreation Area seriously undermine the efforts the local staff, park volunteers, and citizens' advisory board members to create an atmosphere of cooperation and mutual stewardship for these State lands, which is another thing we feel we cannot afford to lose.

2

We have watched the operating budget for DPOR decline steadily over the years, despite the growing visitation and demand for more access and services. We have also seen how much DPOR has been able to do despite their slim operating budgets. This latest proposal will be devastating to our community. We urge that you support the Alaska Senate full funding proposal for DPOR, and resist the efforts by those wishing to balance the state's budget woes at the expense of our community, our businesses and our parks.

Sincerely,

Ann Bayes

Chair, South Kenai Peninsula State Parks Citizen's Advisory Board

MEMORANDUM

Department of Natural Resources

State of Alaska

Division of Parks and Outdoor Recreation

TO: Darwin Peterson
Staff
Senator John Torgerson

DATE: April 14, 2000

TELEPHONE NO: 269-8700

FAX NO: 269-8907

FROM: Jim Stratton, Director

SUBJECT: HB 108 DOA Fiscal Note

Mary Jackson suggested State Parks send this information to explain the Department of Administration fiscal note for HB 108, the Alaska Boating Safety Bill.

Because this is a new registration program, the Division of Motor Vehicles will have some one-time costs for establishing the program. Those one time costs explain the higher operating expenditures in FY2001 than in ensuing years. All costs are covered with program receipts (boat registrations). Once the program is up and in place, the boat registration program will be a net positive for the state. More registration moneys will be received in each year than the registration process costs.

Funds for operating the education and enforcement aspects of the bill are covered in the DNR fiscal note, which is zero. Those operation funds are already included in the FY2001 DNR CIP budget and are all from federal receipts.

SPONSOR STATEMENT

House Bill 112 "Establish Alaska Building Fund"

2/26/99

Alaska has an enormous problem with maintenance of its public facilities. Funds are not allocated for on-going maintenance, so we are forced to continually repair and replace our existing facilities at great expense.

House Bill 112 would establish the Alaska public building fund as a special account in the general fund. It would also create an agreement whereby the occupants of state-owned buildings would pay "rent" into this fund. The money collected could be appropriated by the Legislature to pay use, management, operation, maintenance, and depreciation costs.

ANALYSIS: (Attach a separate page if necessary)

This bill would establish a fund for the deposit of state facility rent payments, and for appropriations from the fund for maintaining these facilities.

Establishing the fund would not in itself have a direct fiscal impact on any state agency. However, the purpose of the fund and the related facilities rent structure is to improve the management and maintenance of state facilities. Improved management and maintenance will reduce overall facilities costs over the long term. Although these cost reductions may be substantial, there are many variables involved and the cost reductions cannot be accurately projected at this time.

ANALYSIS: HB112 creates the Public Building Fund. With this fiscal note, a structural change is requested to add the State Owned Facilities BRU, composed of the Facilities and Facilities Administration components, to manage the Public Building Fund. (As amended on 3/27/00, this fiscal note will fund one Accountant III position but eliminates funding for a facility planner position [a reduction of \$74.1 from the Public Building Fund originally shown.] PLEASE NOTE: Backup pages not revised.)

This fiscal note not only adds \$1,247.9 in new funds (primarily non-GF), but also uses the fiscal note to perform \$8,982.1 (as amended on 3/27/00) of technical budget restructuring, for a total fiscal note of \$10,230.0. An explanation of all of the transactions involved in the restructuring is identified on the attached pages. This fiscal note is 8 pages.

Agency	Alaska State Senate	

STATE OF ALASKA – 2000 LEGISLATIVE SESSION

Continuation of Analysis

☛ Explanation of the technical budgeting that makes the fiscal note appear to appropriate \$10,304.1, when in fact there are only \$1,247.9 new dollars appropriated

Gross Total Appropriations of all fund sources	10,304.1
– Less the 1147 Public Building Funds (technical double budgeting that allows DOA Facilities Component to perform service with dollars that are appropriated as GF and NGF in other state agencies for the purposes of paying rent)	(6,769.1)
– Less the 1007 Interagency Receipts (technical double budgeting allows DOT to perform service with dollars that are appropriated as GF and NGF elsewhere in the budget. In this case the source of the dollars that DOT receives is the PBF in the Facilities Component in DOA)	<u>(2,287.1)</u>
Net New Appropriations (Represents real new dollars appropriated by the fiscal note)	1,247.9

☛ HB112 creates the Public Building Fund. At the request of the Finance Committee, this fiscal note shows the transfers and the addition of new funds to create the Public Facilities Program. The appropriations required are as follows:

A.	AGENCY TRANSFER OUT (ATROUT) general funds from budget components in the Departments of Transportation and Administration.	(4,290.5)
B.	AGENCY TRANSFER IN (ATRIN) general funds to different budget components in the agency budgets to pay their rent to the Public Facilities Program.	4,290.5
C.	ADD new fund expenditure and revenue authority (INC) to the agency budget components to pay rent to the Public Facilities Program. Revenue Sources exhibited below:	
	1002 Federal Receipts	713.2
	1005 GF/Program Receipts	66.4
	1007 Interagency Receipts	62.7
	1017 Ben Sys	51.6
	1029 P/E Retirement	123.1
	1133 Indirect Cost Recovery	33.0
	1034 Teachers Retirement	55.3
	1042 Judicial Retirement	0.2
	1045 National Guard	1.6
	1050 PFD Fund	115.6
	1094 MHT Admin	21.5
	1146 Fee Support	3.7
	Total	1,247.9
D.	ADD new Public Building Fund expenditure/revenue authority to the Facilities Program Budget Request Unit for maintenance, operation, renewal and replacement of building components for eight state buildings.	
	1147 Public Building Fund	6,769.1
E.	Replace DOT GF Expenditure Authority with IA Expenditure Authority to receive a maintenance contract from the Facilities Program	
	1007 Interagency Receipts	<u>2,287.1</u>
F.	Gross Total of the Appropriations made by the fiscal note (Transfers and Additions)	10,304.1

☛ The result of all of these appropriations is that the Public Building Fund will receive the following deposits during FY01:

A.	State Agency Rents	5,843.0
B.	Private Tenant Rents (Atwood Building and Court Plaza Buildings)	<u>926.1</u>
C.	Total Receipts in the Public Building Fund & expenditures in the Facilities BRU	6,769.1

SENATE CS FOR HOUSE BILL NO. 112(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-FIRST LEGISLATURE - SECOND SESSION

BY THE SENATE FINANCE COMMITTEE

**Offered:
Referred:**

Sponsor(s): REPRESENTATIVE JAMES

SENATOR Wilken

A BILL

FOR AN ACT ENTITLED

1 "An Act establishing the Alaska public building fund; and providing for an
2 effective date."

3 **BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

4 * **Section 1.** AS 37.05 is amended by adding a new section to article 6 to read:

5 **Sec. 37.05.570. Alaska public building fund.** (a) There is created as a
6 special account in the general fund the Alaska public building fund into which shall
7 be deposited

8 (1) payments made to the Department of Administration by a public or
9 private occupant of a covered building under an agreement with the Department of
10 Administration for costs of the occupant's use and occupancy of building space; and

11 (2) appropriations to the Alaska public building fund.

12 (b) Beginning with the appropriations for the fiscal year beginning July 1,
13 2000, on an annual basis and under AS 37.07 (Executive Budget Act), the legislature
14 may appropriate amounts from the Alaska public building fund to the Department of

1 Administration to pay use, management, operation, maintenance, and depreciation costs
2 related to space of covered buildings managed under an agreement with the
3 Department of Administration.

4 (c) Appropriations to the Alaska public building fund are not one-year
5 appropriations and do not lapse under AS 37.25.010.

6 (d) The unexpected and unobligated balance of an appropriation from the
7 Alaska public building fund lapses into the Alaska public building fund at the end of
8 the fiscal year for which it was appropriated.

9 (e) Nothing in this section exempts money deposited into the Alaska public
10 building fund from the requirements of AS 37.07 (Executive Budget Act) or dedicates
11 that money for a specific purpose.

12 (f) In this section, "covered building" means the

- 13 (1) Alaska Office Building, located in Juneau, Alaska;
- 14 (2) Robert B. Atwood Building, located in Anchorage, Alaska;
- 15 (3) Court Plaza Building, located in Juneau, Alaska;
- 16 (4) Douglas Island Building, located in Juneau, Alaska;
- 17 (5) Fairbanks Regional Office Building, located in Fairbanks, Alaska;
- 18 (6) Juneau Community Building, located in Juneau, Alaska;
- 19 (7) Juneau Public Safety Building, located in Juneau, Alaska;
- 20 (8) Juneau State Office Building, located in Juneau, Alaska.

21 * Sec. 2. This Act takes effect July 1, 2000.

ANALYSIS: HB112 creates the Public Building Fund. With this fiscal note, a structural change is requested to add the State Owned Facilities BRU, composed of the Facilities and Facilities Administration components, to manage the Public Building Fund. (As amended on 3/27/00, this fiscal note will fund one Accountant III position but eliminates funding for a facility planner position [a reduction of \$74.1 from the Public Building Fund originally shown.] PLEASE NOTE: Backup pages not revised.)

