

AK LEGISLATURE SPECIAL COMMITTEE FILES SCOMM 156 3341₅

P. KENAI PENINSULA AREA - PAGE 4 OF 4 (see map page 6 for area description). Please include **only** information for members of your household.

DIPNET/GILLNET

① Number of Household Anglers who fished. Do **not** include visiting friends, relatives, or other party members outside your household.

② Number of Household Trips (a Trip, which may last one or more days, is a visit to a fishing site).

③ Sum of Each Angler's Calendar Days Fished. Count any part of a day as one whole day. If two or more anglers fish the same day, include that day in each angler's sum.

Example: If two household anglers fished the same day, No. Days Fished = 2.

④ For each type of fish, write the total number kept by your household. **DO NOT INCLUDE FISH HARVESTED UNDER SUBSISTENCE REGULATIONS.**

P ₃	No. of Household Anglers	No. of Household Trips	Sum of Each Angler's Calendar Days Fished	King Salmon	Sea-run Silver Salmon	Red Salmon	Pink Salmon	Chum Salmon	Other (Specify)

797. Kachemak Bay (including Bluff Point area to Seldovia)						
999. CLAMS: Deep Creek Beach (Anchor River to Deep Creek)						
997. CLAMS: Ninilchik Beach (Deep Creek to Set Net Access)*						
775. CLAMS: Clam Gulch (Set Net Access to Kaslof River)*						
4. Other Sites (Specify):						

HARDSHELL CLAMS

The **butter clam** shell is thick and white. It has heavy concentric growth rings, but no vertical ridges. The shell's inner edge is smooth. Butter clams are 3 to 5 inches long.

Littleneck clam shells are usually white, but may be brown or have brown markings. The shells have concentric growth rings and distinct vertical ridges. Littleneck clams are about 2 inches long.

RAZORCLAM

Razor Clams have long, narrow, smooth shells that can grow to longer than 7 inches. The shells are covered with a thin tissue-like layer that varies in color from brown to yellowish-brown depending upon the clam size. In older clams the tissue covering is usually eroded. The shells are thin and the shell edges sharp.

*Set Net Access is a private road entering the beach approximately 10 miles north of Ninilchik and 8 miles south of the Clam Gulch beach access road.

U. TANANA RIVER DRAINAGES - Page 2 of 2 (see map page 10 for area description). Please include **only** information for members of your household.

① Number of Household Anglers who fished. Do **not** include visiting friends, relatives, or other party members outside your household.

② Number of Household Trips (a Trip, which may last one or more days, is a visit to a fishing site).

③ Sum of Each Angler's Calendar Days Fished. Count any part of a day as one whole day. If two or more anglers fish the same day, include that day in **each** angler's sum.

Example: If two household anglers fished the same day, No. Days Fished = 2.

④ For each type of fish, write the total number caught and the number kept by your household. **DO NOT INCLUDE FISH HARVESTED UNDER SUBSISTENCE REGULATIONS.**

DISTINGUISHING CHARACTERISTICS OF SEVERAL SPECIES OF FISH

General Characteristics of Fish: cut away of operculum (gill-cover) showing one gill arch, filaments, and gill rakers.

King (Chinook) Salmon: small black spots on back and on both lobes of caudal fin; gum line of lower jaw black; scales large; gill rakers less than 25; anal fin rays 15-17.

Silver (Coho) Salmon: small black spots usually occur only on upper lobe of caudal fin and on back; gum line on lower jaw not black; scales large; gill rakers less than 25; anal fin rays 13-15.

Pink (Humpback) Salmon: large oval black spots on back and on both lobes of caudal fin; scales very small; usually over 12 anal fin rays; males develop a pronounced hump during spawning.

Sockeye (Red) Salmon and Kokanee (landlocked form): no distinct black spots on back or tail; 30-40 long, fine, and serrated, closely spaced gill rakers over 12 anal fin rays. NOTE: Kokanee should be recorded separately in the booklet.

Chum (Dog) Salmon: no distinct black spots on back or tail; 18-28 smooth, short, stout, and widely spaced gill rakers; usually over 12 anal fin rays.

Dolly Varden/Arctic Char: round, red, pink or yellow spots on sides, caudal fin slightly forked; 8-12 anal fin rays; no dark green wavy marks on back or dorsal fin.

Lake Trout: body dark green to grayish with oval or irregular white to yellowish spots on sides and back; caudal fin deeply forked; 8-12 anal fin rays; no dark green wavy marks on back or dorsal fin.

Brook Trout: spots on body pale or red with blue halos, but never brown or black; dark green wavy marks on back and dorsal fin; 8-12 anal fin rays.

Cutthroat Trout: spots on body dark brown or black; anal fin rays 8-12; no red band on sides; red to orange slash on underside of lower jaw; upper jaw extends well behind eye in adults.

Rainbow Trout: spots on body dark brown or black; anal fin rays 8-12; reddish band on sides; no red slash under jaw; upper jaw usually does not extend behind eye in adults. NOTE: Steelhead are sea-run rainbows, and should be recorded separately in the booklet.

Northern Pike: dorsal and anal fins positioned rearward; no adipose fin as in the trouts, salmon, grayling and whitefish; long flattened jaws with large mouth and many large, sharp teeth, sides are yellowish-gray.

Arctic Grayling: dorsal fin typically with dark purple edge and much longer (18 or more rays) than in whitefish and fan-like; rows of reddish to orange and/or purple to green spots on dorsal fin; sides of fish are black spotted; scales larger than in trouts.

