Conference Committee Report

In the event that one body (House) does not concur in the changes by the other body (Senate) to their bill (House), the presiding officer from each body will appoint three members to meet in a conference committee to work out the differences. See Uniform Rule 42.

Conference committee reports on House bills are prepared by the Chief Clerk's office and are returned to the Chief Clerk's office upon completion by the conference committee. See Appendices IX and X for samples of conference committee reports. The Senate Secretary's office prepares the conference committee reports on Senate bills.

Once the conference committee is appointed, the committee will determine if there is mutual agreement on previously adopted amendments. If the conference committee requires additional changes, the committee submits an identical written report to each body listing the specific points of disagreement and requests the conference committee be granted limited powers of free conference. See Appendices XI and XII for sample letters requesting limited powers of free conference.

The presiding officers must grant the powers during session before the committee can continue their business. The conference committee can then proceed to make changes to the designated versions and return the approved final Conference CS (CCS) and attachments to the appropriate body. The original body will duplicate and submit copies to each body for adoption.

When a conference committee is appointed to consider an appropriation bill, the bill may not be voted on until at least 24 hours after the report has been delivered to the Chief Clerk's or Senate Secretary's office for duplication and distribution to each member. The Chief Clerk or Senate Secretary will note the time of delivery of the report for recording in the journal. See Uniform Rule 42(c).

SUMMARY INFORMATION

CS FOR SENATE BILL NO. 98(FIN) am
"An Act making supplemental appropriations, capital appropriations, and other appropriations; amending appropriations; making appropriations to capitalize funds; making appropriations under art. IX, sec. 17(c), Constitution of the State of Alaska, from the constitutional budget reserve fund; and providing for an effective date."

HOUSE CS FOR CS FOR SENATE BILL NO. 98(FIN) am H
"An Act making supplemental appropriations, capital appropriations, and other appropriations; amending appropriations; making appropriations to capitalize funds; making appropriations under art. IX, sec. 17(c), Constitution of the State of Alaska, from the constitutional budget reserve fund; and providing for an effective date."

The Conference Committee utilized a spreadsheet titled, "Conference

Committee Worksheet for SB 98" which outlines each section of the House of Representatives and Senate versions of the legislation [copy on file].

Chair Wilken noted a letter requesting the Conference Committee be granted limited powers from the president of the Senate and the speaker of the House of Representatives. He requested members sign this letter for transmittal to the appropriate bodies.

Representative Chenault moved for adoption of the House of Representatives version of all sections of the bill with the exception of Items 2, 3 and 6.

Chair Wilken objected for discussion purposes.

Senator Hoffman requested an explanation why the specific items were excluded.

Chair Wilken replied that Section 2 (a) of the bills relate to rural energy fuel grants. He informed that the Conference Committee would propose adoption of the House of Representative language with an amendment providing that the grants could not be expended for utilities or insurance. The Conference Committee would then retain the House of Representatives language of Item 3, which also relates to Section 2(a) of the bills.

Senator Hoffman asked for an explanation of Item 6.

Chair Wilken explained that the House of Representatives reduced the appropriation to the Probation and Parole Results Delivery Unit (BRU), Director's Office Probation Region I component by \$450,000 general fund. It was determined that the Senate proposed reduction of \$65,000 was appropriate.

Senator Green clarified that the proposed action on Item 6 would not require limited powers of the Conference Committee.

Chair Wilken affirmed.

Senator Hoffman, referencing Item 2, asked the reason to prohibit the use of these funds for utilities and insurance expenses. He understood the majority of the funding would be utilized for fuel and the portion for utilities and insurance would be minimal.

Chair Wilken relayed the "predominant opinion" that the inclusion of utility and insurance as an authorized use of these funds would change the appropriation from a grant for fuel costs to a municipal revenue sharing program. Payment for fuel expenses has support, but

additional authorized expenditures is not supported.

Senator Hoffman asked the reason the House of Representatives passed language that provided authorization for utility and insurance expenses.

Representative Chenault replied that the matter was "argued both ways", although he supported limiting the authorization to fuel costs. This was the intent of the appropriation.

