

ALASKA LEGISLATURE COMMITTEE FILES 1987-1988 8672

4509 HHS PL 874 - RESUME: MYRA MUNSON

8

## DEFINITIONS OF REQUIRED EXPENDITURE CLASSIFICATIONS

**REGULAR INSTRUCTION** - Activities dealing directly with the teaching of pupils in the classroom or in some instances in the home or hospital. Direct instruction costs funded under vocational education, special education, bilingual, or correspondence pupil provision of the foundation program are not classified under the regular instruction function. Such costs are classified under separate instruction functions.

Under this function would be classified such objects of expense as classroom teacher salaries, teacher aide salaries, employee benefits, teaching supplies, textbooks and equipment used in the classroom in the regular instruction teaching process. Such objects of expense as salaries and related costs of principals, supervisors, coordinators, directors and counselors are not classified under any of the instruction functions nor are the costs of inservice teacher training, conferences or workshops.

**VOCATIONAL EDUCATION INSTRUCTION** - Activities dealing directly with teaching of pupils in the classroom or other facility. Under this function would be classified those direct costs of instruction which would be included in school district's approved plan of service for vocational education. Under this function would be such objects of expense as vocational education teachers salaries, substitute teacher salaries, employee benefits, teaching supplies, textbooks, instructional equipment repair. Objects of expense for the supervision of vocational education are not classified here. They are classified under Instructional Support.

**CORRESPONDENCE STUDY** - Activities dealing directly with teaching of pupils when the primary medium of instruction is written communication between the instructor at one physical location and the pupil at another physical location. Under this function would be classified such objects of expense as correspondence courses, teachers' salaries and benefits, travel to visit correspondence pupils, teaching supplies and postage. The costs of correspondence courses used in the classroom with the teacher and pupil in the presence of one another are not classified here.

**SPECIAL EDUCATION** - Activities dealing with the teaching of exceptional pupils in the classroom or other facility. Under this function would be classified those direct costs of instruction of the child who deviates from the average or normal child in mental, physical or social characteristics to such an extent that he requires a modification of school practices or special education services in order to develop his maximum capacity. Under this function would be classified such objects of expense as special education teacher salaries, speech and hearing therapist salaries, teacher aide salaries, employee benefits, teaching supplies and instructional equipment.

**BILINGUAL/BICULTURAL EDUCATION** - Activities dealing with the teaching of pupils in the classroom or other facility. Under this function would be classified those direct costs of instruction which is designed for children of limited English-speaking ability.

**OTHER SPECIAL PROGRAMS** - Community education programs that are run through the district.

**PUPIL SUPPORT; INSTRUCTION** - Activities designed to assess and improve the well-being and health of students and to supplement the teaching process. Under this function would be

classified those direct costs of guidance and testing services, psychological services, health services, speech pathology and audiology services, counselors' and nurses' salaries, testing services and supplies, and health supplies.

**PUPIL SUPPORT; NON-INSTRUCTION** - Activities designed to promote and improve the attendance of pupils. Also included are the costs of operating dormitories or providing boarding homes for pupils who reside away from home to attend school.

**INSTRUCTIONAL SUPPORT** - Activities pertaining to the improvement of instruction and assisting the instructional staff with the content and process of providing learning experiences for pupils. Under this function would be classified the costs of such supporting activities and services as supervision and direction of instructional programs, curriculum development, instructional staff training, library services, audio-visual services and television services. Objects classified here would include salaries for curriculum directors, vocational education directors, special education directors, librarians, audio-visual and television technicians, travel, supplies, clerical salaries, equipment, employee benefits and contractual services.

**GENERAL SUPPORT** - Consists of those activities concerned with the establishing policy, operating schools and the school system, and providing essential facilities and services for the staff and pupils. Under this function would be classified the salaries and related expense of the superintendent's office, principals' offices, school board and other general administrative offices.

**OPERATION AND MAINTENANCE** - Consists of activities involved with keeping the physical plant open and ready for use, and keeping the grounds, buildings and equipment in an effective working condition and state of repair. Included under this function are such objects of expense as custodial and maintenance salaries, janitor salaries, building and maintenance supplies, utilities, rental of facilities, insurance, and repair services.

