**ALASKA OIL AND GAS ASSOCIATION
POSITION
ON
LARGE BLOCK EXPLORATION LICENSING LEGISLATION
(HB 199/SB 150)**

The Alaska Oil and Gas Association (AOGA) is a trade association whose member companies account for the majority of oil and gas exploration, production, transportation and marketing activities in Alaska.

AOGA believes that large block licensing is an attractive addition to the State's leasing program to accelerate exploration and potential development of Alaska's frontier areas.

The Association has established the following position on large block exploration licensing legislation:

AOGA supports a large block licensing program that does not apply to lands (1) north of the Umiat baseline; (2) lands south of the Umiat baseline that are within proposed Competitive Oil and Gas Lease Sales 80, 87 and 88 prior to the initial sale; and (3) in the vicinity of Cook Inlet that are within the area bounded by the north boundary of Township 17 North S.M., the Seward Meridian, the south boundary of Township 7 South S.M., and the west boundary of Range 19 West S.M.

AOGA supports a program in which a license is conditioned upon the posting of an annual bond or other security in favor of the state and in which the annual bond or other security is calculated as the entire work commitment expressed in dollars less the cumulative expenditures as of the last day of the most recent project-year, divided by the remaining years of the exploration license.

Alaska Oil and Gas Association
Position on
Large Block Exploration
Licensing Legislation
(HB 199/SB 150)
Page 2

AOGA supports a competitive program in which all licenses are awarded on the basis of written, sealed bids for total dollar work commitment. The commissioner should adopt regulations to evaluate competing proposals.

AOGA supports a program in which conversion from license to lease is under existing state leasing statutes AS 38.05.180 (j)-(m), (o)-(u), and (x)-(z), and upon conversion, such a lease is subject to the acreage chargeability of AS 38.05.140(c).

AOGA supports a program in which any relinquishment of the License area does not occur before the fourth anniversary of the License and each year thereafter is a percentage relinquishment of the remaining License area not to exceed 50 percent of the original License area. As an incentive for early evaluation of a License area, AOGA believes no relinquishment should be required if the Licensee has expended 50 percent of the approved work commitment by the fourth anniversary of the License.

The Large Block Exploration Licensing legislation proposed by the Department of Natural Resources on October 25, 1993, is consistent with the AOGA position on exploration licensing legislation. AOGA supports the proposed Department of Natural Resources Draft (nominally numbered) CSSB 150 am dated October 25, 1993, (copy attached).

EXPLORATION LICENSING

Senate Bill No. 150

CSSB150 (Fin)

October 25 Draft

Geographical Restrictions	To state land with insufficient geological or geophysical information, or for unleased state land previously available for lease.	Land north of the Umiat Baseline; pending lease sales 57, 77, 80, 87 & 88, and portions of the Cook Inlet area are excluded.	Land north of the Umiat Baseline; pending lease sales 80, 87 & 88, and portions of the Cook Inlet area are excluded.
Relinquishment	No relinquishment provision.	Relinquish 25 % of the license area at end of 4th year, plus an additional 10 % of the original area each year thereafter.	If 50 % of the work commitment is completed by the end of the 4th year, no relinquishment is required. Otherwise, 25% of the original acreage must be surrendered with an additional 10% of the remaining acreage each year - to a maximum of 50% total relinquishment.
Bonding	Bonding for the total work commitment; forfeit difference between work commitment and completed work if there is a default.	Annual bond equal to 10 % of that years work commitment.	Calculated annually as the entire work commitment expressed in dollars, less cumulative expenditures, divided by the number of years remaining in the license.
Competitive Bidding	Oral outcry auction; awarded to the highest work commitment expressed in dollars.	Competitive sealed bids; award based upon highest dollar bid in terms of work commitment. Allowed expenditures are defined.	Competitive sealed bids; award based upon highest dollar bid in terms of work commitment. Allowed expenditures are defined.
Acreage Chargeability	License area not more than 500,000 acres; All or part converted to 30,000 acre lease tracts upon fulfillment of work commitment Not subject to acreage limitations at AS 38.05.140(c). \$3 acre annual rental.	License area not more than 500,000 acres; All or part converted to standard lease tracts upon fulfillment of work commitment Subject to acreage limitations at AS 38.05.140(c). \$3 acre annual rental.	License not less than 20,000 nor more than 500,000 acres. All or part may be converted to standard lease tracts upon fulfillment of work commitment. Subject to acreage limitations at AS 38.05.140(c). \$3 acre annual rental.

