General Information About AIDA Financing Programs

Q. What is the Alaska Industrial Development Authority (AIDA)?

A. The Alaska Industrial Development Authority (AIDA) is a public corporation of the State within the Department of Commerce and Economic Development, but with separate and independent legal existence. The Authority was established by the Alaska Legislature in 1967 to promote, develop and advance the general prosperity and economic welfare of the people of the State of Alaska, with particular emphasis on relieving the problems of unemployment. AIDA is governed by a Board of Directors appointed by the Governor consisting of the Commissioner of Commerce and Economic Development, the Commissioner of Revenue, one other state Commissioner, and two members from the public. The affairs of the Authority are managed by an Executive Director who is appointed by the Board.

AIDA has three principle methods to provide financing for businesses. One method involves purchase by AIDA of federally guaranteed loans. This method is explained at the end of this brochure. The other two financing methods involve the use of tax exempt bonds.

The Authority is authorized to issue tax exempt bonds for eligible projects in accordance with Section 103 of the Internal Revenue Code. Since these bonds are not subject to federal (or State) income taxes, both the bonds and the loans financed by the bonds will carry lower interest rates than their taxable counterparts.

The differential will vary over time, but generally a loan based on tax exempt bonds will bear an interest rate 2 - 3% less than a comparable loan not based on tax exempt bonds.

Q. What kinds of projects are eligible for tax exempt financing?

A. A surprisingly wide range of projects are eligible. Most types of commercial and industrial activity involving the acquisition or construction of new plant and equipment will qualify. Some examples of recent projects are given below.

- Construction, improvements and equipment for an air cargo facility in Anchorage; bonded amount — \$4,000,000.
- Purchase of marine, diesel, aircraft and small engine repair service in Palmer; bonded amount — \$90,000.
- Purchase of a building and bulk fuel facilities for applicant's business operations in Fairbanks; bonded amount — \$235,000.
- Construction of a commercial warehouse for lease in Anchorage; bonded amount — \$400,000.
- Construction of a 66 unit mini storage building in Soldotna; bonded amount — \$135,000.
- Construction of additional space for a shopping center in Juneau; bonded amount — \$920,000.
- Purchase of aircraft and related equipment in Anchorage; bonded amount — \$1,400,000.
- Construction of a building with four shop bays and two acre gravel pad in Deadhorse; bonded amount — \$570,000.
- Purchase and remodeling of an office building in Anchorage; bonded amount — \$120,000.
- Construction of a combination office and hotel building for owner occupancy and lease in King Cove; bonded amount — \$1,000,000.
- Construction of a building and warehouse for use of supply company in Barrow; bonded amount — \$1,310,000.
- Acquisition, improvements and equipment for industrial and manufacturing facilities on Metlakatla Island; bonded amount — \$7,000,000.

Certain types of expenses are not eligible for tax exempt financing. For instance, inventory, working capital, and refinancing loans are not eligible, although many of these types of loans do qualify under the AIDA federally guaranteed loan program explained at the end of this brochure. No tax exempt financing can be used for any of the following: golf course, country club, massage parlor, tennis club, skating facility, racquet sports facility, hot tub facility, suntan facility, or racetrack. No more than 25% of an issue can be used to finance facilities the primary purpose of which is one of the following: retail food and

beverage services, automobile sales or services, or the provision of recreation or entertainment.

Q. Who can apply for tax exempt financing? Is it difficult to apply?

- A.** Private-for-profit companies and individuals are eligible for AIDA tax exempt financing. It is not very difficult to apply as can be seen by reviewing the basic information requested in the preliminary eligibility application included in this brochure. This application is used to make a preliminary determination of eligibility for tax exempt financing. Only in rare cases is additional information required to make a determination of eligibility.

Since the Authority is not a primary lender, a borrower must locate a financial institution, such as a bank or mortgage company, that will be the primary lender. This primary lender will be responsible for funding from 10% to 100% of the loan, depending upon the type of financing involved.