**PUPIL TRANSPORTATION** - Consists of those activities involved with the conveyance of pupils between home and school and between school and other locations for instructional purposes. Under this function would be classified the costs of contracted or district operated bus services whether reimbursed by the state in full or not.

**FOOD SERVICE FUND** - Consists of those non-instructional activities involved with the management and operation of food service programs of the school or school system; the preparation and serving of regular and incidental meals, lunches or snacks in connection with school activities.

**PUPIL ACTIVITY FUND** - Consists of accounts for the transaction of school-sponsored pupil activities (clubs, interscholastic activities, etc.).

**OTHER FUND TRANSFERS** - Special designated revenue funds, whose uses and limitations are specified by legal authority and generally whose resources cannot be diverted to other uses (eg. ESEA, Johnson O'Malley, Indian Education, Federal Vocational Education Act, etc.) and/or indirect costs from federal grants, etc.

## DEFINITIONS OF REQUIRED EXPENDITURE CLASSIFICATIONS

**REGULAR INSTRUCTION** - Activities dealing directly with the teaching of pupils in the classroom or in some instances in the home or hospital. Direct instruction costs funded under vocational education, special education, bilingual, or correspondence pupil provision of the foundation program are not classified under the regular instruction function. Such costs are classified under separate instruction functions.

Under this function would be classified such objects of expense as classroom teacher salaries, teacher aide salaries, employee benefits, teaching supplies, textbooks and equipment used in the classroom in the regular instruction teaching process. Such objects of expense as salaries and related costs of principals, supervisors, coordinators, directors and counselors are not classified under any of the instruction functions nor are the costs of inservice teacher training, conferences or workshops.

**VOCATIONAL EDUCATION INSTRUCTION** - Activities dealing directly with teaching of pupils in the classroom or other facility. Under this function would be classified those direct costs of instruction which would be included in school district's approved plan of service for vocational education. Under this function would be such objects of expense as vocational education teachers salaries, substitute teacher salaries, employee benefits, teaching supplies, textbooks, instructional equipment repair. Objects of expense for the supervision of vocational education are not classified here. They are classified under Instructional Support.

**CORRESPONDENCE STUDY** - Activities dealing directly with teaching of pupils when the primary medium of instruction is written communication between the instructor at one physical location and the pupil at another physical location. Under this function would be classified such objects of expense as correspondence courses, teachers' salaries and benefits, travel to visit correspondence pupils, teaching supplies and postage. The costs of correspondence courses used in the classroom with the teacher and pupil in the presence of one another are not classified here.

**SPECIAL EDUCATION** - Activities dealing with the teaching of exceptional pupils in the classroom or other facility. Under this function would be classified those direct costs of instruction of the child who deviates from the average or normal child in mental, physical or social characteristics to such an extent that he requires a modification of school practices or special education services in order to develop his maximum capacity. Under this function would be classified such objects of expense as special education teacher salaries, speech and hearing therapist salaries, teacher aide salaries, employee benefits, teaching supplies and instructional equipment.

**BILINGUAL/BICULTURAL EDUCATION** - Activities dealing with the teaching of pupils in the classroom or other facility. Under this function would be classified those direct costs of instruction which is designed for children of limited English-speaking ability.

**OTHER SPECIAL PROGRAMS** - Community education programs that are run through the district.

**PUPIL SUPPORT: INSTRUCTION** - Activities designed to assess and improve the well-being and health of students and to supplement the teaching process. Under this function would be

classified those direct costs of guidance and testing services, psychological services, health services, speech pathology and audiology services, counselors' and nurses' salaries, testing services and supplies, and health supplies.

**PUPIL SUPPORT: NON-INSTRUCTION** - Activities designed to promote and improve the attendance of pupils. Also included are the costs of operating dormitories or providing boarding homes for pupils who reside away from home to attend school.