Application Fee	\$1 acre	Not more than \$1 acre.	Not more than \$1 acre as set by the commissioner.
Minimum Work Commitments	Must fulfill work commitment by the end of the license term.	Yearly work commitment, subject to review.	Must have completed at least 25 % of the work commitment by the end of the 4th year.
Title 46 Financial Responsibility	Not addressed.	Lowers financial responsibility for onshore exploration facilities from \$5-million to \$1-million.	Prefer to remove.
90-Day Provision	Not addressed.	Allows DNR to delay an oil & gas lease sale beyond 90-days of scheduled sale date.	Not addressed (but will address in separate legislation).
Lease Rental	\$3 Acre.	\$3 Acre.	\$3 Acre.

Disclaimer:

This document is for discussion purposes only; it is not intended to be a comprehensive description of the provisions of the bill.

ABILL
FOR AN ACT ENTITLED

"An Act relating to the exploration and production of oil and gas and related hydrocarbons, to oil and gas exploration licenses and to oil and gas leases in certain areas of the state and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

1 Section 1. AS 38 is amended by adding new sections to read:
2

3 ARTICLE 5A. OIL AND GAS EXPLORATION LICENSES; LEASES.
4

5 Sec. 38.05.131. APPLICABILITY; DETERMINATION;
6 REGULATIONS. (a) Unless specifically provided otherwise in AS
7 38.05.132 - 38.05.134, the provisions of AS 38.05.005 - 38.05.040,
8 38.05.180, 38.05.182 - 38.05.184, and 38.05.920 - 38.05.990 apply to the
9 issuance of oil and gas exploration licenses and leases under AS
10 38.05.132 - 38.05.134.
11

12 (b) The provisions of AS 38.05.131 - 38.05.134 do not apply to land
13

14 (1) north of the Urniat baseline; and
15

16 (2) in the vicinity of Cook Inlet that is within the area bounded
17 by
18

19 (A) the north boundary of Township 17 North, Seward
20 Meridian;
21

22 (B) the Seward Meridian;
23

24 (C) the south boundary of Township 7 South, Seward

1 Meridian; and

2
3 (D) the west boundary of Range 19 West, Seward
4 Meridian.

5
6 (c) The commissioner shall make preliminary written determinations
7 of the state land that may be subject to the provision of AS 38.05.132.
8 The determinations shall be given public notice using the methods
9 described in AS 38.05.945(b). After completion of the comment period
10 and evaluation of the comments received, the commissioner shall
11 issue a written determination of the state land that is subject to the
12 provisions of AS 38.05.132.

13
14 (d) The commissioner may adopt regulations necessary to implement
15 AS 38.05.131 - 38.05.134.
16

17
18 Sec. 38.05.132. OIL AND GAS EXPLORATION LICENSE. (a)
19 To encourage exploration for oil and gas on state land, the
20 commissioner may issue oil and gas exploration licenses.

21
22 (b) An oil and gas exploration license issued under this section
23 gives the licensee:
24

25 (1) the exclusive right to explore, for a term not to exceed
26 10 years, for deposits of oil and gas on unleased state land described
27 in the exploration license unless the land is earlier relinquished,
28 removed, or deleted under (d) of this section; and
29

30 (2) the option to convert the exploration license for all or
31 part of the state land, except the land that is deleted or removed
32 from the land described in the exploration license under (d) of this
33 section, into an oil and gas lease upon fulfillment of the work
34 commitments contained in the exploration license.

