III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

1. Assumes an effective date of July 1, 1981.
2. Personal Services based on current salary schedule, with allowance of vacancy factor in FY '82.
3. Travel, Contractual Services, Commodities and Equipment are based on cost per position with the exception of Data Processing cost of \$120,000 which is based on an estimate for a Time Sharing operation.
4. Assumes an annual inflation factor of 8% for all line items.
5. To meet the requirements of this legislation, funding for the following information components is requested:

REGIONAL ECONOMIC FORECAST BY INDUSTRY

\$230,998 (FY '82)

The large geographic size of Alaska makes it probable that some regions could have severe shortages of workers while other areas lack economic activity. For the past three years the Research and Analysis Section has developed and improved the employment data base for

Prime Sponsor (First Legislator Named)

six regions of the state. This permitted more accurate sub-state regional estimates of employment by industry, labor force and unemployment. Both published and nondisclosable (due to confidentiality restrictions of Alaska's Unemployment Insurance Law) data are contained in this data base.

This component would provide staff to analyze and forecast employment, labor force, and unemployment information for the six regions of the State. With computer assistance, staff would determine the trend and level of economic activity by industry and enable the operation of an industry/occupation matrix to provide occupational forecasts by industry for the six regions.

Purchases: Labor Economist III, 2 Labor Economists II's, Clerical & Data Processing Services

#### EXPANDED OCCUPATIONAL EMPLOYMENT STATISTICS

\$91,809 (FY '82)

For much of the past decade Research and Analysis has estimated and projected employment (staffing levels) by occupation. Occupational data from an employer survey is merged with the employment forecast by industry to prepare forecasts of occupational employment.

This component would provide staff to provide occupational forecasts by industry for the six regions of Alaska. Industrial detail used would be expanded to provide for more accurate estimates. For example, more detail in the mining industry, would isolate coal and hard rock mining from oil and gas extraction. This would permit more accurate forecasts of the occupations involved if those sub-industries grew at different rates.

Purchases: 1 Labor Economist II, Data Processing and Clerical Services

#### ANALYSIS OF UI AND ES DATA BASES

\$41,637 (FY '82)

In the first year of the legislation only, the agency proposes a small increment to analyze how best to utilize the Unemployment Insurance (UI) and Employment Service (ES) data bases for dynamic indicators of unemployment and employee turnover. Potentially, these two data bases could give insight into the mobility and labor force attachment of Alaska's population. Both cross sectional (one point in time) and longitudinal (between different time periods) analysis is feasible. However, some of this analysis has only been done in a few states and the uniqueness of each state's unemployment insurance data base makes it appropriate to limit the study to determining feasible methodologies in the first year.

Purchases: 0.5 Labor Economist III, Clerical and Data Processing Support

#### MIGRATION STUDY

\$78,312 (FY '82)

Any analysis of Alaska's labor force supply would be inadequate without considering the impact of migration (both immigration and outmigration). Migration flows are triggered both by push (lack of available opportunities in the area from which migration emanates) and pull (more lucrative opportunities in the area which receives the migration) factors. Interstate analysis of the factors which correlate with migration would be necessary (for example, construction employment in other western states). Modeling the migration component would give insight into the appropriate timing of large capital projects.

Purchases: 1 Labor Economist II and Clerical and Data Processing Support

EXPANDED ALASKA OCCUPATIONAL INFORMATION

\$70,657 (FY '82)

The Alaska Career Information system provided Labor Market Information about careers and occupations in Alaska to a broad spectrum of users.

This additional position would allow for an expanded, more detailed treatment of the worker supply and demand descriptions. State-wide information would be broken down for users on a more site specific basis to include at minimum Anchorage and Fairbanks. Coverage would be broadened by adding additional occupations. The development and implementation of the planning component for use by vocational and economic planning would be accelerated.

Purchases: Labor Economist II, Data Processing and Clerical Support.

HOUSEHOLD SURVEY METHODS TEST

\$36,755 (FY '82)

The following items would be accomplished with this component:

1. Interviews of program staff. Determine what information about the potential labor force is required for successful program administration.
2. Design Survey questionnaire.
3. Test sample. Two communities would be sampled to test the questionnaire; test programs of data entry, and retrieval; obtain accurate cost estimates; provide sample formatted output to program administrators.
4. Sample data review. Program administrators would be interviewed about the usefulness of the sample data and a decision would be reached to either seek funding for an expanded sample, modify the survey methods then seek funding to implement, or to scrap the project based on cost benefit.

Purchases: 0.25 Labor Economist II, 0.50 Data Control Clerk and Data Processing Services.

EVALUATION

\$35,000

Project monitoring will be the responsibility of the staff from DOE/DOL. The Research and Analysis Section of DOL will establish a survey to monitor and measure the effectiveness of the program. The survey will compare those who participate in the program with those who do not in terms of weeks of unemployment, employment salaries received, job satisfaction, as well as those who pursue additional education as part of their overall plan. The survey will be conducted over a two-year period to identify the more longterm results. Third party evaluation will consist of a team review based upon the project objectives. The team selection will be determined by DOE/DOL staff and shall consist of people within the outside the departments.

These components are interrelated with each other and with other information systems within our Research and Analysis Section. Integration of this complete information system will provide an excellent framework for agencies to determine both the needs of the labor force and the likely job outlook.

Purchases: Labor Economist III, Statistical Clerk, Data Processing.

Most of these components have been requested in House Bill 509. If both bills pass it will result in a duplicate funding of \$442.8 (FY '82) which needs to be adjusted.

This position's primary function is to develop occupational demand estimates for sub-state regions. The existing occupational information program (which has been in place and operating for almost a decade) provides detailed occupational estimates for the state as a whole and the Anchorage and Fairbanks labor market areas. The services of a Labor Economist II is required in order to develop occupational estimates and projections for additional geographic areas. These smaller regions (in terms of employment) present major problems and work elements with regard to methodology development, production of estimates, continual monitoring and measuring of estimating accuracy and development of revised estimating procedures. This information and services provided through the efforts of this position is crucial to effective regional manpower planning.

4. Assumes an annual inflation factor of 8% for all items.
  5. The number of individuals to be served is outlined in the assumptions contained in the Department of Community and Regional Affairs fiscal note.
  6. To meet the requirements of this legislation, funding for the following components is requested.
- I. Support to Basic Labor Exchange: \$778.9 (FY '82).

Purchases: 1 Management Analyst III, 5 Employment Security Specialists IB, 2 Employment Security Specialists II (in FY '82) with an additional 2 Employment Security Specialist IB's in FY '83 contracts for Employment Assessment, and Job Seekers Mobility Exchange.

