

ALASKA LEGISLATURE COMMITTEE FILES 1981-1982 86/2

1251 SCRA AML TRANSPORTATION STUDY - MEMO RE: BOUNDARIES 25/

4. Intercity Buses Rail passenger service available to Fairbanks and Whittier.

What communities can be reached by road from your community?  
(if very many, provide representative list)

The main road network of North America

Yes \_\_\_\_\_ Is bus service available to any of these communities?

\_\_\_\_\_ If yes, what communities are on the route serving your community?

Seward, Fairbanks, Wasilla, Palmer, Glenallen, Valdez, Haines

\_\_\_\_\_ What days of the week does the service operate?

Valdez: Tuesday, Thursday, Saturday. Seward, Wasilla & Palmer: Monday thru Friday.

Above are year-round, possibly more frequent in summer.

\_\_\_\_\_ What seasons of the year does it operate?

Others listed are summer only.

5. Maintenance Facilities: Please provide information on the use and ownership of maintenance facilities.

<u>Service</u>	<u>Facility Available</u> (yes-no)	<u>Facility Ownership</u>
School Bus	<u>Yes</u>	_____
Taxicabs	<u>Yes</u>	_____
Airport Maintenance	<u>Yes</u>	_____
Gas Stations (list)		
<u>Too numerous to list</u>		
_____		
_____		
Government Agencies (specify)		
_____		
_____		
Schools (specify)		
_____		
_____		
Other (specify)		
_____		

6. Social Services: Of the following health, social and educational services, check the ones that are available in the community and have vehicles available for their use.

<u>Service Facility</u>	<u>Does Service Exist</u>	<u>Vehicles Available</u>
Day Care	<u>Yes</u>	<u>                    </u>
Senior Center	<u>Yes</u>	<u>                    </u>
Pioneer Home	<u>Yes</u>	<u>                    </u>
Hospital/Clinic	<u>Yes</u>	<u>                    </u>
Community Schools	<u>Yes</u>	<u>                    </u>
Community College	<u>Yes</u>	<u>                    </u>
Alcoholism Program	<u>Yes</u>	<u>                    </u>
Other (specify)	<u>Yes</u>	<u>                    </u>

B. COST OF TRANSPORTATION SERVICES

1. List present cost of fuel: Full service, per gallon.

\$1.399 unleaded; \$1.399 regular; \$1.389 supreme; \$1.229 diesel.

2. If the community is not on the state highway system, what is the estimated cost of having an automobile shipped to the community?

water shipping N/A air freight N/A

3. What is the estimated distance from the downtown area of your community to the following locations and the cost of taxi or limousine service for or person to each location.

<u>Location</u>	<u>Approx. Distance</u>	<u>Approx. Taxi Fare</u>	<u>Limo Fare</u>
Airport	<u>6 miles</u>	<u>\$8.70</u>	<u>\$4.50</u>
Ferry Terminal	<u>60 miles</u>	<u>N/A</u>	<u>N/A</u>
Hospital	<u>2 1/2 miles</u>	<u>\$4.50</u>	<u>N/A</u>
High School	<u>1 1/2 miles</u>	<u>\$3.30</u>	<u>N/A</u>
Elementary School	<u>1/2 mile</u>	<u>\$2.10</u>	<u>N/A</u>
Small Boat Harbor	<u>60 miles</u>	<u>N/A</u>	<u>N/A</u>

Note: taxi fares do not include tips and would be higher during most times of day due to traffic delays.

Housing Developments	<u>1 mile</u>	<u>\$2.70</u>	<u>N/A</u>
Military Base Air Force	<u>1½ mile</u>	<u>\$3.30</u>	<u>N/A</u>
Other Employment Centers (specify)			
<u>University</u>	<u>4 miles</u>	<u>\$6.30</u>	<u>N/A</u>
<u>Army Post</u>	<u>10 miles</u>	<u>\$13.50</u>	<u>N/A</u>
_____	_____	_____	_____

General comments on the cost and availability of local transportation in your community:

There is little or no coordination between the various intercity bus, rail, and air carriers. Bus service is provided by at least five different carriers with no interaction regarding scheduling, fares, terminals, baggage handling, or public information. ADOT/PF should take a role in encouraging coordination. There are at least two limousine services afflicted by similar problems.

General comments on the cost and availability of local transportation in your community.

It is generally felt cost to airport and hospital is high. In 1967 it  
cost \$1.50 @ for hospital workers to share taxi and I believe \$3.00 alone.  
\_\_\_\_\_

There are 2 local people considering bus services. Area Cab owner just  
told me yesterday he plans to try it. The city is not interested if  
private enterprise will provide.