35
36 (c) An exploration license awarded under this section
37

38 (1) is not subject to the acreage limitations imposed by AS
39 38.05.140(c) or 38.05.180(m);
40

CS FOR SENATE BILL NO. 150(FIN) am

ABILL
FOR AN ACT ENTITLED

"An Act relating to the exploration and production of oil and gas and related hydrocarbons, to oil and gas exploration licenses and to oil and gas leases in certain areas of the state and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

1 Section 1. AS 38 is amended by adding new sections to read:

2
3 ARTICLE 5A. OIL AND GAS EXPLORATION LICENSES; LEASES.

4
5 Sec. 38.05.131. APPLICABILITY; DETERMINATION;
6 REGULATIONS. (a) Unless specifically provided otherwise in AS
7 38.05.132 - 38.05.134, the provisions of AS 38.05.005 - 38.05.040,
8 38.05.180, 38.05.182 - 38.05.184, and 38.05.920 - 38.05.990 apply to the
9 issuance of oil and gas exploration licenses and leases under AS
10 38.05.132 - 38.05.134.

11
12 (b) The provisions of AS 38.05.131 - 38.05.134 do not apply to land

13
14 (1) north of the Umiat baseline; and

15
16 (2) in the vicinity of Cook Inlet that is within the area bounded
17 by

18
19 (A) the north boundary of Township 17 North, Seward
20 Meridian;

21
22 (B) the Seward Meridian;

23
24 (C) the south boundary of Township 7 South, Seward

1 Meridian; and

2
3 (D) the west boundary of Range 19 West, Seward
4 Meridian.

5
6 (c) The commissioner shall make preliminary written determinations
7 of the state land that may be subject to the provision of AS 38.05.132.
8 The determinations shall be given public notice using the methods
9 described in AS 38.05.945(b). After completion of the comment period
10 and evaluation of the comments received, the commissioner shall
11 issue a written determination of the state land that is subject to the
12 provisions of AS 38.05.132.

13
14 (d) The commissioner may adopt regulations necessary to implement
15 AS 38.05.131 - 38.05.134.

16
17
18 Sec. 38.05.132. OIL AND GAS EXPLORATION LICENSE. (a)
19 To encourage exploration for oil and gas on state land, the
20 commissioner may issue oil and gas exploration licenses.

21
22 (b) An oil and gas exploration license issued under this section
23 gives the licensee:

24
25 (1) the exclusive right to explore, for a term not to exceed
26 10 years, for deposits of oil and gas on unleased state land described
27 in the exploration license unless the land is earlier relinquished,
28 removed, or deleted under (d) of this section; and

29
30 (2) the option to convert the exploration license for all or
31 part of the state land, except the land that is deleted or removed
32 from the land described in the exploration license under (d) of this
33 section, into an oil and gas lease upon fulfillment of the work
34 commitments contained in the exploration license.

35
36 (c) An exploration license awarded under this section

37
38 (1) is not subject to the acreage limitations imposed by AS
39 38.05.140(c) or 38.05.180(m);
40

1 (2) may cover an area of not less than 20,000 acres nor
2 contain more than 500,000 acres, that must be reasonably compact
3 and contiguous;
4

5 (3) must be conditioned upon an obligation to perform a
6 specified work commitment, in total for the term of the license,
7 expressed in dollars of direct exploration expenditures;
8

9 (4) must require that a minimum of 25-percent of the
10 specified work commitment must be completed on or before the
11 fourth anniversary of the effective date of the issuance of the
12 exploration license. Failure to meet this requirement shall result in
13 forfeiture of the license.
14

15 For the purpose conditioning a license as required by paragraph (3),
16

17 (A) "direct exploration expenditure" means cash
18 expenses undertaken in performance of a specified work
19 commitment under the provisions of AS 38.05.131 - 38.05.134
20 and necessarily incurred by the licensee in the permitting,
21 mobilization, conducting, demobilization, and evaluation of
22 geophysical and geological surveys, or the drilling, logging,
23 coring, testing, and evaluation of exploratory oil and gas
24 wells, the term:
25