Q. Are there specific restrictions that apply to tax exempt financing?

- A.** There are two major restrictions. First, the amount of tax exempt revenue bonds that can be issued for any one project may not exceed \$10 million, unless the project is an exempt facility. (Examples of exempt facilities are: airports, docks, wharves, mass commuting facilities, parking facilities, or any storage or training facilities that are directly related to these facilities; air or water pollution control facilities, or water, sewer or solid waste disposal facilities.)

The more complex restriction is the \$10 million capital expenditure test. Please note that this provision applies only when the total amount of outstanding tax exempt financing for an applicant exceeds \$1 million. This test requires that for three years prior to and three years after the issuance of tax exempt bonds, the project owner(s) may not exceed \$10,000,000 in total capital expenditures within a given local government jurisdiction. Capital expenditures are defined as project costs which include land and depreciable assets. The capital expenditure test applies to all relevant capital expenditures, not just those financed with tax exempt bonds. For instance, if tax exempt bonds for project "A"

were issued on December 1, 1983, then the capital expenditures of the project owner could not exceed \$10,000,000 within the given local government jurisdiction for the period December 1, 1980 through December 1, 1986. If the project is to be leased, the capital expenditures of principle lessees must also be taken into account.

Q. What types of tax exempt financing programs does AIDA offer?

- A.** AIDA has two major types of tax exempt financing, the umbrella bond program and the revenue bond program. Under the umbrella bond program, the total loan cannot exceed 75% of the lesser of purchase price or appraised value of the asset being financed. The loan term can be up to 25 years on real estate and up to 15 years on equipment. The Authority will buy up to 90% of a loan, up to a maximum of \$1 million, with the lender holding the remainder. If the AIDA participation is above \$1 million (and below \$10 million) AIDA will buy up to 80% of the loan. The Authority will then package a number of the loans together, to reduce costs, and sell bonds to provide funds for purchasing these loans (hence the term umbrella bonds). These umbrella bonds are secured by the loans themselves, and the full faith and credit of the Authority. (Please note that although these bonds are general obligations of the Authority, they are not obligations of the State of Alaska.)

Under the revenue bond program, the loan can be up to 100% of eligible, actual costs. With revenue bonds, AIDA functions only as a conduit between the borrower and lender. The lender must agree beforehand to purchase all of the bonds. AIDA does not have any financial participation, and the bonds are not backed by the Authority.

Both of these programs are explained in more detail below.

A.I.D.A. Umbrella Bond Financing Program

Q. How does a borrower apply for financing under an AIDA umbrella bond financed loan program?

A. The first requirement is for the borrower to locate a qualified financial institution (generally a bank) that will be the primary lender. Next, the borrower and lender complete the preliminary eligibility application form and send it to the Authority with a \$100 nonrefundable fee. The information on the application is used only to determine eligibility for tax exempt financing. No credit decisions are made at this stage. If the project and borrower are eligible, the AIDA Board will adopt an Eligibility Resolution for the project.

Caution!! Any funds spent before this resolution is adopted are not eligible for bond financing.

Q. After the Eligibility Resolution is approved, what are the next steps in obtaining financing?

A. The remaining steps are listed below:

1. Borrower furnishes lender full credit package, including as applicable: credit reports, current financial statements, appraisal, cost figures, lease information, business history, business income, proforma statements, three years of income tax returns, loan application, loan summary, purchase agreements, soil tests, and any other information as requested.
2. The lender approves the credit and forwards it to the Authority for participation approval.
3. The Authority reviews the credit and, if approved, issues a commitment letter to the lender specifying an interim funding rate, the target rate. The permanent rate of interest on the AIDA portion will be set on completion of the bond sale.
4. The commitment, as issued, is accepted by lender and borrower, and returned to the Authority along with a 1% nonrefundable commitment fee.
5. Lender closes loan to borrower and submits documentation to AIDA for funding as specified in the commitment letter.
6. When an adequate dollar volume of loans is available to conduct a bond sale, the AIDA

Board will approve a bond sale resolution. The bond sale then must be approved by the Governor.

