Dear Senator Fischer:

This Department has been requested to do a fiscal note on Senate Bill 587 for the Senate State Affairs Committee. However, since costs of purchasing, leasing, constructing and occupying State government facilities in Juneau are to be determined by a commission, it does not seem as though it would be appropriate for this Department to estimate those costs in a fiscal note. Also, since this bill would not establish the commission to determine those costs, nor does it detail any parameters for the operation of the commission, it is not possible for us to write a fiscal note for the establishment of the commission. After discussions with staff in your office and Senator Kelly's office, we are still unsure of what a fiscal note for this bill should include.

We are available to answer any questions you have pertaining to this.

Respectfully,

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

The assumption is made that 75% of royalties, royalty sale proceeds, mineral lease rents, and federal mineral revenue sharing payments received by the state from mineral leases is placed in the permanent fund. The increase from 25% to 75% must be offset by a corresponding decrease in the general fund.

The assumption is also made that no new bonuses are forthcoming during the period covered in this fiscal note.

III. ANALYSIS (See Fiscal Note Preparation Instruction, Section III)

Section 1 of the proposed bill provides for refundable credits equal to 10% gross salary paid for those over 60 years of age. There is no limitation as to the amount of credit applied for under this section. Payment of these credits requires approval in the form of legislative appropriation.

Section 2 provides for the same type of credit but is limited to the amount of tax due under the income tax chapter. The credits in this section would reduce general fund revenues.

SUBJECT: SB 621 - An Act
providing tax
credits for employ-
ers of persons over
60 years of age;
and providing for
an effective date.

Section 1 of the Act would provide a tax credit to those resident individuals paying salaries to an employee who is a) over 60 years of age, b) a resident of Alaska and c) who has worked for the resident individual for at least one year before the calendar year for which the credit is authorized. The credit is equal to 10 percent of the gross salary paid and is a refundable credit. There is no limitation as to the amount of the credit such as exists for the current political contribution tax credit.

Section 2 of the Act provides for the same type of credit for corporate taxpayers, but the credit is limited to the amount of tax due under the income tax chapter and is therefore not a refundable credit.

The Act is apparently effective for all taxable years beginning on or after January 1, 1983.

The credit would be very difficult to administer. The Department of Revenue should require affidavits from the individuals or taxpayer requesting the credit. The affidavit should state that the employee has met the three requirements and should be signed by the employee. The affidavit would serve as an audit on attest function since the Department could ill afford auditors investigating inconsequential credits.

The bill should be redrafted to clarify:

- 1) When the 60 years of age requirement is met: year end, at time of payment, time of service, etc.;
- 2) Who qualifies? Does a parent qualify?
- 3) How much employment is required in previous year to qualify? One month, six months, etc.

It might be suggested that the individual or taxpayer claiming the credit must have contributed to the employee's supplementary benefits program or social security account.

POSITION PAPER

SENATE BILL NO. 867

"An Act providing for an incentive to hire older Alaskans."

This Bill would entitle employers to an annual reimbursement from the State to equal 10 percent of the gross salary of an employee who is 65 years of age or older. This program is established in the Department of Health and Social Services.

The federally and State funded senior employment programs which had been administered by the Department of Health and Social Services were transferred to the Older Alaskans Commission in the Department of Administration in January, 1982.

Although the Department endorses the concept of providing incentives to hire older Alaskans, establishment of such a program in the Department of Health and Social Services would result in fragmentation of employment programs which benefit seniors.

RECOMMENDATION: The Department recommends that the Bill be amended to establish this program in the Older Alaskans Commission.

Amends definition of "labor organization" contained in AS 05.15.210 (19) to read: ". . . an organization, not for pecuniary profit, constituted wholly or partly to bargain collectively or deal with employers or employees, including the state and its political subdivisions, concerning grievances, terms, or conditions of employment or other mutual aid or protection in connection with employees or employers;" Provides for an immediate effective date. (Note: similar to HB 623 and HB 640.)

Introduced January 11 and referred to State Affairs and Judiciary.

Prisoner Work
Programs

SENATE BILL NO. 633, by Senator Parr. Re-writes existing section (AS 33.30.225) relating to voluntary work performed by prisoners in state institutions. Currently law reads that a prisoner not on furlough may not be required to perform work other than personal housekeeping. Those prisoners who volunteer to participate in institutional work programs are eligible for a maximum \$3 per day gratuity payment.

New section (Work Programs; Remuneration) would allow the Commissioner of Health & Social Services, "in his discretion," to "direct that a prisoner participate in non-institutional work projects and in institutional work programs, including personal housekeeping . . ." while in prison. Prisoner would receive a credit or gratuity payment of up to \$3 per day for work performed on a non-institutional work project (government or public projects outside prison), and the \$3 gratuity for work performed in prison. Allows the Commissioner to adopt regulations which establish disciplinary measures to be used against those prisoners who refuse to work when directed to do so.

Amends provisions contained in AS 33.30.250 relating to Work Furloughs to give the Commissioner of Health the Soc. Services the power to require a prisoner to be released on work furlough (now reads that the Commissioner may direct that the person "be permitted to" continue in his regular job or find a job). Adds provision which would allow the Commissioner to impose disciplinary measures upon any prisoner who refuses to go on a work furlough.

Amends AS 41.20.110(b) which relates to the use of volunteer prisoner labor to construct or maintain campsites. Reworded to allow the Commissioner of Health & Soc. Services to require a prisoner to participate and adds language which would allow Commissioner to discipline those who refuse.

Driving While Intoxicated

SENATE BILL NO. 664, by Senators Dankworth and Sturgulewski. Makes clarifying amendments to AS 28.35.030(c) relating to sentencing for the crime of drunk driving. Changes wording so that minimum sentence for first conviction reads "72 consecutive hours" instead of "three consecutive days" and minimum sentence for subsequent convictions reads "240 consecutive hours" rather than "10 consecutive days." Does not provide for an effective date.