Support to Basic Labor Exchange: is the process of identifying and assisting individuals who cannot be immediately placed into jobs. Within this component are (a) provision of employment counseling and development of plans to increase employability, (b) mechanisms for referral of individuals to support programs (such as other components of Community and Regional Affairs Worksite, Internship and youth programs, WIN, CETA, etc.), (c) mechanisms for provisions of financial assistance necessary to relocate Alaskan residents who are hired by Alaskan employers, and (d) the collection and dissemination of state-wide Labor Market and Job Market information.

Another element of this support involves services to employers such as EEO training and Personnel policies and procedures training.

- II. School to work transition program \$691.0 (FY '82).

Purchases: 4 Counselors I and 4 Counselors II and Evaluation Services from the Department of Labor's Research and Analysis Section plus a contract with the Department of Education for program liaison and on-site monitoring.

Through this program Alaska Department of Labor Employment Counselors would be stationed in high schools to provide career employment guidance and counseling and subsequent job development and placement services for high school students. By stationing these Employment Counselors in the schools, the link between the educational community and the world of work will be strengthened.

This "School To Work" project will involve the Department of Education for liaison assistance, setting up the program, negotiating with local education agencies, site selection, and monitoring. Four major sites with four satellites will be selected.

A long term evaluation model would be set up by Department of Labor's Research and Analysis section which will monitor the success of this project. A five year statistical study will sample participants and non-participants over time to determine their successful entry into and progress within the labor force.

under AS 28.10.011(6), (7) or (12), upon application by that owner.

6. Comments:

This bill basically contains housekeeping measures which will enhance our operation by correcting problem areas we have experienced, and/or can foresee in the future.

Reason for proposed amendment is Sec. 7 of the bill will exempt a mobile home from registration. It should therefore be included in Sec. 10 of the bill allowing issuance of a title. If titles were not issued citizens would experience problems in obtaining financing through lending institutions.

#### SUMMARY SB 319

The inclusion of sections 25-27, dealing with the industrial incentive tax credit, caused the act to violate the single subject rule, and the purpose of this bill is to eliminate possible constitutional problems.

Adds a new paragraph to AS 28.05.011 stating that regulations shall include but are not limited to (12) certification and regulation of vehicle body repair shops.

Amends AS 28.05.021 Compacts or agreements affecting State finances or driving privileges must be approved by a concurrent resolution approved by a majority vote of both houses before it becomes effective.

Amends AS 28.05.091 Changes the title of the Section to Impound of Vehicles; adds language that a vehicle whose vehicle identification number has been removed, defaced, or altered is an unlawful vehicle and may be impounded. Also states that the owner of a vehicle driven on a highway (roads) which is defective in equipment and unsafe for driving shall pay the necessary costs of impounding and storing of the vehicle.

Amends AS 28.05.141 Court shall conduct a hearing limited to the issues raised at the hearing under section (a), deleting the wording which stated the court shall conduct a hearing "de novo".

Amends AS 28.10.011 Every vehicle (in the State) shall be registered under this chapter except when the vehicle is a mobile home.

Adds new section to AS 28.10.051 The Dept. may cancel, suspend, or revoke a title or registration if it has reasonable cause to believe the title or registration was obtained in violation of AS 28.10.491. A peace officer shall impound the vehicle, after the receipt of notification of temporary revocation, pending the notice and hearing provided under AS 28.05.131 (a).

SUMMARY SB 319 cont.

Amends AS 28.10.105 (f) (Staggered Registration) by stating that the registered owner of a vehicle may exercise the option of extended registration periods only once for each vehicle.

**Power of commissioner includes regulation of motorcycle construction and safety apparel.** — The power of the commissioner of public safety to adopt regulations governing rules of the road has

been interpreted as including the regulation of motorcycle construction and safety apparel insofar as such regulations are reasonable and do not violate constitutional rights of the individual. *Kingery v. Chapple* Sup. Ct. Op. No. 858 (File No. 1554), 504 P.2d 831 (1972).

law negligence. Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971). But see Ferrell v. Baxter, Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971).

reasonable behavior is negligence per se. Ferrell v. Baxter, Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971). But see Claubaugh v. Bottcher, Sup. Ct. Op. No. 1235 (File No. 2481), 545 P.2d 172 (1976).

A violation of a statewide administrative traffic regulation adopted pursuant to statutory authority must be equated with a violation of a traffic statute itself. Ferrell v. Baxter, Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971). But see Claubaugh v. Bottcher, Sup. Ct. Op. No. 1235 (File No. 2481), 545 P.2d 172 (1976).

Difference between negligence per se and mere evidence of negligence. — Assuming causation is shown, if a plaintiff proves that a defendant violated a traffic law prescribing a standard of reasonable behavior, and the defendant produces nothing to the contrary, plaintiff's case is then sufficiently strong to warrant a judgment in his favor. However, if the law is not held to establish a standard of reasonable behavior and its violation is further held merely to constitute evidence of negligence which may, but need not, be considered determinative by the trier of fact, the judge need not render a verdict for the plaintiff. Ferrell v. Baxter, Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971).

Judgment for plaintiff in absence of defense. — Unless the defendant offers evidence of some defense, judgment for the plaintiff will be required in those jurisdictions in which a traffic violation is negligence in itself. Ferrell v. Baxter, Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971).

Prima facie case satisfies burden of proof. — When the plaintiff establishes a prima facie case, that is enough to satisfy the burden of proof when the evidence is not in conflict. Ferrell v. Baxter, Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971).

Certain traffic violations may be excused. Ferrell v. Baxter, Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971).

One such excuse can be that the violation was caused by outside forces, either man-made or natural, over which the actor had no control. Ferrell v. Baxter, Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971).

Contributory negligence. — Once a traffic violation has been proved, the defendant can offer any one of several defenses. For example, the contributory negligence of the plaintiff will be such a defense. Ferrell v. Baxter, Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971).

Violation excused under § 288A(2)(c) of Restatement. — If a trial court holds that a statute sets forth the standard of reasonable behavior and admits evidence of its violation, the court still may, in appropriate cases, permit the defendant to introduce evidence that although he did in fact violate the law, its meaning was so obscure or unreasonable that he acted with all due care in attempting to obey it. In this case his violation could be excused under § 288A(2)(c) of the Restatement. Ferrell v. Baxter, Sup. Ct. Op. No. 688 (File No. 1041), 484 P.2d 250 (1971).

Construction of 13 AAC 02.485(a). — Study of 13 AAC 02.485(a), which provides that "a driver of a vehicle may not back the vehicle unless the movement can be made with safety and without interfering with the traffic," and this section, under which this regulation was promulgated, reveals no reason why the regulation should be construed to prohibit an emergency excuse. Wilson v. Sibert, Sup. Ct. Op. No. 1151 (File No. 2165), 535 P.2d 1034 (1975).

Statutes may be enforced on streets not within state highway system. — The Department of Public Safety has the authority to enforce all traffic statutes and regulations upon dedicated or public subdivision streets, regardless of whether they are in the state highway system. 1965 Op. Att'y Gen., No. 10.

