MEMORANDUM

April 18, 1990

SUBJECT: CSSB 415() (Legislative Ethics)

TO: Senator Jan Faiks, Chair
Senate Judiciary Committee

FROM: David R. Dierdorff 
Revisor of Statutes

Enclosed is the draft committee substitute you requested. In addition to the changes we discussed and that were suggested in my memo of April 11, I addressed several problems spotted by the Department of Law and problems in drafting that I had failed to see the first few times through the bill. I might mention that Laurie Otto testified as to many of these problems in House State Affairs on April 17 and Michael Josephson, who was present by teleconference, concurred in her recommendations.

I have several items I want to bring to your attention. Most of them are in the nature of policy questions that the legislature should address if this is to be a workable law.

1. In AS 24.61.170 and a few other locations, the term "nonpublic" used. Even though it is defined for the chapter, given our public records laws isn't it a given that in this state material is either confidential or public? If there is a grey area of "nonpublic" but nonconfidential information, we need to do a better job of defining it than is done in this draft.

2. In AS 24.61.180(a) the term "private economic benefits" is used. Given the definition of "benefit", do we need to say "private economic" as well?

3. AS 24.61.205(d) may be unconstitutionally vague and unenforceable.

4. As to money received that does not meet the requirements of AS 24.61.220(d) and can't be deposited, what happens to

it? Does it have to be returned? Can it be used for the campaign if otherwise permissible?

5. AS 24.61.320(a) seems inconsistent with other, related provisions of the chapter in that it places a dollar threshold on the interest, while the chapter generally applies to any level of benefit (except for gifts, etc. of relatively little value). What is the rationale for treating this potential benefit differently than all others are treated?

6. In AS 24.61.340(b) there is a provision that authorizes the commission to void a contract. The commission probably can't do that. However, it could require the legislator or legislative employee to withdraw from the contract.

7. In AS 24.61.340(f) a definition of "extensively" would help (there is a criminal penalty attached to a violation, so it needs to be clear).

8. AS 24.61.350 is generally very confusing as it is cast. The problem is, in essence, that gratuities are generally allowed if they total less than \$100 from a single source in a year and are reported, but then a laundry list of items that are "not subject to the \$100 limit" is brought into the picture in (c), and many items on that list are set out in a manner that creates tension with the basic precept set out in (b). The entire section needs to be carefully pulled apart and reconstructed so that it can be understood by all.

9. AS 24.61.350(c)(6) would benefit if a dollar amount was substituted for "lavish and excessive." As you know, what is lavish to one person may be quite reasonable to another, etc.

10. Does AS 24.61.350(c)(9) rule out house-sitting? As you know, that is frequently done here, given the housing situation and the fact that people often go south for extended vacations in the winter, leaving pets, house plants, etc., behind.

11. Should the conduct described in AS 24.61.380(e) really be subject to a criminal penalty? Given legislative immunity, it is unlikely that any prosecution could be successfully pursued.

12. AS 24.61.415 would benefit if "compensation" were defined. Many of the problems we discussed in the context