**INSTRUCTIONAL SUPPORT** - Activities pertaining to the improvement of instruction and assisting the instructional staff with the content and process of providing learning experiences for pupils. Under this function would be classified the costs of such supporting activities and services as supervision and direction of instructional programs, curriculum development, instructional staff training, library services, audio-visual services and television services. Objects classified here would include salaries for curriculum directors, vocational education directors, special education directors, librarians, audio-visual and television technicians, travel, supplies, clerical salaries, equipment, employee benefits and contractual services.

**GENERAL SUPPORT** - Consists of those activities concerned with the establishing policy, operating schools and the school system, and providing essential facilities and services for the staff and pupils. Under this function would be classified the salaries and related expense of the superintendent's office, principals' offices, school board and other general administrative offices.

**OPERATION AND MAINTENANCE** - Consists of activities involved with keeping the physical plant open and ready for use, and keeping the grounds, buildings and equipment in an effective working condition and state of repair. Included under this function are such objects of expense as custodial and maintenance salaries, janitor salaries, building and maintenance supplies, utilities, rental of facilities, insurance, and repair services.

**PUPIL TRANSPORTATION** - Consists of those activities involved with the conveyance of pupils between home and school and between school and other locations for instructional purposes. Under this function would be classified the costs of contracted or district operated bus services whether reimbursed by the state in full or not.

**FOOD SERVICE FUND** - Consists of those non-instructional activities involved with the management and operation of food service programs of the school or school system; the preparation and serving of regular and incidental meals, lunches or snacks in connection with school activities.

**PUPIL ACTIVITY FUND** - Consists of accounts for the transaction of school-sponsored pupil activities (clubs, interscholastic activities, etc.).

**OTHER FUND TRANSFERS** - Special designated revenue funds, whose uses and limitations are specified by legal authority and generally whose resources cannot be diverted to other uses (eg. ESEA, Johnson O'Malley, Indian Education, Federal Vocational Education Act, etc.) and/or indirect costs from federal grants, etc.

*EDUCATIONAL FINANCE AND SUPPORT SERVICES*

MEMORANDUM

FROM: Jerald L. Mikesell  
Director, EFSS

SUBJECT: P.L. 81-874

DATE: December 17, 1987

---

Traditionally throughout most of the United States, local school districts obtain their financing through revenues raised by local property taxes. In areas where assessed property values are high, a school district can generate substantial revenues with a low tax mill rate; conversely in poorer areas, a higher mill rate still will not generate enough revenue to finance a school district on a par with schools from wealthier areas.

In many school districts throughout the United States, a portion of the land is "federal land" (including military reservations, Indian lands, and other federal ownership designations). Federal land is exempt from taxation. This exemption decreases the revenue base for local school districts, and the school districts face two consequences from this situation. First, a school district must tax the remaining property owners at a higher mill rate in order to generate the same overall level of revenue that it could generate if all land was subject to taxation. Second, people who live and/or work on this federal land have additional children who attend the local schools, and therefore put an additional financial demand upon the resources available to the school district. These two problems - decreased revenue base, increased students and revenue demand - compound the burden upon local property owners to finance local education.

To offset these difficulties, Congress has passed PL-81-874. This law is designed to compensate school districts for lost revenues due to federal property ownership and tax exemption of land within the school district boundaries, and to compensate for the extra school children attending local schools from the untaxed federal land.

Over the years, states have devised several methods of equalizing educational expenditures or at least establishing equal minimum expenditure floors in the school districts of the state.

In administering their state equalization programs, states began taking into account PL-874 funds received by school districts. Some states would calculate the basic funding level that each school district was to receive, and then subtract from that basic funding level a certain proportion of local revenues, including PL-874 funds as local revenues, before actually appropriating state aid to local school districts.

In 1974, Congress amended PL-874 to allow states to consider PL-874 funds in their equalization formulas if certain restrictions were met. Alaska has for several years deducted a portion of the state foundation payment to certain local school districts as part of its equalization plan.

Congress also designated an additional 50% of the basic entitlement in PL-874 funds for handicapped "Impact Aid" students. These funds were to "follow the student" and could not be considered in the equalization formulas of the state.

