**EXECUTIVE PROFILE****KEVIN O. MEYERS****PRESIDENT AND CEO, PHILLIPS ALASKA, INC.****SENIOR VICE PRESIDENT, ALASKA
PRODUCTION AND OPERATIONS,
PHILLIPS PETROLEUM COMPANY**

K.O. (Kevin) Meyers is president and chief executive officer (CEO) of Phillips Alaska, Inc. and senior vice president Alaska production and operations for Phillips Petroleum Company. He was elected to this position in 2000.

Dr. Meyers joined ARCO Exploration and Production (E&P) Technology in Plano, Texas in 1980. He has held a number of positions in ARCO's E&P operations in both Texas and Alaska. Among his more recent posts, he served as senior vice president of the Prudhoe Bay business unit in 1996 and was promoted to president of ARCO Alaska, Inc. in March of 1998. In August of that year, his responsibilities were expanded to include the duties of CEO of ARCO Alaska Inc., and senior vice president of Atlantic Richfield Company. He accepted the above-mentioned positions with Phillips in the spring of 2000 when ARCO Alaska, Inc. was acquired by Phillips Petroleum Company.

Dr. Meyers, 46, earned undergraduate degrees in chemistry and mathematics from Capital University in 1975 and holds a doctorate in chemical engineering from Massachusetts Institute of Technology.

Dr. Meyers serves on the Board of Regents of the University of Alaska and on the boards of directors of the Alaska Oil and Gas Association, the Nature Conservancy of Alaska, the Anchorage Symphony Orchestra, the Anchorage Museum Foundation and Commonwealth North. Meyers and his wife, Doré, live in Anchorage, Alaska.

KEVIN O. MEYERS

WORK HISTORY

K.O. (Kevin) Meyers is executive vice president, Alaska production and operations, for Phillips Petroleum Company and **president and chief executive officer (CEO) of Phillips Alaska, Inc.** He was elected to this position in February of 2001, after serving as senior vice president of Alaska production and operations and president and chief executive officer (CEO) of Phillips Alaska, Inc. since the spring of 2000. Prior to ARCO Alaska Inc.'s acquisition by Phillips Petroleum Company in the spring of 2000, he served as president and CEO of ARCO Alaska, where he managed a workforce of 1500 employees and was responsible for all facets of management and operations of Atlantic Richfield's largest production assets.

As president of Phillips Alaska, he is responsible for leading this exploration and production company and its 1200 employees, including operations on the North Slope of Alaska, Kenai Peninsula, and tanker operations headquartered in Long Beach, California. In addition to responsibility for day-to-day operations, he oversees strategic planning, operating and capital budget management, technology and business development, land and exploration, Phillips Alaska's pipeline interests, oversight of Prudhoe operations, human resources management, and external affairs. Phillips Alaska has proven reserves of 2.2 billion barrels of oil equivalent and is the state's largest oil and gas producer.

From 1995 until 1998, he served as **Senior Vice President – Prudhoe Bay** (ARCO Alaska, Inc.), where he had responsibility for engineering and operations of the Prudhoe Bay field, including application of innovative technology to mitigate decline, while reducing per-barrel production costs.

From 1994 to 1995, he served as **Vice President, Engineering and Technology** for ARCO International Oil and Gas Company, where he was responsible for engineering, drilling, and procurement for the ARCO's main growth division.

In 1993, he was **Vice President, Operations**, for ARCO Permian in Midland, Texas. His responsibilities included management of all operations of the West Texas business unit, which produced 65,000 barrels of oil and 100 million cubic feet of gas per day and had a \$50-million annual capital budget. He played a key role in restructuring ARCO's Lower 48 oil and gas operations.

From 1987 to 1993, he held the positions of **Reservoir Engineering Manager** for Prudhoe Bay and later for Kuparuk and **West Sak Development Manager**. In each of these positions he had responsibility for engineering and development of the fields and development and application of new technology applicable to the unique environment on the North Slope and the distinctive reservoir features of the three largest fields in the U.S.

From the time he joined ARCO in 1980 until 1987, he held a series of positions in engineering and supervision in ARCO's exploration and production research center in Plano Texas. During that time, he authored and published 20 papers and registered numerous patents.

EDUCATION

Ph.D., Chemical Engineering, Massachusetts Institute of Technology, 1980.

B.A., Chemistry and Mathematics, Capital University, 1975.

CURRENT OUTSIDE AFFILIATIONS

Dr. Meyers serves on the Board of Regents of the University of Alaska (pending legislative confirmation) and on the boards of directors of the Alaska Oil and Gas Association, the Anchorage Symphony Orchestra, the Nature Conservancy of Alaska, the Anchorage Museum Foundation and Commonwealth North. He is married to Doré Liston Meyers. They have no children.