7. Finally, the Authority sells the bonds, which determines the permanent rate of interest and of bond costs. All loan financing is net of bond costs.

Q. What are the AIDA charges for this financing, and what is the rate of interest on this type of tax exempt financing?

A. Some of the charges have been mentioned. Currently, there is the \$100 preliminary application fee and the 1% commitment fee to the Authority. The bond sale costs vary, but are usually about 3 to 3½% of the loan amount. Interest rates are determined by the market place, and hence vary. As a guide, the AIDA portion of a long term loan will generally carry an interest rate approximately equal to the Weekly Bond Buyer's Revenue Bond Index plus ½ to 1%.

Q. What type of security is required by AIDA for these loans?

A. AIDA's participation must be secured by a first lien on the primary collateral being purchased. Also, if leases are involved, the Authority must have first assignment of the leases. Other security may also be required.

AIDA Revenue Bond Financing Programs

Q. How does a borrower apply for financing under the AIDA revenue bond financing program?

- A.** The first requirement is for the borrower to locate a purchaser or purchasers of the revenue bonds. This purchaser (referred to here as the lender) must agree to buy 100% of the revenue bonds issued by AIDA for this project. Next, the borrower and lender complete the preliminary eligibility application form enclosed herein and send it to the Authority with a \$100 nonrefundable fee. The information on the application is used only to determine eligibility for tax exempt financing. No credit decisions are made at this stage. If the project and borrower are eligible, the AIDA Board will adopt an Eligibility Resolution.

Caution!! Any funds spent before this resolution is adopted are not eligible for bond financing.

Q. After the Eligibility Resolution is approved, what are the next steps in obtaining financing?

- A.** The remaining steps are listed below:
1. The borrower furnishes lender full credit package, including as applicable: credit report, tax returns, current financial statements, appraisal, cost figures, lease information, business history, business income, proforma statements, three years of income tax returns, purchase agreements, job certification form, and any other information as requested.
 2. The lender approves the credit and forwards it to the Authority along with an offer to purchase the bonds.
 3. The Authority reviews the credit, and if approved, the AIDA Board will approve a bond sale resolution. The bond sale must then be approved by the Governor.
 4. Finally, the bonds are sold (to the lender) and the loan is closed.

Q. What are the AIDA charges for this financing, and what are the rates of interest on this type of tax exempt financing?

- A.** The current AIDA charges are the \$100 preliminary application fee, and a financing fee

of 1% for the first \$1 million of bonds, declining to ½% for the next \$4 million, and ¼% for the next \$10 million of bonds, then .1% above that amount (please note that only an exempt project may exceed \$10 million worth of bonds). The interest rate on the loan and any other charges are determined jointly by the borrower and the lender. AIDA is not involved in these determinations.

Q. What types of security are required by the Authority on these loans?

- A.** Since the full faith and credit of the Authority is not involved in these transactions, AIDA has no specific security requirement. The security requirements for the bonds are negotiated between the lender and borrower.

AIDA Federally Guaranteed Loan Program

Q. Does AIDA have a loan program to finance accounts receivable, inventory, working capital, equipment, and some refinancing of existing debt?

A. The AIDA federally guaranteed loan program can assist in all of these areas. The Authority will provide up to \$500,000 per borrower by purchasing from a lender a participation in a loan that is guaranteed by the United States or an agency or instrumentality of the United States, including (but not limited to) the Small Business Administration (SBA), National Marine Fisheries Service (NMFS), Farmers Home Administration (FmHA), and Federal Aviation Administration (FAA).

Q. How does a borrower apply for financing under the AIDA federally guaranteed loan program?

A. To date, SBA loans have been the most active in this guarantee program. The following procedures are used when a lender submits a request to AIDA on the guaranteed portion of an SBA loan. The procedures for NMFS, FmHA and FAA follow the same basic format.

