DEPARTMENT OF PUBLIC SAFETY

POSITION PAPER - HB 492

OPPOSED

February 3, 1986

SB 492 - "An Act relating to sport fishing from commercially licensed troll vessels; and providing for an effective date."

The Department of Public Safety is opposed to this bill. To allow sport fishing from commercial trollers could create an enforcement problem in that it would make it very difficult to prevent the movement of sport caught fish from going into the commercial market.

The Board of Fisheries has considered various proposals over the past years for allowing sport fishing from commercial troll vessels. The Board has taken the position to not relax prohibition against sport fishing from troll vessels as this could have an effect on the allocation of the commercial catch between the power and hand troll vessels. The U.S. - Canadian treaty presently regulates the number of King Salmon that can be taken by the commercial fishermen. If sport fishing is allowed, the present allocation could be jeopardized. The Board of Fisheries did pass a regulation at the December meeting to allow sport fishing for bottom fish and halibut from commercial troll vessels in Southeast and Yakutat. The regulation prohibits Halibut being on board the vessel if there are salmon on board.

To further relax the prohibition against sport fishing from troll vessels by passing this bill would increase the enforcement effort and inability to properly assist in the management of the salmon fisheries.

To allow sport fishing from commercial troll vessels means that during periods of troll closures commercial vessels can legally be sport fishing in the same waters they commercially fish. In addition, prior to any commercial troll openings, vessels can be on the grounds and be illegally fishing for, and retaining, salmon for their commercial catch, but under the guise of "sport fishing". We cannot legally inspect or search the holds of fishing vessels without first receiving permission from the commercial fishermen or by having probable cause to enforce and apprehend a fisherman retaining sport caught salmon who has the intent of selling them through a commercial market.

In the past when a troll closure occurred, aerial patrols were maintained of the area and any commercial trollers still fishing would be readily visible. We have not had problems in the past as the regulations were very clear. In the last 12 months only two citations were issued.

It is our position to oppose this bill and recommend that the board of Fisheries continue to address the methods and means of taking fish as it relates to the management of the troll fisheries.

Robert J. Sundberg

5 AAC 49.050. WATERS CLOSED TO SPORT FISHING. (a) The Situk River drainage is closed to king salmon fishing upstream from the U.S. Forest Service Middle Cabin from July 1 through August 31 and is closed to all fishing from the old railroad bridge downstream to its mouth.

(b) The Lost River drainage is closed to fishing upstream from the Lost River bridge from August 15 through December 31.

(c) Tawah Creek drainage, tributary to Lost River, is closed to fishing within 50 yards of the R.E.L. Bridge. (In effect before 1985; am 5/31/85, Reg. 94)

Authority: AS 16.05.251

5 AAC 49.060. SPORT FISHING FROM COMMERCIALY LICENSED VESSELS. (a) No person may sport fish from a registered salmon hand troll or power troll vessel, as those vessels are identified by the marking requirements of 5 AAC 39.270(c) and (d), except that this prohibition does not apply

(1) to charter vessels;

(2) in derby zones during derbies authorized by the department.

(b) The owner or operator of a charter vessel shall register that vessel annually with the department before the vessel is used for sport fishing. The following information must be provided at the time of registration with the department:

(1) the name of the individual or company owning the charter service;

(2) the permanent residence address, and mailing address, of the owner or company;

(3) the permanent vessel license plate number (ADF&G number) for the vessel;

(4) a photostatic copy of the current Alaska Business License of the company or individual owning the charter service; and

(5) a photostatic copy of the U.S. Coast Guard license to carry passengers for hire issued to the owner or operator of the vessel.

(c) Each person who sport fishes from a vessel licensed for commercial fishing, including a charter vessel, in waters closed to commercial salmon fishing shall, immediately upon boating, mark each salmon by removing its dorsal (large back) fin.

(d) Sport fishing is illegal in waters closed to commercial fishing while commercially caught troll salmon are in possession. (In effect before 1984; am 4/28/84, Reg. 90; am 5/31/85, Reg. 94)

DEPARTMENT OF PUBLIC SAFETY

POSITION PAPER - HB 492

NEUTRAL

February 5, 1986

SB 492 - "An act relating to sport fishing from commercially licensed troll vessels; and providing for an effective date."

The Board of Fisheries has considered various proposals over the past years for allowing salmon sport fishing from commercial troll vessels. The Board has taken the position to not relax prohibition against salmon sport fishing from troll vessels as this could have an effect on the allocation of the commercial catch between the power and hand troll vessels. The U.S. - Canadian treaty presently regulates the number of King Salmon that can be taken by the commercial fishermen. They felt sport fishing if allowed could alter the present allocation and jeopardize the treaty. The Board of Fisheries did pass a regulation at the December meeting to allow sport fishing for bottom fish and halibut from commercial troll vessels in Southeast and Yakutat. The regulation will prohibit halibut being on board the vessel if there are salmon aboard. The enforcement will not be fully known until spring when commercial salmon trolling is in full swing.