Introduced January 15 and referred to Health, Education & Social Services and Judiciary.

SENATE RESOLUTION NO. 20, by Senator Fischer. Requests the Alaska Legislative Council to direct the Legislative Affairs Agency to provide teleconference facilities at each Pioneers' Home site.

Introduced January 14 and referred to State Affairs and Finance.

Terms of Legislators
(constitutional amendment)

SENATE JOINT RESOLUTION NO. 55, by Senator Colletta. Proposes an amendment to the state constitution which would place a limit on the terms a legislator may serve. Would limit Senators to two consecutive full four-year terms and Representatives to four consecutive full two-year terms. A legislator ineligible for reelection in one body could be elected to the other body at any time and could be elected to the same body if four years have elapsed. The limit would apply to legislative terms that begin after the effective date of the amendment. Provides that proposed amendment be placed before the voters in the November, 1982 general election.

Introduced January 11 and referred to State Affairs and Judiciary.

Elected State Auditor
(constitutional amendment)

SENATE JOINT RESOLUTION NO. 56, by Senator Kelly. Proposes an amendment to the state constitution relating to the election of a State Auditor. Would require the election of the first State Auditor in 1984. Auditor would be elected to a four-year term and could not serve more than two full successive terms. Provides: "The state auditor shall be the auditor of the accounts of all departments, offices, and agencies of the State including the Legislature, the Executive, and the Judiciary and the University of Alaska and shall perform other duties prescribed by law. The state auditor constitutes an agency independent of the executive branch agencies named in Section 22 of Article III." (Note: See SB 645.) Provides proposed

You have asked for a section-by-section analysis of
SSSB 630.

Sec. 1. The language of the title of the section, the first sentence of subsection (a) and the first sentence of subsection (b) has been amended to include state agencies, and in subsection (b) also state boards. The last half of the first sentence of subsection (a) has been reworded for purposes of clarity. In Paragraph (11) the statutory reference to the Council on Domestic Violence and Sexual Assault has been renumbered in accordance with changes made during the interim by the Revisor of Statutes. In the first sentence of subsection (b) the phrase "for the purpose of concluding its affairs" has been deleted and a new sentence has been added in an attempt to make clear that during the year in which a "terminated" agency, board or commission is "winding down", it may carry on business as usual. Subsection (c), which purported to give the legislature authority to continue or reestablish a state board or commission for a period not to exceed four years has been deleted.

Sec. 2 provides in a new subsection (f) even if a committee of reference fails to comply strictly with every requirement in AS 44.66.050(a) - (e), the state agency, board or commission will terminate on schedule. For example, if a report required by AS 44.66.050(d) were to be submitted to the presiding officer on the 61st day of the legislative session, instead of the 60th day, such a failure to comply

MEMORANDUM

February 24, 1982

SUBJECT: Sunset of state agencies, boards and
commissions -- CSSSSB 630 (SA)

TO: Senator Arliss Sturgulewski

FROM: Edward H. Hein *EHA*
Legislative Counsel

You have asked for a section-by-section analysis of
CSSSSB 630 (SA).

Sec. 1. The title of AS 44.66.010 and the first sentence of
subsections (a), (b) and (c) have been amended to include
state agencies, and in subsections (b) and (c) also state
boards. The last half of the first sentence of sub-
section (a) has been reworded for purposes of clarity. In
Paragraph (11) the statutory reference to the Council on
Domestic Violence and Sexual Assault has been renumbered in
accordance with changes made during the interim by the
Revisor of Statutes.

In subsection (b) a new sentence has been added to provide
that during the year for which a "terminated" agency, board
or commission is extended for the purpose of concluding its
affairs, its powers and authority are not reduced. The
meaning of this sentence is not clear. One interpretation
is that it means that the agency, board or commission may
exercise its powers and authority only for the purpose of
concluding its affairs. Another interpretation is that the
agency, board or commission may continue to exercise all its
powers and authority and carry on "business as usual".

Subsection (c) provides that the legislature has authority
to continue or reestablish a state agency, board or
commission for a period not to exceed four years unless it
decides to continue or reestablish the agency, board or
commission for a period exceed for years.

Sec. 2 provides for an immediate effective date if the section is approved by a two-thirds vote of each house. The act would take effect on 12:01 am on the day after it is signed by the governor or the day after he gives written notice that he is allowing the act to become effective without his approval.

Charles H. Parr
Alaska State Senator
S. R. Box 50599

Dear Mr. Parr:

The U. S. Coast Guard Chief Petty Officers Association, Juneau Chapter is presently quite concerned over notice from the Alaska Department of Revenue concerning action aimed at prohibiting for sale after 31 December 1981 any games of chance known widely as "Pull-Tabs."

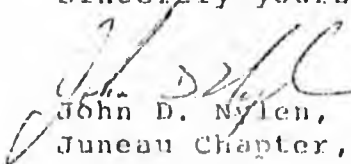

As a non-profit organization dependent on these games as a source of revenue to support many worthwhile community activities, I would respectfully request that you would initiate appropriate legislation to reinstate the present regulation so that "Pull-Tabs" would remain a source of revenue for those organizations holding valid Games of Chance and Skill Permits.

Revenues from the sale of "Pull-Tabs" has enabled my organization to help fund the following projects or activities with monetary donations, and which we would no longer be able to support should we lose this source of revenue.