"Whitefish": several common species that occur in Alaska are the round whitefish, humpback whitefish, least cisco, and sheefish. Whitefish are distinguished from the trout and salmon by the small, weak, or absent teeth and the presence of large scales; distinguished from the arctic grayling by the much smaller dorsal fin (15 or fewer rays). A round whitefish is shown.

Burbot: two dorsal fins and one anal fin present; no adipose fin as in the trouts, salmon, grayling and whitefish; pelvic fins very far forward and just under head; body long and tapering; barbel on chin.

"Rockfish": several species of marine fish also referred to as black bass, sea bass, and red snapper. Rockfish may be distinguished from sculpins (Irish Lords) by the dorsal fin, which has spines on the front half and soft rays on the rear half in the rockfish. NOTE: Handle with care because of spines.

DISTINGUISHING CHARACTERISTICS OF SEVERAL SPECIES OF FISH

Black Rockfish: ("black bass") Black to blue-black with dusky white areas. Jaw extends to rear of eye. To 25 in.

Dusky Rockfish: Color varies from dark brown or black to greenish-brown with pink underside. Dark fish have prominent knob on chin. To 20 in.

Lingcod: Brown to reddish-brown with spots or blotches. Sharp teeth. One lateral line. Long jaw. No barbel on chin. To 5 ft.

Canary Rockfish: Orange with greenish mottling. Lateral line is white to grey. To 30 in.

China Rockfish: Black with yellow spots. Yellow stripe from dorsal fin to rear of body. To 17 in.

Kelp Greenling: Males brown with blue spots, females freckled with brown, 5 lateral lines. To 21 in.

Pacific Cod: Chin barbel. Yellowish brown to gray with mottling. To 39 in.

Quillback Rockfish: Black to brown with large orange areas. Dorsal fin notched deeply. To 24 in.

Redstripe Rockfish: Red lateral line in grey zone bordered by red. Lips dusky. To 20 in.

Halibut: Jaw extends below middle of eye. Lateral line arched over pectoral fin. To 8 ft.

Starry Flounder: Black and yellow bands on fins. To 36 in.

Tiger Rockfish: Black to dark red bars on pink to red body. To 24 in.

Yelloweye Rockfish: ("red snapper") Primarily orange. Pale yellow stripe on body. Yellow eye. To 36 in.

Arrowtooth Flounder: Large mouth and numerous sharp teeth. Little arching of lateral line. Upper eye reaches top of head. To 34 in.

Rock Sole: Lateral line arched over pectoral fin. Jaw does not extend below middle of eye. To 24 in.

Dear Sport Angler:

The year 2004 marks the 28th year in which the annual Statewide Harvest Survey has been successfully conducted. The angler response rate has consistently been above average for a survey of this magnitude, and for this we have you to thank.

Your response to this survey assists us in improving our ability to accurately provide statewide estimates of participation, catch, and harvest to our fishery managers. Managers within the Department of Fish and Game use this information to protect and improve the state's recreational fisheries resource.

The results of this survey will be available to the public in the fall of 2005. Feel free to call us at (907) 267-2369 or email us at SFPUB@fishgame.state.ak.us if we can assist you.

Our web address is: http://www.sf.adfg.state.ak.us/statewide/sf_home.cfm

Thank-you again,

Kelly Hepler
Director, Division of Sport Fish

FAX: (907) 267-2422

October 19, 2005

Dear Alaska Angler,

Each year, the Alaska Department of Fish and Game conducts a survey of about 10% of Alaska sportfishing license holders to determine where they fished and how many fish they caught and kept within Alaska's sport fisheries. You are one of the few licensed anglers selected to receive the Alaska **2005 Sport Fish Survey**, and I hope that you will take a few minutes to complete the survey and return it to us in the envelope provided.

From Prudhoe Bay to the Panhandle and Eagle to Akutan, the results from this survey impact the number of fish you can hook and how many you can take home. The Department uses the information to evaluate the health of fisheries and to develop management plans, while residents of Alaska and people from around the world consult the survey results to plan fishing trips, business ventures, and other recreational activities.

To ensure that the results are as accurate as possible, it is important that we receive your survey. While the tables and maps may make the survey look complicated, that's because it covers locations around the entire state. We've found that for most people, there are only a few pages that must be completed to report their household's sport fishing. If you and other household members did not go fishing in 2005, we ask that you at least complete the General Questions on page 3 of the questionnaire and return it in the envelope provided so that we do not send you additional reminder surveys.

The results of the Alaska 2005 Sport Fish Survey will be published in fall of 2006. If you are interested in seeing the results of previous year's surveys, visit the division's web site at: http://www.sf.adfg.state.ak.us/statewide/sf_home.cfm

Thank you very much for helping with this important study. If you have any questions, comments, or suggestions, we would be happy to talk with you. Our phone number in Anchorage is (907) 267-2280, or you can write to us at the address on the letterhead or (via e-mail) at SFPub@fishgame.state.ak.us.

Sincerely,

Kelly Hepler, Director

Appendix B2.-First reminder for standard and supplementary surveys, 2004.

March 9, 2005

Dear Alaska Angler,

A few weeks ago we mailed to you a copy of the Alaska **2004 Sport Fish Survey**, but to the best of our knowledge it has not been returned. We are writing again because of the importance that your questionnaire has for helping us obtain accurate results.

