Now, the NSB has learned the President's Office of Management and Budget (OMB) has withheld the \$13 million until a new gas distribution system is constructed for Barrow at an estimated cost of \$10 million. OMB wants the NSB to pay.

On February 7, Eben Hopson joined officials and attorneys of Barrow's utility cooperative in Washington, D.C. to meet DOI officials about the problem. In a follow up letter to assistant Secretary for Indian Affairs Forrest Gerard, NSB D.C. Legal Counsel William VanNess charged that "OMB'S action in holding hostage the funding for development of the East Barrow field . . . contravenes Federal law . . . and presents a serious potential hazard to the reliability of gas service in the Barrow area."

This continues a dispute, beginning shortly after WWII when the Navy brought in the South Barrow gas field, connected Barrow's federal facilities to gas, and refused to connect Barrow homes until forced to do so by Congress after a 12 year struggle. In 1957, the Bureau of Indian Affairs gerry-rigged a temporary leaky gas distribution system that is still in use today, and has been condemned as unsafe.

Throughout the years, the BIA retained title to Barrow's gas system which was operated by the Barrow Utility and Electrical Cooperative, Inc., originally organized by the Bureau of Indian Affairs.

When the NSB was organized, it began negotiating with the BIA to take over ownership and operation of BIA properties in Barrow, including the Barrow School, and Utility Plant. Both had been allowed to deteriorate badly, and the BIA agreed to bring both up to modern safety standards. Then all three parties signed the tri-party agreement which provided the BIA would pay to modernize Barrow's gas works, after which the NSB would take ownership of the new system and the Barrow Utility Co-op would operate it. But BIA began to quibble about costs, and failed to carry out the agreement, and it now appears the government has disavowed the tri-party agreement, and is insisting the NSB come up with the \$10-\$12 million it will take to rebuild a new system. Now OMB is taking the position that East Barrow Gas field development will be delayed until the NSB ponies up the money promised by the BIA.

This entire affair underscores the shabby treatment the Federal government has historically given the people of Barrow and the entire Arctic Slope, and the rusting, leaking Barrow gas works is a vivid symbol of Federal fecklessness endangering both the people and the land of Alaska's Arctic Coast.

Now, rather than meet its long-standing responsibilities, the government is compounding the danger to public safety in Barrow by holding up East Barrow gas field development. Knowledgeable gas field engineers have quietly warned NSB officials that South Barrow gas field well No. 6, which produces 40%-60% of Barrow's entire gas supply, is in danger of water intrusion, and there is a serious need to bring recently discovered East Barrow gas reserves into production to enable the reworking of old South Barrow wells. Barrow depends completely upon gas. There are no fuel oil reserves. If the endangered South Barrow well No. 6 goes down, lives will be lost.

SUBSISTENCE

Native Leaders Support Federal Subsistence Provisions

Some 200 members of the Association of Village Council Presidents met in Bethel Feb. 25-26 to discuss legislation regarding subsistence and the future of fish and wildlife management in Alaska.

Recognizing the need to protect subsistence, [redacted] Chairman of the powerful legislative D-2 Steering Council on Alaska Lands, told the Bethel meeting [redacted]

[redacted] the [redacted] "The people here have unwritten laws among themselves. Subsistence is a matter of need versus greed, and we should be able to draw the law along those lines."

Cowper also drew a good response when he told the AVCP Caucus he would support legislation requiring all subsistence needs of an area to be met before foreign hunters are allowed to take fish and game. Cowper also said the Dept. of Fish and Game should use local residents in making decisions affecting subsistence.

NSB Mayor Eben Hopson also addressed the group saying that conditions have improved for Native peoples. Section 4 (b) of the Alaska Native Claims Settlement Act, which attempted to extinguish Native subsistence rights "was the last gasp of the 1950's when Native rights extinguishment was being pushed by the Eisenhower administration as a final solution to the 'Indian problem.' Today our subsistence rights are viewed as important constitutional rights in the United States, and as essential human rights by people all over the world who are closer to us now because of modern communications technology, and they look to the United States to establish high standards of justice for Native indigenous people all over the world. . .