1. Senior Citizens Christmas Dinner	1980 - \$1750.00
(Estimated)	1981 - \$2000.00
2. Juneau Youth Football	1980 - \$2500.00
	1981 - \$ 250.00
3. Juneau Little League Baseball	Annual \$ 300.00
4. Boy Scouts of America	Annual \$ 25.00
5. Delegate to CPOA Nat'l Convention	Annual \$ 750.00
6. Little League Bowling	1981 \$ 40.00

This is only a partial list of activities which we help support monetarily, or to better and strengthen our own National Organization. We are a small Chapter of only 67 active members, but these revenues are vital to our present programs if we are able to continue or expand.

Sincerely yours,

John D. Nylan, President

Dear Senator Parr,

The Kenaitze Indian Tribe has only been conducting Bingo games since the 29th of October on a twice weekly basis (Tuesday and Thursday), so we have not had any profit so far. But the money we made with pull-tabs did pay for most of our equipment before they were stopped. At the present time, without pull-tabs, we are just managing to pay expenses.

We had definite plans to utilize any profits from pull-tabs and Bingo to assist our educational program here at K. I. T. and also for employment training for our tribal members. We also are very concerned with the loss of our culture and language and would have used some of the profits to assist our work in retaining some vestiges of our language.

Please make every effort to see that Senate Bill 632 is passed.

Thank you very much for your efforts and we are looking forward to having pull-tabs back on our tables in the near future.

Sincerely,

June Lindgren-Gagnon
Bingo Director

Dear Sir:

As many other organizations, we also would not like to see the use of pull-tab's stopped. It has helped us in many way's with our bingo. We have helped many people with the profit of pull-tabs. We've helped the Kake City Schools, cheerleaders, band, Indian dancer's, and we helped also with high school scholarship fund. We also help Kake Health Council, police department, fire department, churches and Alaska Native Sisterhood. We would appreciate it if you would help make them legal again. Thank you.

Dear Senator Parr:

The Midnight Sun Lions Club of Fairbanks, Alaska was established on February 11, 1955. Since that time we have contributed to many charitable projects within our community.

Most of the years since 1955 we have solicited funds from the public such as individuals and businesses through Lotteries or Raffles or in some cases just asking for donations. We were able to raise money to help many worthwhile community projects that were not able to get the assistance they needed from Government.

Several years ago we adopted Bingo and through Bingo have been able to raise money necessary to help our community such as listed below.

1. We donated about ²⁵ 25 baskets of food each Thanksgiving and each Christmas ²⁵ to those that were recommended to us as needing help. This past Thanksgiving we gave out over 30 baskets totaling over \$2000.00.

2. We support the Fairbanks Health Center who operates our Lions Revolving Fund to procure eye glasses for those that cannot afford them or who does not qualify from the Gov't. Our donations have been averaging about 1500.00 per year.

3. Donation to Santa Calls, sponsored by Fbks News-Miner, \$1000.00

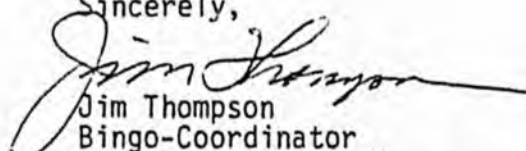

4. Donated to Fbks Memorial Hosp and optional piece of equipment for the Lazer Beam Machine that will remove Birthmarks estimate cost \$10,000.00.

5. PRIOR TO DISCONTINUATION OF THE PULL TABS, HAD ENTERED INTO AGREEMENT WITH THE NORTH STAR BOROUGH TO PLAN TO SPEND AT LEAST \$43,000.00 ON THE PLAYGROUND THAT WE DONATED TO THE BOROUGH LATELY SO THAT IT COULD BE UPDATED AND BE SIMILAR TO OTHER PLAYGROUNDS. (THIS WILL HAVE TO BE POSTPONED FOR NOW)

6 There are many other charitable things we contribute to each month such as , People that have been burned out, Special Olympics, Boy Scouts, Girl Scouts, Senior Citizens to name a few, in fact this past year we contributed to our community over \$28,000.00 that either would not have been possible or the people would go without unless the Government Helped.

We intend to help our community as much as possible regardless, however we have been able to do so much since we have been able to have Bingo and Pull Tabs. We hope you will be able to help us continue with our Bingo as operated in the past so we can help even more.

Sincerely,

Jim Thompson

AS 05.15.150 LIMITATION ON USE OF NET PROCEEDS. (a) The authority to conduct the activity authorized by this chapter is contingent upon the dedication of the net proceeds of the games or contests to the awarding of prizes to contestants or participants and to political, educational, civic, public, charitable, patriotic, or religious uses in the state. "Political, educational, civic, public, charitable, patriotic, or religious uses" mean uses benefiting persons either by bringing them under the influence of education or religion or relieving them from disease, suffering, or constraint, or by assisting them in establishing themselves in life or by providing for the promotion of the welfare and well-being of the membership of the organization within their own community, or through aiding candidates for public office or groups which

support candidates for public office, or by erecting or maintaining public buildings or works, or lessening the burden on government, but do not include the erection, acquisition, improvement, maintenance or repair of real, personal or mixed property unless it is used exclusively for one or more of the uses stated.

(b) The net proceeds derived from the activity must be devoted within one year to one or more of the uses stated. An organization desiring to hold the net proceeds for a period longer than one year must apply to the Commissioner of Revenue for special permission, and upon good cause shown, the Commissioner may grant the request.

SEWARD LODGE No. 1773

B. P. O. Elks

P. O. BOX 426
SEWARD, ALASKA

December 16, 1981

TO THE LEGISLATORS, STATE OF ALASKA

We members of Seward Elks Lodge #1773 urge you to either include legislation or change the law thereby permitting the legality for sale of Pull Tabs for non-profit organizations. As many of you probably know, letters have been received from Ervin Jones, Office Audit Manager, stating "Pull Tabs" and other such devices will be disallowed under authorized permittee's permit as of December 31, 1981.