If you and other household members did not fish this year, you need only complete the General Questions on page 3 and return your entire questionnaire in the envelope provided. If you did fish this year, we hope you will take a few moments now to complete and return your survey. While you may not be able to remember the details of all of your household's fishing trips, please fill out the form based upon what you can remember. The tables and maps may make the survey look complicated, but that's because it covers locations around the entire state. You need only to fill out information for the locations you or other household members fished in 2004.

We hope that you will fill out and return the questionnaire soon, but if for any reason you prefer not to answer the questionnaire, please let us know by phoning us at the number at the top of this page or returning a note or blank questionnaire in the enclosed postage-paid envelope. Please include the number as seen on the label on the cover of your questionnaire, this will prevent you from receiving any follow-up questionnaires.

In a few weeks a final reminder will be sent to those people who have not yet responded. Please help us decrease costs by sending us your completed form now. If you have already returned your completed form, please disregard this letter and accept my thanks.

If you have any questions, please feel free to contact us at the address or phone number above. You can also reach us by e-mail at SFPub@fishgame.state.ak.us.

Sincerely,

Kelly Hepler, Director

April 14, 2005

Dear Alaska Angler,

At this time of year, we realize that your 2004 fishing experience is becoming a distant memory, we are, however, requesting your help by asking that you to recall your fishing experience by completing the Alaska 2004 Sport Fish Survey. We appreciate your willingness to consider our request as we conclude this year's survey effort to obtain accurate information on sport fishing participation, catch, and harvest. Your participation will help to protect and enhance Alaska's excellent sport fishing opportunities.

This survey is mailed annually to about 10% of Alaska sportfishing license holders. The information gained helps the Department determine where anglers fished and how many fish they caught and kept within Alaska's sport fisheries, and the results are used for sport fisheries planning and management purposes, as well as by members of the public. The study is drawing to a close, and this is the last contact that will be made in this year's survey. Hearing from everyone mailed a survey helps assure that the results are as accurate as possible. We hope that you will take this opportunity to complete the enclosed questionnaire and return it to us in the enclosed postage-paid envelope.

Even if you or other household members didn't fish in 2004, we ask that you complete the General Questions on page 3 and mail it back to us. If you or other household members did fish, please take a few minutes and complete the General Questions on page 3 and other pages that apply to your household's 2004 sport fishing activities. A postage-paid envelope has been provided for returning your completed form.

If you have already returned your completed form, please disregard this letter and accept my thanks.

Sincerely,

Kelly Hepler, Director

Appendix B4.-Third reminder for standard and supplementary surveys, 2004.

ALASKA DEPARTMENT OF FISH AND GAME

2004 Sport Fish Survey

If you have questions about this survey, please call (907) 267-2369, or email us at SFPUB@fishgame.state.ak.us.

Please visit the Department's web site at: <http://www.adfg.state.ak.us/>

Cover art by MacKenzie Bowden, 2nd grade.
Tanaina Elementary School, Wasilla, Alaska. 2003.

We are interested in knowing about your **sport and personal use fishing and shellfish harvest** experiences in 2004.

Even if you did not fish in 2004, please answer the Questions on page 3.

Respond only to those areas of Alaska where your household members **sport fished**. Do not include subsistence caught fish.

Thank-you

INSTRUCTIONS:

Please help reduce costs: For statistical purposes we mail 2 reminders to those who do not respond. You can help reduce costs by replying promptly.

Period covered: January 1 through December 31, 2004.

Who to include: Report your household's sportfishing only. Do not include visiting friends and relatives.

What if your household did not sport fish in 2004? Answer the questions on page 3 and return the survey in the postage-paid envelope so we may avoid mailing you additional 2004 surveys. **Thanks for your assistance!**

What if your household did sport fish in 2004? Read all instructions on this page, answer the questions on page 3, then review instructions and examples on pages 4 and 5, complete the pages that cover the areas where you sport fished, and return the survey in the postage-paid envelope. **Thanks for your assistance!**

What to include: Report all sport fishing. Separate sections are included to report for dipnet-caught salmon, shellfish, and ice fishing (see page 4).

What to exclude: Do not report commercially caught or subsistence-caught fish. Do not report fish caught while proxy fishing for someone outside your household. A sportfishing guide should not report client information.

When to reply: Return this form after completing all 2004 sport fishing, including all ice fishing in the early months of 2004. Use the enclosed 2004 ice fish page for any ice fishing during the last half of 2004 and send it in separately.

Still have questions? If you have questions about this survey, please call (907) 267-2369 or contact us via email at SFPUB@fishgame.state.ak.us

SPORTANGLERS LIVING OUTSIDE OF THE UNITED STATES

The postage permit that we have for return mail is good only in the United States. However, it is very important that anglers who do not live in the United States return their survey to us. Therefore, we must ask that you supply your own postage in order to return the survey questionnaire. We hope you will consider this an additional contribution towards sound management of Alaska's sport fisheries.

Thank-you for your cooperation and support.

The Alaska Department of Fish and Game administers all programs and activities free from discrimination on the bases of race, color, national origin, age, sex, religion, marital status, pregnancy, parenthood, or disability. The department administers all programs and activities in compliance with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972.