When the federal government decided to get out of the education business by closing down the BIA schools and shifting the responsibility of educating Indian children to the local school districts, they offered a bonus of 25% more Impact Aid money to those districts that provide education to children living on Indian land. Proposals currently before congress would prohibit states from using the "Indian" money as part of their equalization plans also. Alaska receives approximately \$8,100,000 in "Indian" money.

The State of Alaska currently contracts the educational program for the military base students in Anchorage, Fairbanks and Kodiak to the Anchorage, Fairbanks and Kodiak Borough School Districts. The Alaska Department of Education is the applicant for Impact Aid for the students residing on these bases. Through state foundation and tuition payments the Department of Education secures for the students residing on these bases a quality education that works to the advantage of the military, the state and the local districts. Proposed regulation changes by the USD OE would require the districts directly providing the services to the students be the applicant for the Impact Aid payments.

# Feds fine Alaska for improper distribution of funds

By SUE CROSS

THE ASSOCIATED PRESS

Alaska expects to be docked close to \$6 million and could lose \$50 million more in federal education aid because the state improperly distributed special education funds and allegedly allowed too great a disparity between its richest and poorest school districts, state officials said last week.

The federal Department of Education says Alaska mishandled up to \$1.5 million a year over the last four years, money the federal government provides to pay for special education students living on military bases in Alaska.

The money should have been designated for individual students, with the funding to follow a student who changed school districts, according to Steve Hole, Alaska deputy commissioner for education.

The state never allocated the money per student, but from fiscal 1984 through fiscal 1987, lumped it in with general education funds, Hole said.

Alaska is being penalized for the error by having its future federal education aid docked by the same amount of money that was mishandled, Hole said. The state has been notified it will lose an estimated \$3 million for two of the problem years, and expects to be penalized another \$3 million for the most recent years, he said.

If the same mistake occurred at the local district level — a possibility the federal government is investigating — the state could end up covering \$12 million more in penalty losses, Hole said.

In addition, the state faces a potential penalty of up to \$38 million in connection with a separate allegation: that Alaska's school funding last year did not meet federal disparity requirements. Hole said the state plans to fight that allegation and seek a waiver of any penalty.

The state will not appeal the penalty in the special education funds case because it's clear the state was in error, he said.

"Our review of the facts indicated they probably had a legitimate point. It's just that it was a new one for us," Hole said.

He said he did not know why the federal government didn't tell the state sooner it was mishandling the money. The regulation was on the books, but the state did not realize how the federal government was interpreting it until federal auditors raised the issue this fall, Hole said.

The federal official in charge of the Alaska review, Dexter Majers, retired Thursday and could not be reached for comment. An official at the federal Department of Education's audit division in Washington said Majers would be returning to handle the case as a consultant, and said no one else in the office could answer ques-

tions about it.

Alaska schools get about \$68 million a year from the federal government in what are usually called "874 funds" after the law that established them, Hole said. The payments reimburse the state for educating children who live on military bases and for federal land that cannot be taxed. Most of the money goes directly to districts.

Hole said the federal government now is auditing school districts to look for the special education funds problem at the local level. Districts generally get a higher per-student funding level for students requiring special education, including those that are physically or mentally handicapped.

Districts that haven't designated special education funds to individual students could be penalized, and the state will end up footing the bill," Hole said.

Under the state's school foundation funding formula, most education costs that aren't covered by the federal government are paid for by the state. If districts are penalized, that will just increase the state's share of the annual education budget, Hole said.

As a result of the federal audit, the state is setting up a separate account to handle special education funds. The fund and new accounting procedures, beginning with the 1989 budget year, will satisfy federal requirements and should prevent further penalties, Hole said.

The state still has to answer to the federal government on a separate question involving the distribution of 874 funds in fiscal 1987.

Federal officials are questioning whether Alaska met disparity standards for \$38 million in federal aid distributed that year to rural schools, said Tom Wagner, an assistant state attorney general working on the case.

"The burden of proof is on the state to demonstrate we're in compliance," Wagner said.

Unless the state can prove it met the standard, Alaska could be held liable for up to the full \$38 million, and have that amount subtracted from its future federal aid, Wagner said.