"With the encouragement of the Federal government, we organized the Alaska Eskimo Whaling Commission to conserve bowhead stocks, and control and regulate all aspects of the bowhead harvest. . . Thus, we have established the first cooperative management regime for a single endangered migratory subsistence species, a regime entirely under Native control of subsistence hunters, but cooperating with State and Federal agencies. . .

"No longer can we stand aside and complain and advise the government. No more can we enjoy the luxury of serving on advisory committees while letting others make the hard decisions. We are being turned to, to make these hard decisions for ourselves, as well as for our State and Nation. Our management of Alaska's subsistence resources must be undertaken in the cold context of world hunger. We will be managing food as food becomes scarce all over the world. As the world becomes more crowded and hungry, our management of our game, our stewardship over our land will come under increasingly critical attention. . .

"Phase II of our land claims movement will be village-centered, and it will be the strongest and most effective part of our land claims movement. Working together, we will exercise an effective stewardship over our land, and we will prevail."

VIII. FEDERAL LAND MANAGEMENT

WHEREAS, there is a continuing and increasing effort on the part of the federal government to designate vast acreages of federal lands in the West for use, conservation and management without regard for input from the State and local governments of the Western Region; and

WHEREAS, input to federal land classification and management decisions from Western State and local government has been ignored or overridden by administrative and Congressional actions; and

WHEREAS, recent federal land management decisions have tended to be overly restrictive and single-purpose use oriented rather than addressing the diverse needs of all the people; and

WHEREAS, pending federal legislation regarding federal lands in the West, such as H.R. 39, would have the effect of establishing dangerous precedents encroaching upon historical state and local government land, resource and wildlife management prerogatives and violating the fundamental principles of States' rights; and

WHEREAS, federal land management decisions and regulatory authority frequently have unreasonable and confiscatory effects upon adjacent and nearby state, local government, and private lands; and

WHEREAS, the majority of all federal lands in the United States are located in the Western States and these same Western States have the capability to fulfill many of the renewable and non-renewable resource needs of the entire country but are being denied these opportunities by federal land use, conservation and management policies and regulatory controls;

NOW, THEREFORE, BE IT RESOLVED that the Western Conference of the Council of State Governments vigorously opposes H.R. 39 (the Alaska National Interest Lands Conservation Act) and any other pending or proposed federal legislation which usurps States' rights, revokes state management of state resources, ignores input from state and local governments, and revokes established state-federal land selection provisions; and

BE IT FURTHER RESOLVED that the Western Conference of the Council of State Governments urges the federal land management agencies of the U.S. Department of the Interior to join with the Western States to establish a more meaningful process of input from State and local governments to federal land management decisions and policy development; and

BE IT FURTHER RESOLVED that the Western Conference of The Council of State Governments urges federal land management agencies of the U.S. Department of the Interior and the U.S. Congress to be more mindful of their obligations to meet all the needs of the people consistent with the preservation of wilderness values.

Memo to: Marcie
Office of Senator Colletta
From: Sally Smith

April 21, 1978

Here's a copy of the letter sent by Rep. Joe Lucco to Speaker Redmond, Illinois State House of Representatives, and a copy of the resolution they have drafted.

Looks as though things are progressing as we had hoped in Illinois.

Thanks for all your help, Marcie.

Hon. William A. Redmond
Speaker of the House of
Representatives
State House
Springfield, Illinois 62706

Dear Speaker Redmond:

Enclosed is a copy of a resolution drafted by our staff regarding the endorsement and support by the State of Illinois of the position stated by Alaskan Senate Resolution 10 and Senate Joint Resolution 41. As you will recall, Alaskan State Representative Sally Smith recently visited Springfield regarding Alaska's specific federal interest land concerns under Section 17 (d) (2) of the Alaska Native Claims Settlement Act.

We feel that the position advocated by Representative Smith is warranted and deserves the support of the State and General Assembly as advocated in this resolution.

If you have any questions, please contact myself or Don Handy, IL Energy Resources Commission Staff Director.