This fiscal note not only adds \$1, 247.9 in new funds (primarily non-GF), but also uses the fiscal note to perform \$8,982.1 (as amended on 3/27/00) of technical budget restructuring, for a total fiscal note of \$10,230.0. An explanation of all of the transactions involved in the restructuring is identified on the attached pages. This fiscal note is 8 pages.

Full Cost to the State for Atwood Building	\$ 6,862,709	\$ 1,908,833	\$ 4,953,877	*Tenant Note: AHFC is the tenant for the private sector. They collect the rents.

Notes:

Example "Dept Revenue"

Current FY00 Budget* = Sum of B+C+D+E-G

\$	388,683
----	---------

 Current Budget Includes M&O + Depreciation+DOA Adm + Risk Mgt minus the Non-General Fund

Total Billed in Rental Rate^ = F + I

\$	729,641
----	---------

 Total Annual Cost Include M&O + Depreciation+DOA Adm + Risk Mgt

The Posted costs includes \$100,082 for 187 parking spaces.

Interest and Principal Expenses are based on AHFC estimated in Nov'99. They may change when the bonds are actually sold in Dec'99

Notes:

- 1) Costs are based upon most current info available at the time: DOT & PF costs are based on average of FY97 & FY98 actual expenditures; Atwood Bldg. costs are FY98 actual expenditures.
- 2) M & O Costs for Atwood Bldg. building are in DOA's budget.
- 3) Risk management costs are in agency budgets and are FY2000 estimates.
- 4) Department total of Facility % of Subtotal Annual Costs is the Department's % of Total Annual Cost.
- 5) DOT & PF M & O Directs Costs have been reduced for SE Region reduction in janitorial costs.

			\$ 37,288														

Notes:

- 1) Costs are based upon most current info available at the time; DOT & PF costs are based on average of FY97 & FY98 actual expenditures; Bank of America costs are FY98 actual expenditures.
- 2) M & O Costs for Atwood Building are in DOA's budget.
- 3) Risk management costs are in agency budgets and are FY2000 estimates.
- 4) The DOT & PF Direct Costs for SE Region have been reduced due to budget reduction in janitorial expenses for FY01.

**Facility Rent Program
Depreciation Summary**

This spreadsheet shows the funding sources available to pay the depreciation component of the facility rental rates.

Fund Source	Funds Available for Depreciation (\$000)
New Federal Funds*	728.2
DOA - Retirement and Benefit Funds	178.9
DOA - Information Technology ISF	211.3
DOA - Central Mailroom (I/A)	18.6
DOA - Risk Management office rent (I/A)	17.6
DOR - Permanent Fund Dividend Division (PFD Fund)	115.6
DOR - Alaska State Pension Investment Board (Ret. Funds)	52.9
DOR Mental Health Trust Authority (MHT Funds)	21.5
DOR - Alcohol Beverage Control Board (GF/PR)	48.3
DOR - Tax Division (GF/PR)	18.1
DOR - Other I/A and indirect cost recovery	59.5
DOL&WD - I/A from AHRIC	11.9
DPS - Alaska Police Standards Council (Fee Supp.)	3.7
Depreciation for Atwood Building state tenants' relocated from Frontier Building (funds already budgeted as part of prior Frontier Bldg. Leases).	486.3
Total funds available for depreciation	1,972.4
Total depreciation cost, all buildings excluding private tenant portion (private tenant rents cover depreciation for their space).	1,831.7

*Note: Federal funds total is 15.0 higher than shown on HB 112 fiscal note because the Dept. of Labor already has federal receipts authority which can be used to collect this amount.

CALCULATION OF ALLOWABLE DEPRECIATION IN RENT

The amount of depreciation that can be charged to federal agencies is governed by federal OMB guidelines. There are several possible ways to compute this amount. The method we have chosen is in conformance with the federal rules. It is:

- 1) Calculate the current replacement cost of the facility;
- 2) Adjust the replacement cost back to the date of acquisition (using established construction industry cost indexes);
- 3) Multiply #1 times #2. This is the depreciable basis.
- 4) Determine the useful life of the building in years.
- 5) Divide #3 by #4. This is the maximum annual depreciation that can be included in rent.