If you believe you have been discriminated against in any program, activity, or facility, or if you desire further information please write to ADF&G, P.O. Box 25526, Juneau, AK 99802-5526; U.S. Fish and Wildlife Service, 4040 N. Fairfax Drive, Suite 300 Webb, Arlington, VA 22203 or O.E.O., U.S. Department of the Interior, Washington DC 20240.

For information on alternative formats for this and other department publications, please contact the department ADA Coordinator at (voice) 907-465-4120, (TDD) 907-465-3646, or (FAX) 907-465-2440.

GENERAL QUESTIONS: The questions below apply to members of your household and the 2004 sportfishing season.

1. **Total** number of people in your household who sport fished in Alaska during 2004 ?

NO LICENSE PURCHASED

1A. Number of persons in your household **under 16 years of age** who sport fished in Alaska in 2004 ?

1B. Number of Alaska residents 60 years of age and older and number of Alaska resident disabled veterans in your household who have a **permanent identification card for Alaska sport fishing (PID)**, including those who did not fish in Alaska ?

1C. Number of persons recorded in 1B who sport fished in Alaska in 2004 ?

LICENSE PURCHASED

2A. Number of persons in your household who **purchased a 2004 sportfishing license**, including those who did not fish in Alaska (DO NOT include anyone recorded in 1A, 1B, or 1C above) ?

2B. Number of persons recorded in 2A who **sport fished in Alaska** in 2004 ?

3. Please provide comments on sportfishing in Alaska during 2004.

Comments (enclose additional pages, if needed):

HOW TO RECORD YOUR HOUSEHOLD'S 2004 SPORT FISHING

CHARTERED/GUIDED means:

You paid a person or a business to personally direct and accompany you in fishing activities.

However;

A person who provides only transportation services (including air) or rents out vessels or skiffs without remaining to direct your fishing activities is not a guide or charter operator for the purposes of this study.

ICE FISHING, NON-GUIDED	12

INSTRUCTIONS & EXAMPLES (facing page) →

- ① **SECTIONS:** Locate the first **SECTION** (described above) of this form that covers your household's 2004 sport fishing.
- ② **SITES:** Locate the harvest area fished in the **MAP/SITE BOOKLET**. Write the **Area Code** letter (Example: "P" for Kenai Peninsula Area) in the column labeled **Area Code** letter. See the example on the facing page.
- ③ **SITES:** Write the **Site Name** by locating it in the **MAP/SITE BOOKLET**. Write the site number for each location fished (Example: "1" for Kenai River - Cook Inlet to Soldotna Bridge) in the columns labeled Site Number. If a site is not listed in the **MAP/SITE BOOKLET**, write the complete name in the **Site Name** column.
- ④ **FISHERY TYPE:** Some sections include **Boat** and **Bank/Shore Fishery Types**. Check one box for each line. If you fished from a **Boat** and also from **Bank/Shore** at the same site, write this information on two separate lines. See the example on the facing page.
- ⑤ **EFFORT:** For each site fished write the **Number of Household Anglers** who fished, the **Number of Household Trips**, and the **Sum of Each Angler's Calendar Days Fished** on all trips. Consider any part of a day as one whole day. **EXAMPLE:** A man and a woman fished together on 3 trips to the Kenai River. They fished 1 day on each trip and caught a total of 4 silver salmon and kept all 4. The man fished alone for half a day on each of 2 other trips to the Kenai River, but caught nothing. Thus for the Kenai River: Anglers = 2, Trips = 5 (3 by the man and woman together, 2 by the man alone), Days Fished = 8 (5 by the man, 3 by the woman). See the examples on the facing page.
- ⑥ **CATCH & HARVEST:** For each species write **BOTH**:
 - a) the number **caught**, and
 - b) the number **kept**.

EXAMPLE: 4 king salmon were caught. If 0 were kept, write 4/0; if 2 were kept, write 4/2; if 4 were kept write 4/4.
- ⑦ **REPEAT ①-⑥:** Repeat steps ① through ⑥ for each **SECTION** that describes your household's 2004 fishing.
Please return your completed survey in the postage-paid envelope. **We thank you for your assistance.**

DO NOT INCLUDE FISH HARVESTED UNDER SUBSISTENCE REGULATIONS.

EXAMPLES: HOW TO RECORD YOUR HOUSEHOLD'S 2004 SPORT FISHING

Freshwater Finfish (open water). SEE PAGE 12 FOR ICE FISHING, PAGE 10 FOR SALMON DIPNETTING.

GUIDED

SPORT FISHING

① Number of Household Anglers who fished. Do not include visiting friends, relatives, or other party members outside your household.

② Number of Household Trips (a Trip, which may last one or more days, is a visit to a fishing site).

③ Sum of Each Angler's Calendar Days Fished. Count any part of a day as one whole day. If two or more anglers fish the same day, include that day in each angler's sum. Example: If two household anglers fished the same day, No. Days Fished = 2.

④ For each type of fish, write the total number caught and the number kept by your household.
Do not include fish harvested under subsistence regulations.

INSTRUCTIONS:

1. Write your household's ice fishing completed for the first six months of 2004 on this page.
2. If during the last 6 months of 2004, you have already ice fished or intend to ice fish:
 - a. Locate the **separate** single sheet ICE FISHING - LAST SIX MONTHS 2004 form enclosed,
 - b. Write the ID number from the label on the front cover of this bound form on the **separate** single sheet ice fishing form, and
 - c. Complete and return the **separate** single sheet form by January 2005.

Otherwise...