During our weekly Bingo games and at our non-profit Club, both under auspices of the Elks Lodge, Pull Tabs have been sold. All of the profits derived from Bingo and Pull Tabs are allocated for charitable purposes under our Games of Chance and Skill permit. From these sources the major share of our Lodge donations for charity have been derived.

WE urge you to use your good Office to change this provision thereby allowing the sale of Pull Tabs to be legal for non-profit organizations.

Thank you for your indulgence and consideration.

Sincerely yours,

Harold W. Davis
Secretary

Dear Senator Parr:

Thank you for your letter and the copy of Senate Bill No. 632. We support Senate Bill No. 632 as we feel that pull-tabs should be legal. They are a large fund raiser for organizations such as ours and therefore enable us to make donations to other organizations and to carryout certain functions on behalf of the Native population of the Cook Inlet Region. Without the funds we could not perform any of these functions.

The following is a partial list of the worthy causes for which we use funds raised through the use of pull-tabs:

1. Twenty - thirty scholarships per year awarded to Native students enrolled in colleges and universities throughout the United States.
2. Annual Christmas Baskets Program which gives one hundred twenty-five baskets of food to low income families each year.
3. Annual Christmas party for two hundred Native children from low income families.
4. Support for the annual Miss CINA Scholarship Pageant.
5. Donations to organizations such as the Association for the Deaf, Association for the Blind, Multiple Sclerosis, Cerebral Palsy, etc.
6. Donations to Native families who have had deaths in their families and do not have funds for transportation, funerals, etc.

Letter to Senator Charles H. Parr
January 22, 1982

Page 2

7. Donations to various programs for Native Arts.
8. Donations to school programs which teach Native culture.

The list is longer than this, but these are the items funded every year. With the decline in Bingo revenue (due to no pull-tabs) that we are currently experiencing, few of these items, if any, will be funded in 1982 or in future years. We feel that without these donations to the community that many Native families and programs will suffer greatly.

If there is any further information that we can furnish to you, please let us know. Our telephone number is 278-4641. Thank you.

RE: Your letter of January 19 on Senate Bill #632

Dear Senator Patt,

For many years we have used our permit for games of skill and chance for a bingo concession. The monies received have gone for the transportation of Alaska children from their home to the Shrine Hospital in Portland, Oregon for free treatment of Orthopedic or burns conditions.

The bingo is an important part of our revenue, and we have been told that without pull tabs it could cease to be so. Consequently, it is our hope that Senate Bill #632 will be passed.

Re: Permit No. 82-181

Dear Senator Parr:

Your letter of January 14th with reference to the "pull-tab" problem was received by this agency as the holder of the above permit number. Though this agency, at the present time, is not fortunate enough to have a sponsor for a bingo game (which would of course include pull-tabs), I am most concerned about the Governor's decision to make these games of chance illegal. North Star Council on Aging at the present time has only been having small raffles to help promote cash to meet our federal matching funds requirements. However, as the money situation grows tighter we may have to resort to other types of income producing methods and the bingo, together with pull-tabs, would, of course, be our next avenue.

As an additional bit of information together with support for the continuance of pull-tabs - I am presently serving as vice-president of the Fairbanks USO Council, having served three previous terms as president. Since 1977 when Fairbanks lost the support of the National USO (since Alaska is no longer considered an overseas USO operation) I have been very much involved in the fundraising for this organization. The USO was barely able to keep its head above water during these lean years and during 1980 the local Eagles Lodge came forward to assist us with our plans for bingo operation. This has saved the life of the USO in its day to day operational costs. We anticipate experiencing many more military being served presently through the future as the result of the all the bases carrying almost maximum population. The sale of pull-tabs is a most vital part of a bingo operation and must be continued for any of the organizations' operational survival.

As a further aside - we find that many of our elderly people are avid bingo players as it provides for them a means of socializing with their friends, relieving their isolation and providing a means of recreation. If the pull-tabs are allowed to be eliminated, this will also mean the demise of the bingo operations and for many this would be an all-time disappointment as well as depriving them of the joys of being a winner at times.

All of us very much appreciate your and the other legislators efforts in behalf of our community organizations.

Sincerely,

Genevieve Reininger

Dear Mr. Parr:

In response to your letter of January 14, 1982 concerning pull-tabs, I reply that once the Department of Revenue cleans up the games of chance by only non-profit organizations totally running the games themselves, then and only then will I be in agreement with your proposed legislation on pull-tabs etc.

We have in the past tried to run games and lost considerably, mainly, because we could not compete with that element involved in Bingo who run it for other organizations.

Furthermore, I'm of the opinion that the Governor will veto any and all attempts to further gambling in any manner in the State.

Dear Sir:

The Soldotna Lions have taken on the task of purchasing for our community a community building. We decided to do this on our own instead of asking for funds from State or Federal Government. This is a badly needed building in our area and will be for use by all non-profit organizations on a free basis. Our Bingo and Pull-Tab operation would eventually pay for this building but when Pull-Tabs were declared illegal our program practically stopped.

The Soldotna Lions also have various programs going on at all times, eye exams and glasses for needy persons, eye freezing unit for Peninsula Hospital, Scholarships, Kiddee Park, Bus Shelters for students and many and any other service we are asked to perform.

The Pull*Tabs are a very vital fund raiser and the community seems to accept them and recognize our need of them as a fund raising means.

RE: Senate Bill 632

Dear Sen. Parr,

On behalf of City of Point Hope, not only am I a Mayor representing the organizations concerning the worthy causes with pull-tab monies, I also represent other civic affairs that I belong to which have created many projects and activities just for the purpose of good cause.

The list which I will give isn't all. The records of financial statement should be provided for at the State Revenue or Audit office at Juneau. It shows how much monies the clubs have spent, using these pull-tabs as a means of raising funds.