<u>                    </u>	<u>                    </u>	<u>                    </u>	<u>                    </u>
<u>                    </u>	<u>                    </u>	<u>                    </u>	<u>                    </u>

General comments on the cost and availability of local transportation in your community.

Transportation in Galena is complicated by the fact the area is broken into three districts, Old Galena, New Galena and the airport/Air Force Base. Distances below points can be walked but not safely during periods of the year when short days and cold temperatures can be expected.

Taxi service has been and continues to operate reasonable well considering the passenger loads, weather conditions and fares charged for the service.

A recent grant to operate a transportation system using small buses or vans has been received but no action on the program has been taken due to concerns over competition with private enterprise and the fear the project would be a financial burden to the municipality after the initial award was exhausted.

Final action may see the funds redirected without involving a transportation element. Public interest in the plan has been extremely limited, due in part

to a lack of direction in the program or a clear-cut need to be served. Transportation on the whole does not appear to be a priority concern.

QUESTIONNAIRE ON COMMUNITY BASED TRANSPORTATION SERVICES

Please return questionnaire by October 31, 1980 to the following address:

Ginny Chitwood  
Executive Director  
Alaska Municipal League  
204 North Franklin  
Juneau, Alaska 99801

Name of Municipality Kenai Population 4,381

1. Taxicabs

2 Number of taxicab companies operating in the community.  
16 Estimated number of taxicabs operating in the community.  
In town--No  
Out--yes Does the cost of a cab depend on the number of persons making a trip.  
\$4.00 If yes, what is the cost of a 3 mile trip for one person.  
\$4.00 What is the cost of the same trip for three persons.  
24/day What are the hours of operation.

2. Limousine Services

No Is scheduled service available to the airport and ferry terminal.  
The taxicabs meet each scheduled jet for transportation.  
                     If yes, what is the seating capacity of the vehicles used.

3. School Buses

yes Does a pupil transportation system exist in your community.  
4 If yes, how many buses are required to provide the service.  
Private Is the service operated by the school district or by private contractor.  
Morgan Enter. If by contractor, give his/her name.

**4. Intercity Buses**

\_\_\_\_\_ What communities can be reached by road from your community?  
(if very many, provide representative list)

The villages of Teller and Council during the summer only. Also, various m  
\_\_\_\_\_ districts and fishing/berry picking camps are accessible by road.

No \_\_\_\_\_ Is bus service available to any of these communities?

\_\_\_\_\_ If yes, what communities are on the route serving your community?

\_\_\_\_\_ What days of the week does the service operate?

\_\_\_\_\_ What seasons of the year does it operate?

**5. Maintenance Facilities:** Please provide information on the use and ownership of maintenance facilities.

<u>Service</u>	<u>Facility Available</u> (yes-no)	<u>Facility Ownership</u>
School Bus	yes	Morgan Enterprises
Taxicabs	yes	Yellow Cab, Checker C.
Airport Maintenance	yes	St. of Alaska
Gas Stations (list)	yes	
Q Trucking Co.		
Bonanza		
You can buy in bulk from the Chevron USA plant located within the City		
Government Agencies (specify)		
D.O.T.	yes	St. of Alaska
Schools (specify)		
Bering Straits REAA	yes	They rent space from the Nome Baitz High School
Northwest Comm. College	yes	ST. of Alaska
Other (specify)		

\_\_\_\_\_ I am not sure what you are asking for under Government Agencies. There are a number  
\_\_\_\_\_ of government agencies (both State and Federal) in Nome.

6. Social Services: Of the following health, social and educational services, check the ones that are available in the community and have vehicles available for their use.

<u>Service Facility</u>	<u>Does Service Exist</u>	<u>Vehicles Available</u>
Day Care	XX	No
Senior Center	XX	XX--for Seniors only
Pioneer Home		
Hospital/Clinic	XX	XX-for ANS patients
Community Schools	XX	
Community College	XX	
Alcoholism Program	Being Organized at present time	
Other (specify)	Headstart	XX-Run by Kawerak, Inc. Primarily for Native Children from disadvantaged Homes
	None Pre-School	Open to all--no transportatio

B. COST OF TRANSPORTATION SERVICES

1. List present cost of fuel:

1.52 unleaded; 1.46 regular; N/A supreme; 1.51 diesel.

2. If the community is not on the state highway system, what is the estimated cost of having an automobile shipped to the community?

water shipping 1200/1400 from Seattle air freight 1800/2200 from Anchorage

3. What is the estimated distance from the downtown area of your community to the following locations and the cost of taxi or limousine services for one person to each location.