3. If you have completed all 2004 ice fishing by today's date:
 - a. complete both forms, as needed, to report your household's ice fishing.
 - b. Promptly return all forms, even if blank, in the envelope provided.

MAP/SITE BOOKLET

Alaska Sport Fishing Areas - Maps, Area Descriptions, and Fish Size Categories

USE THIS BOOKLET TO:

1. Locate your fishing sites on the enclosed maps.
2. Determine the sport fishing Area Code letter.
3. Determine the Site Number for each site fished.
4. Determine the fish lengths for "Large" and "Small" size categories.
5. If you have questions about this survey, please call (907) 267-2369 or e-mail us at SFPUB@fishgame.state.ak.us.

Use the map below to locate the booklet pages that apply to your household's 2004 SPORT FISHING.

DO NOT INCLUDE FISH HARVESTED UNDER SUBSISTENCE REGULATIONS.

Please visit the Fish & Game web site at:
<http://www.adfg.state.ak.us/>

The Alaska Department of Fish and Game administers all programs and activities free from discrimination based on race, color, national origin, age, sex, religion, marital status, pregnancy, parenthood, or disability. The department administers all programs and activities in compliance with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972.

If you believe you have been discriminated against in any program, activity, or facility, or if you desire further information please write to ADF&G, P.O. Box 25526, Juneau, AK 99802-5526; U.S. Fish and Wildlife Service, 4040 N. Fairfax Drive, Suite 300 Webb, Arlington, VA 22203 or O.E.O., U.S. Department of the Interior, Washington DC 20240.

For information on alternative formats for this and other department publications, please contact the department ADA Coordinator at (voice) 907-465-4120, (TDD) 907-465-3646, or (FAX) 907-465-2440.

AREAS A - H

	SOUTHEASTERN ALASKA SPORT FISH SURVEY AREAS	PAGE
A. KETCHIKAN AREA	All Alaska waters and drainages of the Unuk River and East Behm Canal south to the Proposed International Boundary line and east of a line bisecting Clarence Strait to the Canadian border. This area includes Duke, Annette, Revillagigedo, Gravina islands, and others. FISHING SITES: East and West Behm Canals, Clarence Strait, Revillagigedo Channel, Tongass Narrows, Yes Bay, Bell Island, Naha River, Ward Cove Creek, and others.	10
B. PRINCE OF WALES AREA	Alaska marine and fresh waters west of a line bisecting Clarence Strait and north of the Proposed International Boundary to a line bisecting Sumner Strait (including Forrester Island in the south and Warren Island in the north.) FISHING SITES: Karta and Klawock rivers, Nossuk and Shaheen creeks, Sweetwater and Thorne systems, and others.	10
C. KAKE, PETERSBURG, WRANGELL, STIKINE AREA	Alaska waters, including freshwater drainages, bounded by a line from Ernest Sound east through Bradfield Canal to the Canadian border and north along a line bisecting Clarence Strait to Sumner Strait, bisecting Sumner Strait and turning south to, and including, Coronation Island. This area is bounded on the north by a line from the Canadian border west through Cape Fanshaw and bisecting Frederick Sound before ending at the Sitka Borough boundary in Chatham Strait. The Sitka Borough boundary extended south to Coronation Island forms the western boundary; the Canadian border forms the eastern boundary. Islands in this area include, but are not limited to, Etolin, Deer, Onslow, Sumner, Wrangell, Zarembo, Kupreanof, Mitkof, Farm, Kuia, and Coronation. FISHING SITES: Blind Slough, Wrangell Narrows, Duncan Saltchuck, Duncan Canal, Grays Pass, Castle River, Anan, Petersburg, and Kadake creeks; and others.	10
D. SITKA AREA	All Alaska marine and fresh waters within the Sitka Borough boundary and north to the southern limit of the Glacier Bay area. Islands in this area include, but are not limited to, Baranof, Kruszof, Catherine, and the southern half of Chichagof. FISHING SITES: Sitka Sound, Salisbury Sound, Eva Lake system, Baranof system, Sitkoh system, and others.	11
E. JUNEAU AREA	All Alaska marine and fresh waters bounded on the south by a line from the Canadian border west through Cape Fanshaw to the Sitka Borough boundary in Chatham Strait; on the east by the Canadian border; on the north by the Haines Borough/Juneau City and Borough boundary from Mount Nesselrode (Boundary Peak 98) on the Canadian border, west to Eklred Rock Lighthouse, south through Lynn Canal to latitude of Point Sherman, west through Lynn Canal and ending at the western boundary of Glacier Bay National Monument north of the Endicott River watershed; and on the west by all east-side drainages of the Lynn Canal and a line bisecting Chatham Strait south from Pt. Couverden to Frederick Sound. This area includes all of Admiralty Island. FISHING SITES: Doty Cove to Berners Bay (including all Berners Bay rivers) and west to Point Retreat; Dupont to Echo Cove and Douglas Island; Mitchell Bay Salt Lagoon, Salmon Creek Reservoir, Hasselborg, Florence, Turner, and Peterson lakes; and others.	11
F. HAINES-SKAGWAY AREA	All Alaska marine and fresh waters north of the Haines Borough/Juneau City and Borough boundary from Mount Nesselrode (Boundary Peak 98) Canadian border, west to Eklred Rock Lighthouse, south through Lynn Canal to latitude of Point Sherman, west through Lynn Canal and ending at the western boundary of Glacier Bay National Monument north of the Endicott River watershed; and north and east of this National Monument boundary to the Canadian border. The area does not include Pt. Sherman. FISHING SITES: Chilkoot River, Chilkoot Lake, and others. SKAGWAY SUB-AREA: That portion of the Haines-Skagway Area north of a line from Taiya Point east to the Canadian border and north and east of the Ferebee River drainage (excludes Ferebee River). HAINES SUB-AREA: Remainder of Haines-Skagway Area.	11
G. GLACIER BAY AREA	All marine and fresh waters within the Glacier Bay National Park boundaries excluding the park and preserve north of Cape Fairweather, all east-side drainages of Excursion Inlet, and marine and fresh waters adjacent to, or including, Chichagof Island drainages into Icy Strait, Cross Sound, Port Frederick, Lisianski Inlet, and the Gulf of Alaska south to the north side of, but not including, Goukling Harbor and Hill Island. Islands in this area include, but are not limited to, Yakobi, Inian, Lemesurier, Pleasant, and the northern half of Chichagof. FISHING SITES: Icy Strait, Cross Sound, Bartlett River, Salmon River, Berg Bay, Mud Bay Creek, and others.	13
H. YAKUTAT AREA	All Gulf of Alaska drainages from Cape Fairweather north to, but not including, Cape Suckling. This area includes associated salt water and is bounded inland by the Canadian border and the Bagley Icefield. FISHING SITES: Situk River, Lost River, Ankaun Lagoon, Tsui River, Italo River, Yakutat Bay, and others.	13