The clubs have donated for a good cause not only to the community itself but also to other areas where needed or requested. Pull-tabs is a must to raise that kind of money due to inflation and lack of opportunities of jobs. The clubs have purchased eye-glasses, providing medical assistance if PHS cannot provide transportation from point to point, donating food or fuel to a low-income poor family, donating to other civic committees to help in recreation or religious activities, sponsoring Basketball teams, sponsoring Boys Scout and Cubs Scout, donating to Thanksgiving and Christmas events, etc..the list goes on.

With these means of raising funds using pull-tabs, it helps secure charity to a family and the community.

I support the Senate Bill 632 that would make pull-tabs legal again.

ST. JOSEPH CATHOLIC CHURCH

Telephone: (907) 443-2675

October 15, 1981

Department of Revenue
Audit Division

Dear Department of Revenue:

As pastor of the Catholic Church in Nome, Alaska, I strongly disagree with your position not intending to make permanent emergency regulation, 15AAC 105.120(5) L & M, regarding the sale of pulltabs and punchboards.

Our Church has a very small income with huge expenditures for utilities. Frankly our weekly collection is given by very few donors--usually about \$300.00 per week for a parish with well over five hundred people. We have a full time staff of three and four part-time staff serving our people. Obviously this weekly income needs to be supplemented.

Our bingo program supplements our revenue and makes it possible for us to provide many services for our community: religious education, home visits, professional counseling, religious services, support to community service projects, and social activities. We see these activities as alternates to the bars and drinking, one of the major problems in Nome.

In our bingo program, pull-tabs account for about half our income and gives the people something to do between games for a good cause. We agree that pull-tabs could be abused, but we follow strict self-imposed limitations and guidelines--for example, any of our winners over \$25.00 sign for their winnings plus social security number for an IRS report. We agree that the 50¢ limit you directed us to follow be kept enforce--it prevents an over-dependency on pull-tabs and minimizes the income from the bingo.

In conclusion, pull-tabs are a great source of revenue for us to continue community service programs. The options without pull-tabs are few proven with the consistent success of this option. If you rule out pull-tabs you will do little to stop illegal gambling and abuse. But you will hurt lots of non-profit community service organizations like our Church. You will especially hurt native groups in western Alaska. I'm sure much of the money not spent on pull-tabs will go for alcohol. And what community service will this lead to?

Please do your best to make sure the use of pull-tabs for validly licensed groups in Alaska can continue. Your decision will have a great effect on our church and many social service groups. We hope to cooperate with you in the following of all laws and

regulations and welcome your inspection and advice at anytime.
will go higher if you do not respond favorably to our request:
to your legislators, the governor, and to the people of Alaska. Please
don't get all caught up in a phoney "legalism" that
is a moral implication and looks like you are interested in
protecting the public from the horrible abuses of false gambling
when you are in fact hurting the very people you say you are helping.

Your personal response to this letter would be greatly welcomed.

SUBJECT: Senate Bill 632

Dear Senator Parr:

Thank you for introducing SB 632.

In response to your request for information regarding the worthy causes that have been aided through the use of the sale of pull tabs, first of all it has helped the Bristol Bay Native Association's Regional Senior Citizens' Program.

Our Region covers 25 villages outside of Dillingham, plus the Senior Citizens (60 years or older) in Dillingham. We offer transportation services in Dillingham (otherwise there is only air travel to the rest of the villages); nutrition services in Dillingham, Topiak, Manokotak, and New Stuyahok; and we also provide services in the area of home repair, information and referral, home-delivered meals, and other support services to enable elders to remain independent and in their own homes.

The Federal and State grants we receive to operate these programs require a local match. We have used our pull-tab revenues to meet our required local match. Otherwise our area has a small tax base and it is very difficult to always go to the private sector when there are just not that many stores, etc. in this area to solicit local support. The pull-tab revenues have really helped us continue and expand our programs. Now there is a projected cut in program grant funds and we do not know where we will be able to make up the difference.

If you have lived in a rural area in Alaska, you realize that support services are truly needed for the elderly person on a fixed income.

We are trying to be as independent as possible. We work hard (all volunteer time) at our Bingo and Pull-tab games. We are not asking anyone for a hand-out, but just the chance to offer a form of entertainment where the money does go to a good cause.

I strongly support legislation to return pull tabs to the non-profit groups in Alaska. I would suggest that the 50c limitation per chance, however, be raised to \$1 per chance.

Thank you for this opportunity to comment.

Dear Commissioner Williams,

I am the Chairperson of the Fraternal Order of Eagles Bingo, and the United Service Organization Bingo.

Your Department recently declared the sale of pull-tabs at our Bingo games illegal. You gave us an extension of time to January 1, 1982, to sell out our pull-tab inventory.

Bingo game profits go to charity and we have many requests for donations to charitable causes. We are not able to fill all of them. I am enclosing a list of the donations the F.O.E. have made in 1981. Because Bingo is a marginal operation, 85% of our donations are from the sale of pull-tabs, 15% from Bingo. It is easy to see that without pull-tab sales, many requests for help would go without.

I can say with some pride, that the USO in Fairbanks is solvent today because of the Bingo games and pull-tab sales. As Chairperson of the USO Bingo games, I have receipts for \$46,000.00, from the USO Director, to date for 1981. As 1980 was not a full year's operation, I only have receipts totalling to \$28,000.00.

I am sure that you agree that the F.O.E. and the USO Bingo games, with pull-tab sales, give this community a valuable service.

We request, and I hope that you will give us a 120 day extension for the sale of pull-tabs. This would be enough time for the Legislature to meet and pass legislation legalizing the sale of pull-tabs.

Thank you for your consideration.