<u>Location</u>	<u>Distance</u>	<u>Taxi Fare</u>	<u>Limo Fare</u>
Airport	<u>1.5</u>	<u>2.00</u>	<u></u>
Ferry Terminal	<u>N/A</u>	<u></u>	<u></u>
Hospital	<u>.5</u>	<u>2.00</u>	<u></u>
High School	<u>4.5</u>	<u>6.00****</u>	<u></u>
Elementary School	<u>.2</u>	<u>2.00</u>	<u></u>
Small Boat Harbor	<u>1.0</u>	<u>2.00</u>	<u></u>

We do not have a small boat harbor yet-- people dock their boats on the west side of Belmont Point about 1 mile from downtown

\*\*\*\*price for 1-3 people

Housing Developments	XX	2.00	
Military Base			
Other Employment Centers (specify)			
Alaska Gold Camp	XX	5.00 for 1 to 3 people	

General comments on the cost and availability of local transportation in your community.

At this time transportation needs appear to be adequate in Nome. The School Buses provide public transportation for school activities (ball games, etc.)

at the high school which is 4.5 miles from downtown. Costs are appropriate

I believe when you consider the cost of fuel, vehicles, wages, and insurance.

Many people in Nome park their private vehicles during the winter because of the cost of maintaining a car during the winter months and use the taxicabs. Vehicles must be plugged in to allow them to operate in Nome during the winter months and electricity costs 19.1¢ per kWh.

RE:

BOUNDARIES

# CITY OF NOME

P.O. BOX 281 - NOME, ALASKA 99762  
TELEPHONE (907) 443-5242

February 11, 1981

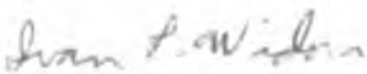

Senator Donald E. Gilman  
Chairman  
Senate Committee Community & Regional Affairs  
State Capitol  
Pouch V  
Juneau, Alaska 99811

Dear Senator Gilman:

Enclosed is a copy of the remarks for the City of Nome's annexation hearing on February 17th. I have prepared these in advance, because I will not be in the State at the time of the hearing. A member of my staff will read them for me.

If you require additional information regarding our annexation request, please feel free to call on me at your convenience.

Sincerely,

  
Ivan L. Widom  
City Manager

Enclosure

Statement to Legislative Teleconference  
Hearing Regarding Nome Annexation

I must apologize for not being able to appear before you in person today, but I had a trip scheduled outside for over a month now and couldn't change my plans. The City of Nome is fortunate to have the opportunity to discuss our annexation request once again. In fact, we are excited by the fact that we can tell the tale of annexation to someone who is interested in our situation.

I won't go into a long history. However, some of our past is relevant to this hearing. Nome was incorporated in 1901 and we are celebrating our 80th anniversary this year. Since that time, the boundaries of the City have been .85 square miles. No, your eyes and ears are not wrong, we still are today less than 1 square mile in size. This is for a city that once had over 10,000 population during the early years.

Today, our State recognized population is 2,892, the largest and only first-class city in northwest Alaska. Several attempts to annex over the years have ended in failure. One of the most recent ended up leaving the City the same way it has always been. In 1968, the City petitioned the Boundary Commission to annex 15.32 sq. miles. This action was subsequently challenged by what is now Alaska Gold and invalidated by the Court in 1971. The Supreme Court took this action because the Boundary Commission didn't have the required standards.

The current annexation has been in progress for almost 4 years. Numerous public hearings were held to inquire from and inform the public. In August of 1978, the Council passed an ordinance to annex 235.65 sq. mi. While this might seem to be a great deal of territory, there are at least 2 other cities in Alaska much larger that have been approved by the Boundary Commission. Valdez has 274 sq. mi. and Skagway is 443 sq. mi. Other cities in Alaska with much smaller populations include Nightmute, pop. 135 with 102 sq. mi., Togiak, pop. 474 is 42 sq. mi., McGrath, pop. 382 is 48 sq. mi., 6 Stebbins, pop. 309 is 35 sq. mi. The City was justified in requesting that much land

because the area is under influence of the City and that territory influences Nome as well.

The real issue is why does the City of Nome want to increase its boundaries? In the first place, our airport, our junior & senior high school, a major subdivision and at least 252 people (latest count) live outside the City and are dependent on the City for services in one way or another. Most of these people live within 1.5 miles of the present City limits in a major subdivision, FAA and State housing as well as dormitory housing at the Nome/Beltz complex.

The City of Nome is growing. We want to put a 3,600 foot causeway into Norton Sound and have 7 million bond dollars obligated for that purpose. The proposed land area for the port is not presently inside the City limits. While the problems are not insurmountable, we still have to gain title to the land and tidelands. Not having this area inside the City makes this situation a difficult one. The State of Alaska has \$6,989,000 to build a new jail and would like to do so inside the City. At the present time, all water & sewer is inside the City and we want to keep it that way. This annexation would certainly allow us more flexibility in choosing a site for the State jail.