Sec. 28.05.021. Commissioner to enter compacts and reciprocal agreements. The commissioner may, under terms and conditions best calculated to promote the interests of the state, enter into a compact or agreement with an authorized representative of another jurisdiction in a matter relating to driver licensing, vehicle registration, or other

commercially in the state does not comply with the requirements of this title or regulations adopted under this title or other statutes and regulations, he may, after giving 30 days notice to the person holding the certificate of approval for the equipment in this state, conduct a hearing upon the question of compliance of the equipment. After the hearing, the commissioner shall determine whether the equipment is in compliance. If the equipment is not in compliance with the law, the commissioner shall give notice of that fact to the person holding the certificate of approval for the equipment in this state.

(b) If, at the end of 90 days after the notice of noncompliance given under (a) of this section, the person holding the certificate of approval for the vehicle equipment has failed to satisfy the commissioner that the equipment as sold after the 90 days is in compliance with the law, the commissioner shall suspend or revoke the approval issued for the equipment until the equipment is resubmitted to, and retested by, a testing agency approved by the commissioner and is found to be in compliance with the law. The commissioner may, at the time of retest, purchase in the open market and submit to the testing agency one or more sets of the equipment. If the equipment upon retest fails to comply with the law, the commissioner may refuse to renew the certificate of approval of the equipment.

(c) After January 1, 1978, no motorcycle helmet may be manufactured or sold in this state which does not conform to standards established in regulations adopted by the commissioner. These regulations shall provide for helmets that allow normal peripheral vision and hearing and minimize neck injuries to the wearer potentially caused by the helmet. For the purposes of this section and § 11(2) of this chapter, a motorcycle helmet is considered to be vehicle equipment. (§ 6 ch 178 SLA 1978)

**Sec. 28.05.091. Seizure of unsafe or defectively equipped vehicle.** A motor vehicle which is driven on a highway or vehicular way or area, and which has been determined to be defective in equipment so as to be unsafe for driving, is an unlawful vehicle and may be impounded by a peace officer or an employee of the department officially designated for that purpose. The owner or person in lawful possession of the vehicle shall pay the necessary costs of impounding and storing the vehicle. The impounding of a vehicle is in addition to any other penalty. Nothing in this section prevents the driving or moving of a defective vehicle in the manner directed by the peace officer or employee to a place for

- (1) the correction of a defect in the equipment;
- (2) dismantling or wrecking; or
- (3) storage without repair. (§ 6 ch 178 SLA 1978)

Editor's note. — This section derives from the language of AS 28.35.210, which is treated as repealed by this section.

### Article 3. Subpoenas, Notices and Hearings.

Section	Section
111. Subpoenas; witnesses and documents	131. Opportunity for hearing required
121. Giving of notice	141. Hearings and appeals

**Sec. 28.05.111. Subpoenas; witnesses and documents.** (a) The commissioner and officers and employees of the department designated by the commissioner may, for good cause, subpoena witnesses to give testimony under oath or to give written deposition upon a matter under the jurisdiction of the department with respect to this title, and regulations adopted under this title. A subpoena issued under this section may require the production of relevant books, papers, documents, records or other tangible things designated in the subpoena.

(b) A subpoena issued under this section shall be served at least five days before the return date, either by personal service made by a peace officer or another person who is not less than 18 years of age or by registered or certified mail. Return acknowledgment is required to prove service by mail. The fees for the attendance and travel of witnesses are the same as for witnesses appearing before the district court.

(c) A subpoena issued under this section may be enforced by the district court. (§ 6 ch 178 SLA 1978)

**Sec. 28.05.121. Giving of notice.** When the department is authorized or required to give notice under this title or regulations adopted under this title, unless a different method of giving notice is otherwise expressly provided, notice shall be given by a qualified person, either by personal delivery to the person to be notified or by registered or certified mail, return receipt requested, addressed to the person at his address as shown in the records of the department. The giving of notice by mail is considered complete upon the return of the receipt or upon return of the notice as undeliverable, refused, or unclaimed. Proof of the giving of notice in either manner may be made by the affidavit of the person giving the notice by personal delivery or by mail, naming the person to whom the notice was given and specifying the time, place, and manner of giving the notice. (§ 6 ch 178 SLA 1978)

**Sec. 28.05.131. Opportunity for hearing required.** (a) Unless otherwise specifically provided, or unless immediate action in suspending, revoking, cancelling, limiting, restricting, denying or impounding is necessary for the protection of the health, safety or welfare of the public, the department shall give notice of the opportunity for an administrative hearing before a license, registration, title, permit or privilege issued or allowed under this title or regulations adopted under this title is suspended, revoked, cancelled, limited, restricted or denied or a vehicle is impounded by the department. If action is required under this section and prior opportunity for a hearing cannot be afforded

hearing as soon after the action as possible to the parties concerned.

(b) The notice under this section shall state the reasons for the department's proposed action and provide for a reasonable attendance date of not less than 10 days after service of the notice. If there is no request for a hearing by the attendance date specified in the notice, the hearing is considered to have been waived. (§ 6 ch 178 SLA 1978)

**Sec. 28.05.141. Hearings and appeals.** (a) Unless otherwise specifically provided, all hearings required under this title or regulations adopted under this title shall be conducted by the department under regulations adopted by the commissioner governing practice and procedure and consistent with due process of law. Hearings shall be informal, and technical rules of evidence do not apply. A person who requests a hearing may retain an attorney if he so desires. The hearing officer shall be appointed by the commissioner and may be appointed from the department. A hearing officer need not be an attorney, but must be impartial and may not have participated in the decision which is under review. The hearing officer does not have to file a full opinion or make formal findings of fact or conclusions of law, but he must state the reasons for his determination and indicate the evidence relied upon. The proceedings at the hearing shall be recorded.

(b) A hearing ordered under (a) of this section shall be held at the office of the department nearest to the residence of the person requesting the hearing unless the department and the person agree that the hearing is to be held elsewhere. The department shall grant a hearing delay if the person presents good cause for the delay. If a person fails to appear for the hearing at the time and place stated by the department and if a hearing delay has not been granted, his failure to appear is considered a waiver of the hearing and the department may take appropriate action with respect to the person.

(c) If at the hearing under (a) of this section it appears that the record of the person sustains suspension, revocation, limitation, denial, or other remedial action, the hearing officer shall so order and the department may suspend, revoke, limit, deny, or take other remedial action against that person's license and, if appropriate, the department shall adjust the person's point total accumulated under AS 28.15.231.

(d) A person aggrieved by the decision of the hearing officer may, within 30 days, initiate a proceeding in district court to rescind the department's action by filing a notice of appeal in accordance with the applicable rules of court governing appeals in civil matters. The court shall conduct a hearing de novo. The decision of the department suspending, revoking, canceling, limiting, restricting or denying a license, registration, title, permit or privilege is stayed and does not take effect during the pendency of an appeal. (§ 6 ch 178 SLA 1978)

##### 151. Form and issuance of citation

**(Sec. 28.05.151. Form and issuance of citation.** (a) When a person is arrested or cited for the commission of a vehicle or traffic offense which is a misdemeanor or an infraction, the arresting or citing officer shall, except when otherwise required by law or the immediate circumstances, issue a citation to the person arrested or cited. The person receiving the citation may not be required to endorse the citation.