Sincerely,

Martha Johnson

A NON-PROFIT CIVIC ORGANIZATION

January 12, 1982

Thomas K. Williams,
Commissioner
Department of Revenue
State Office Building
Pouch SA
Juneau AK 99811

Dear Commissioner Williams:

This letter will inform you that as of December 31, 1981, Greater Anchorage Inc., d/b/a/ Anchorage Fur Rendezvous closed its Rony Palace Bingo Hall. After careful review, in order to comply with State rules and regulations governing the use of "pull tabs" we found we would be unable to operate without considerable losses and therefore made the difficult decision to cease all Bingo operations.

Fur Rendezvous, for the first time in several years, is now facing financial problems. Our organization, however, was not built or has become successful without having pitfalls along it's 47 years in existence. We, therefore, will dig in once again, fall back, regroup and find alternative methods to solve what currently appears "very black".

Our organization has conducted its Bingo operations over the years completely within the compliance of the Alaska statues. We would like to feel that all the halls in the Anchorage area have operated under these same conditions. We feel this is not the case, however, as some of the halls are continuing to use pull tabs. Not in the same manner of course, but nevertheless they are in use and it is our total understanding they are to be NON-EXISTENT. If we are incorrect, and this is not the case, please let us know so we may re-open our operation. On the other hand, if we are correct we request the statutes be enforced so all are treated equal. Our concern is that your department enforce the rules and regulations you have set forth and that all abide by them. We do not feel Fur Rendezvous should suffer just because it does not want to take the chance of "being caught". It is the enforcement rather than the rules that need tending to. All agents must be given full authority to enforce the laws set forth by your department.

In the future, if and when the "rules and regulations" become a matter for legislative decision, we strongly urge restrictions on the permit holders. They should be issued to non-profit organizations who are actually engaged in running the games. For it is those permit holders who "sell" their permits to individuals who have personal, profitable gain that are causing the legitimate operations difficulties.

Please know we pledge our support to your department and offer any assistance you might require.

Sincerely,

Farrel J. Vail,
Executive Director

A matter which has not yet attracted much attention — but will — is that of pull-tabs, which are, for those who don't know, little devices with cornered numbers. The right number wins a prize. They seem to me to perform the same function as punchboards, but some members of the administration by strange logic consider them "paper slot machines."

Pull-tabs have been used for some time by a number of fraternal, social and philanthropic organizations in the state. They have been sold at the weekly or bi-weekly bingo nights, and information available indicates that they have raised more money than bingo itself.

Because of reported abuses in the Anchorage area the Department of Revenue last year to ban pull-tabs. A memo sent to all holders of bingo permits in the state would have cut them off immediately. Organizations in the Fairbanks area quickly, and properly, contacted the Fairbanks delegation.

When I followed up on this matter it turned out that revenue had not bothered to get an attorney general's opinion on pull-tab legality. I pointed out the good causes being assisted by organizations affected, and questioned the advisability of the prohibition. Other legislators raised a ruckus, too.

As a result of the protests the attorney general was asked for an opinion. Stripped of all the legal pros, cons and whereases, it said the revenue could make pull-tabs legal or illegal — the law is flexible enough for either. Revenue then bucked the problem upstairs to the governor, who decided that pull-tabs would be illegal after Dec. 31, 1981.

SB 632, which I introduced, would clearly state that pull-tabs are legal. It would remove them from arbitrary action by the governor or Department of Revenue. Why do I believe this to be necessary?

First, a few abuses in the Anchorage area is insufficient reason for abolishing the practice. If there are abuses then regulations can be changed and/or effective enforcement action

taken. If there is fraud or personal enrichment at the expense of the organizations and the good causes they support — prosecute.

Second, purchase of pull-tabs is voluntary. We have not had one reported instance in which a buyer was handcuffed, dragged in, and forced to spend his money.

Third, the amount of good done by fraternal, social and philanthropic organizations is incalculable and pull-tabs have been a primary source of their income. Here are only a few of the good causes which have been helped:

20-30 scholarships are awarded annually to Native students enrolled in colleges and universities throughout the nation by the Cook Inlet Native Association, which has used pull-tabs. The Eagle's Lodge, Aerie 1037, contributed \$30,661 to various organizations including the United Way, Fairbanks Memorial Hospital as well as 41 other organizations. The Alaska Black Caucus also uses pull-tabs as a fund-raising device.

It is too bad that the governor regards the sale of pull-tabs as somehow "immoral." It is too bad that he decided to impose his own standards on the rest of Alaska. It is too bad that he is threatening to veto the bill if it passes.

One can only wonder how many Alaskans would be here if they didn't take chances. In many bush areas they take chances with their lives — over and over again. Many people in the construction and transportation fields take chances.

On a lower level — how many Alaskans who came here from somewhere else had guaranteed security when they came? (We didn't. We had three teen-agers, a dog, a nine-year-old car, less than a \$1,000 — and no job when we came).

I'm afraid the administration is getting too conservative, too unwilling to admit risk into Alaskan life. When it comes to handling public money that's not a bad approach. When we are talking about the individual decisions made by individual Alaskans it's time to draw the line.

House Judicial Committee Constitutional Session

A slightly muddled House Judiciary Committee wrestled valiantly with compound-complex grammatical problems before wording a committee substitute for House Joint Resolution (HJR) 12, which would constitutionally limit legislative sessions to 120 days, with a possible one-time extension of up to ten days. And a slightly cynical committee member suggests that even a constitutional provision may not be an absolute bar to longer sessions.

Citing practices of the Oregon Legislature — which is constitutionally supposed to meet for only 60 days every other year, but routinely calls itself into special session time after time — Rep. Russ Meekins said of Alaska's proposed constitutional session limit, "The first time, you violate it; after that, it's easy."