Sincerely,

Handwritten signature of Joe Lucco
Representative Joe Lucco
Chairman

HOUSE JOINT RESOLUTION

WHEREAS, Members of the Alaska Legislature appeared before members and committees of the Illinois General Assembly and presented the Alaska position on Section 17 (d) (2) of the Alaska Native Claims Settlement Act; and

WHEREAS, We are committed to the right of Alaska and of each sovereign state of the United States to be secure within its geographical boundaries; and

WHEREAS, The Alaska Legislature has announced its position regarding Federal H.R. 39 specifically and the 17 (d) (2) question generally in Alaska SR 10 and SJR 41; and

WHEREAS, We are persuaded by the propriety of the Alaska Legislature's position as expressed in their SR 10 and SJR 41; therefore be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE EIGHTIETH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE SENATE CONCURRING HEREIN, that we endorse and support the positions and resolves expressed in Alaska SR 10 and SJR 41; and be it further

RESOLVED, That copies of this resolution be sent by the Secretary of State to Honorable Jimmy Carter, President of the United States; the Honorable Henry M. Jackson, Chairman, Senate Energy and Natural Resources Committee; the Honorable Morris K. Udall, Chairman, House Interior and Insular Affairs Committee; to the Honorable Charles M. Percy and the Honorable Adlai E. Stevenson, United States Senators; and to each member of the House of Representatives of the United States Congress from the State of Illinois.

1 IN THE HOUSE

BY THE FINANCE COMMITTEE

2 HOUSE JOINT RESOLUTION NO. 84

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 TENTH LEGISLATURE - SECOND SESSION

5 Expressing appreciation to the Arizona
6 House of Representatives for its support
7 of the state's position on amendment of
8 pending Alaska National Interest Lands
9 legislation.

10 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

11 WHEREAS the United States Congress has under consideration legislation
12 which, if enacted, would maintain millions of acres of federal land in Alaska
13 in national preservation areas, without regard to management for and develop-
14 ment of resource values; and

15 WHEREAS the Alaska State Legislature, seeking support for its position
16 that pending Alaska National Interest Land legislation fails to consider
17 other national interests and fails to account and provide for the interests
18 of the state and its citizens, has contacted other state legislatures; and

19 WHEREAS the House of Representatives of the State of Arizona, after
20 welcoming visiting members of the Alaska Legislature and providing opportunity
21 to present this state's position, has adopted House Memorial 2003, urging
22 Congress to consider the needs and desires of Alaska's citizens in enacting
23 Alaska National Interest Lands legislation; and

24 WHEREAS House Memorial 2003 of the 2d session, 33rd Arizona Legislature,
25 serves notice to the members of the Arizona delegation in Congress and to
26 other United States representatives and senators serving on key Congressional
27 committees considering Alaska National Interest Lands legislation that the
28 Arizona House of Representatives urges greater opportunity for resource and
29 energy inventory and development in Alaska lands and recognition that the

1 interests of the state and its citizens in the federal lands should not be
2 ignored;

3 BE IT RESOLVED by the Alaska State Legislature that it sincerely appre-
4 ciates the opportunity provided by the members of the Arizona House of Repre-
5 sentatives to Alaska's legislators to make known the views of the state and
6 expresses gratitude to the members of that legislative body for their expedi-
7 tious treatment and favorable response to our call for public support for a
8 more equitable and representative position with respect to National Interest
9 Lands in Alaska.

10 COPIES of this resolution shall be sent to the Honorable Don Stewart,
11 State Representative in the Arizona Legislature and principal sponsor of
12 House Memorial 2003; to the Honorable Frank Kelley, Speaker of the Arizona
13 House of Representatives; and to the Honorable Ted Stevens and the Honorable
14 Mike Gravel, U. S. Senators, and the Honorable Don Young, U. S. Representa-
15 tive, members of the Alaska delegation in Congress.

STATE OF ARIZONA
33rd LEGISLATURE
2nd REGULAR SESSION

REFERENCE TITLE: Alaska national interest
lands act

HOUSE

H. M. 2003
Introduced
May 10, 1978

Referred on May 10, 1978

Rules _____

Introduced by Representatives Stewart, Akers, Barr, Bradford, Carlson, Cooper, Corpstein, P. Dunn, Elliott, English, Everett, Flynn, Goodwin, Harelson, Hartdegen, Hawke, Hays, Holman, Humphreys, Jeffers, Jones, Jordan, Kay, Kelley, Kenney, Kunasek, Lewis, McCarthy, McConnell, Ratliff, Rigel, Rockwell, Rosenbaum, Skelly, Sossaman, Steiner, Vukceovich, West, Wettaw, Woodward, Wright; Senators Camping, Hayes, Pritzlaff (with permission of Committee on Rules)

A MEMORIAL

URGING CONGRESS TO CONSIDER THE DESIRES AND NEEDS OF ALASKAN CITIZENS IN ENACTING AN ALASKA NATIONAL INTEREST LANDS ACT.