AREAS J - P

SOUTHCENTRAL ALASKA SPORT FISH SURVEY AREAS

PAGE

- | | | |
|--|---|-------|
| I. UPPER COPPER-
UPPER SUSITNA
DRAINAGES | See page 9 for Survey Area description. | 19 |
| J. NORTH GULF
COAST/PRINCE
WILLIAM SOUND
AREA | All saltwater and freshwater drainages from Cape Suckling on the east through Prince William Sound to Gore Point (including Gore Point). Also included is that portion of the Copper River drainage downstream of a line between the south bank of Haley Creek and the south bank of Canyon Creek in Wood Canyon. FISHING SITES: Vaklez Bay; Passage Canal (Whittier); Resurrection Bay (Seward); Aialik Bay, Nuka Bay; Hinchinbrook Entrance, Montague Strait, and Chiswell Islands; Eshamy and Shrode creeks; Eyak, Coghill, and Pigot rivers; Eshamy and Shrode lakes; and others. | 13-14 |
| K. KNIK ARM
DRAINAGE AREA | All watersheds of the Matanuska River, Knik River, and Little Susitna River, as well as east-side drainages of the Susitna River from Cook Inlet north to, but not including, the Willow Creek drainage. Also Knik Arm west of the Anchorage municipal boundary and its drainages, including the Nancy Lake Recreation Area. Includes fish caught from the east bank of this portion of the Susitna River. FISHING SITES: Little Susitna River; Fish Creek area; Wasilla, Cottonwood, and Jim creeks; Wasilla, Finger, Lucille, Nancy and Big lakes; Kepler Lake complex; Eklutna power plant raceway; and others. | 14 |
| L. ANCHORAGE AREA | All marine and fresh waters bounded by the Eklutna River drainage on the north, the Chugach Mountains on the east, Knik Arm on the west, and Turnagain Arm to Ingram Creek (including Portage Creek and Placer River) on the south. FISHING SITES: Ship, Bird, Campbell, Portage, and Ingram creeks; Portage, Twentymile and Eagle rivers; Jewel, Campbell Point, Sand, Lower Fire, Mirror, Otter, Clunie, Gwen, Sixmile, Green, Hillberg, Triangle, C Street, Beach, Fish, and Cheney lakes; and others. | 14-15 |
| M. EAST-SIDE SUSITNA
DRAINAGE AREA | All drainages of the Susitna River from its confluence with the Oshetna River downstream to its confluence with the Chulitna River near Talkeetna and including the Oshetna River drainage; all east-side drainages of the Susitna River from Talkeetna to, and including, Willow and Deception creeks on the south; and all east-side drainages of the Middle Fork of the Chulitna River, from near Summit to near Talkeetna. This includes all fish caught while fishing from the east bank of the Susitna and Chulitna rivers from Willow Creek north to near Summit. FISHING SITES: Willow, Deception, Caswell, Montana, Sunshine, Clear (Chunilna), Sheep, Little Willow creeks, Kashwitna, Benka, and Byers Lakes. Does <u>not include</u> Little Susitna River, see page 13, KNIK ARM DRAINAGE AREA. | 15 |
| N. WEST-SIDE COOK
INLET WEST-SIDE
SUSITNA DRAINAGE
AREA | All west-side drainages of the Susitna River, from its confluence with the Chulitna River near Talkeetna to Cook Inlet; all west-side drainages of the Chulitna River from Summit to its confluence with the Susitna, near Talkeetna; and all drainages emptying into Cook Inlet from the Susitna River to Cape Douglas and including Kamishak Bay and other associated salt water. This includes all fish caught while fishing from the west bank of the above river reaches. FISHING SITES: Deshka, Talachulitna, Chulitna, Theodore, and Lewis rivers; Alexander, Polly, and Lake creeks; Shell and Judd lakes; and others. | 15 |
| P. KENAI PENINSULA
AREA | All fresh water and associated salt water of the Kenai Peninsula bounded on the north by Turnagain Arm and including the Granite Creek drainage; on the west by Cook Inlet and including Kalgin Island; and on the east by the Placer River drainage, Kenai Lake and Kenai River watershed, and waters flowing into the Gulf of Alaska west of Gore Point. FISHING SITES: Kenai, Anchor, Ninilchik, Russian, and Kaslof rivers; Deep and Stariski creeks; Hidden Lake; Swanson River and Swan Lake Canoe systems; and others. Includes Kachemak Bay, the Barren Islands, and Cook Inlet waters north of the latitude of Cape Douglas. (Does NOT include Resurrection Bay; see Area J description on this page for Resurrection Bay). | 17 |