26 (i) includes direct labor costs, including the cost of
27 benefits for employees directly associated with the work
28 commitment programs, the cost of renting or leasing
29 equipment from parties not affiliated with the licensee,
30 the reasonable costs of maintaining and operating
31 equipment, payments to consultants and independent
32 contractors not affiliated with the licensee, and costs of
33 materials and supplies;
34

35 (ii) does not include noncash expenses such as
36 depreciation and reserves, interest or other costs of
37 borrowed funds, return on investment, overhead
38 insurance or bond premiums, or any other expense that is
39 unreasonable or that the licensee has not incurred to
40 satisfy the licensee's work commitment;

1
2 (B) "work commitment" includes the drilling of one or
3 more exploration wells or the gathering of data as described in
4 4(A), or both;
5

6 (5) must be conditioned upon the posting of a bond or
7 other security acceptable to the commissioner in favor of the state
8 and subject to the following requirements:
9

10 (A) the bond or other security must be renewed annually;
11

12 (B) the annual bond or other security shall be calculated
13 as: the entire work commitment expressed in dollars, less the
14 cumulative expenditures as of the last day of the most recent project-
15 year, divided by the number of years remaining in the term of the
16 exploration license;
17

18 (6) is subject to an annual review and revocation if the
19 commissioner determines that the licensee has failed to provide or
20 maintain in effect the bond or other surety required by (5) of this
21 subsection;
22

23 (7) must be conditioned upon payment of a nonrefundable
24 oil and gas exploration license fee, the amount of which may be set
25 by the commissioner, provided, however, such fee may not be more
26 than \$1 per acre or fraction thereof for each acre of land that is
27 subject to the exploration license;
28

29 (8) must be conditioned upon an agreement that
30 exploration expenditures are subject to audit by the commissioner.
31

32 (d) The area within an exploration license awarded under this
33 section may be relinquished, removed, or deleted from the license.
34 Relinquishment, removal, or deletion of any area from the state land
35 described in the exploration license terminates the licensee's rights
36 under AS 38.05.131 - 38.05.134 in the area that is relinquished,
37 removed or deleted. A relinquishment, removal, or deletion of a
38 portion of the area described in the exploration license must be in
39 areas that are reasonably compact and contiguous. The areas
40 relinquished from the state land described in the exploration license

1 shall be areas identified by the licensee but, if the licensee fails to
2 identify sufficient area, the commissioner may identify any
3 additional acreage required to be removed or deleted from the area
4 then under license to meet the requirements of this subsection.
5 Unless, on or before the fourth anniversary of the effective date of
6 the issuance of the exploration license, 50-percent of the approved
7 work commitment, expressed in dollars of expenditure, has been
8 completed, then,
9

10 (1) 25 percent of the area must be relinquished, removed,
11 or deleted on the fourth anniversary of the effective date of the
12 issuance of the exploration license;
13

14 (2) an additional 10 percent of the remaining acreage
15 must be removed or deleted on each of the succeeding anniversaries
16 of the effective date of the issuance of the exploration license to a
17 maximum of 50% of the original license acreage.
18

19 (e) If, immediately before the beginning of the period for
20 annual review of the bond or other security under (c)(5) of this
21 section, the licensee fails to provide or maintain in effect the bond or
22 other security required by (c) of this section for the period covered by
23 the annual renewal and the commissioner revokes the exploration
24 license, the bond or other security then in effect for the licensee's
25 obligations under the exploration license is forfeited to the state.
26

27 Sec. 38.05.133. LICENSE PROCEDURES. (a) The procedures
28 in this section apply to the issuance of an oil and gas exploration
29 license under AS 38.05.132.
30

31 (b) The licensing process is initiated by the commissioner
32 preparing, or a prospective licensee submitting to the commissioner,
33 a proposal that identifies a specific area to be subject to the
34 exploration license, proposes specific minimum work commitments,
35 and states that the licensee has met the minimum qualifications for a
36 licensee as established by regulations adopted by the commissioner. A
37 prospective licensee may initiate a proposal only in response to a call
38 for proposals by the commissioner or during a period specified in
39 regulation adopted by the commissioner. The regulations must
40 provide for at least one period for that purpose during each calendar

1 year.