(b) The state supreme court shall determine by rule or order those vehicle and traffic offenses that are amenable to disposition without court appearance and shall establish a schedule of bail amounts, not to exceed fines prescribed by law, for each offense. If the offense for which the citation is issued is one which may be disposed of without court appearance, the citing officer shall write on the citation the amount of bail applicable to the cited offense.

(c) A person cited for a motor vehicle or traffic offense for which a bail amount has been established under (b) of this section may, within five days from the date of the citation, mail or personally deliver to the clerk of the court having jurisdiction over the place where the offense occurred

- (1) the amount of bail indicated on the citation for that offense; and
- (2) a copy of the citation signed by him on an appropriate blank on the citation indicating his waiver of appearance, plea of no contest, and direction to forfeit the bail.

(d) When bail has been forfeited under this section, a judgment of conviction shall be entered. Bail forfeited under this section is a complete satisfaction for the offense, and the offender shall be given a receipt stating that fact.

(e) If the person cited fails to pay the bail amount or appear in court as required, the citation shall be considered a summons as for a charge of a misdemeanor and he shall be proceeded against in the manner prescribed by law. However, the maximum penalty which may be imposed for the original offense may not exceed the bail amount for that offense set out in the schedule of bail amounts as determined by the supreme court under (b) of this section.

(f) A municipality shall adopt a citation form which complies with the requirements of this section and is at least equivalent to that adopted by the commissioner under § 41 of this chapter. (§ 6 ch 178 SLA 1978)

**Sec. 28.10.051. Department may suspend or revoke registration.** The department may suspend or revoke the registration of a vehicle, the certificate of registration or registration plates for a vehicle, or a special permit when

- (1) the department is satisfied that the registration or certificate, plate or permit was fraudulently or erroneously issued;

The department shall search all available sources to determine the identification number originally assigned and, if the number is determined, shall replace it. If efforts to determine the original identification number fail, the owner shall furnish information to show that he is entitled to ownership of the vehicle and have it inspected by the department. The department, when satisfied as to the ownership of the vehicle, shall assign an identification number to the vehicle and have the number placed upon the vehicle to which it is assigned. The vehicle shall then be registered under the replaced or assigned identification number. (§ 7 ch 178 SLA 1978)

**Sec. 28.10.181. Registration of unique and special vehicles and vehicles used for special purposes.** (a) The department shall register unique and special vehicles and vehicles used for special purposes and issue registration plates as provided in this section. Notwithstanding other provisions of this chapter, registration plates issued under this section remain with the person or organization to whom they are issued when vehicle ownership is transferred or title or interest in the vehicle is assigned, except for plates issued under (b), (h) and (i) of this section. Registration plates issued under this section may not be used on, or transferred to, a vehicle other than the vehicle for which the plates are issued without the approval of the department and payment of any required fees and taxes prescribed in §§ 421(d), 431 and 441 of this chapter; however, if the plates issued under (c), (f) and (j) of this section are transferred to a vehicle for which the registration fee is more than the fee for the vehicle from which the plates are transferred, the owner shall pay the difference between the two fees. Registration plates issued under this section to which a person is no longer entitled or the transfer of the plates to another vehicle which the department does not approve shall be returned immediately to the department by the person or organization to whom the plates were originally issued.

(b) Historic vehicles. The owner of an historic vehicle may make application for special registration under this subsection. The department, when satisfied that the vehicle meets the requirements for historic vehicle registration under regulations adopted by the commissioner, shall register the vehicle and issue two permanent registration plates of distinctive design and color bearing no date. The plates remain with the vehicle as long as it is registered under this subsection. Vehicles qualifying for registration under this subsection shall be issued registration plates numbered in a separate numeric series beginning with "Historic Vehicle No. 1."

(c) Special request plates. Upon application by the owner of a passenger vehicle, noncommercial van or pick-up truck, or motor home, the department may design and issue registration plates containing a series of not more than six letters or numbers or combination of letters and numbers as requested by the owner. The department may, in its discretion, disapprove the issuance of registration plates under this subsection when the requested symbols are a duplication of an existing registration or when the symbols are considered unacceptable by the department.

(d) Vehicles owned by disabled veterans and handicapped persons. A person who presents to the department written proof that he is at least 70 per cent disabled or medically handicapped and should be given special consideration by the public with respect to the parking and standing of his vehicle in designated spaces, may register one passenger vehicle without charge. The proof required under this subsection may consist of evidence that the person receives at least 70 per cent disability compensation from a government agency at the time of registration or an affidavit signed by a physician licensed to practice medicine in the state. Upon the request of the applicant the department shall issue a specially designed registration plate which displays

(2) the standard handicap symbol (the wheelchair logo).

(e) Vehicles owned by the state, municipalities, and charitable organizations of the state. Every certificate of registration and registration plate issued to the state, a municipality or charitable organization of the state is in effect until the vehicle for which the registration certificate and plate were issued is no longer owned and operated by the state, the municipality or the charitable organization of the state or until the department, in its discretion, declares its expiration. The state, municipality or charitable organization of the state shall maintain a current listing of all vehicles registered to it in the order of the registration number assigned to each vehicle, and shall provide

495. Parking permit for transporting disabled person	for vehicle	501. Definitions
		502. Towing and storage lien.

**Sec. 28.10.495. Parking permit for vehicle transporting disabled person.** (a) When the owner or person in lawful possession of a vehicle presents to the department written proof, in the form of an affidavit, that he is primarily responsible for the transportation of a disabled or medically handicapped person, the department shall issue to the applicant, without charge, a special permit bearing the applicant's name, address, driver's license number, and the registration plate numbers of the vehicles to be used for that transportation. The permit issued under this section, when displayed in the front windshield of a parked or standing vehicle, shall provide for special consideration by the public with respect to the parking or standing in designated spaces of a vehicle which is not registered in the name of the disabled or medically handicapped person, but which is used for the primary transportation of that person.

(b) No person is entitled to use the special permit provided for in (a) of this section except

(1) the driver named on the permit;

(2) when in a vehicle having its registration number on the permit; and

(3) only when providing transportation for the disabled or handicapped person with respect to whom the permit was issued.