Representative Croft countered that the Representatives concluded that the increased fuel costs affected a variety of expenses. Funds were diverted from other obligations to purchase the needed fuel. He gave an analogy of a parent paying unexpected tuition increases to allow their child to attend school, and addressing the resulting shortfall to the family grocery budget afterwards. If funds later became available but were restricted to tuition payment, the problem of providing food would not be addressed. He requested additional discussion on the matter of the Conference Committee's request for limited free powers, suggesting another solution could be agreed upon.

Chair Wilken understood the appropriation could be used to reimburse payments already remitted. Therefore fuel purchases made between July 1, 2004 and through the remainder of the fiscal year are eligible.

Representative Croft suggested the simpler method would be to appropriate the funding without the limitations.

Co-Chair Wilken removed his objection and the House of Representatives version of Items 1, 4 through 5, and 7 through 20 were ADOPTED.

Representative Chenault moved to adopt the Senate version of Item 6.

Chair Wilken objected to point out that an explanation for this action had been given earlier in the meeting. He removed his objection.

Without further objection the Senate version of Item 6 was ADOPTED.

Representative Chenault offered a motion that the Conference Committee request free powers to address Section 2(a) of the bill, listed as Items 2 and 3 on the spreadsheet.

Chair Wilken objected to explain that the proposed changes to the

language of Section 2(a) is different than that included in either the House of Representatives or Senate versions of the bill and would thus require the authorization of free powers. He noted the letter making this request has been signed by all members and would be transmitted to the president of the Senate and the speaker of the House of Representatives.

There was no objection and the motion to request free powers was ADOPTED.

Representative Meyer clarified that Item 3 would be addressed once the Conference Committee receives free powers.

AT EASE 8:45:29 AM/12:13:25 PM

The request for limited free powers was submitted to the president of the Senate and the speaker of the House of Representatives and these powers were granted during sessions of each body. These sessions were held during the recess of this meeting.

Co-Chair Wilken explained a proposed amendment to the House of Representatives language of Section 2(a) of the bills. This amendment would delete "utilities or insurance" as allowable expenditures of the grants to the small municipality energy assistance program and limit expenditure to fuel purchases. The amended language on page 2 lines 5 through 17 of the House of Representatives version, 24-GS1133\S.A, would read as follows.

Sec. 2. DEPARTMENT OF COMMERCE, COMMUNITY AND ECONOMIC DEVELOPMENT. (a) The sum of \$6,400,000 is appropriated from the general fund to the Department of Commerce, Community, and Economic Development, division of community advocacy, for grants from the small municipality energy assistance program, for the fiscal year ending June 30, 2005, to the following cities and boroughs in the amounts stated. The grant awarded to each city or borough must be first used to repay any indebtedness of the city or borough to the bulk fuel revolving loan fund (AS 42.45.250). The amount of a grant remaining after repayment of any indebtedness of the city or borough to the bulk fuel revolving loan fund may be used by the city or borough only for the purchase of fuel. The amount of the grant awarded to a city or borough is based upon 2003 population, with cities and boroughs with up to 99 residents receiving \$22,395.83, cities and boroughs with 100 - 600 residents receiving \$44,791.67, and cities and boroughs with 601 - 2,499 residents receiving approximately \$67,187.

Representative Chenault offered a motion to insert "only" and delete "utilities and insurance" from the sentence beginning "The

amount of a grant remaining..." on lines 11 through 14.

Senator Hoffman objected.

AT EASE 12:14:48 PM / 12:16:39 PM

Co-Chair Wilken clarified that the motion is to amend the House of Representatives language of Section 2(a) and adopt this language.

Representative Croft questioned the need for limited free powers authority for the conference committee. He stated that the language of the amendment is identical to that of the Senate version of the bill.

DAVID TEAL, Director, Division of Legislative Finance, provided an explanation. [Note: witness spoke out of range of audio recording equipment and testimony was not received.]

Representative Meyer asked if the changes made to Item 2 would result in opposition to the House of Representative language for Item 3.

Co-Chair Wilken expressed intent to address Item 2.

Representative Meyer informed that the provisions of Item 3 are more important to the House of Representatives than the provisions of Item 2.

Co-Chair Wilken did not anticipate that either item would fail to be adopted.

