Subject: FAA Director coming to Alaska (Confidential)

Categories: Red Category

Hello, Ginger,
We just got word the FAA director,

Michael Huerta,

Administrator

is coming to Alaska this weekend. On Monday, in Anchorage, he will sign a Certificate of Authorization for UAF/GI's Pan-Pacific UAS Test Range Complex. Immediately following that, we will fly our first mission.

We are making plans for a two concurrent press conferences, one in Anchorage and one in Fairbanks. The FAA director will not be able to come to Fairbanks, but the mission will be held at UAF's Large Animal Research facility. The time is set at 11 a.m. so far.

Ginger, the reason I'm writing is because we want to make sure the task force members and industry people are aware and have the opportunity to witness the events, in Anchorage or Fairbanks.

Could you send Courtney Sanborn and me the names and contact information of the UAS task force members and industry people your office is aware of, please?

Of course, Rep. Hughes is top on our list.

As you can imagine, we at UAF are all pulling together for this historical event.

I'm arranging the logistics for Anchorage, so if you need to, give me a shout by email or phone.

Also, my cell is 322-7686.

Thank you.

d