ARCTIC-YUKON-KUSKOKWIM SPORT FISH SURVEY AREAS

PAGE

I. UPPER COPPER- UPPER SUSITNA DRAINAGES	All waters and tributaries of the Copper River upstream from a line between the south bank of Haley Creek and the south bank of Canyon Creek in Wood Canyon; also includes the upper Susitna River drainage east of its confluence with the Oshetna River. Does not include the Oshetna River. FISHING SITES: Crosswind, Tyone, Van, Paxson, Summit, Strelina, Sculpin, Hudson, and Susitna lakes; Lake Louise; Gulkana River; and others (Does not include Tangle Lakes, see pages 36 and 37, TANANA RIVER AREA).	19
U. TANANA RIVER DRAINAGES	The Tanana River watershed. FISHING SITES: Chena, Chatanka, Sakcha, Delta Clearwater, Richardson Clearwater, Goodpaster, and Delta rivers; Shaw Creek; Badger Slough; Birch, Quartz, George, Volkmar, Fickling, Tangle, and Chena lakes; Summit, Broad Pass; and other small lakes in the Summit area; Minto Flats; and others.	19-20
V. KUSKOKWIM RIVER- KUSKOKWIM BAY DRAINAGES	The Kuskokwim River watershed. All waters flowing into Kuskokwim Bay; adjacent salt water from Cape Newenham north to the Naskonat Peninsula (north of Nelson Island), and Nunivak Island. This area does not include the Pastolik River, nor any portion of the Tanana River watershed or Yukon River watershed. FISHING SITES: Kanektok, Goodnews, Anink, and Holitna rivers, and others.	20
W. SEWARD PENINSULA- NORTON SOUND DRAINAGES	All waters north of the Yukon River drainage, south of the Selawik River-Kotzebue Sound area, and west of the Yukon-Koyukuk river drainages. This area includes Pastol Bay and all salt water north and west of it in Norton Sound as well as salt water adjacent to the Seward Peninsula, including Spafarief Bay in Kotzebue Sound and the southern half of Eschscholtz Bay, and St. Lawrence Island. FISHING SITES: Unalakleet, Pastolik, Pilgrim, Nome, Fish and Niukluk rivers; and others.	20
X. NORTHWEST ALASKA DRAINAGES	All waters and drainages of the Kotzebue area including drainages of the Selawik, Kobuk, Noatak, Wulik, and Kivalina rivers. All salt water in the northern half of Eschscholtz Bay, including Chamisso Island area, and the northern half of Kotzebue Sound to and including Point Hope.	21
Y. YUKON RIVER DRAINAGES	The Yukon River watershed. All drainages of the Yukon River (including the Alaska portion of the White River drainage in the Wrangell Mts.) from the south side of the Brooks Range to the Bering Sea, from Naskonat Peninsula north to Pastol Bay; from the Canadian border, including the Alaskan portion of the Fortymile and Sixtymile river drainages, west to the Bering Sea. This area excludes all portions of the Tanana and Kuskokwim river watersheds. FISHING SITES: Innoko River, Haul Road/Dalton Highway lakes and streams.	21
Z. NORTH SLOPE BROOKS RANGE DRAINAGES	All drainages north of the Brooks Range flowing into the Beaufort and Chukchi Seas, east of Point Hope and west of the Canadian border, including adjacent saltwater areas.	21

†Include all fishing in the 1,800 yard section of the Kenai River immediately downstream from the Russian River.

††Including Sixmile, Granite, East Fork, and Canyon creeks.

**Set net access is a private road entering the beach approximately 10 miles north of Ninilchik and 8 miles south of the Clam Gulch beach access road.

HARDSHELL CLAMS

The butter clam shell is thick and white. It has heavy concentric growth rings, but no vertical ridges. The shell's inner edge is smooth. Butter clams are 3 to 5 inches long.

Littleneck clam shells are usually white, but may be brown or have brown markings. The shells have concentric growth rings and distinct vertical ridges. Littleneck clams are about 2 inches long.

RAZOR CLAM

Razor Clams have long, narrow, smooth shells that can grow to longer than 7 inches. The shells are covered with a thin tissue-like layer that varies in color from brown to yellowish-brown depending upon the clam size. In older clams the tissue covering is usually eroded. The shells are thin and the shell edges sharp.

General Characteristics of Fish: cut away of operculum (gill-cover) showing one gill arch, filaments, and gill rakers.

King (Chinook) Salmon: small black spots on back and on both lobes of caudal fin; gum line of lower jaw black; scales large; gill rakers less than 25; anal fin rays 15-17.

Silver (Coho) Salmon: small black spots usually occur only on upper lobe of caudal fin and on back; gum line on lower jaw not black; scales large; gill rakers less than 25; anal fin rays 13-15.