Even if the state is found out of compliance, it will try to negotiate a smaller penalty, he said. One possible remedy would be to reimburse districts that came out on the short end of the disparity test, he said.

The test says the richest district's per-student funding can't be more than 25 percent greater than the poorest district's funding. Geographic differentials and special costs are not counted in the calculation.

Wagner said the state will try to show it met the disparity test in fiscal 1987, or that it qualified for the federal funds under one of two other regulations.

The state is preparing to defend itself at an administrative hearing scheduled Feb. 3 in Juneau.

## Iditarod romance ends with wedding in woods

THE ASSOCIATED PRESS

**PETERS CREEK** — A snowy wedding in the woods Thursday capped a year-long courtship for Norman Vaughan, the 82-year-old dog musher and polar explorer who wooed his bride-to-be during a thousand-mile sled dog race.

Vaughan married Carolyn Muegge, a 45-year-old Georgia woman who met Vaughan while handling his dog team in the 1986 Iditarod Trail Sled Dog Race from Anchorage to Nome.

The wedding was held under lightly falling snow outside the rustic Forks Roadhouse, eight miles from the nearest plowed road and 50 miles from Mount McKinley.

About 200 friends and family members arrived by dogsled, snowmachine, cross-country skis or helicopter. The altar was a snow-covered platform festooned with spruce boughs and a ceramic dog team molded in miniature. Iditarod musher Burt Bomhoff administered the vows.

"I'm a very happy man. Getting married to a girl like Carolyn is a great experience and a great adventure. You can't beat that," Vaughan said after an informal ceremony punctuated by the howls

and gold-mining artifacts.

Vaughan said he and Muegge planned to drive a dog team later Thursday to his log cabin a few miles away, where they will enjoy a brief honeymoon before Muegge returns to Atlanta for business.

Vaughan is a retired Air Force colonel who has mushed dogs for 60 years. He has signed up for this year's Iditarod, his 11th run in the punishing, 1,100-mile mushing marathon.

He also plans to fly this summer to Greenland, where he has tried for several years to recover two U.S. bombers and six fighters that crash-landed on a glacier during World War II.

He's also planning an Antarctic expedition. A member of Admiral Richard Byrd's first Antarctic expedition in 1929, Vaughan said his plans for a return trip by dog sled include standing on the South Pole on his 85th birthday: Dec. 19, 1990.

Muegge, of Marietta, Ga., also likes adventure and has worked for an Atlanta-based guiding service catering to business executives.

She came to Alaska to help Vaughan run the 1986 Iditarod. Vaughan dropped out of that race after a fall from his sled cracked

**Mushers married:** Carolyn Muegge and adventurer Norman Vaughn are wed outside the rustic Forks Roadhouse.

est. He has entered the race nine times since 1975 but has finished only four times — always at the back of the pack.

Last March, he posted his slowest time ever, finishing 26 days af-

and the slow pace allowed time for a romance that Vaughan now admits he had been cultivating for some months. They stuck together the entire distance from Anchorage to Nome.

Mayor Leo Rasmussen, who greets every Iditarod finisher.

"When they finished, I could see that there was something definitely between them that I had never seen with any other mushers,"

## Fink sworn in as mayor of Anchorage

THE ASSOCIATED PRESS

**ANCHORAGE** — Tom Fink was sworn in Saturday as Anchorage's 30th mayor in a ceremony that focused on his pledge to restore the city's battered economy. The theme of the inaugural was "A Right Beginning..."

A crowd of about 300 at the Egan Civic and Convention Center heard a rendition of "The Impossible Dream." And Fink's son, 20-year-old Josh, read Robert Frost's "The Road Not Taken."

Retired state Superior Court Judge Ralph Moody administered the oath of office.

In a brief speech, Fink paid respects to his unsuccessful tries for public office in the past decade. "I feel a little like a dog that has been chasing cars for years and then one day I catch the car," he said.

Fink since 1978 has unsuccessfully run for governor twice, and mayor once.

The speech covered mostly familiar ground. He has said he needs to convince Anchorage residents that the economy is bad and getting worse. Saturday, he delivered the message clearly.