Under the current regulations, only two citations were issued over the past twelve months, for observed violations of this regulation.

Commission

SUBJECT: Hand Troll Data Request

Enclosed are data on the hand troll fishery which you requested. The following reports have been included:

1. Southeast Salmon Permits Issued and Fished 1975-1985

This report includes data on all of the gear types harvesting salmon in Southeast Alaska with the exception of Yakutat set net. The number of persons who fished have been reported by resident type. The 1984 and 1985 data from the report should be considered preliminary because of the status of the fish ticket files.

2. Southeast Hand Troll Permits Issued and Fished 1982-1985

This report concentrates on the hand troll fishery since entry limitation. It includes a breakout by transferable and non-transferable permits. Again, the 1984 and 1985 data should be considered preliminary.

3. Estimated Earnings for Southeast Salmon Permits by Gear Type 1975-1985

This report includes estimates of total and average gross earnings by gear type. Please note that the averages represent averages per permit. 1984 and 1985 data should be considered as preliminary.

4. Definitions

This brief report provides an explanation on how the resident types are defined which are used in reports 5 and 6 below.

5. Summary of Net Changes in the Distribution of Permit Ownership, by Resident Type, 1982-1985 - Southeast Alaska Hand Troll

This report provides detailed information on the distribution of hand troll entry permits since limited entry. Resident type breakouts are provided. Of particular interest is the relatively large number of revokes over this time period. The vast majority of these are due to forfeitures resulting from two year non-renewals.

6. Summary of Yearly Net Changes in Permit Ownership, Southeast Alaska Hand Troll, 1982-1985

This report provides summary data on net changes in permit ownership by resident type in the hand troll fishery. The net results of transfers and the effects of revocations can be clearly seen.

The Rutter status report which you requested has not yet been completed. The data is being prepared by Karen Wells of our adjudications section. She will forward the information to you as soon as possible.

Please let me know if you have any questions concerning these reports. If we can be of further assistance, please don't hesitate to ask.

Notes for table:

- 1) Excludes Annette Island catch.
- 2) Permit holders earning less than a specified amount have not been counted on this table. This is intended to prevent average earnings from being understated.
- 3) 1985 data is preliminary (updated 1/15/86).
- 4) Source programs: 1984-85 -- 85301.02-B3
1983 ----- 84270.06-M2
1982 ----- 84004.01
1975-81 -- 83056.01

Definitions

Urban/Rural

1. Urban includes all towns with 1980 U.S. Census populations of 2,000 or more.
2. Communities are designated urban even though their populations are under 2,000 if they lie within an "urbanized area." Urbanized areas are defined as all communities and places connected by highway to urban centers with populations of 6,000 or more and lying within a 20-mile radius of the urban center (for cities from 6,000 to 20,000 population) or a 40-mile radius (for cities of more than 20,000). The radius is measured from the center of the city as denoted by the city location point on maps, rather than from the city limits. An exception to the radius rule is that the Anchorage "urbanized area" does not extend north of Knik Arm nor south of Turnagain Arm.

The cities of 6,000 to 20,000 population are Juneau, Ketchikan and Sitka. The cities above 20,000 are Anchorage and Fairbanks.

Local/Nonlocal

1. On the coast, area lines are based on Fish and Game salmon regulatory areas. Residences in both Southeast and Yakutat are designated local to the hand and power troll fisheries. In accord with permit and fishery regulations, residences with the Cape Yakataga and Port Heiden overlap areas are "local" for both relevant overlap areas.

2. The Upper and Lower Yukon and Kuskokwim River fishery areas are based on immediate river drainages. The Lower Yukon area extends up the Yukon River to just above Holy Cross. The Upper Yukon "local" area extends up the Koyukuk tributary as far as Huslia, the Chandalar as far as Venetie and the Tanana to Delta Junction, 30 miles beyond the upper limits of commercial fishing on that river. The Kuskokwim local area extends 30 miles upriver beyond the limit of commercial fishing on that river and includes the Stony River tributary as far as Lime Village and the Holitna River as far as Kasheglok.

3. The Bristol Bay area extends inland up the Nushagak River and includes the entire Tikchik Lake system as well as Lake Iliamna and Lake Clark.

4. The Cook Inlet local area includes all but the eastern edge of the Anchorage Borough. The line dividing the Cook Inlet and

Prince William Sound ADF&G regulatory areas are extended inland directly north. That is, the line runs from Cape Fairfield at 148°50'W, north to 61°32'N (just north of Bodenbug Butte and south of Palmer) and thence west to 150°30'W (to the community of Susitna) and thereafter follows, at a little distance inland, the western shore of Cook Inlet, ending at Cape Douglas.

5. The Prince William Sound area extends up the Copper River to the confluence of the Bremner River. Taking in the census subareas of Prince William Sound and Cordova, but not the Copper River subarea, it excludes the interior Copper River as well as the Edgerton, Richardson and Glenn Highway communities.