The AIDA purchase of federally guaranteed SBA loans consists of the following six steps:

1. The lender approaches SBA with loan request and receives SBA Authorization and Loan Agreement (Form 529B).
2. The lender submits request to AIDA to purchase the guaranteed portion containing:
 - a) transmittal letter including requested funding date and a brief description of the loan proposal; and
 - b) a copy of the SBA Form 529B, Authorization and Loan Agreement.
3. The Authority issues a commitment to purchase including:
 - a) reservation of funds for specific borrower and project; and
 - b) a firm interest rate for loan funding within 60 days.

NOTE: Longer term commitments will stipulate that the AIDA rate will be that rate which is in effect 30 days prior to the requested funding date (construction projects).

4. The lender closes the loan, and forwards documents to SBA for finalization.

5. The lender forwards the request for funding to the Authority including:

- a) the original executed, SBA Form 1084;
- b) a copy of the original note; and
- c) a certified transcript of the outstanding balance on the loan.

6. Upon receipt of proper documentation AIDA will issue a check to the lender for the guaranteed portion of the loan, and instruct the lender on the monthly remittance procedure.

Q. What are the AIDA charges for this financing, and what are the rates of interest on these loans?

A. AIDA assesses no fees on these loans. The composite rate of interest to the borrower on a guaranteed loan which is purchased by the Authority may not exceed the rate charged by the Authority by more than 1.5% for loans of \$100,000 or less, or by 1% for loans in excess of \$100,000. Presently the Authority's rate is equal to the Moody Aa Corporate Bond Index and is fixed for the entire term of the loan.

Q. What type of security is required by AIDA on these loans?

A. Since the Authority purchases only the federally guaranteed portion of the loan, the Authority requires no further security on the loan. Security is required by the lender and/or SBA.

Q. Where can a person get more information on all AIDA financing programs?

A. Please contact your regular lender for more details or contact the Alaska Industrial Development Authority, 1577 "C" Street, Anchorage, Alaska 99501-5177, phone (907) 274-1651.

ALASKA INDUSTRIAL DEVELOPMENT AUTHORITY

1577 "C" STREET • SUITE 304 □ ANCHORAGE, ALASKA 99501-5177 □ (907) 274-1651

Date _____

This application is submitted to the Alaska Industrial Development Authority for the purpose of determining PRELIMINARY ELIGIBILITY for financing under a tax-exempt bonding program—FUNDS SPENT PRIOR TO THIS PRELIMINARY DETERMINATION WILL NOT QUALIFY FOR PARTICIPATION. Please do not complete in pencil. Attach additional sheets if necessary.

SECTION I

1. Name and address of applicant: (Last Name, First Name, Middle Initial)

_____ Phone No. _____

2. General description of the project: Include both a physical description of the project, and a description of the uses of the project. Information should be provided about such items as the size of the facility, whether land purchase is involved, if the project is new construction or if there will be acquisition and renovation of an existing facility, and so forth. Examples of uses of a facility would be as a fish processing facility, as warehouse space, or as a welding shop. If a project is to be leased, include a description of the uses of the project by all the principle lessees.

3. Location of project: If real estate give both common address and complete legal description; if non-mobile personal property give legal description and address of location where personal property will be installed and used: (Please be specific)

Common Address _____

Legal Description _____

Recording District _____
City _____

4. Is there any purchase of real or personal property?
YES () NO ()

If yes, please provide the following information:

- A. Attach a copy of the purchase agreement.
- B. List the names of all of the sellers.

C. Are the sellers or any other owners of the subject property during the previous five years related to the applicant in any way (same person, spouse, blood relative, tenant or other business relationship)?
 YES () NO ()

D. If yes, please explain: _____

Note: Since tax-exempt bonding cannot be used for refinancing, any situation where the seller of a facility would remain a substantial user of the facility after the sale would not be eligible for tax-exempt bonding.

5. If real property, indicate the form of ownership—lease or fee: _____

- A. If collateral or project is a vessel, complete Appendix A.
- B. If collateral or project is mobile equipment other than vessels complete Appendix B.