Meekins explained later that he fully supports the popular session limit idea, but also pointed out that the public may at some other time think the Legislature should meet for as long as it takes to get the work done. Since the Constitution allows the Legislature to call itself into special session by a two-thirds vote, legislators

State tells Lions to stop bingo games

by Patti Epler
Times Writer

Two Anchorage Lions clubs could lose up to \$400,000 a year in revenue, most of which is donated to charities, if a Superior Court judge agrees with a state ruling prohibiting the club's bingo games.

Friday, the Fairview Lions and Government Hill Lions were notified by the state Department of Revenue that their darts game and pull tab or "ripples" game were illegal under state law. The state suspended their permits to conduct games of chance and skill — permits which also include the bingo games.

The clubs — and Taurus Inc.,

owners of the Lions' Plaza Bingo on Minnesota Drive — filed a lawsuit that afternoon. They succeeded in obtaining a court order temporarily allowing them to continue the operation until Superior Court Judge Daniel Moore can rule on the case.

A hearing before Moore is scheduled for 3 p.m. today.

The lawsuit — which names Commissioner of Revenue Tom Williams and revenue investigator Gilbert Hjellen as defendants — contends that the Lions and the community will suffer substantial loss if the state order to shut down the bingo operation is ruled valid. The Lions were never given a chance to discuss

the suspension with state officials, the lawsuit said.

The state's decision to suspend the Lions' permits apparently surrounds the legality of the darts game and pull tab game, both of which the state contends are illegal games of chance.

The suspension is effective for 90 days. The state said it would then seek to revoke the permit for a one-year period.

Fred Zimmerman, president of the Fairview Lions, said Wednesday the bingo game and other games bring in about \$400,000 annually to the Lions. About \$360,000 of that, Zimmerman said, is given to charities, including the Lions' Eye Bank,

which matches donors with potential eye recipients.

Zimmerman said the Lions have been sponsoring the bingo games for about a year and a half. "We have to report where our money goes," he said. "There's just no way of putting money in our own pockets. It's always been a good service and now they're (the state) saying it's not a good service."

The pull tab game involves small paper cards with strips covering rows of three pictures similar those found on slot machines. Players pull away the strips and win if the objects — lemons, apples, gold bars and other items — match up.

MEMORANDUM

TO: Sen. Pat Rodey
FROM: Sen. Vic Fischer
DATE: March 3, 1982
RE: SB 632, games of chance

In approving a committee substitute, the State Affairs Committee omitted a section initially proposed by Sen. Parr that eliminated a ceiling on the amount of prizes that could be awarded in a lottery.

We did not really address this issue, the principal response being that we should not remove any limit.

At the same time, there was recognition that the current \$30,000 limit is too low. You might consider a provision increasing the present limit to \$80,000 or \$100,000.

Thanks for your consideration.

One Revenue Enforcement Officer III is needed for field compliance work, and one Clerk Typist III is needed for clerical support. This legislation will expand the number of permits issued each year and the types of games and/or contests available. Relaxing prize limitations will bring about an interest from professional gaming entrepreneurs.

SUBJECT: SB 632
State Affairs and Judiciary

This bill proposes to amend five sections of AS 05.15. The effect of these proposed changes is to considerably broaden the privileges granted with the issuance of a games of chance and skill permit.

The original language of AS 05.15.100 limited the games of chance to only those activities listed (i.e., bingo, raffles, lotteries, ice classics, rain classics, dog mushers' contests and fish derbies). New games of chance would have to then be allowed under one of those listed. The proposed language removes that limitation and taken in context with sections 2 and 3 of the bill, would allow any game of chance which could be contrived where the element of chance and luck is foremost, regardless of whether those games of chance existed in Alaska prior to statehood. Since the original intent of the legislation was to permit continuance of those gaming activities after statehood which existed in territorial days, this change is a considerable divergence.

The only remaining limitation would be the limitation on use of gambling implements found in AS 05.15.180(a). This would presumably prevent the introduction of casino type hardware and coin operated video games as games of chance, but would not prevent the legal introduction of games of chance such as can be contrived by profit-seeking individuals and nonprofit organizations striving to maximize their take in an extremely competitive industry.

Section 2 of the bill would serve to supercede the existing administrative regulation 15 AAC 105.120(4) which reads:

"(4) In holding, operating and conducting raffles or lotteries, a permittee may not raffle prizes of personal property, including cash or a negotiable instrument, the aggregate total of which is in excess of the sum or value of \$30,000 in any one calendar year and real property in excess of the sum or value of \$50,000 in any one calendar year."

Lifting this limit would obviously permit substantially larger raffles to be held in Alaska, and would just as obviously invite the interest and participation of profit-seeking individuals into an activity which was originally designed for nonprofit, community oriented organizations. This profit opportunity is exactly what led to the all-too-frequent situation that exists in bingo in Alaska today, i.e. the nonprofit organization which holds a permit receiving a mere fraction of the gross receipts, with the control and use of the proceeds going to the profit-seeker who runs the games.

R.D. Stevenson
Legislative Assistant

-2-

January 25, 1982

Section 4 would amend the statutory definition of "labor organization" to apparently include any organization constituted "wholly or partly to bargain collectively or deal with employees..." It should be pointed out that this includes virtually any trade group, or industry conference. If this is the intent, it would be far better in my opinion to draft a new section called "trade group", or whatever.

Also, the way it reads now, possibly any state agency or political subdivision of the state would be entitled to a permit. Although many cities and villages would like to have permits, it seems unlikely that it is intended for a state agency to hold such a permit.

This bill should be referred to counsel for a simple, straightforward approach to achieve the desired purpose.