2
3 (c) If the commissioner initiates the licensing process under (b)
4 of this section, the commissioner shall publish notice of the
5 commissioner's proposal in order to solicit comments and competing
6 proposals.

7
8 (d) Within 30 days after receipt of a proposal from a
9 prospective licensee under (b) of this section, the commissioner shall
10 either reject it in a written decision or give public notice of the intent
11 to evaluate further the acceptability of the proposal. The
12 commissioner shall solicit comments on a proposal for which public
13 notice is given under this subsection, and shall request competing
14 proposals.

15
16 (e) The commissioner may make a written request to a
17 prospective licensee for additional information on the prospective
18 licensee's proposal. The commissioner shall keep confidential
19 information described in AS 38.05.035(a)(9) that is voluntarily
20 provided, and for which the applicant has made a written request
21 that such information remain confidential.

22
23 (f) After considering proposals not rejected under (d) of this
24 section and public comment on those proposals, the commissioner
25 shall issue a written finding addressing all matters set out in AS
26 38.05.035(e) and (g), except for AS 38.05.035(g)(1)(K). If the finding
27 concludes that the state's best interests would be served by issuing an
28 oil and gas exploration license, the finding must (1) describe the
29 limitations, stipulations, conditions, or changes from the initiating
30 proposal or competing proposals that are required to make the
31 issuance of the exploration license conform to the best interests of
32 the state, and (2) if only one proposal was submitted, identify the
33 prospective licensee whom the commissioner finds should be issued
34 the exploration license. The commissioner shall attach to the finding
35 a copy of the exploration license to be issued and the form of lease
36 that will be used for any portion of the exploration license area
37 subsequently converted to an oil and gas lease under AS 38.05.134.

38
39 (g) If only one prospective licensee submits a proposal and the
40 finding under (f) of this section concludes that an exploration license

1 should be issued to that prospective licensee, the prospective licensee
2 has 30 days after issuance of the finding within which to accept or
3 reject the issuance of the exploration license, as limited or
4 conditioned by the terms contained in the finding. The exploration
5 license to be issued and the form of lease that will be used must be
6 attached to that finding.
7

8 (h) If competing proposals are submitted, and the
9 commissioner's finding under (f) of this section concludes that an oil
10 and gas exploration license should be issued, the commissioner shall
11 issue a request for competitive sealed bids, under procedures
12 adopted by the commissioner by regulation, to determine which
13 prospective licensee should be issued the exploration license. The
14 finding provided to the prospective licensees under (f) of this section
15 must contain notice that (1) the commissioner intends to request
16 competitive sealed bids, (2) a prospective licensee who intends to
17 participate in the bidding must notify the commissioner in writing by
18 the date specified in the notice, and (3) a prospective licensee's notice
19 of intent to participate in the bidding constitutes acceptance of
20 issuance of the exploration license, as limited or conditioned by the
21 terms contained in the finding and by the exploration license to be
22 issued and the form of lease to be used if the prospective licensee is
23 the successful bidder. The successful bidder is the prospective
24 licensee who submits the highest bid in terms of the minimum work
25 commitment dollar amount.
26
27

28 Sec. 38.05.134. CONVERSION TO LEASE. If the licensee
29 requests and the commissioner determines that the work
30 commitment obligation set out in an oil and gas exploration license
31 issued under AS 38.05.132 has been met, the commissioner shall
32 convert to one or more oil and gas leases all or part, as the licensee
33 may indicate, of the area described in the exploration license that
34 remains after relinquishments, removals, or deletions required by AS
35 38.05.132(d). A lease issued under this section
36