A roll call was taken on the motion.

IN FAVOR: Representative Meyer, Senator Green, Representative Chenault, Chair Wilken

OPPOSED: Representative Croft, Senator Hoffman

The motion PASSED (4-2)

The House of Representatives language for Item 2 was amended and ADOPTED.

Representative Chenault offered a motion to adopt the House of Representatives language for Item 3. This language of Section 2(a) of the bills, relates to the distribution of funds for the appropriation to communities for increased fuel costs.

Co-Chair Wilken noted the House of Representatives language provides for the same appropriation amount as adopted by the Senate, but with a different allocation of the funding.

Without objection the House of Representatives language for Item 3 was ADOPTED.

Co-Chair Wilken stated for the record that the grants provided in Items 2 and 3 could be utilized for past and future fuel purchases made during FY 05.

Co-Chair Wilken clarified action taken by the Conference Committee in adopting the House of Representatives version of Items 18 through 22: "These lapse and effective date clauses conform to the House versions of other sections adopted by the committee, including funding for labor agreements and education."

Representative Chenault offered a motion to report CC SB 98, 24-GS1133\X, from Committee.

Representative Croft clarified that the committee substitute, Version "X" reflects only those changes made in the Conference Committee.

Chair Wilken affirmed.

There was no objection and LC SB 98 MOVED from the Conference Committee.

Please enter into the record my testimony to the
SFIN

committee on SB100, dated 030805

To the members of the Senate Finance Committee,

My name is David Gibbs.

I am the Emergency Manager and Enhanced 9-1-1 (E9-1-1) program administrator for the Kenai Peninsula Borough. I am submitting this written testimony in support of SB 100. This bill would increase the limit on E9-1-1 surcharges from seventy-five cents to two dollars per local exchange access line and wireless telephone number. The Kenai Peninsula Borough supports an increase in the E9-1-1 surcharge as the revenues currently collected by the Borough for the provision of E 9-1-1 services do not offset the costs. I would like to go on record as saying that this bill does not address several technical issues related to E9-1-1 including, but not limited to, voice over internet (VoIP) telephones and prepaid wireless telephones. I support addressing these issues in subsequent legislation. Thank you for the opportunity to give testimony to this committee in support of this bill.

Sincerely,

David Gibbs

ANALYSIS: (Attach a separate page if necessary)

This bill will have no fiscal impact on the Department of Public Safety if passed in its current form.

The bill allows municipalities to increase the surcharge that is collected related to the enhanced 911 systems. The bill would require that the surcharge be imposed by ordinance approved by the voters of the enhanced 911 service area.

Conceptual Amendment to SB100 Version "R"

In Section 3

"call taker" means a person employed in a primary or secondary answering point whose duties include the initial answering of 911 or enhanced 911 calls and routing the calls to the agency or dispatch center responsible for dispatching appropriate emergency services and a person in a primary or secondary answering point whose duties include receiving a 911 or enhanced 911 call either directly or routed from another answering point and dispatching appropriate emergency services in response to the call. The term "call taker" is synonymous with the term "dispatcher" in that it is inclusive of the functions of both answering the 911 or enhanced 911 calls and dispatching emergency services in response to the call."

2 that occur after the call is dispatched to the emergency responder. The surcharge
3 revenue may not be used for constructing buildings, leasing buildings, maintaining
4 buildings, or renovating buildings, except for the modification of an existing building

15 recorders, instant playback recorders, telephone devices for the deaf, public safety
16 answering point backup power systems, consoles, automatic call distributors, and
17 hardware and software interfaces for computer-aided dispatch systems;

18 (3) the salaries and associated expenses for 911 call takers for that
19 portion of time spent taking and transferring 911 calls;

20 (4) training costs for public safety answering point call takers in the
21 proper methods and techniques used in taking and transferring 911 calls;

26 databases.

27 (j) If a city in an enhanced 911 service area established by a borough incur
28 costs described under (i) of this section for the enhanced 911 system, before the
29 borough may use revenue from an enhanced 911 surcharge, the borough and city must
30 execute an agreement addressing the duties and responsibilities of each for the
31 enhanced 911 system and establishing priorities for the use of the surcharge revenue.