1 To the Congress of the United States:
2 Your memorialist respectfully represents:
3 Whereas, the Alaska Native Claims Settlement Act of 1971, Section 19
4 (d)(2), specified that the Secretary of the Interior may withdraw up to,
5 but not to exceed, eighty million acres of unreserved public land in the
6 State of Alaska for possible addition to the national park, forest, wild-
7 life refuge, and wild and scenic river systems; and
8 Whereas, the U.S. Congress is addressing this issue during the
9 current session; and
10 Whereas, a careful inventory of the mineral potential of the land
11 that may be included in a management category, which would foreclose
12 mineral exploration and development, should be undertaken and completed
13 before its designation into a management category; and
14 Whereas, large blocks of land with identifiable agricultural
15 potential should be included in management systems which would allow for
16 future agricultural development; and
17 Whereas, cooperative federal-state procedures or institutions
18 should be established to make future recommendations or designations on
19 policy, planning and management of Alaska's federal and state land; and
20 Whereas, municipalities in the state oppose any legislation that
21 would create instant land-use classifications severely restricting land
22 and resources without consideration for other land-use potential; and
23 Whereas, passage of this bill without a careful mineral inventory
24 and guaranteed access provisions, traditional environmental and economic
25 impact studies, provisions for future agricultural development, creation

1 of new national forests in the interior of Alaska, completion of the
2 selection process of the state and natives, state game management as
3 guaranteed under the Statehood Act and cooperative federal-state planning
4 and development would be against the best interests of the citizens of
5 the State of Alaska and nation alike.
6 Wherefore your memorialist, the House of Representatives of the State of
7 Arizona prays:
8 1. That Congress consider and incorporate in the Alaska National
9 Interest Lands Act the desires and needs of Alaskan citizens.
10 2. That the Secretary of State of the State of Arizona transmit
11 copies of this Memorial to the President of the United States Senate,
12 the Speaker of the House of Representatives of the United States, each
13 Member of the Arizona Congressional Delegation, each Member of the
14 Senate Energy and Natural Resources Committee and each Member of the
15 House Interior and Insular Affairs Committee.

Our views:

Go to Juneau, see the world

Join the legislature and see the world!

As long as Alaska's lawmakers are traveling all over the country, they might as well consider turning the effort into a useful enterprise, perhaps as advertising to attract new candidates for public office.

Consider: tours from the legislature are leaving once or twice a week these days for such exotic spots as the beaches of Waikiki, the sunny Southwest and even the Midwest, heartland of America.

If the travel bent of the current legislature is carried to its logical conclusion, there might even be Alaska Legislature booths set up at county fairs around the country, or perhaps the legislators could organize as a sort of a summer stock theater group, and hold their own road shows.

But that's getting ahead of things.

At this point, the legislature's tourist fixation is limited to a series of trips to other state capitals, in an attempt to lobby for support for the Alaska legislature's position on d-2 lands.

Unfortunately, only half of the legislature has a position on d-2 lands, and that position is only a negative one. The State Senate is on record in opposition to H.R. 39, the d-2 land bill making its way through the U.S. House. The State House is on record for stalling on the issue.

Since d-2 lands legislation, creating new national parks and refuges in Alaska, is due out of Congress by December of this year, neither the State House position on the issue nor the State Senate position is particularly fruitful.

And traveling around the country to advertise the fact that Alaska's legislators can't agree on a constructive viewpoint on the d-2 issue doesn't do a whole lot for the state either.

But maybe the traveling lawmakers will attract a few tourists to the state. That would give us some return for the taxpayer dollars being used to fund the excursions.