(c) Proof of disablement or medical handicap, for the purpose of this section, shall be provided as specified in § 181(d) of this chapter. (§ 24 ch 178 SLA 1978)

**Sec. 28.10.501. Definitions.** Unless otherwise specifically defined or unless the context otherwise requires, in this chapter and in regulations adopted under this chapter, "dealer" means a person engaged in the business of buying, selling, or exchanging vehicles of a type required to be registered under this chapter and who maintains a place of business or by word of mouth, advertising or in any other manner holds himself out to be in the business of buying, selling or exchanging vehicles. (§ 7 ch 178 SLA 1978)

**Sec. 28.10.502. Towing and storage lien.** (a) A person engaged in the business of towing motor vehicles, who tows, transports or stores a motor vehicle, has a possessory lien on the vehicle. This lien attaches when the person acts under a contract with the owner or at the direction of a public officer acting lawfully or a person entitled to possession of the property upon which the motor vehicle is parked without consent. The lien remains in effect while the motor vehicle is in the possession of the person, and the vehicle may be sold, as provided in (c) of this section, to pay the charges for towing, transportation or storage.

(b) A lien under this section is limited to towing and storage charges assessed according to the tariff filed by the carrier with the Alaska Transportation Commission; however, in the absence of a filed tariff, the towing or storage charge shall be the same as the lowest similar charge in the other filed tariffs covering the same service or route. Storage charges cease to be part of the lien after 60 days unless the registered owner or primary lienholder, if any, has been given actual notice of the possessory lien within that time or unless a certified letter has been mailed within that time to the owner and primary lienholder, if any, at their addresses of record with the Department of Public Safety or the corresponding office in another jurisdiction in which the title to the motor vehicle and the lien on it are recorded.

(c) If the motor vehicle remains unclaimed for a period of 30 days in the possession of the person who performed the towing, transportation or storage, it shall be sold on giving 20 days notice of the sale. The notice shall be delivered to the proper officer and personally served on the registered owner and all lienholders, if any, of the motor vehicle in the same manner as provided by law for service of summons. If either of these persons cannot be located and served personally, notice of the sale shall be forwarded to him at his last known address by certified mail, return receipt requested. This notice shall contain a description of the motor vehicle, including its registration plate number and vehicle identification number, together with the time and place of sale, a statement of the amount due, and the name and address of the person to whom the charges are due.

(d) The money realized from a sale made under this section shall be applied first to the payment of costs and expenses of the sale and secondly to the lawful charges of the person having a lien on the motor vehicle under this section. Remaining proceeds from the sale shall be retained by the Department of Public Safety to be distributed to the registered and legal owner or lienholder entitled to the remaining proceeds. A purchaser in good faith of a titled motor vehicle sold under this section takes the motor vehicle free of any rights of prior lien. (§ 21 ch 178 SLA 1978)

**Sec. 28.15.031. Persons not to be licensed.** (a) The department shall not issue a driver's license to a person who is under the age of 16 years, except that the department may issue a permit under § 51 of this chapter or a restricted license under § 121 of this chapter.

(b) The department shall not issue an original or duplicate driver's license to, nor renew or reinstate the driver's license of, a person

(1) whose license is suspended or revoked, except as otherwise provided in this chapter;

(2) who fails to appear in court for the adjudication of a certain vehicle, driver or traffic offense when his appearance is required by statute, regulation or court rule;

(3) who is an habitual user of alcohol or another drug to such a degree that he is incapable of safely driving a motor vehicle;

(4) who has previously been adjudged to be afflicted with, or suffering from, a mental disability or a disease and who has not, at the time of application for the license, been restored to competency by the methods provided by law;

determined that because of his physical or mental disability the person is not able to drive a motor vehicle safely;

(6) who is unable to understand official traffic control devices as displayed in this state or who does not have a fair knowledge of traffic laws and regulations, as demonstrated by an examination;

(7) who has knowingly made a false statement in his application for a license or has committed fraud in connection with his application for, or in obtaining or attempting to obtain, a license, or who has not applied under oath on the form provided for the purpose of obtaining or attempting to obtain a license or permit; or

**Sec. 28.15.041. Classification of drivers' licenses.** (a) The commissioner shall provide by regulation for the classification of drivers' licenses. The regulations shall specify license classifications which are reasonably necessary for the safe operation of the various types, sizes and combinations of motor vehicles. The regulations shall also establish medical standards, standards of driving conduct and proficiency, and other standards governing the issuance, renewal, or denial of these licenses. The department may examine each applicant to determine his qualifications according to the class of license applied for, and upon issuing a driver's license the department shall indicate on the license the classification for which an applicant for a license has qualified by examination. The regulations and any subsequent modifications under this section become effective only if approved by a concurrent resolution adopted by a majority vote of each house of the legislature.

(b) No person may drive a school bus transporting school children, or a bus transporting school-age children or another motor vehicle when in use for the transportation of persons for compensation until he has applied for and has been issued a license for that purpose under (a) of this section. The department may not issue a license under this subsection unless the applicant is at least 19 years of age, has had at least one year of driving experience, and the department is satisfied as to the applicant's good character, competence and fitness to be licensed; nor may the department issue the license until proper application has been made and all required driving, written, and physical examinations have been successfully completed. A license issued under this subsection expires on September 1 of the year following issuance. Application for renewal may be made by submitting to the department the results of a current physical examination and paying the required fee. (§ 19 ch 178

**Sec. 28.15.051. Instruction permit, temporary driver's license and special driver's permit.** (a) Except as provided in (b) of this section, a person who is at least 14 years of age may apply to the department for an instruction permit. The department may, after the applicant has successfully passed all parts of the examination under § 81 of this chapter other than the driving test, issue to the applicant an instruction permit. The permit allows a person, while having the permit in his immediate possession, to drive a specified type or class of motor vehicle on a highway or vehicular way or area for a period not to exceed two years. The permittee must be accompanied by a person at least 19 years of age who has been licensed at least one year to drive the type or class of vehicle being used, who is capable of exercising control over the vehicle and who occupies a seat beside the driver, or who accompanies and immediately supervises the driver when he drives a motorcycle. An instruction permit may be renewed.

(b) The department, upon receiving proper application, may issue a restricted instruction permit effective for a school year or for a more restricted period to an applicant who is at least 14 years of age and who is enrolled in a driver education program which includes practice driving and is approved by the department. The restricted instruction permit allows the permittee, when he has the permit in his immediate possession, to drive a specified type or class of motor vehicle; however, an approved instructor must occupy a seat beside the permittee or, if the permittee is driving a motorcycle, he must be accompanied by and under the immediate supervision of an approved instructor.

(c) The department may issue a temporary driver's license to an applicant for a driver's license permitting him to drive a specified type or class of motor vehicle while the department is completing its investigation and determination of all facts relative to the applicant's eligibility to receive a driver's license. The temporary license must be in the applicant's immediate possession while he is driving a motor vehicle. A temporary driver's license is invalid when the applicant's license has been issued or has been refused for good cause.