1 If the Department of Public Safety also provides services as part of the enhanced 911
2 system or uses the enhanced 911 system in that enhanced 911 service area, the
3 department must be a party to the agreement.

4 (k) For purposes of (i) of this section, "call taker" means a person employed in
5 a primary or secondary answering point whose duties include the initial answering of
6 911 or enhanced 911 calls and routing the calls to the agency or dispatch center
7 responsible for dispatching appropriate emergency services and a person in a primary
8 or secondary answering point whose duties include receiving a 911 or enhanced 911
9 call either directly or routed from another answering point and dispatching appropriate
10 emergency services in response to the call; the term "call taker" is synonymous with
11 the term "dispatcher" in that it is inclusive of the functions of both answering the 911
12 or enhanced 911 calls and dispatching emergency services in response to the calls.

13 * Sec. 4. AS 29.35 is amended by adding a new section to read:

14 **Sec. 29.35.134. Multi-line telecommunications systems.** A municipality
15 may by ordinance elect to require an enhanced 911 system from a multi-line
16 telecommunications system. A multi-line telecommunications system operator must
17 arrange to update the automatic location identification database with an appropriate
18 master street address guide valid address and callback number for each multi-line
19 telecommunications system telephone, so that the location information specifies the
20 emergency response location of the caller. A multi-line telecommunications system
21 operator is considered to be in compliance with this section when the multi-line
22 telecommunications system complies with E911 generally accepted industry standards
23 as defined by the Regulatory Commission of Alaska. For purposes of this section,

29 * Sec. 3. AS 29.35.131 is amended by adding new sections to read:

30 (i) A municipality may only use the enhanced 911 surcharge revenue for those
31 costs of the enhanced 911 system that are authorized in this subsection. The surcharge

1 revenue may not be used for any capital or operational costs for emergency responses
2 that occur after the call is dispatched to the emergency responder. The surcharge
3 revenue may not be used for constructing buildings, leasing buildings, maintaining
4 buildings, or renovating buildings, except for the modification of an existing building
5 to the extent that is necessary to maintain the security and environmental integrity of
6 the public safety answering point and equipment rooms. The surcharge revenue may
7 be used for the following costs to the extent the costs are directly attributable to the
8 establishment, maintenance, and operation of an enhanced 911 system:

9 (1) the acquisition, implementation, and maintenance of public safety
10 answering point equipment and 911 service features;

11 (2) the acquisition, installation, and maintenance of other equipment,
12 including call answering equipment, call transfer equipment, automatic number
13 identification controllers and displays, automatic location identification controllers and
14 displays, station instruments, 911 telecommunications systems, teleprinters, logging
15 recorders, instant playback recorders, telephone devices for the deaf, public safety
16 answering point backup power systems, consoles, automatic call distributors, and
17 hardware and software interfaces for computer-aided dispatch systems;

18 (3) the salaries and associated expenses for 911 call takers for that
19 portion of time spent taking and transferring 911 calls;

20 (4) training costs for public safety answering point call takers in the
21 proper methods and techniques used in taking and transferring 911 calls;

22 (5) expenses required to develop and maintain all information
23 necessary to properly inform call takers as to location address, type of emergency, and
24 other information directly relevant to the 911 call-taking and transferring function,
25 including automatic location identification and automatic number identification
26 databases.

27 (j) If a city in an enhanced 911 service area established by a borough incurs
28 costs described under (i) of this section for the enhanced 911 system, before the
29 borough may use revenue from an enhanced 911 surcharge, the borough and city must
30 execute an agreement addressing the duties and responsibilities of each for the
31 enhanced 911 system and establishing priorities for the use of the surcharge revenue.

1 If the Department of Public Safety also provides services as part of the enhanced 911
2 system or uses the enhanced 911 system in that enhanced 911 service area, the
3 department must be a party to the agreement.

4 * Sec. 4. AS 29.35 is amended by adding a new section to read:

5 **Sec. 29.35.134. Multi-line telecommunications systems.** A municipality

23 names, numerical addresses or address ranges, and other parameters defining valid
24 locations and emergency services zones, and their associated emergency services
25 numbers, that enables the proper routing and response to 911 calls;