The ABM-TV furor

Dear Editor:

After reading Conn Murray's "call to arms against ABM," my initial negative reaction to such a piece of hype was replaced by gratitude for your exposure of the character of ABM's opposition.

His position that only long-term Alaskans can possibly know what's right or wrong for the local populace — seemingly always espoused by those who will benefit from maintenance of the status quo — is neither new nor valid. However, his argument that we should be forever appreciative of the efforts by "public-spirited" advertisers and broadcasters to bring live sports events, at great expense, to Alaska in the community interest is somewhat novel.

It's pure hogwash, of course, because that effort was nothing more than a smart investment by local businessmen

United States (AHAUS) registr

Legislators plan lobby trips

From Our Juneau Bureau

JUNEAU — With one successful trip out of the way, Alaska legislators are planning a series of visits to other state legislatures in the next several weeks to lobby against pending d-2 legislation in Congress.

Rep. Sally Smith, D - Fairbanks, is scheduled to meet with the speaker of the Illinois House today, and Sen. Pat Rodey, D - Anchorage, will travel a week later to Arizona.

A TRIP has been scheduled for Delaware next Wednesday, but Alaska legislative officials are still scrambling to find somebody who is willing to make the trip. A scheduled visit to Ohio fell through when no one could be found in time to make the trip eastward, but organizers of the

visits are hopeful another meeting can be arranged in that state, probably on April 18. Michigan may get a visiting Alaska legislator or two on the 17th, if current plans remain firm.

Hawaii plans to adjourn its legislature by next Friday, and Alaska officials say they will have to send a delegation to that state after the legislators have gone home. Missouri and Connecticut are said to be interested in receiving a visit from Alaska, but no dates have been set for trips to those states.

State Sen. Bill Sumner, R-Anchorage, and George Hohman, D-Bethel, and Smith traveled to Colorado last month on the first lobbying trip. After meeting with legislative leaders there and

comparing notes on federal land policies, the Alaska delegation returned convinced the Colorado lawmakers will endorse a resolution supporting efforts to reduce the size of areas to be set aside as wilderness and to guarantee access and state management of wildlife.

The Alaska legislators also are optimistic their Colorado counterparts will write the Colorado congressional delegation urging opposition to the so-called Udall bill and its plan to set aside about 100 million acres of federal land in Alaska as wilderness.

The legislative lobbying trips are paid for with tax dollars, although legislators foot the bill for their own lodging and meals.

STATE NEW C PLANNING

On Thursday evening, 7 p.m. at the Anchorage Hotel, Morton Hoppenfeld, Executive Director of the Capital Site Planning Commission, will address entitled PLANS FOR THE CITY. The public is invited to attend.

An exhibition of a model of the City will be on display at the Fine Arts Museum from April 10 to 1978.

AO-01 0115

SPRING FEVER

FUR SAVINGS

1/2 OFF

Interior Official On D2

By BETTY MILLS

Times Washington Bureau

WASHINGTON — Interior Department officials came under close, sometimes hostile, questioning today by members of the House Merchant Marine and Fisheries Committee as the D2 battle progressed to its second legislative front.

Robert L. Herbst, assistant Interior secretary for fish, wildlife and parks, told the committee that the Carter administration regards the D2 bill approved last month by the House Interior Committee as "a monumental effort for conservation."

But Herbst then proceeded to tick

off substantial changes that the administration wants made in the bill, which withdraws about 90 million acres in Alaska as part of the national parks, wildlife refuges, forest and wild rivers systems.

Among the changes sought by the administration are restoration of acreage cut from the Arctic National Wildlife Range and four other refuges, and deletion of the entire section in the bill which sets up a process of "unlocking" D2 areas for mineral access.

Herbst came under heavy fire from several Merchant Marine Committee members for his position that there should be no agricultural de-

velopment on wildlife refuges.

Rep. Don Young, R-Alaska, plans to try again with the amendment that he failed to win in the House Interior Committee to put portions of the Yukon Flats National Wildlife Refuge under the jurisdiction of the National Forest Service to allow agricultural development. The Yukon Flats area, which includes the communities of Circle and Young's hometown of Fort Yukon, is regarded by the state as a prime prospect for future agricultural development.