OR ÷ by ORIGINAL COST

$$\frac{\text{Replacement Value} \times \text{Regression Factor}}{\text{Building Life}} = \text{Annual Depreciation}$$

Example:

Juneau State Office Building

Estimated 1999 replacement value	\$ 40,635,526
Regression factor 1999 to 1973 (year built)	0.3042
Depreciable Value	12,361,157
Average Life	24.45 years
Maximum Annual Depreciation.....	505,652 -

Sampling of Lease Rates In Juneau
 (including annual charge for SOB square footage at comparative rates)

All leases above include utilities, janitorial and parking, except Assembly Building only includes minimal parking.
 Treasury and R&B total SF = 20,533. Number above is adjusted down for 30% of Treasury's space. Treasury allocates 70% of overhead costs to ASPIB.

STATE FACILITY RENT PROGRAM

Summary

The Governor's FY 2001 budget proposal includes a facilities rent program for eight state office buildings: six in Juneau, and one each in Anchorage and Fairbanks. The purpose of the rent program is to improve facility maintenance, avoid additional deferred maintenance, leverage federal and other non-general funds, and create an incentive for the efficient use of state facility space.

This proposal was discussed with the Legislature last session during hearings on HB 112, which would establish the Alaska public building fund as an internal service fund for facility rents and expenses. HB 112 was passed by the House and is now in the Senate Finance Committee.

As part of the rent program, the money now spent by the Department of Transportation and Public Facilities (DOT/PF) and the Department of Administration (DOA) to operate and maintain the eight buildings in the rental pool will be transferred to the agencies that occupy the buildings. The tenant agencies will pay rent to a central facilities management office in DOA's Division of General Services. This system will enable the state to collect about \$1.5 million in additional federal and other non-GF money for maintaining these buildings.

A total of \$2.3 million will be transferred from DOT/PF's budget to the tenant agencies in the seven buildings managed by DOT/PF. A total of \$2.0 million will be transferred from DOA's budget to the tenant agencies in the Atwood building in Anchorage. A list of the buildings in the rental pool and the space occupied by each agency is attached.

It is important to note that these transfers are not increments in the tenant agencies' budgets; they are just transfers of existing funding from DOT/PF and DOA. The budget transactions for these transfers are labeled the same in every department: "State Facilities Rent." The transaction codes are "ATRIN" (Agency Transfer In) for the tenant agencies and "ATROUT" (Agency Transfer Out) for DOT/PF and DOA. (Sample attached.) The table below shows the transfer amounts for each agency and the department breakdown of the additional rental funds.

Renewal & Replacement (Depreciation)

The scheduled replacement of worn-out major building components and the replacement or retrofitting of obsolete or inefficient building systems in order to maintain or extend the life of a building or facility.

Administrative Organization

Resources to pay bills, account for and budget maintenance costs, manage and report on the work.

STEPS TO IMPLEMENTATION

Designated facilities in the rental pool

For the FY 2001 budget, the following criteria were used to select the eight facilities for rent implementation:

- multi-agency office facilities;
- maximize potential for payment from non-General Fund sources;
- limit number of sites to minimize accounting and data collection necessary to start the rental system;
- larger facilities, over 15,000 to 20,000 square feet.

Identified occupancy by agency

Rent is based on "usable" square feet occupied by the tenant agency. Common or public areas including corridors, stairways, toilet rooms, shared conference facilities, etc. are allocated pro rata to all tenants.

Identified Costs

Most direct facility costs for the pool are currently budgeted in DOT/PF. Costs for the Robert B. Atwood Building in Anchorage (the former Bank of America building) are budgeted in the Dept. of Administration.

DOT/PF direct costs include applicable personal services, contractual and other line costs for each particular facility. DOT/PF indirect costs of administrative support (accounts payable, human resource, etc.) are currently shared with both facility and non-facility functions. DOA direct costs are the personal services and related costs for a facility manager and an accountant specifically to manage these state-owned facilities and the rental system.

Calculated Depreciation

Depreciation, as an element of rent, provides a source of funding for major renewal and replacement projects that are required to keep buildings functioning properly.

Transportation & Public Facilities	\$ -	\$ 11.4	\$ 0.0
Total State Agencies	\$ 2,003.4	\$ 2,287.1	\$ 1,486.1

General Rent Principles

Rent is used to improve the use of space and allocation of resources in two ways: 1) by incorporating the cost of facilities into program funding decisions and 2) by allowing for depreciation so there will be funding available for the responsible renewal and replacement of worn building elements such as roofs and boilers. Rent also encourages users to hold the facilities management organization accountable for the quality and value of the services provided.

Rent will comply with generally accepted accounting principles (GAAP) as recognized by the Governmental Accounting Standards Board (GASB), and Federal cost principles as set forth in U.S. Office of Management and Budget Circular A-87.

Rates will:

- include the cost of providing space, including applicable direct and indirect costs and depreciation;
- provide for operation on a break-even basis once those costs are covered; and
- bill all tenants at the same rate for similar services received.