(d) The department may issue a special driver's permit to a person who is at least 14 years of age with the consent of his parents or guardians for the purpose of driving a motor-driven cycle. This permit may be issued upon application and successful completion of all prescribed tests and fees, and is valid for the same period of time as a driver's license. The permit is not valid in a municipality which by ordinance prohibits the driving of a motor-driven cycle by a person under the age of 16 years; a borough may adopt the ordinance on a nonareawide basis only, unless the power to adopt it on an areawide basis is acquired under AS 29.33.250 — 29.33.290.

(e) Notwithstanding other provisions of this chapter, the department

**Sec. 28.15.061. Application for driver's license or instruction permit; notice of anatomical gift procedure.** (a) Application for an instruction permit or for a driver's license must be made on a form furnished by the department and must be accompanied by the fee required under § 271 of this chapter.

(b) An application under (a) of this section shall

(1) contain the applicant's full name, date and place of birth, sex, and mailing and residence addresses;

(2) state whether the applicant has been previously licensed as a driver and, if so, when and by what jurisdiction;

(3) state whether any previous driver's license issued to the applicant has ever been suspended or revoked or whether an application for a driver's license has ever been refused and, if so, the date of and reason for the suspension, revocation, or refusal; and

(4) contain other information which the department may reasonably require to determine the applicant's identity, competency, and eligibility.

(c) When an application is received from a person previously licensed in another jurisdiction, the department may request a copy of the applicant's driving record from the other jurisdiction. Upon receipt of that record by the department, it becomes a part of the driver's record in this state with the same effect as if the record originated in this state.

(d) The department shall, by placement of posters and brochures in the office where the application is taken, make known to the applicant the procedure necessary to complete a document of gift under the Uniform Anatomical Gifts Act (AS 13.50). (§ 19 ch 178 SLA 1978)

**Sec. 28.15.071. Application of minors.** (a) The application of a person under the age of 18 years for an instruction permit or driver's license must be signed by the father, mother or guardian, or if there is no parent or guardian then by another responsible adult who is willing to assume the obligation imposed under this section upon a person signing the application. The application must be signed and verified before a person authorized to administer oaths, or be signed in the presence of an authorized representative of the department.

(b) Any negligence or wilful misconduct of a person under the age of 18 years when driving a motor vehicle in this state is imputed to the person who signed the application of the person for a permit or license, and that person is jointly and severally liable for damage caused by the negligence or wilful misconduct of the person under the age of 18 years, except as provided in (c) of this section.

(c) If a minor deposits, or there is deposited on his behalf, proof of financial responsibility for his driving of a motor vehicle, in the form and

the application of the minor signed as required under (a) of this section, and, while proof of financial responsibility is maintained, the parent, guardian or other responsible adult is not subject to the liability imposed under (b) of this section.

(d) A person who signs the application of a minor for a driver's license may file with the department a verified written request that the license of the minor be canceled. When the license is canceled, the person who signed the application is relieved from liability under (b) of this section. (§ 19 ch 178 SLA 1978)

**Sec. 28.15.081. Examination of applicants.** (a) The department shall examine every applicant for a driver's license. The examination shall include a test of the applicant's eyesight, his ability to read and understand official traffic control devices, his knowledge of safe driving practices and the traffic laws and regulations of this state, and may include a demonstration of ability to exercise ordinary and reasonable control in the driving of a motor vehicle of the type and general class of vehicles for which the applicant seeks a license. However, an applicant who has not been previously issued a driver's license by this or another jurisdiction must demonstrate his ability, and must present medical information which the department reasonably requires to determine his fitness to safely drive a motor vehicle of the type and general class of vehicles for which he seeks a license.

(b) The commissioner shall adopt regulations under the procedures established by AS 44.62 necessary to implement this section and the department may obtain the services of, and consult with, medical authorities whose specialties relate to driving abilities for the purpose of making the medical determinations necessary under this section or § 91 or 101 of this chapter. Regulations adopted under this section must be approved by a concurrent resolution adopted by majority vote of each house of the legislature before becoming effective. The requirements of the eyesight test under this section may also be satisfied by presenting the current certification of a licensed physician or optometrist that the applicant's vision meets or exceeds the standards established by the department. The commissioner shall request and receive assistance from the commissioner of health and social services in implementing this section.

(c) A requirement for a medical examination under this chapter is satisfied if the applicant is the holder of a current and valid first- or second-class medical certificate issued under federal aviation regulations and has satisfied any applicable requirement of the Department of Education relating to tests for tuberculosis if applicable.

(d) The department may enter into agreements with other state agencies, municipalities, or qualified persons for the purpose of providing the examinations required under this chapter. (§ 19 ch 178

**Sec. 28.15.091. Department may require re-examination.** If the department has good cause to believe that a licensed driver is incompetent or otherwise not qualified to be licensed, it may upon written notice of at least 10 days to the licensee require him to submit to an examination. Upon conclusion of the examination, the department shall take action as may be appropriate and may cancel the license of the person, or may issue a restricted license under § 12 of this chapter, or restrict the type or class of vehicles that the person may drive. If the licensee refuses or neglects to submit to examination, the department may suspend his license until he complies with the requirements of re-examination. (§ 19 ch 178 SLA 1978)

**Sec. 28.15.101. Expiration and renewal of driver's license; re-examination.** (a) Unless otherwise provided in this chapter, a driver's license expires on the licensee's date of birth in the fifth year following issuance of the license. A license is renewable within one year of its expiration upon proper application, successful completion of a test of the licensee's eyesight, and payment of the required fee.

(b) The department may defer the expiration of the driver's license of a person who is outside the state under terms and conditions which the department shall prescribe by regulation. (§ 19 ch 178 SLA 1978)

**Sec. 28.15.111. Licenses issued to drivers; anatomical gift document.** (a) Upon successful completion of the application and all required examinations, and upon payment of the required fee, the department shall issue to every qualified applicant a driver's license indicating the type or general class of vehicles which the licensee may drive. The license shall display

- (1) a distinguishing number assigned to the license;
- (2) the licensee's full name, address, date of birth, brief physical description, and color photograph; and
- (3) either a facsimile of the signature of the licensee or a space upon which the licensee must write his usual signature with pen and ink. No license is valid until signed by the licensee. If facilities are not available for the taking of the photograph required under this section, the department shall endorse on the license, the words "valid without photograph."

(b) The department shall provide, at the time that an operator's license is issued, a form for a document by which the owner of a license may make an anatomical gift under AS 13.50.010 — 13.50.090. The document (1) may not be larger than an operator's license, (2) shall contain sufficient space for the signature of two witnesses to the donor's act of execution of the document, and (3) shall provide a means by which the donor may cancel the gift. If the document making an anatomical gift is executed by the applicant, it shall be sealed in plastic and attached to the license. A symbol indicating the existence of the anatomical gift

**Sec. 28.15.121. Restricted driver's license.** (a) The department, upon issuing a driver's license, may for good cause impose restrictions suitable to the licensee's driving ability with respect to special mechanical control devices required on a motor vehicle which the licensee drives. The department may impose other restrictions applicable to the licensee that it determines to be appropriate to assure the safe operation of a motor vehicle by the licensee.