Trans = net change in resident type due to permanent transfers.

Migr = net change in resident type due to migrations (permit holder moving from one city to another).

Rev = net change in resident type due to revocation proceedings.

(including deaths of nontransferable permits holders, PERMITS FORFEITED DUE TO NONRENEWAL, AND criminal revokes.

Net = total net change in resident type.

Alaska Rural Local: ALASKA resident of a RURAL community which is LOCAL to the fishery for which the permit applies.

Alaska Rural Nonlocal: ALASKA resident of a RURAL community which is LOCAL to the fishery for which the permit applies.

Alaska Urban Local: ALASKA resident of an URBAN community which is LOCAL to the fishery for which the permit applies.

Alaska Urban Nonlocal: ALASKA resident of an URBAN community which is LOCAL to the fishery for which the permit applies.

Nonresident: Nonresident of ALASKA

DOC : Department of Commerce signifies permits which have been foreclosed and which are temporarily the property of the state (DOC) or of the Commercial Fishing and Agriculture Bank (CFAB).

Migrations: changes in resident type resulting from permit holders moving from one city to another.
 Forfeits: permits which have been revoked because renewal fees have not been paid for two years.
 Lapsed: nontransferable permits no longer fishable due to the death of the permit holder.
 Criminal Revokes: permits which have been revoked due to criminal action.

Alaska Rural Local: ALASKA resident of a RURAL community which is LOCAL to the fishery for which the permit applies.
 Alaska Rural Nonlocal: ALASKA resident of a RURAL community which is LOCAL to the fishery for which the permit applies.
 Alaska Urban Local: ALASKA resident of an URBAN community which is LOCAL to the fishery for which the permit applies.
 Alaska Urban Nonlocal: ALASKA resident of an URBAN community which is LOCAL to the fishery for which the permit applies.
 Nonresident: Nonresident of ALASKA
 Dept of Commerce: permits which have been foreclosed and which are temporarily the property of the state (DOC) or of the Commercial Fishing and Agriculture Bank (CFAB).

CHAPTER 49.

YAKUTAT AREA

5 AAC 49.050(a) is amended to read

5 AAC 49.050. WATERS CLOSED TO SPORT FISHING. (a) The Situk River drainage is closed to king salmon fishing upstream from the U.S. Forest Service middle cabin from July 1 through August 31, and is closed to all fishing from the old railroad bridge downstream to its mouth from June 15 through October 14. (In effect before 1985; am 5/31/85, Register 94; am __/__/86, Register __)

Authority: AS 16.05.251

5 AAC 49.060(a)(3) is added and (b)(4) and (5) are amended to read:

5 AAC 49.060. SPORT FISHING FROM COMMERCIALY LICENSED VESSELS. (a) No person may sport fish from a registered salmon hand troll or power troll vessel, as those vessels are identified by the marking requirements of 5 AAC 39.119, except that this prohibition does not apply

(3) to sport fishing for bottomfish and halibut; no halibut may be on board the vessel if there are salmon on board.

(b) The operator of a charter vessel shall register that vessel annually with the department before the vessel is used for sport fishing in salt water. The following information must be provided at the time of registration with the department:

(4) the number of the current Alaska Business License of the company or individual owning the charter service; and

(5) the number of the U.S. Coast Guard license to carry passengers for hire issued to the operator of the vessel.

(In effect before 1984; am 4/28/84, Register 90; am 5/31/85, Register 94, am __/__/86, Register __)

Authority: AS 16.05.251

(B) the Klawock River drainage upstream from the Klawock River bridge is closed to red salmon fishing.

(d) In salt water

(10) the area between the Klawock River bridge and a line from the Klawock blinker light to the Klawock oil dock is closed to red salmon fishing, and is closed to snagging; fish hooked elsewhere than in the mouth must be released immediately. (In effect before 1983; am 4/3/83; Register 85; am 4/28/84, Register 90; am 5/31/85, Register 94; am __/__/86, Register __)

Authority: AS 16.05.251

5 AAC 46.060 (a)(3) is added and (b)(4) and (5) are amended to read:

5 AAC 46.060. SPORT FISHING FROM COMMERCIALY LICENSED VESSELS. (a) No person may sport fish from a registered salmon hand troll or power troll vessel, as those vessels are identified by the marking requirements of 5 AAC 39.119, except that this prohibition does not apply

(3) to sport fishing for bottomfish and halibut; no halibut may be on board the vessel if there are salmon on board.

(b) The operator of a charter vessel shall register that vessel annually with the department before the vessel is used for sport fishing in salt water. The following information must be provided at the time of registration with the department:

(4) the number of the current Alaska Business License of the company or individual owning the charter service; and

(5) the number of the U.S. Coast Guard license to carry passengers for hire issued to the operator of the vessel.

(In effect before 1984; am 4/28/84, Register 90; am 5/31/85, Register 94, am __/__/86, Register __)

Authority: AS 16.05.251