The junior, senior high school is also outside the City. We feel that it is necessary to have this facility inside City limits because it is City-owned. Our water supply, Moonlight Springs, also should be brought into the City. The State airport should be part of the City of Nome. We are looking at an OCS sale in Sept., 1982. From all indications, the City of Nome and especially the airport, will be impacted by any exploration and development when it occurs. The City should be involved in the planning for this facility, not as a courtesy of the State, but as an integral part of the City's comprehensive plan and future development.

It is also important for you to realize that the City of Nome & the Seward Peninsula will soon be impacted by mineral development. There are 40% of the U.S. known tin reserves located just 210 miles northwest of Nome. Both Anaconda and Kennecott copper are actively discussing development of resources to the north and northeast of Nome. Other known minerals besides gold and silver are uranium, beryllium, fluorite tungsten, lead, zinc & copper. Sizeable coal deposits are also located here.

One of the key issues in this annexation is Alaska Gold's concern over taxation & ability to develop their holdings. All of the land to be annexed (except for the airport and a few hundred other acres) are in privately held mining claims. These undeveloped claims by State law can be taxed at the maximum rate of \$20 per 200 acres. Any development that takes place could be better controlled if it were in the City since the majority of their holdings are currently in the unorganized borough without any planning at all.

A concern of the natives was that they desire to control their own land. The Boundary Commission took that concern & others into consideration and cut the City's request from 235 sq. mi. to 17.83 sq. mi. This annexation would enlarge the City from its present .85 sq. mi. and make us a total of 18.68 sq. mi., certainly not a huge city that many organizations were originally concerned about.

I have already described many of the consequences of our not being allowed to annex. There are more that I will not go into. Hopefully, you will understand our plight and not take action to destroy our opportunity to positively plan for our future. As you are aware, if this annexation is disapproved by the Legislature, then the City of Nome will remain .85 sq. mi. in size.

Thank you.

## CONTENTS

1. A Short History of the Proposed Annexation of Territory to the City of Nome (prepared by Committee Staff)
2. Report of the Local Boundary Commission to the Legislature
3. Memo from John B. Chenowith, Legislative Counsel to Senator Frank Ferguson and Representative John Fuller.
4. Letter and Statement of the City of Nome

A Short History of the Proposed Annexation  
of Territory to the City of Nome

1968. Nome annexes approximately 14 square miles of territory.

1971. The Alaska Supreme Court invalidates the annexation on the grounds that the Local Boundary Commission had not promulgated standards for annexation.

August 28, 1978. Nome City Council adopts an ordinance authorizing the annexation of certain territory.

July 14, 1980. City of Nome petitions for the annexation of 235.65 square miles of land.

July 25, 1980. The petition is determined to be sufficient as to form and content and is accepted by the Department of Community and Regional Affairs.

Oct. 29, 1980. A report from the Department to the Local Boundary Commission recommends a smaller area of approximately 14 square miles be annexed.

November, 1980. The City Council passes a resolution to correct a discrepancy between the authorizing ordinance of August 28, 1978, and the petition of July 14, 1980, concerning the description of the land to be annexed.

Nov. 21, 1980. A public hearing is held in Nome. The petition is opposed by the Alaska Gold Company, Bering Straits Native Corp. and Sitnasuak Corp., all of which file extensive briefs stating various procedural and substantive objections.

Dec. 11, 1980. The Local Boundary Commission issues a statement of decision stating that the proposed annexation (235.65 square miles) does not meet the standards set forth in 19 AAC 05.010 (see attachment). However, the LBC decides that a smaller parcel of 17.8 square miles does meet the standards and should be annexed. The LBC notes in its decision that the annexation meets standards 3 through 9. 19 AAC 05.010 requires that one or more of the 9 standards must be met for annexation.

Most of the land belonging to the two Native Corporations is eliminated from annexation by the reduction of territory to the 17.8 square mile parcel. This largely removes the basis for opposition by these two groups.

The Alaska Gold Co., which has substantial holdings of land within the 17.8 square mile annexation, remains adamantly opposed to the annexation. In its post hearing brief, the Gold Co. alleges that:

1. the annexation petition is defective;
2. the LBC misapplied its standards;
3. the LBC made improper contacts with the city;
4. the LBC cannot independently alter an annexation petition; and
5. the only reason the City wishes to annex is to bring the Gold Co. within its taxing jurisdiction and that it has no plans to extend services to the annexed area.
