

ALASKA LEGISLATURE

2679

HOUSE and SENATE FINANCE COMMITTEE FILES, 2003-2004

We ask you NOT to eliminate or change the provisions of the Longevity Bonus Program in any way.

Longevity Bonus monthly checks are critical to the well being and the survival of Alaska's seniors ranging in age from 100 years down to the early 70s. Many of Alaska's seniors live precariously on the edge of solvency stretching their small incomes to pay for prescription drugs, rent and food.

The retirement income of seniors and their medical payments have a significant beneficial effect on the state's economy.

(12)

In addition to the impact of their income, seniors are volunteers and they provide the equivalent of thousands of full-time jobs worth millions of dollars per year to the state. We, the undersigned, urge our legislators to leave the Longevity Bonus Program intact AS IT IS, to ensure dignity and independence for Alaska's seniors, and to enable them to continue to contribute their wisdom, to inspire Alaska's youth, and to lead meaningful and healthy lives.

March, 2003

We ask you NOT to eliminate or change the provisions of the Longevity Bonus Program in any way.

Longevity Bonus monthly checks are critical to the well being and the survival of Alaska's seniors ranging in age from 100 years down to the early 70s. Many of Alaska's seniors live precariously on the edge of solvency stretching their small incomes to pay for prescription drugs, rent and food.

The retirement income of seniors and their medical payments have a significant beneficial effect on the state's economy.

(24)

In addition to the impact of their income, seniors are volunteers and they provide the equivalent of thousands of full-time jobs worth millions of dollars per year to the state. We, the undersigned, urge our legislators to leave the Longevity Bonus Program intact AS IT IS, to ensure dignity and independence for Alaska's seniors, and to enable them to continue to contribute their wisdom, to inspire Alaska's youth, and to lead meaningful and healthy lives.

March, 2003

We ask you NOT to eliminate or change the provisions of the Longevity Bonus Program in any way.

Longevity Bonus monthly checks are critical to the well being and the survival of Alaska's seniors ranging in age from 100 years down to the early 70s. Many of Alaska's seniors live precariously on the edge of solvency stretching their small incomes to pay for prescription drugs, rent and food.

The retirement income of seniors and their medical payments have a significant beneficial effect on the state's economy.

39

In addition to the impact of their income, seniors are volunteers and they provide the equivalent of thousands of full-time jobs worth millions of dollars per year to the state. We, the undersigned, urge our legislators to leave the Longevity Bonus Program intact AS IT IS, to ensure dignity and independence for Alaska's seniors, and to enable them to continue to contribute their wisdom, to inspire Alaska's youth, and to lead meaningful and healthy lives.

March, 2003

We ask you NOT to eliminate or change the provisions of the Longevity Bonus Program in any way.

Longevity Bonus monthly checks are critical to the well being and the survival of Alaska's seniors ranging in age from 100 years down to the early 70s. Many of Alaska's seniors live precariously on the edge of solvency stretching their small incomes to pay for prescription drugs, rent and food.

The retirement income of seniors and their medical payments have a significant beneficial effect on the state's economy.

(54)

In addition to the impact of their income, seniors are volunteers and they provide the equivalent of thousands of full-time jobs worth millions of dollars per year to the state. We, the undersigned, urge our legislators to leave the Longevity Bonus Program intact AS IT IS, to ensure dignity and independence for Alaska's seniors, and to enable them to continue to contribute their wisdom, to inspire Alaska's youth, and to lead meaningful and healthy lives.