The Cost Elements of Rent

Maintenance & Operations

The costs of utilities, janitorial, repairs, security, parking and other costs associated with keeping a facility ready for the use of its occupants.

Renewal & Replacement (Depreciation)

The scheduled replacement of worn-out major building components and the replacement or retrofitting of obsolete or inefficient building systems in order to maintain or extend the life of a building or facility.

Administrative Organization

Resources to pay bills, account for and budget maintenance costs, manage and report on the work.

STEPS TO IMPLEMENTATION

Designated facilities in the rental pool

For the FY 2001 budget, the following criteria were used to select the eight facilities for rent implementation:

- multi-agency office facilities;
- maximize potential for payment from non-General Fund sources;
- limit number of sites to minimize accounting and data collection necessary to start the rental system;
- larger facilities, over 15,000 to 20,000 square feet.

Identified occupancy by agency

Rent is based on "usable" square feet occupied by the tenant agency. Common or public areas including corridors, stairways, toilet rooms, shared conference facilities, etc. are allocated pro rata to all tenants.

Identified Costs

Most direct facility costs for the pool are currently budgeted in DOT/PF. Costs for the Robert B. Atwood Building in Anchorage (the former Bank of America building) are budgeted in the Dept. of Administration.

DOT/PF direct costs include applicable personal services, contractual and other line costs for each particular facility. DOT/PF indirect costs of administrative support (accounts payable, human resource, etc.) are currently shared with both facility and non-facility functions. DOA direct costs are the personal services and related costs for a facility manager and an accountant specifically to manage these state-owned facilities and the rental system.

Calculated Depreciation

Depreciation, as an element of rent, provides a source of funding for major renewal and replacement projects that are required to keep buildings functioning properly.

Reallocated General Fund Dollars

Current general fund dollars expended on these facilities from DOT/PF, DOA and other agency budgets will continue to be expended on these facilities. As noted earlier, funds will be transferred from the DOT/PF and DOA budgets to the tenant agencies for payment of rent.

Additional Non-General Fund Dollars

The non-general fund dollars which will be paid by agencies with other fund sources will allow the state to begin building a fund for depreciation without increasing the overall level of general fund support. In the governor's FY2001 budget, this amounts to nearly \$1.5 million dollars. For instance, space occupied by Retirement and Benefits (R&B) staff will be paid for by the R&B system.

Although these non-general fund sources can be used to improve maintenance, renewal and replacement, they will not be adequate to address the significant backlog of deferred maintenance projects. Those will still require capital funding at some point.

Change Record Detail With Description
Office of the Governor

Scenario: FY2001 Governor
Component: Governor's Office State Facilities Rent (264)
BRU: Office of the Governor State Facilities Rent

Scenario/ Change Record Title	Trans Type	Totals	Personal					Land/ Buildings	Grants Claims	Misc.	Non Specific	Positions		
			Services	Travel	Contractual	Supplies	Equipment					PFT	PFT	NP
FY2001 Governor State Facilities Rent														
1004 Gen Fund	Atrin 429.5	429.5	0.0	0.0	429.5	0.0	0.0	0.0	0.0	0.0	0	0	0	
Totals		429.5	0.0	0.0	429.5	0.0	0.0	0.0	0.0	0.0	0	0	0	

This transfer is part of a new facilities rent structure designed to improve the condition of state buildings and help prevent additional deferred maintenance problems. General funds now spent by DOA and DOT/PF on building maintenance and operations for eight buildings in the facilities rent pool are being transferred from DOA and DOT/PF to the agencies occupying these buildings. The agencies will pay rent for their space, allowing the state to recover an estimated \$1.5 million (statewide) in federal and other non-general funds to invest in maintenance, renewal and replacement for the building pool.

PUBLIC BUILDING FUND

Administration

The Department of Administration has requested two positions to support the rental fund program; a facility manager and an accountant. These two positions are shown on the fiscal note for HB112. DOA's existing staff cannot absorb the significant workload required to properly administer the Public Building Fund and facility rental program. These two positions together with their costs of supplies and equipment represent less than 2.5% of the annual expenditures of the Public Building Fund. All new costs associated with the rental program are funded from new non-general fund dollars made available through the charging of rent to federal and other non-general fund programs.