Pink (Humpback) Salmon: large oval black spots on back and on both lobes of caudal fin; scales very small; usually over 12 anal fin rays; males develop a pronounced hump during spawning.

Sockeye (Red) Salmon and Kokanee (landlocked form): no distinct black spots on back or tail; 36-40 long, fine, and serrated, closely spaced gill rakers over 12 anal fin rays. NOTE: Kokanee should be recorded separately in the booklet.

Chum (Dog) Salmon: no distinct black spots on back or tail; 18-28 smooth, short, stout, and widely spaced gill rakers; usually over 12 anal fin rays.

Dolly Varden/Arctic Char: round, red, pink or yellow spots on sides, caudal fin slightly forked; 8-12 anal fin rays; no dark green wavy marks on back or dorsal fin.

Lake Trout: body dark green to grayish with oval or irregular white to yellowish spots on sides and back; caudal fin deeply forked; 8-12 anal fin rays; no dark green wavy marks on back or dorsal fin.

Brook Trout: spots on body pale or red with blue halos, but never brown or black; dark green wavy marks on back and dorsal fin; 8-12 anal fin rays.

Cutthroat Trout: spots on body dark brown or black; anal fin rays 8-12; no red band on sides; red to orange slash on underside of lower jaw; upper jaw extends well behind eye in adults.

Rainbow Trout: spots on body dark brown or black; anal fin rays 8-12; reddish band on sides; no red slash under jaw; upper jaw usually does not extend behind eye in adults. NOTE: Steelhead are sea-run rainbows, and should be recorded separately in the booklet.

Northern Pike: dorsal and anal fins positioned rearward; no adipose fin as in the trouts, salmon, grayling and whitefish; long flattened jaws with large mouth and many large, sharp teeth, sides are yellowish-gray.

Arctic Grayling: dorsal fin typically with dark purple edge and much longer (18 or more rays) than in whitefish and fan-like; rows of reddish to orange and/or purple to green spots on dorsal fin; sides of fish are black spotted; scales larger than in trouts.

"Whitefish": several common species that occur in Alaska are the round whitefish, humpback whitefish, least cisco, and sheefish. Whitefish are distinguished from the trout and salmon by the small, weak, or absent teeth and the presence of large scales; distinguished from the arctic grayling by the much smaller dorsal fin (15 or fewer rays). A round whitefish is shown.

Burbot: two dorsal fins and one anal fin present; no adipose fin as in the trouts, salmon, grayling and whitefish; pelvic fins very far forward and just under head; body long and tapering; barbel on chin.

"Rockfish": several species of marine fish also referred to as black bass, sea bass, and red snapper. Rockfish may be distinguished from sculpins (Irish Lords) by the dorsal fin, which has spines on the front half and soft rays on the rear half in the rockfish. NOTE: Handle with care because of spines.

TO SAVE POSTAGE, PLEASE DO NOT RETURN THIS BOOKLET WITH YOUR QUESTIONNAIRE.

Black Rockfish: ("black bass") Black to blue-black with dusky white areas. Jaw extends to rear of eye. To 25 in.

Dusky Rockfish: Color varies from dark brown or black to greenish-brown with pink underside. Dark fish have prominent knob on chin. To 20 in.

Lingcod: Brown to reddish-brown with spots or blotches. Sharp teeth. One lateral line. Long jaw. No barbel on chin. To 5 ft.

Canary Rockfish: Orange with greenish mottling. Lateral line is white to grey. To 30 in.

China Rockfish: Black with yellow spots. Yellow stripe from dorsal fin to rear of body. To 17 in.

Kelp Greenling: Males brown with blue spots, females freckled with brown, 5 lateral lines. To 21 in.

Pacific Cod: Chin barbel. Yellowish brown to gray with mottling. To 39 in.

Quillback Rockfish: Black to brown with large orange areas. Dorsal fin notched deeply. To 24 in.

Redstripe Rockfish: Red lateral line in grey zone bordered by red. Lips dusky. To 20 in.

Halibut: Jaw extends below middle of eye. Lateral line arched over pectoral fin. To 8 ft.

Starry Flounder: Black and yellow bands on fins. To 36 in.

Tiger Rockfish: Black to dark red bars on pink red body. To 24 in.

Yelloweye Rockfish: ("red snapper") Primarily orange. Pale yellow stripe on body. Yellow eye. To 36 in.

Arrowtooth Flounder: Large mouth and numerous sharp teeth. Little arching of lateral line. Upper eye reaches top of head. To 34 in.

Rock Sole: Lateral line arched over pectoral fin. Jaw does not extend below middle of eye. To 24 in.

Dear Sport Angler:

The year 2004 marks the 28th year in which the annual Statewide Harvest Survey has been successfully conducted. The angler response rate has consistently been above average for a survey of this magnitude, and for this we have you to thank.

Your response to this survey assists us in improving our ability to accurately provide statewide estimates of participation, catch, and harvest to our fishery managers. Managers within the Department of Fish and Game use this information to protect and improve the state's recreational fisheries resource.

The results of this survey will be available in the fall of 2005 and are available to the public. Feel free to call us at (907) 267-2369 or email us at SFPUB@fishgame.state.ak.us if we can assist you.

Our web address is: http://www.sf.adfg.state.ak.us/statewide/sf_home.cfm

Thank-you again,

Kelly Hepler
Director, Division of Sport Fish