"Our friends and neighbors, the business and community leaders,

# STATE OF ALASKA

## DEPARTMENT OF EDUCATION

OFFICE OF THE COMMISSIONER

BILL SHEFFIELD, GOVERNOR

GOLDLIELT PLACE  
801 WEST 10th STREET  
POUCH F  
JUNEAU, ALASKA 99811

January 7, 1987

The Honorable Niilo Koponen  
The Honorable Johnny Ellis  
Co-Chairmen, House HESS  
Alaska State Legislature  
P.O. Box V  
Juneau, AK 99811

Dear Representatives Koponen and Ellis:

Several Federal Impact Aid issues confront the state:

1. The apparent failure of the FY87 Foundation Program to meet the disparity test required of states that count Impact Aid in the distribution of state aid to public schools.

Federal Impact Aid regulations require that the disparity (the difference between the richest and poorest districts) in the amount of current expenditures or revenue per pupil for free public education among local educational agencies in the State be no more than twenty-five percent for the fiscal year in which Impact Aid is part of the distribution formula. During FY87, the disparity was far in excess of the twenty-five percent standard.

A formal hearing has been requested by the State of Alaska to determine if the disparity test can be waived and the State allowed to qualify under the "exceptional circumstances" test. Failure to qualify will probably require the State to negotiate a settlement with the Federal Impact Aid office. Probably the least costly reconciliation would be for the State to give back to the local educational agencies all or part of the money deducted as part of the FY87 Foundation Program.

2. Regulations are being drafted by the Federal Impact Aid office which would prohibit the State from being the applicant for and recipient of Impact Aid for military base schools.

The State of Alaska contracts the educational program for the on-base students in Anchorage, Fairbanks and Kodiak to the Anchorage, Fairbanks and Kodiak Borough School Districts. The Kodiak base school was contracted in 1970 and the Anchorage and Fairbanks base schools were first contracted in 1975. Since the Anchorage, Fairbanks and Kodiak base schools were being funded at 100% through state foundation and tuition, it was less complicated for the Alaska Department of Education to continue to include these base schools in the Department's P.L. 81-874 application rather than as part of three separate REAA applications.

One distinct advantage to the State is that all of these students qualify as "Super A" students and are funded at a much higher rate than if they were simply rolled into the respective school districts currently providing the educational programs. Loss of the Super A status for many of these students could decrease the revenue the State of Alaska generates from Federal Impact Aid by several million dollars.

Legal options are still being explored to reconcile the situation. It is the goal of the Department of Education and the military leaders to not disrupt the educational programs of the students and to provide as high a level of education and growth opportunity as is currently available.

3. Federal audits have revealed that at both the State Department of Education and local school district levels, extra funds paid under P.L. 81-874 to offset special education costs were incorporated into the general funds and not designated to follow the student with the handicapping condition.

A full accounting of the impact of these audit exceptions has not been received by the Department of Education. However, preliminary reports indicate that the Federal Impact Aid office will disallow as much as \$12,000,000 in claims for previous years.

The current Foundation Program has the State supplementing ninety percent of these losses at the local level because the state is guaranteeing a fully funded "basic unit" which includes ninety percent of the Impact Aid being received by the local district.

4. Currently, local educational agencies that have students living on Indian lands receive an extra twenty-five percent in Impact Aid funds. There is a proposed change in the Impact Aid statutes that would exempt this twenty-five percent from inclusion in the foundation distribution.

Alaska currently receives approximately \$8.1 million extra for students living on Indian lands. The full \$8.1 is now being deducted from the amounts the local educational agencies are receiving under the Foundation Program.

The Foundation Program presently funds each instructional unit at \$60,000. Local districts can contribute beyond the required four mills an amount that would provide no more than an additional twenty-one percent per instructional unit. Several districts are contributing close to this amount. If the loss of the \$8.1 million is not restored to the Foundation Program, the instructional unit value will have to be lowered and some of the districts close to the cap may end up causing the disparity percentage to exceed the twenty-five percent limit.