FACILITY MANAGER

A knowledgeable professional with experience in:

- building management
 - customer service
 - building design
 - building construction
 - public contracting
- Be the single point of contact for property management services for the buildings in the rental pool.
 - Work with tenant agencies and building committees to resolve building management and service problems.
 - Perform routine inspections of building conditions.
 - Prepare and monitor annual operating budgets for all buildings in the rental pool.
 - Create and maintain procedures for dealing with emergency management and hazardous materials management.
 - Educate and inform tenant agencies of the services and cost of services available to them.
 - Prepare long-range construction and maintenance programs for the facilities in the rental pool.
 - Develop facility requirements for renovation and maintenance projects; determine project feasibility, scope, initial cost and life cycle cost.
 - Determine tenant agency's real property requirements; develop projects to accommodate those requirements.
 - Develop and implement policies and procedures related to facility planning and procurement for the buildings in the rental pool.
 - Assist in development, priority setting, presentation and financial management of the capital budget as it pertains to facilities in the rental pool.

PUBLIC BUILDING FUND

Administration

- Solicit requests for proposals for routine services, professional services, and construction contracts. Participate in the preparation, review and selection of bids.
- Serve as project manager for planning, design and construction contracts; provide scoping documents; review and approve submitted plans, specifications and change orders.
- Coordinate tenant agencies, contractors, consultants and regulatory agencies for timely review and approval of plans and drawings, assuring compliance with building codes, local, State and federal laws and regulations, standards, policies and procedures.
- Develop project budgets, manage and approves expenditures; monitor and maintain financial controls, project accountability and project status.
- Represent the agency in responding to inquiries from the public, legislature and other governmental agencies regarding facility projects statutes, alternatives, and impacts.

ACCOUNTANT

- A professional level accounting position experienced with cost accounting and fund accounting transactions. It is imperative that all costs for these 8 facilities be accurately charged to the proper facility. This is to ensure compliance with generally accepted accounting principles (GAAP) as recognized by Government Accounting Standards Board (GASB) and with the Federal cost principles as set in the US Office of Management and Budget Circular A-87.
- Establish and maintain a Cost Allocation Plan for the facilities rental pool.
- Identify direct and indirect costs to track in coordination with affected agencies and OMB.
- Establish policies and procedures for annual, and ad hoc, rental rate cost projections.
- Establish cost centers.
- Assist in the preparation of and monitor the annual operating budgets for all buildings in the rental pool.
- Allocate costs to programs of all types and fund sources. Reconcile fund balances on a periodic basis, annually at a minimum.
- Participate and conduct annual and/or periodic audits with affected federal and state cognizant and audit agencies.
- Perform annual reconciliation of actual costs to rates charged (true-ups). Annually develop/adjust rental rates based on prior years' actual costs and future year anticipated costs.

PUBLIC BUILDING FUND

Administration

- Maintain the state fixed asset system for this pool of buildings. Verify that all asset acquisition costs are properly recorded in the fixed asset system and that reasonable life expectancies are determined.
- Prepare data for the Statewide Cost Allocation Plan (SWCAP).
- Prepare monthly cash flow and other financial projections.
- Develop billing and reimbursement procedures for customers.
- Supervision of day-to-day administrative accounting functions for the rental pool
 - Processing vendor payments
 - Revenue billings and collections
- Verification of data submitted for inclusion in the Cost Allocation Plan (CAP).
- Verify proper allocation of the operations, maintenance, and administrative costs.
- Certify rent related financial transactions in the state accounting system.
- Respond to inquiries and assist in customer relations for rental pool agencies.

House Bill 112 "Establish Alaska Building Fund"

2/26/99

Alaska has an enormous problem with maintenance of its public facilities. Funds are not allocated for on-going maintenance, so we are forced to continually repair and replace our existing facilities at great expense.

House Bill 112 would establish the Alaska public building fund as a special account in the general fund. It would also create an agreement whereby the occupants of state-owned buildings would pay "rent" into this fund. The money collected could be appropriated by the Legislature to pay use, management, operation, maintenance, and depreciation costs.

Sponsor Statement for HB 113

Postsecondary Enrollment Options Program

This legislation is intended to allow eleventh and twelfth grade students attending a secondary school to have the option of taking postsecondary classes at a nearby college campus.

Modeled after a program already in effect in Minnesota, HB 113 gives high school students the opportunity to take more advanced classes within the university system and count them toward their requirements for graduation from high school. The bill further recognizes that secondary students are part of the public education foundation formula and provides for tuition assistance whenever the secondary student chooses to count college courses toward his or her high school graduation requirements.

HB 113 will give our public school students more options in planning their curriculum. Instead of being limited to those classes offered by the local high school, this bill, if enacted, would give our public school students a wider variety of options by including courses available at the local college campus.

We are all looking for ways to improve our educational system. Expanding the opportunities for our young people is one way we can accomplish that. HB 113 takes a step in that direction.