(b) The department may issue a special restricted license or may set out restrictions on the usual license form.

(c) The department may, upon receiving satisfactory evidence of a violation of the restrictions on a license restricted or issued under this section, suspend the restricted license for a period not to exceed 30 days.

(d) No person may drive a motor vehicle in violation of the restrictions imposed on a restricted license. (§ 19 ch 178 SLA 1978)

**Sec. 28.15.131. License to be carried and exhibited on demand.** Every licensee shall have his driver's license in his immediate possession at all times when driving a motor vehicle, and shall present for inspection his license upon the demand of a peace officer or other authorized representative of the department who identifies himself as such. However, a person charged with violating this section may not be convicted if he produces in court or in the office of the arresting or citing officer, a driver's license previously issued to him which was valid at the time of his arrest or citation. (§ 19 ch 178 SLA 1978)

A licensing statute cannot be used as a means for obtaining information or evidence not related to the licensing requirement. *Schraff v. State*, Sup. Ct. Op. No. 1223 (File No. 2263), 644 P.2d 834 (1975), decided under former AS 28.15.090.

**Sec. 28.15.141. Duplicate driver's license.** If a valid driver's license issued under this chapter is lost or destroyed, the person to whom the license was issued may, upon payment of the required fee, obtain a duplicate license. A person who recovers an original license for which a duplicate has been issued shall immediately surrender the duplicate to the department. (§ 19 ch 178 SLA 1978)

**Sec. 28.15.151. Records to be kept by the department.** (a) The department may maintain a file of

(1) every driver's license application, license or permit and duplicate driver's license issued by it;

(2) every license which has been suspended, revoked, canceled, limited, restricted, or denied, and the reasons for those actions; and

(3) all accident reports required to be forwarded to the department under this title.

(b) The department may also maintain a file of all accident reports, transcripts of court records of convictions of vehicle, driver and traffic

The abstract shall include a listing of accidents in which the driver has been determined by the department or a court of competent jurisdiction to have been liable, convictions of vehicle, driver and traffic offenses, any actions taken upon his license, and information relating to financial responsibility.

(d) The department shall, upon request and payment of a fee determined by the commissioner, furnish a driver with an abstract of the driver's record as provided in (c) of this section.

(e) An insurance carrier may not require a person to furnish an abstract of his driving record to the carrier as a condition for providing the person with motor vehicle insurance.

(f) Except as provided otherwise in this section, information and records under this section are declared confidential and private. (§ 19 ch 178 SLA 1978)

Suspending privileges of a person licensed in another jurisdiction; reporting convictions, suspensions, and revocations.** (a) The privilege of driving a motor vehicle on a highway or vehicular way or area of this state given to a person licensed in another jurisdiction is subject to suspension or revocation by the department in the same manner and for the same reasons as a driver's license issued under this chapter.

(b) The department may, upon receiving the record of a conviction of a person licensed in another jurisdiction for a vehicle, driver, or traffic offense in this state, or upon suspending or revoking the person's driving privilege, forward a copy of the record or suspension or revocation to the motor vehicle administrator for the jurisdiction in which the person convicted has his driver's license. **Sec. 28.15.181. Court suspensions, revocations, and limitations.** (a) The following are grounds for the immediate suspension or revocation of a driver's license:

- (1) manslaughter or negligent homicide resulting from the driving of a motor vehicle;
- (2) a felony in the commission of which a motor vehicle is used;
- (3) failure to stop and give aid as required under the laws of this state when a motor vehicle accident results in the death or personal injury of another;
- (4) perjury or the making of a false affidavit or statement under oath to the department under a law relating to motor vehicles;
- (5) driving or operating a motor vehicle while under the influence of alcohol or another drug;

(b) A court convicting a person of an offense under (a)(1) — (7) of this section shall revoke that person's driver's license for a period of not less than 30 days for the first conviction, unless the court determines that the person's ability to earn a livelihood would be severely impaired and

Upon a subsequent conviction of a person for any offense under (a) of this section, the court shall revoke the person's license and may not grant him any limited license privileges for the following periods:

- (1) not less than one year for the second conviction; and
  - (2) not less than three years for a third or subsequent conviction.
- (§ 19 ch 178 SLA 1978)

**Sec. 28.15.191. Court reports to department.** (a) A court which convicts a person of an offense under this title or a regulation adopted under this title, or another law or regulation of this state, or a municipal ordinance which regulates the driving of vehicles, shall forward a record of the conviction to the department. A conviction of a standing or parking offense need not be reported.

(b) A conviction on a plea of *nolo contendere* accepted by the court or a forfeiture of bail or collateral deposited to secure a defendant's appearance in court which has not been vacated is equivalent to a conviction for purposes of this chapter.

(c) A court which suspends, revokes, or limits a driver's license shall require the surrender of the license, and shall immediately forward it to the department with the record of conviction and notification of the effective date of the suspension, revocation or limitation as determined under § 211(b) of this chapter.

(d) A court which limits a driver's license, in addition to the actions required under (c) of this section, shall issue to the licensee a form specifying the court's limitations imposed upon a person's driver's license, and shall immediately forward to the department a copy of the limitations imposed upon the license.

(e) A court shall report to the department every change of name authorized by it, and the name, address, age, description, and driver's license number if available, of every person adjudged to be afflicted with or suffering from a mental disability or disease, or to be an habitual user of alcohol or another drug. The department shall prescribe and furnish the forms for making these reports. (§ 19 ch 178 SLA 1978)

For case where magistrate City of Anchorage, Sup. Ct. Op. No. 121 recommended suspension of driver's (File No. 247), 377 P.2d 381 (1962), decided license for three years, see *Hanrahan v.* under former AS 28.15.190.

**Sec. 28.15.201. Limitation of driver's license.** (a) A court of competent jurisdiction may, for good cause, impose limitations upon the driver's license of a person which will enable the person to earn a livelihood without excessive risk or danger to the public. However, no limitation may be placed upon a driver's license until after a review has been made of the person's driving record and other relevant information.

nor may a limitation be imposed when a statute specifically prohibits the limitation of a license for a violation of its provisions.

(b) A court imposing a limitation under this section shall require the surrender of the driver's license and shall issue to the licensee a certificate valid for the duration of the limitation.