37 (1) is subject to the acreage limitations imposed by AS
38 38.05.140(c);
39

40 (2) is subject to AS 38.05.180(j) - (m), (o) - (u), and (x) - (z);

1
2 (3) must be conditioned upon a royalty in amount or value
3 of not less than 12.5 percent of production;
4

5 (4) must include an annual rent of \$3 per acre or fraction
6 of an acre initially paid to the state at inception of the lease and
7 payable annually after that until the income to the state from royalty
8 under that lease exceeds the rental income to the state under that
9 lease for that year; and
10

11 (5) is subject to other conditions and obligations that are
12 specified in the lease.
13
14

15 * Sec. 1. AS 38.05.135(a) is amended to read:
16

17 (a) Except as otherwise provided, valuable mineral deposits in
18 land belonging to the state shall be open to exploration,
19 development, and the extraction of minerals. All land together with
20 tide, submerged, or shoreland, to which the state holds title to or to
21 which the state may become entitled, may be obtained by permit or
22 lease for the purpose of exploration, development, and the
23 extraction of minerals. Except as specifically limited by AS 38.05.131
24 - 38.05.181 land may be withheld from lease application on a first-
25 come, first-served basis, and offered only on a competitive basis
26 when determined by the commissioner to be in the best interests of
27 the state. In unproved areas, the commissioner may offer additional
28 incentives, including a reduction of royalty to a minimum of five
29 percent in the case of oil and gas, and other terms in and granting a
30 permit or lease for exploration and development whenever it
31 appears to be in the best interests of the state to do so.
32
33
34
35

36 * Sec. 2 AS 38.05.180(d) is amended to read:
37

38 The commissioner may issue oil and gas leases in an area that
39 has not been included in a leasing program submitted, in accordance
40 with (b) of this section, to the legislature if the land to be leased:

1
2 (1) was previously subject to a valid state or federal oil
3 and gas lease;
4

5 (2) is contiguous to land already under state, federal or
6 private lease and the commissioner makes a written finding, after
7 hearing, that leasing of the land would result in a substantial
8 probability of early evaluation and development of the land to be
9 leased;
10

11 (3) is adjacent to land owned or controlled by another
12 party on which a discovery of commercial quantities of oil or gas has
13 been made, and the commissioner finds, after hearing, that there is a
14 reasonable probability that the land to be leased contains oil or gas in
15 communication with oil or gas discovered on the land of the other
16 party;
17

18 (4) is adjacent to land included in the federal five-year
19 Outer Continental Shelf leasing program under 43 U.S.C. 1344, and
20 the commissioner makes a written finding, after hearing, that
21 coordinated or simultaneous leasing with the federal government is
22 in the public interest; or
23

24 (5) is the subject of an oil and gas exploration license
25 under AS 38.05.131 - 38.05.134.
26
27

28 * Sec. 3. AS 38.05.180(f) is amended to read:
29

30 (f) Except as provided by AS 38.05.131 - 38.05.134 the
31 commissioner may issue oil and gas leases on state land to the
32 highest responsible qualified bidder determined by competitive
33 bidding under regulations adopted by the commissioner. Bidding
34 may be by sealed bid or according to any other bidding procedure the
35 commissioner determines is in the best interests of the state.
36 Whenever, under any of the leasing methods listed in this subsection,
37 a royalty share is reserved to the state, it shall be delivered in
38 pipeline quality and free of all lease or unit expenses, including but
39 not limited to separation, cleaning, dehydration, gathering, salt
40 water disposal, and preparation for transportation off the lease or

1 unit area. Following a pre-sale analysis, the commissioner may
2 choose one of the following leasing methods:

3
4 (1) a cash bonus bid with a fixed royalty share reserved to
5 the state of not less than 12.5 [12 1/2] percent in amount or value of
6 the production removed or sold from the lease;