6. Total loan request: \$ _____ Bank Share _____ AIDA Share _____

7. Value of (completed) project: \$ _____

8. If construction and/or renovation is involved, indicate approximate dates of commencement _____ and completion _____.

9. Upon AIDA funding of the project, estimate the number of permanent jobs which will be created or jobs which will be continued which otherwise would be eliminated: _____

SECTION II

10. Status of Applicant:

- () Individual(s)
- () Partnership
- () Other (Specify) _____
- () Limited Partnership
- () Corporation - (State of Incorporation) _____

Alaska Business License No. _____

11. A. If applicant is a corporation, indicate at a minimum the names of the president and major shareholders (10% or over) and their percentage of ownership: (Last Name, First Name, Middle Initial)

(Name)	(Percentage)
President	
_____	_____
_____	_____
_____	_____
_____	_____

B. If the applicant is a partnership or limited partnership indicate at a minimum the names of all general partners and major limited partners (10% or over) and the percentage of ownership interest: (Last Name, First Name, Middle Initial)

(Name)	(Type of Partner)	(Percentage)
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

12. A. Do you or a member of your family (spouse or blood relative) or corporation or a partnership in which you own a 5% or more interest have any outstanding tax-exempt financing in Alaska?
 YES () NO ()

B. If your answer to question 12A is yes, please provide the information requested below for all applicable projects.

Project 1

- (1) Name of borrower(s) _____
- (2) Original amount \$ _____ (5) Where financed _____
- (3) Date obtained _____ (6) Project location _____
- (4) Current balance \$ _____

Project 2

- (1) Name of borrower(s) _____
- (2) Original amount \$ _____ (5) Where financed _____
- (3) Date obtained _____ (6) Project location _____
- (4) Current balance \$ _____

13. A. Do you or a member of your family (spouse or blood relative) or a corporation or a partnership in which you own a 5% or more interest have an application pending for tax-exempt financing in Alaska?
 YES () NO ()

B. If your answer to question 13A is yes, please provide the information requested below for all applicable projects.

Project 1

- (1) Name of borrower(s) _____
- (2) Total amount applied for \$ _____
- (3) Through whom was the application made _____
- (4) Location of project _____

Project 2

- (1) Name of borrower(s) _____
- (2) Total amount applied for \$ _____
- (3) Through whom was the application made? _____
- (4) Location of project _____

Questions 14 and 15 request information that is pertinent to the "capital expenditure rule" of the federal tax code. The applicant must complete Questions 14 and 15 only if the sum of the following three items exceeds \$1 million. The three items are:

- (1) Amount of outstanding tax-exempt financing—See question 12;
- (2) Amount of pending tax-exempt financing—See question 13; and
- (3) Amount of financing requested in this application—See question 6.

14. In answering this question, do not include the amount being requested in this application.

A. Indicate the total amount of capital expenditures for land, buildings, or equipment made by you or any related person within the local government jurisdiction where this project will be located for the last three (3) years:

B. Estimate as above the next three (3) years: _____

15. Please provide the following information for all tenants or lessees who will be using 10% or more of the project (other than applicant). See question 14A for the meaning of the term capital expenditures.

Name of Tenant of Lessee	Approximate % of Project	Capital Expenditures Last 3 Years	Capital Expenditures Next 3 Years
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

APPLICATION MUST BE SIGNED BELOW AS APPLICABLE, and forwarded with the \$100.00 fee. If application is not signed, it will be returned unprocessed.

The information on this form will be used to determine preliminary eligibility for financing under a tax-exempt bond program. If the project is determined to be eligible, the AIDA Board of Directors will adopt an Eligibility Resolution formalizing this determination. Funds spent prior to formal adoption of the Eligibility Resolution will not qualify for AIDA participation. The Eligibility Resolution expires after one year from the date it is adopted.

The undersigned certify the information submitted above and answers to the above questions are true and correct to the best of their knowledge.