(c) After the termination of a limitation as shown on the certificate issued under (b) of this section, a person on whom a limitation was imposed is no longer bound by the limitation and may apply for a duplicate license under § 141 of this chapter. (§ 19 ch 178 SLA 1978)

**Sec. 28.15.211. Periods of limitation, suspension or revocation; opportunity for hearing and surrender of license.** (a) Except for a point system suspension or revocation under §§ 221 — 241 of this chapter and unless provided otherwise by law, and unless the suspension or revocation was for a cause which has been removed, a person whose driver's license or privilege to drive a motor vehicle in this state has been suspended or revoked may not apply for a new license nor may his driving privilege be restored until the expiration of

(1) one month from the date on which the license was suspended or revoked for a first conviction of the particular offense from which the suspension or revocation resulted;

(2) three months from the date on which the license was suspended or revoked for a second conviction within 12 consecutive months of the same offense from which the suspension or revocation resulted;

(3) one year from the date on which the license was suspended or revoked for a third or subsequent conviction within 12 consecutive months of the same offense from which the suspension or revocation resulted; or

(4) three months from the date on which the license was revoked for refusal to submit to a chemical test as required in AS 28.35.032; however, if the person who refuses to submit to the chemical test, within two years previous to his arrest, has been convicted in this or another jurisdiction of driving a motor vehicle while intoxicated, the period of revocation for his license of privilege to drive is one year.

(b) A limitation, suspension, or revocation of a driver's license imposed by a court takes effect on the date of final judgment, except that if another limitation, suspension, or revocation of license is in effect on the date of final judgment, the effective date of the last imposed limitation, suspension, or revocation is at the end of the last day of the previous limitation, suspension, or revocation unless the court specifies otherwise.

(c) At the end of a period of suspension or limitation, the person whose license has been suspended or limited may apply to the department and, upon payment of the proper fee, be issued a duplicate driver's license

of a new license, but shall submit to re-examination and pay all required fees.

(e) At the end of a period of limitation, suspension or revocation under this chapter, the department may not issue a driver's license or a duplicate driver's license to the licensee until he has complied with ch. 20 of this title relating to proof of financial responsibility.

(f) Unless otherwise provided by law, periods of limitation shall be made at the discretion of the court. (§ 19 ch 178 SLA 1978)

**Article 3. Point System.**

Section	Section
221. Point system	251. Suspension, revocation, limitation, denial
231. Assessment of problem driver improvement interview	261. Definitions
241. Reduction of points	

**Sec. 28.15.221. Point system.** (a) For the purpose of identifying habitually reckless or negligent drivers and habitual or frequent violators of traffic laws, the commissioner shall adopt regulations establishing a uniform system for the suspension, revocation, limitation or denial of a driver's license or driving privilege by assigning demerit points for convictions for violations of traffic laws which are required to be reported to the department under § 191 of this chapter.

(b) The regulations adopted under (a) of this section shall include a designated level of point accumulation which identifies drivers who are habitually reckless or negligent or who are habitual or frequent violators of traffic laws, so as to show a disrespect for traffic laws and a disregard for the safety of other persons. In formulating the point system authorized by this section, the commissioner shall, in the interest of interstate uniformity, provide for suspension, revocation or denial of a driver's license or privilege for an accumulation of 12 or more points as a result of offenses committed during any consecutive 12-month period or 18 or more points as a result of offenses committed during any 24-month period. (§ 19 ch 178 SLA 1978)

**Sec. 28.15.231. Assessment of points, driver improvement interview.** (a) Notice of each assessment of points may be given, but notice shall be given when the point accumulation reaches 50 per cent of the number at which suspension, revocation or denial is required under § 221(b) of this chapter, and a driver who has reached that level of point accumulation shall be identified as a problem driver. The department may require a problem driver to appear for a driver improvement interview. The purpose of that interview is to assist the person who is identified as a problem driver in overcoming substandard driving habits. An interview under this subsection is to be conducted in

recommendations designed to improve his driving abilities which are made to him during the interview.

(b) No points may be assessed for violating a provision of a state law or regulation or a municipal ordinance regulating standing, parking, equipment, size or weight; nor may points be assessed for violations by pedestrians, passengers or bicycle riders, or for violations of provisions relating to the preservation of the condition of traffic-control devices on the highways. Points shall be assessed for violations of oversize or overweight permits relating only to restrictions upon speed or hours of operation.

(c) If a licensee is convicted of two or more traffic violations committed on a single occasion, the licensee shall be assessed points for one offense only, and if the offenses involved have different point values, the licensee shall be assessed for the offense having the greater point value.

(d) The time periods provided for in this section for the accumulation of points shall be based upon the date of violation, but points may not be assessed until after conviction, either upon a plea of guilty, nolo contendere, or a forfeiture of bail, or as a result of a trial, for violation of the traffic laws.

(e) The points assessed and the application of them against the licensee by the department under this section are in addition to, and not in substitution for, other provisions of this chapter and are not a substitute for any penalty imposed by a court. (§ 19 ch 178 SLA 1978)

Sec. 28.15.241. Reduction of points. (a) Two points shall be deducted from a licensee's assessed total if he has not been convicted of a violation of traffic laws which occurred during the 12-month period after the date of the last violation of which he was convicted.

(b) In addition to (a) of this section, two points shall be deducted from the assessed total upon the driver's furnishing to the department adequate proof of successful completion within 12 months of the date of his last violation of a driver improvement course approved by the department. No more than one course may be used to obtain a reduction in points in any 12-month period.

(c) From January 1, 1975, one point shall accumulate to the driver's benefit for each year of licensed, violation-free driving. (§ 19 ch 178 SLA 1978)

Sec. 28.15.251. Suspension, revocation, limitation, denial. (a) The department shall suspend, revoke, limit, deny, or initiate other remedial action against the driver's license of a person, upon his failure to

(1) appear for a driver improvement interview under § 231(a) of this

(b) The department shall suspend, revoke, or deny a driver's license of a person who has been identified through his point accumulation as an habitual or frequent violator under § 221 of this chapter.

(c) No suspension, revocation, limitation, or denial of, or other action against, a driver's license under §§ 221 — 261 of this chapter may be for more than one year.

(d) If a driver's license is suspended or revoked upon the accumulation of the number of points which require that action under §§ 221 — 261 of this chapter and regulations adopted under those sections, no limited license may be issued to that person during the period of suspension or revocation.

(e) Except for immediate action under § 181 of this chapter, when the department proposes to take action against a driver's license under (b) of this section, it shall notify the licensee that the proposed action shall become effective 30 days from the date of the notice, except that the licensee shall have the right, within the 30-day period, to make an oral or written answer or statement in which he may controvert any point or issue and he may present evidence and arguments for the consideration of the department pertinent to the action to be taken or the grounds for the action.

(f) Upon receipt of an oral or written answer or statement from the licensee, the department shall make findings on the matter under consideration and shall notify the person involved of its decision in writing by registered mail. If the department's decision is to sustain an action against the licensee's driver's license, the department shall notify the licensee of his opportunity for a hearing under AS 28.05.121 — 28.05.141. (§ 19 ch 178 SLA 1978)

Sec. 28.15.261. Definitions. In §§ 221 — 261 of this chapter (1) "traffic laws" means statutes, regulations, and municipal ordinances governing the driving or movement of vehicles; (2) "licensee" includes, but is not limited to an applicant for a new driver's license if his license was revoked under §§ 221 — 261 of this chapter.