"The native selections in the Yukon Flats area total over three million acres and will be ample to sustain whatever agriculture they deem necessary to complement village life," Herbst said. "We urge the committee to restore the full integrity of the Yukon Flats area as a wildlife refuge and to strike the language in the bill permitting the state to obtain and then dispose of public lands for agribusiness."

Rep. Robert L. Leggett, D-Calif., chairman of the subcommittee on fisheries and wildlife conservation and the environment, said he expects no more than 50,000 acres to be developed for agricultural purposes in the next 25 years.

"I don't think the noise of agriculture will have much effect on the ducks and geese up there," Leggett said. "I don't think we need to worry about Tenneco coming up there with a huge business. The probability of that happening is rather lean."

Rep. Les Aucoin, D-Ore., also questioned Herbst repeatedly about the fact that lands will be available to the natives for agricultural development in the Yukon Flats, but not to the state.

"Is there something unfragile about the lands the natives will use? Aren't the lands adjacent and similar?" Aucoin asked.

In another point picked up by Young and Rep. John Dingell, D-Mich., the Interior Department conceded that the bill approved by the Interior Committee would affect the present mineral entry authority of the agency on all national wildlife refuges.

"When we passed the refuge act, refuges were regarded as a flexible management tool, but now were going to change the refuge act through this bill. This is a left-handed monkey wrench in H.R. 30 as approved by the Interior Committee," Young said.

Under pressure from Dingell, Herbst agreed to supply for the committee record an analysis on how H.R. 30 would affect mineral entry under the Refuge Administration Act, and which refuges in the Lower 48 states would be opened and which would be closed.

MEMORANDUM

September 1, 1977

SUBJECT: Request for Convening Dates of State Legislatures, and Chairmen of State Natural Resources Committees (W.O. #4292)

TO: The Honorable Mike Colletta
The Honorable Steve Cowper

FROM: A. R. Latham
Research Analyst

Enclosed please find a xeroxed copy of a table giving the convening dates and length of sessions of state legislatures. It is apparent that very few legislatures are in session now. The only ones which may be are those with no limitation on session length. I understand that California is still in session, for example.

The typed table attached to this memo includes the data you requested on "Natural Resource" committees.

Stephen Cowper, Esq.
Suite D, Nerland Bldg.
Fairbanks, Alaska 99701

Dear Steve:

In line with our conversation concerning a lobbying effort and its effectiveness if concentrated upon key members of Congress, I am enclosing a list of those members of Congress who have shown a willingness to buck the "party line" and have shown some disinclination to vote along the lines espoused strictly by the environmental movement.

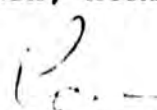

Included in this list are members of the House who were given a score of 75 or below by the League of Conservation Voters and who either voted against an Administration amendment to terminate 16 water projects or against the common situs picketing bill, or failed to vote altogether on either of these two measures.

With respect to the Senate, we have included those who received a score of 75 or below from the League of Conservation Voters who either voted against an amendment to cut 7 water projects, or against a bill to terminate funding for the Clinch River nuclear breeder reactor project, or failed to vote altogether on either of these two measures.

When Tony Motley returns to D.C., I will check our list against the list he has been compiling for similarities as well as differences.

Yours very truly,

BIRCH, HORTON, BITTNER & MONROE

Ronald G. Birch

COMMITTEE ON APPROPRIATIONS

WASHINGTON, D.C. 20510

JAMES R. GALLOWAY
CHIEF COUNSEL AND STAFF DIRECTOR

February 22, 1978

Senator Mike Colletta
Vice Chairman
Steering Council for Alaska Lands
1016 West 6th Avenue
Anchorage, Alaska 99501

Dear Mike:

This letter will communicate my opinion regarding whether the Council should endorse a specific piece of d-2 legislation. I believe that the Council can be more effective by endorsing general principles. No one knows what bill will be utilized as the markup vehicle, and the Council's interests are better served by communicating its concerns through policy statements until the markup vehicle has been determined.

I also understand that the Council will be considering the extent to which federal public lands should be committed to cooperative management. It continues to be my position that only those lands specifically considered as part of d-2 legislation should be deciated to cooperative management. Other federal lands, specifically those remaining d-1 lands, should remain under the jurisdiction of the Bureau of Land Management and the procedures established by the Federal Land Policy and Management Act of 1976, commonly referred to as the BLM Organic Act.