Originator: _____

Applicant

Address: _____

Applicant

APPENDIX B
Mobile Personal Property (Other Than Vessels)
Including Aircraft, Trucks, and all movable Equipment

1. The location for property tax purposes of the equipment and the name of the taxing jurisdiction (if any) will be: _____

2. The residence of the owner and/or operator will be: _____

3. In the case of aircraft and trucks, the place passengers and/or cargo will be loaded and unloaded will be: _____

4. In the case of equipment, if the item will leave the incorporated municipality (see 1), the frequency and duration of absence will be: _____

5. The place where routine maintenance and servicing will be performed is: _____

6. The place where major overhaul will be performed is: _____

SBA §503 LOAN PROGRAM

The Small Business Administration §503 Program was created in October, 1980. The program provides funds for up to 40% of an expansion project's costs for a term of up to twenty-five years at a fixed rate below market rate interest.

The §503 Program is generally for healthy, established small businesses. It provides fixed asset financing, land and building purchase, construction, long-term leasehold improvements and equipment purchases. The program is not for developers or speculators; the small business must utilize the premises. The project must have a positive effect on employment. Jobs must be created or retained because of the project. Project size generally ranges from \$500,000 to \$2,000,000.

A bank or another private lending institution or private individual and the Railbelt Community Development Corporation (RCDC) are the two lenders in this program. The private lender's rate, term, and fees are not fixed assets by the SBA, but must be reasonable. A first mortgage on all fixed assets is the collateral the private lender receives.

The RCDC is a subordinate lender. The RCDC can lend a maximum of forty percent of the project, up to \$500,000. The RCDC sells debentures, guaranteed 100% by the SBA, through the Federal Financing Bank. Under current SBA procedures, the rate of interest will be approximately the rate of U.S. Treasury 25-year bonds at the date the debentures are sold. Recently, this rate has ranged from 11% to 13%. The term of the loan is 15, 20, or 25 years.

If approved, the SBA issues an authorization committing the SBA to do the financing. At this point, the bank can commence interim financing of the project if construction is involved. When the project is completed, the debenture will be sold and the bank paid.

ELIGIBILITY REQUIREMENTS FOR SBA §503 GUARANTEED DEBENTURES:

- A) A healthy small business seeking to expand.
- B) Must be for profit and must be unable to obtain funds for the entire project from private sources.
- C) Net worth of less than \$6,000,000 and net earnings of less than \$2,000,000 (after taxes) on average of last two years.

- D) Cannot be used to buy buildings as passive investments.
- E) The individual owners of the business may own the purchased assets if the percentage ownership of the assets is identical to the ownership of the business.

ELIGIBLE PROJECTS - FIXED ASSET ACQUISITION ONLY:

- A) MUST CREATE OR RETAIN EMPLOYMENT.
- B) Land and/or building purchase.
- C) New building construction and/or building rehabilitation.
- D) Machinery and equipment purchase (must have life of 15 years).
- E) Leasehold improvements - lease must be for a minimum of 15 years including options.
- F) NOT FOR WORKING CAPITAL.
- G) Cannot be used to buy a business - only for its fixed assets.

PROJECT SIZE - GENERALLY \$500,000 to \$2,000,000:

PROJECT FINANCING:

The small business must obtain a minimum private financing of 60% of the project; more might be required depending on the business and project. Of this 60%, a minimum of 10% generally comes directly from the business. The remainder usually comes from a bank or real estate contact.

<u>Amount</u>	<u>% Of Project</u>	<u>Source</u>	<u>Security</u>
\$500,000	50%	Bank	First Mortgage
400,000	40%	RCDC Debenture	Second Mortgage
100,000	10%	Small Business	

PROGRAM DETAILS:

Terms - 15, 20, 25 years.

Interest Rate - Approximately 11-13%

Collateral - Usually mortgage on land and building being financed, liens on machinery, equipment and fixtures, lease assignments and personal guarantees where appropriate.

Bank Rates and Terms - Depends on bank, project, and business.