HB 646

February 1, 1982

The Honorable Ramona Barnes, Chairman
House Judiciary Committee
Pouch V
Juneau, AK 99811

Re: Suggested changes in HB 640 so that only pull-tabs and punchboards are added to authorized games of chance and skill

Dear Madam Chairman:

At your request the following language is suggested for HB 640 so that only pull-tabs and punchboards of one dollar or less are added to the currently authorized games of chance and skill:

"BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 05.15.210(16) is amended to read:

(16) "raffle and lottery" means the selling of rights to participate, and the awarding of prizes, in the specified kinds of games of chance sometimes known as pull-tab and punchboard games in which the price of each chance is \$1 or less and in the specified kind of game of chance sometimes known as a raffle or lottery, conducted by the drawing for prizes by chance.

* Sec. 2. This Act takes effect immediately in accordance with AS 01.10.070(c)."

In order to satisfy the Governor's requirement that the issue be placed before the voters before pull-tabs and punchboards are authorized, Section 2 in the preceding draft would have to be replaced by the following two sections:

* * Sec. 2. The Lieutenant Governor shall place the following question on the next general election ballot:

Shall this Act, amending the Bingo, Raffles and Ice Pools Act to extend the definition of raffles and lotteries so as to include games of chance sometimes known as pull-tab and punchboard games, in which the price of each chance is \$1 or less, take effect?

Yes

No

Is scal note?

Page 2

" * Sec. 3. This Act takes effect upon certification of the election results by the Lieutenant Governor, showing that the majority of the voters casting ballots voted in favor of enactment, but no sooner than January 1, 1983."

I hope these suggestions will be of assistance to your Committee in your deliberations on HB 640. Please do not hesitate to contact me if you or the Committee have any further questions on this matter.

Very truly yours,

Last year the Department of Revenue asked the Attorney General for an opinion as to whether or not municipalities qualified under AS 05.15 as qualified organizations. Susan Burke, assistant attorney general, in an opinion dated February 4, 1981, said that they did not. This change would include municipalities as organizations eligible for permits under Title 5.

Sec. 05.15.100. COMMISSIONER OF REVENUE MAY ISSUE PERMITS. The commissioner of revenue may issue a permit to a qualified organization or municipality. The permit gives the organization the privilege of conducting games of chance and contests of skill including bingo, raffles and lotteries, ice classics, rain classics, dog musher's contests, and fish derbies [AND CONTESTS OF SKILL].

Sec. 05.15.140. PROOF NECESSARY TO QUALIFY FOR PERMIT. The commissioner of revenue may not issue or renew a permit except upon proof, satisfactory to him, that the applicant is a qualified organization or municipality, and activity may be permitted under this chapter....

Dear Dick:

Thank you for your letter of the 27th and for the copy of your Senate Bill 637.

Main reasons for the bill are to make it easier to get a quorum for meetings and to broaden the knowledge base of the Commissioners on the Historical Commission.

No increased appropriation request is anticipated as a result of the increase - the Commission will either hold fewer meetings or schedule its meetings at central locations to reduce cost.

If you feel that the bill will need active support from a Commissioner when it is before the Senate State Affairs Committee, I shall be glad to testify. In that event, please advise me when it comes up.

I am very grateful for your support in this matter.

Sincerely,

COMMENTS ON SENATE BILL 652

"An Act relating to confidentiality of trade secrets supplied to the Department of Environmental Conservation"

Senate Bill 652 would allow DEC to maintain confidential certain types of information supplied to us. It would apply to all DEC programs. The Department currently has confidentiality clauses for our air, hazardous waste, radiation, and oil pollution control programs.

However, our wastewater disposal statute requires that we send permit applications to other agencies, and our own regulations provide that "all Department records are available to the public unless they are exempt by law."

Why is this bill needed?

The basic purpose of this statute is to allow the Department to keep confidential from potential competitors information we need from permit applicants to assure that their operations will meet Alaska's environmental standards. This bill was drafted by the Department as a result of public hearings throughout the state last June, regarding the possible development of a petrochemical industry in Alaska.

If you recall, the Department's report concluded that certain types of petrochemical development could be carried out in Alaska without major adverse environmental effects, if available methods of pollution control were employed. It was emphasized that the Department would require information on processes and wastes to determine if state standards could be met. Such information in the chemical industry could be of value to competitors. Mr. Arch Cook, a Dow engineer supervising the construction of Alberta Gas Ethylene's polyethylene plant in Red Deer, Alberta, told me that the catalyst to be used there is a company secret and a definite competitive advantage.

If spent catalyst is proposed for disposal under our current hazardous waste statute, we can keep that information confidential. If it somehow becomes involved in a wastewater disposal, we cannot.

This issue is not limited to the petrochemical industry. The Department has been, for several months, working with a corporation regarding the future development of a mining property within Alaska. This corporation wishes to prevent future air and water pollution from the operation and has involved us in their work. They have a considerable amount of information developed at great cost. If copies of their reports are provided to

us, they could be the subject of a public information request to us from other leaseholders in the area. To avoid duplicating their work in our environmental quality monitoring program, we have requested and have received from them a summary of what they have done, and they have discussed its significance with us. This process would be easier, however, if we had an overall ability to protect genuine proprietary information.

Another case recently occurred on the Kenai Peninsula where a septage pumper asked us not to release the engineering design for a disposal facility he was proposing.

The state technical team which worked on the petrochemical project frequently encountered a need for information which may be proprietary. Information was needed on processes and by-products to determine the needs for safety precautions, spill prevention and cleanup, treatment requirements, and overall environmental impact.

This Department has no interest in keeping pollutant emission levels confidential. The components of waste streams being released to the state's lands, air or water will be provided to the public. Our air statute is worded to specifically exclude emission data from confidentiality provisions. But such public disclosure need not require provision of detailed process flow charts or engineering designs.

We would have no objection to providing information to another agency, if that agency could maintain its confidentiality. It may be appropriate to amend such a provision into the bill. We encourage your enactment of Senate Bill 652.