The College Connection

Memorandum of Agreement between University of Alaska Southeast and Juneau School District

1. Program Description

The Juneau School District (JSD) and the University of Alaska Southeast (UAS) here jointly create the College Connection program. The purpose of this program is to allow qualified JSD students to simultaneously earn both high school and college academic credit. Evidence shows that highly able learners can greatly benefit from the subject-specific acceleration offered in this type of program. Twenty-one other states now offer dual enrollment for highly able, motivated students. Specifically, the program will allow:

- A. Selected seniors and juniors to take up to two courses per semester.
- B. Selected freshman and sophomores to take one course per semester.
- C. Selected, rare & highly able middle school students to take a particular course.

2. Student Eligibility

- A. **Application Process** - The interested JSD student must submit:
 - (1.) Transcript with a 3.0 GPA or higher;
 - (2.) Application signed by both JSD and UAS program advisors;
 - (3.) As part of the application form, a Statement of Understanding signed by student & guardian. Attests to recognition of the rigors of college work and of the adult themes often endemic to college materials and discourse;
 - (4.) A short, type-written explanation that describes why student wants to participate;
- B. **JSD Endorsement** - Signature by JSD College Connection Advisor requires:
 - (1.) Assessment of the student's social and academic maturity;
 - (2.) Referral by department head or building principal;
 - (3.) Student has and maintains a "B" (3.0) JSD grade-point-average;
 - (4.) If student has taken prior UAS CC courses, then grade of "C" (2.0) from each UAS course is required;
 - (5.) Student has exhausted course sequence at high school, or there are unresolvable scheduling conflicts, or there are other substantive reason(s) (e.g. inclusion in IEP).
 - (6.) For the rare middle school student, he/she must also have a support letter from the building principal, Special Ed. Director, or school's counselor.

Post-It Fax Note	7671	Date	4/2/99	Copies	(4)
To	Eddy GRASSER	From	Robert Samuel		
Co./Dept.	Ms. MASEK'S OFFICE	Co.	SRC-UAS		
Phone #	465-3306	Phone #	465-6359		
Fax #	465-4822	Fax #	465-6365		

C. Right to Refuse -

- (1.) UAS and JSD reserve the right to deny enrollment in the College Connection if the applicant does not meet the here-listed eligibility requirements.
- (2.) Each program participants must earn at least the grade of "C" (2.00) in each course that he/she registers for. Failure to do so will disallow further participation in the College Connection program.

3. Course Credit

- A. **Dual Credit** - Admission to the College Connection program means that UAS college course work will generate "dual credit". This means that successful completion of a UAS college course (grade of "C" or better) will allow for both college and high school course credit.
- B. **Equivalency** - One 3-or-more credit UAS course is equivalent to one JDHS "credit". This equivalency is applicable for all College Connection program students regardless of grade-level.

4. Records & Data

- A. **Confidentiality** - All student-specific records will remain confidential and handling of such records will be in keeping with the Buckley Amendment. Release of information about any particular program student must be authorized by prior signature of that student and/or his legal guardian. JSD and UAS College Connection staffs are authorized to communicate about each student via student submission of a signed program application. A parents' signature block will be added to the application for endorsing the authorization of JSD-UAS communication.
- B. **Grades and Transcripts** - UAS will maintain academic records in the manner that it does for all other university students. Students must request academic transcripts in writing. The JSD Registrar will be officially notified of course completion(s) via direct mailing of transcripts from UAS following written student request.
- C. **Database** - JSD and UAS will jointly maintain a confidential database that retains data on use, impact, and costs of the program. The participation of each and every program student will be noted. A report of aggregated information will be issued to the Program Advisory Team and other stakeholders at least once per semester.
- D. **Report of Experience** - The program will issue periodic reports of data and progress to stakeholders. These reports will present aggregated information only and will not identify any given student unless that student provides prior written consent.

5. Payment of Costs

- A. **Tuition** - The cost of tuition and the associated expenses of fees and books will be paid by JSD upon billing by UAS following Semester Week-3.
- B. **Grade Requirement** - JSD is responsible for tuition and associated costs only if the student earns the final grade of "C" in each given course.
- C. **Only Accepted Students** - JSD will make payment only for UAS tuition and costs of accepted College Connection program students.
- D. **Transportation by Student** - Neither JSD nor UAS will cover the costs of transportation between JSD, UAS and/or the student's home. Rather, transportation and associated costs will remain the student's responsibility.

6. Faculty Participation

- A. **Participation** - The administrations of JSD and UAS will inform respective faculties of the CC program. UAS faculty will accept and teach CC students just as other UAS students are accepted and taught.
- B. **Referral** - JSD faculty are encouraged to refer potential student candidates to respective department heads and to the CC Adviser(s) for possible consideration.