7
8 (2) a cash bonus bid with a fixed royalty share reserved to
9 the state of not less than 12.5 [12 1/2] percent in amount or value of
10 the production removed or sold from the lease and a fixed share of
11 the net profit derived from the lease of not less than 30 percent
12 reserved to the state;

13
14 (3) a fixed cash bonus with a royalty share reserved to the
15 state as the bid variable but no less than 12.5 [12 1/2] percent in
16 amount or value of the production removed or sold from the lease;

17
18 (4) a fixed cash bonus with a share of the net profit
19 derived from the lease reserved to the state as the bid variable;

20
21
22 (5) a fixed cash bonus with a fixed royalty share reserved
23 to the state on not less than 12.5 [12 1/2] percent in amount or value
24 of the production removed or sold from the lease with the share of
25 the net profit derived from the lease reserved to the state as a bid
26 variable;

27
28 (6) a cash bonus bid with a fixed royalty share reserved to
29 the state based on a sliding scale according to the volume of
30 production or other factor but in no event less than 12.5 [12 1/2]
31 percent in amount or value of the production removed or sold from
32 the lease;

33
34 (7) a fixed cash bonus with a royalty share reserved to the
35 state based on a sliding scale according to the volume of production
36 or other factor as the bid variable but not less than 12.5 [12 1/2]
37 percent in amount or value of the production removed or sold from
38 the lease.

39
40 * Sec. 4. AS 38.05.945(a) is amended to read:

1
2 (a) This section establishes the requirements for notice given by
3 the department for the following actions:
4

5 (1) classification or reclassification of state land under AS
6 38.05.300 and the closing of land to mineral leasing or entry under AS
7 38.05.185;
8

9 (2) zoning of land under applicable law;
10

11 (3) a decision under AS 38.05.035(e) or 38.05.132
12 -38.05.134 regarding the sale, lease or disposal of an interest in state
13 land or resources;
14

15 (4) a competitive disposal of an interest in state land or
16 resources after final decision under AS 38.05.035(e);
17

18 (5) a public hearing under AS 38.05.856(b);
19

20 (6) a preliminary finding under AS 38.05.035(e) and
21 38.05.855(c) concerning sites for aquatic farms and related
22 hatcheries.
23
24
25

26 *Sec. 5. ADDITIONAL EXCLUDED AREA. In addition to the area
27 designated in AS 38.05.131(b), added by sec.1 of this Act, the provisions of
28 AS 38.05.131 - 38.05.134, added by sec.1 of this Act do not apply to land
29 within proposed Competitive Oil and Gas Lease Sales 80, 87, and 88, as
30 the area to be offered in each of those proposed competitive oil and gas
31 lease sales was delineated in the Five-Year Oil and Gas Leasing Program
32 prepared by the Department of Natural Resources and dated January
33 1993. However, the exclusion of the land is any one of those lease sales
34 that is required by this section ceases on the date the land described in the
35 lease sale is first offered for competitive oil and gas leasing under AS
36 38.05.180, and that the land is thereafter subject to the provisions of AS
37 38.05.131 -38.05.134, added by sec. 1 of this Act.
38
39

40 * Sec. 6. REGULATIONS. The commissioner of natural resources may

1 proceed to adopt regulations necessary to implement AS 38.05.131
2 -38.05.134, added by sec.1 of this Act. The regulations take effect under AS
3 44.62 (Administrative Procedure Act), but not before the effective date of
4 secs. 1 - 9 of this Act.

5
6 * Sec. 7. AS 38.05.020(b)(5) is amended to read:

7
8 (5) notwithstanding the provisions of any other section of this
9 chapter, grant an extension of the time within which payments due on any
10 license or lease or sale of state land, minerals, or materials may be made,
11 including payment of rental and royalties, on a finding that compliance
12 with the requirements is or was prevented by reason or war, riots, or acts
13 of God;

14
15
16
17 * Sec. 8. Section 6 of this Act takes effect immediately under AS
18 01.10.070(c).
