Senate Bill 322

**"An act repealing the limitation on delays imposed on oil and gas
lease sales under the Alaska Land Act"
BY THE SENATE RESOURCES COMMITTEE**

Senate Bill 322 would repeal the statute requiring that an oil & gas lease sale be held no later than 90-days after the quarter in which it is scheduled. If a lease sale is not held within the 90 day time period, the sale cannot go forward and the entire process must begin again from "square one".

This current statutory deadline places a burdensome time constraint on the department, usually forcing an unreasonably short public comment period for the department's preliminary finding. The Division of Oil & Gas routinely builds in a long "buffer period" following public comment to allow adequate time to deal with the administrative and judicial process for anticipated reconsideration requests of the finding and subsequent appeals.

The 90 day limit was originally imposed to alleviate concern that indefinite delays would occur on scheduled oil & gas lease sales. However, it has instead had the opposite effect since the administrative and judicial appeal process often extends beyond 90 days. A repeal of the provision would provide the division with greater flexibility in the lease sale process, including the option of longer public comment periods.

The Honorable Mike Miller, Chairman
Senate Resources Committee
Alaska State Legislature
State Capitol, Room 423
Juneau, Alaska 99801-1182

Dear Senator Miller:

The Department of Natural Resources supports SB 322, an Act entitled "An Act Repealing the Limitation on Delays Imposed on Oil and Gas Lease Sales Under the Alaska Land Act." The purpose of this legislation is to amend AS 38.05.180(c), to remove the requirement that the department conduct a competitive oil and gas lease sale within 90 days of the quarter in which the sale is originally scheduled in the department's Five-Year Leasing Schedule.

We support this change because it will allow the department greater flexibility to delay sales, if there are valid reasons for doing so, without running the risk of having to reschedule the sale for a minimum of two full calendar years. This added flexibility should reduce the program's exposure to procedural appeals and allow greater time for public participation as the need arises.

Sincerely,

Harry A. Noah
Commissioner