I would appreciate it if my thoughts on these matters could be communicated to the Council members. Let me know if our office can be of any assistance to the Council.

With best wishes,

Cordially,

TED STEVENS
United States Senator

LETTER TO THE EDITOR

Gentlemen:

The enclosed copies of letter to Congressman Young and the Akron Beacon Journal are self-explanatory. I am asking you to support CMOL and our efforts to gain national recognition for the Ohio Wilderness Restoration Act.

Sincerely,

TOM TURNER
 President,
 Citizens for the Management of
 Ohio Land
 201 East 51st Avenue
 Anchorage, AK 99503
 January 5, 1978

Congressman Don Young
 Russell Senate Office Building
 1210 Longworth
 Washington, D. C. 20510

Dear Congressman Young:

As a former resident of Ohio and a concerned environmentalist, I am alarmed at the almost total destruction of the Ohio wilderness system by wanton, greedy developers. I would like to introduce legislation to Congress, The Ohio Wilderness Restoration Act, which would save the remaining Ohio wilderness and prevent further development in Ohio. The enclosed copy of a letter to the Editor of the Akron Beacon Journal explains the necessity of such an Act and the accompanying map depicts those areas which are worthy of wilderness restoration. I ask you, Congressman Young, to support Ohio's wilderness and sponsor this proposal by introducing it to the 1978 Congress. If you accept, I would be more than happy to furnish you with a detailed draft of the Ohio Wilderness Restoration Act.

Environmentally yours,

Thomas R. Turner
 President, CMOL
 Citizens for the Management of
 Ohio Lands

Editor

Akron Beacon Journal
 44 E. Exchange Street
 Akron, Ohio 44328

Dear Editor:

As often expressed by Ohio Congressman John Seiberling, the preservation of ecosystems from the encroachment of mankind is of prime importance in consideration of the Alaska D-2 land issue. Arctic ecosystems cover a wide variety of wildlife and extend entirely across the north half of North America and Siberia. As compared to other ecosystems in the United States, Arctic ecosystems are the best preserved, largely because their climatic conditions make them unsuitable for human habitation.

Of equal or possibly more importance is the preservation of those ecosystems which have already suffered degradation from the hand of man. Since Ohioans have shown great concern for the preservation of Alaska's eco-

LETTER TO THE EDITOR

Continued from page 7

systems through the efforts of Congressman Seiberling, Ohio should be one of the first states to initiate the restoration of their wilderness environment. The ecosystems of Ohio have also supported a rich and varied wildlife which has been largely despoiled by man's activities. It is not too late to save Ohio, if we act now. A five year moratorium on all land transactions, construction and industrial development is necessary while the interest lands are studied for their suitability for wilderness classification. After the moratorium, a minimum of 40% of Ohio land would be classified into one of the four national park systems. The lands in question could be easily purchased by the Federal Government and would offer Ohio a unique opportunity to preserve, protect and enjoy its wilderness heritage.

The Ohio Wilderness Restoration

Act, soon to be introduced into Congress will answer the need to restore Ohio's wilderness, will preserve and protect the rapidly deteriorating ecosystems of Ohio and will enrich the lives of Ohio's citizens. This Act deserves the whole hearted support of all Ohioans and Alaskans. Write your Congressman today, before it's too late. Support Ohio's wilderness heritage.

Yours for a cleaner earth,

Tom Turner
Anchorage, Alaska

We can't speak for Congressman Young, Mr. Turner, but The ALASKA MINER wishes CMOL every success in its endeavors.

FIRE IN THE HOLE

Continued from page 4

to cut back on the use of oil and natural gas will prove to be a major drag on economic growth. In addition, the report sees policy moving toward "an overriding concern for the protection of the environment that may cause policy-makers to lose sight of other compelling economic and social objectives that are more important to blacks."

The NAACP calls for deregulation of oil and gas prices and more emphasis on developing other sources of energy, such as nuclear power, solar power, and oil shale. The position of the liberal association is almost identical to that of the conservative oil industry, and proves that economic analysis sometimes makes for stange bed-fellows.