7. Communication

- A. **Program Advisory Team** - The Program Advisory Team (PAT) will meet at least once per semester to review the use, impact, costs of, and possible improvements for College Connection. PAT membership will consist of: (a.) one JEA union representative, (b.) one JSD representative, (c.) one UAS representative, and (d.) one Extend Learning PAC representative.
- B. **Utilization Review** - The PAT program review process will be open to all stakeholders. Utilization review of course enrollment and other data will be done, in part, to help guide JSD administrators and faculty in decisions about the need for further AP high school course development.
- C. **IEP Process** - Students who are identified by JSD as "gifted and talented" (G/T) may be particularly apt to apply for entry into the College Connection. Each G/T student is required to have an Individual Education Plan (IEP) and the student's Child Study Team may elect to specify program participation as part of student's Individual Education Plan.

D. **Catalogues & Materials** - JSD and UAS will jointly develop language and promotional materials which describe the College Connection program. These descriptions will be included in both institutions' catalogues.

8. Appeal Process

A. **Process:** Appeal of College Connection program decision(s) regarding (1.) entrance, or (2.) denial of program participation, or (3.) the allowed maximum number of CC courses per semester, is made via a two-step process. The first required step is to seek resolution through the informal step of directly contacting the CC Adviser(s). If resolution is not attained, the next step is to pose the request to the CC Appeal Body. All decisions of the Appeal Body are final within JSD, UAS and the Extended Learning Parents Action Committee (EL-PAC). Questions are called once only.

B. **Appeal Body:** The Appeal Body consists of: (1.) the UAS Chancellor or his/her designee, (2.) the JSD Superintendent or his/her designee, and (3.) the EL-PAC President or his/her designee

Alaska Adult Education Assn

FACT SHEET: Did You Know That...

- The yearly target population for ABE programs is 54,000 people over the age of 16 who do NOT have high school diplomas. With current funding, we only can serve 7,000 of these people yearly.
- 20-28% of Alaska's high school diplomas yearly are awarded through Adult Basic Education (ABE) programs! That's 1 in 5. Some years it is as high as 28% - that's more than 1 in 4 which are GED diplomas.
- All ABE programs serve welfare-to-work clients who had taken jobs and found they lacked the skills needed to retain their jobs.
- ABE programs are partners in the welfare-to-work efforts. We are often the last line of defense before people slip into a life of crime.
- All ABE programs take referrals from the Division of Public Assistance so that unemployed workers and teen parents could get help in specific reading, writing and math skills so they could become productive wage earners and taxpayers.
- At least 560 Alaskans obtain jobs and 350 are removed from public assistance yearly as a direct result of their increased education through Alaska's ABE programs.
- Each ABE teacher serves 58 full time students (showing how we're extremely efficient).
- Funding ABE programs now saves the State in the long run, because we get people off welfare. NOT funding ABE programs fully in the future will cost the State more in the future because more illiterate drop outs will go on welfare.

17 statewide programs provide GED instruction, costing only \$332 per student each year! These programs are:

- 1. Aleutian Chain Regional Adult Education Program**
- 2. Anchorage Adult Learning Center**
- 3. Anchorage ATAP/ABE Program: Nine Star Enterprises**
- 4. Anchorage Literacy Project**
- 5. Bethel Regional Adult Education Program**
- 6. Bristol Bay Regional Adult Education Program (Dillingham)**
- 7. Fairbanks Regional Adult Education Program**
- 8. Juneau Regional Adult Education Program (SERRC)**
- 9. Kenai Peninsula Adult Education Program**
- 10. Kodiak Regional Adult Education Program**
- 11. Kotzebue Regional Adult Education Program**
- 12. Literacy Council of Alaska (Fairbanks)**
- 13. Matanuska-Susitna Regional Adult Education Program**
- 14. Nome Regional Adult Education Program**
- 15. North Slope Adult Education Program**
- 16. Sitka Adult Education Program**
- 17. Valdez Regional Adult Education Program**

Harold was a 24-year old who moved to Alaska from Idaho. He had worked as a laborer and as a checkout clerk at Safeway, but he couldn't support his wife and daughter on his meager wages. He almost went on welfare. But instead, he started going to evening GED classes three times a week, and spent his weekends doing homework. After four months, Harold earned his GED diploma, with scores in the 80th percentile range. He was accepted into a union apprenticeship program and now earns \$17 per hour. Without the services of his local GED Program, he would have slipped onto the welfare rolls. Congratulations, Harold—yours is indeed a true success story!