January 7, 1987

The Department of Education is working closely with the USDOE Office of Impact Aid and Alaska's delegation in Washington, D.C to resolve the above mentioned problems. The fiscal impact on the State of Alaska is likely to be considerable. It is imperative that educational programs that have already suffered severe cutbacks not be further impacted.

Sincerely,

  
William G. Demmert  
Commissioner

RESUME:

MYRA MUNSON

MYRA M. MUNSON

921 Cowles Street  
Fairbanks, Alaska 99701  
456-5848

PROFESSIONAL WORK EXPERIENCE

November 1983 to Present      Assistant Attorney General  
Attorney General's Office, Human Services Section  
100 Cushman Street, Suite 400  
Fairbanks, Alaska 99701  
452-1568

Most of my cases involve child abuse or neglect, including termination of parental rights. I have represented the Division of Medical Assistance in a reimbursement case and a class action. I represent the Department of Law on the State team of drafters in the Indian Child Welfare Act State-Tribal Agreement negotiations and have been active in developing procedures to implement Title IV-E of the Social Security Act. I have also been involved in mental commitments, guardianships, foster care, licensing, juvenile probation cases, and adoptions through litigation, offering training, and meeting with the court system, hospital, and other providers to develop local practice and procedure.

August 1980 to November 1983      Social Services Program Coordinator/Court Coordinator  
Department of Health and Social Services  
Division of Family and Youth Services  
Staff Development Training Center  
437 E Street, Suite 400  
Anchorage, Alaska 99501  
278-4626

I drafted and assisted in implementation of policy in many areas of practice where issues of law were present, including intervention in sexual abuse cases, Indian Child Welfare Act, confidentiality, licensing, and elder abuse and provided orientation and advanced training to state employees and almost every Alaska Native Regional Association in the State as well as many other provider groups. In other projects I helped draft regulations, negotiated amendments to the A.K. v. Ahtna Summary Judgement, and managed the application and trust responsibilities for Permanent Fund Dividend accounts for children in custody.

May 1982 to Fall 1983      Part-time Instructor  
University of Alaska - Anchorage  
Schools of Justice and Social Work

The classes were Juvenile Procedure (Justice 475), Social Services Law, and Indian Child Welfare Act.

1972 - 1977                      Social Work I - III  
                                    Division of Social Services  
                                    Department of Health and Social Services  
                                    Fairbanks, Alaska 99701

I provided direct child welfare services, took part in efforts to develop community based response to runaways, developed an extended work-day plan for Fairbanks social workers that is still in effect, was a participant in the formation of the Fairbanks Child Protection Task Force, and was a member of the statewide Youth Services Task Force, which resulted the following year in the first preventative services grant monies being appropriated.

### EDUCATION

1978 - May 1980                      University of Denver  
Masters Degree in                      Graduate School of Social Work  
Social Work                              Denver, Colorado

Specialization: Social welfare policy, administration and community development. Major research projects focused on "Succession of Leadership in Small Organizations", desirable attributes of leaders in small organizations, and developing evaluation tools for nursing homes.

#### Internships:

National Center for the Treatment and Prevention of Child Abuse and Neglect, Denver, Colorado, September 1979 - May 1980. I conducted research regarding transition of leadership, organized a national conference for the National Association of Counsel for Children, research adequacy of guardianship proceedings regarding children, and drafted sample legislation regarding representation of children and children's trust funds.

Ft. Logan Community Corrections Center, Denver, Colorado, September 1978 - May 1979. I provided direct counseling to inmates of this half-way house for prisoners preparing for parole after incarceration in Colorado prisons, participated in parole hearings, and arranged for community services.

1977 - March 1980                      University of Denver  
Juris Doctor                              College of Law (graduated first in class)  
    Denver, Colorado

#### Selected Internships:

Adams County Student Guardian ad Litem Project, University of Denver, College of Law, May 1979 - January 1980. In this program in which law and social work students were appointed as guardians ad litem in child abuse, custody, and adoption proceedings, I reviewed and assigned cases, conducted the class and supervised the other students for one quarter and acted as guardian ad litem in four cases.

1968 - 1972                      University of Alaska  
Bachelor of Arts                Fairbanks, Alaska
